Translation of a report originally issued in Spanish based on our work performed in accordance with the audit regulations in force in Spain and of consolidated financial statements originally issued in Spanish and prepared in accordance with the regulatory financial reporting framework applicable to the Repsol YPF Group (see notes 3 and 38). In the event of a discrepancy, the Spanish-language version prevails.

AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of
Repsol YPF, S.A.:

We have audited the consolidated financial statements of Repsol YPF, S.A. and Subsidiaries (the Repsol YPF Group), which comprise the consolidated balance sheet at December 31, 2010, the related consolidated income statement, consolidated statement of recognised income and expenses, consolidated statement of changes in equity, consolidated cash flow statement and notes to the consolidated financial statements for the year then ended. As indicated in note 3 to the accompanying consolidated financial statements, the directors are responsible for the preparation of the Repsol YPF Group's consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and the other provisions of the regulatory financial reporting framework applicable to the Group. Our responsibility is to express an opinion on the consolidated financial statements taken as a whole based on our audit work performed in accordance with the audit regulations in force in Spain, which require examination, by means of selective tests, of the evidence supporting the consolidated financial statements and evaluation of whether their presentation, the accounting principles and policies applied and the estimates made comply with the applicable regulatory financial reporting framework. Our work did not include an examination of the consolidated financial statements of Gas Natural SDG, S.A. and Subsidiaries, in which at December 31, 2010 the Repsol YPF Group held a 30.129% ownership interest, and whose assets and net profit represented 20.3% and 7.7%, respectively, of the corresponding consolidated figures of the Repsol YPF Group at the date. The consolidated financial statements of the aforementioned investee were audited by other auditors and our opinion as expressed in this report on the consolidated financial statements of Repsol YPF, S.A. and Subsidiaries is based, with respect to these investees, solely on the report of the other auditors.

In our opinion, based on our audit and on the report of the other auditors, the accompanying consolidated financial statements for 2010 present fairly, in all material respects, the consolidated equity and consolidated financial position of Repsol YPF, S.A. and Subsidiaries at December 31, 2010, and the consolidated results of their operations and the consolidated cash flows for the year then ended, in conformity with International Financial Reporting Standards as adopted by the European Union and the other provisions of the regulatory financial reporting framework applicable to the Group.

The accompanying consolidated management report for 2010 contains the explanations which the directors of Repsol YPF, S.A. consider appropriate about the situation of the Repsol YPF Group, the evolution of its business and other matters, but is not an integral part of the consolidated financial statements. We have checked that the accounting information in the consolidated management report is consistent with that contained in the consolidated financial statements for 2010. Our work as auditors was confined to checking the consolidated management report with the aforementioned scope, and did not include a review of any information other than that drawn from the accounting records of Repsol YPF, S.A. and Subsidiaries.

General information

Repsol YPF, S.A. and investees comprising the Repsol YPF Group (hereinafter “Repsol YPF,” the “Repsol YPF Group” or the “Group”) constitute an integrated group of oil and gas companies which commenced operations in 1987. The companies comprising the Group are listed in Appendix I.

The Repsol YPF Group is engaged in all the activities relating to the oil and gas industry, including exploration, development and production of crude oil and natural gas, the transportation of oil products, liquid petroleum gas (LPG) and natural gas, refining, the production of a wide range of oil products and the retailing of oil products, oil derivatives, petrochemicals, LPG and natural gas, as well as the generation, transportation, distribution and supply of electricity. The Group conducts its activities in a number of countries, primarily Spain and Argentina.

The corporate name of the parent of the Group of companies that prepares and files these Financial Statements is Repsol YPF, S.A.

Repsol YPF, S.A. is registered at the Madrid Commercial Register in volume 3893, page 175, sheet no. M-65289, entry no. 63°. Its Employer Identification Number (C.I.F.) is A-78/374725 and its National Classification of Economic Activities Number (C.N.A.E.) is 742.

Its registered office is in Madrid, at Paseo de la Castellana, 278, where the Shareholder Service Office is also located, the telephone number of which is 900.100.100.

Repsol YPF, S.A. is a private-law entity incorporated in accordance with Spanish legislation, which is subject to the Capital Companies Law (*Ley de Sociedades de Capital*) approved by Legislative Royal Decree 1/2010 of July 2, and all other legislation related to listed companies.

Repsol YPF, S.A.'s shares are represented by book entries and are fully admitted to trading on the Spanish stock exchanges (Madrid, Barcelona, Bilbao and Valencia), and the Buenos Aires stock exchange (“Bolsa de Comercio de Buenos Aires”). At the date of these Financial Statements, Repsol YPF, S.A.'s shares are traded in the form of American Depositary Shares (ADSs) on the New York Stock Exchange (NYSE). However, on February 22, 2011, the Company officially filed to delist its ADSs from the NYSE. The ADSs are expected to trade on the NYSE for the last time on March 4, 2011.

These consolidated Financial Statements for 2010, which were prepared by the Board of Directors of Repsol YPF, S.A. at a meeting held on February 23, 2011, and the Financial Statements of the investees will be submitted for approval by the shareholders at the respective General Shareholders' Meetings, with no modifications expected.

The consolidated Financial Statements for 2009 were approved at the General Shareholders' Meeting of Repsol YPF, S.A. held on April 30, 2010.

2

Regulatory framework

The activities of Repsol YPF S.A. and its main subsidiaries are subject to extensive regulation, whose main aspects are described below.

Spain

Spain currently has legislation which implements liberalization of the oil industry, a manifestation of which is the Hydrocarbons Sector Law 34/1998 of October 7, which has been amended by several provisions, including the Law 12/2007 of July 7, and implemented through numerous royal decrees and ministerial orders. This Law establishes the criteria for allocating powers among the Spanish Government and regional administrations.

The Spanish National Energy Commission (“*Comisión Nacional de Energía*”) is a public agency of the Ministry of Industry, Tourism and Commerce, with power as regulatory authority, which is in charge of ensuring effective competition, objectivity and transparency in the electricity and liquid and gaseous hydrocarbons markets, seeking the benefit of all market participants, including consumers.

Royal Decree-Law 4/2006 expanded the functions of the Spanish National Energy Commission by introducing the requirement to obtain a prior administrative authorization in relation to certain acquisitions or investments in companies that engage in regulated activities or activities that, although not regulated in the strict sense, are subject to significant oversight by administrative bodies in Spain. Notwithstanding this, on July 28, 2008, the European Court of Justice declared that the obtaining of the aforementioned administrative authorization (regarding acquisitions carried out by Community Companies) is contrary to sections 43 and 56 of the EC.

Sector regulations establish and ascribe specific treatment to the so-called “main” and “dominant” operators. Royal Decree-Law 5/2005, of March 11, obliges the Spanish National Energy Commission (CNC) to publish a list of main and dominant operators in each market or sector.

Dominant operators are defined as those commanding a share of more than 10% of the corresponding benchmark market.

A main operator, on the other hand, is any operator ranked among the top five players by market share in the following markets or sectors: (i) the generation and supply of electric power within the Iberian Electricity Market (MIBEL); (ii) the production and distribution of fuels; (iii) the production and supply of liquid petroleum gas; (iv) the production and supply of natural gas; (v) wireless telephony; and (vi) fixed telephony.

Designation as a dominant operator, as far as prevailing legislation is concerned, simply implies certain regulatory restrictions in the electricity sector, specifically in relation to the generation of primary energy, importing of electricity into the MIBEL and acting as a representative agent of the special regime in the market.

However, the definition of main operators is, on the other hand, significant. Article 34 of the Royal Decree-Law 6/2000, of June 23, following the amendments introduced by Law 14/2000 of December 29, establishes a series of limitations related to the acquisition of voting rights in the equity of companies qualifying as main operators and serving on their boards of directors. Specifically, article 34 stipulates that any natural or legal person holding an equity interest in two or more companies qualifying as main operators in the same market, and holding a 3% or higher equity interest, cannot exercise the voting rights in excess of this ownership threshold in more than one company. It further stipulates that such persons cannot appoint members of the governing bodies of another main operator either directly or indirectly.

Royal Decree-Law 6/2009 definitively repealed supplementary provision twenty-seven of Law 55/1999 (amended by Law 62/2003), which stipulated prior authorization by the authorities for the acquisition by public entities or entities majority-owned or controlled by public entities of shareholdings of 3% or more in energy companies (the so-called “*energy golden share*”).

This rule had been questioned by the European Court of Justice in a ruling handed down on February 14, 2008.

Liquid hydrocarbons, oil and petroleum derivatives

In Spain, hydrocarbon deposits and underground storages existing on Spanish territory and in the territorial marine subsoil and ocean bottoms which are under Spanish sovereignty are considered public properties.

Also some of the activities falling within the scope of Law 34/1998 may be subject to authorizations, permits and/or concessions. Article 19 of Law 25/2009, of December 22, which amends several pieces of legislation for their adaption to the Law on free access to service activities and its exercise; modifies the Hydrocarbon Act, Law 34/1998 of October 7, implying, among other aspects, the elimination of the need to obtain authorization prior to acting as natural gas supplier, LPG wholesaler, bulk LPG retailer or petroleum product wholesaler, further establishing the obligation that interested parties must make a responsibility statement and issue notification prior to commencing its business operations. In addition, direct natural gas consumers are obliged to report the start of its business operations.

Construction and operation of refining, transportation and fixed storage facilities are subject to prior authorization, the granting of which requires meeting the relevant technical, financial, environmental and safety requirements.

Third parties may freely access transportation and fixed storage facilities of oil products, such as the facilities of Compañía Logística de Hidrocarburos S.A. ("CLH"), on conditions agreed on an objective and non-discriminatory basis. However, the Spanish Government has the discretion to establish access tolls for mainland territories and for those areas of the Spanish territory where alternative transport or storage facilities do not exist or are insufficient. As of the date of this annual report, the Spanish Government has not exercised this discretion.

Pursuant to Royal Decree Law 6/2000, no physical or legal person may hold, directly or indirectly, ownership of more than 25% of the capital stock of CLH. This same Royal Decree further provides that the aggregate ownership interest in CLH of entities with refining capacity in Spain may not exceed 45% of CLH's capital.

Petroleum derivative prices have been liberalized, with the exception of LPG, which is subject, in some cases, to maximum retail prices. Prices of bulk LPG and LPG sold in bottles that are less than 8 kilograms or more than 20 kilograms have been liberalized.

By means of Ministerial Order ITC/2608/2009, of September 28, the Spanish Government updated the system for setting the quarterly maximum before-tax sales price for bottled LPG, affecting containers holding 8kg or more but less than 20kg, with the exception of containers of LPG blends for use as fuel, by modifying the formula for automatically setting the maximum sales prices indicated in the abovementioned order in an effort to uphold consumer interests in the face of international price volatility. Specifically, the changes introduced in the abovementioned Ministerial Order consist of introducing two new concepts to the formula: (i) a 0.25 weighting factor which means that price changes will only incorporate the 25% of the increase or decrease in international prices of reference; and (ii) a threshold of 2% for implementing the price revision mechanism so that prices are only increased or decreased if international prices increase or decrease by more than this threshold.

The retail marketing of LPG cylinders may be carried out freely by any natural or legal person.

Natural gas

Law 12/2007 of July 2, which amended Law 34/1998 on the hydrocarbon sector and incorporated into Spanish Law the European Parliament Directive 2003/55, incorporates measures for achieving a completely liberalized market which will be the basis for greater competition, price reduction and improvement in the quality of service to the end-user.

This legislation establishes the framework for eliminating the tariff system and creates the role of the supplier of last resort with ultimate liability for supplying customers lacking sufficient bargaining power. Moreover, these suppliers are subject to a price cap ("*last resort tariff*"), which is set by Spain's Ministry of Industry, Tourism and Commerce. Royal Decree 104/2010, of February 5, regulates the start-up of last resort supply in the natural gas segment; while the Ministerial Order ITC/1506/2010 establishes the methodology for calculating this last resort tariff.

Business operations in the natural gas sector can be classified into: (i) regulated activities, essentially the transport (including storage, regasification and transport per se) and distribution of natural gas; and (ii) deregulated activities: production, supply and retailing of natural gas.

Prevailing legislation stipulates functional unbundling (separation) obligations which imply accounting unbundling, in order to prevent cross subsidies and increase toll and tariff calculation transparency, legal unbundling, by means of separate companies, and also separation of regulated activities by requiring them to operate independently of the other companies in their consolidated groups.

In accordance with European Union directives (Directive 2003/55/EC, of June 26, and Directive 98/30/EC, of June 22), the supply of natural gas is fully deregulated in Spain, which means that all Spanish consumers are qualified and are accordingly free to choose their natural gas provider since January 1, 2003. Sector deregulation was substantially reinforced by the elimination since July 1, 2008 of the regulated tariff supply by the distribution companies, which meant that all consumers are required to participate in the deregulated market.

The construction, operation, modification and closing of basic network and carrier network facilities require prior government authorizations.

Enagás, S.A., the Natural Gas System Operator, is responsible for the coordinating and ensuring that the system works properly. Law 12/2007 limits equity ownership interests in Enagás, S.A. to 5%, caps voting rights at 3% as a general rule, although this cap falls to 1% in the case of companies carrying out business activities related to the gas sector and; in any case, the aggregate ownership interest of shareholders whose business activities relate to the gas sector cannot exceed 40%.

Since January 1, 2003, no company or group of companies acting in the natural gas sector can collectively provide natural gas for consumption in Spain in an amount in excess of 70% of domestic consumption. The Spanish Government is authorized to modify that percentage based on changes in the sector and the sector's business structure.

Minimum safety stock

Royal Decree 1766/2007, amending Royal Decree 1716/2004, regulates the obligation to maintain a minimum stock in the oil and natural gas sectors, the obligation to diversify the natural gas supply and the activities of the Corporation of Strategic Reserves of Petroleum Products (CORES). The minimum safety stock requirement imposed on wholesalers in 2009 was equivalent to 90 days of sales calculated on the prior 12-month sales; and 92 days in 2010. In both years, Repsol YPF was obliged to directly maintain a stock corresponding to 50 days of sales, while the remaining stock required to make up the difference with the abovementioned safety stock requirement are held by the CORES corporation on behalf of the various operators.

Spanish legislation does not require these reserves to be handled, measured or stored in any specific manner; indeed any products accounted for by the operators as part of their inventories in the ordinary course of their business operations qualify as strategic reserves to this end. Compliance with the safety stock rules implies regular reporting that minimum levels are held; however, the operators subject to these rules are free to use the inventories held for this purpose so long as the total balance does not fall below the minimum threshold.

Electricity sector regulation in Spain

The deregulation of the Spanish electricity sector began in 1997 with the passage of the Electricity Sector Act (Law 54/1997, of November 27), incorporating into Spanish law Directive 96/92/EC concerning common rules for the internal market of electricity, establishing the rules for sector deregulation across the European Union countries, and subsequent enacting regulations, noteworthy, among which are the Royal Decree 1955/2000, of December 1, that regulates power transmission, distribution, marketing and supply, and the procedures for authorization of electric power facilities, and Royal Decree 2019/1997, of December 26, organizing and regulating the Electricity Production Market. The Electricity Act was later amended by Law 17/2007, of July 4. Meanwhile, Royal Decree 661/2007, of May 25, amended the rules governing the production of electricity under the so-called special regime.

Business operations in the Spanish electricity sector can be classified into: (i) regulated activities – power transport and distribution; and (ii) deregulated activities – power generation and retailing.

The first ones require prior administrative authorization, their remuneration is regulated and are subject to specific obligations. In contrast, the second activities are not regulated and are therefore not subject to intervention by the authorities. The retail business in particular is based on the principles of freedom contracting and customer freedom to choose supplier. As a deregulated business, retail prices of electricity are established freely between the parties.

Installation of new generation facilities is deemed a deregulated activity, notwithstanding the pertinent administrative authorizations. Facilities with installed capacity of under 50 MW which fall into one of the categories itemized in the Electricity Act (co-generation installations and those producing power from a renewable primary source) are deemed Special Regime facilities. These facilities can choose between selling the power they produce to the network-owning distributor at a pre-defined feed-in tariff or selling the electricity produced freely to the market through a system managed by the market operator at the price established by this organized market (exchange mechanism) plus certain applicable incentives and/or premiums.

Companies engaged in regulated business activities according to the Law, must have as exclusive object the development of such activities and cannot develop deregulated activities. However, group companies within a consolidated group can engage in regulated and deregulated business activities so long as they are carried on by separate group companies.

The electricity system has been in deficit in recent years, a situation which has led to the accumulation of an annual tariff deficit or shortfall, which has had to be financed by the power utilities companies. To remedy this situation, Royal Decree-Law 6/2009, of April 30, established a series of measures designed to address the tariff deficit, creating a state-guaranteed securitization fund, as well as the introduction of a "social voucher" (an electricity tariff discount for household consumers meeting certain social, usage and income criteria which is to be financed by the power generators).

In Spain, the main duty of Spain's Technical System Operator, Red Eléctrica de España, S.A., is to ensure power supply security and the correct functioning of the generation and transmission system.

Legislative regulation approved in 2010 that does not specifically affect the hydrocarbon or electricity sectors

In line with widespread international legal instruments, Organic Law 5/2010, of June 22, introduced the concept of criminal liability of companies and other legal entities into the Spanish Criminal Code. As of December 23, 2010, date on which it came into effect, companies may be held criminally liable for crimes committed in their name or on their behalf, and in their benefit, by their actual or de facto legal representatives or directors.

This list of crimes for which legal entities may be held criminally liable includes corruption in the private sector, corrupt behavior in international transactions, money laundering, computer hacking and crimes against natural resources or the environment, among others.

Law 12/2010, which amends the Audit Act, the Securities Markets Act and the Companies Act and, introduces a number of legislative amendments, including new Audit Committee modifications for entities whose securities are listed on official secondary exchanges, requiring that at least one member of the audit committee should be an independent Director and that this member should be appointed based on his or her knowledge and experience of accounting and audit matters, and tasking the audit Committee, among other duties, with the issuance of an annual report on the independence of the External auditor.

Legislative Royal Decree 1/2010, of July 2, which enacted a new text of the Capital Companies Law, entered into force on September 1, 2010 and incorporates former regulation of public limited companies, limited liability companies and partnerships limited by shares and, with few exceptions, the provisions contained in the Securities Market Act with respect to listed companies. In relation with listed companies, article 515 of the new legislation, entering into force on July 1, 2011, nullifies provisions of company's bylaws with the direct or indirect effect of limiting the number of votes that can be exercised by a single shareholder or by companies belonging to a consolidated group.

Argentina

Exploration and production

The Argentine oil and gas industry is regulated by Law No. 17,319 (the "Hydrocarbons Law"). The Argentine Government, through the Secretariat of Energy, issues regulations to complement this Law. The regulatory framework of this Law was established on the assumption that the reservoirs of hydrocarbons were national properties and Yacimientos Petrolíferos Fiscales Sociedad del Estado, YPF, S.A.'s predecessor, was responsible for their operation under a different framework than private companies.

In 1992, Law No. 24,145 (referred to as the "YPF Privatization Law,") regulated the privatization of YPF and initiated a process for the transfer of hydrocarbon reservoirs from the Argentine Government to Provinces, in whose territories they were located. The YPF Privatization Law established that the exploration licenses and exploration concessions in force at the time this Law was passed would be transferred on expiration of the corresponding legal and/or contractual terms.

The YPF Privatization Law awarded YPF 24 exploration licenses and 50 exploration concessions and other transportation concessions. The Hydrocarbons Law limits the number and total surface area of the exploration licenses or exploration concessions which an entity may hold.

In October 2004, the Argentine Congress enacted Law No. 25,943 creating a new state-owned energy company, Energía Argentina S.A., ("ENARSA."). The corporate purpose of ENARSA is the study, exploration and exploitation of solid, liquid or gas hydrocarbon deposits, the transport, storage, distribution and commercialization of these products and their derivatives products, as well as the transportation and distribution of natural gas, and the generation, transportation, distribution and sale of electricity. This Law granted ENARSA all exploration concessions with respect to offshore areas located beyond 12 nautical miles from the coastline up to the outer boundary of the continental shelf that were vacant at the time the Law went into effect in November 2004.

In accordance with the current legal system (new Article 124 of the Argentine Constitution, Decree 546/2003, Law No. 26,197) oil and gas regulation (both legislative and regulatory) falls under the jurisdiction of the National Government, whereas the application of the Hydrocarbons Law and its supplementary regulations will correspond to the Provinces or to the State, depending on where the fields are located.

In October 2006, Law No. 26,154 created an incentive regime aimed at encouraging hydrocarbons exploration and operation and which applies to new exploration permits awarded in respect of offshore areas. Interested parties must go into partnership with ENARSA in order to avail themselves of the numerous benefits of this regime.

In November 2008, by virtue of the Decree of the National Executive Power No. 2014/2008, the program "Petróleo Plus" was set up and aimed to increase the production and stocks through new prospecting and exploitation investments. To this goal, it establishes a system of tax incentives for those exploitation companies that increase their production and stocks within the provisions of the program.

Natural gas

The Natural Gas Law passed in June 1992 mandated the privatization of the company operator Gas del Estado Sociedad del Estado and established the regulatory framework governing the transport and distribution of natural gas, while also providing for the deregulation of natural gas prices. It also designated natural gas transport and distribution activities as national public services.

The regulatory framework applicable to the transport and distribution of natural gas establishes an open access system under which producers such as YPF have open access to the transport capacity available in the transport and distribution systems on a non-discriminatory basis.

Argentina has built cross-border gas pipelines to enable natural gas producers to export their output. However, in recent years, the Argentine authorities have adopted a series of measures to restrict natural gas exports from Argentina, including orders to supply the domestic market

(Fuel Undersecretariat Ruling 27/04 and Resolution 265/04) that implements an export cutoff scheme of natural gas; Resolution 659/04, establishes a Program for Rationalizing Gas and the Use of Transport Capacity; and Resolution 752/05, creates a Permanent Additional Injection mechanism.

Energy Secretariat Resolution 24/2008, amended by Resolution 1031/2008, created an incentive program for the production of natural gas called "Gas Plus," designed with the objective of stimulating the production of natural gas deriving from new reserve findings, new fields, as well as the production of tight gas, etc. The natural gas produced under this program is carved out from the 2007-2011 Agreement (described in the Market Regulation section below) and therefore its commercial price is not subject to the price conditions provided for in the Natural Gas Producer Agreement 2007-2011.

Refining and transport

Crude oil refining activities are subject to authorization by the Argentine Government, and to compliance with national, provincial and municipal safety and environmental regulations. Oil companies must be registered in the registry of oil companies held by the Secretariat of Energy.

Decree 2014/2008 created the "Refino Plus" program designed to encourage the production of diesel and petrol fuels. The decree entitles refineries that undertake construction of a new refinery, add capacity at an existing refinery and/or convert existing refineries to receive export credits.

The Hydrocarbons Law authorizes the Executive National Power of the Argentine Government to grant 35-year concessions for the transport of oil, gas and derivative products, subject to presentation of the pertinent competitive tenders. Law 26,197 vested Argentina's provincial governments with the same power. Holders of operating concessions are entitled to receive a concession for transporting their production of oil, gas and derivatives thereof. The terms of these transport concessions can be extended for an additional period of 10 years.

Liquefied Petroleum Gas (LPG)

Law No. 26,020 establishes the basic regulatory framework for the industry and marketing of LPG. The authority established the volumes and sales prices of LPG through various resolutions. In October 2008 Argentina's Secretariat of Energy ratified the Stability Agreement of LPG prices in the local market. The validity of the pact has been extended to December 31, 2011.

Market regulation

The Hydrocarbons Law authorizes the Executive National Power of the Argentine Government to regulate the Argentine oil and gas markets and prohibits the export of crude oil during periods in which the authorities determine domestic production to be insufficient to satisfy domestic demand. In the event of restrictions on the export of crude oil and derivatives or the free circulation of natural gas, the oil deregulation decrees entitle producers, refiners and operators to receive a price at least equal to the price of similar grades of imported crude oil and derivatives in the case of oil, and no less than 35% of international price of crude Arabian Light Oil in the Case of Natural Gas, quoted in cubic meters.

A significant number of rules concerning a broad range of issues affect the various markets, for example, the Energy Secretariat Resolution 1102/04 regarding the creation of a register of fuel and hydrocarbon supply points, Energy Secretariat Resolution 1104/04 regulating creation of a bulk sales price information module and Decree 652/02 enacting a gasoil supply stability regime and, in general, other rules with different scopes.

By the enactment of several rules, the Fuels Undersecretariat restored a record system for the hydrocarbons and derivatives exports and set forth some obligations concerning supply to the local market, including the obligation to import some products as allowances for export, when necessary to meet internal demand. On October 11, 2006, the Secretariat of Internal Commerce demanded refining companies and/or wholesalers and/or retailers that they must satisfy the fuel-oil demand in the whole territory of Argentina to meet market growth.

Resolution No. 394/07 of November 16 increased the taxes on crude and derivative exports in Argentina. According to the new scheme when the export price is fixed over the reference price (60.9 dollars/barrel), the producer shall have the right to collect US\$42 per barrel and the rest up to the reference price shall be withheld by the Argentine Government as an export

tax. In the event that the export price is under the international reference price, but above US\$45 per barrel, a 45% retention shall apply. In the event that the export price is under US\$ 45 per barrel, the withholding percentage shall be fixed within 90 days' term. This same method shall apply to the exports of other oil products and lubricants using different reference prices, withholding percentages and prices allowed for producers, depending on the cases.

On June 14, 2007 the Resolution No. 599/07 of the Secretariat of Energy passed a proposal in agreement with the natural gas producers concerning the supply of natural gas to the domestic market for the period 2007 to 2011 ("2007-2011 Agreement"). YPF signed the agreement.

Resolution 459/07 issued by Argentina's Ministry of Federal Planning, Public Investment and Services, created the "Energy Substitution Program" (*Programa de Energía Total*) in order to mitigate gas and electricity shortages by encouraging industrial users to substitute natural gas and electricity with gasoil, fuel-oil and LPG. Subsequently, regarding the implementation of this program, a number of new resolutions and rules enacted the general programs for the supply of gaseous and liquid fuels.

On February 2, 2011, the Argentine Secretary of Home Trade issued Resolution No. 13/2011 stipulating that liquid fuel sales prices should be pushed back to those prevailing on January 28, 2011. This regulation also stipulates that the nation's refineries and oil companies must supply the internal market with specified fuel volumes calculated as a function of the amounts supplied in the preceding year adjusted by the positive correlation between growth in demand for fuel and gross domestic product.

Venezuela

Venezuela's Basic Hydrocarbons Law (LOH) regulates the migration from the former Operating Agreements to Mixed-Ownership Enterprises. On June 20, 2006, the Popular's Power for Energy and Petroleum Ministry (MENPET for its initials in Spanish) approved the incorporation of Mixed Enterprise Petroquiriquire, S.A., in which Repsol has a 40% ownership interest, while Corporación Venezuela del Petróleo, S.A. (CVP), a PDVSA subsidiary, holds a 60% stake. On the same date, the national executive authorized the direct grant of a Non-Associated Natural Gas Operating License to the corporation Quiriquire Gas, S.A., owned 60% by Repsol and 40% by PDVSA GAS, S.A. This Gas License was granted in March 2007.

On September 2, 2009, Venezuela's National Assembly authorized Petroquiriquire, S.A. to pursue exploration and exploitation activities in Barúa-Motatán as part of its corporate purpose as mixed enterprise. The exploration and exploitation rights for this block were granted by the National Executive via Presidential Decree No. 7,121, published on December 15, 2009. On February 10, 2010, the incorporation of the Barúa-Motatán division in the Mixed Enterprise was approved at an Extraordinary Shareholders' Meeting. That same day, the Amendment to the Transformation to Mixed Enterprise Agreement was signed, along with related documentation, effectively: (i) incorporating the Barúa-Motatán Geographic Division within Petroquiriquire, S.A., and (ii) authorizing amendment of the Mixed Enterprise's Bylaws and the Hydrocarbon Sale-Purchase Agreement.

On February 10, 2010, the MENPET awarded the operating concession for Carabobo 1 to the consortium made up of Repsol (11%), Petronas (11%), OVL (11%) and Indoil (7%), for a combined equity interest of 40%, and CVP, with a 60% stake. The Decree creating the Mixed Enterprise Petrocarabobo, S.A. and the MENPET Resolution delimiting its geographic area were published in the Official Gazette of the Bolivarian Republic of Venezuela on May 7, 2010. The Agreement governing the Incorporation and Administration of Mixed Enterprise Petrocarabobo, S.A. was signed on May 12, 2010 and on June 25, 2010 the Enterprise was incorporated in the Companies Register. On July 29, 2010, Petrocarabobo, S.A.'s Transfer Decree was published in the Official Gazette (Note 30).

Bolivia

The Bolivian oil and gas industry is regulated by Law No. 3,058 of May 19, 2005 (the "Hydrocarbons Law").

On May 1, 2006 Supreme Decree 28,701 (the "Nationalization Decree") was published, which nationalized the country's oil and gas and transferred the ownership and control thereof to the Bolivian state company Yacimientos Petrolíferos Fiscales Bolivianos (YPFB). Furthermore, the shares required to enable YPFB to control at least 50% plus one vote in different companies, among them Empresa Petrolera Andina, S.A., currently known as YPFB Andina S.A. (YPFB Andina), were nationalized.

As a result, Repsol signed a shareholders' agreement that stipulates, among other provisions: (a) a two-year period of joint operation of YPFB Andina, during which time Repsol is entitled to appoint some executives in certain business areas; (b) mutual right of first refusal over any share sale; (c) certain "Mutually Agreed Decisions" to be taken jointly by the management and boards of Repsol and YPFB.

At the date of authorizing the accompanying consolidated Financial Statements for issue, the joint operation period had terminated, which means that the "Appointment of Executive Personnel" clause applies. This clause stipulates that as a minority shareholder, Repsol is entitled to propose the persons to be nominated by the Board to certain positions.

Operating contracts

According to the Hydrocarbons Law and the Nationalization Decree, Repsol YPF E&P Bolivia S.A. and its subsidiary YPFB Andina S.A. signed with YPFB the Operating Contracts establishing the conditions for the prospecting and production of hydrocarbons in Bolivia, effective as of May 2, 2007.

In compliance with the terms laid down in the Operating Contracts, on May 8, 2009, Repsol YPF E&P Bolivia S.A. signed the pertinent natural gas and liquid Hydrocarbon Delivery Agreements (Delivery Agreements) with YPFB for the various operating areas in which it operates, as well as the Payment Method Agreement, which regulate the terms of Operating Contract Holder Remuneration.

In relation with these Operating Contracts, significant legislation was issued in 2008 and 2009 which had the effect of: (i) setting the conditions and parameters for the recognition and approval by YPFB of the Recoverable Costs within the framework of the Operating Contracts; (ii) amending the regulations governing the settlement of royalties and investments with the Bolivian Treasury to conform with the terms of the Operating Contracts; and (iii) regulating the tendering, contracting and purchase of materials, works, goods and/or services by Operating Contract Holders.

Further, in compliance with what is established in Ministerial Order 101/2009, the amended Development Plan corresponding the Operating Contract governing the Caipipendi Area, and the Margarita and Huacaya Fields was presented. This Development Plan was approved by YPFB on March 8, 2010.

Lastly, in respect of the Delivery Agreements, Ministerial Order 088/2010 of March 25, which repealed Ministerial Order 291/2009 of October 29 and amended the Ministerial Order 255/2006, established that the allocation of the hydrocarbons produced to be made by YPFB will be formulated by field and market in accordance with the volumes committed to in the Delivery Agreements signed with YPFB. The order of priority for allocation of natural gas is: (1) Internal Market; (2) Export Markets, in the chronological order in which YPFB entered into the various Natural Gas Purchase Agreements; and for liquid hydrocarbons, the priority order is: (1) Internal Market; (2) Export Market.

At the date of the Financial Statements, the reconciliation of the Holder Remuneration calculation with YPFB was still pending.

New Bolivian Constitution

Bolivia enacted its new Constitution on February 7, 2009, stipulating in relation to the oil and gas sector, among other matters, that:

(i) Hydrocarbons are the inalienable and imprescriptible property of Bolivians; (ii) by virtue of belonging to the Bolivian people, securities evidencing a residual ownership interest in Bolivia's natural resources may not be listed and traded on securities markets or used to securitize or pledge financial transactions; (iii) the state, on behalf of the Bolivian people and as their representative, exercises ownership of all the country's oil and gas production and is the sole entity authorized to market this output; (iv) all income received from the sale of oil and gas shall be the property of the state; (v) the state shall define the oil and gas policy

and shall promote its comprehensive, sustainable and equitable development and guarantee energy sovereignty; (vi) YPFB is the sole entity authorized to control and manage the oil and gas productive and commercial chain; (vii) YPFB may not transfer its rights and obligations in any form or under any regime, tacitly or expressly, directly or indirectly; YPFB is authorized to enter into service agreements with Bolivian and foreign public, mixed or private entities for the execution of certain production chain activities on YPFB's behalf in exchange for compensation or a service fee; (viii) YPFB may incorporate mixed economy associations or companies for the execution of hydrocarbon-related activities, in which YPFB must hold a mandatory interest of no less than 51% in these entities' total share capital.

It is management's understanding that the new Constitution will require enactment of a series of additional laws and regulations.

Ecuador

On March 29, 2006, by Law No. 2006-42, Ecuador demanded from the contractors of all the prospecting and exploitation joint contracts of hydrocarbons the payment of at least 50% of the so-called "surpluses of crude oil," that is, the difference between the participation value of each contractor, according to the oil price at the date of the execution of the contract (calculated on the basis of the monthly average of the sale price expressed in fixed values) and its value in accordance to the oil price at the date of sale by the contractors. Later on, Executive Decree No. 662, of October 4, 2007, increased the state's participation to the 99%.

On June 9, 2008, the companies constituting the consortium of contractors of the Block 16, in disagreement with the application of this new encumbrance, filed with the ICSID an application for international arbitration pursuant to the Equity Contract (Note 34).

On March 12, 2009, Repsol YPF Ecuador S.A. (Ecuador Branch), as operator of Block 16, signed a modified Participation Agreement which extended the concession to operate Block 16 from January 31, 2012 to December 31, 2018, although the Participation Agreement would be terminated early if a Services Agreement to replace this Participation Agreement is not negotiated and executed in a period of one year.

In accordance with the provisions set down in the Amended legislation of the Hydrocarbons Law and the Internal Tax Regime Law, of July 27, 2010, the agreements for the exploration and exploitation of hydrocarbons under the various contractual forms must be modified to reflect the amended hydrocarbons exploration and exploitation services agreement model provided for in article 16 of the Hydrocarbons Law.

On November 23, 2010, the Ecuadorian state and Repsol entered into an agreement transforming the former contract into a hydrocarbons (crude oil) exploration and exploitation service agreement covering Block 16 in the Amazon Region.

In addition, on January 22, 2011, Repsol signed an agreement with the Ecuadorian state amending the services agreement covering the Tivacuno Block. The Company is currently in the process of executing the documents needed to file the new agreement with the Hydrocarbons Registry.

Lastly, in accordance with article 408 of Ecuador's Constitution, published on October 20, 2008, the state retains a portion of the profits obtained on the sale of hydrocarbon resources; this state retention may not be less than the profit retained by the company producing the fuel.

Other countries

Repsol YPF's operations are subject to an extensive variety of legislation and regulatory frameworks in the other countries in which it operates. All aspects of the activities performed, including, inter alia, land occupancy, production rates, royalties, price-setting, environmental protection, export rates, exchange rates, etc., are covered by such legislation and regulatory frameworks. The terms of the concessions, licenses, permits and agreements governing the Group's interests vary from one country to another. These concessions, licenses, permits and agreements are generally awarded or jointly carried out with government bodies or state companies and occasionally with private sector organizations.

3 Basis of presentation and accounting policies

3.1 Basis of presentation

The accompanying consolidated Financial Statements are presented in millions of euros and were prepared from the accounting records of Repsol YPF, S.A. and of its investees. The consolidated Financial Statements are presented in accordance with the International Financial Reporting Standards (IFRSs) as endorsed by the European Union at December 31, 2010. Accordingly, they present fairly the Group's consolidated equity and financial position at December 31, 2010, the consolidated results of operations, the changes in consolidated equity and the consolidated cash flows in the year then ended.

The preparation of the consolidated Financial Statements in accordance with IFRS, which is the responsibility of the Board of Directors of the Group's parent company, makes it necessary to make certain accounting estimates and for the directors to use their judgment when applying the Standards. The most complex areas, the areas in which the directors' judgment is most required and the areas in which significant assumptions or estimates have to be made are detailed in Note 4 (Accounting Estimates and Judgments).

3.2 New standards issued

A. Below is a list of the standards, interpretations and amendments thereof under the International Financial Reporting Standards endorsed by the European Union that are mandatorily applicable to the Group's consolidated Financial Statements for the first time in 2010:

- Revised IFRS 3 *Business Combinations*.
- Amendment to IAS 27 *Consolidated and Separate Financial Statements*.
- Amendment to IAS 39 *Eligible Hedged Items*.
- Amendments to IFRS 2 *Group Cash-settled Share based Payment Transactions*.
- Improvements to IFRS's - 2007-2009.
- Revised IFRS 1 *First-time Adoption of IFRS*.
- Amendments to IFRS 1 *Additional Exemptions for First-time Adopters*.
- Amendment to IFRS 5 *to incorporate the changes introduced following the Improvements to IFRS's 2006-2008*.
- IFRIC 12 *Service Concession Arrangements*.
- IFRIC 17 *Distributions of Non-Cash Assets to Owners*.

IFRS 3 *Business Combinations* introduces significant changes, most notably with respect to the accounting treatment of acquisition-related costs, the measurement of non-controlling interests and the accounting treatment of business combinations achieved in stages (step acquisitions). IFRS 3, as amended, applies prospectively to business combinations completed on or after January 1, 2010.

IAS 27 *Consolidated and Separate Financial Statements* introduces significant novelties with respect to changes in a parent's ownership interests in a subsidiary, differentiating between transactions giving rise to a loss of control and those in which control is retained. These amendments apply prospectively to transactions carried out on or after January 1, 2010.

IFRIC 12 *Service Concession Arrangements* establishes infrastructure used in a service concession arrangement complying with the following conditions: a) the grantor controls or regulates what services the operator must provide; and b) the grantor controls any significant residual interest in the infrastructure at the end of the term of the arrangement; shall not be recognized as property, plant and equipment of the operator, and it establishes that the

operator shall recognize an intangible asset or a financial asset, depending on the nature of the arrangement.

The application of the standards, interpretations and amendments listed above, has not had a material impact on the Group's 2010 consolidated Financial Statements. Nevertheless, the first-time application of IFRIC 12 has resulted in certain reclassifications among balance sheet headings (Note 6).

B. At the date of preparation of the accompanying consolidated Financial Statements, interpretations and amendments thereof published by the IASB and endorsed by the European Union that have not been applied because the date of mandatory application is subsequent to the date of these consolidated Financial Statements date, and the Group has opted not applying early adoption, are the following:

Mandatory application in 2011:

- Revised IAS 24 *Related Party Disclosures*.
- Amendments to IAS 32 *Classification of Rights Issues*.
- Amendments to IFRS 1 *Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters*.
- Annual improvements to IFRS 2008-2010.
- IFRIC 19 *Extinguishing Financial Liabilities with Equity Instruments*
- Amendments to IFRIC 14 *Prepayments of a Minimum Funding Requirements*.

At the date of preparation of the accompanying consolidated Financial Statements, the Group is assessing the impact of the application of these standards, amendments, and interpretations.

C. At the date of preparation of the accompanying consolidated Financial Statements the standards, interpretations and amendments thereof that have been issued by the IASB but not yet endorsed by the European Union are the following:

- IFRS 9 *Financial Instruments*.⁽¹⁾
- Amendments to IFRS 7 *Disclosures of transfers of financial assets*.
- Amendments to IFRS 1 *Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters*.
- Amendments to IAS 12 *Deferred tax: Recovery of Underlying Assets*.

None of these standards is applicable at the date of preparation of the accompanying consolidated Financial Statements.

3.3

Accounting policies

3.3.1 Basis of consolidation

Repsol YPF's consolidated Financial Statements include the investments in all their subsidiaries, associates and joint ventures.

All the **subsidiaries** over which Repsol YPF exercises direct or indirect control were fully consolidated. Control is the power to govern the financial and operating policies of a company so as to obtain benefits from its activities. Control is, in general but not exclusively, presumed to exist when the parent owns directly or indirectly more than half of the voting power of the investee.

The share of the minority interests in the equity and profit of the Repsol YPF Group's consolidated subsidiaries is presented under "Minority interests" within Equity in the consolidated balance sheet and "Net income attributable to minority interests" in the consolidated income statement, respectively.

⁽¹⁾ This constitutes phase one of the three-phase project plan for the replacement of IAS 39: "Financial instruments - Recognition and measurement".

Joint ventures are proportionately consolidated and, accordingly, the consolidated Financial Statements include the assets, liabilities, expenses and income of these companies only in proportion to Repsol YPF Group's ownership interest in their capital. Joint ventures are those over which there is shared control and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control.

The assets, liabilities, income and expenses corresponding to the joint ventures are presented in the consolidated Balance Sheet and consolidated Income Statement in accordance with their specific nature.

In the case of either non-monetary contributions to a joint controlled entity in exchange for an equity interest, either in the case of sales of assets to a joint controlled entity, the Group only recognizes that portion of the gain or loss that is attributable to the interests of the other venturers.

Associates are accounted for using the equity method. These are companies over which the investor has significant influence but does not exercise effective or joint control. Significant influence is the power to affect financial and operating decisions of a company and is presumed to exist when the investor holds an interest of 20% or more. The equity method involves recognizing under "Investments accounted for using the equity method" in the Consolidated Balance Sheet, the net assets and goodwill, if applicable, of these companies only in proportion to the ownership interest in their capital. The net profit or loss obtained each year through these companies is reflected, only in proportion to the ownership interest in their capital, in the Consolidated Income Statement as "Share of results of companies accounted for using the equity method."

Losses incurred by an associate attributable to the investor that exceed the latter's interest in the associate are not recognized, unless the Group is obliged to cover them.

Appendix I contains a list of the consolidated subsidiaries, associates and joint ventures in which Repsol YPF, S.A. has direct and indirect ownership interests, which were included in the scope of consolidation, as well as the changes in the consolidation scope in 2009 and 2010.

The balances, transactions and profits between the fully consolidated companies were eliminated on consolidation. All balances, transactions and profits derived from transactions between the proportionately consolidated companies and other Group companies were eliminated in the proportion of its effective integration. The profit or loss on transactions between Group companies and associates was eliminated in proportion to the Group's percentage of ownership of these companies.

The accounting policies and procedures used by the Group companies were standardized with those of the parent for the purpose of presenting the consolidated Financial Statements using uniform measurement bases.

The Financial Statements of the investees whose functional currency differs from the presentation currency (Note 3.3.4) are translated as follows:

- The assets and liabilities in each of the balance sheets presented are translated at the exchange rates prevailing on the balance sheet date.
- Income and expense items making up each income statement heading are translated at the exchange rate on the transaction date. For practical reasons, the Group generally applies the average exchange rate for the period in which the transactions were completed.
- Any exchange differences arising as a result of the foregoing are recognized as a separate component of "Adjustments for changes in value" of equity called "Translation Differences."

On the disposal of a company whose functional currency is not the euro, or in the event of partial disposals resulting in loss of control, the exchange differences posted as a component of equity relating to that company are recognized in the income statement when the gain or loss on disposal is recognized. This accounting treatment also applies to partial disposals resulting in the loss of joint control or significant influence.

Since amended IAS 21 took effect on January 1, 2010, on the partial disposal of a subsidiary that includes a foreign operation that it does not result in the loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in equity is re-attributed

to the non-controlling interests in that foreign operation. In any other partial disposal of a foreign operation, only the proportionate share of the cumulative amount of the exchange differences recognized in equity corresponding to the reduction in the Group's ownership interest is reclassified to profit or loss.

The exchange rates against the euro of the main currencies used by the Group companies at December 31, 2010 and 2009 were as follows:

	12/31/2010		12/31/2009	
	Year End Rate	Cumulative Average Rate	Year End Rate	Cumulative Average Rate
Dollar	1.34	1.33	1.44	1.39
Argentine Peso	5.29	5.16	5.45	5.18
Brazilian Real	2.23	2.33	2.51	2.77

3.3.2 Current/Non-current classification

In the accompanying consolidated balance sheet, assets and liabilities maturing within 12 months are classified as current items and those maturing within more than 12 months as non-current items.

3.3.3 Offsetting of balances and transactions

As a general rule, in the consolidated Financial Statements neither assets and liabilities nor income and expenses are offset, except (i) when offsetting is required or permitted by a given standard or interpretation and (ii) when offsetting better reflects the substance of the transaction.

In this respect, revenue and expenses arising on transactions in which the Group has an unconditional and legally-enforceable right to set-off and intends to settle on a net basis or to realize the asset and settle the liability simultaneously are presented at their net amount in the income statement.

3.3.4 Functional currency and foreign currency transactions

a. Functional currency

The items included in these consolidated Financial Statements relating to the Group companies are measured using their functional currency, which is the currency in the main economic environment in which they operate. The consolidated Financial Statements are presented in euros, which is the Repsol YPF Group's functional and presentation currency.

b. Foreign currency

Transactions in currencies other than the functional currency of an entity are deemed to be "foreign currency transactions" and are translated to the functional currency by applying the exchange rates prevailing at the date of the transaction. At each year end, the foreign currency monetary items on the balance sheet are measured at the exchange rate prevailing at that date and the exchange rate differences arising from such measurement are recorded as "Net exchange gains/(losses)" within "Financial result" in the consolidated income statement in the year incurred. This does not apply to the accounting treatment of monetary items that qualify as hedging instruments (section 3.3.23 of this Note).

3.3.5 Goodwill

Goodwill represents the excess of the cost of a business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities that meet the pertinent recognition criteria at the date of acquisition. Goodwill is recognized as an asset at the acquisition date.

In the event of a shortfall, the value of the assets, liabilities and contingent liabilities acquired must be re-assessed. If after this re-assessment the shortfall continues to exist, it is recognized in profit or loss under "Other operating income" in the consolidated income statement.

Goodwill is not amortized and is subsequently measured at cost less any accumulated impairment losses (section 3.3.10 below).

3.3.6 Other intangible assets

The Repsol YPF Group initially recognizes intangible assets at acquisition or production cost, except in the case of the emission allowances received for no consideration as described in section b) below. This cost is amortized on a straight-line basis over the assets' useful lives, except for the assets with indefinite useful lives described below, which are not amortized but are tested for impairment at least annually, and whenever indicators of impairment are detected. At each balance sheet date, these assets are measured at cost less accumulated amortization and any accumulated impairment losses.

The main intangible assets of the Repsol YPF Group are as follows:

a. Leasehold assignment, surface and other rights

This heading primarily includes the costs associated with the various forms of agreements for acquiring service station association rights, reflagging rights and image rights of publicity and the associated exclusive supply agreements. This heading also includes other usufruct and surface rights. These costs are amortized over the related contract terms, which range from 5 to 50 years.

b. Emission allowances

Emission allowances are recognized as an intangible asset and are measured at acquisition cost.

Allowances received for no consideration under the National Emission Allowance Assignment Plan, are initially recognized at the market price prevailing at the beginning of the year in which they are issued, and a balancing item is recognized as a grant for the same amount under deferred income, which is charged against income as the corresponding tons of CO₂ are consumed.

These allowances are not amortized as their carrying amount equals their residual value and, therefore, the depreciable basis is zero, as their value is constant until delivery to the authorities; the allowances may be sold anytime. Emission allowances are subject to an annual impairment test (section 3.3.10. below). The fair value of the emission allowances is measured based on the average market price on European Union Allowances Exchange for the last trading session of the year provided by the ECX-European Climate Exchange.

The Group records an expense under "Other operating expenses" in the income statement for the CO₂ emissions released during the year, recognizing a provision calculated based on the tons of CO₂ emitted, measured at: (i) their carrying amount in the case of the allowances of which the Group is in possession at year-end; and (ii) the closing list price in the case of allowances of which it is not in possession at year-end.

When the emissions allowances for the CO₂ tons emitted are delivered to the authorities, the intangible assets as well as their corresponding provision are derecognized from the balance sheet without any effect on the income statement.

c. Other intangible assets

This heading primarily includes the following items:

- I. Concessions and others: these are initially recognized at acquisition cost if they are acquired directly from a government or other public sector body, or at the fair value attributable to the concession in question if they are acquired as part of a business combination. They are subsequently measured at acquisition cost less accumulated amortization and impairment loss, if any. These concessions are amortized on a straight-line basis over the term of the concession agreements.

These concessions include contracts for the supply of public services under which the operator has the right to charge tariffs that are established directly with the service's users, although the competent authorities regulate or control either the tariffs or the users to which service must be provided; moreover, the State retains the residual value in the assets

at the end of the term of the arrangement. These concessions are initially recognized at fair value.

This heading also includes power distribution concessions in Spain which are not subject to legal or any other limits. Because these intangible assets are considered to have indefinite useful lives they are not amortized but they are tested for impairment at least annually.

- II. Exploration permits acquisition costs: the costs incurring to acquire stakes in exploration permits for a given period of time are capitalized under this heading at their purchase price. During the exploration and evaluation phases, these costs are not amortized, although they are tested for impairment at least once a year and whenever indications of impairment are detected, in accordance with the guidelines set forth in IFRS 6 *Exploration for and Evaluation of Mineral Resources*. Any impairment losses detected are recognized – or reversed - in profit or loss in accordance with the general rules established in IAS 36 *Impairment of Assets*. Once the exploration and evaluation phase is completed, if no reserves are found, the amounts previously capitalized are recognized as an expense in the consolidated income statement. If the exploration work yields positive results, giving rise to commercially exploitable wells, the costs are reclassified to "Investments in areas with reserves" (Note 3.3.7 c) at their carrying amount when this determination is made.

- III. Development costs are capitalized only if all the conditions stipulated in the applicable accounting standard are met. The Group research costs incurred by the Group are expensed in the Income Statement.

- IV. Other costs, including those relating to software and industrial property, are amortized on a straight-line basis over their useful lives (which range between 3 and 20 years).

Trademarks and analogous intangible assets internally developed by the Group are not capitalized; and the related expenses are recognized in the consolidated income statement in the period in which they are incurred.

3.3.7 Property, plant and equipment

The Repsol YPF Group uses the cost model by which items of property, plant and equipment are measured initially at acquisition cost.

a. Cost

The cost of property, plant and equipment includes their acquisition cost, all the costs directly related to the location of assets, making them operational and the present value of the expected disbursements necessary for any costs of dismantling and removing the item or restoring the site on which it is located, when such obligations are incurred under certain conditions. Subsequent changes to the measurement of the dismantling obligations and related liabilities resulting from changes in the estimated cash flows and/or in the discount rate are added to or deducted from the asset's carrying amount in the period in which they are incurred, except where the lower corrected value of the liability is greater than the carrying amount of the associated asset, in which case the surplus is recognized in the income statement.

Borrowing costs that are directly attributable to the acquisition or construction of assets that require more than one year to be ready for use are capitalized as part of the cost of these assets, in accordance with the limits established in the applicable accounting rules.

Personnel expenses and other operating expenses directly attributable to the construction of the asset are also capitalized.

The costs of expansion, modernization or improvements leading to increased productivity, capacity or efficiency or to a lengthening of the useful lives of the assets are capitalized, as long as the general capitalization criteria are met.

Repair, upkeep and maintenance expenses are recognized in the income statement as incurred. Furthermore, certain facilities require periodic reviews. In this respect, the assets subject to replacement are recognized specifically and are depreciated over the average term remaining until the next repairs are carried out.

This heading also includes investments relating to oil and gas exploration and production activities (section c below) and the cost of assets held under finance leases (section 3.3.20 below).

b. Amortization (depreciation)

Property, plant and equipment, other than those items relating to oil and gas exploration and production activities (section c below), are depreciated using the straight-line method on the basis of the acquisition cost of the assets less their estimated residual value, over the years of estimated useful life of the assets, in accordance with the following schedule:

	Years of Estimated Useful Life
Buildings and other structures	20–50
Machinery and fixtures:	
Machinery, fixtures and tools ⁽¹⁾	8–40
Furniture	9–15
Refineries in service:	
Units	8–15
Storage tanks	20–30
Pipelines and networks	12–18
Gas infrastructure and distribution facilities	20–40
Transport equipment	5–30

(1) In addition, the Group holds an indirect interest, via Gas Natural Fenosa, in hydro-powered generation assets whose depreciation period can be as high as 100 years, where not held under concession, depending on their estimated useful lives.

Depreciation of these assets starts when the assets become available for use.

Land is classified separately from the buildings or facilities that might be located on it and is deemed to have an indefinite useful life. Therefore, it is not depreciated

c. Recognition of oil and gas exploration and production transactions

Repsol YPF recognizes oil and gas exploration and production transactions using the “successful-efforts” method, whereby the accounting treatment of the various costs incurred is as follows:

- I. The costs incurred in the acquisition of new interests in areas with proved and unproved reserves (including bonds, legal costs, etc.) are capitalized as incurred under “Investments in areas with reserves” associated with proved reserves or unproved reserves, as appropriate.
- II. *Exploration costs* (geological and geophysical expenditures, expenditures associated with the maintenance of unproved reserves and other expenditures relating to exploration work), excluding exploratory drilling expenditures, are expensed as incurred.
- III. *Exploratory drilling costs*, including those relating to stratigraphic exploration wells, are recognized as assets under the heading “Other exploration costs” until it is determined whether proved reserves justifying their commercial development have been found. If no proved reserves are found, the capitalized drilling costs are charged to income. However, if as a result of exploratory drilling, including stratigraphic exploratory wells, reserves are found that cannot be classified as proved, their recognition depends on the following:
 - If the area requires additional investments before production can commence, the drilling costs remain capitalized only during the period in which the following conditions are met: (i) the amount of proved reserves found justifies the completion of a productive well if the required investment is made; and (ii) the drilling of additional exploratory or stratigraphic wells is underway or planned for the near future. If either of the aforementioned conditions is not met, the drilling costs or the cost of the stratigraphic wells are charged to income.
 - In all other circumstances, the existence of reserves that can be classified as proved have to be determined within one year from the completion of the prospection work. Otherwise, the related drilling costs are charged to income.

Costs incurred in exploratory drilling work that has yielded a commercially exploitable reserve find are reclassified to “Investments in areas with reserves.” Wells are classified as “commercially exploitable” only if they are expected to generate a volume of reserves that justifies their commercial development on the basis of the conditions prevailing when recognized (e.g. prices, costs, production techniques, regulatory framework, etc.).

- IV. *Development expenditure* incurred in lifting proved reserves and in processing and storing oil and gas (including costs incurred in drilling relating to productive wells and dry wells under development, oil rigs, recovery improvement systems, etc.) are recognized as assets under “Investments in areas with reserves.”
- V. *Future field abandonment and dismantling costs* (environmental, safety, etc.) are estimated, on a field-by-field basis, and are capitalized at their present value when they are initially recognized under “Investments in areas with reserves” in assets in the balance sheet, within “Non-Current Provisions.” This capitalization is recorded against the corresponding provision.

The investments capitalized as described above are depreciated as follows:

- I. Investments in the acquisition of proved reserves are depreciated over the estimated commercial life of the field on the basis of the production for the period as a proportion of the proved reserves of the field at the beginning of the depreciation period.
- II. Investments relating to unproved reserves or fields under evaluation are not depreciated. These investments are tested for impairment at least once a year and whenever indications of impairment are detected. Any impairment losses detected are recognized – or reversed - in profit or loss in accordance with the general rules established in IAS 36 *Impairment of Assets*.
- III. Cost incurred in drilling work and subsequent investments to develop and lift oil and gas reserves are depreciated over the estimated commercial life of the field on the basis of the production for the period as a proportion of the proved reserves of the field at the beginning of the depreciation period.

The changes in estimated reserves are considered on a prospective basis in calculating depreciation.

At each balance sheet date or whenever there are indications that the assets might have become impaired, their recoverable amount (see section 3.3.10. of this Note) is compared to their carrying amount. Any impairment loss or reversal arising as a result of this comparison is recognized under “Impairment losses and losses on disposal of non-current assets” or, if applicable, “Income from reversal of impairment losses and gains on disposal of non-current assets” on the consolidated income statement (section 3.3.10. of this Note and Notes 7, 9 and 25).

d. Environmental property, plant and equipment

Property, plant and equipment of an environmental nature, the purpose of which is to minimize environmental impact and to protect and improve the environment, are identified on the basis of the nature of the business activities carried on, based on the Group’s technical criteria, which are based on the guidelines relating to these matters issued by the American Petroleum Institute (API).

Environmental property, plant and equipment and the related accumulated depreciation are recognized in the balance sheet together with other property, plant and equipment, classified by their nature for accounting purposes.

Their cost, depreciation methods and the valuation adjustments to be performed are determined in accordance with the rules relating to these non-current asset items, as explained in sections 3.3.7.a) to 3.3.7.c) of this Note.

3.3.8 Investment property

Investment property are those assets (buildings, land) held either to earn rentals or for capital appreciation or both. These assets are not used by the Group’s in the production or supply of goods or services or for administrative purposes. Repsol YPF recognizes investment property using the cost model, applying the same policies as for items of property, plant and equipment (sections 3.3.7.a) and 3.3.7.b) above).

3.3.9 Non-current assets and liabilities held for sale and discontinued operations

The Group classifies a non-current asset (or group of assets) as held for sale if the carrying amount of the asset(s) and associated liabilities will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. The sale should be expected to be completed within one year from the date of classification.

These assets or group of assets are presented at the lower of carrying amount and fair value less costs to sell and are not depreciated as long as they are classified as held for sale or form part of a group of assets classified as held for sale.

In addition, the Group classifies as discontinued operations any component (a cash-generating unit or a group of cash-generating units) that represents a separate major line of business or geographical area of operations, or has been sold or disposed of by other means, or that qualifies for classification as held for sale.

Non-current assets held for sale are presented in the consolidated balance sheet separately from other assets under the heading "Non-current assets held for sale," while the liabilities associated with assets qualifying for this classification are presented under "Liabilities related to non-current assets held for sale" described in the previous paragraphs. The after-tax profits or losses generated by discontinued operations are presented in a single heading "Net income for the year from discontinued operations".

3.3.10 Impairment of property, plant and equipment, intangible assets and goodwill

In order to ascertain whether its assets have become impaired, the Group compares their carrying amount with their recoverable amount at the balance sheet date (section 3.3.24 below), or more frequently if there are indications that the assets might have become impaired. For that purpose, assets are grouped into cash-generating units (CGUs), to the extent that such assets, when individually considered, do not generate cash inflows that are independent of the cash inflows from other assets or CGUs. The identification of an asset's CGU implies the use of professional judgment.

To perform this test, goodwill acquired on a business combination is allocated among the cash-generating units or groups of cash-generating units (CGUs) that benefit from the synergies of the business combination and the recoverable amount thereof is estimated by discounting the estimated future cash flows of each unit.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a rate that reflects the weighted average cost of capital employed, which is different for each country and business.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount, and an impairment loss is recognized as an expense under "Impairment losses recognized and losses on disposal of non-current assets" in the consolidated income statement.

An impairment loss is recognized, first applied, as a reduction of the carrying amount of related goodwill allocated to the cash-generating unit. Any impairment losses in excess of the carrying amount of goodwill is then allocated to the assets comprising the CGU on a pro-rata basis of their carrying amount.

The basis for future depreciation or amortization will take into account the reduction in the value of the asset as a result of any accumulated impairment losses.

On the occurrence of new events, or changes in existing circumstances, which prove that an impairment loss recognized on a prior date could have disappeared or decreased, a new estimate of the recoverable value of the corresponding asset is developed, to determine whether it is applicable to reverse the impairment losses recognized in previous periods.

In the event of a reversal, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined in case no impairment loss had been recognized for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognized under "Income from reversal of impairment losses and gains on disposals of non-current assets" in the consolidated income statement. An impairment loss recognized for goodwill cannot be reversed in subsequent periods.

3.3.11 Current and non-current financial assets

The Group classifies its investments when they are initially recognized and reviews their classification at each balance sheet date. The assets are classified on the basis of the purpose for which they were acquired.

This category has, in turn, the following sub-categories:

a. Financial assets at fair value with changes through profit or loss

- a.1. Financial assets held for trading: this category comprises derivatives not designated as hedging instruments.
- a.2. Other financial assets at fair value with changes in profit and loss: this category comprises those financial assets acquired for trading or sale in the short-term which are not derivatives.

b. Financial assets available for sale

Financial assets available for sale are financial assets that have either been designated as available for sale or have not been classified in any other financial asset category.

c. Loans and receivables

There are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group delivers goods or provides services or financing to a third party and are assets which it does not intend to sell immediately or in the near term.

d. Held to maturity investments

Held to maturity investments are financial assets with fixed or determinable payments and fixed maturity that the Group has the positive intention and ability to hold from the date of purchase to the date of maturity.

A financial asset is initially recognized at fair value (section 3.3.23 of this Note). Transaction costs that are directly attributable to the acquisition or issuance of a financial asset are capitalized upon initial recognition of the asset, except in relation to assets designated as financial assets at fair value through profit or loss.

Subsequent to initial recognition, all financial assets, except for "Loans and receivables" and "Held to maturity investments" are measured at fair value. Equity investments in unlisted companies whose fair value cannot be measured reliably are measured at cost.

In the case of "Other financial assets at fair value with changes in profit and loss," gains and losses from changes in fair value are recognized in the net profit or loss for the year. In the case of "Financial assets available for sale," the gains and losses from changes in fair value are recognized directly in equity until the asset is disposed of or it is determined that it has become impaired, at which time the cumulative gains or losses previously recognized in equity are recognized in the profit or loss for the year.

"Loans and receivables" and "Held to maturity investments" are measured at amortized cost, and the accrued interest income is recognized in profit or loss using the effective interest rate method.

An impairment loss on financial assets at amortized cost is recognized when there is objective evidence that the Group will not be capable of collecting all the related amounts under the original terms of the accounts receivable.

The amount of the impairment loss is recognized in the consolidated income statement as the difference between the carrying amount and the present value of the future cash flows

discounted at the effective interest rate. The carrying amount of the asset is reduced through an allowance account.

If, in subsequent periods, the value of the financial asset is recovered, the previously recognized impairment loss shall be reversed. The reversal shall not exceed the carrying amount the financial asset prior to the initial recognition of the impairment loss. The amount of the reversal shall be recognized in the income statement for the period.

Finally, an account receivable is considered uncollectible when situations similar to the following occur: dissolution of a company, lack of assets with which to settle the debts or a legal ruling.

Financial assets are initially recognized at face value whenever the effect of not discounting the related cash flows is not significant. Subsequent measurement of these assets is also done at face value.

The Group derecognizes financial assets when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition.

3.3.12 Inventories

Inventories acquired for our own use are stated at the lower of cost and net realizable value. Cost (basically the average cost) includes acquisition costs (less trade discounts, rebates and other similar items), transformation and other costs which have been incurred in bringing the inventories to their present location and condition.

In the case of refinery products, the costs are allocated to income in proportion to the selling price of the related products (isomargin method) due to the existing difficulty to recognize the conversion costs of every product.

The Group assesses the net realizable value of the inventories at the end of each period and recognizes in income the appropriate valuation adjustment if the inventories are overstated. When the circumstances that previously caused the impairment no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed.

Net realizable value is the estimated selling price at year end less the estimated costs of completion and costs to be incurred in marketing, selling and distribution.

In the case of commodities and similar products, it is not necessary to write down their carrying amount below cost so long as management expects that the finished products in which they are to be incorporated will be sold above cost.

Commodities inventories acquired for trading are measured at fair value less costs to sell and changes in fair value are recognized in income. These transactions do not represent a significant volume of the Group's inventories (Note 13).

3.3.13 Cash and cash equivalents

Repsol YPF classifies under "Cash and cash equivalents" liquid financial assets, deposits or financial assets that can be converted into a known amount of cash within three months and that are subject to an insignificant risk of changes in value.

3.3.14 Earnings per share

Basic earnings per share are calculated by dividing the profit for the period attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the period taking into account, where appropriate, any treasury shares held by the Group (Notes 15.1 and 15.4).

3.3.15 Financial liabilities

Financial liabilities are initially recognized at fair value less the transaction costs incurred. Except for derivatives, subsequent to initial recognition, the Group measures its financial liabilities at amortized cost, as none of its financial liabilities are classified as held-for-trading.

Any difference between the financing received (net of transaction costs) and repayment value is recognised in the consolidated income statement over the life of the debt instrument in question, using the effective interest rate method.

Preference shares, which are detailed in Note 19 correspond to this liability category. They are initially recognized at fair value net of issuing costs and are subsequently measured at amortized cost, unless they form part of a hedging transaction in which case the criteria set forth in section 3.3.23. of this Note applies.

Trade payables and other payables are financial liabilities which do not bear explicit interest and which, are recognized at face value, when the effect of not discounting them is not material.

The Group derecognizes financial liabilities when the obligations are cancelled or expire.

3.3.16 Provisions

In accordance with prevailing accounting standards, the Group makes a distinction between:

- a. **Provisions:** present obligations, either legal or assumed by the Group, arising from past events, the settlement of which is expected to give rise to an outflow of resources the amount and timing of which are uncertain; and
- b. **Contingent liabilities:** possible obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group, or present obligations arising from past events, the amount of which cannot be measured with sufficient reliability or whose cancellation is not likely to give rise to an outflow of resources embodying future economic benefits.

These provisions are recognized when the liability or obligation giving rise to the indemnity or payment arises, to the extent that its amount can be reliably estimated and it is probable that the commitment will have to be settled.

When a contract qualifies as onerous, the related present liabilities are recognized in the consolidated financial statements as provisions.

Contingent liabilities are not recognized in the consolidated financial statements. Notwithstanding the above, whenever it is deemed possible that settlement of such a liability will give rise to an outflow of resources, the existence of these liabilities is disclosed (Note 34).

3.3.17 Pensions and other similar obligations

a. Defined contribution plans

Repsol YPF has recognized defined contribution pension plans for certain employee groups; directly or indirectly through Group subsidiary YPF and Gas Natural Fenosa (Note 18).

The annual cost of these plans is recognized under "Personnel expenses" in the consolidated income statement.

b. Defined benefit plans

Repsol YPF's defined benefit plans are mostly held through Gas Natural Fenosa. The benefits to which the employees are entitled at the date of their retirement are recognized in the income statement as follows:

- I. The current service cost (the increase in the present value of the defined benefit obligation resulting from employee service in the current period), under "Personnel expenses."
- II. The interest cost (the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement), under "Financial costs."
- III. The return on plan assets and changes in the value thereof, less any costs of administering the plan and less any tax payable by the plan itself, under "Financial costs."

The liability recognized with respect to defined contribution pension plans is the present value of the obligation at the balance sheet date less the fair value of plan assets, net of adjustments for past service costs. The obligation under defined benefit plans is calculated annually by independent actuaries in accordance with the projected credit unit method.

Any actuarial gains or losses arising as a result of changes in the actuarial assumptions used are recognized directly in equity under the heading "Reserves."

3.3.18 Government grants

a. Grants related to assets

These are grants related to non-current assets and are measured at either: (i) the amount granted or nominal value; or (ii) the fair value of the assets received, if they have been transferred for no consideration. They are classified as deferred income when it is certain that they will be received.

Among other grants, this heading includes the government grants received by Gas Natural Fenosa pursuant to the agreements in place with Spain's Regional Governments for building power and gas infrastructure in towns and other gas and power related investments for which all the conditions established to them have been met; they are measured at the amount granted.

These grants are recognised in profit or loss on straight line basis over the useful life of the assets they are financing. The consolidated Financial Statements present the assets and the grants received separately.

b. Grants related to income

These are grants that become receivable by the entity and are recognised as income for the period in which they become receivable.

3.3.19 Deferred income

Deferred income relates mainly to income from the assignment of gas transmission pipeline usage rights, the income relating to the natural gas distribution network relocation to be borne by third parties and the net amounts received each year for new connections to the gas or power grids. This income is credited to income on a straight-line basis over the depreciation period of the related non-current assets, which ranges from 20 to 50 years.

This heading also includes the amounts associated with CO₂ allowances received for no consideration (section 3.3.6 b) within this Note).

3.3.20 Leases

Determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

In this category, a distinction can be drawn between:

a. Finance leases

Leases are classified as finance leases whenever the lessor transfers substantially all the risks and rewards of ownership to the lessee. The ownership of the asset may or may not be transferred at the end of the lease term.

When the consolidated companies act as the lessee in finance leases, they present the cost of the leased assets in the consolidated balance sheet, based on the nature of the leased asset, and, simultaneously, recognise a financial liability for the same amount, which will be the lower of the fair value of the leased or the fair value of non-contingent amounts and not related to the provision of services payable to the lessor including, where appropriate, the price of exercising the purchase option, when the exercise thereof is expected with certainty at the beginning of the lease. These assets are depreciated according to criteria applied to the items of property, plant and equipment that are owned or are depreciated over the lease term, whichever is lower, provided there is no reasonable certainty that the lessee shall be granted the ownership at the end of the lease term.

The finance cost derived from the discounted financial liability is allocated to the periods during the lease term through use of a constant interest rate on the remaining financial liability. The resulting finance expense is charged to the heading "Financial result" in the consolidated income statement.

b. Operating leases

Leases in which the ownership of the leased asset and substantially all the risks and rewards incidental to ownership of the leased assets remain with the lessor are classified as operating leases.

Lease costs are recognized under "Other operating expense" in the consolidated income statement as incurred.

When the Group acts as lessor, the resulting income is recognized under "Other operating income" in the consolidated income statement, as accrued.

3.3.21 Income tax

Repsol YPF recognizes in the income statement for the year the accrued tax on the companies' income, which is calculated taking into account the differences between the timing of recognition for accounting purposes and tax purposes of the transactions and other events in the current year recognized in the financial statements, giving rise to temporary differences and, therefore, to the recognition of certain deferred tax assets and liabilities in the balance sheet. These amounts are recognized by applying to the temporary differences the tax rate that is expected to apply in the period when the asset is realized or the liability is settled.

Deferred tax liabilities are recognized for all taxable temporary differences, unless the temporary difference arises from the initial recognition of goodwill for which amortization is not deductible for tax purposes or unless the exception to the deferred tax liabilities is applicable in cases of taxable temporary differences related to investments in subsidiaries, branches and associates.

Deferred tax assets recognized for temporary differences and other deferred tax assets (tax losses and tax deductions carry forwards) are recognized when it is considered probable that the consolidated companies will have sufficient taxable profits in the future against which the deferred tax asset can be utilized. Additionally, deferred tax assets recognized for temporary differences can only be recorded to the extent that they will reverse in the near future.

The accrued income tax expense includes both the deferred income tax expense and the current income tax expense, which is taken to be the amount payable (or refundable) in relation to the taxable net income for the year (see Note 24).

"Income tax" in the accompanying consolidated income statement includes both the accrued income tax expense and the net provisions recognized in the year for income tax contingencies.

3.3.22 Revenue and expense recognition

Revenues are measured at the fair value of the consideration received or receivable and represents the amounts receivable for the goods and services provided in the normal course of business, net of discounts and any amounts received on account of third parties, such as the Valued Added Tax.

In sales in which the Group acts as agent, the Group does not recognize all the income and expenses associated with the transaction, recognizing as revenue only the margin received or pending to receive.

In order to minimize transport costs and optimize the Group's logistics chain, the Group arranges oil product swaps with other companies in a number of geographical locations. The related agreements include clauses to adjust through an amount of economic consideration the value of the products swapped on the basis of the technical specifications thereof and the delivery and receiving points for the goods. These transactions are not recognized in the income statement as separate purchases and sales.

Sales of goods are recognized when substantially all the risks and rewards have been transferred. Revenue associated with the rendering of services is also recognized by reference to the stage of completion of the transaction at the balance sheet date, provided the outcome of the transaction can be estimated reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable. Dividend income from investments is recognized when the shareholders' rights to receive payment have been established.

An expense is recognized when there is a reduction of an asset, or an increase in a liability, which can be measured reliably.

As a result of the legislation on oil and gas retailing in force in the countries in which the Group operates, Repsol YPF reflects as both revenue and expenses the excise and analogous duties levied specifically on consumption related to the production and/or sale of oil and gas products.

Transactions between Group companies and between reportable segments are carried out on an arm's length basis. These transactions give rise to income, expenses and profits which are eliminated on consolidation.

Work relating to water management, atmospheric protection, waste management, remediation of soil and subsoil water and the development of environmental management systems are deemed to be environmental expenses and they are recognized for accounting purposes in accordance with the criteria indicated above.

3.3.23 Financial derivatives

The Group arranges derivatives to hedge its exposure to financial and commercial risks due to interest rate and exchange rate fluctuations and to changes in the prices of certain commodities. All financial derivative instruments are initially recognized at fair value at the contract date and are subsequently measured at fair value. The derivatives are recognized as an asset when their fair value is positive and as a liability when it is negative. The differences in fair value are recognized in the income statement, except for specific hedge accounting treatment, where applicable.

For the assessment of financial derivative instruments, in case these are available, quotation market prices at the close of the balance sheet are used. This is the case of the futures contracts.

In the absence of quotation market prices for financial derivative instruments contracted, their fair value is estimated discounting the associated future cash flows according to the interest, exchange rates, credit differentials, volatility, and forward price trends in force on the close of the balance sheet. This assessment method has been applied to the following instruments:

- Mixed currency and interest swaps
- Interest rate swaps
- Forward exchange rate contracts
- Swaps on crude oil prices and products
- Interest rate options

Although the Group applies common assessment market techniques, some changes in the measurement models or in the hypotheses applied therein could lead to different assessments of said instruments than these recognized in the balance sheet, income statement and/or equity.

The Group designates certain derivatives as:

a. Fair value hedges

These are hedges of the exposure to changes in the fair value of an asset or a liability recognized for accounting purposes, an unrecognized firm commitment or an identified portion of the aforementioned asset, liability or firm commitment that can be attributed to a particular risk and might affect the profit for the period.

The changes in the fair value of hedging derivatives that are designated as effective fair value hedges are recognized in the income statement, together with any change in the fair value of the hedged items attributable to the hedged risk.

b. Cash flow hedges

These are hedges of the exposure to changes in cash flows that: (i) are attributed to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction and that (ii) could affect profit or loss for the year.

The effective portion of changes in the fair value of hedging instruments is recognized in equity. The gain or loss relating to the ineffective portion is recognized in the income statement. The cumulative gains or losses recognized in equity are transferred to net profit or loss for the year, in the period in which the hedged items affect the income statement.

c. Hedges of net investment

These are hedges of the exposure to foreign exchange rate changes in relation to investments in the net assets of foreign operations.

Hedges of net investments in a foreign operation are accounted for in a similar way to cash flow hedges, although the exchange rate differences resulting from these transactions are recognized in "Translation differences" under equity in the accompanying consolidated balance sheet.

The cumulative amount of the exchange differences are derecognized from equity, and recognized in the income statement, when the foreign operation is sold or disposed of in any other way.

For the three types of hedges described above, the Group documents at the inception of the transaction the hedging relationship between the hedging instrument and the hedged items, and the risk management objective and strategy for undertaking the hedge. The Group also documents their assessment, both at the inception of the hedge and subsequently. The derivatives used in hedging transactions are highly effective.

Hedge accounting is discontinued when the hedging instrument expires, is sold or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognized in equity is retained in equity until the forecasted transaction occurs.

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not carried at fair value with unrealized gains or losses reported in the consolidated income statement.

Long-term oil and gas sale and purchase commitments are analyzed with the aim to determine whether these are in line with the provisions or marketing needs of the normal activity of the Group or whether, on the contrary, these are derivatives and should be recognized in accordance with the criteria set forth in IAS 39.

3.3.24 Methodology for estimating recoverable amount

The recoverable amount of assets is generally estimated on the basis of their value in use, calculated on the basis of future expected cash flows derived from the use of the assets.

In the assessment of the value in use, cash flow forecasts based on the best income and expense estimates available of the CGUs using sector forecasts, past results and future expectations of business evolution and market development are utilized. Among the most sensitive aspects included in the forecasts used in all the CGUs, the purchase and sale prices of hydrocarbons, inflation, employee costs and investments are highlighted.

The cash flows from the exploration and production assets are generally projected for a period that covers the economically productive useful lives of the oil and gas fields and is limited, by the contractual expiration of the operating permits, commitments or contracts. The estimated cash flows are based on production levels, commodity prices and estimates of the future investments that will be necessary in relation to undeveloped oil and gas reserves, production costs, field decline rates, market supply and demand, contractual conditions and other factors. The unproved reserves are weighted with risk factors, on the basis of the type of each one of the exploration and production assets.

The reference prices considered are based on a combination of market prices available in the financial community.

The cash flows of the refining and marketing businesses are estimated on the basis of the projected sales trends, unit contribution margins, fixed costs and investment or divestment flows, including the investments needed to maintain business volumes, in line with the assump-

tions modeled in each business' specific strategic plans. However, cash inflows and outflows relating to planned restructurings or productivity enhancements are not considered. The cash flows projection period is generally a five-year period, extrapolating the flows of the fifth year for subsequent years without applying any growth rate.

These estimated net cash flows are discounted to present value using the specific cost of capital to each asset based on the currency in which its cash flows are denominated and the risks associated with the cash flows, including country risk. The rates used in 2010 and 2009 for the various businesses are in the following ranges:

	2010	2009
E&P	7.7% - 19.7%	7.8% - 18.6%
R&M	4.2% - 15.7%	4.9% - 15.0%

4

Accounting estimates and judgments

The preparation of financial statements in accordance with generally accepted accounting principles makes it necessary to make assumptions and estimates that affect the amounts of the assets and liabilities recognized, the presentation of contingent assets and liabilities at year end and the income and expenses recognized during the year. The actual results could differ depending on the estimates made.

The accounting policies and areas which require the highest degree of judgment and estimates in the preparation of the consolidated financial statements are: (i) crude oil and natural gas reserves; (ii) provisions for litigation and other contingencies; (iii) the calculation of income tax and deferred tax assets; (iv) impairment test of assets (Note 3.3.10 and 3.3.24), and (v) derivative financial instruments (Note 3.3.23).

Crude oil and gas reserves

The Estimation of crude oil and gas reserves is an integral part of the Company's decision making process. The volume of crude oil and gas reserves is used to calculate the depreciation using unit production ratios and to assess the recoverability of the investments in exploration and production assets (Notes 7 and 9).

Repsol YPF prepares its estimates and assumptions in relation to crude oil and gas reserves taking into account the guidelines and the conceptual framework of the definition of proved reserves established for the oil and gas industry by the U.S. *Securities and Exchange Commission (SEC)*. The SEC approved amendments to its reporting requirements applicable to oil and gas exploration and production companies that became effective on January 1, 2010 and which were applied to calculate reserve volumes at December 31, 2009. The application of these amendments had no significant impact on the Group's reserve volumes at that date.

Provisions for litigation and other contingencies

The final cost of settling claims, grievances and lawsuits could vary due to estimates based on differing interpretations of the rules, opinions and final assessments of the amount of the damages. Therefore, any change in circumstances relating to contingencies of this nature could have a material effect on the amount of the provision for contingencies recognized.

Repsol YPF makes judgments and estimates in recording costs and establishing provisions for environmental clean-up and remediation costs which are based on current information regarding costs and expected plans for remediation. For environmental provisions, costs can differ from estimates because of changes in laws and regulations, discovery and analysis of site conditions and changes in clean-up technology. Therefore, any change in the factors or circumstances related to provisions of this nature, as well as changes in laws and regulations

could, as a consequence, have a significant effect on the provisions recognized for these costs (Note 34).

Calculation of income tax and deferred tax assets

The appropriate assessment of the income tax expense is dependent on several factors, including estimates of the timing and realization of deferred tax assets and the timing of income tax payments. Actual collections and payments may differ materially from these estimates as a result of changes in tax laws as well as unanticipated future transactions impacting the Company's tax balances.

5

Goodwill

The breakdown, by company, of goodwill at year-end 2010 and 2009 is as follows:

	Millions of euros	
	2010	2009
YPF S.A.	1,802	1,671
Gas Natural Fenosa Group companies	2,146	2,156
Refap S.A. (1)	–	264
Repsol Portuguesa, S.A.	154	154
Repsol Gas Portugal, S.A.	118	118
Empresas Lipigas S.A.	94	80
EESS de Repsol Comercial P.P, S.A.	95	96
Other companies	208	194
	4,617	4,733

(1) In December 2010 the Group sold its interest in the refinery, Alberto Pascualini Refap, S.A. (Note 31).

The changes in 2010 and 2009 in this line item in the accompanying consolidated balance sheet were as follows:

	Millions of euros	
	2010	2009
Balance at beginning of year	4,733	3,055
Additions	6	1,788
Change in the scope of consolidation	(285)	(49)
Translation differences	189	10
Write-downs	(10)	(16)
Reclasifications and others changes	(16)	(55)
BALANCE AT END OF YEAR	4,617	4,733

In 2010 the "Changes in the scope of consolidation" subheading includes the derecognition of €291 million of goodwill associated with Alberto Pascualini Refap, S.A., which was sold during the year (Note 31).

In 2009 the most significant amount included under the heading "Additions" corresponded to the acquisition of Unión Fenosa, S.A. by Gas Natural SDG, S.A., which generated goodwill amounting to €1,745 million (representing the Group's pro rata share corresponding to its shareholding in Gas Natural Fenosa).

The detail of the gross goodwill and accumulated impairment losses at December 31, 2010 and 2009 is as follows:

	Millions of euros	
	2010	2009
Gross goodwill	4,643	4,749
Accumulated impairment losses	(26)	(16)
Net goodwill	4,617	4,733

Testing goodwill for impairment

The detail, of goodwill at December 31, 2010 and 2009 by operating segment is as follows:

	Millions of euros	
	2010	2009
Upstream	85	78
Downstream	584	828
YPF	1,802	1,671
Upstream	1,230	1,141
Downstream	572	530
Gas Natural	2,146	2,156
TOTAL	4,617	4,733

Repsol YPF considers that, based on current knowledge, the reasonably foreseeable changes in key assumptions for determining fair value, on which the determination of the recoverable amounts was based, will not have any material impact on the Group's 2010 or 2009 Financial Statements.

6 Other intangible assets

The detail of the intangible assets and the related accumulated amortization at December 31, 2010 and 2009, and of the changes therein is as follows:

	Millions of euros						
	Leasehold Assignment, Surface and Usufruct Rights	Flagging Costs	Exclusive Supply Contracts	Emission Allowances	Computer Software	Other Intangible Assets	TOTAL
COST							
Balance at January 1, 2009	676	210	178	315	402	586	2,367
Additions (1)	3	11	12	13	48	15	102
Disposals and derecognitions	(20)	(33)	(1)	(48)	(3)	(6)	(111)
Translation differences	(8)	(1)	–	–	–	26	17
Change in the scope of consolidation	(5)	–	–	67	21	937	1,020
Reclassifications and other changes (2)	(7)	21	(12)	(89)	(5)	(16)	(108)
Balance at December 31, 2009	639	208	177	258	463	1,542	3,287
Additions (1)	43	7	13	8	59	119	249
Disposals and derecognitions	(21)	(20)	(103)	(4)	(4)	(21)	(173)
Translation differences	18	3	–	–	7	63	91
Change in the scope of consolidation (3)	1	–	–	4	–	(28)	(23)
Reclassifications and other changes (2) (4)	19	4	(5)	(11)	(14)	1,317	1,310
Balance at December 31, 2010	699	202	82	255	511	2,992	4,741
ACCUMULATED DEPRECIATION AND IMPAIRMENT LOSSES							
Balance at January 1, 2009	(253)	(162)	(138)	(86)	(241)	(260)	(1,139)
Depreciation charge for the year	(24)	(23)	(6)	–	(61)	(39)	(153)
Disposals and derecognitions	7	26	–	14	2	1	50
Impairment losses (recognised)/reversed	–	–	–	(50)	–	–	(50)
Translation differences	4	1	–	–	–	(5)	–
Change in the scope of consolidation	(7)	–	–	(4)	3	1	(7)
Reclassifications and other changes (2)	1	4	–	81	–	12	97
Balance at December 31, 2009	(272)	(154)	(144)	(45)	(297)	(290)	(1,202)
Depreciation charge for the year	(31)	(16)	(9)	–	(67)	(116)	(239)
Disposals and derecognitions	17	15	104	–	3	15	154
Impairment losses (recognised) / reversed	(1)	–	–	5	–	–	4
Translation differences	(10)	(2)	–	–	(5)	(16)	(33)
Change in the scope of consolidation	–	–	–	–	–	17	17
Reclassifications and other changes (2) (4)	(46)	–	–	39	11	(610)	(606)
Balance at December 31, 2010	(343)	(157)	(49)	(1)	(355)	(1,000)	(1,905)
CARRYING AMOUNT AT DECEMBER 31, 2009	367	54	33	213	166	1,252	2,085
CARRYING AMOUNT AT DECEMBER 31, 2010	356	45	33	254	156	1,992	2,836

(1) Additions in 2010 and 2009 came from the direct acquisition of assets.

(2) In 2010, the column headed "Emission Allowances" includes €211 million corresponding to CO₂ allowances allocated for no consideration for 2010 under Spain's National Allocation Plan and the derecognition of the liability corresponding to 2009 in the amount of €178 million. In 2009, this same heading included €246 million corresponding to the CO₂ allowances allocated for no consideration in 2009 under the National Allocation Plan and the derecognition of the liability corresponding to 2008 in the amount of €214 million.

(3) See Note 30.

(4) The column headed "Other Intangible Assets" primarily reflects a reclassification of assets pertaining to service concession arrangements in the net amount of €463 million (€989 million of cost net of accumulated amortization in the amount of €524 million) from "Property, plant and equipment" (€519 million) and "Grants" (€56 million).

“Other intangible assets” primarily includes:

- a. Gas supply contracts and other contractual rights acquired as a result of the business combination between Gas Natural and Unión Fenosa, in the amount of €625 million in 2010 and €660 million in 2009.
- b. Assets in the amount of €626 million at year-end 2010 related to service concession arrangements under which the operator has the right to charge an established tariff to the services users, although the competent authorities regulate or control either the tariffs or the users to which service must be provided; moreover, the state retains the residual interest in the assets at the end of the term of the arrangement (Note 3.3.1).

These assets correspond primarily to transport concession agreements covering oil, gas and derivative products in Argentina, obtained as a result of application of the Privatization Law (Note 2), as well as concession agreements under which Gas Natural Fenosa participates in the gas transport and distribution businesses in Argentina, Brazil and Italy and in the power generation business in Costa Rica. The terms of these concessions range from 11 to 35 years and can be extended for additional terms ranging from 10 to 30 years. At the end of the concessions terms, the assets attached to the concessions revert to the corresponding governments and do not give rise to any collection rights whatsoever on the part of YPF or Gas Natural Fenosa.

In 2010 the Group recognized income and expenses incurred during construction phase of these assets in the amount of €21 million; these amounts are recognized under “Other operating income” and “Other operating expenses.”

- c. The costs of acquiring interests in exploration permits in the amount of €282 million at December 31, 2010.
- d. Power distribution concessions which the Group holds through the Gas Natural Fenosa Group in the amount of €242 million at year-end 2010 and 244 million at year-end 2009.

Intangible assets include €207 million of assets with indefinite useful lives at December 31, 2010 (€205 million at year-end 2009). These assets are not amortized but they are tested at least annually for impairment and relate primarily to the power distribution concessions held by the Group in Spain through Gas Natural Fenosa, as outlined above (Note 3.3.6 c).

The leasehold assignment, surface and usufruct rights, the reflagging costs and image rights, the exclusive supply contracts, as well as the administrative concessions and the costs of acquiring interests in exploration permits are legal rights whose ownership is conditioned upon the terms of the originating contract, as described in section 3.3.6 of Note 3.

At year-end 2010, intangible assets included €97 million of assets acquired under finance leases and related specifically to service station association rights.

The Group recognized research and development expenses in the consolidated income statement in the amount of €71 million in 2010 (€75 million in 2009).

7

Property, plant and equipment

The detail of “Property, plant and equipment” and of the related accumulated depreciation and accumulated impairment losses at December 31, 2010 and 2009, and of the changes therein is as follows:

	Millions of euros							
	Land, buildings and other structures	Machinery and plant	Investments in areas with reserves	Other exploration costs	Transport equipment	Other tangible assets	Assets in the course of construction	TOTAL
COST								
Balance at January 1, 2009	2,143	19,462	29,612	1,848	1,439	1,659	3,384	59,547
Additions	12	261	1,099	583	4	55	2,232	4,246
Disposals and derecognitions	(27)	(372)	(11)	(19)	(8)	(27)	(384)	(848)
Translation differences	(35)	(70)	(1,043)	(72)	(21)	(15)	(5)	(1,261)
Change in the scope of consolidation	107	4,227	326	136	42	31	421	5,290
Reclassifications and other changes (1)	365	1,173	19	4	113	(23)	(1,714)	(63)

(1) In 2010, “Reclassifications and other changes” includes €177 million of reclassifications to “Non-current assets held for sale” related to the the Plana del Vent combined cycle plant and the Enel Unión Fenosa Renovables assets to be spun out to Enel Green Power, all of which are held through Gas Natural Fenosa. Also in 2010, the investment in BBG (€47 million) was transferred to “Non-current assets held for sale.” In 2009, €676 million of assets were reclassified to “Non-current assets held for sale” corresponding to gas distribution assets in Cantabria, Murcia and Madrid, Combined Cycle Generation assets in Mexico, and certain assets located in Colombia, all of which were held through Gas Natural Fenosa. In 2009, changes in this heading also reflect the derecognition of €71 million corresponding to the Gaviota gas storage facility (owned by Repsol Investigaciones Petrolíferas, S.A.) which had been reclassified to “Non-current assets held for sale.”

(2) In 2009, “Reclassifications and other changes” includes the derecognition of €539 million of assets associated with service concession arrangements which must be recognized as intangible assets under IFRIC 12 (Note 6). In addition, within this subheading, the column headed “Transport equipment” includes 856 million corresponding to the addition of four new methane ships acquired under finance lease arrangements (Note 22).

(3) See Note 9.

(4) At December 31, 2010, accumulated impairment charges totaled €381 million.

In 2010, the main additions were made in Spain (€1,932 million), Argentina (€1,516 million), Brazil (€442 million), the rest of Central and South America (€465 million), Libya (€83 million), the United States (€63 million) and Canada (€49 million). In 2009 the main additions were made in Argentina (€896 million), the United States (€265 million), Brazil (€211 million), the rest of Central and South America (€226 million), Libya (€136 million), Canada (€111 million) and Spain (€2,162 million).

The amounts corresponding to non-depreciable assets, that is, land and assets in the course of construction, amount, respectively to €790 million and €4,698 million at December 31, 2010 and €763 million and €3,934 million at December 31, 2009, respectively. The amounts related to land are included within the heading "Land, buildings and other structures" on the previous table.

Property, plant and equipment, included fully depreciated items for an amount of €11,533 million and €10,899 million at December 31, 2010 and 2009, respectively.

Repsol YPF capitalizes financial costs as part of the cost of the assets as described in section 3.3 of Note 3. In 2010 and 2009, the average capitalization cost was 3.76% and 4.52% and the amount of such financial expenses capitalized was €143 million and €122 million, respectively. Such amounts are recorded under the "Financial costs" line item in the consolidated income statement.

Within the heading "Property, plant and equipment" there are some investments carried out by the Group in public concessions, in an amount of €150 million and €122 million at December 31, 2010 and 2009, respectively; these concessions shall revert to the State within a term ranging from 2010 and 2054.

In 2010 and 2009 this heading includes €2,869 million and €2,024 million, respectively, of assets acquired under finance leases. Among the assets purchased under finance leases during these periods we highlight the methane ships purchased for the transport of the LNG in the amount of €1,561 million and €754 million in 2010 and 2009, respectively, as well as gas pipelines and other assets for the transport of natural gas in North America and Canada, which amounted to €1,287 million and €1,245 million December 31, 2010 and 2009, respectively (Note 22).

In accordance with industry practices, Repsol YPF insures its assets and operations worldwide. Among the risks insured are damages to property, plant and equipment, together with the subsequent interruptions in its business that such damages may cause. The Group believes that the current coverage level is, in general, appropriate for the risks inherent to its business.

8

Investment property

The changes in "Investment property" in 2010 and 2009 were as follows:

	Millions of euros		
	Cost	Accumulated Depreciation and Impairment Losses	TOTAL
Balance at January 1, 2009	37	(6)	31
Disposals and derecognitions	(1)	–	(1)
Depreciation charge for the year and other changes	5	–	5
Balance at December 31, 2009	41	(6)	35
Disposals and derecognitions	(2)	1	(1)
Depreciation charge for the year and other changes	2	(10)	(8)
Balance at December 31, 2010	41	(15)	26

The market value at December 31, 2010 and 2009 of the assets comprised in this line item amounts to €99 million and €90 million, respectively.

The income recognized in 2010 and 2009 from investment properties amounted to less than €1 million in each period.

9

Impairment of assets

Repsol YPF Group reviews the carrying amounts of intangible assets, property, plant and equipment and other non-current assets whenever there are indicators of impairment, or at least annually, to determine whether those assets have incurred an impairment loss. These reviews are performed in accordance with the general principles established in Note 3.

In 2010 the Group recognized net impairment losses on non-current assets in the amount of €221 million.

In May 2010, Repsol YPF formally informed the National Iranian Oil Company (NIOC) and Shell of its decision to terminate its participation in the integrated natural gas liquefaction project in Iran (Persian LNG). As a result, the Group has recognized €85 million of impairment charges in connection with the assets capitalized as part of this project, of which €52 million corresponded to assets of the Upstream segment, while the remaining €33 million belonged to the LNG segment.

In 2010, the Group recognized an impairment loss of €81 million in connection with exploration assets in an area in Libya due to uncertainties surrounding the exploitation terms of the associated resources.

In addition, in 2010 the Group recognized impairment charges in connection with several assets associated with the Chemicals business, in the aggregate amount of €14 million, following the optimization of the Group's productive capacity in Spain.

In 2009 the Group recognized a net reversal of impairment losses on non-current assets in the amount of €74 million.

The amount included a €50 million impairment loss on emission allowances (Note 35), the effect of which was almost totally by the gain resulting from the transfer to the income statement of the deferred revenue recognized in connection with emission allowances allocated in 2009 under Spain's National Allocation Plan.

This balance also reflected the reversal of the impairment provision recognized on the Argentine businesses in prior years in the amount of €172 million. This reversal was the result of the reassessment in 2009 of the configuration of cash generating units (CGUs) into which the Argentine upstream assets were grouped. Until 2008 each field was considered an individual CGU. Since 2009, primarily considering the trends of certain economic, operating and commercial conditions under which the Group operates in Argentina, the aforementioned assets were grouped into four CGUs, which provide a better reflection of the way the Group's current management decisions occur with respect to these assets. The new CGUs are the following: one CGU grouping the field assets with primarily oil reserves and three CGUs grouping field assets with mostly gas reserves, classified by national basin (Neuquina, Northwest and Austral).

10

Investments accounted for using the equity method

The most significant investments in associates, which were accounted for using the equity method, at December 31, 2010 and 2009, were as follows:

	Millions of euros	
	2010	2009
Peru LNG Company LLC	193	217
Compañía Logística de Hidrocarburos CLH, S.A.	19	29
Atlantic LNG Company of Trinidad & Tobago	45	44
Transportadora de Gas del Perú, S.A.	50	41
Transierra, S.A.	24	20
Dynasol Elastómeros, S.A. de C.V.	37	25
Atlantic 4 Company of Trinidad & Tobago	44	41
Oleoducto de Crudos Pesados (OCP), Ltd	30	23
Guará, B.V.	18	-
Other entities accounted for using the equity method	125	91
	585	531

Appendix I lists the Group companies consolidated using the equity method of consolidation.

The changes in 2010 and 2009 in this heading in the accompanying consolidated balance sheet were as follows:

	Millions of euros	
	2010	2009
Balance at beginning of year	531	525
Additions (1)	2	11
Disposals	(23)	(1)
Changes in the scope of consolidation (2)	(13)	128
Result of companies accounted for using the equity method	76	86
Dividends distributed	(72)	(86)
Translation differences	43	1
Reclassifications and other changes (3)	41	(133)
BALANCE AT END OF YEAR	585	531

(1) In 2009 and 2010, additions include equity contributions to Enirepsa.

(2) In 2009, changes relate primarily to €131 million corresponding to the Group's proportional interest in Gas Natural Fenosa (Note 30).

(3) Reclassifications in 2009 include the reclassification of a 13% shareholding by Gas Natural Fenosa in Indra Sistemas S.A., which was sold on July 2, 2009, to non-current assets held for sale (€99 million) and the reclassification of Gas Natural Fenosa's remaining 5% stake in this company (€38 million) to available for sale financial assets (Note 12). Both figures represent the Group's proportionate interest in Gas Natural Fenosa.

In 2010, "Disposals" related to the sale of a 5% interest in CLH to BBK and the sale by Gas Natural Fenosa of its investment in Gas de Aragón (Note 31).

The breakdown in 2010 and 2009 of the Group's share in the profits or losses of the most significant companies accounted for using the equity method is as follows:

	Millions of euros	
	2010	2009
Atlantic LNG Company of Trinidad & Tobago	29	34
Compañía Logística de Hidrocarburos CLH, S.A.	24	26
Atlantic 4 Company of Trinidad & Tobago	19	16
Unión Fenosa (1)	-	14
Other entities accounted for using the equity method	4	(4)
	76	86

(1) During March and April 2009, Unión Fenosa was consolidated by the Gas Natural Fenosa Group using the equity method (Note 30).

The following companies over which the Group has significant management influence, given that the Group has sufficient representation on the Board of Directors, despite holding an interest of less than 20%, were accounted for using the equity method:

Company	% of ownership
Ensafeca Holding Empresarial, S.L. (1)	18.52%
Sistemas Energético Mas Garullo (1)	18.00%
Gasoducto Oriental, S.A.	16.66%
Guará, B.V.	15.00%
Regasificadora del Noroeste, S.A. (1)	10.50%
CLH	10.00%
Transportadora de Gas del Perú, S.A.	10.00%
Gasoducto del Pacífico (Argentina), S.A.	10.00%

(1) Investees held through the Gas Natural Fenosa Group

The following table provides the key balances of the Repsol YPF Group associates, calculated in accordance with the group's respective shareholding percentage at December 31, 2010 and 2009 (Appendix I):

	Millions of euros	
	2010	2009
Total Assets	1,953	1,903
Total Equity	585	531
Revenues	667	670
Net income for the period	76	86

11

Non-current assets and liabilities held for sale and discontinued operations

The main balance sheet line items classified as assets held for sale and related liabilities at December 31, 2010 and 2009 were as follows:

	Millions of euros	
	2010	2009
Goodwill	20	27
Property, plant and equipment and other intangible assets	280	562
Other non-current assets	22	55
Current assets	18	102
	340	746
Non-current liabilities	59	155
Current liabilities	94	30
	153	185
	187	561

In February 2010, the Group sold 100% of Termobarrancas and the exploration and exploitation license for the Barrancas area to PDVSA; at year-end 2009 the investment in this company was classified to this heading in light of the sale-purchase and cession agreements already entered into with PDVSA and PDVSA GAS, respectively. Upon closing this transaction, €132 million was derecognized from this heading.

On April 8, 2010, Repsol YPF and Enagás signed an agreement for the sale by Repsol YPF to Enagás of its 82% interest in the Gaviota underground storage facility for €87 million. Of this amount, €16 million is conditional upon ministerial approval to the facility's capacity expansion plans. This transaction will close once all the necessary government and anti-trust authorities approvals have been secured; as a result, at December 31, 2010, this asset was classified as a non-current asset held for sale. In 2010 the Group received a €70 million advance payment on this sale; this amount was recognized under proceeds from disposals in the accompanying consolidated cash flow statement (Note 31).

In July 2010, Gas Natural Fenosa agreed to sell Grupo Alpiq the Plana de Vent 400MW combined cycle plant for a total of €60 million (adjusted for Repsol YPF's ownership interest in Gas Natural Fenosa). In addition, Alpiq will acquire an exclusive usage and operating right over another 400 MW facility for a two-year term. At the end of this term, Alpiq will have the right to purchase the facility for a total of €59 million (adjusted for Repsol YPF's ownership interest in Gas Natural Fenosa), in line with the market value of this option. This transaction falls under the scope of the commitments assumed by Gas Natural Fenosa with Spain's anti-trust authority (CNC), when it acquired Unión Fenosa and the close is subject to obtaining the usual authorizations. Since June 30, 2010, the assets for which the sale was agreed, have classified as non-current assets held for sale.

In August 2010, Gas Natural Fenosa and Enel Green Power agreed to terminate the renewable energy venture held by both parties until that time through Enel Unión Fenosa Renovables, S.A. (EUFER), a company in which each held a 50% interest. The agreement will result in each venturer receiving roughly half of EUFER's assets. The transaction was approved on November 10, 2010 by the anti-trust authorities, leaving only the regulatory and government authorizations pending. The portion of the assets and liabilities recognized in Gas Natural Fenosa's consolidated balance sheet to be spun out to Enel Green Power have been considered as non-current assets and liabilities held for sale.

In December 2009, Gas Natural Fenosa agreed the sale of its dual gas and power supply business in 38 Madrid municipalities. This business supplied residential customers, retail premises and small and medium companies (SMEs) from the the shared services structure in this region. This sale was closed in April 2010 once all the necessary permits had been obtained, resulting in the derecognition from this heading of €112 million of assets and €20 million of liabilities (proporcionate to Repsol YPF Group's interest in Gas Natural Fenosa). (Note 31).

In December 2009, Gas Natural Fenosa agreed the sale of several combined cycle power generation operators in Mexico, with combined generating capacity of 2,233 MW, and the Gasoducto del Río gas pipeline. This sale was closed in June 2010 once all the necessary permits had been obtained from the Mexican authorities, resulting in the derecognition from this heading of €397 million of assets and €125 million of liabilities (proporcionate to Repsol YPF Group's interest in Gas Natural Fenosa) (Note 31).

During the first half of 2009, a 13% interest in Indra Sistemas, a company in which Unión Fenosa held an 18% stake, was added to this heading in the amount of €99 million, based on the consideration at June 30, 2009 that its sale was highly probable. The sale closed on July 2, 2009. The remaining 5% stake was then classified as an available-for-sale financial asset. Later, in April 2010, this investment was sold for €38 million (proporcionate to Repsol YPF Group's interest in Gas Natural Fenosa) (Notes 12 and 31).

Discontinued operations in 2009

In 2009 the assets and liabilities associated with Energía Pacífico, S.A. (EPSA) in Colombia which were held through Gas Natural Fenosa were classified as a discontinued operation as they related to a component that represented a significant separate line of business (electricity generation in Colombia) within the Gas Natural Fenosa operating segment (Note 31). The rest of the assets and liabilities associated with the assets and groups considered as held for sale did not represent a separate significant line of business or geographic area of operations, and accordingly were not deemed discontinued operations.

The composition by nature of "Net income for the year from discontinued operations" in 2009 was as follows:

	Millions of euros
Operating revenues	56
Operating expenses	(31)
Operating income	25
Financial result	–
Gain on assets sales	3
Net income before taxes	28
Income Tax	(16)
Net income for the year from discontinued operations	12

No businesses were classified as discontinued operations in 2010.

12

Current and non-current financial assets

The detail of the different concepts that are included on the balance sheets, is as follows:

	Millions of euros	
	2010	2009
Non-current financial assets	1,789	1,732
Non-current derivatives on trading transactions (1)	2	-
Other current financial assets	684	713
Current derivatives on trading transactions (2)	40	20
Cash and cash equivalents	6,448	2,308
TOTAL	8,963	4,773

(1) Classified under the heading "Other non-current assets."

(2) Classified under the heading "Other receivables".

The detail, by type of assets, of the Group's financial assets at December 31, 2010 and 2009, is as follows:

NATURE / CATEGORY	December 31, 2010						
	Carrying amount						
	Financial assets held for trading	Other financial assets at fair value through profit or loss	Financial assets available for sale	Loans and receivables	Held to maturity investments	Hedging derivatives	TOTAL
Equity instruments	-	-	150	-	-	-	150
Derivatives	2	-	-	-	-	-	2
Other financial assets	-	64	-	1,509	66	-	1,639
LONG TERM / NON-CURRENT	2	64	150	1,509	66	-	1,791
Derivatives	37	-	-	-	-	71	108
Other financial assets (1)	-	346	-	601	6,117	-	7,064
SHORT TERM / CURRENT	37	346	-	601	6,117	71	7,172
TOTAL	39	410	150	2,110	6,183	71	8,963

NATURE / CATEGORY	December 31, 2009						
	Carrying amount						
	Financial assets held for trading	Other financial assets at fair value through profit or loss	Financial assets available for sale	Loans and receivables	Held to maturity investments	Hedging derivatives	TOTAL
Equity instruments	-	-	173	-	-	-	173
Derivatives	-	-	-	-	-	86	86
Other financial assets	-	72	-	1,339	62	-	1,473
LONG TERM / NON-CURRENT	-	72	173	1,339	62	86	1,732
Derivatives	25	-	-	-	-	137	162
Other financial assets (1)	-	226	-	503	2,150	-	2,879
SHORT TERM / CURRENT	25	226	-	503	2,150	137	3,041
TOTAL	25	298	173	1,842	2,212	223	4,773

(1) Under the headings "Trade receivables" and "Other receivables" from the balance sheet there is an amount of €8,160 million and €6,533 million in 2010 y 2009, respectively, arising out of receivables not included in the breakdown of the financial assets in the previous table.

The classification of the financial assets recognized in the financial statements at fair value, by fair value calculation method level hierarchy, is as follows:

NATURE / CATEGORY	Millions of euros							
	Level 1		Level 2		Level 3		Total	
	2010	2009	2010	2009	2010	2009	2010	2009
Financial assets held for trading	8	1	31	24	-	-	39	25
Other financial assets at fair value through profit and loss	410	298	-	-	-	-	410	298
Financial assets available for sale (1)	71	103	-	-	-	-	71	103
Hedging derivatives	-	-	71	223	-	-	71	223
TOTAL	489	402	102	247	-	-	591	649

Level 1: Valuations based on a quoted price in an active market for an identical instrument.

Level 2: Valuations based on a quoted price in an active market for similar financial assets or based on other valuation techniques that rely on observable market inputs.

Level 3: Valuations based on inputs that are not directly observable in the market.

(1) Excludes €79 million and €70 million in 2010 and 2009, respectively, corresponding to equity investments in companies that are measured at acquisition cost under IAS 39 (Note 3.3.11. - Current and non-current financial assets).

The composition of current and non-current financial assets by category is as follows:

12.1

Financial assets held for trading

Derivatives not designated as hedging instruments are included within this category.

12.2

Other financial assets at fair value through profit or loss

Financial assets measure at fair value through profit or loss in the years 2010 and 2009 mainly correspond to collective mutual funds.

12.3

Financial assets available for sale

These mainly correspond to minority equity interests in companies over which the Group does not have management influence.

The movement of financial assets available for sale during the years ended December 31, 2010 and 2009 is the following:

	Millions of euros	
	2010	2009
Balance at beginning of year	173	881
Additions	1	240
Disposals	(39)	(87)
Adjustments to fair value	8	48
Changes in the scope of consolidation	(1)	(951)
Ra classifications and other changes	8	42
Balance at end of year	150	173

Additions in 2009 included €239 million corresponding to the outflows to pay for the purchase by Gas Natural of shares in Unión Fenosa, adjusted for the Group's ownership interest in Gas Natural Fenosa. This amount was transferred as a consequence of the full consolidation of Unión Fenosa from February 28, 2009 (Note 30).

In 2010, Gas Natural Fenosa sold 5% interest in Indra for €38 million, generating a before-tax profit of €1 million. In 2009 disposals include the sale of 5% of Enagás for €48 million, which generated before-profit gains of €31 million; this amount was recognized within "Financial result" while "Adjustments for changes in value" was deducted by the same amount. In 2009, Gas Natural Fenosa closed the sale of its 1% interest in Isagen S.A. E.S.P. for €20 million and its 1% interest in Red Eléctrica Corporación S.A. for €11 million; neither transaction generated gains. These disposals were made by Gas Natural Fenosa and the amounts presented correspond to the Group's proportionate interest in this group, except for the percentages, which represent 100% of Gas Natural's interest in those transactions.

In 2010 adjustments due to fair value estimations primarily relate to the investment in West Siberian Resources (€11 million), while in 2009 were related to the investments in West Siberian Resources (€32 million), Enagás (-€10 million) and Unión Fenosa (€22 million).

12.4

Loans and receivables

The fair value of the loans and receivables of the Group is detailed in the following table:

	Millions of euros			
	Carrying amount		Fair value	
	2010	2009	2010	2009
Non-current	1,509	1,339	1,689	1,308
Current	601	503	601	503
	2,110	1,842	2,290	1,811

The non-current balance includes the loan extended to Petersen in relation with the sale of an interest in YPF in the amount of €940 million in 2010 (€813 million at year-end 2009) (Note 31). These balances include principal and interest accrued to year-end. This loan accrues interest at an annual rate of 8.12%. The loan will be repaid in semi-annual installments from May 2013, date in which all accrued interest to that date will also be settled.

In addition, the current and non-current balances include loans to consolidated companies in the amount not eliminated in the consolidation process of €324 and €345 million in 2010 and 2009, respectively.

The current balances includes €526 million at year-end 2010 in relation with the Group's share of the funding of the electricity tariff deficit through Gas Natural Fenosa (€381 million at year-end 2009).

The return accrued on the financial assets disclosed in the table above (without considering financing of the shortfall in regulated electricity tariff settlements) was equivalent to an average interest rate of 7.65% in 2010 and of 7.63% in 2009.

The maturity of non-current loans and receivables is the following:

	Millions of euros	
Due date	2010	2009
2011	–	23
2012	38	23
2013	247	171
2014	75	64
2015	69	64
Subsequent years	1,080	994
	1,509	1,339

12.5

Held-to-maturity investments

The detail of the held to maturity investments at December 31, 2010 and 2009 is as follows:

	Millions of euros			
	Carrying amount		Fair value	
	2010	2009	2010	2009
Non-current financial assets	66	62	66	62
Current financial assets	4	26	4	26
Cash equivalents	3,993	1,045	3,993	1,045
Cash on hand and at banks	2,120	1,079	2,120	1,079
	6,183	2,212	6,183	2,212

Financial investments are mainly from placements in banks and collateral deposits. These financial investments have accrued an average interest of 1.22% and 1.51% in 2010 and 2009, respectively.

The non-current financial assets held-to-maturity mature as follows:

	Millions of euros	
Due date	2010	2009
2011	–	16
2012	26	25
2013	14	–
2014	3	–
2015	3	–
Subsequent years	20	21
	66	62

13

Inventories

The "Inventories" composition at December 31, 2010 and 2009 is as follows:

	Millions of euros		
	Cost	Provision of allowance	Net
At December 31, 2010			
Crude oil and natural gas	2,323	–	2,323
Finished and semi-finished goods	2,996	(12)	2,984
Supplies and other inventories	552	(22)	530
	5,871	(34)	5,837
At December 31, 2009			
Crude oil and natural gas	1,425	–	1,425
Finished and semi-finished goods	2,365	(8)	2,357
Supplies and other inventories	473	(22)	451
	4,263	(30)	4,233

In 2010 and 2009 the Group recognized net gains of €4 million and €209 million respectively, in the line item "Changes in inventories of finished goods and work in progress inventories" as a result of the measurement of inventories of finished goods and raw materials at the lower of cost and net realizable value.

In 2010 and 2009, in relation with raw materials, the Group recognized a net expense of €9 and €36 million respectively, under the "Supplies" heading relating to the measurement of raw materials at the lower of cost and net realizable value.

At December 31, 2010 and 2009, the balance of inventories of crude oil, finished and semi-finished goods carried at fair value less costs to sell amounted to €242 million and €175 million, respectively, and the effect of their measurement at market value represented a gain of €6 million in 2010 and a loss of €2 million in 2009.

The Repsol YPF Group complies, both at December 31, 2010 and December 31, 2009, with the legal requirements regarding minimum safety stocks established under prevailing legislation (Note 2) through its Spanish Group companies.

14

Trade and other receivables

The breakdown of this heading at December 31, 2010 and 2009 was the following:

	Millions of euros	
	2010	2009
Trade receivables for sales and services	6,084	5,039
Bad debt impairment provision	(289)	(395)
Trade receivables	5,795	4,644
Other trade creditors and other receivables	1,679	1,386
Debtors from personnel transactions	53	50
Receivables from public bodies	633	453
Derivatives held for trading (1)	40	20
Other receivables	2,405	1,909
Income tax assets	369	220
Trade and other receivables	8,569	6,773

(1) This heading includes the items outlined in Note 12.

The changes in the provision for bad debt in 2010 and 2009 were as follows:

	Millions of euros	
	2010	2009
Balance at beginning of the year	395	330
Impairment losses recognized/(reversed)	70	23
Change in the scope of consolidation	–	86
Translation differences	22	(2)
Reclassifications and other movements	(198)	(42)
Balance at end of the year	289	395

15

Equity

15.1

Share capital

The share capital at December 31, 2010 and 2009 consisted of 1,220,863,463 fully subscribed and paid up shares of 1 euro par value each, represented by book entries, and all listed on the Spanish stock exchanges and Buenos Aires Stock Exchange.

At the date of these Financial Statements, Repsol YPF, S.A.'s shares are traded in the form of American Depositary Shares (ADSs) on the New York Stock Exchange (NYSE). However, on February 22, 2011, the Company officially filed to delist its ADSs from the NYSE. The ADSs are expected to be traded on the NYSE for the last time on March 4, 2011.

Repsol YPF's bylaws limit the maximum number of votes that any single shareholder or companies belonging to the same group may cast at the General Meeting at 10% of the voting stock.

Per the most recent information available to Repsol YPF the company's most significant shareholders were the following:

Shareholder	% total over share equity
Sacyr Vallehermoso, s.A. (1)	20.01
Criteria Caixa Corp.	12.97
Petróleos Mexicanos (2)	4.81

(1) Sacyr Vallehermoso, S.A. holds its stake through Sacyr Vallehermoso Participaciones Mobiliarias, S.L.

(2) Petróleos Mexicanos (Pemex) holds its stake through Pemex Internacional España, S.A. and through several swap instruments (equity swaps) with certain financial entities that enable Pemex to exercise the economic and political rights of a percentage of up to 4.81% of the share capital of the Company.

At December 31, 2010, the following Group companies' shares were publicly listed:

Company	Number of listed shares	% of share capital listed	Stock exchanges	Year-end Market Price	Average last quarter	Currency	
Repsol YPF, s.A.	1,220,863,463	100%	Spanish stock exchanges	20.85	20.01	euros	
			(Madrid, Barcelona, Bilbao, Valencia)				
			Buenos Aires Stock Exchange	112.00	107.72	pesos	
			New York Stock Exchange	27.94	27.24	dollars	
Gas Natural SDG, s.A.	921,756,951	100%	Spanish stock exchanges	11.49	10.90	euros	
			(Madrid, Barcelona, Bilbao, Valencia)				
YPF	393,312,793	100%	Buenos Aires Stock Exchange	200.50	165.24	pesos	
			New York (NYSE)	50.37	41.65	dollars	
Refinería La Pampilla, s.A.	360,640,000	100%	Lima Stock Exchange	1.68	1.72	Soles	
Compañía Logística de Hidrocarburos, CLH	1,779,049	2.54%					
Serie A	90,000	100%	Spanish stock exchanges	28.83	33.16	euros	
Serie D	1,689,049	100%	(Madrid, Barcelona, Bilbao, Valencia)				

15.2

Share premium

The share premium at December 31, 2010 and 2009 amounted to €6,428 million. The Spanish Capital Companies Law expressly permits the use of the share premium account balance to increase capital and does not establish any specific restrictions as to its use.

15.3

Reserves

Legal reserve

Under the Spanish Capital Companies Law, 10% of net income for each year must be transferred to the legal reserve until the balance of this reserve reaches at least 20% of the share capital. The legal reserve can be used to increase capital provided that the remaining reserve balance does not fall below 10% of the increased share capital amount. Otherwise, until the legal reserve exceeds 20% of share capital, it can only be used to offset losses, provided that sufficient other reserves are not available for this purpose.

Revaluation Reserve

The balance of "Revaluation Reserve" (Royal Decree-Law 7/1996 of June 7) can be used, free of tax, to offset losses (both prior years' accumulated losses, current year losses or losses which might arise in the future), and to increase capital. From January 1, 2007, the balance of this account can be taken to unrestricted reserves, provided that the monetary surplus has been realized. The surplus will be deemed to have been realized in respect of the portion on which depreciation has been taken for accounting purposes or when the revalued assets have been transferred or derecognized. The distribution of these reserves would give rise to entitlement to a dividend double taxation tax credit. If this balance were used in a manner other than as provided for in Royal Decree-Law 7/1996, it would be subject to taxation.

Other reserves

It includes mainly the transition to IFRS reserve, which comprises the adjustments related to the differences between the previous accounting principles and the IFRS, from events and transactions before the transition date to IFRS (January 1, 2004) and all the results created and not distributed as dividends, which had not been recognized in any of the different reserves previously mentioned.

15.4

Treasury shares

The ordinary General Shareholders' Meeting held on April 30, 2010, authorized the Board of Directors to make the "derivative acquisition of Repsol YPF, S.A.'s shares, via sale-purchase, swap or any other onerous transaction, directly or through subsidiaries, up to a maximum number of shares so that the sum of those acquired plus treasury shares already held by Repsol YPF, S.A. and any of its subsidiaries does not exceed 10% of the parent company's share capital, for a price or consideration that shall not be less than the par value of the shares and not more than its quoted price on the stock exchange."

The authorization is valid for 5 years from the date of the General Shareholders' Meeting and nullifies the equivalent resolution ratified at the ordinary General Shareholders' Meeting held on May 14, 2009.

In 2009, Repsol YPF disposed of a total of 12,229,428 treasury shares representing 1.001% of the parent company's share capital. These shares had a par value of €12.22 million and were sold for an aggregate gross amount of €230.47 million.

At December 31, 2010 and 2009 neither Repsol YPF, S.A. nor any of its subsidiaries held any shares of the parent company.

15.5

Adjustments for changes in value

This heading includes:

Financial assets available for sale

It comprises the profits and losses, net of the related tax effect, corresponding to changes in the fair value of non-monetary assets classified within the category of financial assets available for sale.

Hedge transactions

It comprises the effective part, net of the related tax effect, of changes in the fair value of derivative instruments defined as cash flow hedges (section 3.3.23 of Note 3 and Note 21).

Translation differences

This item corresponds to exchange differences recognized in equity as a result of the consolidation process described in Note 3.3.1, and the measurement at fair value of the financial instruments assigned as net investment hedges in foreign transactions in accordance to the method described under section 3.3.23 of Note 3 (Note 21).

The movement in adjustments for changes in value is presented in the consolidated statement of recognized income and expenses by item and before the corresponding tax effect. The tax effects of the changes set out in the 2010 and 2009 statements of recognized income and expense are broken out in the following table:

Millions of euros						
	Recognised in Equity		Transferred to the Income Statement		TOTAL	
	2010	2009	2010	2009	2010	2009
Measurement of financial assets available for sale	(1)	(15)	–	5	(1)	(10)
Cash flow hedges	19	3	(25)	(12)	(6)	(9)
Translation differences	(120)	(143)	–	–	(120)	(143)
Actuarial gains and losses and other adjustments	6	(2)	–	–	6	(2)
	(96)	(157)	(25)	(7)	(121)	(164)

15.6

Dividends

The detail of the dividends paid by Repsol YPF, S.A. in 2010 and 2009 are as follows:

	DECEMBER, 31 2010			DECEMBER, 31 2009		
	% Nominal	Euros per share	Amount (1)	% Nominal	Euros per share	Amount (2)
Ordinary shares	42.5%	0.425	519	147.5%	1.475	1,801
Remaining shares (without vote, recovery, etc.)	–	–	–	–	–	–
Total dividends paid	42.5%	0.425	519	147.5%	1.475	1,801
a) Dividends charged to results	42.5%	0.425	519	147.5%	1.475	1,801
b) Dividends charges to reserves or share premium	–	–	–	–	–	–
c) Dividends in kind	–	–	–	–	–	–

(1) This amount corresponds to the final dividend paid against 2009 profit.

(2) This balance corresponds to the interim and final dividends against 2008 profit and the interim dividend from 2009 profit (paid on December 22, 2009) and includes €14 million corresponding to Repsol YPF, S.A. shares held by the Group at the payment date.

The interim dividends for 2010 and 2009 correspond to the before-tax per share dividends distributed by Repsol YPF, S.A. on account earnings for the year underway. In 2010 the interim dividend amounted to €641 million (€0.525 per share before tax) and €519 million (€0.425 per share before tax) in 2009.

The final dividend from 2009 profits, approved by Repsol YPF, S.A.'s shareholders at the General Meeting held on April 30, 2010, totaled €519 million (€0.425 per share before tax).

The proposed distribution of 2010 results, subject to ratification at the next Repsol YPF General Shareholders' Meeting, is for the distribution of a final dividend against 2010 profits, payable from July, 7, 2011, in the amount of €641 million (€0.525 per share before tax).

15.7

Earnings per share

Earnings per share at December 31, 2010 and 2009 is detailed below:

	2010	2009
Net income from discontinued operations (millions of euros)	–	12
Net income attributable to the parent company (millions of euros)	4,693	1,559
Weighted average number of shares outstanding (millions of shares)	1,221	1,211
EARNINGS PER SHARE ATTRIBUTED TO THE PARENT (EUROS) (1)	2010	2009
Basic	3.84	1.29
Diluted	3.84	1.29

(1) Earnings per share attributable to owners of the parent company in 2009 includes profit from discontinued operations equivalent to €0.01 per share.

15.8

Minority interests

The equity attributable to minority interests at year-end 2010 and 2009 relates to the following companies:

	Millions of euros	
	2010	2009
YPF, s.A.	1,149	790
Gas Natural Fenosa group companies (1)	478	449
Petronor, s.A.	96	93
Refinería La Pampilla, s.A.	98	84
Other companies	25	24
TOTAL	1,846	1,440

(1) This heading includes preference shares issued by Unión Fenosa Preferentes, S.A., part of the Gas Natural Fenosa Group, with a face value of €226 million (proportionate to Repsol YPF Group's interest in Gas Natural Fenosa).

16

Grants

The grants recognized in the consolidated balance sheet in the amounts of €110 million at year-end 2010 and €124 million at year-end 2009 correspond mainly to subsidies for the construction of gas infrastructure (€80 million at year-end 2010 and €108 million at year-end 2009).

Revenues in relation to non-financial assets grants are transferred to the income statement under the heading "Allocations of grants on non-financial assets and other grants". Meanwhile, grants related to income are recognized in the income statement under the heading "Other operating income" and amounted to €227 million in 2010 (€192 million in 2009).

17

Provisions

The breakdown of provisions at year-end and the changes in this heading in 2010 and 2009 are as follows:

	Millions of euros						
	Current and non-current provisions for contingencies and expenses						
	Provisions for pensions (5)	Provision for field dismantling costs	Provisions for contracts	Environment	CO ₂ Emissions	Other provisions	TOTAL
Balance at January 1, 2009	66	1,101	472	238	200	1,080	3,157
Period provisions charged to results (1)	34	109	79	70	163	283	738
Reversals of provisions with a credit to results (2)	(20)	(24)	(31)	(2)	–	7	(70)
Provisions released due to payment	(19)	(41)	(43)	(70)	–	(140)	(313)
Changes in the scope of consolidation (3)	186	30	–	–	32	164	412
Translation differences	7	(34)	(14)	(6)	–	(15)	(62)
Reclassifications and other changes (4)	(11)	(3)	(71)	(8)	(215)	(175)	(483)
Balance at December 31, 2009	243	1,138	392	222	180	1,204	3,379
Period provisions charged to results (1)	23	96	99	75	179	563	1,035
Reversals of provisions with a credit to results (2)	(2)	(1)	–	(3)	(1)	(135)	(142)
Provisions released due to payment	(24)	(29)	(43)	(50)	–	(160)	(306)
Changes in the scope of consolidation	(21)	(8)	(5)	–	4	(2)	(32)
Translation differences	15	76	29	14	–	39	173
Reclassifications and other changes (4)	23	161	(55)	(4)	(180)	124	69
Balance at December 31, 2010	257	1,433	417	254	182	1,633	4,176

(1) Includes €199 million in relation with discounting provisions to the present value in 2010 (€233 million in 2009).

(2) Includes the cancellation of provisions for certain items recognized by Group companies in several countries, due to changes in the circumstances that had given rise to their initial recognition.

(3) In 2009 this balance corresponded primarily to the business combination by virtue of which Gas Natural acquired Unión Fenosa (Note 30).

(4) "Provision for field dismantling costs" includes €178 million in 2010 corresponding to additions to property, plant and equipment and the provision made for field dismantling charges (€33 million in 2009).

(5) Note 18.

"Other provisions" includes the provisions recognized to cover liabilities deriving principally from tax claims and legal and arbitration proceedings. Note 34 discloses the details of ongoing third-party claims.

Provisions for contingencies and expenses detailed in the table above, include a current balance of €404 million at year-end 2010 (€282 million at year-end 2009). The settlement of non-current provisions for onerous contracts depends on the terms of the originating contract; the longest contract term is 2018. In relation with non-current provisions for field dismantling costs, €488 million falls due within 1 and 5 years from the balance sheet date, while €913 million falls due more than five years from the balance sheet date. In relation with provisions relating to tax, legal and arbitration claims, the nature of the risks provisioned implies that it is not possible to forecast a reasonable settlement timeline.

Pension plans and other personnel obligations

a. Defined contribution pension plans

Repsol YPF has defined contribution plans for certain employees in Spain, which conform to current legislation. The main features of these plans are as follows:

- I. They are mixed plans to cover retirement, disability and death of the participants.
- II. The sponsor (Repsol YPF) undertakes to make monthly contributions of certain percentages of serving employees' salaries to external pension funds.

YPF and other subsidiaries outside Spain also have a defined contribution pension plan for their employees and directors of its main companies, in which the company contributes basically the same amount as the participant up to a stipulated ceiling.

Also, the Gas Natural Fenosa Group has defined contribution pension plans for certain employees.

The annual cost charged to "Personnel expenses" in the consolidated income statement in relation to the defined contribution plans detailed above amounted to €52 million in 2010 (€45 million in 2009).

Executives of the Repsol Group in Spain are beneficiaries of an executive pension plan that complements the standard pension plan denominated "Plan de previsión de Directivos" (Management remuneration plan) which covers the participant retirement, disability and death. Repsol YPF makes defined contributions based on a percentage of participants' salaries. The plan guarantees a fixed return equivalent to 125% of the prior year national consumer price index. The plan is instrumented through collective insurances that covers pension obligations, subscribed with an insurance entity. Premiums paid under these policies finance and externalize the Group's commitments in respect of ordinary contributions, as well as the fixed return mentioned above. The officer (or his/her beneficiaries) becomes entitled to receive the plan benefits in the event of retirement, death or total permanent disability, and under certain other circumstances defined in the plan rules. The cost of this plan recognized under "Personnel expenses" in the 2010 and 2009 consolidated income statement was €4 million and €3 million, respectively.

b. Defined benefit pension plans

Repsol YPF, primarily through Gas Natural Fenosa and YPF Holdings, a subsidiary of YPF, has arranged defined benefit pension plans for certain employee groups in Spain, Brazil, Colombia and the United States, among other countries. In addition, in 2009, the Group had defined benefit pension plans through its investment in REFAP in Brazil; although, this investment was sold in December 2010. The breakdown of the provisions recognized in connection with these plans is as follows:

	2010	2009
Spain (b.1)	109	117
Colombia (b.2)	81	67
Brazil (b.3)	17	21
United States (b.4)	30	20
Other	20	18
TOTAL	257	243

b.1. At December 31, 2010 and 2009, the Group maintained, through Gas Natural Fenosa, the following commitments for certain employee groups in Spain

- Pensions for retirees, disabled employees, widows and orphans in certain employee groups.
- Commitments to top up defined benefit pensions for inactive personnel of the former Unión Fenosa Group retiring before November 2002 and a residual portion of serving employees.
- Retirement and life insurance cover for certain employee groups.
- Gas bill discounts for serving and retired personnel.
- Electricity for serving and retired personnel.
- Commitments through official retirement age to employees opting for early retirement schemes and early retirement schemes.
- Salary supplements and social security contributions for a group of early retirees until ordinary retirement age.
- Healthcare coverage and other benefits.

b.2. At December 31, 2010 and 2009 the Group had the following commitments to certain groups of employees in Colombia:

- Pension commitments to retired employees.
- Electricity for active and retired personnel.
- Healthcare insurance and other post-retirement benefits.

b.3. At December 31, 2010 and 2009, Repsol YPF maintained, through its interest in Gas Natural Fenosa, the following commitments for certain employee groups in Brazil:

- A post-employment defined benefit plan providing cover for retirement, workplace death, disability pensions, and general amounts.
- Post-employment healthcare insurance.
- Other post-employment defined benefit plans guaranteeing temporary pensions, life insurance and general amounts depending on years of service.

b.4. At year-end 2010, YPF Holdings, a YPF subsidiary, maintains a non-contributory pension plan for executives, key management personnel, as well as former employees who worked at some of the Group companies of this subsidiary. Additionally, this company provides medical insurance benefits, life insurance benefits and other employee benefits to certain of its employees who retire early; the company also pays benefits for health and risk of death to disabled employees and benefits for risk of death to retired executives.

Additionally, USA Holdings, Inc., grants medical service benefits, life insurance and other welfare benefits to some of its retired employees.

The breakdown of the main provisions for pension and other similar commitments recognized in the accompanying consolidated balance sheet by country, and the changes in the present value of the related commitments and the fair value of the plan assets, is as follows:

	2010				2009			
	Spain	Colombia	Brazil	U.S.	Spain	Colombia	Brazil	U.S.
Present value of plan commitments								
At January 1	361	67	73	20	60	–	26	27
Changes to consolidation scope (1)	1	–	(41)	–	312	74	–	–
Annual service cost	1	–	1	1	5	–	1	–
Interest expense	16	6	6	1	14	6	7	2
Actuarial gains and losses	(1)	8	11	4	(4)	(3)	(7)	(6)
Benefits paid	(29)	(10)	(4)	(2)	(24)	(6)	(3)	(2)
Transfers and cancellations	12	–	–	3	(2)	(7)	30	–
Currency translation differences	–	10	6	3	–	3	19	(1)
At December 31	362	81	52	30	361	67	73	20
Fair value of plan assets								
At January 1	244	–	52	–	47	–	17	–
Changes to consolidation scope (1)	1	–	(27)	–	203	–	–	–
Expected return	11	–	5	2	9	–	5	–
Contributions	11	–	–	1	3	–	2	4
Actuarial gains and losses	2	–	2	(3)	(3)	–	3	–
Benefits paid	(29)	–	(3)	–	(15)	–	(2)	(4)
Other movements	13	–	–	–	–	–	18	–
Currency translation differences	–	–	6	–	–	–	9	–
At December 31	253	–	35	–	244	–	52	–
Provision for pensions and similar commitments	109	81	17	30	117	67	21	20

(1) These changes correspond to the sale of 30% of REFAP in 2010 and the acquisition of Unión Fenosa by Gas Natural in 2009.

The amounts recognized in the consolidated income statement for all the above-listed pension plans are the following:

	2010				2009			
	Spain	Colombia	Brazil	U.S.	Spain	Colombia	Brazil	U.S.
Annual service cost	1	–	1	1	5	–	1	–
Interest expense	16	6	6	1	14	6	4	2
Cancellations	–	–	–	–	–	–	–	–
Expected return on plan assets	(11)	–	(5)	(2)	(10)	–	(3)	–
Income statement charge	6	6	2	–	9	6	2	2

The accumulated balance of actuarial gains and losses, net of tax, recognized directly in equity was a net loss of €11 million in 2010 (2009: net gain of €12 million).

The pension plans outlined above are primarily invested in bonds, and to a lesser extent, other securities and real estate assets.

The actual return on plan assets held through Gas Natural Fenosa Group companies in 2010, corresponding principally to Spanish plans, was €16 million (2009: €9 million).

The actuarial assumptions used were the following:

	2010				2009			
	Spain	Colombia	Brazil	U.S.	Spain	Colombia	Brazil	U.S.
Discount rate (1)	2.3% a 5%	8.00%	6.80% - 7.70%	5.54% A 4.65%	2.3% a 5%	8.40%	10.80% - 7.7%	5.54% a 6.11%
Expected return on plan assets (1)	2.3% a 5%	8.00%	6.80% - 6.10%	N / A	2.3% a 5%	8.40%	10.80% - 6.10%	N / A
Assumed salary growth (1)	3.00%	2.70%	6.6% - 2.24%	N / A	3.00%	3.00%	6.50% - 2.24%	N / A

(1) Annual

c. Medium and long-term incentive plans

The company has implemented a loyalty building program aimed at senior executives and other persons occupying positions of responsibility in the Group, consisting of medium/long-term incentives as part of their benefit package. The purpose of this program is to strengthen the identification of executives and managers with shareholders' interests, based on the company's medium and long-term earnings sustainability as well as the compliance with the strategic business plan targets, while at the same time facilitating the retention by the Group of key personnel.

The President of the Company is not a recipient of any plan of the incentives available to date, although in his current compensation package, the level of success of each program at expiration serves as reference to determine the multi-annual compensation corresponding to each period, which is credited in the following period.

At year-end, the 2007-2010, 2008-2011, 2009-2012 and 2010-2013 incentive programs were in force, although it is important to point out that the first of these plans (2007-2010) was closed, as originally stipulated, on December 31, 2010 and its beneficiaries will their bonuses, if any, during the first quarter of 2011.

The four plans of this type in force (2007-2010, 2008-2011, 2009-2012 and 2010-2013 incentive plans) are independent of each other but their main characteristics are the same. All four are specific pluri-annual remuneration plans covering the stated years. Each plan is tied to the Group attaining a series of strategic objectives. Fulfillment of the respective objectives entitles the beneficiaries of each plan to receive an amount of variable remuneration at medium term in the first quarter of the year following the last year of the plan. However, in each case, receipt of this incentive payment is tied to the beneficiary remaining in the Group's employ until December 31 of the last year of the plan, except in the special cases envisaged in the terms and conditions of the related plan.

In all cases, the pluri-annual incentive payment, if received, will consist of an amount determined at the time the incentive is granted, to which a first variable coefficient will be applied on the basis of the extent to which the objectives set are achieved, which will be then multiplied by a second variable coefficient tied to the beneficiary's average individual performance under the Target Management scheme during the years used for benchmarking under each incentive program; these results are in turn used to determine performance-based pay.

None of these plans involves the delivery of shares or options and the incentive payments are not tied to the value of Repsol YPF shares.

To reflect the commitments assumed under these incentive plans, the Group recognized a charge of €25 million in the 2010 consolidated income statement (2009: €18 million). At year-end 2010, the Group had recognized provisions totaling €50 million to meet its obligations under all the aforementioned plans (€36 million at year-end 2009).

19

Financial liabilities

This Note discloses the categories of financial liabilities included in the balance sheet line-items outlined below.

	Millions of euros	
	2010	2009
Non-current financial liabilities	14,940	15,411
Non-current derivatives on trading transactions (1)	1	1
Current financial liabilities	4,362	3,499
Current derivatives on trading transactions (1)	115	42
TOTAL	19,418	18,953

(1) Derivatives on trading transactions are recognized under "Other non-current liabilities" and "Other payables" in the consolidated balance sheet.

Following is a breakdown of the financial liabilities acquired, most of which are secured with a personal guarantee, at December 31, 2010 and 2009:

	December 31, 2010				
	Financial liabilities held for trading	Debts and payable items	Hedging derivatives	Total	Fair value
Bank borrowings	–	4,716	–	4,716	4,776
Bonds and other securities (1)	–	10,089	–	10,089	10,228
Derivatives	6	–	130	136	136
Long-term debts / Non-current financial liabilities	6	14,805	130	14,941	15,140
Bank borrowings	–	1,872	–	1,872	1,872
Bonds and other securities (2)	–	2,352	–	2,352	2,366
Derivatives	219	–	34	253	253
Short-term debts / Current financial liabilities	219	4,224	34	4,477	4,491
TOTAL	225	19,029	164	19,418	19,631

	December 31, 2009			Total	Fair value
	Financial liabilities held for trading	Debts and payable items	Hedging derivatives		
Bank borrowings	–	5,343	–	5,343	5,343
Bonds and other securities (1)	–	9,925	–	9,925	10,489
Derivatives	10	–	134	144	144
Long-term debts / Non-current financial liabilities	10	15,268	134	15,412	15,976
Bank borrowings	–	1,807	–	1,807	1,807
Bonds and other securities	–	1,626	–	1,626	1,695
Derivatives	69	–	39	108	108
Short-term debts / Current financial liabilities	69	3,433	39	3,541	3,610
TOTAL	79	18,701	173	18,953	19,586

(1) Includes preference shares amounting to €3,205 million and €3,726 million at December 31, 2010 and 2009, respectively

(2) Includes preference shares amounting to €543 million at December 31, 2010.

At year-end 2010 and 2009, the accompanying consolidated Financial Statements include amounts corresponding to finance leases measured using the amortized cost method (Note 22.1) which are recognized under "Other non-current liabilities" (€2,852 million at year-end 2010 and €1,919 million at year-end 2009) and "Other payables" (€223 million at year-end 2010 and €172 million at year-end 2009).

The classification of the financial liabilities recognized in the financial statements at fair value, by fair value calculation method level hierarchy, is as follows:

	Millions of euros							
	Level 1		Level 2		Level 3		Total	
	2010	2009	2010	2009	2010	2009	2010	2009
Financial liabilities held for trading	60	17	165	62	–	–	225	79
Hedging derivatives	–	–	164	173	–	–	164	173
TOTAL	60	17	329	235	–	–	389	252

Level 1: Valuations based on a quoted price in an active market for an identical instrument.

Level 2: Valuations based on a quoted price in an active market for similar financial assets or based on other valuation techniques that rely on observable market inputs.

Level 3: Valuations based on inputs that are not directly observable in the market.

Disclosure of maturities relevant to Repsol YPF's funding at December 31, 2010 and 2009 is provided in paragraph 20.1.2 of the Note 20, concerning liquidity risk.

The breakdown of average balances outstanding and cost by instrument is as follows:

	2010		2009	
	Average volume	Average cost	Average volume	Average cost
Bank borrowings	6,695	3.63%	6,852	4.26%
Preference shares	3,698	3.46%	3,607	3.85%
Obligations	8,695	4.34%	6,267	4.98%
	19,088	3.92%	16,726	4.44%

The chart below discloses issues, buybacks and repayments of debt securities (recognised under current and non-current "Bonds and other securities") in 2010 and 2009:

	Balance at 12/31/2009	(+) Issuances	(-) Repurchases or reimbursements	(+/-) Exchange rate and other adjustments	Balance at 12/31/2010
Bonds and other debt securities issued in the European Union with prospectus	10,697	4,597	(3,804)	(37)	11,453
Bonds and other debt instruments issued in the European Union without prospectus	2	–	(2)	–	–
Bonds and other debt securities issued outside the European Union	852	101	(18)	53	988
TOTAL	11,551	4,698	(3,824)	16	12,441

	Balance at 12/31/2008	(+) Issuances	(-) Repurchases or reimbursements	(+/-) Exchange rate and other adjustments	Balance at 12/31/2009
Bonds and other debt securities issued in the European Union with prospectus	7,756	3,170	(685)	456	10,697
Bonds and other debt instruments issued in the European Union without prospectus	–	–	–	2	2
Bonds and other debt securities issued outside the European Union	651	119	(81)	163	852
TOTAL	8,407	3,289	(766)	621	11,551

On March 26, 2010, the Group, through its subsidiary Repsol International Finance, B.V., signed a €1,500 million Euro Commercial Paper Program (ECP), guaranteed by Repsol YPF S.A. On November 12, 2010, the program was extended to €2,000 million. The balance outstanding at December 31, 2010 was €1,432 million.

Likewise, on January 14, 2010, Gas Natural Fenosa closed three bond issues under its EMTN program, consisting of three tranches in the euromarket with maturities of 5, 8, and 10 years, and amounting to €196 million, €211 million, and €256 million respectively. The balance drawn down at year-end 2010 was €2,094 million, leaving an undrawn balance of €919 million (all figures pro rata for the Group's shareholding in the Gas Natural Fenosa Group).

In addition, on March 23, 2010, Gas Natural Fenosa agreed a €301 million ECP program. The issuer was Unión Fenosa Finance B.V. The balance drawn down at year-end 2010 was €108 million, leaving an undrawn balance of €193 million (all figures pro rata for the Group's shareholding in the Gas Natural Fenosa Group).

On March 24, 2010, Gas Natural SDG signed a €1,205 million loan agreement with 18 banks in a "Club Deal" arrangement. The loan is divided into two tranches: €301 million of 3-year paper and €904 million of 5-year paper (amounts proportional to the Group's shareholding in Gas Natural Fenosa).

As a result of the aforementioned financing arranged by Gas Natural Fenosa, together with collection of the proceeds from the sale of power generation assets in Mexico and gas distribution assets in Madrid, the acquisition financing taken out by Gas Natural to pay for the acquisition of Unión Fenosa was canceled on June 2, 2010.

A bond issued by Repsol International Finance B.V. and guaranteed by Repsol YPF S.A. and carried at €943 million matured on May 5, 2010.

The table below discloses the amounts guaranteed by the Group in 2010 and 2009 for issues, buybacks and redemptions undertaken by associates, joint ventures (at the percentage not consolidated) and non-Group companies:

	Balance at 12/31/2009	(+) Granted	(-) Cancelled	(+/-) Exchange rate and other adjustments	Balance at 12/31/2010
Issues of securities representing debt guaranteed by the Group (guaranteed amount)	28	–	–	2	30

	Balance at 12/31/2008	(+) Granted	(-) Cancelled	(+/-) Exchange rate and other adjustments	Balance at 12/31/2009
Issues of securities representing debt guaranteed by the Group (guaranteed amount)	–	28	–	–	28

In general, the financial debt agreements include the early maturity clauses customary in agreements of this nature.

Bond issues, representing ordinary debt, of Repsol International Finance, B.V. and guaranteed by Repsol YPF, S.A., totaling €4,623 million (relating to a face value of €4,636 million), contain clauses whereby Repsol YPF undertakes to pay interest when due and liabilities at maturity (cross-default provisions) and to not constitute charges or guarantees on Repsol YPF, S.A. assets for this issue or in future issues of debt securities. In the event of default, the trustee, at its sole discretion or at the request of the holders of at least one-fifth of the debentures, or by means of an extraordinary resolution, can declare all the aforementioned debentures issues due and payable. In addition, the holders of the bonds issued in March 2009 may choose to have their bonds redeemed upon a change of control at Repsol YPF provided such change in control results in, if and only if Repsol YPF's credit ratings fall below investment grade status as a result of the change of control.

Additionally, in relation to certain marketable debentures totaling €189 million (relating to a face value of €193 million), YPF, S.A. agreed to certain covenants, including among others, cross-default clauses, and not to create any liens or charges on its assets in excess of 15% of total consolidated assets. In the event of breach of any of these covenants, the trustee, or bondholders holding between 10% and 25% of the total nominal value of the debentures outstanding, depending on the covenant breached, may declare immediately due and payable the principal and accrued interest on all the debentures.

In addition, the Gas Natural Fenosa Group has certain investment projects (relating to renewable energies and Unión Fenosa Gas) which have been financed specifically with loans pledged with these projects' equity. The outstanding balance on this project financing at year-end 2010 amounted to €113 million (€295 million at year-end 2009); these figures represent the proportional Group's interest in Gas Natural Fenosa.

Preference shares

In October 1997 the Repsol YPF Group, through its subsidiary Repsol International Capital, issued preference shares of this company amounting to 725 million dollars under the following terms:

Dividend	:	7.45%, payable quarterly.
Term	:	perpetual, with the option for the issuer of early redemption from the fifth year onwards at face value.

Guarantee : subordinated Repsol YPF, S.A. guarantee.
 Remuneration : payment of preference dividends is conditional upon the obtainment of a consolidated profit or upon the payment of dividends on common shares. If no dividend accrues, there is no subsequent obligation to pay it.

The 100% of the preference shares, which were listed on the NYSE, were redeemed on February 8, 2011. The securities were redeemed for \$25 per preference share plus the balance of dividends accrued and unpaid between December 31, 2010 and the date of cancellation, which totaled \$0.20 for every preference share redeemed. The carrying amount of these preference shares at December 31, 2010 was €543 million (€503 million at year-end 2009).

In May and December 2001, Repsol International Capital issued two new series of preference shares amounting to €1 billion and €2 billion, respectively, under the following terms:

Dividend : variable at a rate of 3-month Euribor with a minimum of 4% APR and a maximum of 7% APR for the first 10 years, and Euribor plus 3.5% from the tenth year onwards. The dividend is payable quarterly.
 Term : perpetual, with the option for the issuer of early redemption from the tenth year onwards at face value.
 Guarantee : subordinated Repsol YPF, S.A. guarantee.
 Remuneration : preference, non-cumulative dividends, conditional upon the obtainment of a consolidated profit or upon the payment of dividends on common shares.

The carrying amount of the foregoing instruments at December 31, 2010 and 2009 amounted to €3,025 million and €3,044 million, respectively, recorded under the item "Bank borrowings, bonds and other securities" within non-current financial liabilities in the accompanying consolidated balance sheets.

In addition, the Gas Natural Fenosa group, through Unión Fenosa Financial Services USA, has preference shares outstanding for a nominal amount of €183 million. (amount proportional to the Group's shareholding interest in Gas Natural Fenosa). The carrying amount of these preference shares at year-end 2010 was €180 million (€179 million at year-end 2009) and was recognized under "Bank borrowings, bonds and other securities" within non-current financial liabilities in the accompanying consolidated balance sheets.

20

Financial risk and capital management

20.1

Financial risk management

The Group businesses expose the financial statements to a series of financial risks: market risk, credit risk and liquidity risk. Repsol YPF has in place a risk management structure and systems that enable it to identify, measure and control the risks to which the Group is exposed.

20.1.1 Market Risk

Market risk is the potential loss faced due to adverse movements in market variables. The Group is exposed to several types of market risks: exchange rate risk, interest rate risk and commodity risk.

The Company monitors exposure to market risk through ongoing sensitivity analysis. These strategies are complemented with other risk management measures when required by the nature of the risk exposure.

For each of the market risk factors detailed below, there is a table depicting the sensitivity of Group profit and equity (within the headings comprising "Adjustments for changes in value") to the main risks to which its financial instruments are exposed, in accordance with the requirements stipulated in IFRS 7 *Financial instruments: disclosures*.

This sensitive analysis uses variations on significant risk factors based on its historical performance. The estimates made depict the impact of favorable and adverse changes. The impact on profit and/or equity is estimated as a function of the financial instruments held by the Group at each year-end.

a. Exchange rate risk

The Group's profit and equity are exposed to fluctuations in the rates of exchange of the currencies in which it transacts. The Group's most significant foreign currency exposure is to the US dollar.

Repsol YPF obtains part of its financing in dollars, either directly or indirectly through the use of foreign exchange derivatives (Note 21).

The sensitivity of net profit and equity to exchange rate risk, via appreciation or depreciation and based on the financial instruments held by the Group at year-end, is illustrated below:

Effect of fluctuations in the euro against the dollar:

	Currency appreciation (+)/ depreciation (-)	2010	2009
Impact on profit after tax	5%	5	23
	-5%	(6)	(25)
Impact on equity	5%	(30)	205
	-5%	33	(226)

In addition, a 5% appreciation of the US dollar against the Brazilian real or the Argentine peso at December 31, 2010 would have resulted in a decrease in profit after tax of €4 million and an increase of €53 million, respectively, whereas in 2009 these appreciation assumptions would have yielded profit increases of €2 million and €35 million, respectively.

Meanwhile, a 5% appreciation of the euro against the Brazilian real or the Argentine peso in 2010 would have resulted in a decrease in equity of €0.9 million and €1.5 million, respectively compared to increases of €18 million and €1 million, respectively, in 2009.

b. Interest rate risk

Fluctuations in interest rates can affect interest income and expense through financial assets and liabilities with variable interest rates; which can also impact the fair value of financial assets and liabilities with a fixed interest rate.

Repsol YPF occasionally enters into interest rate derivative transactions to mitigate the risk of changes in its finance costs or in the fair value of its debt. Generally, these derivatives are designated as hedging instruments for accounting purposes (Note 21).

At year-end 2010, the net debt balance, including preference shares, at fixed rates (see the Capital Management section at the end of this Note) was €9,917 million (2009: €7,745 million), equivalent to 90% of total net debt including preference shares (2009: 53%).

The sensitivity of net profit and equity to fluctuations in interest rates, based on the financial instruments held by the Group at year-end, is illustrated in the following table:

	Increase (+)/ decrease (-) in interest rate (basis points)	2010	2009
Impact on profit after tax	+50	(5)	(13)
	-50	5	13
Impact on equity	+50	20	20
	-50	(21)	(20)

c. Commodity price risk

As a result of its trade operations and activities, the Group's results are exposed to volatility in the prices of oil, natural gas and their derivative products.

Repsol YPF enters into derivative transactions to mitigate its exposure to price risk. These derivatives provide an economic hedge of the Group's results, although not always designated as hedging instruments for accounting purposes (Note 21).

The impact of a 10% increase or decrease in crude and oil product prices on net profit, based on the financial instruments held by the Group at year-end 2010 and 2009, is illustrated in the following table.

	10% Increase (+) / decrease (-)	2010	2009
Impact on profit after tax	+10%	(85)	(50)
	-10%	85	50

20.1.2 Liquidity Risk

Liquidity risk is associated to the ability of the Group to finance its obligations at reasonable market prices, as well as to carry out its business plans with stable financing sources.

In accordance with its conservative financial policy, Repsol YPF held sufficient cash, other liquid cash equivalents and undrawn credit lines which cover 78% of total gross debt and 63% if preference shares are included. The Group had €5,690 and €4,680 million in undrawn credit lines at year-end 2010 and 2009, respectively.

The tables below present an analysis on the maturities of the financial liabilities existing at December 31, 2010 and 2009:

December 31, 2010	MATURITY DATE						TOTAL
	2011	2012	2013	2014	2015	Subsequent years	
	Millions of euros						
Trade payables	4,539	–	–	–	–	–	4,539
Other payables	5,550	–	–	–	–	–	5,550
Loans and other financial debts (1)	4,071	2,157	2,703	3,140	1,631	4,099	17,801
Preference Shares (1) (2)	632	137	310	130	130	3,000	4,339
Derivatives (1) (3)	40	20	11	33	4	15	123

December 31, 2009	MATURITY DATE						TOTAL
	2010	2011	2012	2013	2014	Subsequent years	
	Millions of euros						
Trade payables	3,491	–	–	–	–	–	3,491
Other payables	4,127	–	–	–	–	–	4,127
Loans and others financial debts (1)	3,559	2,630	1,772	2,789	3,027	3,382	17,159
Preference Shares (1) (3)	70	57	57	233	55	3,504	3,976
Derivatives (1) (4)	96	26	10	2	14	6	154

NOTE: The amounts shown are the contractual undiscounted cash flows; therefore, they differ from the amounts included on the consolidated balance sheet.

(1) Corresponding to future maturities of the amounts recognized under the headings "Non-Current financial liabilities" and "Current financial liabilities" including future interest or dividends associated with these financial liabilities.

(2) The preference shares issued are perpetual, redeemable only at the choice of the issuer. The dollar-denominated preference shares issued by Repsol International Capital were redeemed on February 8, 2011 (Note 19). The above schedule for 2010 is underpinned by the assumption that the preference shares will be redeemed after 2014. The column "Subsequent years" includes only the face value of the instruments. The assumptions made are conventional and must not be interpreted as forecasts of the decisions the Group shall take in the future.

(3) The schedule for 2009 assumed that the preference shares are redeemed after 2014 with the exception of those issued by Union Fenosa Financial Services USA, a Gas Natural group company, which were assumed to be redeemed in 2013. The column "Subsequent years" includes only the face value of the instruments. The assumptions made are conventional and should not be interpreted as indications of the decisions the Group may take in the future.

(4) The contractual maturities of the derivatives included under this heading are outlined in Note 21.

20.1.3 Credit Risk

Credit risk is defined as the possibility of a third party not complying with his contractual obligations, thus creating losses for the Group.

Credit risk in the Group is measured and controlled in relation to the customer or individual third party. The Group has its own systems for the permanent credit evaluation of all its debtors and the determination of risk limits with respect to third parties, in line with best practices.

The exposure of the Group to credit risk is mainly attributable to commercial debts from trading transactions, whose amounts are shown on the consolidated balance sheet net of allowances for doubtful accounts for an amount of €7,471 million and €6,001 million, respectively at December 31, 2010 and 2009.

The allowances for doubtful accounts are measured by the following criteria:

- The seniority of the debt
- The existence of bankruptcy proceedings
- The analysis of the capacity of the customer to return the credit granted.

The allowances for doubtful accounts are shown at December 31, 2010 and 2009 in Note 14 detailing trade and other accounts receivables. These allowances represent the best estimates of the Group for the losses incurred in relation to its accounts receivable.

The maximum exposure to credit risk of the Group, according to the type of financial instruments and without excluding the amounts covered by guarantees and other arrangements mentioned below, is detailed below at December 31, 2010 and 2009:

	Millions of euros	
Maximum exposure	2010	2009
Commercial debts	7,760	6,396
Derivatives	110	247
Cash and cash equivalents	6,448	2,308

The credit risk affecting liquid funds, derivatives and other financial instruments is limited because the counterparties are bank or insurance entities carrying high and duly documented credit ratings in accordance with the market conventions regulating these kinds of financial transactions. Likewise, the vast majority of the accounts receivable neither due nor provisioned have a high credit quality according to the valuations of the Group, based on the solvency analysis and the payment habits of each customer.

The Group's credit risk on trade receivables is not significantly concentrated as it is spread out among a large number of customers and other counterparties. The maximum net exposure to a third party, including official bodies and public sector entities, does not exceed 5%, and no single private client accumulates risk exposure of more than 0.1%.

As a general rule, the Group establishes a bank guarantee issued by the financial entities as the most suitable instrument of protection from credit risk. In some cases, the Group has contracted insurance credit policies whereby this transfers to third parties the credit risk related to the business activity of some of their businesses.

Effective third party guarantees extended to the Group amounted to €3,219 million at December 31, 2010 and €2,892 million at December 31, 2009. Of this amount, commercial debts at December 31, 2010 and 2009 covered by guarantees amounted to €1,009 million and €779 million, respectively.

During 2010, the Group executed guarantees received for an amount of €23 million. During 2009 this figure was €24 million.

The following table discloses the aging of the non-provisioned due debt:

	Millions of euros	
Due date	2010	2009
Non due debt	6,539	5,440
Due debt 0-30 days	269	173
Due debt 31-180 days	402	186
Due debt for more than 180 days (1)	261	201
TOTAL	7,471	6,001

(1) Mainly corresponds to guaranteed debt or debt with official bodies and public entities.

Impaired financial assets are disclosed in Note 12, broken out based on its financial or operational nature.

20.2

Capital Management

Repsol YPF, as an essential part of its strategy, has committed to a policy of financial prudence. The financial structure targeted is defined by this commitment of solvency and the aim to maximize shareholder returns, by optimizing the cost of capital.

Determination of the Group's target capital structure takes into consideration two leverage ratios, specifically the ratio of net debt (including preference shares, as appropriate) and the capital employed, that includes the net debt, including preference shares, plus the equity:

Net Debt / Capital Employed

Net Debt including Preference Shares / Capital Employed

Calculation of these leverage ratios takes into account the following considerations:

- Preference shares are factored into the process of monitoring the Group's leverage ratios on account of their significant weight in the Group's capital structure; however the fact that they are perpetual securities equates them to equity instruments in terms of solvency analysis and creditor claims (Note 19).
- The leverage ratios used net debt concept instead of gross debt in order to factor in the mitigating impact of financial investments. In keeping with its conservative financial policy, Repsol YPF held sufficient cash, other liquid cash equivalents and undrawn credit lines which cover 78% of total gross debt and 63% if preference shares are included. As a result, these ratios provide a better picture of Group solvency when factoring in net debt rather than gross debt.

The breakdown of the calculations of these leverage ratios, based on the following consolidated balance sheet headings at year-end 2010 and 2009, is as follows:

	Millions of euros	
	2010	2009
Non-current financial liabilities	14,940	15,411
Preference shares	3,205	3,726
Other non-current financial liabilities	11,735	11,685
Current financial liabilities	4,362	3,499
Preference shares	543	-
Other current financial liabilities	3,819	3,499
Non-current financial assets	(1,789)	(1,732)
Less: Financial assets available for sale (Note 12)	150	173
Other current financial assets (1)	(158)	(332)
Cash and cash equivalents	(6,448)	(2,308)
Interest rate hedges (Note 21)	(85)	(57)
Net debt including preference shares (2)	10,972	14,654
Equity	25,986	21,391
Capital employed	36,958	36,045
Net debt including preference shares / capital employed	29.7%	40.7%
Less preference shares	(3,748)	(3,726)
Net debt	7,224	10,928
Net debt / capital employed	19.5%	30.3%

(1) Excludes €526 million in 2010 recognized under "Other current financial assets" in the consolidated balance sheet, corresponding to the funding of the tariff deficit in the regulated electricity segment, to which the Group is exposed via its shareholding in Gas Natural Fenosa (€381 million in 2009).

(2) Excludes €3,075 million of current and non-current finance leases in 2010 (€2,091 million in 2009). Note 22.1.

The trends in these leverage ratios are monitored systematically. Similarly, leverage projections are a key, and restrictive, input into Group investment decision-making and dividend policy. At year-end 2010, the ratio of net debt to capital employed stood at 19.5% (marking a significant improvement on the year-end 2009 ratio of 30.3%), while the ratio of net debt including preference shares to capital employed stood at 29.7% (also comparing favorably to the year-end 2009 ratio of 40.7%).

The decline in these leverage ratios in 2010 was driven primarily by the cash proceeds from the equity raise at Repsol Brazil (Note 31) and by other disposals closed during the year (REFAP, among others).

The breakdown of the impact of the fair value restatement of derivatives on consolidated profit before tax and on consolidated equity is as follows:

21

Derivative transactions

During 2010 the Repsol YPF Group carried out the following types of hedging transactions:

1. Fair value hedges of assets or liabilities.
2. Cash flow hedges.
3. Hedges of net investments in foreign operations

In addition, the Repsol YPF Group performed other transactions with derivative instruments in 2010 and 2009 that do not qualify as accounting hedges.

The table below reflects the impact on the balance sheet of derivative instruments at December 31, 2010 and 2009 as a result of changes in their fair value since their origination:

December 31, 2010					
Millions of euros					
CLASSIFICATION	Non-current Assets	Current Assets	Non-current Liability	Current Liability	Fair Value
Hedge derivative instruments	–	71	(130)	(34)	(93)

- exchange and interest rate	–	–	(4)	–	(4)
- exchange rate	–	2	–	–	2
- commodities prices	–	2	–	(5)	(3)
Net investment	–	–	(27)	–	(27)
Other derivative instruments	2	37	(6)	(219)	(186)
TOTAL (1)	2	108	(136)	(253)	(279)

(1) Includes derivatives with a negative measurement of €85 million in respect of interest rates.

December 31, 2009					
Millions of euros					
CLASSIFICATION	Non-current Assets	Current Assets	Non-current Liability	Current Liability	Fair Value
Hedge derivative instruments	86	137	(134)	(39)	50
Fair Value:	84	5	–	(3)	86
- interest rate	84	–	–	–	84
- exchange rate	–	5	–	(2)	3
- commodities prices	–	–	–	(1)	(1)
Cash Flow:	2	2	(127)	(8)	(131)
- interest rate	2	–	(127)	(3)	(128)
- exchange rate	–	2	–	(1)	1
- commodities prices	–	–	–	(4)	(4)
Net investment	–	130	(7)	(28)	95
Other derivative instruments	–	25	(10)	(70)	(55)
TOTAL (1)	86	162	(144)	(109)	(5)

(1) Includes derivatives with a negative measurement of €57 million in respect of interest rates.

Millions of euros						
	2010			2009		
	Operating income	Financial result	Adjustments for changes in value	Operating income	Financial result	Adjustments for changes in value
Fair value hedges	10	(30)	–	(1)	62	–
Cash flow hedges	(12)	(81)	20	5	(50)	32
Hedge of a net investment	–	–	(302)	–	–	(83)
Other transactions	(96)	(205)	–	(84)	212	–
TOTAL	(98)	(316)	(282)	(80)	224	(51)

In addition to the impacts outlined in the table above, in 2010, a loss of €11 million was transferred to “Retained earnings” in respect of the translation differences associated with the hedge of the net investment in YPF, in proportion to the shares sold during the year.

There follows a detailed disclosure of the Group’s derivatives at year-end 2010 and 2009, including their fair values, maturity schedules and the related notional amounts.

21.1

Fair value hedges of assets or liabilities

These are hedges of the exposure to changes in the fair value of an asset or a liability recognized for accounting purposes, an unrecognized firm commitment or an identified portion of the aforementioned asset, liability or firm commitment that can be attributed to a particular risk and might affect the net income for the period.

The transactions outstanding at December 31, 2010 and 2009 are as follows:

December 31, 2010

a. Interest rate collar

In May 2001 Repsol YPF arranged a zero-cost interest rate swap option on a notional amount of €1,000 million, tied to the preference shares issued on that date (Note 19).

The characteristics of these options are as follows:

- Repsol YPF sold a right by virtue of which, if the counterparty exercised the right, it would pay 3-month Euribor and receive 7% APR on the aforementioned notional amount, with quarterly settlement periods beginning on June 30, 2001, the first maturity being on October 1, 2001, and the last on June 30, 2011.
- Repsol YPF purchased a right by virtue of which, if it exercised the right, Repsol YPF would pay 3-month Euribor and receive 4% APR on the aforementioned notional amount, with the same quarterly settlement periods and maturity dates as those mentioned in the previous paragraph.

By virtue of these interest rate swap options, the final cost for Repsol YPF of this preference share issue in the first ten years was established at a floating interest rate of 3-month EURIBOR.

Also, in April 2002, effective June 30, 2002, Repsol YPF arranged a zero-cost interest rate swap option on a notional amount of €1,000 million tied to the €2,000 million preference share issue issued in December 2001 (see Note 19).

The characteristics of these options are as follows:

- Repsol YPF sold a right by virtue of which, if the counterparty exercised the right, Repsol YPF would pay 3-month EURIBOR and receive 7% APR on the aforementioned notional amount, with quarterly settlement periods beginning on June 30, 2002, the first maturity being on September 30, 2002, and the last on December 31, 2011.
- Repsol YPF purchased a right by virtue of which, if it exercised the right, Repsol YPF would pay 3-month EURIBOR and receive 4% APR on the aforementioned notional amount, with the same quarterly settlement periods and maturity dates as those mentioned in the previous paragraph.

By these purchase and sale transactions on interest options, of the total sum of the €2,000 million corresponding to the issue of preference shares in December 2001, €1,000 million have been at a floating rate of 3 months EURIBOR, for the period from September 30, 2002 to December 31, 2011.

b. USD swaps

At year-end 2010, this heading includes hedges linked to the acquisition of methane ships under finance lease arrangements (Note 22) with a notional amount of US\$1,473 million (€1,113 million). The fair value of this hedge at December 31, 2010 implied a loss of €11 million.

The remaining outstanding instruments, whose net fair value at year-end 2010 implied a gain of €24 million, correspond primarily to hedges arranged by the Group through its shareholding in Gas Natural Fenosa.

21.2

Cash flow hedges

These are hedges of the exposure to variability in cash flows that: (i) is attributed to a particular risk associated with a recognized asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecasted transaction; and (ii) could affect profit or loss.

The detail of the most significant transactions is as follows:

December 31, 2010								Millions of euros
	MATURITY					Subs.	TOTAL	Fair Value
	2011	2012	2013	2014	2015

								(131)	

(1) These correspond to natural gas and electricity price swaps arranged by Gas Natural Fenosa.

The Group holds an interest rate swap with a notional amount of €750 million which was arranged to hedge debt issued by its financing subsidiary Repsol International Finance B.V (Note 19). Under this swap, the Group pays a fixed rate of 4.23% and receives 3-month Euribor. The fair value of this instrument at year-end 2010 implied a loss of €29 million (a loss of €42 million at year-end 2009).

At both year-ends, the Group also held interest rate swaps taken out to hedge the financing arranged to fund the investment in the LNG project in Canaport, Canada. Under this swap, the Group pays a weighted average fixed rate of 5.28% and receives 3-month Libor. At year-end 2010 the notional amount hedged was €327 million while the fair value of the instrument implied a loss of €60 million (a loss of €35 million at year-end 2009).

The other outstanding instruments at both balance sheet dates correspond primarily to hedges arranged by the Group through its shareholding in Gas Natural Fenosa.

In 2007 the cash flow hedge provided by two interest rate swaps for a notional amount of €674 million associated with a preference share issue was discontinued as the hedges were no longer effective. The cumulative loss deferred in "Adjustments for changes in value" in respect of this instrument amounted to €36 million at December 31, 2010 (€39 million at year-end 2009). In 2010, a loss €3 million was transferred from "Adjustments for changes in value" to the consolidated income statement (compared to a loss of €4 million in 2009).

21.3

Hedges of a net investment

These instruments hedge the foreign currency risk arising from net investments in foreign operations.

Repsol YPF has arranged forward currency purchase and sale contract as part of its global strategy of management exposure to foreign currency exposure via its foreign investments.

The most significant derivative transactions in existence at December 31, 2010 and 2009 are the following:

December 31, 2010								Millions of euros	
	MATURITY					Subs.	TOTAL	Fair Value	
	2011	2012	2013	2014	2015				
Cross-currency IRSs									
Fixed to fixed: Contract/notional amount (EUR)	-	-	-	158	-	-	158	(27)	
								(27)	
December 31, 2009

	2010	2011	2012	2013	2014				
Cross currency IRSs									
Fixed to fixed: contract/notional (EUR)	342	-	-	-	158	-	500	(35)	
Fixed to fixed: Contract/notional amount (EUR)	300	-	-	-	-	-	300	130	
								95	

At December 31, 2009, the Group held cross-currency interest rate swaps (CCIRSs) on a notional amount of €300 million, maturing 2010, for which hedge accounting was discontinued on February 21, 2008, since which date these instruments were considered derivatives held for trading (see section 21.4 below). When hedge accounting was discontinued, their fair value implied a gain of €130 million; this asset was recognized in the balance sheet as a hedge of a net investment with a balancing entry under "Adjustments for changes in value." Since the hedge accounting was discontinued, the changes in the fair value of these instruments were recognized in profit or loss for the year (section 21.4 below). These derivatives were settled in 2010.

Also, at year-end 2009, the Group held CCIRSs to hedge investments in foreign operations covering a notional amount of €500 million. Of the total, €342 million was settled in 2010; the change in the fair value of the notional amount settled, recognized in 2010 under the heading translation differences, yielded a loss of €44 million. At year-end 2010, instruments hedging the remaining notional amount of €158 million remained outstanding; the change in the fair value of this portion of the hedge implied €19 million of negative translation differences during the year.

In addition, in 2010 the Group arranged several hedges of net investments. These hedges were arranged and settled during the year. The decline in the fair value of these derivatives between the date they were arranged and the date they were settled amounted to a net loss of €239 million which was recognized within "Adjustments for changes in value."

In 2009 hedge accounting was discontinued for CCIRSs with a notional value of €1,950 million. The increase in the fair value of these derivatives between January 1, 2009 and the date hedge accounting was discontinued, in the amount of €7 million, was recognized in exchange differences within "Adjustments for changes in value." These instruments were subsequently settled, giving rise to a gain of €168 million, recognized within "Financial result" in the 2009 consolidated income statement.

21.4

Other derivative transactions

Additionally, Repsol YPF has arranged a series of derivatives to manage its exposure to interest rate, foreign exchange and price risk that do not qualified as accounting hedges under IAS 39.

a. Interest rate contracts

December 31, 2010									Millions of euros
	MATURITY					Subs.	TOTAL	Fair Value	
	2011	2012	2013	2014	2015				
Floating to fixed IRSs: Contract/notional amount (EUR)	32	-	-	-	-	-	32	(2)	
Interest rate collar (EUR)	5	-	-	-	-	-	5	-	

December 31, 2009									Millions of euros
	MATURITY					Subs.	TOTAL	Fair Value	
	2010	2011	2012	2013	2014				
Floating to fixed IRSs: Contract/notional amount (EUR)	300	-	-	-	-	-	300	(16)	

b. Exchange and interest rate contracts

December 31, 2010									Millions of euros
	MATURITY					Subs.	TOTAL	Fair Value	
	2011	2012	2013	2014	2015				
Fixed to fixed cross-currency IRSs: Contract/notional amount (JPY)	-	-	-	-	-	67	67	(6)	

December 31, 2009									Millions of euros
	MATURITY					Subs.	TOTAL	Fair Value	
	2010	2011	2012	2013	2014				
Fixed to fixed cross-currency IRSs: Contract/notional (EUR)	300	-	-	-	-	-	300	(2)	
Fixed to fixed cross currency IRS: Contract/notional amount (JPY)	-	-	-	-	-	1	1	(8)	

At December 31, 2009, the Group recognized CCIRSs for which hedge accounting (as hedges of a net investment) was discontinued in February 2008, since then, these instruments were considered derivatives held for trading (section 21.3 above). The change in the fair value of these instruments between the date hedge accounting was discontinued and year-end 2009 (€2 million) was recognized as a liability within derivatives held for trading. These derivatives were settled in 2010. The fair value of these instruments declined by €21

million between January 1, 2010 and their settlement date and this loss was recognized within "Financial Result" for the year.

c. Exchange rate contracts

Repsol YPF has arranged other forward contracts as part of its global strategy of managing exposure to foreign currency risk.

December 31, 2010									Millions of euros
	MATURITY					Subs.	TOTAL	Fair Value

d. Future contracts on commodities

The risk associated with future physical crude oil and other oil product purchase or sale transactions is hedged through the arrangement of derivative instruments, primarily futures and swaps.

The commodity hedges outstanding at December 31, 2010 and 2009 are as follows:

December 31, 2010								Millions of euros

At year-end 2010, "Other receivables" includes €2 million (2009: €1 million) corresponding to the fair value of commodity purchase agreements measured in accordance with IAS 39, as detailed in Note 3.3.23.

In addition, through its shareholding in Gas Natural Fenosa, at year-end 2010 and 2009 the Group held commodity price derivatives with a negative fair value of €1 million and a notional value of approximately €2 million.

e. CO₂ emission allowance derivatives

The Group arranges emission allowance future contracts and swaps (EUAs and CERs) which are measured at fair value under IAS 39 with a view to minimizing the cost of the Group's emissions each year. The fair value of these instruments at both year-ends implied a liability of €1 million.

The effective average interest rate on obligations under finance leases at December 31, 2010 was 6.25% (2009: 5.9%).

The principal liabilities shown in this heading are as follows:

- On May 15, 2006 the Group signed an agreement with Emera Brunswick Pipeline Company, Ltd. for the transportation of natural gas through a pipeline that connects the Canaport plant with the US border. The agreement has an initial term of 25 years (renewable for up to an additional 30 years). It came into effect in July 2009. At December 31, 2010 and 2009, the amount recognized in this heading was US\$510 million (€382 million) and US\$513 million (€356 million), respectively.
- In addition, on April 21, 2006 the Group signed an agreement with Maritimes & North East Pipeline for the transportation of Canadian natural gas from the Canadian border to Dracut for an initial term of 25 years (renewable for up to an additional 30 years). The agreement became effective IN March 2009, the corresponding liability recognized in this heading at year end 2010 and 2009 amounted to US\$1,297 million (€970 million) and US\$1,312 million (€911 million), respectively.
- In December 2007 Repsol YPF (50%) and Gas Natural Fenosa (50%) jointly acquired a 138,000 m³ methane ship under a 25-year time-charter arrangement. The agreement can be extended for consecutive 5-year periods and represents a combined investment of €164 million, a figure which corresponds to the present value of installment commitments. The amount recognized for this tanker in the Group's consolidated balance sheet at year end 2010 and 2009 amounted to €110 million and €103 million, respectively.
- In 2009 Repsol YPF (50%) and Gas Natural Fenosa (50%) jointly acquired a 138,000 m³ methane ship under a 20-year time-charter arrangement. The agreement can be extended for consecutive 5-year periods and represents a combined investment of €142 million, a figure which corresponds to the present value of installment commitments. The amount recognized for this tanker in the consolidated balance sheet at December 31, 2010 and 2009 amounted to €109 million and €105 million, respectively.
- In 2010, four methane ships purchased for the transport of LNG in Peru were recognized amounting to €818 million. The Barcelona Knutsen, Sevilla Knutsen and Valencia Knutsen tankers, which have a capacity of 173,410 m³, were purchased under a 20-year time-charter arrangement. The agreement can be extended for consecutive 5-year periods. The Castillo de Santiesteban tanker, with a capacity of 173,600 m³ was likewise acquired under a 20-year time-charter agreement with a purchase option upon expiration.
- Finance leases at year end 2010 also include seven other methane tankers acquired prior to 2006 for the transport of LNG, which mature between 2022 and 2029, for €561 million (2009: €570 million). Four of these tankers are owned by Gas Natural Fenosa and the other three by Repsol YPF.

22

Other non-current liabilities

"Other non-current liabilities" includes the following items:

	Millions of euros	
	2010	2009
Obligations under finance leases	2,852	1,919
Guarantees and deposits	236	284
Other deferred income	193	131
Other	382	338
	3,663	2,672

22.1

Obligations under finance leases

The detail of the amounts payable under finance leases at December 31, 2010 and 2009 is as follows:

	Millions of euros			
	Lease Payments		Present Value of Minimum Lease Payments	
	2010	2009	2010	2009
Within one year	301	219	223	172
Between two and five years, both included	1,169	830	735	553
After six years	5,030	3,696	2,117	1,366
	6,500	4,745	3,075	2,091
Less:				
Future finance expenses	(3,425)	(2,654)		
	3,075	2,091		
Recognised as:				
Non-current obligations under finance leases			2,852	1,919
Current obligations under finance leases			223	172
			3,075	2,091

22.2

Guarantees and deposits

This heading includes, among others, deposits received by Repsol Butano, S.A. from the users of gas bottles in accordance with applicable legal regulations. These amounts are refundable when the corresponding contracts are canceled.

23

Trade payables and other payables

In 2010 and 2009 Repsol YPF had the following accounts payable classified under "Trade payables and other payables":

	Millions of euros	
	2010	2009
Trade payables	4,539	3,491
Obligations under finance leases (Note 22.1)	223	172
Tax Payables	982	909
Hedged items and derivatives on trading transactions at fair value	115	42
Other	4,230	3,004
Other payables	5,550	4,127
Income tax liabilities	765	409
TOTAL	10,854	8,027

The fair value of these current items does not differ significantly from their carrying amount.

At December 31, 2010, the balance of trade payables related to Spanish companies which exceed the payment period established by Spanish Law 15/2010, 2010 amounted to €5 million.

24

Tax situation

Income tax

In view of the geographical dispersion and markedly international nature of the business activities carried on by the companies comprising the Repsol YPF Group, the Group is subject to various different tax and income tax jurisdictions.

a. In Spain

Most of the entities resident in Spain pay income tax under the special consolidation regime. Under this regime, the companies in the Consolidated Tax Group jointly determine the Group's taxable profit and tax charge, which is allocated among the companies in the Tax Group in accordance with the criteria established by the Spanish Accounting and Audit Institute (ICAC) for the recognition and determination of the individual tax charge.

Repsol YPF, S.A. is the parent of Consolidated Tax Group 6/80, which includes all the companies resident in Spain that are directly or indirectly at least 75% owned by the parent and that meet certain requirements. This Group consists of 48 companies in 2010, of which the main companies in terms of volume of business are as follows: Repsol YPF, S.A., Repsol Petróleo, S.A., Repsol YPF Trading y Transporte, S.A., Repsol Química, S.A., Repsol Butano, S.A., Repsol Exploración, S.A. and Repsol Comercial de Productos Petrolíferos, S.A.

Petróleos del Norte, S.A. ("Petronor") is the parent of Consolidated Tax Group 02/01/B, which includes another two companies that paid income taxes under the Vizcaya Corporation Tax regulations.

Additionally, the consolidated financial statements include, through proportional consolidation, all the corporation tax items of the Gas Natural Fenosa Group. This Group is also taxed for corporation tax purposes under the special consolidated tax regime in Consolidated Tax Group 59/93, of which Gas Natural SDG, S.A. is the parent. The main companies of this Tax Group, in terms of volume of business, are the following: Gas Natural SDG, S.A., Gas Natural Castilla

Léon, S.A., Gas Natural Distribución SDG, S.A, Gas Comercial Comercializadora, S.A., Gas Natural Aprovisionamientos, S.A. and Unión Fenosa Distribución, S.A.

Lastly, the other companies resident in Spain and not included in either of the aforementioned Tax Groups file individual corporation tax returns.

The Spanish companies, whether they pay tax on an individual or consolidated basis, apply the standard rate of 30%, with the exception of Repsol Investigaciones Petrolíferas, S.A., which is taxed individually at a rate of 35% under the Special Oil and Gas Regime, and the Petronor Group, which pays tax at 28% under the Vizcaya Corporation Tax regulations.

b. In Argentina

The Group companies resident in Argentina are liable to individual corporate income tax returns at a rate of 35% profit for the year.

Additionally, they calculate the minimum presumed income tax by applying the current tax rate of 1% of the computable assets at the balance sheet date, which may supplement the regular income tax. The tax obligation for each year will coincide with the higher of the two taxes. However, if the minimum presumed income tax exceeds the regular income tax, this excess can be computed as a prepayment of the amount by which the regular income tax exceeds the minimum presumed income tax in the following ten years.

c. In the other countries

The other Group companies are taxed in each of the countries in which they operate by applying the prevailing income tax rate to their profit or loss for the year. In addition, minimum presumed income taxes supplementing the regular income tax are recognized in certain countries.

On the other side, the Group companies resident in Spain and Argentina that carry on a portion of their business activities in other countries are subject to the income tax in force in those countries on the portion of their profit or loss obtained there. This is the case of the branches of the Spanish companies that carry on oil and gas exploration and production activities in other companies (such as Libya, Algeria, Peru or Ecuador).

The (nominal) income tax rates applicable in the main jurisdictions where the Group operates are as follows:

- Libya: 65%
- Algeria: 38% plus the Tax on Extraordinary Income (TPE)
- Trinidad and Tobago: 35% (gas), 55% and 57.25% (oil)
- United States: 35%
- Brazil: 34%
- Ecuador: 25%
- Peru: 30%
- Bolivia: 25%
- Venezuela: 34% (gas) y 50% (oil)
- The Netherlands: 25.5%
- Portugal: 29%

Income tax expense for accounting purposes

The detail of the income tax expense for accounting purposes in 2010 and 2009, calculated on the basis of the criteria indicated in section 3.3.21 of Note 3, Accounting Policies, is as follows:

Millions of euros				
Year 2010				
	Spanish Companies	Argentine Companies	Other companies	TOTAL
Accounting profit before tax	1,641	1,416	3,556	6,613
Adjustment to accounting profit:				
Non-temporary differences	2,210 ⁽¹⁾	292	(2,976) ⁽²⁾	(474)
Temporary differences	(317)	344	109	136
Taxable profit	3,534	2,052	689 ⁽³⁾	6,275
Tax charge	1,060	723	533	2,316
Tax credits	(913)	–	–	(913)
Current tax payable	147	723	533	1,403
Adjustments to current tax and foreign taxes	539	(6)	(22)	511
Total current income tax expense	686	717	511	1,914
Deferred tax for the year	93	(119)	(139)	(165)
Other adjustments to the income tax expense	170	(58)	(119)	(7)
Total deferred tax expense	263	(177)	(258)	(172)
Total income tax expense	949	540	253	1,742

(1) Corresponds primarily to dividends received from other Group companies that are included as taxable profit for Spanish income tax purposes.

(2) Corresponds primarily to the results from the capital increase carried out in Repsol Brasil, S.A.

(3) This reflects the net of taxable profits and tax losses in various tax jurisdictions.

Millions of euros				
Year 2009				
	Spanish Companies	Argentine Companies	Other companies	TOTAL
Accounting profit before tax	1,173	1,001	602	2,276
Adjustment to accounting profit:				
Non-temporary differences	1,179 ⁽¹⁾	211	(143)	1,246
Temporary differences	(112)	(25)	(348)	(485)
Taxable profit	2,240	1,187	111 ⁽²⁾	3,537
Tax charge	675	415	295	1,385
Tax credits	(618)	–	–	(618)
Current tax payable	57	415	295	767
Adjustments to current tax and foreign taxes	352	58	(6)	404
Total current income tax expense	409	473	289	1,171
Deferred tax for the year	23	10	95	128
Other adjustments to the income tax expense	(4)	(5)	(160)	(169)
Total deferred tax expense	19	5	(65)	(41)
Total income tax expense	428	478	224	1,130

(1) Corresponds primarily to dividends received from other Group companies that are included as taxable profit for Spanish income tax purposes.

(2) This reflects the net of taxable profits and tax losses in various tax jurisdictions.

The detail of the deferred tax assets and liabilities recognized in the consolidated balance sheet is as follows:

Millions of euros			
	2010	2009	Variation
Deferred tax assets:			
Provisions for doubtful accounts	57	60	(3)
Provisions for staff costs	118	114	4
Provision for contingencies	209	169	40
Other provisions	297	271	26
Difference in amortisation / depreciation	315	239	76
Tax assets	715	780	(65)
Other deferred tax assets	282	388	(106)
	1,993	2,021	(28)
Deferred tax liabilities:			
Tax incentives	(12)	(11)	(1)
Deferred gains	(82)	(44)	(38)
Difference in amortisation/depreciation	(1,124)	(932)	(192)
Functional currency	(651)	(683)	32
Goodwill acquired in business combinations allocated to assets	(1,231)	(1,324)	93
Other deferred tax liabilities	(287)	(401)	114
	(3,387)	(3,395)	8

The accumulated balance of deferred taxes in relation to items charged directly to equity in 2010 and 2009 was €95 million and €11 million, respectively.

The Group did not recognize deferred tax assets in the amount of €583 million and €489 million in 2010 and 2009, respectively, corresponding mainly to tax losses carried forward and unused deductions, as these did not fulfill the criteria for registration in accordance with IFRS.

The Group has not recorded deferred tax liabilities in the amount of €119 million and €115 million, in 2010 and 2009, respectively, as it corresponds to taxable temporary differences related to investments in subsidiaries, branches and associated companies that meet the requirements established in IFRS to apply the recognition exception.

Other tax related disclosures

Deductions taken in 2010 amounted to €913 million, arising mainly from the mechanics to avoid double taxation, both domestically and internationally, and to a lesser degree, from investments made.

Judicial and administrative decisions have been taken both in this period and in previous periods, leading to tax consequences contrary to the Group's expectations.

Repsol YPF considers that it has acted lawfully in these matters at all times and that its actions are based on reasonable interpretations of the applicable legislation and, therefore, it has filed the appropriate appeals to defend its interests and those of its shareholders.

However, in view of the uncertainty concerning the materialization of the existing tax contingencies, at year end the Group had recognized provisions under "Other Provisions" (Note 17) that were considered adequate to cover those tax contingencies. The amount recorded in the balance sheet at December 31, 2010 and 2009 for this item amounted to €588 million and €473 million respectively. Such provision relates to the vast number of actions, none of which, individually, represents a significant percentage of such provision.

25

Joint ventures

The joint ventures owned by the Group at December 31, 2010 are detailed Appendix I, being the main ones the following:

Company	% of ownership
Atlantic LNG 2/3 Company of Trinidad & Tobago	25.00%
Bahía de Bizkaia Electricidad, s.L.	25.00%
BPRY Caribbean Ventures LLC	30.00%
Compañía Mega	38.00%
Empresas Lipigas, s.A.	45.00%
Grupo Gas Natural SDG, s.A.	30.13%
Petroquiriquire, s.A.	40.00%
Pluspetrol Energy, s.A.	45.00%
Profertil, s.A.	50.00%
Quiriquire Gas, s.A.	60.00%
Refinería del Norte, s.A. (Refinor)	50.00%
Repsol Brasil, s.A. (1)	60.00%
Repsol Gas Natural LNG, s.L.	50.00%
Repsol Occidental Corporation	25.00%
YPFB Andina, s.A. (formerly named Empresa Petrolera Andina)	48.92%

(1) Percentage of share in Group after the capital increase fully subscribed by Sinopec at December 28, 2010 (Note 31).

The detail of the consolidated amounts included under the main headings of Repsol YPF consolidated Financial Statements as a result of the proportionate consolidation of the joint ventures at December 31, 2010 and 2009, is as follows:

	Millions of euros	
	2010	2009
Current Assets	7,354	3,423
Non-Current Assets	14,025	13,435
Current Liabilities	(3,186)	(3,424)
Non-Current Liabilities	(8,941)	(8,983)
Operating Income	10,428	8,136
Operating Expenses	(8,557)	(6,674)
Other income	321	357
Other expenses	(1,364)	(958)
NET INCOME ATTRIBUTABLE TO THE PARENT	828	861

The principal change in current assets relates to the proportional consolidation of Repsol Brasil, S.A., following the capital increase fully subscribed by Sinopec on December 28, 2010 (Note 31).

Additionally, at December 31, 2010 the Group had interests in the jointly controlled assets and operations indicated in Appendix II, as a result of which it obtains income and incurs expenses on the basis of its percentage of ownership.

26

Operating revenues and expenses

Sales

This heading includes excise tax and similar taxes levied on the production and/or sale of oil and gas products amounting to €7,234 million in 2010 and €6,893 million in 2009.

Income and expenses from impairment losses and gains and losses on disposal of non-current assets

The income from the release of impairment provisions and profit from disposal of non-current assets includes the following items:

	Millions of euros	
	2010	2009
Income from release of impairment provisions (Note 9)	31	193
Gains on disposal of non-current assets	3,157	178
TOTAL	3,188	371

In 2010, "Gains on disposal of non-current assets" relates primarily to gains recognized in connection with the strategic agreement entered into with Sinopec in Brazil (€2,847 million), to the sale of the 5% ownership interest in CLH (€133 million), and to the sale of natural gas distribution assets in the Autonomous Community of Madrid (€114 million) (Note 31).

"Gains on disposal of non-current assets" in 2009 included €49 million arising from the sale of the Repsol YPF, S.A office building located on Paseo de la Castellana of Madrid (Note 31).

"Impairment losses recognized and losses on disposal of non-current assets" include the following items:

	Millions of euros	
	2010	2009
Impairment losses recognized (Note 9)	252	119
Losses on disposal of non-current assets	99	26
TOTAL	351	145

Supplies

This heading includes the following items:

	Millions of euros	
	2010	2009
Purchases	37,276	31,903
Changes in inventory	(1,092)	(470)
TOTAL SUPPLIES	36,184	31,433

The heading Purchases includes excise tax and similar taxes levied on the production and/or sale of oil and gas products disclosed in "Sales" section of this note.

Personnel expenses

This heading includes the following items:

	Millions of euros	
	2010	2009
Salaries and others	1,836	1,565
Social security expenses	575	522
TOTAL PERSONNEL EXPENSES	2,411	2,087

Repsol YPF Group employed a total of 43,298 people at December 31, 2010, geographically distributed as follows: Spain (19,761 employees), Argentina (14,047 employees), Rest of Latin America (6,357 employees) and rest of the world (3,139 employees). Average headcount in 2010 was 42,322 employees (2009: 39,815).

At December 31, 2010, Repsol YPF Group has a total of 463 handicapped employees in Spain, 360 of which were hired directly, while the remaining 103 persons were employed through alternative hiring arrangements (2.56% of headcount using legal computation methods).

In compliance with Organic Law 3/2007, dated March 22, which promotes true equality between men and women, published in the BOE (Official State Gazette) issued on March 23, 2007, the following tables reflect the Group's total headcount distributed by professional categories and gender at year end 2010 and 2009.

	Number of employees	
	2010	2009
Men	31,595	30,326
Women	11,703	10,688
	43,298	41,014

	Number of employees	
	2010	2009
Managers	652	637
Senior line personnel	3,312	3,324
Other line personnel	18,611	16,423
Operating staff (manual workers, administrative and others).	20,723	20,630
	43,298	41,014

Other operating expenses

This heading includes the following items:

	Millions of euros	
	2010	2009
Taxes other than income tax	2,461	1,963
External services	5,368	4,717
Transport and freight costs	1,189	976
Other expenses	898	847
	9,916	8,503

Exploration costs are recognized in "Depreciation and amortization of non-current assets" and "External services" and totaled €502 million in 2010 and €466 million in 2009.

27**Financial income and expenses**

The detail of income and expenses from operations in the periods 2010 and 2009 is as follows:

	Millions of euros	
	2010	2009
Interest income	149	141
Borrowing costs	(800)	(751)
Net interest expense (including preference shares)	(651)	(610)
Due to interest rate	(26)	34
Change in fair value of financial instruments	(26)	34
Due to exchange rate	(39)	306
Change in fair value of financial instruments	(212)	158
Exchange differences	173	148
Other positions	(17)	–
Change in fair value of financial instruments	(17)	–
Net gains / (losses) from financial instruments exposure (1)	(82)	340
Impact of discounting provisions to present value	(191)	(186)
Capitalised interest (2)	143	122
Leases	(196)	(141)
Impairment and gains (losses) on disposal of financial instruments	1	31
Other income	10	32
Other expenses	(42)	(56)
Other financial expenses	(227)	(134)
FINANCIAL RESULT	(1,008)	(468)

(1) This heading includes exchange gains and losses generated by the measurement and settlement of foreign-currency monetary items (Section 3.3.4 of note 3) as well as the gains and losses recognized as a result of the measurement and settlement of derivatives.

(2) Capitalised interest is recognized in the consolidated income statement under "Finance expenses".

28

Cash flows from operating activities

The breakdown of this heading in 2010 and 2009 is as follows:

	Millions of euros		
	Notes	2010	2009
Net income before tax and share of results of companies accounted for using the equity method		6,613	2,776
Adjustments to net income		2,583	3,973
Depreciation and amortisation of assets	6 and 7	3,947	3,620
Net changes in operating provisions	17	937	238
Gains (losses) on sale of non-commercial assets	31	(3,058)	(151)
Financial Result	27	1,008	468
Other adjustments (net)		(251)	(202)
Change in working capital		(1,693)	(590)
Other cash flows from/(used in) operating activities:		(1,861)	(1,394)
Dividends received		72	86
Income tax received / (paid)		(1,627)	(1,168)
Other proceeds from/(payments for) from operating activities		(306)	(312)
Cash Flow from operating activities		5,642	4,765

29

Segment reporting

The segment reporting disclosed by the Group in this section is presented in accordance with the disclosure requirements of IFRS 8 Operating segments, which has been applied by the Group for the first time in 2009.

The various operating segments into which the Group breaks down its organizational structure are the different businesses in which the Group generates revenues and incur in expenses. The aforementioned Group operating structure is based on how the Group's decision makers analyses the main operating and financial indicators in order to make decisions about allocation of resources and to evaluate the performance.

This organizational structure that was established in 2007 is oriented to support the company's growth projects, as well as to establish the basis for future developments. The main lines of this structure are as follows:

- Three integrated strategic businesses:
 - Upstream, corresponding to the exploration and the development operations of crude oil and natural gas reserves, except in YPF;
 - LNG corresponding to the Liquid Natural Gas business, except in YPF; and
 - Downstream, corresponding to refining, sales activities for oil products, chemicals and LPG, except in YPF.
- Two participations in strategic companies:
 - YPF, which includes the operations of YPF, S.A. and its group companies in all the businesses mentioned above; and
 - Gas Natural SDG, corresponding to the sales activities for natural gas and power generation, distribution and sale of electricity.

The table below details the Repsol YPF Group's main income statement headings broken down into the operating segments defined above:

	Millions of euros					
Operating Revenue	Operating revenue external		Operating revenue inter-segment		Total operating revenue	
	12/31/2010	12/31/2009	12/31/2010	12/31/2009	12/31/2010	12/31/2009
Segments						
Upstream	5,863	2,158	1,050	830	6,913	2,988
LNG	1,144	899	188	129	1,332	1,028
Downstream	36,285	32,803	78	35	36,363	32,838
YPF	10,973	8,557	129	121	11,102	8,678
Gas Natural SDG	6,020	4,540	141	112	6,161	4,652

Business combinations and changes in composition of the group

Repsol YPF prepares its consolidated Financial Statements including the investments in all its subsidiaries, affiliated companies and joint ventures. Appendix I of the consolidated Financial Statements details the subsidiaries, affiliated companies and joint ventures, held directly or indirectly by Repsol YPF, S.A., which were included in the scope of consolidation during 2010 and 2009. The main business combinations made in 2010 and 2009 are detailed below.

2010 Acquisitions

With effective date February 1, 2010, the productive area Barúa-Motatán located in the Lake Maracaibo basin was incorporated as an asset to be operated by mixed-ownership company Petroquiriquire, S.A. In 2009, Venezuela's National Assembly published in the official Gazette of the Bolivarian Republic its approval of the activities of Petroquiriquire, S.A., in which Repsol YPF holds a 40% interest, in the production area Barúa-Motatán.

This transaction gives effect to the credit notes amounting to US\$173 million (€131 million) received as part of the process of migrating the operating agreements over to the mixed companies and cancels an account receivable from PDVSA amounting to US\$34 million (€26 million). The related amount corresponds entirely to property, plant and equipment acquired in connection with this allocation. No goodwill was generated as a result of the transaction (Note 2).

The net profit contributed by the incorporation of the Barúa-Motatán production activities since the date of acquisition amounted to US\$36 million (€28 million).

On February 10, 2010, the MENPET awarded the concession of the area of Carabobo 1 to the consortium led by Repsol (11%), and its partners Petronas (11%), OVL (11%), and Indoil (7%). The Venezuelan CVP will maintain its 60% ownership interest. The area will be managed by the mixed-ownership company Petrocarabobo, S.A. This project consists in developing, in conjunction with PDVSA, the heavy crude oil reserves of the blocks Carabobo 1 North and Carabobo 1 Center, located in the Orinoco oil belt. The profit recognized in relation with this company in 2010 was less than €1 million.

Acquisition of Unión Fenosa (2009)

The amounts given in this section related to Gas Natural's acquisition of an interest in Unión Fenosa take into account the Repsol Group's ownership interest in Gas Natural Fenosa, which as of the date of these consolidated financial statements is 30.89%, except for amounts stated in percentage terms which reflect Gas Natural Fenosa's 100% stake.

At December 31, 2008, Gas Natural SDG, S.A. held a 14.7% stake in Unión Fenosa (9.9% acquired from ACS on August 5, 2008, under a share purchase agreement signed on July 30, 2008, and 4.7% acquired from Caixanova on December 12, 2008), which was classified under the heading "Financial assets available for sale". The corresponding acquisition cost amounted to €756 million (proportionate to Repsol Group's interest in Gas Natural Fenosa).

In addition, in 2008, Gas Natural arranged various Equity Swaps and a share purchase agreement with Caja Navarra entitling it to acquire, in 2009, 9.7% of the voting rights in Unión Fenosa at an average price of €17.33 per share. These contracts were recognized at their fair value as derivatives under "Financial assets designated at fair value through profit and loss" (Notes 12 and 21).

Under the share purchase agreement with ACS, mentioned above, the acquisition of the construction group's remaining 35.3% shareholding in Unión Fenosa was subject to anti-trust approval. On February 26, 2009, having obtained this authorization, Gas Natural proceeded to acquire the additional 35.3% stake for €1,797 million (pro rata for the Repsol Group's shareholding in Gas Natural Fenosa). This transaction provided Gas Natural with 50% of the voting rights in Unión Fenosa, above the 30% threshold laid down in the Spanish Takeover

Code ("OPA"), triggering a takeover bid for all outstanding shares of Unión Fenosa, S.A. it did not already own. Until conclusion of this tender offer, Gas Natural's voting rights in Unión Fenosa were limited to 30%, entitling it to appoint 4 out of a total of 20 Directors in the Board of Directors.

This level of board representation provided Gas Natural with significant influence for accounting purposes; accordingly, from February 28, 2009, its investment in Unión Fenosa, S.A. was considered an investment in an associate and was accounted in the Gas Natural Fenosa Group's financial statements under the equity method.

The takeover tender offer was approved by the Spanish Securities Market Regulator ("CNMV" for its initials in Spanish) on March 18. On April 21, the regulator notified Gas Natural Fenosa the positive outcome of the offer. Consequently, Gas Natural SDG, S.A. acquired an additional 34.8% of Unión Fenosa for €1,771 million (pro rata for the Repsol Group's shareholding in Gas Natural Fenosa). In April 2009, Gas Natural Fenosa acquired an additional 10.1% as a result of the settlement of the various equity swaps previously arranged, and an additional 0.3% as a result of settlement of a share purchase agreement executed in 2008 in the amount of €532 million (pro rata for the Repsol Group's shareholding in Gas Natural Fenosa). All these acquisitions provided Gas Natural Fenosa a total shareholding in Unión Fenosa, S.A. of 95.2% for €4,880 million (pro rata for the Repsol Group's shareholding in Gas Natural Fenosa). Following the takeover bid, Repsol YPF's shareholding in Gas Natural Fenosa was 30.89%.

The proposed merger of Unión Fenosa, S.A. and Unión Fenosa Generación, S.A. (absorbed companies) into Gas Natural SDG, S.A. (absorbing company), via the dissolution without liquidation of the absorbed companies and the transfer in block of all their assets and liabilities to the absorbing company, was approved at the General Shareholders' Meeting on June 26, 2009.

On September 1, having met all the legal deadlines and obtained all pertinent regulatory approvals, the merger was filed with the Mercantile Register ("Registro Mercantil"), taking effect on that same date. As a result of the approved exchange ratios, on which an independent expert issued a fairness opinion, Gas Natural SDG, S.A. issued 26,204,895 shares. This shares-issue was targeted exclusively at minority shareholders of Unión Fenosa. As a result of this capital increase, Repsol YPF's shareholding in Gas Natural Fenosa since September 1, 2009 was established at 30.01%.

Following completion of this acquisition process, on April 23, 2009, Gas Natural SDG, S.A. achieved a majority in the Board of Directors of Unión Fenosa, S.A. and took effective control of its financial and operational policies. However, for accounting purposes, April 30, 2009 was used as the date of effective control, since the difference between these two dates was not considered to be significant. After this date, Gas Natural's interest in Unión Fenosa is consolidated using the full consolidation method. Gas Natural Fenosa is consolidated in the financial statements of the Repsol YPF Group using the proportional integration method.

Given that Gas Natural acquired control of Unión Fenosa in several acquisitions, it was recorded according to IFRS 3 for business combinations achieved in stages. Thus, the total cost of the combination was the sum of the costs of the individual transactions and amounted to €4,880 million (proportionate to the Repsol Group's interest in Gas Natural Fenosa). Provisional goodwill was calculated as the difference between the cost and the interest in the fair value of identifiable assets and liabilities as of the date of each transaction. The difference upon first-time consolidation corresponds to the sum of the goodwill calculated on each partial purchase and amounted to €1,745 million (proportionate to the Repsol Group's interest in Gas Natural Fenosa).

The breakdown of net assets acquired as of April 30, 2009 and the corresponding goodwill is as follows (proportionate to the Repsol YPF Group's interest in Gas Natural Fenosa):

	Millions of euros
Cash paid	4,860
Acquisition costs	20
Total purchase price	4,880
Fair value of the net assets acquired	3,135
Goodwill	1,745

	Millions of euros	
	Fair Value	Carrying amount
Intangible assets	1,031	141
Property, plant and equipment	5,214	3,961
Non-current financial assets	439	457
Deferred tax assets	254	251
Other current assets	1,104	1,107
Cash and cash equivalents	66	66
TOTAL ASSETS	8,108	5,983
Minority interest	449	389
Non-current financial liabilities	1,719	1,999
Other non-current liabilities	545	490
Deferred tax liabilities	784	177
Other current liabilities	1,326	1,323
TOTAL LIABILITIES	4,823	4,378
Total net assets acquired	3,285	1,605
Changes until the control date	(4)	
Minority interest	(146)	
Fair value of net assets acquired	3,135	
Total purchase price	4,880	
Cash and cash equivalents acquired with the subsidiary	66	
Cash used in the acquisition	4,814	

The net consolidated profit contributed by Unión Fenosa in 2009 from the acquisition date amounted to €119 million (proportionate amount according to Repsol Group's interest in Gas Natural Fenosa). If this acquisition had taken place on 1 January 2009, the increase in its contribution to the consolidated net turnover and the consolidated net income for the interim period would have been €667 million and €48 million (proportionate to Repsol Group's interest in Gas Natural Fenosa), respectively.

Unión Fenosa's Purchase Price Allocation (PP&A) made based on the fair value of its assets, liabilities, and contingent liabilities was finalized in April 2010. This PP&A was equal to the PP&A used in the preparation of the consolidated Financial Statements for 2009. The valuation was carried out by independent experts which applied generally accepted valuation criteria.

As a result of the process of allocation of the purchase price and, in connection with the carrying amount of Unión Fenosa's assets and liabilities at the date of purchase, the main assets and liabilities recognized at fair value were as follows:

- Intangible assets: mainly related to electricity distribution licenses in Spain, Latin America, CO₂ emission allowances and several gas supply contracts, and other contractual rights.
- Property, plant and equipment corresponding to combined cycle plants, nuclear power stations, hydropower stations, thermal power stations, wind farms, electric power supply networks, deposits of coal and other facilities.

- Deferred tax liabilities related to the revaluations mentioned above regarding the part that is not expected to be deductible.

The goodwill arising from the business combination is attributed to the high return on the acquired business and to the benefits and synergies expected to arise from the acquisition and integration of Unión Fenosa in Gas Natural.

Other 2009 acquisitions

In March 2009 the Group acquired Murphy Ecuador Oil Company Ltd. (currently Amodaimi-Oil Company Ltd.), which owns 20% of Block 16 in Ecuador, for €66 million. After this transaction, the Group's consolidated shareholding in this Block is 55%. This acquisition falls under the umbrella of agreements reached with the Government of Ecuador (Note 2).

31

Divestments

The following table provides the proceeds from the sale of equity ownerships and from other divestments recorded in 2010 and 2009:

	Millones de euros	
	2010	2009
Group companies, associated companies and business units	4,719	413
Property, plant and equipment, intangible assets and investment properties	171	373
Other financial assets	170	307
TOTAL DIVESTMENTS	5,060	1,093

Group companies, associated companies and business units

The decreases and sales of shareholdings in Group companies and associates in 2010 and 2009 are listed in Appendix I - Changes in the consolidation scope. Below is a description of the most significant transactions made by the Group during 2010 and 2009.

Exploration and production assets in Brazil

In December 2010, Repsol YPF and China Petroleum & Chemical Corporation ("Sinopec") successfully closed an agreement reached in October to develop joint exploration and production projects in Brazil, through a capital increase carried out in Repsol Brasil, S.A. on December 28, 2010. The capital increase was fully subscribed by Sinopec and amounted to US\$7,111 million (€5,389 million). Upon completing the transaction, Repsol holds a 60% ownership interest in Repsol Brasil and Sinopec holds the remaining 40%. In February 2011, Repsol Brasil, S.A. changed its registered name to Repsol Sinopec Brasil, S.A. ("Repsol Sinopec Brasil").

Both companies have signed a shareholders' agreement in which they affirm their desire to develop the abovementioned projects jointly by providing the necessary means and sharing certain strategic decisions concerning operational and financial policies. Consequently, as of December 28, 2010, the Group will account its 60% ownership interest in Repsol Sinopec Brasil using the proportional consolidation method.

This divestment amounted to US\$4,267 million (€3,234 million), generating a gain of US\$3,757 million (€2,847 million), recognized in "Income from reversal of impairment losses and gains on disposal of non-current assets." The amount of the divestment corresponds to the Group's ownership interest in the liquidity incorporated as a result of the capital increase.

The associated assets and liabilities of the group affected by the abovementioned transaction were derecognized at December 28, 2010 as follows below:

Millions of euros	
Net asset value	
Non-current assets	413
Cash and cash equivalents	12
Other current assets	61
TOTAL ASSETS	486
Non-current liabilities	15
Current liabilities	93
TOTAL LIABILITIES	108
NET ASSETS	378

In addition, historical exchange differences recognized in equity under "Adjustments for changes in value," and amounting to €9 million, were recognized reducing the result of the transaction.

Sale of the 30% ownership interest in Alberto Pacualini Refap, S.A.

In December 2010, Repsol YPF sold its 30% ownership interest in the company Alberto Pacualini Refap, S.A. (Refap) to Petrobras for US\$350 million (€261 million). This transaction generated a loss of €63 million, recognized in the heading "Impairment losses recognized and losses on disposal of non-current assets". The transaction was carried out as part of the Group's strategy focused in the divestment of non-strategic assets.

The assets and liabilities derecognized as a result of the sale were as follows:

Millions of euros	
Net asset value	
Non-current assets	878
Cash and cash equivalents	29
Other current assets	129
TOTAL ASSETS	1,036
Non-current liabilities	246
Current liabilities	284
TOTAL LIABILITIES	530
NET ASSETS	506

In addition, historical exchange differences recognized in equity under "Adjustments for changes in value," which totaled €182 million, were recognized as a result of the sale.

Sales of ownership interest in YPF

In December 23, 2010, Repsol YPF sold 1.63% of the share capital of YPF to funds managed by Eton Park Capital Management ("Eton Park"), and an additional 1.63% of the capital of YPF to funds managed by Capital Guardian Trusts Company and Capital International, Inc. ("Capital"). Each sale amounted to US\$250 million (€192 million) each.

In addition, Eton Park has call options on an additional 1.63% of YPF capital, either all at once or in smaller amounts, up to January 17, 2012. Furthermore, Repsol YPF has granted Capital a put option on the proportionate part of the shares acquired by Capital that exceed 15% of YPF's free floating shares at December 22, 2011. This option may be exercised at any time from the aforementioned date to January 23, 2012.

Additionally, in 2010, the Group has sold 0.97% of its shares in YPF through partial sales for a total amount of €105 million.

This process is part of Repsol's strategy to divest partially in YPF and rebalance its asset portfolio. After these transactions, the Repsol YPF Group holds a 79.81% ownership interest in YPF at December 31, 2010.

These sales increased the "Minority interests" in €305 million. The resulting before-tax gain, recognized in "Retained earnings," amounts to €139 million, after deducting accumulated exchange differences.

In addition, pursuant to the terms of the YPF share sale agreement signed between Repsol YPF and Petersen Energía in February 2008, this Group has a call option on 10% of this company's share capital, exercisable up to February 21, 2012.

Sales of Gas Natural Fenosa Group companies

At December 19, 2009, Gas Natural Fenosa agreed to sell the natural gas distribution business in 38 Madrid municipalities and the gas natural and electricity supply to residential customer retail and SMEs (small/medium companies). This sale includes the shared services structure in this region. This transaction was made under the framework of the disposal plan agreed upon with the Spanish anti-trust authorities (acronym in Spanish: CNC) in connection with the acquisition of Unión Fenosa. As of the date of this agreement, these assets are classified as non-current assets held for sale. Once the pertinent regulatory approvals were obtained, the sale was executed on April 30, 2010 for €241 million, generating a gross capital gain of €114 million, which was recognized in "Income from reversal of impairment losses and gains on disposal of non-current assets" of the accompanying income statement (amounts corresponding to the proportional part of the Group investment in Gas Natural Fenosa).

In addition, in December 2009, Gas Natural Fenosa agreed to divest its share in several combined cycle power generation Companies in Mexico with aggregate capacity of 2,233 MW and the Río gas pipeline. From the date of this agreement, these assets were classified as non-current assets held for sale. Once the pertinent regulatory approvals were obtained, the 100% control of the companies was transferred on June 30, 2010 for €304 million, generating a gross loss of €1 million, recognized in "Impairment losses recognized and losses on disposal of non-current assets" of the accompanying income statement (amounts corresponding to the proportional part of the Group investment in Gas Natural Fenosa).

On July 2, 2009, Gas Natural Fenosa closed the sale of the 13% of Indra Sistemas, S.A. for €99 million. The remaining 5% shareholding has been classified as a financial asset held for sale in 2009 (Note 12). This transaction did not have any impact on the income statement because the sales price coincided with the fair value of this investment at the acquisition date of Unión Fenosa. The Group's share of profit of Indra Sistemas, S.A. in 2009 amounted to €1.5 million (amounts pro rata for the Group's shareholding in Gas Natural Fenosa).

In December 2009, and under the framework of the disposal commitments reached with Spain's anti-trust authorities in connection with the acquisition of Unión Fenosa, Gas Natural Fenosa sold to Naturgas Group its gas distribution business in the regions of Cantabria and Murcia, along with the gas and power (residential and small and medium companies) supply business and the corresponding shared services in these same regions, as well as the high pressure distribution networks in Cantabria, the Basque Country and Asturias. These assets had been recognized as non-current assets held for sale in July 2009. The selling price was €102 million, generating a gain in 2009 of approximately €15 million (pro rata for the Group's shareholding in Gas Natural Fenosa).

In addition, in October 2009 Gas Natural Fenosa agreed the sale of its 63.8% interest in Empresa de Energía del Pacífico, S.A. (EPSA) to Colener, S.A.S., Inversiones Argos and Banca de Inversión Bancacolombia, S.A. Corporación Financiera. These assets were classified as non-current assets held for sale on the date the agreement was reached (Note 11). The sale was completed in December 2009 upon obtention of all the pertinent regulatory approvals. The selling price was €207 million, generating a before-tax gain of €3 million (pro rata for the Group's shareholding in Gas Natural Fenosa, except for the figures presented in percentage terms).

Other sales

On December 17, 2010, the Group sold Gas Natural Fenosa's 35% ownership interest in Gas Aragón, S.A. for €23 million. This was an equity-consolidated company and the sale generated a before-tax gain of €12 million recognized in "Income from reversal of impairment losses and gains on disposal of non-current assets."

In November 2010, the Repsol YPF Group sold its 25% ownership interest in Bahía Bizkaia Gas (BBG) to Enagas and other non-controlling interests for approximately €31 million, after deducting the amount of dividends received. This sale generated a before-tax gain of €13 million, recognized in "Income from reversal of impairment losses and gain on disposal of non-current assets" of the accompanying consolidated income statement.

On March 25, 2010 Repsol YPF, Petronor and BBK signed an agreement whereby BBK acquired a share package for 5% of Compañía Logística de Hidrocarburos (CLH), which Repsol indirectly owned through Petronor. The sale price was €145 million, which generated a gross capital gain of €133 million, recognized in "Income from reversal of impairment losses and gains on disposal of non-current assets" of the accompanying consolidated income statement. As a result of this transaction, Repsol YPF reduced its share in CLH to 10%.

In February 2010, Repsol YPF sold its 100% investment in Termobarrancas and its exploration and development license in the Barrancas area to Petróleos de Venezuela S.A. (PDVSA). The purchase-sale agreement was reached in 2009, year in which these assets were classified as non-current assets held for sale. The sale of these assets generated a gain of €5 million, recognized under "Income from reversal of impairment losses and gains on disposal of non-current assets" in the accompanying consolidated income statement.

Property, plant and equipment, intangible assets and investment property

In 2010, Repsol YPF Group received a €70 million prepayment in connection with sale of the Gaviota underground storage gas facility to Enagás, which was classified at December 31, 2010 under "Non-current assets held for sale." This transaction is awaiting the final approval of the competent authorities (Note 11).

On July 30, 2007 Repsol YPF, S.A. entered into an agreement whereby it sold to Caja Madrid the lot where an office building is under construction in Madrid, as well as the finished works on it, for €815 million of which €570 million were recorded as divestments in 2007. In the same agreement Repsol YPF, S.A. undertook to continue the promotion and development of the pending construction works, with the aim of completing the cited office building. The building was officially delivered to the buyer in 2009. This delivery generated an additional divestment of €245 million and a gain of €49 million, recognized in "Income from reversal of impairment losses and gains on disposal of non-current assets" in the 2009 income statement.

Other financial assets

In April 2010, Gas Natural Fenosa sold its 5% ownership interest in Indra Sistemas, S.A., which was classified under "held-for-sale financial assets" after the disposal of the 13% ownership interest in 2009 (described above). This sale amounted to €38 million, generating a gain of €1 million recognized under "Impairment gains / (losses) on disposal of financial instruments".

In 2009 Unión Fenosa sold its shareholdings in Red Eléctrica Corporación, S.A. and Isagen for €32 million. These disposals did not have any impact on the income statement because the sales prices coincided with the fair value of these assets at the date of the acquisition of Unión Fenosa by Gas Natural. Disposals of other financial assets also include €47 million in connection with the sale of Gas Natural Fenosa's 5% shareholding in Enagás, generating a before-tax gain of €31 million, which was recognized as a reduction to "Adjustments for changes in value" (Note 12) (amounts pro rata for the Group's shareholding in Gas Natural Fenosa, except for the figures presented in percentage terms).

Information on related party transactions

Repsol YPF undertakes transactions with related parties under general market conditions.

For the purposes of presenting this information, the following are considered to be related parties:

- a. Major Shareholders: according to the most recent information available, the major shareholders in the company that are considered related parties of Repsol YPF are (Note 15.1):
 - Sacyr Vallehermoso, S.A. that owns 20.01% of the share capital.
 - Criteria Caixa Corp. S.A. (member of Caixa Group) that holds, directly and indirectly, 12.97% of the share capital of Repsol YPF, S.A.
 - Petróleos Mexicanos (Pemex) that has an ownership interest of 4.81% through its subsidiaries Pemex International España, S.A. and various financial instruments.
- b. Executives and Directors: includes members of the Board of Directors and of the Executive Committee.
- c. People or Group companies: Includes transactions with Group companies or entities for the part not eliminated in the consolidation process (corresponding to the non-owned portion in the proportionately consolidated companies and transactions undertaken with companies accounted for using the equity method).

Income, expenses and other transactions recorded in 2010 with related parties were as follows:

(2) Includes credit lines of €403 million contracted with La Caixa.

(3) Corresponds to purchase commitments presently outstanding, net of sales commitments.

(4) Dividends distributed and loans to Executives and Directors were under €1 million.

(5) Includes short-term investments of €747 million, exchange rate hedging transactions of €736 million and interest rate hedging transaction of €806 million contracted with La Caixa.

The transactions performed by Repsol YPF, S.A. with its Group companies, and by the Group companies among themselves, form part of the Company's ordinary business activities in terms of their purpose and conditions. Sales to related parties are performed in accordance with the policies described in Note 3.3.22.

33

Information on the members of the board of directors and executives

33.1

Remuneration of the members of the Board of Directors (Directors)

The remuneration received by the Executive Directors, as detailed under the paragraphs a), b) and c) of this Note, amount to €6.779 million, which means 0.14% of the net income attributed to the parent company.

a. Due to membership of the Board

In accordance with Article 45 of the bylaws, the Company may pay remuneration equal to 1.5% of its net income to its Board members each year, but this amount can only be paid once the appropriations to the legal reserve and other obligatory appropriations have been made and a dividend of at least 4% has been declared.

Under the system established and approved by the Nomination and Compensation Committee, the amounts of the annual remuneration earned in 2010 and 2009 by virtue of membership of each of the Group's governing bodies are as follows:

	Euros	
Governing Body	2010	2009
Board of Directors	172,287	172,287
Delegate Committee	172,287	172,287
Audit and Control Committee	86,144	86,144
Strategy, Investment and Corporate Social Responsibility Committee	43,072	43,072
Nomination and Compensation Committee	43,072	43,072

The remuneration earned in 2010 by the members of the Board of Directors in their capacity as Board members in connection with the above-mentioned bylaw-stipulated directors' emoluments amounted to €4.910 million, the detail being as follows:

Remuneration of Membership to Governing Bodies (Euros)						
	Board	Delegate C	Audit C	Nomination C	Strategy C	TOTAL
Antonio Brufau	172,287	172,287	–	–	–	344,574
Luis Suárez de Lezo	172,287	172,287	–	–	–	344,574
Pemex Internacional España, S.A.	172,287	172,287	–	–	43,072	387,646
Carmelo de las Morenas	172,287	–	86,144	–	–	258,431
Henri Philippe Reichstul	172,287	172,287	–	–	–	344,574
Paulina Beato	172,287	–	86,144	–	–	258,431
Javier Echenique	172,287	172,287	86,144	–	–	430,718
Artur Carulla	172,287	172,287	–	43,072	–	387,646
Luis del Rivero	172,287	172,287	–	–	–	344,574
Juan Abelló	172,287	–	–	–	43,072	215,359
José Manuel Loureda	172,287	–	–	43,072	43,072	258,431
Luis Carlos Croissier	172,287	–	–	–	43,072	215,359
Isidro Fainé	172,287	172,287	–	–	–	344,574
Juan María Nin	172,287	–	–	43,072	43,072	258,431
Angel Durandez	172,287	–	86,144	–	–	258,431
M ^a Isabel Gabarró	172,287	–	–	43,072	43,072	258,431

Additionally, the following should be noted:

- The members of the parent's Board of Directors have not been granted with any loans or advances by any Group company, jointly controlled entity or associate.
 - No Group company, jointly controlled entity or associate has pension or life insurance obligations to any former or current member of the parent's Board of Directors, except in the case of the Executive Chairman, and of the General Counsel, who, as Executive Directors, are subject to the commitments set forth in their respective service agreements, which consider defined contribution systems.
- b. Due to the holding of executive posts and the discharge of executive duties**

The annual monetary fixed remuneration received in 2010 by the members of the Board of Directors who, during that period had performed executive tasks at the Group, amounted to €3.269 million, of which €2.310 million was earned by Mr. Antonio Brufau and €0.959 million by Mr. Luis Suárez de Lezo. This remuneration is the same as that received for these concepts in 2009.

In addition, the in-kind remuneration (residence allowances and other), variable annual, and multi-annual variable compensation paid to Mr. Antonio Brufau, determined on the basis of the level of success with respect to the objectives of the Medium-term Incentives Program for senior management personnel corresponding to the 2006-2009 period totaled €1.620 million. The amounts received by Mr. Luis Suárez de Lezo for in-kind, annual variable, and multi-annual variable compensation under the aforementioned program totaled €0.666 million.

These figures do not include the amounts reflected in paragraph e) below.

c. Due to membership to the Boards of Directors of affiliates

The remuneration earned in 2010 by the members of the parent's Board of Directors in their capacity as directors of other Group companies, jointly controlled entities and associates amounted to €0.536 million, the detail being as follows:

	Euros			
	YPF	Gas Natural	CLH	TOTAL
Antonio Brufau	78,981	265,650	–	344,631
Luis Suarez de Lezo	77,554	103,500	9,921	190,975

d. Due to third-party liability insurance premiums

The members of the Board of Directors are covered by the same third-party liability insurance policy as that covering all the directors and senior management personnel of the Repsol YPF Group.

e. Due to life insurance and retirement policies, contributions to pension plans and long-service bonuses

The cost of the retirement, disability and death insurance policies and the contributions to pension plans and long-service bonuses including, if applicable, the related payments on account, incurred by the Company on behalf of the members of the Board of Directors with executive functions at the Group amounted to €2.784 million in 2010. Of this amount, €2.496 million correspond to Mr. Antonio Brufau and €0.288 million to Mr. Luis Suárez de Lezo.

f. Incentives

Directors not holding executive positions at the Company have not been paid multi-annual variable compensation.

33.2 Indemnity payments to members of the Board of Directors

No director received any indemnity payment from Repsol YPF in 2010.

33.3 Transactions with Directors

Except for the remuneration earned, the dividends received from the shares held by them and, in the case of institutional outside directors, the transactions described in Note 32 ("Information on Related Party Transactions – Significant Shareholders"), the directors of Repsol YPF did not perform any material related-party transactions with the Company or Repsol YPF Group companies outside of ordinary business or under conditions other than market conditions.

Except as detailed in Appendix III, none of the directors nor people or entities to which they are related have ownership interests or hold positions in companies engaging in an activity that is identical, similar or complementary to the activity constituting the corporate purpose of Repsol YPF.

In addition, except as detailed in Appendix III, none of the directors have performed, as independent professionals or as employees, activities that are identical, similar or complementary to the activity that constitutes the corporate purpose of Repsol YPF.

Finally, no member of the Board of Directors was affected by any situation representing a direct or indirect conflict of interest with Repsol YPF, S.A.

33.4 Remuneration of executives

a. Scope

For reporting purposes, in this section Repsol YPF deems "executives" to be the members of the Repsol YPF Group's Executive Committee. This consideration, made purely for reporting purposes herein, neither substitutes nor implies an interpretation of other "Top Management" or similar concepts applicable to the Company under prevailing legislation (such as Royal Decree 1382/1985), nor does it have the effect of creating, recognizing, amending or extinguishing any existing legal or contractual rights or obligations.

The information included in this Note relates to the six people who have been members of the Executive Committee of the Group in 2010, excluding, unless stated otherwise, those who are also members of the Parent Company Board of Directors, since the information relating to them is disclosed in the paragraph 1) of this Note.

b. Wages and salaries

Executives receive fixed and variable remuneration. The latter consists of an annual bonus calculated as a given percentage of the fixed remuneration earned on the basis of the degree to which certain targets are met and, where appropriate, the payment relating to the multi-annual incentive plan.

The total remuneration earned in 2010 by executives who form or formed part of the Executive Committee, during the period in which they belonged to the Committee, amounted to €11.693 million, the detail being as follows:

Millions of euros	
Description	
Salary	4.973
Attendance fees	0.345
Variable remuneration	5.902
Compensation in kind	0.473

c. Executive welfare plan and long service bonus

In 2010, the contributions made by the Group to its executives in both instruments amounted to €1.328 million.

d. Pension fund and insurance premiums

The contributions made by the Group in 2010 to the hybrid defined contribution pension plans for executives adapted to the Pension Plans and Funds Law (Note 3.3.17 and Note 18) plus the life and accident insurance premiums paid totaled €0.443 million (this amount is included in the disclosures reported in section b) above).

Executives are covered by the same civil liability insurance policy as that covering all the directors and senior management personnel of the Repsol YPF Group.

e. Advances and loans

At December 31, 2010, the Company had granted loans to its executives amounting to €0.226 million, which earned average interest of 2.80%. All these loans were granted before 2003.

33.5 Indemnity payments to executives

In 2010 Repsol YPF paid €7.592 million of indemnity payments to Company executives in connection with the termination of the contract and non-compete agreements.

33.6 Transactions with executives

Except for the information disclosed in sections 4 and 5 of this Note and the dividends pertaining to the shares of the Company held by them, the executives of Repsol YPF did not perform any material related-party transactions with the Company or Repsol YPF Group companies outside of ordinary business or under conditions other than market conditions.

In addition, the executives to which this Note is referred (Section 33.4.a) have, in their respective contracts, the right to receive a compensation in the event of termination of relationship with the company, provided that the termination was not due to a breach of obligations of the such management member, due to retirement, handicap or the employee's voluntary withdrawal not founded in some of the compensable assumptions gathered in the mentioned contracts.

Said compensations shall be recognized as a provision and a personnel expense only when the termination of the relationship between the executive and the Group is due to a reason that entitled him or her to such perception. The Group has a collective insurance policy contracted which aims to guarantee the payment of such compensations to the executives to which this Note is referred (Section 33.4.a), including the General Counsel Director.

34 Contingent liabilities and obligations

Guarantees

At December 31, 2010 the companies of the Repsol YPF Group have granted the following guarantees to third parties or to Group companies whose assets, liabilities and results are not incorporated to the consolidated financial statements (companies consolidated in the proportion not owned by the Group and companies consolidated under the equity method). The most significant guarantees are outlined below:

- The Group provided guarantees for the financing activities of the Central Dock Sud, S.A. amounting to €10 million.
- The Group provided guarantees for the financing activities of Atlantic LNG Company of T&T, in which the Group has a 20% stake, amounting to €34 million.
- The Group provided guarantees for its stake in Oleoducto de Crudos Pesados de Ecuador, S.A. (OCP) which covers construction, abandonment of construction, and the environmental risks related to this operation, amounting, approximately, €10 million together with the operative risks of approximately, €10 million. The Group has pledged all its shares in OCP.
- The Group has provided guarantees for the financing activities to Petersen Group related to the acquisition of a shareholding in YPF in the amount of €75 million.
- Repsol YPF has executed certain support and guarantee contracts in connection with the financing agreements for Perú LNG, S.R.L., a company which was set up to build and operate a gas liquefaction facility, including a marine loading dock in Pampa Melchorita in Peru, and a gas pipeline. Repsol YPF has extended guarantees to launch the project to full operation, as well as price guarantees that cover any differences between the natural gas purchase price and the price at which this company sells LNG. These guarantees have been extended jointly with the other project shareholders, each in proportion to its share of the project financing incurred; in the case of Repsol YPF the total estimated pro rata balance is US\$470 million (approximately €352 million).

Contractual commitments

At December 31, 2010, the main long-term purchase, sale or investment commitments of the Repsol YPF Group were as follows:

Commitments	2011	2012	2013	2014	2015	Subsequent years	TOTAL
Operating leases (1)	532	429	288	228	198	1,508	3,183
Transport - Time Charter (2)	225	184	127	74	53	592	1,255
Operating leases (3)	307	245	161	154	145	916	1,928
Purchase commitments	5,354	5,396	5,414	4,815	4,454	36,450	61,883
Crude Oil and others	880	290	222	209	211	311	2,123
Natural gas (4)	4,474	5,106	5,192	4,606	4,243	36,139	59,760
Investment commitments (5)	2,277	622	299	97	104	2,810	6,209
Service commitments	1,299	593	303	293	268	1,411	4,167
Transport commitments (6)	193	169	166	166	156	1,095	1,945
TOTAL	9,655	7,209	6,470	5,599	5,180	43,274	77,387

Note: The commitments detailed in the foregoing table are commercial agreements in which fixed total amounts are not stipulated. These commitments were quantified using Repsol YPF's best estimates.

(1) Operating lease expenses recognized in 2010 and 2009 amounted to €659 and 522 million, respectively.

(2) Repsol YPF has currently chartered 42 tankers under "time charter" arrangements (three of which through its subsidiary Gas Natural SDG, S.A.) for the transport of crude oil and petroleum products. These charter agreements finalize between 2011 and 2012. The payments in connection with the rent of these tankers for 2011 amount to €178 million. Additionally, this heading includes the operating lease portion of the charter contracts for the tankers acquired under finance lease agreements for the transport of LNG amounting to €47 million.

(3) Corresponds primarily to service station leases in the amount of €812 million.

(4) Mainly includes the corresponding portion of the Repsol YPF Group of the Gas Natural Fenosa Group's long-term natural gas purchase commitments amounting to €22,543 million, commitments of the Repsol YPF Group to purchase gas from Trinidad and Tobago amounting to €7,077 million, from Peru amounting to €18,449 million, and from Canada, amounting to €10,618 million.

(5) This amount includes commitments in relation with the renewal of YPF operating concessions amounting to €2,789 million.

(6) Includes €422 million in relation with the agreement executed by Repsol YPF Ecuador, S.A. on January 30, 2001, with Oleoducto de Crudos Pesados (OCP) Ecuador, S.A., owner of a heavy crude oil pipeline in Ecuador, pursuant to which it undertook to transport the quantity of 100,000 barrels/day of crude oil (36.5 million of barrels/year) for a 15 years term, from the date of the setting up, September 2003, at a variable floating rate determined by the contract. It also includes €1,219 million for the transport of natural gas to other countries of the Gas Natural Fenosa Group.

Sales	2011	2012	2013	2014	2015	Subsequent years	TOTAL
Committed sales	8,297	4,489	4,459	4,177	3,241	23,952	48,615
Crude oil and other	4,803	1,410	1,303	1,160	1,071	4,659	14,406
Natural gas (1)	3,494	3,079	3,156	3,017	2,170	19,293	34,209
Transport commitments	22	22	22	22	22	88	198
Service commitments	536	486	353	374	343	2,492	4,584
Leases (2)	130	79	78	66	63	88	504
TOTAL	8,985	5,076	4,912	4,639	3,669	26,620	53,901

(1) Primarily includes natural gas sale commitments in Mexico €14,540 million, Argentina €4,271 million, Trinidad and Tobago €2,918 million and Spain €2,785 million and the Repsol YPF Group's pro rata share of the long-term natural gas sale commitments entered into by the Gas Natural Fenosa Group in the amount of €7,243 million.

(2) Corresponds primarily to facilities for the storage of oil and other products €224 million, fibre optic assets €76 million and gas storage facilities €46 million.

Contingencies

The Repsol YPF Group considers that there are currently no lawsuits, disputes, or criminal, civil, administrative or arbitration proceedings involving the companies in its Group which, on account of their amount, may have or have had in the past significant effects on the financial position or profitability of the Repsol YPF Group considered as a whole.

However, some of the companies comprising the Group are parties in judicial and arbitration proceedings. The following is a summary of the most significant proceedings, as well as their current status at the closing date of the Financial Statements.

At December 31, 2010, Repsol YPF's consolidated balance sheet included a litigation provision amounting to €759 million (excluding tax risk provisions described in Note 24 "Tax situation - Other tax-related disclosures"). This amount was recognized under the heading "Other provisions" (Note 17), except for €102 million, related to provisions recognized in connection with YPF Holding's litigations in United States as described below, registered under the heading "environmental provisions" (Notes 17 and 35).

United States of America

The following is a brief description of certain environmental and other liabilities related to YPF Holdings, Inc. ("YPF Holdings"), a subsidiary of YPF incorporated in Delaware (USA).

In connection with the sale of Maxus Energy Corporation's ("Maxus") former chemical subsidiary, Diamond Shamrock Chemicals Company ("Chemicals"), to a subsidiary of Occidental Petroleum Corporation ("Occidental"), Maxus agreed to indemnify Chemicals and Occidental from and against certain liabilities relating to the business and activities of Chemicals prior to the September 4, 1986 closing date (the "Closing Date"), including certain environmental liabilities relating to certain chemical plants and waste disposal sites used by Chemicals prior to the Closing Date. In 1995, YPF acquired Maxus and in 1999, Repsol YPF acquired YPF.

As of December 31, 2010, YPF Holdings' reserves for environmental and other contingencies, including litigation, totaled approximately €111 million, of which €102 million were recognized under environmental provisions (Note 35). YPF Holdings management believes it has adequately reserved for these and other contingencies that are probable and can be reasonably estimated based on information as of such time; however, many such contingencies are subject to significant uncertainties, including the completion of ongoing studies, the discovery of new facts, and the issuance of orders by regulatory authorities, which could result in material additions to such reserves in the future. It is possible that additional claims will be made, and additional information about new or existing claims (such as results of ongoing investigations, the issuance of court decisions, or the signing of settlement agreements) is likely to develop over time. YPF Holdings' reserves for the environmental and other contingencies described below are substantial based solely on currently available information and as a result, YPF Holdings, Maxus and Tierra Solutions Inc. may have to incur substantial costs that may be material, in addition to the reserves already taken.

In the following discussion of the key litigation proceedings underway in the US, references to YPF Holdings include, as appropriate, references to Maxus and Tierra Solutions Inc. ("Tierra"), a subsidiary of YPF Holdings, which has assumed certain of Maxus' environmental obligations.

Passaic River/Newark Bay, New Jersey

Chemicals formerly operated an agricultural chemicals plant in Newark, New Jersey. This facility has been the subject of numerous claims of environmental contamination and other damages alleged to result from operations at the facility, at the plant site and surrounding property, including the adjacent water bodies, the Passaic River and Newark Bay. As a result of these claims, Occidental, as the successor to Chemicals, has entered into various agreements with the U.S. Environmental Protection Agency ("EPA"), the New Jersey Department of Environmental Protection ("DEP"), and third parties also alleged to have contributed contamination to the affected properties. These agreements include a 1990 consent order related to the remedy for the plant facility, a 1994 agreement under which Tierra conducted studies on behalf of Occidental in the lower six miles of the Passaic River, a 2004 agreement under

which Tierra is presently conducting studies in Newark Bay, and a 2007 agreement under which Tierra and over 70 other parties are presently conducting studies in the lower 17 miles of the Passaic River.

In 2007, the EPA released a draft Focused Feasibility Study (“FFS”) that outlines several alternatives for remedial action in the lower eight miles of the Passaic River. These alternatives range from no action to extensive dredging and capping, and are described by the EPA as involving proven technologies that could be carried out in the near term. The total remediation costs, to be split among the more than 300 entities, including Maxus, which could end up being involved in the Passaic River lawsuit, could range (depending on the actions and measures taken) from zero (if no action is taken) to actions which could amount to approximately €1,500 million. Tierra, together with other parties involved in the Passaic River issues, submitted comments on the FFS to the EPA, which has elected to perform further investigation and estimates that a revised remedy proposal will be issued in the third quarter of 2011. Tierra plans to respond to any revised proposal as may be appropriate at that time.

In June 2008, Occidental and Tierra entered an agreement with the EPA, under which Tierra will undertake the removal of sediment from a portion of the Passaic River in the vicinity of the former Newark facility. This action will result in the removal of approximately 200,000 cubic yards of sediment, in two phases, and is expected to cost approximately US\$80 million (€60 million), of which US\$22 million (€16 million) has been paid into a trust account to fund the work. Notwithstanding the foregoing, during the first quarter of 2010 a credit letter was issued to replace the obligation of making additional deposits in the trust. During the removal work, certain contaminants not produced at Chemicals’ former facility will also be removed; YPF Holdings may seek cost recovery from the parties responsible for such contaminants, but is unable at this time to predict the success of a cost recovery action.

In December 2005, the DEP and the New Jersey Spill Compensation Fund sued YPF Holdings, Tierra, Maxus and other affiliates, as well as Occidental, seeking damages in connection with the contamination allegedly emanating from the Newark facility and allegedly contaminating the Passaic River, Newark Bay, and other nearby water bodies and properties (the Passaic River/Newark Bay litigation). The plaintiffs have represented in court that this litigation should not be preempted by the remedial studies and activities taking place under EPA oversight because they are not seeking remediation, only damages. The defendants have made responsive pleadings, and in February 2009, third-party claims were filed against approximately 300 companies and governmental entities (including certain municipalities) which could have responsibility for the conditions of the allegedly affected properties. The DEP did not quantify damages in its claims but it did: (a) maintain that the US\$50 million (€37 million) cap on damages under New Jersey legislation should not be applied; (b) claim it had incurred approximately US\$113 million (€85 million) in costs in the past in cleanup and removal work and that it is looking for additional damages of between US\$10 and US\$20 million (between €7 and €15 million) to finance a study to assess damages to the natural resources; and (c) notify Maxus and Tierra that it is working on financial models outlining costs and other financial impacts. In parallel to this lawsuit, a mediator had started to prepare a roadmap for agreeing an alternative solution to the dispute; however, this alternative was rejected as the various parties were unable to agree on certain basic matters at the heart of the matter.

In October 2010, some of the defendants presented several motions to sever and stay, which would have had the effect of allowing the New Jersey DEP to take their case against the direct defendants, which were however dismissed, and also presented motions to dismiss which were overruled in January 2011. Some of the entities have appealed this decision. The judge handling the case will, as a result, hold appeal hearings in March and April. The next step consists of preparing the Trial Plan which will establish the timeline between the discovery and final judgment. At the date of authorizing the accompanying Financial Statements for issue, it is not possible to reasonably estimate when the first judgment will take place.

Hudson and Essex Counties, New Jersey

Until 1972, Chemicals operated a chromite ore processing facility in Kearny, New Jersey. Tierra, on behalf of Occidental, is conducting remedial work on this facility and surrounding properties where chromite ore processing residue (“COPR”) from the facility is believed to have become located, pursuant to an agreed consent order with the DEP. Tierra has provided financial assurance in the amount of US\$20 million (€15 million) in connection with such work.

In May 2005, the DEP issued a directive to Maxus, Occidental, and two other chromium manufacturers directing them to arrange for the cleanup of COPR at three sites in Jersey City, New Jersey, and for the conduct of a study by paying the DEP a total of US\$20 million (€15 million). The DEP also filed a lawsuit (the Hudson County, New Jersey litigation) against the above parties seeking cleanup of COPR from various sites not addressed in the consent order described above, recovery of past costs, and treble damages. The parties have reached a tentative agreement to settle both matters, under which Tierra will pay US\$5 million (€4 million) and will remediate three sites at an estimated cost of US\$2 million (€1 million). In addition, in March 2008, the DEP approved a provisional plan for the work to be performed by Tierra at the site of the Kearny plant and the work to be performed by Tierra together with other parties in the vicinity of the Kearny facility. This adjacent property was included by the EPA in its National Priorities List in 2007. In July 2010, the EPA notified Tierra and another three parties that it considered them potentially liable for this adjacent property, requesting a Remedial Investigation/Feasibility Study (RI/FS) for this site. The parties involved have submitted their response and are waiting to talk with the EPA about the scope of the work. At the date of authorizing the accompanying Financial Statements for issue, it is not known whether work in addition to that already agreed with the DEP will be required.

Other Former Plant Sites and Third Party Sites

Tierra and Maxus are participating, on behalf of Occidental, in environmental response and remediation activities at a variety of lesser sites, including Chemicals’ former Painesville, Ohio site at which remediation is nearing completion, some smaller manufacturing facilities which Chemicals once owned or had an interest in, and waste disposal sites where Chemicals and other parties are alleged to have contributed waste materials.

Dallas Occidental vs. Maxus Litigation

In 2002, Occidental sued Maxus and Tierra in a state court in Dallas, Texas, seeking a declaration that under the agreement by which Maxus sold Chemicals to Occidental in 1986, Maxus and Tierra have an obligation to defend and indemnify Occidental from certain historical obligations of Chemicals, including claims related to “Agent Orange” and vinyl chloride monomer (VCM). Tierra was dismissed as a party, but at trial in 2006, Maxus was found to be liable to indemnify Occidental for these claims. This decision was affirmed by the Court of Appeals, and Maxus will be required to reimburse Occidental for damages in connection with these claims. Maxus has reimbursed Occidental for the majority of these damages and has reserved for the remaining claims while resolving the final amounts with Occidental. Although this judgment does contain declaratory relief that Maxus must indemnify Occidental for certain types of future claims, YPF Holdings does not believe that these claims associated with the “Agent Orange” will be material to the financial condition of the company.

In developments related to the “Agent Orange litigation”, which may be affected by this lawsuit, the U.S. district court granted the defendants’ motions for summary judgment in a number of these cases. The plaintiffs appealed the judgments to the *Second Circuit Court of Appeals*, which affirmed the summary judgment; in March 2009, the U.S. Supreme Court declined to hear a further petition. All pending Agent Orange litigation was dismissed in December 2009, and although it is possible that further claims may be filed by unknown parties in the future, no further significant liability is anticipated.

In addition, the other claims filed, which have been dismissed, include claims relating to alleged side effects from exposure to VCM and other chemical products, although these claims are not expected to give rise to material liabilities. However, the declaration of legal liability does imply liability for future claims, if any, related to these effects. As a result, potential future claims, if any, could give rise to additional liability on the part of Maxus.

Argentina

Liabilities and contingencies assumed by the Argentine State

The Privatization Law provides that the Argentine State shall be responsible for any liabilities, obligations or other commitments existing as of December 31, 1990 that were not acknowledged as such in the financial statements of its predecessor (Yacimientos Petrolíferos Fiscales, Sociedad del Estado) as of that date arising out of any transactions or events that had occurred as of that date, provided that any such liability, obligation or other commitment is established or verified by a final decision of a competent judicial authority. In certain lawsuits related to events or acts that took place before December 31, 1990, YPF has been required to advance the payment of amounts established in certain judicial decisions. YPF believes it has the right to be reimbursed for all such payments by the Argentine Government pursuant to the above-mentioned indemnity. YPF is required to keep the Argentine Government apprised of any claim against it arising from the obligations assumed by the Argentine Government.

Argentine National Commission for the Defense of Competition (Comisión Nacional de Defensa de la Competencia – “CNDC”) - Liquefied Petroleum Gas Market

Resolution No. 189/99 from the former Department of Industry, Commerce and Mining of Argentina imposed on YPF a fine based on the interpretation that YPF had purportedly abused its dominant position in the bulk LPG market due to the existence of different prices between the exports of LPG and the sales to the domestic market from 1993 through 1997. Additionally, the CNDC commenced an investigation in order to prove, among other things, whether the penalized behavior for the period from 1993 through 1997, already settled, continued from October 1997 to March 1999. On December 19, 2003, the CNDC completed its investigation and charged YPF with abuse of dominant market position during this period. YPF has unsuccessfully appealed this decision in several courts. On December 22, 2009, the 4th Court of Appeals rejected one of the outstanding appeals filed by YPF, in which YPF had asserted a statute of limitations defense. YPF has filed an extraordinary appeal which is currently pending.

In addition, on December 21, 2009, YPF filed another appeal based on the statute of limitations with the CNDC, which was dismissed by the CNDC. On the basis of this last ruling, YPF lodged the corresponding appeal calling for the intervention of Room B of the White Collar Crime Chamber (Sala B of the Cámara Penal Económico), and the pertinent grievances briefing was filed on October 7, 2010.

On December 22, 2010, YPF was notified that Room B of the White Collar Crime Chamber had ruled in favor of YPF, with the effect of repealing the CNDC's ruling and closing the proceedings. At the date of authorizing the accompanying Financial Statements for issue, the ruling was not yet final.

Natural gas market

As a result of the restrictions on natural gas exports since 2004, YPF had been forced in many instances to partially or fully suspend natural gas export deliveries that are contemplated by its contracts with export customers. YPF has taken steps to appeal the Program of Rationalization of Gas Exports and the Use of Transportation Capacity, as well as the Permanent Additional Injection and the Additional Injection Requirements, as it believes that they are arbitrary and illegitimate, and has informed its customers that such measures constitute an event of force majeure which releases YPF from any responsibility and/or penalty deriving from the failure to deliver the volumes of gas stipulated under the relevant agreements.

A number of YPF's customers, including Electroandina S.A. (Electroandina) and Empresa Eléctrica del Norte Grande S.A. (Edelnor), have rejected YPF's interpretation and have claimed damages and/or penalties for breach of supply undertakings, while at the same time reserving their rights to file additional claims in the future. YPF has opposed such claims.

On November 5, 2010, YPF and Edelnor and Electroandina entered into a Dispute Resolution Agreement under which, without admitting liability or granting rights, YPF will pay Edelnor and Electroandina a sum that is substantially less than originally claimed, reaching a compromise regarding the arbitration proceedings underway, which implied agreeing to: a) abandon and

renounce all actions, rights and claims relating to the natural gas supply undertakings; and b) amend the natural gas supply undertakings to render them 'interruptible'. YPF received Secretariat of Energy approval for this agreement on January 7, 2011, rendering the agreement amendments effective.

In addition, *AES Uruguaiana Empreendimentos S.A. (“AESU”)* has claimed damages in a total amount of US\$28 million (€21 million) for missed deliveries of natural gas volumes during the period September 16, 2007 through June 25, 2008. On July 16, 2008, AESU also claimed damages in a total amount of US\$3 million (€2 million) for missed deliveries of natural gas volumes during the period January 18, 2006 through December 1, 2006. YPF has contested both of these claims. By letter dated on March 20, 2009, AESU notified YPF that it was terminating the related contract unilaterally.

On April 6, 2009, YPF was notified by the International Chamber of Commerce (“ICC”) of an arbitration brought by AESU and Companhia de Gás do Estado do Rio Grande do Sul (“Sulgás”) against YPF claiming damages in an approximate amount of US\$1,052 million (€787 million), which includes the amount referred to above, in connection with YPF's alleged liability resulting from the termination by AESU and Sulgás of the natural gas export contract entered into in September 1998. YPF denies all liability arising from such termination. Moreover, YPF believes that AESU's damages assessment is far beyond any reasonable assessment, since it exceeds six-fold the maximum aggregate deliver-or-pay penalties that would have accrued in the event that YPF had breached its delivery obligations for the maximum daily quantity through the expiration of the term of the natural gas export contract, as set forth in the contract entered into in 1998. In addition, more than 90% of AESU's damages assessment relates to alleged loss of profits that may be strongly challenged on the basis that prior to the termination of the natural gas export contract, AESU voluntarily terminated all of its long term power purchase contracts. YPF's management considers that the claim brought by AESU is likely to be unsuccessful. On October 1, 2010, the terms of reference (Acta de Misión) were signed establishing the rules governing the proceedings and providing for the bifurcation of the proceedings for the purpose of deciding firstly, the jurisdiction matters. YPF lodged its objections against the Arbitration Tribunal's jurisdiction on October 29, 2010 and AESU responded on November 30, 2010, dismissing the objections and affirming the Arbitration Tribunal's jurisdiction. The Tribunal decided that a jurisdiction hearing was not necessary, determining that it is in a position to rule on its jurisdiction in the matter.

Furthermore, on April 6, 2009 YPF registered at the ICC a request for arbitration against AESU, Sulgás and Transportadora de Gas del Mercosur S.A. (“TGM”), seeking an award from the Arbitral Tribunal which states, among other things, that AESU and Sulgás have repudiated and unilaterally and illegally terminated the natural gas export contract entered into in September 1998 and declaring AESU and Sulgás liable for any damages suffered by the parties because of such termination, including but not limited to the damages resulting from the termination of the natural gas transportation contracts associated with the natural gas export contract. A memorandum was signed on October 1, 2010, setting out the claims submitted to arbitration by the parties and the procedural rules governing the arbitration proceedings.

With respect to the termination of the natural gas transportation contracts associated with this natural gas export contract, YPF was notified by the ICC of an arbitration brought by TGM against YPF claiming unpaid and outstanding payments for an approximate amount of US\$10 million (€7 million) plus interests, in connection with the transportation fee established in the natural gas transportation contract entered into in September 1998 between YPF and TGM. YPF has requested the joinder of these two proceedings. On July 10, 2009, TGM increased its claim to US\$17 million (€13 million) and claimed an additional US\$366 million (€274 million) in alleged loss of profits. YPF considers that these claims will be unsuccessful. The relevant Arbitration Tribunal has been set up on June 10, 2010, YPF made its statements before the Tribunal, asking the Tribunal to acknowledge its lack of jurisdiction to rule on the claim. In the event that this motion is rejected, YPF has requested that the Arbitration Tribunal suspend these proceedings until the ongoing arbitration with TGM, AESU and Sulgás is settled. On September 14 and 15, 2010, the Arbitration Tribunal held hearings with both YPF and TGM to establish jurisdiction, a ruling that is pending.

On October 11, 2010, the terms of reference (Acta de misión) were signed establishing the parties' claims and the rules governing the arbitration proceedings and providing for the bifurcation of the proceedings for the purposes of firstly resolving jurisdiction. AESU and TGB filed their objections to the Arbitration Tribunal's jurisdiction on November 22, 2010, which were opposed by YPF, affirming the Arbitration Tribunal's jurisdiction to rule on all the issues posed on December 20, 2010. The Tribunal decided that it was not necessary to hold a hearing, determining that it is in a position to rule on its jurisdiction in the matter.

In addition, there are certain claims concerning payments tied to natural gas transportation contracts associated with exports. In this order, one of the parties involved attempted to mediate with a view to determining the merits of these claims. When this mediation effort finalized without agreement, YPF was notified of the instigation of a claim against it under which Transportadora de Gas del Norte S.A. ("TGN") is seeking contract fulfillment and the cancellation of unpaid invoices, while reserving the right to claim damages. YPF has responded to all these claims. In addition, the plaintiff recently notified YPF the termination of the transportation contract alleging breach by YPF based on its alleged failure to settle the transport service invoices, reserving the right to seek damages. It is YPF's belief that the claims filed against it to date will not have a material adverse effect on its future results.

In addition, in accordance with the developments outlined in the preceding paragraph, on January 8, 2009, YPF also filed a complaint against TGN with the Argentine Natural Gas Regulatory Authority ("ENARGAS"), seeking the termination of the natural gas transportation contract with TGN for the transport of natural gas in connection with the natural gas export contract entered into with AESU and other parties. The request is based on (i) the termination of the referred natural gas export contract and the legal impossibility to assign the transportation contract to other shippers because of certain changes in law in effect since the year 2002; (ii) TGN's legal impossibility to render the transportation service on a firm basis because of certain changes in law in effect since the year 2004; and (iii) the "statutory hardship" exemption available under Argentine law when extraordinary events render a party's obligations excessively burdensome.

Compañía Mega S.A.

Compañía Mega S.A. has also claimed compensation from YPF for failure to deliver natural gas under the relevant contract. YPF invoked that natural gas deliveries to Compañía Mega S.A. pursuant to the contract were affected by decisions made by the Argentine Government.

CNDC investigation

On November 17, 2003, within the framework of an official investigation pursuant to Article 29 of the Antitrust Act, the CNDC issued a request for explanations from a group of approximately 30 natural gas production companies, including YPF, with respect, among other things, to the following items: (i) the inclusion of clauses purportedly restraining trade in natural gas purchase/sale contracts; and (ii) gas imports from Bolivia, in particular (a) an expired contract signed by YPF, when it was state-owned, and YPFB (the Bolivian state-owned oil company), under which YPF allegedly sold Bolivian gas in Argentina at prices below the purchase price and (b) the unsuccessful attempts in 2001 by Duke and Distribuidora de Gas del Centro to import gas into Argentina from Bolivia. In January 2006, YPF received a notification of the CNDC ordering that preliminary proceedings be undertaken. YPF contested the complaint on the basis that no violation of the Act took place and that the charges are barred by the applicable statute of limitations. On January 15, 2007, the CNDC charged YPF and eight other producers with violations of Law 25,156. YPF presented evidence for its defense. In June 2007, without acknowledging any conduct in violation of the Antitrust Act, YPF filed with the CNDC a commitment according to Article 36 of the Antitrust Act in which YPF committed not to include the challenged clauses in future sales contracts of natural gas and requested that the CNDC approve the commitment, suspend the investigation and dismiss the proceedings. YPF is still awaiting a formal response. On December 14, 2007, the CNDC elevated the investigation to the Court of Appeals after YPF filed an appeal against the decision which rejected its statute of limitations defense.

YPF is also currently subject to an antitrust proceeding concerning alleged price discrimination practices in the sale of fuel.

La Plata refinery environmental disputes

Since 1999 several claims have been brought for ecological and environmental damages in relation to La Plata refinery, seeking compensation for both collective and individual damages (health, psychological damages, moral damages, property devaluation), as a consequence of environmental pollution purportedly caused by the operation of such refinery, and the remediation of alleged environmental damages in the west water canal to the refinery. These claims likewise demand the undertaking of various works by YPF, the installation of equipment and technology, and the specific performance by YPF of work necessary to stop any environmental damage. YPF believes that, due to the indemnity provided by Law No. 24,145, YPF shall be allowed to request reimbursement of the expenses for liabilities existing on or prior to January 1, 1991 (before its privatization) from the Argentine Government. To the extent some of these claims partially overlap, YPF believes that they will need to be partially consolidated.

On this point, it should be noted that on January 25, 2010, YPF entered into an agreement with the Provincial Organism for Sustainable Development (OPDS for its initials in Spanish), which reports to the Buenos Aires Provincial Government, under the framework of the Program for Controlling Environmental Remediation, Liabilities and Risk set up by virtue of Ruling No 88/10 issued by the executive body of the OPDS. Under this agreement, the parties agreed to jointly undertake work on the canals surrounding the La Plata Refinery over an eight-year period, work which implies risk analysis and profiling of canal sediment. The agreement stipulates that in the event that the risk analysis implies the need to undertake corrective action, the alternatives and technology to be deployed will be analyzed at that time, establishing the steps required to execute the measures identified. The agreement also contemplates performing an analysis of the formation of the sediment in an attempt to establish liability on the part of the Argentine Government on the basis of its obligations to indemnify YPF S.A. pursuant to article 9 of Law 24,145 of YPF privatization.

Sale of Electricidad Argentina S.A. and Empresa Distribuidora y Comercializadora Norte S.A. to EDF Internacional S.A. ("EDF")

In July 2002, EDF initiated an international arbitration proceeding under the Arbitration Regulations of the International Chamber of Commerce against YPF, among others, seeking damages from YPF under the Stock Purchase Agreement dated March 30, 2001 which entitled EDF to an adjustment in the purchase price due to changes in the exchange rate of the Argentine peso prior to December 31, 2001. The arbitration decision of October 22, 2007 upheld EDF's claim; nonetheless, it also accepted the counterclaim filed by YPF. The amount payable by YPF should the resulting award become final is US\$29 million (€22 million). However, YPF has challenged the award by filing an extraordinary appeal before the Argentine Supreme Court and an appeal before the Argentine Federal Court of Appeals on Commercial Matters. In April 2008, the Argentine Federal Court of Appeals on Commercial Matters suspended the effects of the arbitral award pending its appeal. On December 9, 2009, the Argentine Federal Court of Appeals on Commercial Matters handed down a judgment on the parties' appeals in which it annulled the arbitration decision that condemned YPF to pay compensation for damages to EDF. It likewise annulled the decision which condemned EDF to pay compensation to YPF. On February 8, 2010, YPF was notified that EDF has filed an extraordinary appeal against the aforementioned court's judgment which has been dismissed by Argentina's Supreme Court. EDF filed an appeal against the dismissal, which has also been dismissed, as a result of which the ruling by the Federal Court of Appeals on Commercial Matters is now final.

Elsewhere, YPF has received notification of exequatur proceedings started by EDF in Paris requesting enforcement of the arbitration award in France. Notwithstanding the ruling handed down by the Argentine Supreme Court, a ruling in France enforcing execution of the arbitration award could be enforceable if YPF had any assets in that jurisdiction. In addition, on December 2, 2010, YPF received notification of arbitration award enforcement proceedings in Chile and on December 13, 2010 it received notification of similar enforcement proceedings in Brazil. YPF is in the process of analyzing what steps it will take to have these enforcement proceedings overturned.

Notwithstanding the developments outlined in the preceding paragraph, in light of the fact that the ruling by the Argentine Federal Court of Appeals on Commercial Matters is final, as mentioned earlier, YPF believes that the final outcome of the controversy will not have a material adverse effect on the company.

Northwest basin reserves review

The effectiveness of natural gas export authorizations (related to production in the Northwest basin) granted to YPF pursuant to Resolutions SE Nos. 165/99, 576/99, 629/99 and 168/00, issued by the Secretariat of Energy, is subject to an analysis by the Secretariat of Energy to determine whether sufficient additional natural gas reserves have been discovered or developed by YPF in the Northwest basin. The result of this ongoing review is uncertain and may have an adverse impact upon the execution of the export gas sales agreements related to such export authorizations, and may imply significant costs and liabilities for YPF. YPF has submitted to the Secretariat of Energy documentation in order to allow for the continuation of the authorized exports in accordance with Resolutions SE No. 629/1999, 565/1999, and 576/1999 (the "Export Permits"). These Export Permits relate to the long-term natural gas export contracts with Gas Atacama Generación, Edelnor and Electroandina, which have been amended, as detailed in the section headed "Natural gas market" earlier in this Note, with the effect of rendering supply by YPF 'interruptible'. YPF has not yet received a response from the Argentine Secretariat of Energy. The file is currently awaiting decision from the Argentine Secretariat of Energy. If the Argentine Secretariat of Energy were to determine that the reserves are not sufficient to continue to comply with our export commitments and other commitments, it could declare the expiration or suspension of one or more of the Export Permits, which would have a direct impact on the related export contracts.

On August 11, 2006, YPF received Note SE No. 1009 (the "Note") from the Secretariat of Energy, which reviewed the progress of reserves in the Ramos Area in the Northwest basin, in relation to the export authorization granted by Resolution SE No. 169/97 (the "Export Authorization"). The Export Authorization concerns the long-term natural gas export contract between YPF and Gas Atacama Generación for a maximum daily volume of 530,000 m³/day. The Note stated that as a result of the decrease in natural gas reserves supporting the Export Authorization, the domestic market supply was at risk. The Note preventively provided that the maximum natural gas daily volumes authorized to be exported under the Export Authorization was to be reduced to 20%, affecting the export contract. YPF filed an answer to the Note on September 15, 2006 stating YPF's allegations and defenses. YPF and Gas Atacama have reached an agreement pursuant to which the export contract was substantially amended.

Patagonian Association of Landowners (ASSUPA)

In August 2003, ASSUPA filed suit against several concession holders of the operation and permit holders of the exploration of the Neuquén River Basin, including YPF, requesting that they be ordered to remedy the collective environmental damage supposedly caused and to take the necessary measures to avoid environmental damage in the future. The amount claimed is US\$548 million (€410 million). YPF and the other defendants filed a motion to dismiss for failure of the plaintiff to state a claim upon which relief may be granted. The court granted the motion, and ASSUPA had to file a supplementary complaint. YPF requested that the claim be rejected because the defects of the demand indicated by the Argentine Supreme Court had not been corrected but such request was denied. However, YPF has also requested that the claim be rejected for other reasons, and has impleaded the National Government, due to its obligation to indemnify YPF against any liability and hold YPF harmless for events and claims previous to January 1, 1991, according to Law No. 22,145 and Decree 546/1993. On August 26, 2008, the Argentine Supreme Court ruled that the plaintiff had rectified the defects of the demand. In compliance with a ruling of January 23, 2009 certain Argentine provinces, the Argentine State and the Argentine Federal Council for the Environment were impleaded. The proceeding has been deferred until such third parties appear before court. To date, the provinces of Río Negro, Buenos Aires, Neuquén, Mendoza and the Argentine State have appeared before court, although the company did not have access to the statements made. The provinces of Neuquén and La Pampa both made lack of jurisdiction (excepción de incompetencia) statements which have been opposed by the plaintiff, being currently pending for resolution.

Dock Sud environmental claims

Residents of the Dock Sud area filed environmental claims against multiple respondents (up to 44) including YPF, the National Government, the Province of Buenos Aires, the Autonomous City of Buenos Aires and fourteen municipalities, seeking individual damage to their health and to their property, environmental remediation in the Dock Sud area and the indemnification of the environmental collective damage produced in the Matanza Riachuelo basin. On July 8, 2008, the Argentine Supreme Court decided that the Basin Authority (Law 26,168) will be in charge of performing a remediation plan as well as of taking preventive measures in the area, while the National Government, the Province of Buenos Aires and the Autonomous City of Buenos Aires shall be responsible for ensuring that such actions are taken, and also ruled that the proceedings to determine the liability for actions taken in the past would continue before the Supreme Court of Argentina.

Additionally, another group of residents of the Dock Sud area, have filed two other environmental lawsuits, one of which does not involve YPF, requesting that several companies located in that area, including YPF, the Province of Buenos Aires and several municipalities, remediate and, alternatively, indemnify the collective environmental damage of the Dock Sud area and any individual damage that has been suffered. YPF has the right of indemnity by the Argentine Government for events and claims prior to January 1, 1991, pursuant to Law No. 22,145 and Decree No. 546/1993.

Quilmes environmental claims

Citizens claiming to be residents living near Quilmes, in the province of Buenos Aires, have filed a lawsuit in which they have requested the remediation of environmental damages and the payment of Ps.47 million (€9 million) as compensation for alleged personal damages, plus interest. The plaintiffs base their claim mainly on a fuel leak that occurred in 1988 in a poliduct running from La Plata to Dock Sud. The fuel leakage became perceptible in 2002, resulting in remediation that is now being performed by YPF in the affected area, supervised by the environmental authority of the province of Buenos Aires. YPF has notified the Argentine Government that it will implead the government when YPF answers the complaint in order to request that it indemnify YPF against any liability and hold YPF harmless in connection with this lawsuit, as provided by Law No. 24,145. The Argentine Government has denied any responsibility to indemnify YPF for this matter, and YPF has sued the Argentine Government to obtain a judicial award that annuls this decision. There are 30 other judicial claims that have been brought against YPF based on similar allegations, amounting to approximately Ps.17 million (€3 million).

Note number 245/08 issued by the Under-Secretariat of Mining and Hydrocarbons for the Province of Río Negro

On May 15, 2008, YPF was notified of Resolution 433/08 concerning compliance with certain obligations of YPF as exploitation concessionaire in the hydrocarbon bearing zones of Barranca de los Loros, Bajo del Piche, El Medanito and Los Caldenes, all located in Río Negro Province. This resolution asserts that YPF, among others, in its capacity as a concessionaire, are liable for failing to meet certain concession and environmental obligations. If found liable, YPF could be at risk of termination of these concession contracts. In light of the above, and consistent with provisions of the Hydrocarbons Law, YPF was requested to submit a response. YPF submitted the documentation requested of it in December 2009.

Since the Hydrocarbons Law grants the concessionaire the right, prior to the declaration of termination of the concession, to cure any breach of the concession obligations within a certain period of time after receiving notice thereof, on May 29, 2008, YPF filed a request for nullification of Resolution 433/08 ("MP"), since this resolution failed to grant YPF such right. Additionally, YPF submitted a response denying the charges against it and on November 12, 2008, the Ministry of Production ordered the initiation of the evidence production period. On November 28, 2008, YPF filed a writ requesting the production of certain evidence and the appointment of YPF's technical expert. YPF has challenged certain aspects related to the production of evidence. On December 1, 2009, the relevant informative evidence was presented, while certain issues related to the evidence raised by YPF are still pending resolution. Lastly, on September 16, 2010, termination of this suit was requested based on: (a) the amounts invested to comply with concession obligations between 2007 and 2010; and (b) the efforts made with respect to environmental obligations.

Claim filed against Repsol YPF and YPF by the Union of Consumers and Users

The plaintiff claims the reimbursement of all the amounts allegedly charged in excess of the consumers of bottled LPG in the 1993-2001 period, corresponding to a surcharge for the aforementioned product. With respect to the period from 1993 to 1997, the claim is based on the fine imposed on YPF by the Secretariat of Industry and Commerce through its resolution of March 19, 1999. It should be noted that Repsol YPF has never participated in the LGP market in Argentina and that the fine for abusing a dominant position was imposed on YPF. In addition, YPF has alleged that charges are barred by the applicable statute of limitations. Hearings have commenced and are in process. The claim amounts to Ps.91 million (€17 million) for the 1993-1997 period. Adding interests, this amount would increase to Ps.321 million (€61 million), to which the amount corresponding to the 1997-2001 period should be added, as well as accrued interest and expenses.

Ecuador

On June 9, 2008 the companies comprising the Block 16 consortium, including Repsol YPF Ecuador S.A., the operator of the block, brought four claims before the International Center for Settlement of Investment Disputes (ICSID) against Empresa Estatal Petróleos del Ecuador (PetroEcuador) in connection, inter alia, with controversies regarding the applicability of certain adjustments to the participation calculation. On August 20, 2008, a settlement agreement was reached and an "Acta de Compensación de Cuentas" was signed by PetroEcuador and Repsol YPF Ecuador S.A., whereby reciprocal outstanding credits and outstanding oil barrels debts for Block 16 and for Campo Unificado Bogi-Capirón were offset. By means of the execution of the "Acta de Compensación de Cuentas," three of the four claims brought before the ICSID were settled.

The remaining claim, concerning Law 2006-42, relates to the application of the new minimum tax of 50% on extraordinary profits. Notwithstanding the international arbitration process and the injunction requests brought by Repsol YPF Ecuador S.A., the Government of Ecuador brought forward a coercive process, instigated by PetroEcuador, demanding payment in respect of extraordinary profits generated between April 2006 and March 2008, in an amount of US\$591 million (€442 million), which were paid under protest. On March 12, 2009, following a negotiation process, a Disbursement Agreement ("Convenio de Desembolsos") was executed in respect of extraordinary profits generated between April 2008 and December 2008. This Disbursement Agreement was implemented without relinquishing the arbitration process and under the condition that, if such payments are reduced, voided or declared inadmissible by a decision of a court, arbitration tribunal or otherwise, or, alternatively, if Repsol YPF Ecuador S.A.'s right to an indemnification is recognized, Repsol YPF Ecuador S.A. will be able to cease disbursements of pending amounts under Law 2006-42. The signing of the Disbursement Agreement suspended the coercive process.

In accordance with the payment schedule set forth in the Disbursement Agreement, Repsol YPF Ecuador S.A. has paid US\$142 million (€106 million).

Pursuant to a resolution of the ICSID Arbitration Tribunal dated June 17, 2009, in effect through March 12, 2010, neither the Ecuadorian Government nor PetroEcuador or any other public entity of the Republic of Ecuador, may, by itself or through its officers or employees, take any action against or in relation with the claimants which seeks to seize or garnish Repsol YPF Ecuador S.A.'s assets, or which may result in suspending or materially affecting the activities of the claimants, unless they provide the claimants and the ICSID Arbitration Tribunal with a written notice of their intentions at least six business days in advance of taking such action. On May 7, 2010, the Tribunal agreed to extend effectiveness of the above injunction to March 11, 2011. In September 2010, the Republic of Ecuador filed its memorial response.

Having negotiated and entered into a new Services Agreement with the Ecuadorian Government, which substitutes the former Participation Agreement, Repsol must abandon the ongoing arbitration proceeds, as agreed initially with the Ecuadorian Government (Note 2). The ICSID Arbitration Tribunal, by means of a ruling issued on February 9, 2011, accepted the joint application to terminate the arbitration proceedings, effectively putting an end to the process.

Until March 2009, Repsol YPF's interest in the Block 16 consortium was 35%; as from that date, Repsol YPF holds, directly and indirectly, a 55% interest in the consortium.

Brazil

The Group is party to administrative claims instigated by the Brazilian authorities concerning the importation and circulation of industrial equipment for the exploration and production of hydrocarbons in fields that are not operated by the Repsol Group. The amount of such claims that could be allocated to the Repsol Group on account of its investments in non-operating consortia would total €342 million.

Trinidad and Tobago

On September 1, 2008, BP America Production Company initiated arbitration proceedings in New York against Repsol YPF under the UNCITRAL Rules, in connection with Repsol YPF's alleged obligation to share the extraordinary income derived from the shipping of certain LNG cargoes of Atlantic LNG 2/3 Company of Trinidad and Tobago Unlimited's trains 2 and 3, under the Supplemental Agreement entered into. The arbitration proceeding was divided into two phases, each of which addressed the interpretation of the Supplemental Agreement and the economic consequences resulting from its application, respectively. On November 17, 2009, the arbitration tribunal validated BP's interpretation of the Supplemental Agreement. On June 7, 2010, Repsol YPF and BP executed a Settlement Agreement to finally settle the case.

Spain

CNC Resolution of June 30, 2009

On July 30, 2009, the CNC Board passed a resolution holding RCPP, BP, and CEPSA liable for violating Article 1 of the LCD and Article 81 of the EC Treaty (current article 101 of the TFEU). The violation consisted of the indirect fixing of fuel prices in their respective gasoline stations. The resolution further imposed a fine of €5 million on RCPP. On October 27, 2009, RCPP filed an administrative appeal with the Sixth Section of the Contentious-Administrative Chamber of the Spanish National Court of Justice against the CNC resolution of July 30, 2009; this appeal was officially lodged on December 29, 2010. The Spanish National Court of Justice has agreed to an injunction against the monetary sanction. In addition, and on a parallel basis, the special claim for jurisdictional protection of fundamental rights was officially lodged before the Administrative Appeals Court of the National Court of Justice.

Algeria

Gas Natural Fenosa v. Sonatrach (Gas supply contract litigation)

Gas Natural Fenosa and Sonatrach were engaged in a dispute over the price review for the gas supply contracts received from Algeria through the Maghreb-Europe pipeline. The final arbitration ruling notified in August 2010 provides for a price increase from 2007 onwards. The maximum retroactive effects invoiced by Sonatrach to Gas Natural Fenosa would amount to \$1,970 million (€444 million pro rata for the Group's shareholding in Gas Natural Fenosa). Gas Natural Fenosa has challenged the arbitration ruling before the Swiss Federal Court and has requested opening the price review process of the above contracts to take into account the profound changes that have taken place, as well as the current situation of the world markets, particularly in Spain, as contemplated by the contracts.

In November 2010, the Swiss Federal Court granted a stay against the original ruling, which has the effect of suspending it until the Court rules on the motion presented by Gas Natural Fenosa.

Gas Natural Fenosa and Sonatrach are in talks to review the prices stipulated in these contracts which are expected to result in a positive outcome and the definitive end to the controversy between the two parties. In the event that none of the actions being taken by Gas Natural Fenosa to mitigate the impact of the aforementioned ruling prosper, a portion of the price increases would be passed on to certain customers in accordance with the contractual terms of their agreements.

35

Environmental information

Management of safety and the environment is based on a management system which comprises an extensive body of standards, procedures, technical guides, and management tools that are continually being updated to adapt to the best practices of the sector. We strive for ISO 14001 certification of our installations in order to promote continuous improvement and obtain external validation of our management systems.

A key element in the Repsol YPF Environmental Management System worth highlighting is the annual setting of environmental objectives approved by the executive committee within the framework of the strategic environmental guidelines of the Company. The strategic guidelines take into account critical areas for environmental protection, leadership in management, improvement in management, risk control, and the minimization of the environmental impact of activities and products. They further serve to prepare the action plans for each business, and include the measures required to improve and respond to new legislative requirements, Repsol YPF's strategic focus, plans for corrective measures arising from environmental audits performed, etc., together with the investments and expenses required to implement all these measures, which were addressed in the Company's general budget.

The criteria used to measure environmental costs are established in the "Repsol YPF Environmental Costs Guide", which adapts the American Petroleum Institute guidelines to the Group's operations and technical approach. It is important to note in this regard that the traditional "bottom-line" solutions for reducing environmental impact are gradually giving way to preventive measures built into processes right from the time the facilities are designed. This sometimes requires the identification of environmental assets through a system of coefficients applied to investment projects and the related property, plant and equipment, per the guidelines expressed in the aforementioned Guide.

35.1

Environmental Assets

The breakdown of the cost of the environmental assets identified and the related accumulated depreciation at December 31, 2010 and 2009 is as follows:

	2010			2009		
	Cost	Accumulated Depreciation	Net	Cost	Accumulated Depreciation	Net
Atmospheric emissions	490	247	243	431	224	207
Water	698	459	239	698	374	324
Product quality	1,418	770	648	1,380	685	695
Soil	295	131	164	281	89	192
Energy saving and efficiency	550	179	371	467	155	312
Waste	55	25	30	49	17	32
Other	483	350	133	487	301	186
	3,989	2,161	1,828	3,793	1,845	1,948

The cost includes €264 million of assets under construction at December 31, 2010 and €284 million at December 31, 2009.

Among the main environmental investments made in 2010 it is worth highlighting the capital expenditure earmarked for optimizing water consumption, reducing landfill waste pollution, improving environmental quality of petroleum products, minimizing emissions, increasing energy efficiency, and upgrading waste spill prevention systems. It is also worth noting the following singular projects: the continuing project for improving fuel quality at La Coruña

refinery (Spain), with an environmental investment of €26 million; the project for improving the water treatment plant of the Petronor refinery, with an investment of €7 million; and the project for improving fuel quality at La Pampilla refinery (Peru), with an environmental investment of €4 million.

The main environmental investments carried out in 2009 were focused on the same areas as in 2010. Nevertheless, it is worth underscoring the ongoing work on the logistics project of the biofuel supply initiative in Argentina, with an environmental investment of €11 million; the project for raising fuel quality at the La Coruña refinery (Spain), with an environmental investment of €11 million; and additional work on upgrading the environmental performance of petrol and diesel products at the Cartagena refinery (Spain), with an environmental investment of €6 million.

In 2009 it is also worth noting the work performed at the Puertollano refinery (Spain) on upgrading the rainwater collection system, which gave rise to the capitalization of €13 million of environmental assets.

35.2

Environmental Provisions

Repsol YPF recognizes the provisions required to cover the measures aimed at preventing and repairing environmental impact. These provisions are estimated on the basis of technical and economic criteria and are classified under "Environmental Provisions" (Note 17).

The changes in the environmental provisions in 2010 and 2009 were as follows:

	Millions of euros	
	2010	2009
Opening balance	221	237
Period provisions charged to income	75	70
Provisions released with a credit to income	(3)	(2)
Payment	(50)	(70)
Reversals and other	10	(14)
Closing balance	254	221

Additionally, Repsol YPF's Environmental Cost Guide classifies as environmental provisions 75% of the amounts recognized under the caption "Provision for Field Dismantling Costs", totaling €1,075 million and €854 million at December 31, 2010 and 2009, respectively (Note 17).

The most notable item in the balance of environmental provisions at December 31, 2010, included approximately €102 million to cover the environmental risks relating to the operations carried out in the past by the former chemicals subsidiary of Maxus Energy Corporation, Diamond Shamrock Chemicals Company, prior to its sale in 1986 to Occidental Petroleum Corporation (Note 34).

Subject to the relevant terms and conditions, corporate insurance policies cover civil responsibilities for pollution on land and at sea, and for certain countries and activities, administrative responsibilities for pollution on land, all provoked by accidental and sudden events, in line with habitual industry practices and applicable legislation.

35.3

Environmental Expenses

In 2010 and 2009 environmental expenses amounted to €356 million and €347 million respectively, classified as "Supplies" and "Other operating expenses."

These expenses include €177 million of expense for the rights necessary to cover CO₂ emissions during 2010 (although according to Note 35.5 below, CO₂ emissions, the effect in the income statement in relation with this item amounted to a net expense of €5 million in 2010). Environ-

mental expenses in 2010 and 2009 also include: other measures for atmospheric protection amounting to €27 million and €22 million respectively; soil remediation and field dismantling costs remediation amounting to €46 million and €30 million, respectively; waste management amounting to €33 million and €32 million, respectively; and water management amounting to €21 million and €20 million, respectively.

35.4

Planned Initiatives

Among the most relevant issues which could affect Repsol YPF operations and investments in the future, the most noteworthy are related to climate change and energy, integrated pollution prevention and control, environmental responsibility, water quality, as well as waste.

On climate change and energy matters, in April 2009, the European Union approved a package of Directives with the targets set for 2020 in relation to: (i) the reduction of global greenhouse gas emissions over 1990 levels by at least 20%, (ii) boosting the use of renewable energy sources to account for 20% of total output, and (iii) a 20% reduction in energy consumption via enhanced energy efficiency.

- Directive 2009/28/EC on the promotion of the use of energy from renewable sources, sets a target of 20% for the overall share of energy from renewable sources and a 10% target for energy from renewable sources in transport for 2020 in respect of 2005 levels. This Directive further sets the sustainability criteria to be met by biofuels in order to guarantee a minimum contribution to reducing carbon emissions relative to the use of petrol and diesel.

Each State member must adopt a national action plan on renewable energy that lays down national targets and the appropriate measures to be taken to ensure delivery of these targets.

- Directive 2009/29/EC amending Directive 2003/87/EC so as to improve and extend the greenhouse gas emission allowance trading scheme of the Community, sets the target of cutting the overall greenhouse gas emissions of the Community by at least 20% below 1990 levels by 2020. The reduction of allowances within the trading scheme implies a reduction of 21% on 2005 levels. This reduction is to be achieved on a straight-line annual basis, resulting in an annual reduction in emission allowances of 1.74%.

Auctions are designated as the primary means of allocating emission allowances. Fifty per-cent of state revenues generated from allowance auctions should be used, among others, for contributions to the Adaptation Fund put in practice at the XIV Conference of Parties (COP 14) celebrated in Poznan, to fund R&D, for the development of renewable energies and for the capture and geological storage of greenhouse gases. Sectors with particularly high exposure to international competition (refining and chemicals) shall benefit from a free allowance allocation based on sector benchmarking. The installations of sectors and sub-sectors exposed to carbon dioxide leaks will receive a 100% free allowance allocation.

- Directive 2009/30/EC as regards the petrol, diesel and gas-oil specifications and introducing a mechanism to monitor and reduce greenhouse gas emissions, which is aimed at controlling, documenting and reducing fuel life greenhouse gas emissions.

The Directive sets fuel performance technical specifications for road vehicles, non-road mobile machinery, agricultural and forestry tractors, and recreational craft when not at sea, as well as a target for the reduction of life cycle greenhouse gas emissions.

Under the Directive, suppliers are obliged to report each year on the intensity of greenhouse gas emissions of the fuels and energy supplied. Member states shall require suppliers to reduce life cycle greenhouse gas emissions per unit of energy from fuel and energy supplied by up to 10 % by December 31, 2020. This reduction shall consist of a 6% reduction by means of biofuels, an indicative additional target of 2% via the capture and geological storage of CO₂ and electric vehicles and an additional indicative target of 2% via Clean Development Mechanism CERs.

- Directive 2009/31/EC on the geological storage of carbon dioxide establishes the legal framework governing the environmentally safe geological storage of CO₂ (permanent confinement that is risk-free for the environment and human health) in a bid to contribute to the fight against climate change. This directive lays down requirements on storage site selection, storage and operating permits and on closure and post-closure obligations.

Spain has begun to transpose the requirements laid down in Directive 2009/29/EC in Law 5/2009, which sets reporting requirements for sectors forming part of the greenhouse gas allowance trading scheme.

The new legislation includes additional information regarding the review of the Community allowance trading scheme, stipulating that owners of facilities that engage in the activities listed in the appendix to the legislative text and which are not subject to the 2008-2012 allowance trading scheme present, by April 30, 2010, emission figures for 2007 and 2008 before the competent regional authorities.

Moreover, Order PRE/2827/2009, which amends the sector allocations made under the 2008-2012 National Greenhouse Gas Allowance Allocation Plan, modified the allocations to the various activities subject to the allowance trading scheme, reducing the amount allocated to the Newcomers Reserve to 6.058 million tons of CO₂.

In addition, in 2010 European Union legislation on Large Combustion Facilities was updated, refunding the Directive on Integrated Pollution Prevention and Control (IPPC), other existing directives were revised, and the Directive 2010/75/EC on Industrial Emissions was approved. This last directive addresses, among other issues, new and more demanding emission limits as well as reinforcing the process for determining and applying the best available techniques (BAT).

With respect to environmental responsibility, a draft Ministerial Order was presented in Spain on the requirement of financial guarantees and the order of priority in which all industrial activities are considered.

Regarding water quality, a draft Royal Decree on environmental quality standards was presented in Spain, the purpose of which is to transpose the content of Directive 2008/105/EC. In more detail, the Royal Decree establishes environmental quality standards (EQS) for priority substances and other pollutants with the objective of achieving good surface water chemical status. It also incorporates the technical requirements for chemical analysis established in Directive 2009/90/EC, in other words, the minimum criteria for analytical methods that must be applied to monitor water status, sediment and living organisms, as well as rules for demonstrating the quality of analytical results.

A new law on waste is expected to be approved in Spain shortly, annulling Law 10/1998 of April 21 on waste. The draft law transposes the EU Directive on Waste approved in 2008. The objective is to update current prevailing legislation, orient policy on waste in accordance with the principle of hierarchy, and guarantee protection of human health and the environment, maximizing use of resources and minimizing the impact of waste production and management. This law is also intended to regulate the legal regime over polluted soils.

The most noteworthy of the main novelties with respect to Law 10/1998 are the following: the introduction of specific sections dedicated to sub-products and to the concept of end of useful life of waste; the creation of a coordinating Commission to function as a body for technical cooperation and collaboration amongst the different administrations for matters related to waste; and introduction of the concept of producer responsibility, whereby the producer must accept the return of reusable products, the delivery of waste generated after use of the product, and its corresponding management.

35.5

CO₂ Emissions

During 2010 and 2009 the companies comprising the consolidation scope recognized emission allowances allocated free of charge under the Spanish national allocation plan equivalent to 16.4 and 15.9 million tons of CO₂ respectively, measured at €216 and €246 million. The same allocation plan stipulates allocation of 2011 allowances equivalent to 16.7 million tons of CO₂.

In 2010 there was no depreciation in the value of emission rights, in contrast to 2009 which saw the recognition of a €50 million provision, almost entirely offset by revenue from deferred income recognized in the income statement in relation to emission allowances received for no consideration.

The net results for 2010 with respect to management of CO₂ amounted to an expense of €5 million, while in 2009 a profit of €35 million was recognized.

The Repsol YPF installations included in the European allowance trading scheme are entitled to levels of gratuitous CO₂ emissions that are being reduced over time. In order to minimize the cost of meeting these declining allocations in the future, the Company has committed to a series of investments for the acquisition of Clean Development Mechanism (CDM) and Joint Implementation (JI) credits through carbon funds (the Spanish Carbon Fund managed by the World Bank and the Greenhouse Gas Credit Aggregation Pool managed by Natsource). Future trading in CDM and JI credits through carbon funds presents an opportunity to avail of low cost credits for future compliance purposes.

Repsol YPF's commitments resulted in the acquisition of credits in 2010. Including these purchases, investment commitments at year end 2009 amounted to €52 million.

36

Fees paid to the auditors

In 2010, the fees earned by Deloitte for the audit services provided to Repsol YPF, S.A. and the Group companies amounted to €8.1 million. Additionally, the fees earned by the auditors and their organization for audit-related services and other services amounted to €0.8 million.

The sum of these amounts does not represent more than 10% of the total volume of business of the auditors and their organization.

37

Subsequent events

On February 22, 2011 the Group formally requested delisting of their American Depositary Shares (ADSs) from the New York Stock Exchange (NYSE). In these sense, it is estimated that the last trading day for the ADSs on the NYSE will be on March 4, 2011.

On February 8, 2011, the 100% of Repsol International Capital's (RIC) preference shares traded on the NYSE were redeemed. The securities were redeemed at US\$25.00 per preference share plus the amount for undistributed accrued dividends from December 31, 2010 up to the redemption date, which amounted to US\$0.20 per preferential share.

(1) Data corresponding to this company has been incorporated via full consolidation into the Parent Company. The Parent Company is integrated proportionally into the Repsol YPF Group.

(2) Consolidation Method:
 F.C.: Full Consolidation
 P.I.: Proportionate Integration
 E.M.: Equity Method

(3) Percentage corresponding to the Parent Company's ownership in the subsidiary company.

(4) Changes of balance sheet epigraphs generated by this variation are exposed in the "Reclasification and others" note of the movements presented in different notes.

General and economic-financial information

Macroeconomic environment

This year, 2010, has marked the beginning of global economic recovery after the crisis of 2008-2009, already known as the *Great Recession*. The world economy has grown 5.0% during 2010 and forecasts estimate 4.4% growth during 2011. However, the global economy is still facing the consequences of the crisis and this recovery process is not free of risks and weaknesses.

After a first half of the year during which the pace of recovery was stronger than expected - thanks to the upward trend in inventories and fixed investments, which led to a strong increase in international trade - the tendency in the following stage was more moderate growth.

This moderation began to be noticeable in the second half of the year, with slower industrial production and global exports, despite a higher-than-expected consumer spending in Japan and the United States, fostered by the incentive programmes introduced by both economies, which maintained economic growth in the period above the forecast rates.

The different speeds of recovery seen in each region during both the crisis and the recovery process as a whole became consolidated this year. The most advanced economies have grown 3.0% in 2010 and estimates for 2011 are in the region of 2.5%, while emerging economies grew 7.1% and are expected to grow about 6.5% in 2011. Similarly, in late 2010, the industrial activity in some emerging economies was above the activity levels recorded before the crisis, while a large number of advanced economies had not yet regained their record levels.

This uneven progress has posed different challenges in terms of economic policies. Although in advanced economies private consumer spending has become steadier, the moderate economic growth may not be enough to tackle the high unemployment rate. These countries still have to deal with the excesses of the period before the crisis by reforming their financial systems and, in the most indebted economies in the Eurozone, they must also face the challenge of fiscal sustainability.

At the same time, many developing economies have already recovered their economic activity levels and, in some cases, they are not far from achieving full employment. Their favourable evolution has led them to receive strong capital input which, in addition to the prosperous economy, have caused the onset of inflationary pressure and even symptoms of overheating. For this reason, some of these economies have partially withdrawn the incentive measures they had introduced to face the crisis.

Regarding the main economies, the United States achieved 2.9% growth, managing to avoid the feared double dip. However, the rebound in activity towards late 2009 and early 2010 was supported mainly by transitory factors, such as public aid and an expansive inventory cycle.

By mid-year the economy suffered a slowdown that was noticed in a new growth of the unemployment rate and a steep fall-off in property sales, increasing the fear of a new recession. The American authorities reacted by announcing new expansive monetary and tax policies. These were, on the one hand, a programme to buy up public debt announced by the Federal Reserve, known as "Quantitative Easing 2", and on the other, an agreement between the two main parties to extend tax exemptions for the next two years, equivalent to US\$ 800 billion. These measures managed to accelerate growth towards the end of 2010. However, significant weaknesses still remain, mostly connected to the property market and high unemployment.

Global reactivation also reached the Eurozone, which finished 2010 with a 1.8% growth, while estimates for 2011 are around 1.5%. The German economy is still the driving force behind the region's economic recovery, which is still weak due to the tensions in the peripheral Eurozone countries and the high levels of unemployment.

Throughout 2010, international financial stability was affected by doubts regarding the sustainability of the public accounts of some of the region's countries, especially Greece and Ireland.

The fear that these countries could not meet their sovereign debt obligations and the effect this would have on the single currency led to the creation of the European Financial Stability Mechanism and the approval of financial aid for those countries. The persistent risk that the crisis could spread to other economies in the Eurozone led the European Central Bank to extend its expansive monetary policy.

Despite these measures, doubts about the sustainability of public debt in several countries and about the cost of restructuring their debt could involve for bondholders have kept interest rate differential of these countries' debt high compared to German debt.

For its part, Spain's Gross Domestic Product (GDP) dropped 0.1% in 2010, although positive quarterly growth rates indicate that economic recovery is beginning, albeit slowly.

During the first half of the year, private consumer spending showed some improvement, mostly linked to transitory measures. However, the persistence of high unemployment rates and the lack of credit have kept domestic demand at a low level, thus dragging down the whole economy.

The foreign sector was the main source of movement this year. The gradual recovery of Spain's main trade partners boosted the export sector, avoiding a more marked setback in activity and employment.

What happened in Greece and Ireland had a major impact on market perception of Spanish public debt, causing a sharp rise in the country risk and making access to finance expensive for both the public and private sectors.

Doubts about the capacity of the Spanish economy to go back to positive growth rates, along with the steep increase in public deficit registered in 2009 (-11.1% of GDP) forced the Government to implement measures to cut public deficit and to carry out structural reforms in order to provide the maximum credibility for the fiscal consolidation path.

Untouched by these trends, Latin America, in general terms, is experiencing strong, fast economic recovery thanks to the rebound in commodity prices and to relatively favourable financing conditions. The region's GDP has grown 5.9% in 2010, which is expected to be moderated to 4.3% in 2011.

This positive trend is reflected in risk premiums which, for some Latin American economies, are currently lower than those demanded from developed economies. However, some of the main economies in the region are receiving strong capital input, which they should handle with careful macroeconomic management.

The growth in the Asia-Pacific region has already gone back to the rhythm it had before the crisis and the solidity in growth stands out compared to the weaknesses of more advanced economies. The emerging Asian economies, with China at the forefront, have grown 9.3% in 2010, and are expected to reach 8.4% in 2011.

Towards the end of the year, and especially after the Federal Reserve's decision to inject more dollars into the American economy, a return of inflationary pressure in countries such as China, South Korea, India, Australia and New Zealand, has led their governments to raise interest rates and adopt more restrictive monetary policies.

Recovery of global oil demand

The behaviour of the oil market during 2010 was characterised by a recovery of supply and demand fundamentals and, as a consequence, of prices, which were significantly influenced by the global economic-financial context.

Regarding the fundamentals, 2010 marked a change with respect to the two previous years, when consumption shrunk by about 1.5 million barrels. On the contrary, this year saw an increase in global oil demand in excess of two million barrels per day, according to official international energy agencies.

The main drivers behind this growth in demand were China, the United States and the rest of those countries that do not belong to the Organization for the Economic Cooperation and Development (OECD), of which China and the United States accounted for almost half of the global demand growth in 2010.

During 2010, there still was a certain excess supply on the market as a direct consequence of two factors. The first being the policy applied by the Organization of Petroleum Exporting Countries (OPEC), which led to production levels of about 2 million barrels per day, well above

their agreed quotas. The second factor was the high inventory levels carried over from 2009, despite their gradual reduction during 2010.

Regarding the price of oil, it was highly volatile during the year, with an average of about US\$ 80 per barrel (79.6 in the case of West Texas Intermediate oil), an increase of about 29% compared to 2009 or a price increase of nearly US\$ 18 per barrel.

The upward trend in prices was more noticeable in the second half of the year, highly influenced by macroeconomic and financial factors. In this sense, the monetary easing adopted by the United States in the second half of 2010 through quantitative expansion measures, which generated a capital flow towards high yielding assets (commodities and oil), which contributed to oil price increases.

The Group's activities

The Group's activities are divided into five business areas which correspond to the main divisions in its organizational structure:

- Three strategic integrated activities, including the operations undertaken by the Group's companies (except YPF and Gas Natural Fenosa) in the following areas:
 - Upstream, relating to the exploration and production of oil and natural gas;
 - LNG, relating to the midstream operations (liquefaction, transport and regasification) of natural gas and to marketing operations for natural gas and liquefied natural gas; and
 - Downstream, corresponding to refining and marketing activities involving oil products, chemicals, and liquefied petroleum gas.
- Two holdings in strategic companies:
 - YPF, which includes YPF S.A. and its Group operations in all of the aforementioned activities; as of 31 December 2010, the Group owned 79.81% of YPF, S.A., that is included in the Group's financial statements through full consolidation; and
 - Gas Natural Fenosa, which mainly engages in natural gas marketing and the generation, distribution, and marketing of electricity; as of 31 December 2010, the Group owned 30.13% of Gas Natural Fenosa, which is included through proportional consolidation.

Horizon 2014 Plan

In 2010 the company presented the Horizon 2014 Plan to the markets, which establishes the Group's priorities for the 2010-2014 period. The remarkable success in explorations during 2008 and 2009, and the changes in the sector brought about by the financial crisis, led to the Group updating its objectives and bases, which will enable it to tackle the next growth stage.

The main strategic lines guiding each business are:

- Upstream: the company's driver of growth.
 - Repsol's presence in geographical areas with a high exploration potential and its recognised ability for deepwater exploration has transformed the company into one of the energy companies with the best growth prospects.
 - The investment strategy will be based on a solid portfolio of strategic projects: the exploitation of those already in operation and making progress on those projects in the delineation or development phase. Additionally, the company will continue to pursue its commitment for organic growth and for exploration activities in new areas of interest for the Group.
 - The development of these projects will increase the annual oil production in the Upstream area by between 3 and 4% until 2014, and even further up to 2019, with an estimated reserve replacement rate in excess of 110% for the next five years.
- Downstream: optimising and improving profitability
 - The projects to enlarge and improve the Bilbao and Cartagena refineries are already at a very advanced stage, and commercial operations are expected to start in late 2011. The start-up of these plants will increase exploitation margins and consolidate the company's integrated position and its position as leader in this business in Spain.

- From 2012 onwards, the excellent position developed by Repsol's Downstream business will allow the company to capitalise on the economic recovery, thereby obtaining solid cashflow generation for the Group.
- YPF: capturing the company's hidden value
 - YPF is a leading company in Argentina, a growing market that offers plenty of business opportunities. The energy transition that is taking place in the country towards international prices and the strict management of investments and costs will allow the company to reach the growth goal in results and dividends.
- Gas Natural Fenosa: a leader in the gas and electricity convergence industries.
 - Creation of a leading integrated gas and electricity company that will ensure steady cashflow generation for the Group.

The keys for generating value in the various businesses and strict financial discipline will enable the Group to reach the Plan's ultimate goal: maximising the value created for the stockholder.

In 2010, the Horizon 2014 Plan has benefited from investments of €5,106 million to help it achieve this goal. The main initiatives during the financial year were delineating the largest exploratory discoveries (in countries like Brazil and Venezuela); the progress made in the building phase of refining projects for Spain (Cartagena and Bilbao); the start-up of major projects such as Peru LNG; and the efficient operation of Repsol's earning assets (Shenzi in the Gulf of Mexico, I/R in Libya, Trinidad and Tobago, Bolivia and Canaport in Canada).

The latest discoveries made in West Africa and Latin America and the acquisition of new mining rights in Latin America, Norway, Oman, Algeria, Indonesia and Angola have laid the foundations for generating future growth.

Moreover, the Group's affiliate companies made progress in their respective strategic lines during 2010:

- YPF which, bolstered by the recovery of prices in Argentina, is focusing on the exploitation of mature fields (mainly through the improvement of the recovery factor) and making advances in marketing management and operational optimisation,
- Gas Natural Fenosa defined their new strategic framework for the upcoming years, after the acquisition and integration of Fenosa.

Results

The Group's results for 2010 and 2009 are as follows:

	Millions of euros	
	2010	2009
Operating income	7,621	3,244
Upstream	4,113	781
LNG	105	(61)
Downstream	1,304	1,022
YPF	1,453	1,021
Gas Natural Fenosa	881	748
Corporate, adjustments and others	(235)	(267)
Financial result	(1,008)	(468)
Net income before tax and share of results of companies accounted for using the equity method	6,613	2,776
Income tax	(1,742)	(1,130)
Share of results of companies accounted for using the equity method	76	86
Net income for the year from discontinued operations	0	12
Consolidated net income for the year	4,947	1,744
Net Income attributable to minority interests	(254)	(185)
Net income attributable to the parent	4,693	1,559

Repsol YPF's net income for 2010 was €4,693 million, more than three times the result obtained in the previous year (€1,559 million). Operating income was €7,621 million, up 134.9% from the €3,244 million posted a year earlier. EBITDA was €9,196 million, 36.3% more than in 2009. Earnings per share were €3.84.

The results in 2010 show an improvement in every business area and, in large part due to the agreement with China Petroleum & Chemical Corporation (Sinopec), achieve a record result for the Group.

This agreement is one of the highlights of the year. In December 2010, Repsol and Sinopec signed a strategic agreement to develop joint exploration and production projects in Brazil, and to this end formalised a capital increase for Repsol Brasil, S.A. ("Repsol Brasil", which in February 2011 changed its name to Repsol Sinopec Brasil S.A., "Repsol Sinopec Brasil") fully subscribed by Sinopec, for an amount of US\$ 7,111 million (€5,389 million). With this operation, Repsol has maintained its 60% stockholding in Repsol Sinopec Brasil, while Sinopec holds the remaining 40%. The agreement ensures financing for the development of the discoveries in Brazil, in particular Guar, Carioca and Panoramix, as well as their exploitation, reflecting an estimated market value of these assets of over US\$10.6 billion.

The operating income for the Upstream area (Exploration and Production) jumped 426.6% from €781 million in 2009 to €4,113 million by 31 December 2010. The result for 2010 includes €2,847 million capital gains, resulting from the agreement between Repsol and Sinopec. Leaving these capital gains aside, the result for the Upstream area in 2010 is still higher than that of 2009, basically as a result of higher oil and gas resolution prices, and increased production in this period.

The Liquefied Natural Gas (LNG) business posted profits of €105 million in 2010, thanks to larger LNG trading margins and volumes than in 2009, a year in which this area's operating performance was negative, with a recorded loss of €61 million (a figure that includes the losses stemming from arbitration decisions such as the Gassi Touil dispute).

Operating income in the Downstream division (Refining, Marketing, Liquefied Petroleum Gas, Chemicals and Trading) was €1,304 million compared to €1,022 million in the previous year, implying a 27.6% increase. The operating income considering the inventories at the current

cost of supplies (CCS), instead of at the average cost, was €806 million, 23.1% higher than the €655 million obtained in 2009, mainly due to the recovery of the chemical business and the improved results in refining.

Regarding YPF, it finished 2010 with a €1,453 million operating income, a 42.3% increase compared with €1,021 million in 2009. This increase is a result of bringing fuel prices in service stations closer to the international parity in dollars, and of the higher income from those products whose prices, despite being sold in Argentina's internal market, are linked to international prices, as well as the effect of the higher income stemming from exports.

Repsol's 30% stake in Gas Natural Fenosa generated an operating income of €881 million, 17.8% higher than the previous year, mainly due to the incorporation of 100% of Unión Fenosa from 30 April 2009, and the capital gains obtained in the subsequent divestment process.

The consolidated Group recorded a net financial result of minus €1,008 million in 2010 in comparison with minus €468 million a year earlier. The difference is mainly due to the increase in expenses for investments under a financial leasing arrangement (pipelines and gas tankers) and to the differences in exchange rates, which in 2009 yielded considerable profits due to the depreciation of the dollar against the euro, while in 2010 the dollar regained value in relation to the euro, thus having a negative impact on the financial result through positions with an exchange rate risk.

The Corporate Income Tax accrued was €1,742 million, with an effective tax rate of 26.3% (40.7% in 2009). This unusually low rate is a consequence of the unusual transactions carried out during the year (agreement with Sinopec, sale of Refap and CLH, etc.).

Financial overview

At year-end 2010, Repsol YPF holds a solid financial position.

The Group's net financial debt excluding Gas Natural Fenosa, in other words, without taking into account the proportional integration of the figures corresponding to this company, was €1,697 million as of 31 December 2010, compared to the €4,905 million in the previous period, which means a 65% reduction. The good progress being made across the business, as well as the divestment of the Refinería Alberto Pasqualini (Refap) in Brazil, the sale of over 4% of YPF's capital to the market and, very significantly, the capital increase for Repsol Brasil have been the causes behind this reduction.

The Group's consolidated net financial debt at year-end 2010 was €7,224 million, that is, €3,704 million less than the net debt as of 31 December 2009, which totalled €10,928 million.

During 2010, investments reached €5,091 million⁽¹⁾. These investments are explained in detail in the sections pertaining to each business area contained in this Management Report.

Divestments in the year totalled €4,972 million⁽²⁾. Of this amount, it is important to point out, in addition to the inflow of funds as a result of the Sinopec agreement, the sale of 4.23% of the shares Repsol had in YPF on the market for a total amount of €489 million. Likewise, it includes the sale of the 30% stake Repsol held in the Refinería Alberto Pasqualini (Refap), of 5% in the Compañía Logística de Hidrocarburos (CLH) and of 25% in Bahía de Bizkaia Gas (BBG). These transactions are dealt with in greater detail in the sections devoted to each business area contained in this Management Report.

During 2010, exceptionally, there was a single dividend payment (€0.425 per share as an 2009 final dividend) due to the payment of 2009 interim dividends by Repsol YPF, S.A. in December of that year. Furthermore, the Group's Board of Directors authorised a 2010 interim dividend of €0.525 per share, a 23.53% increase compared to the 2009 interim dividend, which was paid in January 2011.

In relation to transactions involving company shares, the Annual General Meeting held on 30 April 2010, resolved to grant authorisation to the Board of Directors "for the derivative acquisition of shares of Repsol YPF, S.A. by purchase, exchange, or by any other transaction

(1) This figure does not include financial investments of €15 million in 2010.

(2) This figure does not include financial divestments in the 2010 period, totalling €88 million.

for valuable consideration, directly or through controlled companies, in one or more transactions, up to a maximum number of shares that, added to those already held by Repsol YPF S.A. and its subsidiaries, do not exceed 10% of share capital and for a price or equivalent value that may not be lower than the nominal value of shares nor exceed the quoted price on the stock market."

This authorisation is valid for 5 years, from the date of the Annual General Meeting was held, leaving without effect the authorisation granted by the previous Annual General Meeting held on 14 May 2009, in the part that had not been used.

In 2010, Repsol YPF did not purchase or dispose of any of its own shares. As of 31 December 2010, neither Repsol YPF S.A. nor any of its affiliates held any shares of Repsol YPF, S.A.

Financial prudence

Repsol YPF keeps, in line with their prudent financial policy, cash resources and other net financial instruments, as well as unused lines of credit covering 78% of its entire gross debt and 63% of same including preference shares. Regarding Repsol YPF, excluding Gas Natural Fenosa, these resources cover the entire gross debt and over 80% when preference shares are included.

The financial investments are included in the headings listed under Note 12 of the Consolidated Financial Statements as "Other financial assets at fair value through profit and loss", "Loans and receivables" and "Held-to maturity investments" (which include cash and cash equivalents), and amount to €8,177 million, €7.807 of which corresponds to Repsol YPF, not including Gas Natural Fenosa. The Group has also committed, unused lines of credit at its disposal for an amount of €4,666 million (excluding Gas Natural Fenosa), up from the €3,860 million at the end of 2009 (excluding Gas Natural Fenosa). For the whole consolidated Group, the amount in committed, unused lines of credit was €5,690 and €4,680 million as of 31 December 2010 and 2009, respectively, 79% of which are due after 31 December 2011.

Accordingly, net debt and the net debt/capital employed ratio, in which capital employed refers to net debt plus net equity, provides a true and fair view of the volume of necessary borrowings and their relative weighting in the funding of capital employed in transactions.

Millions of euros, except ratios	31 December			
	Consolidated Group		Consolidated Group, excluding Gas Natural Fenosa	
	2010	2009	2010	2009
I. Net financial debt	7,224	10,928	1,697	4,905
II Preference shares	3,748	3,726	3,568	3,548
III Net financial debt, including preference shares	10,972	14,654	5,265	8,453
IV Capital employed	36,958	36,045	30,777	29,346
Net financial debt to capital employed (I/IV)	19.5%	30.3%	5.5%	16.7%
Net financial debt including preference shares, to capital employed (III/IV)	29.7%	40.7%	17.1%	28.8%

At 31 December 2010, the Group's net debt to capital employed ratio (excluding Gas Natural Fenosa) stood at 5.5% versus 16.7% at the end of the previous year. Taking preference shares into account, the variation in this ratio stood at 17.1% on 31 December 2010 compared to 28.8% at year-end 2009.

As of 31 December 2010, the Consolidated Group's net debt to capital employed ratio was 19.5% versus 30.3% on 31 December 2009. Including preference shares the ratio was 29.7% in comparison with 40.7% at the end of 2009.

Below is the breakdown of the changes in the net financial debt during the 2010 and 2009 financial years:

(Millions of euros)	Consolidated Group		Consolidated Group, excluding Gas Natural Fenosa	
	2010	2009	2010	2009
Net financial debt at the beginning of the period	10,928	3,481	4,905	2,030
EBITDA	(9,196)	(6,749)	(7,688)	(5,517)
Variation in trade working capital	1,693	590	1,316	461
Investments (1)	5,091	8,964	4,468	4,991
Divestments (2)	(4,972)	(1,037)	(4,293)	(400)
Dividends paid (including affiliates)	806	1,935	759	1,894
Currency translation differences	617	125	535	112
Taxes paid	1,627	1,168	1,490	1,054
Variation of consolidation perimeter (3)	(372)	1,809	(395)	–
Interests and other movements	1,002	642	600	280
Net financial debt at year-end	7,224	10,928	1,697	4,905

(1) There were financial investments of €15 and €39 million for the Consolidated Group in 2010 and 2009, respectively, that do not appear in this table.

(2) Similarly, there were financial divestments of €88 and €56 million for the Consolidated Group in 2010 and 2009 respectively, that do not appear in this table.

(3) In 2009, it relates mainly to the incorporation of Union Fenosa's debt and in 2010 to the deconsolidation of Refap's debt.

Below is the breakdown of Repsol YPF's current credit rating:

	Standard & Poor's	Moody's	Fitch
Short-term debt	A-2	P-2	F-2
Long-term debt	BBB	Baa1	BBB+

Risk factors

Repsol YPF's operations and earnings are subject to risks as a result of changes in competitive, economic, political, legal, regulatory, social, industrial, business and financial conditions. Investors should carefully consider these risks.

Future risk factors, either unknown or not considered relevant by Repsol YPF at present, could also affect the company's business, results, and financials.

Operation-related risks

The uncertainty of the economic context. The rhythm of recovery after the recent global economic-financial crisis is still subject to risks and uncertainty. The growth of the global economy was slower in the second half of 2010, when the leeway of certain factors supporting the recovery, in particular inventory restocking and public anti-cyclic tax and monetary policies, was weakened or exhausted. This dynamic could also dominate during 2011, reducing the company's prices and margins in relation to the current ones, despite expectations of a growing world demand for oil and gas, especially in emerging countries. The increase in public debt in nearly every country as a result of their anti-crisis policies, could lead to the introduction of changes in taxation and the regulatory framework for the oil and gas industry. In addition

to this, there is deep financial reform underway, which could have significant consequences for the economy as a whole. Additionally, the financial and economic situation may have a negative impact on third parties with whom Repsol YPF does, or may do, business. Any of these factors, together with or independently, may adversely affect Repsol YPF's business, financial condition and results of operations.

International reference crude oil prices and demand for crude oil may fluctuate due to factors beyond Repsol YPF's control. World oil prices have fluctuated widely over the last 10 years and are subject to international supply and demand factors over which Repsol YPF has no control. Political developments throughout the world (especially in the Middle East), the evolution of stocks of oil and products, the circumstantial effects of climate changes and meteorological phenomena, such as storms and hurricanes (which especially affect the Gulf of Mexico), the increase in demand in countries with strong economic growth, such as China and India, major world conflicts, as well as political instability and the threat of terrorism from which some producing areas suffer periodically, together with the risk that the supply of crude oil may become a political weapon, can particularly affect the world oil market and oil prices. In 2010, the average West Texas Intermediate (WTI) crude oil price was US\$79.61 per barrel, compared to an average of US\$56.13 per barrel for the period 2001-2010, with maximum and minimum annual averages of US\$99.75 per barrel and US\$25.96 per barrel in 2008 and 2001, respectively. In 2010, oil (WTI) was trading at a range of approximately US\$68-92/barrel.

Demand for crude oil may also fluctuate significantly during economic cycles.

Reductions in oil prices negatively affect Repsol YPF's profitability, the valuation of its assets and its plans for capital investment including projected capital expenditures related to exploration and development activities. A significant reduction of capital investments may negatively affect Repsol YPF's ability to replace oil reserves.

Repsol YPF's operations are subject to regulation. The oil industry is subject to extensive regulation and intervention by governments throughout the world in such matters as the award of exploration and production interests, the imposition of specific drilling and exploration obligations, restrictions on production, price controls, required divestments of assets and foreign currency controls over the development and nationalization, expropriation or cancellation of contract rights. Such legislation and regulations apply to virtually all aspects of Repsol YPF's operations inside and outside Spain. In addition, certain countries contemplate in their legislation the imposition of sanctions on non-domestic companies which make certain types of investments in other countries.

In addition, the terms and conditions of the agreements under which Repsol YPF's oil and gas interests are held generally reflect negotiations with governmental authorities and vary significantly by country and even by field within a country. These agreements generally take the form of licenses or production sharing agreements. Under license agreements, the license holder provides financing and bears the risk of the exploration and production activities in exchange for resulting production, if any. Part of the production may have to be sold to the state or the state-owned oil company. License holders are generally required to make certain tax or royalty payments and pay income tax which can be high compared with the taxes paid by other businesses. Nevertheless, production sharing agreements generally require the contractor to finance exploration and production activities in exchange for the recovery of its costs from part of production (cost oil) and the remainder of production (profit oil) is shared with the state-owned oil company.

Repsol YPF cannot predict changes in the aforementioned regulation and legislation or the interpretation or implementation thereof.

Repsol YPF is subject to extensive environmental regulations and risks. Repsol YPF is subject to extensive environmental laws and regulations in practically all the countries in which it operates, which regulate, among other matters affecting Repsol YPF's operations, environmental quality standards for products, air emissions and climate change, energy efficiency, water discharges, surface water pollution, remediation of soil and groundwater and the generation, storage, transportation, treatment and disposal of waste materials.

In particular, due to concern over the risk of climate change, a number of countries have adopted, or are considering the adoption of, new regulatory requirements to reduce green-

house gas emissions, such as carbon taxes, increased efficiency standards, or the adoption of trade regimes. These requirements could make Repsol YPF's products more expensive as well as shift hydrocarbon demand toward relatively lower-carbon sources such as renewable energies. In addition, compliance with greenhouse gas regulations may also require the company to upgrade the facilities, monitor or sequester emissions or take other actions which may increase the compliance costs.

These laws and regulations have had and will continue to have an impact on Repsol YPF's business, financial condition and results of operations.

Operating risks related to exploration and exploitation of oil and gas, and reliance on the cost-effective acquisition or discovery of, and, thereafter, development of new oil and gas reserves. Oil and gas exploration and production activities are subject to particular risks, some of which are beyond the control of Repsol YPF. These activities are subject to production, equipment and transportation risks, natural hazards and other uncertainties including those relating to the physical characteristics of an oil or natural gas field. The operations of Repsol YPF may be curtailed, delayed or cancelled as a result of weather conditions, mechanical difficulties, delays in the delivery of equipment or compliance with governmental requirements. In addition to this, some of our development projects are located in deep waters and other difficult environments, such as the Gulf of Mexico, Brazil and the Amazon rainforest or in challenging reservoirs, which could aggravate these risks. The offshore operations, in particular, are subject to sea risks, among them storms and other adverse climate conditions or shipwrecks. Also, the transportation of oil products, by any means, always has inherent risks: during road, rail or sea transport, or by pipeline, oil or another hazardous substance could leak; this is a significant risk due to the potential impact a spill could have on the environment and on people, especially considering the high volume of products that can be carried at any one time. If these risks materialize, there could be personal and environmental damage, production losses or destruction of goods and legal actions and, depending on the cause and the severity of the damages, Repsol YPF's reputation could also be damaged.

Moreover, Repsol YPF is dependent on the replacement of depleted oil and gas reserves with new proved reserves in a cost-effective manner that permits subsequent production to be economically viable. Repsol YPF's ability to acquire or discover new reserves, however, is subject to a number of risks. For example, drilling may involve unprofitable efforts, not only with respect to dry wells, but also with respect to wells that are productive but do not produce sufficient net revenues to return a profit after drilling, operating and other costs are taken into account. In addition, crude oil and natural gas production blocks are typically auctioned by governmental authorities and Repsol YPF faces intense competition in bidding for such production blocks, in particular those blocks with the most attractive potential reserves. Such competition may result in Repsol YPF's failing to obtain desirable production blocks or result in Repsol YPF acquiring such blocks at a higher price, which could mean that subsequent production would not be economically viable.

If Repsol YPF fails to acquire or discover, and, thereafter, develop new oil and gas reserves in a cost-effective manner or if any of the aforementioned risks materialises, its business, results of operations and financial condition would be materially and adversely affected.

Location of reserves. Part of the oil and gas reserves are located in countries that are or could be economically or politically unstable.

Reserves in these areas as well as related production operations may be subject to risks, including increases in taxes and royalties, the establishment of limits on production and export volumes, the compulsory renegotiation or cancellation of contracts, the nationalization or denationalization of assets, changes in local government regimes and policies, changes in business customs and practices, payment delays, currency exchange restrictions and losses and impairment of operations by actions of insurgent groups. In addition, political changes may lead to changes in the business environment. Economic downturns, political instability or civil disturbances may disrupt distribution logistics or limit sales in the markets affected by such events.

Oil and gas reserves estimates. Repsol YPF uses the guidelines and the conceptual framework of the Securities and Exchange Commission (SEC)'s definition of proven reserves in order

to calculate proven oil and gas reserves. Oil and gas proved reserves are estimated using geological and engineering data to determine with reasonable certainty whether the crude oil or natural gas in known reservoirs is recoverable under existing economic and operating conditions.

The accuracy of proved reserve estimates depends on a number of factors, assumptions and variables, some of which are beyond our control. Factors susceptible to the company's control include drilling, testing and production after the date of the estimates, which may require substantial upward or downward revisions to reserves estimates; the quality of available geological, technical and economic data used and its interpretation thereof; the production performance of reservoirs and recovery rates, both of which depend in significant part on available technologies as well as the company's ability to implement such technologies and the relevant know-how; the selection of third parties with which Repsol YPF enters into business; and the accuracy of its estimates of initial hydrocarbons in place, which may prove to be incorrect or require substantial revisions. Factors mainly beyond Repsol YPF's control include changes in prevailing oil and natural gas prices, which could have an effect on the quantities of proved reserves (since the estimates of reserves are calculated under existing economic conditions when such estimates are made); changes in the prevailing tax rules, other government regulations and contractual conditions after the date estimates are made (which could make reserves no longer economically viable to exploit); and certain actions of third parties, including the operators of fields in which the Group has an interest.

As a result of the foregoing, measures of reserves are not precise and are subject to revision. Any downward revision in estimated quantities of proved reserves could adversely impact financial results, leading to increased depreciation, depletion and amortization charges and/or impairment charges, which would reduce earnings and shareholders' equity.

Repsol YPF's natural gas operations are subject to particular operational and market risks. Natural gas prices in the various regions in which Repsol YPF operates tend to vary from one to another as a result of significantly different supply, demand and regulatory circumstances, and such prices may be lower than prevailing prices in other regions of the world. In addition, excess supply conditions that exist in some regions cannot be utilized in other regions due to a lack of infrastructure and difficulties in transporting natural gas.

In addition, Repsol YPF has entered into long-term contracts to purchase and supply of natural gas in various parts of the world. These contracts have different price formulas, which could result in higher purchase prices than the price at which such gas could be sold in increasingly liberalized markets. In addition, gas availability could be subject to risks of contract fulfillment from counterparties. Thus, it might be necessary to look for other sources of natural gas in the event of non-delivery from any of these sources, which could require payment of higher prices than those called for under such contracts.

Repsol YPF also has long-term contracts to sell and deliver gas, mainly to clients in Argentina, Bolivia, Brazil, Chile, Venezuela, Spain and Mexico. These contracts present additional types of risks to the company as they are linked to current proved reserves in Argentina, Bolivia, Venezuela, Trinidad and Tobago and Peru. If sufficient reserves in those countries were not available, Repsol YPF might not be able to satisfy its obligations under these contracts, several of which include penalty clauses for non-fulfillment.

Conditions in the petrochemicals industry are cyclical and may change due to factors beyond Repsol YPF's control. The petrochemicals industry is subject to wide fluctuations in supply and demand reflecting the cyclical nature of the chemicals market at regional and global levels. These fluctuations affect prices and profitability for petrochemicals companies, including Repsol YPF. Repsol YPF's petrochemicals business is also subject to extensive governmental regulation and intervention in such matters as safety and environmental controls.

Significant presence in Argentina. Nearly 19% and 20% of Repsol YPF's assets were in Argentina as of 31 December 2010 and 2009 respectively, corresponding for the most part to exploration and production activities. In addition, approximately 20% and 33% of operating income as of 31 December 2010 and 2009 respectively was generated from activities in that country.

After the economic crisis of 2001 and 2002, Argentina's GDP has grown at an average rate of approximately 8.5% from 2003 to 2008, slowing down in 2009 due to the international financial crisis. In 2010, after a recovery process and according to preliminary estimates, the growth rate achieved is in the region of 9%. The Argentinean economy is still sensitive to volatile commodities prices, the limited credit and international investment in infrastructure, the development of energy resources supporting economic growth and the rise in inflation rates, among other factors.

The main economic risks Repsol YPF faces due to its operations in Argentina include the following:

- limitations on its ability to pass on increases in international oil prices and other fuels, and exchange rate fluctuations and/or other costs affecting the operations to local prices;
- higher taxes on hydrocarbon exports;
- restrictions on hydrocarbon export volumes driven mainly by the requirement to satisfy domestic demand, thereby affecting the company's prior arrangements with its clients;
- the need to extend concessions, some of which expire in 2017;
- work disruptions and stoppages by the workforce;
- changes in the Argentinean peso exchange rate.

In recent years, new and increased duties have been imposed on exports (see note 2, "Argentina - Regulatory Framework" in the Consolidated Financial Statements for 2010). As a result of these export tax increases, YPF could be, and on certain occasions has been, forced to renegotiate its export contracts despite the Government's prior approval of them. The imposition of these export withholdings has had an adverse impact on the operating income of YPF.

In addition, YPF has been obliged to sell a part of its natural gas production previously destined for the export market in the local Argentine market and has not been able to meet its contractual gas export commitments in whole or, in some cases, in part, leading to disputes with its export clients and forcing YPF to declare force majeure under its export sales agreements. Repsol YPF believes that these actions from the government constitute force majeure events that relieve YPF from any contingent liability for the failure to comply with its contractual obligations.

Repsol YPF's current insurance coverage to all the operational risks may not be sufficient. As discussed in several of the risk factors mentioned in this document, Repsol YPF's operation are subject to extensive economic, operational, regulatory and legal risk. The company maintains insurance covering against certain risks inherent in the oil and gas industry in line with industry practice, including loss of or damage to property and equipment, control-of-well incidents, loss of production or income incidents, removal of debris, sudden and accidental seepage pollution, contamination and clean up and third-party liability claims, including personal injury and loss of life, among other business risks. However, the insurance coverage is subject to deductibles and limits that in certain cases may be materially exceeded by its liabilities. In addition, certain of Repsol YPF's insurance policies contain exclusions that could leave the Group with limited coverage in certain events. On the other hand, the company may not be able to maintain adequate insurance at rates or on terms that are considered reasonable or acceptable or be able to obtain insurance against certain risks that materialize in the future. If the company experiences an incident against which it is not insured, or the costs of which materially exceed its coverage, it could have a material adverse effect on its business, financial condition and results of operations.

Financial risks

Liquidity risk. Liquidity risk is associated with the Group's ability to finance its obligations at reasonable market prices, as well as being able to carry out its business plans with stable financing sources.

Repsol YPF keeps, in line with their prudent financial policy, resources available covering 78% of its entire gross debt and 63% of this debt including preference shares. Regarding Repsol YPF excluding Gas Natural Fenosa, these resources cover the entire gross debt and over 80% when preference shares are included.

Credit risk. The Group's credit risk exposure mainly relates to trade accounts payable, which are measured and controlled by individual client or third party. To this end, the Group has its own systems, aligned to best practices, for constantly monitoring the creditworthiness of all its debtors and for determining the risk limits of third parties.

As a general rule, the Group establishes a bank guarantee issued by financial entities as the most suitable instrument of protection from credit risk. In some cases, the Group has taken out credit insurance policies whereby this transfers the credit risk related to the business activity of some of their businesses to third parties.

Market risk

Exchange rate fluctuation risk. Repsol YPF is exposed to fluctuations in currency exchange rates since revenues and cashflows generated by oil, natural gas, and refined product sales are generally denominated in dollars or affected by this currency's exchange rate. Operating income is also exposed to fluctuations in currency exchange rates in countries where Repsol YPF conducts its activities. In order to mitigate the exchange rate risk on results, and when it deems appropriate, Repsol YPF may use derivatives for those currencies for which there is a liquid market and where transaction costs are reasonable.

The company is also exposed to exchange rate risk affecting the value of its assets or financial investments in dollars. Repsol YPF obtains financing in dollars and in other currencies, either directly or synthetically through currency derivatives.

In addition, Repsol YPF's financial statements are expressed in euros and, consequently, the assets and liabilities of investee companies with a different functional currency are translated into euros at the exchange rate prevailing on the balance sheet date. The revenues and expenses of each of these items in the profit and loss accounts are translated into euros by applying the exchange rate in force on the date of each transaction; for practical reasons, the exchange rate used is, in general, the average of the period in which the transactions were made. The fluctuations in the exchange rates applied in the process for converting the currencies into euros generates variations (gains or losses) which are recognised in the Repsol YPF Group consolidated financial statements and expressed in euros.

Commodity price risk. In the normal course of operations and trading activities, Repsol YPF Group earnings are exposed to volatility in the price of oil, natural gas, and related derivative products (see the previous section "Possible fluctuations in international benchmark oil prices and oil demand due to factors beyond the control of Repsol YPF" and "Operational and market risks affecting Repsol YPF's activities in the natural gas industry").

Interest rate risk. The market value of the Group's net financing and net interest expenses could be affected by interest rate fluctuations.

Note 20 "Financial risk and capital management" and Note 21 "Derivative transactions" in the Consolidated Financial Statements for the financial year 2010 include additional details on the financial risks described in this section.

Business areas

The Group's main operating highlights are shown below:

	2010	2009
Upstream:		
Oil and gas net production (1)	125,653	121,768
LNG:		
Production of liquefaction trains(2) (3)	5.1	4.7
LNG sold (3)	6.7	4.5
Downstream:		
Refining capacity (4) (5)	878	926
Europe (6)	776	776
Rest of the World	102	156
Processed crude oil (7) (8)	34.4	35.1
Europe	28.7	28.7
Rest of the World	5.7	6.5
Number of service stations	4,447	4,428
Europe	4,182	4,186
Rest of the World	265	242
Oil product sales (7) (9)	38,613	39,429
Europe	32,429	32,970
Rest of the World	6,184	6,459
Petrochemical product sales (9)	2,618	2,306
By region:		
Europe	2,263	2,000
Rest of the World	355	306
By product:		
Base products	874	567
Derivative petrochemicals	1,744	1,739
LPG Sales (9)	3,108	2,993
Europe	1,680	1,677
Rest of the World	1,428	1,316
YPF:		
Oil and gas net production(1)(10)	197,442	208,708
Refining capacity (4) (11)	333	333
Processed crude oil (8) (11)	15.4	15.7
Number of service stations (12)	1,653	1,668
Oil product sales (9) (11)	14,146	13,906
Petrochemical product sales (10)	1,563	1,479
LPG Sales (9)	340	362
Natural gas sales (3)	14.0	15.9
Gas Natural Fenosa:		
Natural gas distribution sales (3)(13)	35.40	34.64
Electricity distribution sales (13)(14)(15)	54,833	34,973

(1) Thousands of barrels of oil equivalent (kboe).

(2) Including liquefaction train production according to their shareholding. Trinidad [Train 1 (20%), Trains 2 and 3 (25%), Train 4 (22.22%)] Peru LNG (20%). From this production, 1.4 bcm in 2010 and 0.8 bcm in 2009 belong to companies consolidated in the Repsol Group through the equity method.

(3) Billions of cubic metres (bcm).

(4) Thousand barrels per day (kbb/d).

(5) The 2010 information does not include Refap's 30% (Brazil), since it was sold in December 2010.

(6) The reported capacity includes the shareholding in ASES.

(7) The 2009 and 2010 information includes Refap's 30% (Brazil), up to the date it was sold in December 2010.

(8) Millions of tons.

(9) Thousands of tons.

(10) The data shown is for Argentina, except the net hydrocarbon production of 777 and 977 thousands of barrels of oil equivalent (kboe) in 2010 and 2009, respectively, which is United States data.

(11) Including 50% shareholding in Refinerías del Norte, S.A. ("Refinor").

(12) Including 50% of "Refinor" service stations.

(13) Including 100% of reported Gas Natural Fenosa sales although Repsol YPF had a 30.01% share in Gas Natural by 31 December 2009 and 30.13% by 31 December 2010, accounted for through proportional consolidation.

(14) Gigawatts per hour (GWh).

(15) In 2009 this corresponds to the Gas Natural operations since the acquisition of Unión Fenosa in April.

Abbreviations used for units of measurement

"bbl"	Barrels
"bcf"	Billion cubic feet
"bcm"	Billion cubic metres
"boe"	Barrels of oil equivalent
"Btu"	British thermal unit
"GWh"	Gigawatts per hour
"kbb/d"	Thousand barrels
"kbb/d"	Thousand barrels per day
"kboe"	Thousand barrels of oil equivalent
"km ² "	Square kilometres
"Mbbbl"	Million barrels
"Mboe"	Million barrels of oil equivalent
"Mm ³ /d"	Million cubic metres per day
"MW"	Megawatts
"MWe"	Megawatts electrical
"MWh"	Megawatts per hour
"TCF"	Trillion cubic feet

Upstream

Activities

The Repsol Upstream division includes oil and natural gas exploration and production activities outside Argentina. For information on the exploration and production activities conducted by YPF, see the chapter on this company and its affiliates contained in this Consolidated Management Report.

The Repsol Upstream Division manages its project portfolio with the objective of achieving profitable, diversified and sustainable growth, with a commitment to safety and the environment. Its strategy is underpinned by the following objectives: increasing production and reserves, diversifying its business geographically by increasing its presence in OECD countries, achieving operating excellence and maximising the profitability of its assets. For this, a number of measures have been taken during the last few years: there was a successful investment in human capital to promote growth; the organisational structure was redefined to suit the objectives and it was oriented towards improving the quality of operations; the technical and commercial processes were redesigned and standardised and the technological capacities have been developed for successful operation in deep waters.

Geographically, the Upstream division's strategy is based on key traditional regions, located in Latin America (mainly Trinidad and Tobago, Peru, Venezuela, Bolivia, Colombia, and Ecuador) and in North Africa (Algeria and Libya), as well as in strategic areas for short and medium-term growth that have been consolidated in recent years. Among the latter, particularly important are the US Gulf of Mexico (with the important Shenzi field, in operation since 2009, and one of the company's key strategic projects) and offshore fields in Brazil.

In this country, in addition to the successful exploration of the last few years, we can add the agreement signed with the Chinese company Sinopec to create one of the largest energy companies in Latin America, valued at US\$17,777 million. Repsol owns 60% of the company, while Sinopec owns the remaining 40%. This transaction enhances the success of the exploration activities carried out by Repsol in Brazil in the last few years and confirms that the strategy used and the risk taken in the investment were on the right track, in terms of human, technical and material resources, in particular in the pre-salt offshore area in Brazil.

Strategic growth in the medium-term will also be bolstered by major gas projects currently being developed in Venezuela, Peru, Bolivia and Brazil, and in the longer-term, by the increasingly important asset portfolio in Norway, Canada, West Africa and Indonesia.

The most noteworthy aspect in the strategy defined for diversifying business geographically in 2010 has been access to areas with high exploratory potential in Indonesia, Norway, Angola, Russia and Oman.

In January 2010 in Norway, Repsol was awarded two exploration licenses (PL-541 y PL-557) in the North Sea and in the Norwegian Sea in the 2009 APA round. In June, a 40% share was taken in license PL-356, which is located in the southern area of the North Sea, in the Norwegian sector. The company will carry out exploratory work in 2011 to confirm the high expectations for these marine areas in Norway.

In the first quarter of 2010, Repsol agreed on the purchase of a 45% share in the Seram and East Bula exploratory blocks, and a 50% share in the South Seram study area from Niko Resources Ltd in Indonesia. This transaction was formally approved in January 2011 by the Indonesian government. In the May 2010 bidding round in Indonesia, Repsol was awarded three exploratory blocks (Cendrawasih II, III and IV) located offshore from the Papua Island, with Niko Resources Ltd as partner. Repsol's net shareholding is 50% and it is the operating company in one of these blocks. Both are key actions for entering new areas with high exploratory potential in this country with a long oil tradition.

For Repsol, 2010 was also the year of the beginning of exploratory activity in offshore Angola, with the entrance into exploratory gas blocks located in the Lower Congo basin. Furthermore, in January 2011 Sonangol announced the results of the first Exploratory Round since 2007. In this round, Repsol was awarded three blocks: block 22 (in which it is operator, with 30%), block 35 (25% Repsol) and block 37 (20% Repsol).

In Russia, halfway through 2010, the purchase was agreed - and officially confirmed by the Russian government in early 2011 - of 74.9% of the corporate capital of CSJC EUROTEK-YUGRA, which owns the Karabashsky 1 and 2 exploratory blocks in the West Siberian basin.

In August, Repsol signed an agreement with the United Arab Emirates' publicly-owned oil company, RAK Petroleum, for the acquisition of a 50% shareholding in Oman's block 47 (Jebel Hammah). This agreement is subject to the approval of the authorities in Oman. RAK will continue to operate the block, which is located in the north of the country and has a surface area of 4,964 km².

The strategy of diversifying in new countries is paying off. One benefit is the notable discovery of light crude oil in Sierra Leone waters, made in 2010, specifically in the Mercury-1 well. This is the second discovery made by Repsol since the Venus B-1 well, carried out in 2009, and it is a clear indication of the potential this area, that was practically unexplored up to now, has, and where Repsol is one of the pioneering companies in exploration.

In 2010, two new exploration discoveries took place in Brazil (Creal B and Piracuca 2), Sierra Leone (Mercury-1) and Colombia (Calamaro-1), along with the successful campaigns carried out in 2008 and 2009, when over 20 discoveries were made, four of them among the largest in those years. These discoveries took place in particularly relevant geographical areas, such as Brazil, the United States, Venezuela, Peru and Bolivia. In 2010, testing on the Perla 2X prospect in Venezuela was also carried out, with positive results.

The company is fulfilling its commitments and the next growth stage is coming together, mainly based on the successful exploratory campaigns, which are creating value for its stockholders. This future growth includes the strategic projects that are being carried out - and are in various stages of development - and which gained real momentum in 2009-2010, such as the US Gulf of Mexico (Shenzi, in operation since 2009), Brazil (Guará, Carioca and Piracuca), Venezuela (Cardón IV and Carabobo), Bolivia (Margarita-Huacaya), Peru (Kinteroni), Algeria (Reggane) and Lybia (I/R).

Many of these projects are being undertaken in offshore areas, where Repsol is consolidating its status as one of the most competitive and most experienced companies in offshore exploration-production, a tendency that the company will continue to work on. Over the last few years, Repsol has significantly increased its work in exploration and has made use of its technical experience to become an important company in offshore exploration.

Repsol's objectives in its offshore operations, especially in deep water, is to continue to strengthen the existing implementation of the best practices and recommendations within the industry's most stringent standards, and to strictly adhere to every regulation to be part of the group best companies after the lifting of the moratorium in the Gulf of Mexico.

The replacement rate of proven reserves in the Upstream division in 2010 was 131%.

As of 31 December 2010, the Repsol Upstream area had a participation in oil and gas exploration and production blocks in 27 countries, either directly or through its subsidiaries. The company was the operator in 20 of these countries. In addition to this, Repsol has a presence in Russia through its stake in the Russian company Alliance Oil, as well as in the exploratory blocks awarded in 2010, so that Repsol's Upstream area is currently present in 28 countries.

(1) A gross well is a well in which Repsol owns a working interest. The number of net wells is the sum of the fractions of interest held in gross wells.

(2) The gross acreage is the area where Repsol owns a working interest. The net acreage is the sum of the gross area in each acreage according to their respective working interests.

Acreage

The table below shows the information on Repsol's developed and non-developed acreage, by geographical area, as of 31 December 2010:

(km ²)	2010			
	Developed ⁽¹⁾		Undeveloped ⁽²⁾	
	Gross ⁽³⁾	Net ⁽⁴⁾	Gross ⁽³⁾	Net ⁽⁴⁾
Europe	31	24	12,785	7,521
South America	973	297	107,951	45,633
Trinidad and Tobago	158	59	5,420	2,304
Other countries in South America	815	238	102,531	43,329
Central America	-	-	11,231	4,492
North America	18	5	10,719	5,633
Africa	612	170	116,053	59,823
Asia	-	-	47,324	17,814
TOTAL	1,634	496	306,063	140,916

(1) A developed acreage is the area assignable to productive wells. The amounts shown belong to the acreage, both in terms of exploration and development.

(2) The non-developed acreage covers the surface area in which no wells have been drilled, or where any wells have not been completed to the point of permitting oil and gas production in economically viable quantities, regardless of whether said area has proven reserves or not.

(3) The gross acreage is the area where Repsol owns a working interest.

(4) The net acreage is the sum of the gross area in each acreage according to their respective working interests.

Results

Operating income (millions of euros)	2010	2009	2010/2009
North America and Brazil	2,911	63	4.521%
North Africa	642	372	73%
Rest of the World	560	346	62%
TOTAL	4,113	781	427%

Operating income in the Upstream division in 2010 was €4,113 million, 426.6% more than the €781 million posted a year earlier. EBITDA totalled €2,478 million versus €1,699 million in 2009. The 2010 result includes capital gains of €2,847 million, a consequence of the agreement reached between Repsol and Sinopec to develop joint exploration and production projects in Brazil. The result of the activity in the Upstream division, not considering the aforementioned capital gains, was better in 2010, basically due to higher oil and gas realisation prices and increased production during the period, and despite larger exploration costs and the effects of discontinuing the Persian LNG project.

The average realisation price of the Repsol oil product mix was US\$ 72.6/barrel (€54.7 / barrel) versus US\$ 56.7/barrel (€40.7/barrel) in 2009. The average price of gas was US\$ 2.7 per thousand cubic feet, 19% higher than the previous year. These variations are in line with those experienced by benchmark prices on international markets.

The lifting cost was US\$ 3.0/barrel. This amount is very similar to that seen in 2009 (US\$ 2.9 per barrel). The finding costs of proven reserves averaged US\$44.1/barrel in the 2008-2010 period.

Discoveries

In 2010, the company took part in new discoveries, continuing its successful exploratory results of 2008 and 2009. These discoveries took place in Brazil (with the Creal B and Piracuca 2 wells), Sierra Leone (Mercury-1 well) and Colombia (Calamario-1 well). Another highlight of 2010 was the positive results from the Perla 2X appraisal well in Venezuela, confirming and, in fact, improving the area's great potential.

Some of the discoveries in this historic stage for the company from an exploratory point of view have taken place in important locations from an exploratory point of view, such as Brazil, the United States, Venezuela, Peru, Bolivia and Algeria, and have allowed to carry out strategic development projects to guarantee the future organic growth of the company.

Furthermore, Repsol discovered gas in the RGD 22 well during the development works on the Rio Grande Area in Bolivia in 2010.

In Brazil, drilling for the Creal B well was finished in June 2010, with a positive result in the pre-salt objective, which could significantly increase the potential of the remaining reserves in this important offshore field. The Albacora Leste field (Santos basin), in which Repsol holds a 10% interest, has been producing since April 2006.

In May 2010, the exploratory well Piracuca-2 in the BM-S-7 development block, located in the Brazilian offshore area (Santos basin) was finished with positive results. This is the third positive well drilled after the two that were carried out in 2009 (Pialamba and Piracuca-1). After the positive exploratory and appraisal results of 2009, confirmed in 2010 with the Piracuca-2 well, it was decided that development works in the block should begin, with a view to starting production by 2015.

In November 2010 a second deepwater discovery in Sierra Leone was announced, this time with the Mercury-1 well, which confirms the high potential of this area, virtually unexplored up to now, where Repsol is one of the pioneering companies. The discovering well is in block SL-07B-10, at a depth of 4,862 metres, under 1,600 metres of water. The oil found is a 41-metre column. Repsol, along with its partners Anadarko and Tullow, is appraising the positive tests obtained and studying the drilling of new wells to assess the commercial viability of the area. The Mercury-1 well was drilled about 64 kilometres southeast of the 2009 Venus B-1 discovery.

By the end of the year, the Calamario-1 well, in Colombia, made an exploratory discovery in the Rondón block, located in the Llanos basin.

On 12 April 2010, Repsol announced the end of the Perla 2X appraisal well with positive results, in the Cardón IV block, located in Venezuelan waters. This well, drilled under 60 metres of water, went through 840 feet (260 metres) of net pay. The result of this well confirmed and indeed revised expectations upwards on the recoverable gas resources in this block, estimated at 8 trillion cubic feet (TCF) of gas after the discovery in 2009 with the Perla 1X well. In fact, after drilling the Perla 2X well, the Ministry of Energy and Petroleum of Venezuela (MPPEP) approved the new resource estimate amounting to 9 TCF, confirming the Perla megafield as the largest gas discovery in Repsol's history, and one of the most important in Venezuela.

In the exploration phase, Repsol is operating the Cardón IV block, in a 50% interest agreement with the Italian company ENI. In the block's future development phase, which is still being defined, PDVSA, Venezuela's national oil company, would have 35% interest in the project, along with Repsol (32.5%) and ENI (32.5%).

In Bolivia in August 2010, Repsol, as part of the YPFB Andina consortium, announced a large gas discovery in the Rio Grande Area with the RGD 22 development well. This area, with production since 1968 in geological formations different from the one discovered in 2010, is 55 kilometres southeast of the city of Santa Cruz de la Sierra. Repsol discovered this gas deposit while working to deepen existing wells in order to increase production in this field. The finding will provide an estimated total resources of 1 TCF of gas, which is about 10 months' gas consumption in Spain. Since Rio Grande already has the necessary infrastructure, the new resources could be in production shortly.

The production tests in the RGD 22 well have shown a flow rate of 6 million cubic feet/day and 160 barrels of condensate. Future drillings will allow for a more accurate definition of the size of the find.

In January 2011 the company announced the positive result of the Carioca NE appraisal well in the prolific BM-S-9 block, in deep water off the coast of Brazil.

Production

Repsol's hydrocarbon production in 2010 (excluding YPF) was 344,256 barrels of oil equivalent/day, up 3.2% on 2009's figures. This increase derives mainly from activities in Peru, due to the start-up of the Peru LNG liquefaction plant in June 2010, in the United States after the start-up of Shenzi in March 2009, in Libya, as a result of the increase in the quota and in Venezuela through the incorporation of Barua Motatan, partially compensated by the sale of Barrancas, both in February 2010. All of this was partially offset by lower production in Algeria, especially due to the change of ratio in 2010, based on the application of contract terms and in Brazil (due to the decline of Albacora Leste). Isolating the impact of higher benchmark prices in PSCs (Production Sharing Contracts), production would have increased 6% compared to 2009.

It should be pointed out that the extended well test on the Guará field in offshore block BM-S-9 in Brazil began on 25 December 2010 and this test is expected to last for five months.

NET PRODUCTION OF LIQUIDS AND NATURAL GAS BY GEOGRAPHICAL AREA IN 2009 AND 2010

(1) A gross well is a well in which Repsol owns a working interest. The number of net wells is the sum of the fractions of interest held in gross wells.

Reserves

As of 31 December 2010, Repsol's proven reserves (excluding YPF), calculated in accordance with the U.S. Securities and Exchange Commission (SEC)'s guidelines, totalled 1,100 million barrels of oil equivalent (Mboe), of which 376 Mboe (34%) relate to crude oil, condensate and liquefied gases and the remaining 724 Mboe (66%) to natural gas.

In 2010, the evolution of the aforementioned reserves was positive, with the incorporation of 165 Mboe most notably from Peru (114 Mboe), Trinidad and Tobago (15 Mboe) and Libya (14 Mboe).

These reserves are mainly located in Trinidad and Tobago (36%). 46% is located in the other South American countries (Venezuela, Peru, Brazil, Ecuador, etc.), 12% are in North Africa (Algeria and Libya), 5% are in the Gulf of Mexico (United States) and about 1% in Spain.

Investments

Investments in the Upstream business in 2010 totalled €1,126 million, which maintains the level of investment from the previous year (€1,122 million in 2009). Investment in development accounted for 50% of the total and was carried out mainly in Trinidad and Tobago (16%), Bolivia (14%), Brazil (13%), Peru (12%), U.S.A. (10%), Ecuador (9%) and Libya (7%). Exploration investments represented 38% of total investments and were carried out mostly in Brazil (76%) and U.S.A. (8%).

Divestments

The agreement signed in October between Repsol and Sinopec for the joint development of exploration and production projects in Brazil entailed divestment of US\$ 4,267 million (€ 3,234

million). The amount of the divestment relates to the percentage of the Group's interest in the liquidity incorporated into the company as a result of the capital increase. With this operation, the Group has proportionally consolidated its 60% shareholding in Repsol Sinopec Brazil.

Furthermore, a €70 million down-payment was received in 2010 for the agreed sale of Repsol's 82% stake in the Gaviota underground natural gas storage facility to Enagás, sold for a total amount of €87 million (of this figure, €16 million are subject to the Ministry of Industry, Tourism and Trade's approval of the enlargement project). This sale, pending definitive approval of the transaction from the relevant authorities, is another step in Repsol's strategy of gradual divestment of non-strategic assets.

Activities in the main countries

North America

Over the past four years, Repsol has significantly increased its presence in deep waters in the U.S. Gulf of Mexico with its stake in the major Shenzi oil development project and by securing a large number of exploration blocks which proved their potential in 2009 with the discovery made at the Buckskin well. This region is considered to be one of the most profitable and with the best deepwater exploration potential in the world.

The Shenzi field, where Repsol holds a 28% stake and which came onstream in March 2009 through its own platform, is one of the largest discoveries made to date in deep water in the Gulf of Mexico. By the end of the year, ten wells were producing through this platform. The drilling of other development wells should be completed over the coming months since the lifting of the moratorium for deepwater drilling in the Gulf of Mexico in October 2010, which had been imposed in late April by the US Department of the Interior.

The moratorium on deepwater drilling was lifted on 12 October 2010, and drilling operations for water injection at Shenzi were resumed in November 2010. Operating procedures and management systems are currently under review in order to fully comply with the new regulatory demands for the drilling of additional exploration and production wells. In 2010, production levels on the Shenzi platform exceeded 105,000 bbl/d. The objective of the future investment plan is to maintain an annual production plateau in the range of 100,000 to 120,000 boe/d for the next five years and includes a secondary recovery project via water injection, which will be operative by mid-2012. Development of the Shenzi North Flank is at an earlier stage, although the successful results of drilling work carried out in 2009 have increased the forecast potential of this area. The first delineation well in these formations is planned for 2011.

The appraisal well for the Buckskin discovery, which was initially planned for drilling in 2010, has been rescheduled for 2011. This delay is due to the drilling moratorium imposed by the United States in 2010; however, this does not affect the estimated start of production for this field in 2017. This appraisal well will help define the future development plan for the field. Repsol, as the project's operator in its exploratory phase, made this major discovery in 2009. At a depth of more than 10,000 metres, this is the deepest well operated by Repsol to date and one of the deepest wells in this region.

In March 2010, Repsol was awarded 16 new exploration blocks in exploration round 213, in the Gulf of Mexico; five of them with a 100% stake and the rest in partnership with Ecopetrol (five with a 60% stake, another five with 40% and a last block with a 50% stake). These blocks are in the Mississippi Canyon, Garden Banks, Walker Ridge and Keathley Canyon basins. In addition to the aforementioned 16 blocks, Repsol also obtained interests in another two blocks made available during exploration round 213 in Mississippi Canyon and Keathley Canyon through agreements with the awardee companies.

In Alaska, Repsol holds a 20% interest in 71 adjacent offshore blocks in the Beaufort Sea, alongside Shell Offshore Inc. and Eni Petroleum US LLC. Researches are being conducted to establish their exploratory potential. The company also has a 100% stake in 93 offshore blocks in the Chukchi Sea.

These assets, along with those awarded over the last few years, form a large and solid exploration project portfolio in the United States, with over 275 blocks. The company's participation in these rounds is in-keeping with its diversification and growth strategy in OECD countries.

In Canada, during 2010, Repsol continued to expand its geological knowledge on the available areas in order to assess the value of the opportunities that are arising in this country. The company is already actively participating in three blocks in the Newfoundland (Terranova) and Labrador offshore areas. Two of these blocks are located in the Central Ridge/Flemish Pass area and another in Jeanne d'Arc Basin. Furthermore, in the Exploration Round carried out at the end of 2010, Repsol obtained a 25% stake in blocks NL 10-01 and NL 10-02 in the Jeanne d'Arc Basin area, which are awaiting official ratification from the Canadian authorities.

Latin America

Brazil

2010 marked a very important milestone in the strategy in this key area for the company. In October, the partnership between Repsol and Sinopec in Brazil was announced to create one of the largest private energy companies in Latin America. On 28 December 2010, the Shareholders' Board of Repsol Brasil approved a capital increase of more than US\$ 7,111 million, entirely subscribed by Sinopec, resulting in a company valued at US\$17,777 million. After this operation, Repsol holds 60% of the company's corporate capital and Sinopec, the largest Chinese oil company, holds the remaining 40%. The funding provided by this operation will allow the company to undertake the investments needed for the full development of its assets in Brazil, including some of the largest discoveries in the world, like those in the Guará and Carioca blocks. Repsol and Sinopec will continue working on their expansion plans in Brazil and will take part, jointly or separately, in future bidding rounds in the country. This transaction between two leading companies, highlights the successful exploratory activities that Repsol has been carrying out in Brazil during the last few years.

The offshore area of Brazil is one of the largest growth areas in the world in terms of oil reserves. The agreement signed between Repsol and Sinopec is an example of the great international interest in this historic time for Brazil, especially regarding the activity in the pre-salt area of the Santos basin.

Repsol is one of the leading independent energy companies in Brazil, in terms of exploration and production. It enjoys a strategic position in the areas with the greatest potential of the Brazilian pre-salt zone and also leads the exploratory activity in the prolific Santos basin, along with Petrobras and BG. The company has a large, diversified asset portfolio, including a field already in production (Albacora Leste) and other assets with big discoveries made over the last few years, among which, the BM-S-9 block in the Santos basin, is especially important, with discoveries like Guará, Carioca, Iguazu Norte and Abare Oeste, as well as the Piracuca field, located in the BM-S-7 block (currently in the development stage) and Panoramix, in block BM-S-48 (674).

In the Guará area, the Guará North appraisal well was finished in August 2010, with positive results confirming the high reserve potential of this field. During 2010, the preliminary works were carried out in order to conduct an extended well test (EWT) which will take five months, starting in December 2010. Also, there were agreements made to set up an additional drilling rig and to build a second floating production storage and offloading unit (FPSO). These works are intended to start the development of this area, with a view to starting production in 2013.

In 2010, the drilling of an appraisal well was started in the northeast zone of the Carioca area structure, with the purpose of obtaining definitive data in order to define a development plan for the field and its future production start-up, as well as conducting extended well tests (EWT), scheduled for 2011, and the drilling of an additional well. The company announced the positive results from this appraisal well (Carioca NE) in January 2011.

The BM-S-9 block has an exploration potential that should be assessed over the next two years. Two other exploration discoveries were made in 2009 (Iguazu North and Abare West), so the expectations for the rest of the block are also high.

The development plan approved in 2009 for the Piracuca field (block BM-S-7) was continued in 2010, with the objective of starting production by 2015. The exploration well Piracuca-2 in this block of the offshore area of Brazil, was finished in May 2010 with positive results. The two previous exploration appraisal wells carried out in this field in 2009 also had positive results and were the reason behind the present development of this field.

Repsol holds a 10% interest in the Albacora Leste field (Campos basin), which has been producing since April 2006. Drilling for the Creal B well in this major deepwater Brazilian oil field was finished in June 2010, with a positive result in the pre-salt objective.

The important exploration discoveries made in recent years, the development projects that are being carried out and the agreement reached with Sinopec bolster the company's strategy in offshore Brazil and represent one of the key growth projects in the Upstream division.

Bolivia

The consortium involved in the major Margarita-Huacaya gas project, one of the company's strategic initiatives, decided to begin the work on the development of Phase I in 2010. A consortium comprising Repsol (operator with a 37.5% stake), BG (37.5%) and PAE (25%) is undertaking this key project at the Margarita and Huacaya fields, in the north of Tarija state. The objective of the joint development project for the Margarita and Huacaya fields (the latter, found in 2008, was one of the five largest discoveries made in the world that year) is to increase the field's current output (2.3 Mm³/d) to an intermediate plateau of 8.3 Mm³/d in 2012, and possibly increasing the production in a second phase to 14 Mm³/d in 2013. Within the context of this development plan, the signing of a building contract for the new gas processing plant in Campo Margarita to increase current production capacity to 8.3 Mm³/d was announced in July 2010. The building works on the plant are estimated to finish within 20 months of signing the contract.

In August 2010, as part of the development drilling programme for the Rio Grande Area, located 55 kilometres southeast of the city of Santa Cruz de la Sierra, Repsol announced a large gas discovery in Bolivia in the RGD 22 development well, successfully finishing a project to deepen existing wells for the purposes of increasing the country's oil production. The finding will provide estimated total resources of 1TCF of gas. Since Rio Grande already has the necessary infrastructure, these resources could be in production shortly.

Peru

In June 2010, the natural gas supply from the Camisea field, in which Repsol holds a 10% stake, to the Peru LNG liquefaction plant, in which the company has a 20% interest, was started. The Camisea field is made up by blocks 56 and 88, and its production is aimed at the local market and at supplying the Peru LNG liquefaction plant. There are two fields in block 88: San Martin (onstream since 2004) and Cashiriari (onstream since 2009). In block 56, the Pagoreni field came onstream in 2008.

In 2010, works began on the plan for the early development of the southern part of the major discovery made in 2008 with the Kinteroni well in block 57 (one of the largest discoveries made in the world that year) located in the Ucayali-Madre de Dios basin in the country's central forest, 50 kilometres from the Camisea gas and condensate field. Repsol, with a 53.84% stake, is the operator of this block.

The early development of southern Kinteroni involves drilling two new wells and the workover of the 2008 discovery well. Before the start of the drilling phase, the approval of the required Environmental Impact Study was obtained in 2010. The drilling of the first development well started in August 2010, which finished in the fourth quarter of the same year. Drilling of the second development well and the workover of the discovery well will be carried out in 2011. Production is expected to start in 2012.

In October 2010, Perupetro awarded (pending official confirmation) exploration licenses for blocks 176, 180, 182 and 184 in the Sub-Andean Belt, to a consortium formed by Repsol (25% and operator), Ecopetrol (50%) and YPF (25%). These areas complete Repsol's exploratory positioning in the Peruvian Sub-Andean Belt. Also in 2010, Repsol obtained a 30% stake in block 101 operated by the Talisman and located in the Marañon basin.

Venezuela

Two important milestones concerning key projects for the company were reached in 2010: the discovery made with the Perla 2X appraisal well, in the Cardón IV block, and entering into the Carabobo-1 project.

In April, preliminary results from the Perla 2X appraisal well confirmed, and even improved, expectations of recoverable gas resources in this block after the major discovery in 2009 with the Perla 1X well (8 TCF). Repsol operates with a 50% stake with the Italian company ENI, the

consortium that made the discovery in Cardón IV block, where the Perla megafield is located in shallow waters of the Gulf of Venezuela.

In June, the Ministry of Energy and Petroleum of Venezuela (MPPEP) approved the evaluation plan for the Cardón IV block, which includes drilling the Perla 3X, concluded in 2010 with positive results, and Perla 4X delineation wells, started in 2010, as well as the optional drilling of another well. Furthermore, the MPPEP approved the new resource estimate, about 9 TCF, after the drilling of the Perla 2X well.

In February 2010, a consortium of international companies led by Repsol, with an 11% share, was awarded the Carabobo-1 project by the Venezuelan government. This project involves the development, along with PDVSA, of the heavy crude oil reserves in the Carabobo 1 Norte and Carabobo 1 Centro blocks located in the Orinoco Oil Belt, one of the areas with the largest undeveloped oil reserves in the world. The Carabobo area is located on the eastern side of the belt which, according to the US Geological Survey, could have a recoverable volume of up to 513 billion barrels of heavy crude oil. The estimated production that could be reached with this project is 400,000 barrels of oil per day for 40 years. The project includes building a heavy oil upgrader with a processing capacity of about 200,000 barrels of oil/day.

In May 2010, the Petrocarabobo S.A. mixed-ownership company was formed in Caracas, which is in charge of the development of the heavy crude oil reserves in the Carabobo project.

The Carabobo project will allow Repsol to increase its production and its resources, in line with its targets. Part of the heavy crude oil in the project will be sent to Repsol's Spanish refineries, which will allow the company to profit from their investment in advanced deep conversion techniques in those premises.

The Barua-Motatan productive area was effectively incorporated on 1 February 2010 as an asset to be operated by the Petroquiriquire S.A. mixed-ownership company. Back in 2009, the Venezuelan National Assembly had already stated that the development of activities by the mixed-ownership company Petroquiriquire had been approved, by means of publication in the Official Gazette of the Bolivarian Republic of Venezuela. Repsol holds a 40% stake in this mixed-ownership company, and the approved activities are to be carried out in the Barua-Motatan area, located in the Lake Maracaibo basin. The Barua-Motatan production was incorporated to Petroquiriquire S.A. on 10 February 2010. As a result, Repsol used the credit received during the process of migrating of operating contracts into mixed-ownership companies.

Trinidad and Tobago

Repsol continues to be one of the main private companies in this country, in terms of oil and gas production and reserves, along with BP, with whom it shares the ownership of the bpTT company. This enterprise, in which Repsol holds a 30% stake, operates a large productive oil area in the country's offshore zone, which in 2010 produced a total daily average of over 470,000 boe.

Furthermore, Repsol, with a 70% stake, is the operator of the TSP sea block.

Other countries

In the exploration bidding round carried out in 2010, Colombia's National Oil Agency (ANH) awarded two offshore blocks (Cayos-1 and Cayos-5), pending official confirmation, to the consortium formed by Repsol (35%), Ecopetrol (50%) and YPF (15%). In January 2011, Repsol signed an agreement with the Colombian company Ecopetrol and the Brazilian company Petrobras to acquire a share in the Tayrona offshore exploration block, located in Colombian Caribbean waters, near La Guajira peninsula. After this agreement, Repsol's interest in the block is 30%, while Ecopetrol owns another 30% and Petrobras, which will continue to operate the block, holds the remaining 40%. The operation is subject to the ANH's approval.

In Guyana in 2010, Repsol carried out the preliminary works for the drilling of the Jaguar-1X well, scheduled for the second quarter of 2011. The well is located in the Georgetown sea block and Repsol operates it while holding a 15% stake, the other partners being YPF (30%), Tullow Oil (30%) and CGX Energy (25%).

In Cuba in January 2010, Repsol signed a lease contract with Saipem to use the Scarabeo-9 drilling rig, which complies with all the technical requirements and all the limitations established by the US administration for drilling operations in Cuba. This, along with the rest of the

preliminary works carried out during 2010, will allow drilling to start on the Jagüey exploration well in the second half of 2011.

In Ecuador on 23 November 2010, the modification of the sharing contract for the exploration and exploitation of oil and gas in Block 16 was agreed. The new contract was that of a service contract will be valid until 2018, and came into effect on 1 January 2011. Likewise, on 22 January 2011, the service contract for the Tivacuno Block was signed.

Africa

Repsol's significant presence in North Africa is mainly concentrated in Libya and Algeria, countries where it holds a stake in major projects that will ensure sustained and profitable growth over the coming years. In addition, the company is consolidating its presence in West Africa, in particular in Sierra Leone, where in 2010 the Mercury-1 well yielded an important discovery. Repsol also has a stake in exploration blocks in Liberia, Angola and Equatorial Guinea.

Libya

2010 saw the completion of important works within the development plan for the "I/R" field, which started production in June 2008 and is expected to reach its maximum output potential between 2012 and 2013 once the permanent facilities are finished, with a production plateau of 75 kbb/d. Repsol holds an interest in this field, situated in the NC 186 and NC 115 blocks in the prolific Murzuq basin. Discovered in 2006, the "I/R" field, one of the most important exploration findings in the company's history and the most important one in Libya in the last decade, is one of the key growth projects defined by Repsol.

Therefore, in 2010 the four manifolds included in the development plan for the field started operations, as well as the definitive crude export line towards NC115 block's central facilities. The installations for water injection in the field were finished in 2010, and injection began at the end of the year.

Production at the "K" field in block NC186 came on stream in May 2010. This development plan had been approved by the Libyan National Oil Company, NOC, in December 2008. There are two producing wells in this field.

Algeria

In January 2010, Repsol signed an agreement with Sonatrach and the National Agency for the Assessment of Oil Resources (ALNAFT) of Algeria for the exploration and exploitation of the Sud-Est Illizi block, located in the southeast of Algeria. The consortium developing the exploration activities is formed by Repsol (52.5%) as the operator, the Italian company Enel (27.5%) and the French-Belgian GdF-Suez (20%).

The awarding of this new block in December 2009, reinforces Repsol's position in Algeria, where the company has an important presence in the Reggane, Tinfouye Tabenkort and Tifernine areas, and confirms this country as one of the company's growth areas.

Regarding the major gas project in Reggane, during 2010 the company worked with the Algerian authorities on the final steps to launch a development plan for the block, and works are scheduled to start in 2011. The Development Plan includes the drilling and completion of 74 wells, further drilling work to deepen 10 additional wells, and workovers on another 12 existing wells. Gas production is expected to start in late 2014 or 2015. Repsol is the operator in this project, with a share of 29.25%, while RWE owns 19.5%; Edison, 11.25%; and Sonatrach, the Algerian national company, the remaining 40%.

Sierra Leone

During 2010, Repsol and its partners Anadarko and Tullow, made a second deepwater discovery in this country. This new hydrocarbon discovery, made in the Mercury-1 well, is a clear indication of the potential of an area that has been virtually unexplored up to now. New wells will be drilled to determine the commercial viability of the zone.

This discovery adds to the success of the Venus B-1 well, in which gas and liquid hydrocarbons were found at a depth of 5,639 metres. The Mercury-1 well was drilled about 64 kilometres southeast of the Venus B-1 well.

Repsol is a pioneering company in the exploration of this African region. The company's operations, started in 2003, have discovered an area with a high potential, and where further exploration will be carried out in collaboration with its partners.

Europe

Norway

In January 2010, during the APA 2009 round, the Norwegian government awarded two new exploration licenses (PL-541 and PL-557), specifically in the North Sea and the Norwegian Sea, to two consortiums in which Repsol is involved.

Repsol is the operator of the PL-541 license, located in the Norwegian part of the North Sea. The company holds a 50% stake in this contract, along with the Italian company Edison (35%) and the Norwegian Skagen (15%). This award is the first for Repsol as an operator on the Norwegian Continental Shelf (NCS), and implies the Norwegian authorities' recognition, highly rated in the sector, of the company's abilities.

Regarding the second license, PL-557, located in the Norwegian Sea, Repsol holds a 40% stake in partnership with the Austrian OMV (50% and operator) and the Norwegian company Skagen (10%).

Furthermore, in June 2010 Repsol acquired a 40% stake in the PL-356 licence, operated by DetNorske which holds the remaining 60%, and which is located in the southern area of the North Sea, in the Norwegian sector.

In 2009, Repsol opened a permanent office in Oslo, Norway's capital, in line with its geographical diversification and with the objective of increasing the company's presence in this Scandinavian country.

Spain

During the year, Repsol made progress in the works towards the development of the oil fields discovered in 2009, Montanazo D-5 and Lubina-1, in the Mediterranean Sea. The production plan schedules them to come onstream in 2011 through the Casablanca platform, will make it possible to extend production of Repsol's existing fields in this area (Casablanca, Boqueron, Rodaballo, and Chipiron) as well as the useful life of this platform.

In 2010, Repsol finished and submitted the Environmental Impact Study, and also the equipment's detail engineering to the authorities, and requested the operating license.

Also in 2010, Repsol was awarded the Turbon exploration block in the South Pyrenean basin.

Liquefied Natural Gas (LNG)

Activity and context

LNG activities include the liquefaction, transportation, marketing, and regasification of liquefied natural gas, in addition to electricity generation activities in Spain not conducted by Gas Natural Fenosa and natural gas marketing in North America. Since 1 January 2008, the information in this section refers solely to the Repsol Group's LNG commercial segment. For information on YPF's LNG activities, please refer to the chapter on this company and its affiliates contained in this Consolidated Management Report.

The LNG market in 2010 was marked by the recovery of gas demand, both in Europe and in the Far East. In Europe, the increase in the first six months was about 10% more than the previous year.

Regarding prices, the year began with the American market and its benchmark, the Henry Hub (HH), setting the market price and defining the spot transactions in the Atlantic basin. However, in the second quarter of the year, the American market began to lose ground against the European market and the National Balancing Point (NBP) became the benchmark for the spot transactions, both in the Atlantic and in the Pacific basins. The market took advantage of differentials of up to US\$ 4.5/Mbtu between the NBP and the HH to carry out several diversions from the American terminals to Europe.

The drop in the American benchmark could be related to the lower production cost of shale gas. The NBP has kept its value, helped by the decline of the North Sea reserves and by the UK gas sales to Central Europe (an alternative to Brent-indexed long term contracts).

With regard to the power generation market, the average Spanish electricity pool price in 2010 was €37.0/MWh, similar to the price in 2009. Electricity demand in the peninsula during 2010 was 259,940 GWh, 3.2% higher than in 2009. With the temperature effect adjustments, annual growth was 2.9% versus the 4.8% fall recorded in 2009.

Regarding the production balance in Spain, the most significant fact was the outstanding 59% growth of hydraulic power generation, which covered 14% of the demand versus 9% in 2009. At the other end of the scale were the coal and combined cycle groups, where production has dropped off markedly compared to the previous period, 34% and 17%, respectively.

Results

The operating income from LNG operations was €105 million in 2010 in comparison with the negative result of €61 million a year earlier. 2010 EBITDA was €277 million compared to the €150 million recorded in 2009.

The improvement in these results is mainly due to larger LNG trading margins and volumes in 2010, partially offset by the effects of discontinuing the Persian LNG project. In 2009, this area's operating income was negative, a figure that includes the losses stemming from adverse arbitration decisions such as the Gassi Touil dispute.

Assets and projects

One of the milestones in 2010 was the start-up of the Peru LNG liquefaction plant in Pampa Melchorita, in June, in which Repsol holds a 20% interest, and of a gas pipeline linking up with the existing one in Ayacucho. The other partners in Peru LNG are Hunt Oil (50%), SK Energy (20%) and Marubeni (10%). The Camisea consortium, in which Repsol also has a 10% stake, supplies natural gas to this plant.

This plant, with a nominal capacity of 4.4 million tons per year, processes 17 million m³ of gas per day. It has the two largest storage tanks in Peru (with a capacity of 130,000 m³ each) and a sea terminal over one kilometre long to receive ships with capacities between 90,000 and 173,000 m³.

Additionally, the project includes Repsol's exclusive marketing of the liquefaction plant's entire production. The term of the gas purchase agreement entered into with Peru LNG is 18 years from the start of commercial operations. This is the largest LNG acquisition ever made by Repsol in terms of volume.

In September 2007, Repsol was awarded a contract in an international tender sponsored by the Federal Electricity Commission (CFE) for the supply of LNG to the natural gas terminal in the port of Manzanillo on Mexico's Pacific coast. The contract entails supplying over 67 bcm of LNG to the Mexican plant over a fifteen-year period. The Manzanillo plant, which will supply gas to the CFE power plants in the central-western area of Mexico, will receive gas from Peru LNG, and is set to start operations in the second half of 2011.

The start of production in the Canaport LNG regasification plant, a Repsol (75%) and Irving Oil (25%) partnership, took place in June 2009. This is the first LNG regasification plant on Canada's eastern shore. Located in Saint John (New Brunswick) and with an initial send-out capacity of 10 bcm/year (1 billion cubic feet per day), the Canaport terminal is one of the largest in North America and supplies markets on the eastern coast of Canada and the north-eastern United States. Repsol, the operator of this plant, supplies the LNG that feeds the terminal and is entitled to the entire regasification capacity. The third tank, which started operations in April 2010, can receive loads from the largest LNG carriers in the world.

A multi-year LNG supply agreement was signed in 2010 with Qatargas for the Canaport LNG plant. The supply will be carried out using Q-Flex and Q-Max carriers, the largest in the world, whose capacities are 210,000 and 260,000 m³, respectively, Canaport LNG one of the few plants in the world that can receive these ships at its offshore terminal. This agreement bolsters Repsol's position as a reliable, diversified and flexible natural gas provider for the Canadian and north-eastern American markets.

Repsol is present in the Trinidad and Tobago integrated LNG project, in which it holds a interest alongside BP, BG and others, in the Atlantic LNG liquefaction plant. The strategic

geographical location of this plant enables it to supply markets in the Atlantic Basin (Europe, the United States, and the Caribbean) under very advantageous economic conditions.

This plant has four liquefaction trains with a combined capacity of 15 million tons per year. Repsol holds a 20% stake in train 1, a 25% stake in trains 2 and 3, and 22.22% in train 4 (the latter is one of the largest in the world, with an output capacity of 5.0 million tons/year). In addition to its interests in the liquefaction trains, Repsol plays a leading role in gas supplies and is one of the main purchasers of LNG.

Repsol holds a 25% stake in Bahia de Bizkaia Electricidad S.L. (BBE). This company owns a combined cycle power plant with 800 MWe installed capacity. The plant uses natural gas delivered by BBG as its main feedstock. Power generated at this plant is fed to the grid for residential, commercial, and industrial consumption. In 2010, the availability rate of the plant, situated in Bilbao Harbour, was 83% and the load factor was less than 46%, both parameters much lower than in 2009, due to the scheduled stoppage in October 2010, when it reached 48,000 operating hours, and another unscheduled stoppage due to problems found during this review. Furthermore, generation was lower in the first half of the year, because of the increase in hydraulic and renewable power generation.

In 2010, Repsol sold its 25% share in BBG; Enagas bought 15% of it, while the Basque Energy Agency (EVE) and a German infrastructure fund purchased 5% each. This company owns a regasification plant with unloading facilities for methane tankers of up to 140,000 m³; two 150,000 m³ LNG storage tanks, and a vaporisation capacity of 800,000 Nm³/hour. Its enlargement has been further supplemented by building a third 150,000 m³ storage tank and improving its regasification capacity by an extra 400,000 Nm³/hour.

In December 2007, Repsol and Gas Natural SDG signed a shareholders' agreement with Sonangol Gas Natural (Sonagas) with the aim of starting work on developing an integrated gas project in Angola. This initiative involves the appraisal of gas reserves to determine the investments that would be required for their development and export in the form of liquefied natural gas. In accordance with the timetable, Repsol and Gas Natural SDG, through Gas Natural West Africa (GNWA) were involved in the exploration activities currently being undertaken by Sonagas, the operator of the consortium in which GNWA holds a 20% interest, followed by Sonagas (40%), Eni (20%), Galp (10%), and Exem (10%).

As part of the significant structural and legal progress achieved to date, an office was set up in Luanda and gas and mining rights were awarded by the Government of Angola. The Concession Decree was approved by the Council of Ministers, confirmed by the National Assembly and published in the Official Gazette. In addition to this, the Risk Service Agreement was signed in July 2010.

Moreover, drilling on the Garoupa-2 well was finished in January 2011. As it progresses, it will allow for the assessment of the consortium's potential gas resources in this field.

In Brazil, Repsol signed a contract in December 2009 to join the consortium formed by Petrobras (51.1%), BG (16.3%), Galp (16.3%) and Repsol (16.3%) which will be responsible for the technical engineering studies—Front End Engineering Design (FEED)—prior to the installation of a floating LNG plant in the BSM-9 and BSM-11 fields. These studies serve to assess the floating liquefaction plant's technical and economic viability. Three parallel studies are being conducted with three different consortiums to reduce technical uncertainties in a trailblazing development for the LNG industry and to create the necessary competition among the various contractors in order to optimise development and construction costs. The results of these studies will also be compared with other logistical solutions for extracting gas in the Brazilian pre-salt area in order to select the best option for capitalising on these resources. In the event that the project is finally declared feasible, Repsol will be guaranteed the option of participating in the construction of the plant.

In May 2010, Repsol notified the National Iranian Oil Company (NIOC) and Shell of its intention to discontinue its participation in the Persian LNG project.

LNG transport and marketing

The Repsol-Gas Natural LNG (Stream) 50-50% joint venture is one of the leading LNG marketing and transport companies in the world and one of the most important operators in the Atlantic basin. One of this company's objectives is to optimise management of both partners' fleets, which includes 15 gas tankers.

In 2010, Repsol, with management support from Stream, marketed 6.7 bcm of LNG, 49% more than in 2009, most of which was from Trinidad and Tobago and the new Peru LNG liquefaction plant, which was started up in June 2010. The cargoes' main destination was Spain and Canaport LNG, although there were sales both in the Atlantic basin (Europe and America) and in the Pacific basin.

Regarding ships, at year-end 2010, Repsol had seven LNG vessels, and a further two whose ownership is shared (50%) with Gas Natural Fenosa, all of them under time charter agreements, with a total capacity of 1,248,630 m³. Four of these methane tankers were added during 2010, linked to the start-up of the Peru LNG project, one from Naviera Elcano and three more from Knutsen OAS. The four ships have a nominal capacity of 175,000 cubic metres of LNG each and are equipped with state-of-the-art technology.

In addition to this, Repsol has leased a further two LNG vessels for 33 months and occasionally rents vessels for short-term leases.

Investments

Investments in the LNG business in 2010 totalled €82 million, 34% less than the €125 million invested in 2009. This amount was mainly used to build the third tank for the Canaport LNG regasification terminal, as well as the Floating LNG Brazil and Angola LNG projects.

Divestments

In July 2010, Repsol sold its 25% share in BBG to Enagas and other minor shareholders, for €31 million.

Downstream

The Repsol Group Downstream business comprises the supply and trading, refining and marketing of oil and oil products, LPG and chemicals. The information in this section does not include YPF's activities. For information on YPF's Downstream activities, please see the section on this company and its affiliates contained in this Consolidated Management Report.

Results

Operating income (millions of euros)	2010	2009	2010/2009
Europe	1,182	800	48%
Rest of the World	122	222	-45%
TOTAL	1,304	1,022	28%

Operating income in the Downstream business was €1,304 million, up 28% in comparison with the €1,022 million posted in 2009. The key aspects of these results are:

- A recovery in the margins and volume of the chemical business.
- A better result for the refining business due to the increase in refining margins for the company.
- A good performance in the marketing business, with solid margins.
- The effect of considering the inventories at the average cost, instead of the current cost of supplies (CCS), was €498 million in 2010, compared to €367 million in 2009, due to the rise in the price of oil and its derivatives.

Refining

The Repsol Group owns and operates five refineries in Spain (Cartagena, A Coruña, Petronor, Puertollano, and Tarragona), with a combined distillation capacity of 776,000 barrels per day (in Tarragona the share in Asfaltos Españoles S.A is included). Installed capacity at La Pampilla refinery (Peru) in which Repsol holds a 51.03% stake and is the operator, is 102,000 barrels per day. Until 14 December 2010, when this stake was sold, Repsol also had a 30% interest in the Refap refinery (Brazil) with a total capacity of 190,000 barrels per day.

The refining activity and its context

In 2010, the Refining division's activity and earnings continued to be heavily affected by the international economic crisis. During 2009 the demand for oil products fell, especially in medium distillates, resulting in narrower spreads in relation to oil and, consequently, having a very adverse impact on refining margins. Likewise, weaker demand for oil products led to a reduction in heavy oil supply in the market, as producing countries maximised the production of light oil in order to compensate for lower revenues. The reduced availability of heavy oil resulted in narrower spreads between heavy and light oil, also putting pressure on refining margins, particularly affecting facilities with a large conversion capacity, such as Repsol's.

The International Energy Agency has revised the demand of oil products in 2010 upwards, after two years (2008 and 2009) of relentless falls. The increasing demand comes mainly from emerging countries, with China and India leading the trend. The fall in European markets continued during 2010, and it is expected that this tendency will prevail in 2011. This behaviour of demand in the OECD zone has caused some non-competitive refineries to be shut down or transformed into storage facilities in 2009 and 2010.

The beginning of the recovery of demand for oil products at global level, which involves an increase in crude demand, along with the decrease in refining capacity caused by some refineries closing, has led to an improvement in the spread for crude and light-heavy products in 2010 compared to the previous year, reflected in a modest recovery of refining margins during this year.

The refining margin in Spain in 2010 was US\$ 2.5/bbl, higher than in 2009 (US\$1.3/bbl), thanks to the aforementioned improvement in spreads. As for Peru, the refining margin in the year was US\$ 4.2/bbl as opposed to US\$ 4.1/bbl in 2009.

The table below shows the refining capacity of the refineries in which Repsol held a stake as of 31 December 2010:

	Primary Distillation	Conversion Index (2)	Lubricants
REFINING CAPACITY (1)	(thousand barrels per day)	(%)	(thousand tons per year)
Spain			
Cartagena	100	–	155
A Coruña	120	66	–
Puertollano	150	66	110
Tarragona	186	44	–
Bilbao	220	32	–
TOTAL REPSOL (SPAIN)	776	43	265
Peru			
La Pampilla	102	24	–
TOTAL REPSOL	878	40	265

(1) Information disclosed in accordance with the Repsol Group consolidation criteria: all the refineries mentioned are included in the Group's financial statements through full consolidation. The reported capacity in Tarragona includes the shareholding in ASESA.

(2) Defined as the ratio between the equivalent capacity coefficient of Fluid Catalytic Cracking (FCC) and primary distillation capacity.

In this context, Repsol's refineries managed by the Downstream division processed 34.4 million tons of oil, 2% less than in 2009. The average use of the refining capacity in Spain was 73.6% versus 74.5% the previous year. In Peru, the degree of utilisation was lower than in 2009, dropping from 76.7% to 71.2% in 2010.

The table below shows a breakdown of the refineries' production, by their main products:

PRODUCTION	2010	2009
Feedstock processed (1)(2)		
Crude	34,410	35,135
Other feedstock	7,321	6,350
TOTAL	41,731	41,485
Refining production (2)		
Intermediate distillates	18,668	18,922
Gasoline	9,084	7,090
Fuel oil	6,081	6,230
LPG	1,166	956
Asphalts (3)	1,478	1,768
Lubricants	275	103
Other (except petrochemicals)	2,250	1,552
TOTAL	39,002	36,621

(1) Information disclosed in accordance with the Repsol Group consolidation criteria: all the refineries mentioned are included in the Group's financial statements through full consolidation, with the exception of Refap, which is presented considering the Group's 30% interest in 2009 and 2010. This stake was sold on 14 December 2010.

(2) Thousands of tons

(3) Includes 50% of the Asfaltos Españoles S.A. (ASESA) asphalt production, in which Repsol and Cepsa own 50% shares. Repsol markets 50% of ASESA's products.

The table below shows the origin of processed crude oil in the Group's refineries, as well as the sales of oil products.

ORIGIN OF CRUDE OIL PROCESSED	2010	2009
Middle East	22%	22%
North Africa	19%	16%
West Africa	11%	10%
Latin America	25%	27%
Europe	23%	25%
TOTAL	100%	100%

OIL PRODUCT SALES	2010	2009

(1) Exports: expressed from country of origin.

(2) "Other sales" including sales to operators and bunker sales.

Repsol continues to implement its ambitious investment plan to increase refining capacity and conversion, while also enhancing safety, the environmental impact, and the efficiency of its facilities. In the medium and long-term, the reactivation of the global economy, which already showed some positive signs in 2010 and should continue to consolidate in 2011 (according to forecasts from various international organisations) will ensure the profitability of the projects undertaken by the company.

The projects to enlarge and increase conversion in the Cartagena refinery and increase conversion in the Petronor refinery (URF) are key aspects of this investment plan. Progress was made in 2010 towards developing both these projects as planned and, accordingly, the new facilities are expected to start operations by the third quarter of 2011. With these investments, the conversion capacity of Refining Spain, measured in FCC equivalent, would grow from 43% to 63%.

The enlargement of the Cartagena refinery is a key initiative in the Horizon 2014 Plan. The €3,262 million investment will make this one of the most modern facilities of its kind in the world and will double its capacity to 220,000 barrels/day. A hydrocracker, a coker, atmospheric and vacuum distillation units, and desulphurisation and hydrogen plants are among the main units featured in this project. Great progress was made on this project in 2010 in line with the timetable. About 6,000 people are already working on the project, expected to be completed in 2011, with the start-up scheduled for the third quarter. Nearly 700 jobs will be created once the project comes onstream. This project makes it possible to maximise the production of clean fuels for the transportation sector. More than 50% of the products that this facility will manufacture will be medium distillates, significantly contributing to addressing the shortage of these products in Spain.

As part of the Repsol Group's plan to integrate people with disabilities, the company has set the goal to incorporate about a hundred disabled people in its many industrial complexes. To this end, during 2010 Repsol carried out a survey in the Puertollano Industrial Complex, in collaboration with FSC Inserta (Fundación Once), to assess sixty positions that could be taken on by people with disabilities.

Marketing

Repsol markets its oil products through a large network of service stations under a multi-brand strategy; Repsol, Campsa, and Petronor in Spain, and Repsol in other countries where the Downstream business operates. In addition, marketing activity includes other sales channels and the marketing of a wide range of products such as lube oils, bitumen, coke, and derivatives.

Total oil product sales (excluding LPG) amounted to 38,613 thousand tons, 2.2% less than in the previous year. This decrease was due to a weaker demand, particularly in Spain. Sales were down 1.6% in Europe and down 4.3% in the rest of the world.

Regarding own marketing sales, light products sales fell 0.4% in Spain while in other countries sales grew 5.3%.

Despite lower sales volumes, Repsol's Marketing area was able to manage the sales margin efficiently both in the service station channel and in the wholesale market, contributing considerable income growth, in line with the previous year's trends. The maintenance of a strict credit risk control policy implemented throughout 2010 had a positive impact in the division's earnings.

At the end of 2010, Repsol had a network of 4,447 service stations in countries where the Downstream business operates. The network in Spain was comprised of 3,600 retail outlets, 72% of which had a strong concessionary link to the network, and 26% were company-owned and operated (932). Service stations in other countries were spread throughout Portugal (424), Italy (158), and Peru (265).

The retail outlets (service stations and supply units) of the Downstream business as of 31 December 2010 were as follows:

Points of sale	Owned or controlled by Repsol (1)	Flagged (2)	TOTAL
Spain	2,583	1,017	3,600
Peru	116	149	265
Portugal	266	158	424
Italy	51	107	158
TOTAL	3,016	1,431	4,447

(1) Owned by Repsol or controlled by Repsol pursuant to long-term commercial agreements or other types of contractual relations that ensure its direct long-term control over these retail outlets.

(2) "Branded" refers to service stations owned by dealers with whom Repsol has entered into a new branding agreement that entitles Repsol to (i) be the sole supplier of these service stations and (ii) allows the service station to use its brand. The maximum term of these agreements in Spain is five years.

In Spain, Repsol markets its gasoline under the Repsol, Campsa, and Petronor brands, with the following distribution as of 31 December 2010:

Points of sale by brand	Retail outlets
Campsa	328
Repsol	2,932
Petronor	313
Other	27
TOTAL	3,600

In 2010, Repsol continued to implement the commitments offered to the EU in 2006 which include the possibility of rescuing certain long-term supply contracts by some dealers who operate the service stations.

The REPSOL MAXIMA card was launched in 2010, and gives a 2% discount on fuel and 5% in all Repsol, Campsa and Petronor service station stores.

The growth of international activities is offsetting the decrease in traditional markets. For instance, in the lube oil business, Repsol has signed an agreement with the Malaysian industrial group UMV for the manufacturing and distribution of Repsol lube oils in Malaysia, China and other countries of the region.

In-keeping with its commitment to the community, Repsol continued to promote projects to integrate people with disabilities. By the end of 2010, the company employed 246 disabled people in the Marketing division, representing 3.5% of its workforce.

Liquefied petroleum gas (LPG)

Repsol is one of the leading retail distributors of LPG in the world and ranks first in Spain and Latin America. The company operates in nine countries in Europe and Latin America.

LPG sales in 2010 totalled 3,108 thousand tons, 3.8% more than in 2009. Total sales in Spain grew by 0.9% compared with the previous year. Repsol distributes bottled, bulk, and piped LPG in Spain through collective distribution networks and has more than 10 million bottled LPG customers supplied through a network of 243 distribution agencies. Bottled LPG sales accounted for 61% of total retail LPG sales in Spain in 2010.

	(thousand tons)	
Sales volumes of LPG	2010	2009
Spain	1,503	1,489
Latin America	1,428	1,316
Argentina	332	303
Bolivia	10	10
Chile	199	200
Peru	497	411
Ecuador	368	372
Other (1)	22	20
Rest of the World	177	187
TOTAL	3,108	2,993
Sales volumes of LPG		
Bottled	1,761	1,770
Bulk, piped and others (2)	1,347	1,222
TOTAL	3,108	2,993

(1) Brazil

(2) Includes sales to the automotive market, LPG operators and others.

LPG margins in 2010 were lower than the previous year, in particular in the bottled gas channel in Spain, due to the modification of the pricing system by the Spanish Ministry of Industry, Tourism and Trade in September 2009. According to the new formula, 25% of the price to be applied in the forthcoming quarter would be linked to international prices at the end of the previous quarter and the remaining 75% would depend on the maximum price prevailing at the end of the quarter just ending. The variation in this formula had an adverse impact on fourth quarter 2009 results and in those of 2010; if this trend remains in place and international prices continue to climb, 2011 results will also be adversely affected.

In Portugal, Repsol distributes bottled and bulk LPG to end customers and supplies other operators. Sales in 2010 reached 162,000 tons, making the company the third biggest operator with a 21% market share.

In Latin America, Repsol is the leading LPG distributor in Argentina, Ecuador, Peru, and Chile. It markets bottled and bulk LPG in Argentina to the residential, commercial, and industrial sectors, with sales totalling 332,000 tons.

Between 28 September and 1 October 2010 the 23rd World LPG Forum, 2010 AEGPL Congress, 25th AIGLP Congress & Global Technology Conference took place in Madrid, in which Repsol was a very active participant. In these events, the importance of LPG was stressed in the fight against climate change and in improving air quality, as well as its role as a sustainable fuel with a leading position among alternative energy sources.

Over the last few years, Repsol has been developing several research, development and innovation programmes based on the use of LPG as an alternative fuel. A few examples of this are the SolarGas application, a ground-breaking, integral energy supply system combining solar energy with LPG to provide hot water to homes and businesses in a sustainable, economic manner with very low CO₂ emissions; the Autogas application, where LPG is used as an automotive fuel with considerable environmental advantages due to its low emissions compared to other fuels; and new uses in agriculture, fishing and the development of products and services, such as Portugal's Easy Gas.

Chemicals

The chemical business, part of the Downstream division, involves the production and marketing of a wide range of products from base to derivative petrochemicals. Its products are marketed in over 90 countries leading the market in the Iberian peninsula.

Production most significant facilities include three petrochemical complexes located in Sines (Portugal), and Puertollano and Tarragona (Spain), where there is a high level of integration between basic and derivative chemicals, as well as with refining activities. Repsol also has a number of subsidiary and affiliate companies, through which the company produces styrene derivatives, chemical specialties and synthetic rubber. The latter is produced through Dynasol, a 50% partnership with the Mexican KUO group, with plants in Mexico and Spain.

Operating income in the chemical business, part of the Downstream division, experienced a great improvement compared to the previous year, with a return to positive values. The improved situation, both in terms of margins and demand, together with the implementation of strong measures to reduce costs and optimization and plant's production adjustments have allowed to reverse the situation of losses of 2008 and 2009, although the business is still remains in a low cycle.

Sales to third parties in 2010 amounted to 2.6 million tons, 13.5% more than the 2.3 million tons sold in 2009.

As an example of the efficient integration with the refining activity, in June Repsol acquired the Neste Oil Portugal company, owner of the ethyl tert-butyl ether (ETBE) plant located in the Sines complex, with a production capacity of 50,000 tons per year.

In December, Dynasol, a Repsol Group subsidiary, signed an agreement with the Chinese company Shanxi Northern Xing'an Chemical Industry (Xing'an) to form a joint venture for the manufacturing and marketing of synthetic rubber in China. The new plant will increase Dynasol's production capacity by 50% making the company a global producer with plants in Europe, America and Asia.

In addition, during 2010 revamping of the cracker unit at the Tarragona plant continued, achieving the capacity of 702,000 tons of ethylene. The rest of the investments were used to

improve existing assets, achieve greater efficiency and, cost reductions as well as improving product quality, safety and environmental standards.

OPERATING HIGHLIGHTS (CHEMICALS)	Thousand tons		
	2010	2009	% variation 2010/2009
Capacity			
Basic petrochemicals	2,808	2,679	4.8
Derivative petrochemicals	2,933	2,933	0.0
TOTAL	5,741	5,612	2.3
Sales by type of product			
Basic petrochemicals	874	567	54.2
Derivative petrochemicals	1,744	1,739	0.3
TOTAL	2,618	2,306	13.5
Sales by region			
Europe	2,263	2,000	13.2
Rest of the World	355	306	16.0
TOTAL	2,618	2,306	13.5

Production capacity for the main petrochemical products in the Downstream business, mainly in Europe as of 31 December 2010 is detailed in the following table:

PRODUCTION CAPACITY		TOTAL
		Thousand tons)
Basic petrochemicals		
Ethylene		1,362
Propylene		904
Butadiene		202
Benzene		290
Ethyl tert-butyl ether		50
Derivative petrochemicals		
Polyolefins		
Polyethylene ⁽¹⁾		875
Polypropylene		520
Intermediate Products		
Propylene oxide, Polyols, Glycols, and Styrene Monomer		1,189
Acrylonitrile/Methyl methacrylate		166
Rubber ⁽²⁾		115
Other ⁽³⁾		69

(1) Includes ethylene vinyl acetate (EVA) and Ethylene butyl acrylate (EBA) copolymers.

(2) Includes 55,000 tons of production capacity in Mexico.

(3) Includes styrene derivatives and specialties.

New energy sources

The New Energies Business Unit was created in 2010, assigned to the Downstream Division, to promote and provide business sense to the new initiatives contributing to a vision of the future where energies are more diversified and produce fewer CO₂ emissions.

The aim of Repsol's New Energies Business Unit is to identify new opportunities, promote projects and carry out business initiatives in fields such as bioenergy and renewable energies applied to transport and other areas that could have synergies with Repsol's current business and the geographic areas in which it operates. It also develops new business related with CO₂ reduction and CO₂ marketing, in particular CO₂ capture and storage.

In this context, on 4 August 2010, Repsol announced the acquisition of a 20% share in AlgaEnergy, a leading company in microalgae research. The agreement complements and strengthens Repsol's research into the use of microalgae for the production of second-generation biofuels, and its entrance into AlgaEnergy speeds up and diversifies its R+D+i strategy in this field. With this stake, Repsol enters in a business project with a technological basis and of high scientific quality for the selection, improvement, farming and marketing of microalgae, including the capture and storage of CO₂, and the harvesting of raw materials for biofuel. Simultaneously, Repsol will continue developing other research lines in this field.

On 16 September, Repsol agreed to buy 47% of Orisol, an international company that promotes renewable energy projects, which boasts professional that is highly regarded in the sector.

On 13 October, Repsol and Ente Vasco de Energia (EVE - Basque Energy Agency) announced the creation of IBIL, a company that manages the recharging of electric vehicles. This company, where both Repsol and EVE hold a 50% stake each, is located in Bilbao and its mission is the development of a network for recharging the batteries of electric vehicles and the marketing of recharging services (electricity and added value services) in the private and public sectors; its aim is to become the leading company in the Basque Country in terms of recharging points and a technological benchmark for the electrical vehicle recharging technology market.

On 28 October, Repsol and the Mexican Group KUO signed an agreement to create a joint venture called KUOSOL, devoted to the development of bioenergy by farming jatropha curcas, an oilseed with high non-edible oil content. KUOSOL will be owned by Repsol (50%) and the KUO Group (50%), its headquarters will be in Mexico and it will receive a total investment estimated at US\$ 80 million. Its activities range from farming to the industrial facilities, and its objective is to fully harness the biomass from the jatropha curcas plantations, the production of oil as the raw material for biofuel and the generation of bioenergy, with high sustainability criteria.

Investments

Investments in Downstream totalled €1,613 million, down 2% compared to €1,649 million the previous year. Most of this amount was spent on ongoing refining projects, particularly in Spain, upgrading operations, installations and fuel quality, and on safety and the environment, as described above.

Divestments

On 25 March 2010, Repsol, Petronor and BBK signed an agreement through which BBK purchased a 5% stake in CLH that Repsol indirectly owned through Petronor. The selling price was €145 million. Repsol thus reduced its interest in CLH to 10%, while a competitive process is still open to divest a further 5% in the logistics company.

In December 2010, Repsol sold Petrobras its 30% stake in the Refinería Alberto Pasqualini (Refap), located in the Brazilian state of Rio Grande do Sul, for the amount of US\$ 350 million (€ 261 million). With this sale Repsol brought the process to sell non-integrated Downstream assets in Latin America, which had started in 2007, to a close.

YPF

Since 1 January 2008, the date on which the new organisational structure of the Repsol Group was presented, the value chain integrated activities (exploration, production, refining, logistics, marketing, and chemicals) conducted by YPF and its affiliates, have been reported separately. In essence, most YPF operations, assets, and clients are located in Argentina.

In April 2010 the company's new strategic lines for the 2010-2014 period were presented under the name *YPF, un proyecto de futuro* (YPF, a plan for the future). This is an action plan that is based on values and ideas such as efficiency, quality, safety, responsibility, austerity, commitment and profitability.

The major aspect in the action plan supporting this strategy, is the 2010-2014 Exploration Development Programme, presented at the end of 2009 in the presence of the president of Argentina, Cristina Fernandez de Kirchner and other authorities. The key objective of this plan is to obtain information on all exploration blocks that could contain oil and gas reserves which the Government of Argentina or the local authorities have not yet awarded to any company. This programme also includes improving the oil recovery factor by applying new technologies and the development of unconventional gas, such as shale oil, tight gas and shale gas. Within this programme's framework, there have been agreements signed with 12 provinces, although this project's goal is to cover the whole country.

Results

YPF posted €1,453 million in operating income in 2010, 42.3% more than the €1,021 million recorded in 2009.

This increase is a result of bringing fuel prices in service stations closer to the international parity in dollars, and of the higher international product prices, which affect both the income stemming from exports (such as fuel oil and petrochemicals) and the income from those products whose prices, despite being sold in Argentina's internal market, are linked to international prices, such as petrochemicals, aviation fuel and LPG.

The average annual production was 541 kboe/d, compared to 572 in 2009, a 5.4% decrease. The decrease has been 7.9% in gas, and 3.2% in production of liquids, and 1.6% in crude oil. The smaller drop in crude oil production is a result of the investment effort carried out as a response to the Petroleo Plus programme.

Investments

Investments were €1,548 million compared to €956 million the previous year. About 70% of the money spent in 2010 was used in the development of oil and gas exploration and production projects, and nearly 27% was spent in updating projects for the refining and chemical production system.

Upstream

This is the area in charge of exploration, exploitation and production of hydrocarbons, mainly in Argentinean territory, the source for the rest of the company's value chain. In Argentina the company has 26 onshore and offshore exploration blocks with a surface area of over 110,000 km², being direct or associate operator in 91 productive areas located in the Neuquén, Golfo de San Jorge, Cuyo, Noroeste and Austral basins. The company also develops activities in the United States and Guyana, through YPF International.

Exploration and development activities

The following tables show the number of positive and negative exploration wells and of appraisal wells by geographic area in 2009 and 2010:

	As of 31 December 2010 ⁽¹⁾							
	Positive		Negative		Under evaluation		TOTAL	
	Gross	Net	Gross	Net	Gross	Net	Gross	Net
Argentina	6	6	8	6	–	–	14	12
United States	–	–	–	–	–	–	–	–
TOTAL	6	6	8	6	–	–	14	12

	As of 31 December 2009 ⁽¹⁾							
	Positive		Negative		Under evaluation		TOTAL	
	Gross	Net	Gross	Net	Gross	Net	Gross	Net
Argentina	3	1	14	8	–	–	17	9
United States	–	–	1	*	–	–	1	*
TOTAL	3	1	15	8	–	–	18	9

⁽¹⁾ A gross well is a well in which YPF owns a working interest. The number of net wells is the sum of the fractions of interest held in gross wells.

* Fewer than one exploratory well.

The following tables show the number of both positive and negative development wells that have been drilled in each geographic area in 2009 and 2010:

	As of 31 December 2010 ⁽¹⁾					
	Positive		Negative		TOTAL	
	Gross	Net	Gross	Net	Gross	Net
Argentina	709	616	8	7	717	623
United States	–	–	–	–	–	–
TOTAL	709	616	8	7	717	623

	As of 31 December 2009 ⁽¹⁾					
	Positive		Negative		TOTAL	
	Gross	Net	Gross	Net	Gross	Net
Argentina	494	402	18	18	512	420
United States	1	*	–	–	1	*
TOTAL	495	402	18	18	513	420

⁽¹⁾ A gross well is a well in which YPF owns a working interest. The number of net wells is the sum of the fractions of interest held in gross wells.

* Fewer than one exploratory well.

Acreage

The table below shows information on YPF's developed and non-developed acreage, by geographic area, as of 31 December 2010:

(km ²)	As of 31 December 2010			
	Developed ⁽¹⁾		Undeveloped ⁽²⁾	
	Gross ⁽³⁾	Net ⁽⁴⁾	Gross ⁽³⁾	Net ⁽⁴⁾
Argentina	4,603	3,264	143,988	72,033
Guyana	–	–	8,400	2,520
United States	117	16	1,161	672
TOTAL	4,720	3,280	153,550	75,224

(1) A developed acreage is the area assignable to producing wells.

(2) The non-developed acreage covers the surface area in which no wells have been drilled, or where any wells have not been drilled to the point of permitting oil and gas production in economically viable quantities, regardless of whether said area has proven reserves or not. The amounts shown belong to the acreage, both in terms of exploration and exploitation.

(3) The gross acreage figures do not take into account Repsol YPF's percentage stake in it.

(4) The net acreage is the sum of the interests held in the gross acreage.

Discoveries

In December 2010, a major discovery of unconventional natural gas (shale gas) in the Neuquén basin was confirmed; the volume of this relevant discovery is still under assessment. Also, an important discovery of shale oil was made in the same basin in the Quintuco field's PSG x2 well, currently in production. Also in this basin, to the south of the Loma La Lata area, the existence of unconventional gas with an estimated volume of approximately 4.5 TCF has been confirmed after drilling four tight gas exploration wells. These discoveries are part of the Exploratory Development Plan 2010-2014 and can be added to other exploratory projects undertaken in the Neuquén basin that show signs of significant unconventional gas potential in this basin.

YPF has signed an agreement with the mining company Vale do Rio Doce for the development of a supply of about 1,6 million m³/day of gas from the Lajas formation (Neuquén) to supply the mining project in Mendoza. In its first phase, Vale will invest up to US\$ 150 million in 3D seismics, well drilling and in building a gas pipeline. Once these investments have been carried out, YPF will begin to take part in the rest of investments with a 50% stake. This contract paves the way for the first massive tight gas development in Argentina.

Production

YPF's oil and gas production during 2010 was 197.4 Mboe, 5.4% lower than in 2009. The production of liquids was 107.3 Mbbl, while crude oil was 88.1 Mbbl, and gas 90.1 Mboe. Union strikes and a lower gas demand cut production by 4.8 Mboe. This decrease is partly due to the natural decline of these rather mature fields. Regarding crude oil, the decrease in production has been nearly reversed thanks to the investment effort undertaken as part of the Petroleo Plus programme.

As a result of this activity, and focusing on improving the recovery factor, crude oil production in 2010 was 1.6% lower than in 2009, thus reversing the trend of 5% drops per year.

The incentives obtained through the Petroleo Plus Programme have helped to sustain production. Within the framework of another incentive programme known as Gas Plus which promotes the production of unconventional gas, YPF secured authorisation for the "Rincon del Mangrullo" and "Precuyano - Cupen Mahuida" projects. In the areas held in association, the company also secured approval for the Gas Plus projects in Aguada Pichana and in Lindero Atravesado.

The table below shows YPF's total crude oil and natural gas production:

	2010			2009		
	Liquids	Gas	TOTAL	Liquids	Gas	TOTAL
	(Mbbl)	(bcf)	(Mboe)	(Mbbl)	(bcf)	(Mboe)
Argentina	107	505	197	110	549	208
United States	1	1	1	1	1	1
TOTAL NET PRODUCTION	107	506	197	111	550	209

The table below shows the number of wells per geographic area as of 31 December 2010:

	As of 31 December 2010 ⁽¹⁾			
	Crude ⁽²⁾		Gas ⁽³⁾	
	Gross	Net	Gross	Net
Argentina	11,036	9,378	831	542
United States	7	1	–	–

United States	7	1	–	–
TOTAL	11,158	9,598	785	505

(1) A gross well is a well in which YPF owns a stake. A net well is when the sum of the stakes in several wells equals 100%. The number of net wells is the sum of the stakes in gross wells, expressed in whole numbers and fractions.

(2) Net and gross wells include one well with multiple terminations.

(3) Net and gross wells include three wells with multiple terminations.

Reserves

As of 31 December 2010, YPF's proven reserves, calculated in accordance with SEC guidelines, totalled 992 Mboe, of which, 532 Mboe (54%) relate to crude oil, condensate and liquefied gases and the remaining 460 Mboe (46%) to natural gas.

The trend in the company's reserves was positive in 2010, having achieved an oil replacement rate of 100% for the first time in more than 10 years. The key to this achievement was the incorporation of 88 Mbbl.

Activity

YPF'S CURRENT ACTIVITY BY GEOGRAPHIC AREA					As of 31 December 2010	
	Acreage ⁽¹⁾				No. of exploration wells being drilled ⁽³⁾	
	No. of blocks		Net acreage (km ²) ⁽²⁾		Gross	Net
	Development	Exploration	Development	Exploration		
Argentina	91	26	26,444	48,852	3	3
Guyana	–	–	–	2,520	–	–
United States	5	50	16	672	–	–
TOTAL	96	76	26,461	52,043	3	3

(1) Operated and non-operated by YPF.

(2) The gross acreage is the size of an area in which YPF owns a stake. The net acreage is the sum of the stakes in a gross acreage.

(3) A gross well is a well in which YPF owns a stake. A net well is when the sum of the stakes in several wells equals 100%. The number of net wells is the sum of the stakes in gross wells, expressed in whole numbers and fractions.

Argentina

YPF's exploration activity in Argentina in 2010 focused on two areas:

Offshore

Shallow waters: The offshore exploration campaign in shallow waters was finished, and all the wells drilled were abandoned after yielding negative results or being deemed unprofitable. The poor results obtained in this drilling campaign led the company to return block GSJM-1 and part of block E2, and YPF is currently reassessing the remaining area looking for opportunities to drill new exploration wells.

Deep waters: YPF currently operates four blocks:

- CAA40 and CAA46, in the Malvinas basin (Argentina), at a depth of 480 metres. YPF holds a 33.5% stake. The project has scheduled the beginning of drilling works for the first quarter of 2011.
- Block E1, in the Colorado basin (Argentina), at a depth of 1,600 metres, which is at an early well planning stage. YPF holds a 35% stake.
- Area 3, in the Punta del Este basin (Uruguay), where YPF holds a 40% stake.

YPF also owns a 30% share in block E3 of the Colorado basin. Furthermore, YPF holds a 40% stake in the Area 4 block, in the Punta del Este basin (Uruguay). In these blocks the operator is one of the partners.

Onshore

Exploration activities have continued in the areas surrounding productive blocks. In addition, exploration has advanced in six additional courses of action:

- **Shale gas:** The shale gas project started in late 2009 with the PSG x-2 well in the Loma La Lata (LLL) block. This exploration well has led to a discovery of oil in the Quintuco formation. However, the discovery does not reach the Vaca Muerta formation. That first well was followed by another five wells. The LLLK.x-1 well (Loma La Lata Karst.x-1, in block LLL) was drilled and finished in the Vaca Muerta formation, leading to the discovery of rich, condensed gas. Another well in Vaca Muerta, LLL-479 (Loma La Lata-479, in the same block), was drilled and finished, yielding oil and gas. The LLL-482 well was drilled and has been producing oil and gas since the same time. Well LLL.x-475 was drilled and will be finished by early 2011. Finally, the horizontal well LLLK.x-2c, is being drilled near LLLK.x-1 to test productivity in horizontal wells.

The plans are to continue with intense exploration activity during 2011, including the drilling of several wells whose main objective is to determine the potential of the Vaca Muerta formation as a reservoir of unconventional gas and oil (shale gas and shale oil) in various blocks of the Neuquén basin.

- **Shale oil:** In late October 2010, the drilling of Argentina's first shale oil well (SOil.x-1, in the Loma Campana block) began. It is expected to be finished in 2011. This is the first of a total of three planned wells for this block, including two vertical wells and a horizontal well. The objective of this project, as was mentioned above, is to prove the productive potential of the Vaca Muerta formation as an unconventional oil reservoir, using state-of-the-art technology such as microseismic and massive hydraulic stimulation.

- **Quintuco formation:** The new exploration concepts developed in these traditional reservoirs continued to be worked on. Five discovery wells were drilled during 2010: PSG x-2, La Caverna x-5, Loma Campana a-3, Los Gusanos x-1 and Los Gusanos x-2 and one negative well (La Caverna x-3) in the Bandurria block. The company plans to continue this exploration activity by drilling five additional wells in 2011.

- **Liasico Inferior:** A new exploration campaign was launched in 2010 on mature blocks, and 55 kilometres. of 2D seismics were recorded in the Valle del Rio Grande block, which is owned entirely by YPF.

- **Ramos xp-1012:** Ramos, a Temporary Joint Venture operated by Pluspetrol Energy, in which YPF holds a 42% stake, finished the drilling stage during 2009, reaching a final depth of 5,826 metres. In 2010, the Tarija and Tupambi formations, in the lower block of the field, were appraised with negative results. The Santa Rosa formation is currently under appraisal.

- **Frontier areas:** In 2010, 386 km² of 3D seismics were recorded in the Los Tordillos Oeste block, in Mendoza, in a joint venture with Oxy, which holds a 50% stake. During the first quarter of 2011, two wells will be drilled in the Tamberías (province of San Juan) and Gan Gan (province of Chubut) blocks, the latter in association with Wintershall. In November 2010, the company requested the second exploration period in the Bolson del Oeste block (La Rioja), in which the company is committed to recording 200 kilometres of 2D seismics and to drilling a well. In the Rio Barrancas block, the drilling of the Quebrada Butaco x-1 well was finished, at a depth of 2,374 metres and with a negative result. A total of 580 kilometres of 3D seismics have been acquired, as well as 500 kilometres of 2D seismics and 4,100 kilometres of terrestrial gravity and magnetometrics.

In 2010, YPF finished 14 exploration wells in Argentina (8 of them under the company's operation, 7 of them in the Neuquén basin and one in the Noroeste basin). Of these, six were discovery wells (all of them operated by YPF). The total exploration investment in Argentina was about US\$102 million.

Regarding field development activities, 742 development wells were drilled, which, along with secondary repair and infrastructure activities, amounted to an investment of US\$ 1,222 million. Total well construction time was 1% less than in 2009, achieving a 16% accumulated improvement since 2008. This efficiency in terms of time, along with cost savings in various stages of the process, allowed activity to increase about 39% on 2009 levels.

During 2010, YPF continued to work on improving its facilities and optimising oil and gas production. In the sixth stage of the low-pressure compression project in the Loma La Lata field, the gas production and wellhead pressure obtained surpassed the initial forecasts. New simulations of the reservoirs and installations were carried out, with a view to carrying on working on optimising the compression capacity and the above-ground installations in 2011.

YPF's key initiatives for the improvement of productive assets include:

- The WAG (Water Alternating Gas) injection project in Chihuido de la Sierra Negra has finished and its conclusion was that expansion was not economically viable. Current projects are focused on the assessment of chemically enhanced oil recovery opportunities (SP –Surfactant Polymer). Development and delineation works were carried out in Manantiales Behr, Cañadón Yatel, Barranca Baya, Desfiladero Bayo, Señal Picada and Cañadón Amarillo.
- A pilot project to assess the tight gas opportunities in the Las Lajas formation, in the Cupen Mahuida area. The company, using simulated models, is carrying out significant work to optimise the secondary recovery ratio in Chihuido de la Sierra Negra, Los Perales and Cañadon Seco-Cañadón Leon.
- An assessment programme in the field El Medanito field (100% owned by YPF) has been implemented during the last two years, and especially in 2010, to analyse the field's remaining

potential. Thirty-two wells have been drilled as part of a pilot infill water injection project and 57 delineation wells in what is known as the South area. The partial results are encouraging. The new massive development of the field is scheduled for 2011, while continuing with another assessment project.

- During 2010, ten integral development projects have been started in Santa Cruz, divided into four development areas: Las Heras, El Guadal, Los Perales and Cañadon Seco, forming a portfolio of 82 projects. The main ones are Cerro Grande, Maurek, Seco Leon and Los Perales. As part of these projects, 161 wells have been drilled, a total investment estimated at almost US\$ 300 million, including their associated resources. The main objective of these projects is to obtain an integral development of the areas by building new wells, introducing new projects for improved oil recovery and supporting the development of installations in the area in question. In 2011, these projects will continue in line with the planned investments.

In 2010, the company began the process of extending the concessions in the provinces of Mendoza, Santa Cruz, Río Negro and Tierra del Fuego (in the latter, the blocks are held in association with Apache Energía Argentina S.R.L.'s affiliate companies, as a non-operating partner; the negotiation is being handled by the operator). The authorities have called any interested companies to negotiate the aforementioned extension through Public Call No. 1268/10/907 in Mendoza, where YPF has officially communicated its interest in renovating the permits on the areas to the local authorities, and has submitted the relevant documentation.

Non-operated areas

In the CNQ 7A block the delineation of the reservoirs in El Corcobo Norte, Jagüel Casa de Piedra, Cerro Huanul Sur and Puesto Pinto was finished and their development has begun. This block is operated by Petro Andina Resources Argentina SA (PAR) and YPF holds a 50% stake. The pilot project for water injection in Cerro Huanul Sur was finished with good results.

Exploration wells Lo-x-1 and Lo-x-2 were drilled. The first is in the appraisal phase and the second is yet to be finished.

In September 2010, there was an incident on the offshore platform AM-2 of the Magallanes field, operated by Sipetrol and located in the Strait of Magellan. There was no environmental damage or serious personal injuries. Due to this incident, the field was out of production until December 2010. Its production activity will return to normal during the first half of 2011.

In the Tierra del Fuego area, operated by Apache Corp. and where YPF holds a 30% stake, there has been exploration activity in mature fields. The interpretation of the 3D seismics provided tools for the generation of various drilling projects, mainly in the southern area of the block. During 2010, the Bajo Guadaloso (BGO-x-2001 and BGO-a-2002), Entre Lagos (EL-x-2001) and Bodega (BO-x-2001) projects in Los Chorrillos area, were carried out, where the first two yielded positive results. The operator's strategy is to continue the exploration activity in small geologic structures in Los Chorrillos and to begin activities in the most southerly section, known as Uribe section.

Natural gas

YPF's natural gas sales totalled 13,959 million m³ in 2010, about 12% less than in 2009. The most relevant sale reduction was seen in the manufacturing industry, since during 2010 no Bolivian gas was bought from ENARSA to sell to the Compañía Administradora del Mercado Mayorista Eléctrico, S.A. (CAMMESA). YPF enjoys a 31.7% market share in Argentina. The average price of natural gas sold by the company was 5% higher than the previous year, mainly due to the higher rate for industry and factories.

As part of a programme launched by the Argentinean government, an LNG regasification ship, located in Bahía Blanca, was put into operation to incorporate 1,800 million m³ of gas (125% more than in the previous year) into the country's gas network. Of that total amount, 1,100 million m³ were injected to help satisfy increased demand throughout the five winter months, about 7.2 million m³/day.

Since May 2010 YPF-AESA has been operating the ENARSA propane-air injection plant (PIPA). This plant has injected a total of 30 million m³ into the network, processing 24,300 tons of

propane. Every injection request received was duly fulfilled. During this period the ENARSA staff received theoretical and practical training.

ENARSA and YPF have entered a Temporary Joint Venture for the purpose of executing and exploiting the Escobar LNG Project. Both companies hold a 50% stake, while YPF has been designated the joint venture's operator.

The project aims to copy the operation that is being carried out in Bahía Blanca in the Escobar area, on the river Parana de las Palmas, that is, mooring a LNG regasification ship, regasifying LNG and injecting it as a gas into the gas pipeline system. For this, a pier must be built in the operation zone, a high pressure unloading arm must be assembled and an interconnecting gas pipeline must be laid.

It is estimated that in the first year an average 5 million m³/day of gas will be injected into the system. From the second year onwards, the injection flow could reach an average of about 7 million m³/day. The facility is scheduled to start up in the first half of 2011.

United States

The Neptune development field initiated its production in July 2008 with seven offshore wells. As of September 2010, the platform was producing more than 16,000 gross bbl/d. In 2010, a decision was made to delay finalising the well in the M9 and M10 reservoirs, and to put the M12 reservoir into production. The technical and economic viability of completing well SB-02 to the depth objectives of the M9 and M10 reservoirs is currently being assessed.

In October 2010 the company decided to give up nine OCS (Offshore Continental Shelf) blocks in the Alaminos Protraction area, after analysing the results of their technical assessment.

Refining, logistics and marketing

YPF has three refineries: La Plata (in the province of Buenos Aires), Lujan de Cuyo (in Mendoza) and Plaza Huincul (in Neuquén). La Plata has a distillation capacity of 189,000 barrels per day and a conversion capacity of 119,000 barrels per day; Luján de Cuyo has a distillation capacity of 106,000 barrels per day and the same conversion capacity; and Plaza Huincul has a distillation capacity of 25,000 barrels per day. Furthermore, the La Plata refinery has a lubricant manufacturing plant with a capacity of 860 m³/day of finished base product.

The logistics for crude oil are carried out by three companies in which YPF holds a stake (Oldelval, Termap and Oiltanking Ebytem), hired tankers and two pipelines that belong to the company (Puesto Hernández - Lujan de Cuyo and Puerto Rosales - La Plata). The products' logistics are mostly carried out through two polyducts owned by the company (Lujan de Cuyo-San Lorenzo-La Matanza and La Plata-La Matanza), three loading ports, 11 tankers, six barges, four tow boats, 16 terminals (nine of which with connected ports), six LPG plants, 54 aeroplants and 1,105 trucks.

YPF owns a network of 1,618 service stations, of which 169 are directly managed through the company Opressa (100% shareholding) and has also eight bases for the distribution of diesel oil for agricultural activities, known as YPF Directos.

It also holds a 50% stake in Refinor, a company that refines, transports and markets fuels (70 service stations, or 35 if we take into account YPF's 50% share) and derivatives in the Argentinean northeast.

YPF's refineries processed 47.3 thousands m³/day in 2010, 1.8% less than in 2009. This reduction was mainly due to less availability of crude oil in the market, to the scheduled stoppages in the Lujan de Cuyo and La Plata refineries, and to the conflicts with unions, which affected the operations of oil coming from the Gulf of San Jorge.

In spite of those determining factors, the refining performance throughout 2010, in terms of LPG, gasoline and medium distillates was high, in particular regarding aviation fuel (JP1). In October 2010 the production of normal gasoline was discontinued, thereafter producing only high quality gasolines (Super and N-Premium).

Gasoline production for the domestic market was 3.47 million m³, accounting for a rise of 4.2% compared to the previous year, and a new record in recent years.

The three YPF refineries, La Plata, Plaza Huincol and Lujan de Cuyo, jointly increased gasoline and diesel oil performance by 0.9% compared to the previous year, which allowed for a reduction in diesel oil imports.

In 2010 the marketing of IFO (naval bunker) grew 48% in relation with 2009, its sales going from 23 to 34 thousand tons per month. YPF's logistic development has positioned the company as one of the main suppliers in the region and increased its market share from 14% in 2007 to about 40% in 2010.

During 2010, the total oil processed in YPF refineries was 111 Mbbbl (Refinor processed about 4.5 Mbbbl, where YPF's stake is 50%), of which 80% came from YPF's own fields, and the rest was bought from other companies.

The table below shows the YPF refineries capacity by 31st December, 2010:

	Primary Distillation (kbbbl/d)	Conversion Index (2) (%)	Lubricants (thousand tons per year)
Refining capacity (1)			
Argentina			
La Plata	189	69	256
Lujan de Cuyo	106	110	–
Plaza Huincol	25	–	–
Refinor (3)	13	–	–
TOTAL (4)	333	74	256

(1) Information disclosed in accordance with the Repsol Group criteria for integration in the financial statements: all the refineries report at 100%, excepting Refinor (50%).

(2) Expressed as the ratio between the equivalent capacity coefficient FCC and primary distillation capacity.

(3) Total primary distillation capacity: 26,100 barrels/day.

(4) This refers to YPF's total distillation capacity in Argentina (three YPF refineries, plus the stake in Refinor's refinery).

The table below shows a breakdown of YPF refineries' production, by their main products:

	As of 31 December	
(Millions of tons)	2010	2009
Feedstock processed		
Crude	15.4	15.7
Other feedstock	0.4	0.4
TOTAL	15.8	16.1

	As of 31 December	
(Thousands of tons)	2010	2009
Refining production:		
Intermediate distillates	7,067	7,128
Gasoline	3,762	3,994
Fuel oil	1,440	1,246
LPG	674	566
Asphalts	205	229
Lubricants	181	157
Other (except petrochemicals)	936	1,534
TOTAL	14,264	14,852

The utilisation of the refining capacity was about 93.2% versus 94.9% in 2009.

Logistics activity increased 5% compared with the previous year. High occupation levels were achieved for road, sea and river transport, as well as in the use of pipelines, terminals and ports.

Investments in refining and logistics in 2010 totalled €282 million, meaning a 66% increase in relation to the previous year (€170 million).

In accordance with Law 26,093 on Biofuels, on 1 January 2010 the obligation of marketing gasoline with bioethanol and diesel oil with biodiesel (FAME) came into force. The works required to adapt the San Lorenzo terminal and the refineries to receive FAME were carried out for this reason. These works finished with the construction of facilities for the reception and processing of bioethanol in the Lujan de Cuyo, Montecristo, San Lorenzo and La Plata terminals.

There is ongoing investments being made to build bioethanol and FAME receiving installations for the gasoline and diesel oil mixture, respectively, in the remaining dispatching terminals, as well as increasing the transport capacity of the Puesto Hernandez duct to the Lujan de Cuyo industrial complex.

Likewise, a programme for the automation of the Monte Cristo and San Lorenzo terminals has been started, followed by a schedule for the rest of the plants; while the investment needed to build storage tanks to enhance the logistics capacity in order to cover market demand by importing diesel oil and gasoline was approved.

In November 2010, the new Topping III furnace at the Lujan de Cuyo was put into operation refinery to increase energy efficiency was started up, which will mean an extra 400 m³/day can be processed while improving the unit's energy efficiency.

In line with the objective of reducing the sulphur content in gasolines and diesel oil to meet fuel quality specifications, the investment projects for the hydro-treatment of diesel oil and gasolines continued. In accordance with new legislation from the Energy Secretariat, by 2012 every company should comply with the new fuel specifications; for this reason a new plant for the gasoline and diesel oil hydro-treatment processes is being built and set up in the La Plata refinery. This plant will have a processing capacity of 5,000 m³/day. This facility will produce a diesel oil containing less than 50 parts per million (ppm) of sulphur. To fulfil this objective, the Lujan de Cuyo refinery has bought an existing plant with a capacity of 2,640 m³/day. In this refinery they have also begun the development of the detail engineering for a gasoline hydro-treatment unit.

In the La Plata refinery the development of the engineering for the new coke unit "A" began. This unit will increase the processing capacity from 110 to 185 m³/day.

The participation by YPF in the Refino Plus programme should be highlighted, as it encourages increased fuel production through benefits to be applied in the form of tax relief. In this regard, applications for five investment projects that will avail of this programme have already been approved.

During 2010 YPF launched an image improvement plan for its service stations with the aim of uniting and enhancing the overall image of the network based on the concepts of modernity and rationality. As well as renovating 47 service stations, a new station, Hito, was built in Nordelta and the first station of the Red Camionera (Truck Drivers Network), located in Fighiera (province of Santa Fe), was opened as part of the agreement between YPF and Camión Club Argentino (CCA).

YPF promoted the synergy with the agricultural world by creating the Agrocentros and developing a cereal exchange programme. These Agrocentros sell products such as diesel oil, fertiliser and agricultural chemicals which are paid for with cereal (mainly soya and corn), which is then processed to obtain flour and oil for export. In this new phase, part of the oil obtained will be used for the production of FAME (methyl ester from vegetable oil), nowadays added to commercial diesel oil (up to 5% of its volume).

During the first half of 2010, domestic market prices were gradually brought into line with international prices and prices in neighbouring countries. Resolution 925/2010 froze retail prices from 31 July until December. From November 2010, the company decided to clearly segment the quality of its gasoline products and identify the attributes of each one through its name. For this reason, the highest quality gasoline (grade 3) is now called "N-Premium". This product became the market leader during this year, with a 61% market share.

In the diesel oil area, the premium product with a low sulphur content (D-Euro) was marketed aggressively. This product is recommended for all high performance EURO IV engines. D-Euro has reached a 49% market share in the retail segment.

This strategy enabled the company to market a larger part of the Ultradiesel XXI diesel oil through the industry and transport channels, providing the market with a sufficient supply while minimising imports.

Chemicals

The chemicals business carries out its operations in the Ensenada industrial complex, integrated with the La Plata refinery, and in the Methanol Plaza Huincul complex, integrated with the Plaza Huincul refinery. Likewise, YPF carries out chemical activity in the Bahia Blanca complex through its investee company Profértil.

These industrial complexes have an aggregated production capacity in excess of 2,000,000 tons per year, for market segments such as modified naphthas, resins, detergents, automotives, agrochemicals and fertilisers, among others.

During 2010, there has been a recovery of international prices in the main products, consolidating the improvement seen in the second half of 2009. The price of methanol rose due to the postponement of new plant projects and to a good level of demand in the United States and China.

The maleic anhydride (the raw material for plastics) trend showed a noticeable improvement, with prices rising compared to 2009. This price increase was due to stronger demand, along with the closure of one of the main European plants in January 2010.

From a commercial perspective, YPF's chemicals business improved significantly in terms of the aromatic and methanol sales mix, with sales increasing in Argentina by 18% compared to the previous year. A larger volume of aromatics was used in the gasoline production process (blending) and the sales of methanol in the Argentinean market to the biodiesel production sector continued to develop.

The building and setting up of the Continuous Catalytic Regenerator (CCR) began as well, which will allow production of aromatics to be increased by 50% and thus be able to meet the needs of growing internal demand for octane components, used in high quality gasoline and hydrogen production, necessary for gasoline and diesel oil hydro-treatment processes at the La Plata refinery. The estimated investment for this project is approximately €250 million, the largest petro-chemical investment in Argentina made in the last decade.

The table below shows the production capacity of the main petrochemicals:

	CAPACITY (tons per year)
Ensenada:	
Aromatics	
BTX (Benzene, Toluene, Xylene)	244,000
Paraxylene	38,000
Orthoxylene	25,000
Cyclohexane	95,000
Solvents	66,100
Olefins and Derivatives	
MTBE	60,000
Butene I	25,000
Oxo-alcohols	35,000
TAME	105,000
LAB/LAS	
LAB	52,000
LAS	25,000
Polybutenes	
PIB	26,000
Maleic	
Maleic Anhydride	17,500
Plaza Huincul:	
Methanol	411,000
Bahia Blanca	
Ammonia/Urea	933,000

Gas Natural Fenosa

Results

As of 31 December 2010, Repsol owns 30% of the Gas Natural Group, which is proportionally consolidated. The operating income contributed by Grupo Gas Natural Fenosa in 2010 rose by 17.8% to €881 million compared to the previous year (€748 million).

The additional provision that was made for the risks arising from the Sonatrach dispute has been a determining factor on the results, but their evolution has been supported by the recovery of energy demand in Spain, the growing contribution of international business and the results of the disposal of gas distribution assets in the Madrid Region.

EBITDA in the year was €1,507 million, compared to €1,232 million in 2009, 22.4% higher mainly as the result of the non-incorporation of Union Fenosa in the scope of consolidation until 30 April 2009.

The performance in the aforementioned context highlight the bases of the Gas Natural Fenosa business model, based on the balance between regulated and free business in the gas and electricity markets, with a growing, diversified contribution made by its international presence.

Gas Natural fully integrated Union Fenosa S.A. and its subsidiaries in the scope of consolidation as of 30 April 2009. As a result, the 2009 consolidated financial statement includes Union Fenosa transactions only as of that date. In September 2009, Gas Natural completed the merger by absorption process with Unión Fenosa.

The business' main operating highlights are shown below: For a better understanding, the figures relate to the amounts generated by Gas Natural Fenosa, although the Group's holding in the company is 30%.

Gas distribution

Spain

Business in Spain includes the compensated gas distribution activity, third-party network access services and secondary transport, as well as non-compensated distribution activities (rental of gas meters, connections to customers, etc.).

Sales from regulated gas activity in Spain, which includes access services to the network by third parties, both in terms of gas distribution and secondary transport, fell 9.8% from the previous year's figures to 207,174 GWh. This drop was the result of the sale of assets in Cantabria, Murcia, Asturias, the Basque Country and the Madrid Region which, once set aside, imply 3.9% growth, due to the increase in residential demand caused by a cold winter and a slight recovery in industrial demand.

In 2010, Gas Natural Fenosa continued to expand its distribution network, with the addition of 1,152 kilometres in the last 12 months, and reached 33 new municipalities. The number of supply points increased by 84,000 in the last twelve months, 16.8% less than the previous year, due to the impact of the economic crisis, despite the recovery in the last quarter of 2010. Neither effect takes into account the aforementioned divestments.

By year-end, the gas distribution network reached 44,931 kilometres, 5.6% less than the previous year, and the number of supply points stood at 5,274,000, also 7.4% lower than before, according to the divestments carried out to fulfil the Action Plan approved by the Spanish National Competition Commission (CNC) in relation to the Unión Fenosa acquisition process.

Latin America

This concerns the gas distribution activity in Argentina, Brazil, Colombia and Mexico. During 2010, the number of gas supply points in the distribution network reached 5,665,000. The high year-on-year growth rates have been maintained, with 243,000 new supply points; the performance was particularly good in Colombia, where the new supply points this year were 152,000, thus exceeding 2 million customers.

Gas activity sales in Latin America, which include gas sales and third-party network access services, amounted to 200,995 GWh, 18.5% more than in the previous year. This increase was mainly in the industrial market and the supply to electricity generation plants in Brazil.

The gas distribution network has been extended 2,177 kilometres in the last 12 months, and by the end of December 2010 it reached 64,492 kilometres, 3.5% more than in 2009.

Italy

Business in Italy also includes rate-regulated gas sales.

Gas Natural Fenosa has reached a total of 422,000 supply points in the gas distribution business in Italy, a figure 1.9% higher than year-end 2009.

The gas distribution activity reached 3,387 GWh this year, 3.1% less than in 2009, mainly due to different weather conditions. The distribution network was extended by 204 kilometres, thus amounting to 5,849 kilometres by the end of the period.

Power distribution

Spain

This business includes regulated power distribution activity and customer network services, mainly connection and link-up rights, and other services such as metering and access by third parties to the company's distribution network. The comprehensive tariff ceased to exist on 1 July 2009 following the creation of the last-resort power commercialisation entities. Accordingly, no power sales were made as of that date by the electricity distribution activity in Spain. Electricity supply points have grown slightly, about 0.6%, in 2010, reaching a total of 3,719,000.

Latin America

Business activity involves regulated power distribution in Colombia, Guatemala, Nicaragua, and Panama. Electricity sales reached 18,002 GWh, a 49.3% increase, and the customer

portfolio was increased by 17.9%, with a particularly good performance in Colombia due to more up-to-date information in low-income areas, and in Nicaragua, due to the improved effectiveness of subscription campaigns.

Moldavia

Business in Moldavia includes regulated power distribution and its marketing at a tariff in the capital and metropolitan area and in the country's central and southern regions. Despite a context of economic slowdown, the customer base in this country grew by 1.1% to reach 816,000.

Electricity

Spain

The electricity business in Spain includes power generation activities, electricity trading in wholesale markets and the wholesale and retail marketing of electricity in the deregulated Spanish market and electricity supply at the tariff of last resort.

In 2010, electricity demand in the peninsula grew 3.4% in relation to the previous year, an increase that started in the first half of the year, after the fall in demand recorded in 2009. With the corrections due to employment and temperature, the actual growth in demand was 2.9%.

Gas Natural Fenosa power generation in the Iberian Peninsula was 38,338 GWh in 2010. Of this amount, 35,809 GWh came from Ordinary Regime generation, and 2,529 GWh from Special Regime generation. Gas Natural Fenosa's accumulated share in Ordinary Regime generation by 31 December 2010 was 20.2%, slightly higher than the previous year.

Hydroelectric production in 2010 was 4,752 GWh, much higher than 2009 as a result of hydrological conditions at the beginning of the year. Power generation at combined cycle plants in 2010 amounted to 25,928 GWh, also higher than in 2009. Furthermore, nuclear, fuel and coal-fired power generation also increased in comparison with 2009.

In the electricity marketing activity, sales in 2010 were 40,559 GWh.

Latin America

This section relates to power generation assets in Mexico, Puerto Rico, Panama and the Dominican Republic.

In Mexico, the assets currently operating are the Hermosillo (270 MW) and Naco Nogales (300 MW) power plants, both located in the state of Sonora; in the state of Veracruz, the Tuxpan III and IV (1,000 MW) power plants; in the state of Coahuila, the Saltillo (248 MW) power plant; and the Norte Durango power plant, with 450 MW, located in the state of Durango, on which construction finished in 2010.

The power generated in Latin America during 2010 was 19,147 GWh, with a 75.4% load factor and 92.9% availability.

Other countries (Kenya)

This section includes power generation in Kenya. In 2010, fuel-based power generation reached 645 GWh, far higher than 2009 production, due to the enlargement of the plant's capacity in the third quarter of 2009, when an extra 52 MW started commercial operations.

Infrastructure

This business includes the development of integrated liquefied natural gas projects; oil exploration, development and production; sea transport management and operation of the Maghreb-Europe gas pipeline.

The gas transportation activity carried out in Morocco through the companies EMPL and Metragaz represented a total volume of 109,792 GWh, a similar amount to the previous year. Of this figure, 80,740 GWh were transported for Gas Natural Fenosa through the company Sagane and 29,052 GWh for Portugal and Morocco.

Regarding gas exploration and production at the Tanger-Larache project (Morocco) in which the company holds a 24% stake, a seismic campaign was acquired in the second quarter of 2010 and was then processed and analysed in preparation for the drilling activity scheduled for 2011.

Supply and marketing

This business area involves the supply and marketing of gas (wholesale and retail) both in Spain and abroad, and of other products and services related to retail marketing in Spain, as well as marketing of the gas tariff of last resort in Spain.

Gas Natural Fenosa's marketing in the Spanish gas market reached 184,744 GWh, 1.3% higher than the previous year, mainly due to higher gas consumption by residential and industrial clients, while the sales of gas for combined-cycle power generation stayed the same. Moreover, supply for third parties in the Spanish market was 66,141 GWh, showing a 27.4% increase.

Unión Fenosa Gas

This business involves the gas supply and marketing activities carried out by Unión Fenosa Gas, including the liquefaction infrastructure in Damietta (Egypt), regasification in Sagunto and management of the vessel fleet.

The gas supplied to the Spanish market reached 59,518 GWh, an all-time sales record for the company. Furthermore, 27,774 GWh of energy was handled in international sale operations and led to the company posting a sales record in international markets.

Investments

Taking into account Repsol's 30% stake in Gas Natural Fenosa, investments in the year amounted to €636 million in comparison to €5,060 million in 2009. This reduction is mainly due to the inclusion of the investments for the acquisition of Union Fenosa in 2009.

In 2010, Gas Natural Fenosa assigned 23.4% of its fixed asset investments to the electricity generation activity in Spain and 20.3% to electricity distribution in Spain.

The main investment projects for 2010 were the completion of the combined-cycle power plants in Malaga and the Port of Barcelona, and well as the development of wind farm projects.

Corporate areas

People management

At year-end 2010, Repsol had a consolidated workforce of 43,298 people representing over 70 nationalities. Of this figure, a total of 36,323 employees were working in companies directly controlled by Repsol and the figures presented in this section refer to these employees. The company's employees work in more than 30 countries, mainly in Spain (46%) and Argentina (37%), as well as Portugal (3%), Peru (7.2%), Ecuador (2%), and Trinidad and Tobago (1%). Of these employees, 51% work in the Downstream division, 7% in Upstream and LNG, 36% in YPF, and 6% in corporate departments.

The breakdown of the workforce is 1% executive personnel, 6% technical managers, 47% technicians, 4% administrative staff and 42% operators. Permanent work contracts account for 91% of the total and women represent 27% of the total workforce.

Change in the organisational structure

One of the most significant organisational changes in 2010 was aimed at promoting, boosting and providing business sense to new initiatives contributing to a vision of a more diversified and less CO₂-intensive future for energy. Some examples are the creation of the New Energies Business Unit, within the Downstream Executive Department (ED); two new offices within the Media Corporate Department (CD); the New Energies Technology Division and the Environmental Footprint and Carbon Unit Division, as well as the creation of the New Energy Development Area in YPF.

At the same time, with the purpose of further promoting a culture of organisation as a way to boost efficiency and ideas in the company, divisions were created within the People and Organisation ED, as well as in each different business, that are in charge of directing the innovation process and the generation and development of initiatives, thus converting them into value for the market.

Also in 2010, the YPF transformation project started which aims to turn YPF into a more dynamic, modern and efficient organisation by revising its processes and structures.

On 30 December 2010, the following changes in the company's top executive level were approved, entering into force in January 2011:

- The functions of the Corporate Strategy and Development CD were incorporated into the Economic and Financial ED.
- The Audit and Control and Reserve Control Departments, operationally reporting to Repsol's Board of Directors' Audit and Control Committee, will now report to the General Counsel and Secretary of the Board of Directors instead of the Economic and Financial ED, thus consolidating its independence.
- The Investors Relations Department will report directly to the Chairman's Office.
- The Communication and Chairman's Office CD will become the Communication and Chairman's Office ED, becoming part of the company's Executive Committee.

Renovation of the Management team

The Group has continued the process of renovating its structures and its management team, with a view to having the leaders Repsol needs to face the challenges and to guarantee that each business and strategic project has the people it needs.

The positioning and the presence of the company has been reinforced in all the countries it operates in, following the business strategy for each one. The organisational needs and the executive profile have been subjected to analysis in order to ensure that the organisational structures meet business needs, reinforcing aspects such as innovation, business development or safety and the environment.

This has brought career opportunities to those with the desired personal and professional profile, and has made it possible to renew part of the management team. When the 60 new executives appointed in 2010 are incorporated (some of them will take their position in January 2011), the new management team will be more diverse in terms of gender and nationality.

In mid-December, Repsol gathered all of its management team for a two-day world convention held in Madrid, under the motto *Juntos creamos futuro* (Together we create future).

Diversity, equal opportunities and balance

In 2010, Repsol's Diversity and Balance Committee continued to foster a culture of respect in the company where diversity is valued and promoted, and the balance between the personal and professional life of its employees is made easier.

In addition to continuing to develop programmes from previous years, the company has decided to structure its policies and measures in accordance with the flexible and responsible business management model, and it is currently analysing the elements this includes, such as employment quality, flexibility measures, support to families, professional development and equal opportunities. This work is being carried out across the entire company.

Regarding diversity measures, Repsol has made progress in its programme to integrate people with disabilities, and has continued to promote actions aimed at guaranteeing equal opportunities for all employees.

An important aspect of the work in 2010 were the procedures designed to help incorporate people with disabilities into the industrial sphere. The awareness-raising procedures that have been carried out since the beginning of the programme have been reinforced, and 990 people have taken part in some of the seminars organised this year in various locations within the company.

Likewise, the guide *Superando barreras* (Overcoming barriers) was published and distributed among the employees. This guide contains recommendations, suggestions, best practices and guidelines to improve relations with people with disabilities within the company, thereby helping them to integrate.

In December 2010, and in recognition of the company's work in the social and workplace integration of people with disabilities, Repsol received an award from the Imsero's Recovery Centre for the Physically Disabled.

As well as continuing its collaboration with Fundación ONCE through the second INSERTA agreement, the company has signed new collaboration contracts with the Fundación Seeliger y Conde, Fundación PADEIA (A Coruña), Imsero's CRMF, IVADIS and Afanias, among other institutions.

In January 2011, Repsol received the Telefónica Ability Award to the Best Private Corporation. This award, whose ceremony was attended by Queen Sofia of Spain, publicly acknowledges the work of those Spanish companies and institutions developing sustainable business models and which have integrated people with disabilities as part of their value chain, be they employees, providers or customers.

Repsol has, as of December 2010, a total of 463 employees with disabilities in Spain, of which 360 are directly-hired employees, and the remaining 103 were hired via alternative methods (2.56% of the workforce, according to the legal headcount). In addition to this, there are 90 employees with disabilities in Argentina, 25 in Ecuador, 10 in Peru and 11 in Portugal.

Repsol has also continued to foster measures to improve the balance between the personal and professional life of its employees, adapting them when necessary to the specific nature of the business and to the cultural environments in which the company operates.

Teleworking is becoming consolidated and spreading as one of the best accepted measures. As of 31 December 2010, there are over 557 teleworkers in Spain, 20 of whom are part of the pilot project taking place in industrial complexes. In addition to this, there are 120 teleworkers in Argentina and 14 in Portugal who take advantage of the spatial flexibility of this way of working, one of the top demands of employees reflected in the 2006 opinion poll.

Teleworking, which began in Repsol as a pilot programme in 2008, and has spread gradually through various stages throughout 2009, has become a perfectly normal working mode in the company and is very highly regarded by both teleworkers and their bosses. Both parties stress that the critical factors for success are task planning and the use of technological advances.

The group of teleworkers is made up of employees from virtually all areas of the company, and from all professional groups and age ranges.

Repsol YPF, S.A. was one of 36 companies awarded the *Distintivo de Igualdad en la Empresa* (Equality in Business Badge), from among the 600 that participated in 2010. This badge is promoted by the Spanish government's Ministry of Health, Social Policies and Equality, and it is awarded to entities whose equality in treatment and opportunities policies for their workers are particularly noteworthy. Among other aspects, the Ministry has given special consideration to the work carried out by the Diversity and Balance Committee, the existence of a forum (Equality Department of the Fifth Framework Agreement), where company representatives and the workers' monitor these matters, and the progress seen in both the implementation and the use of the balance measures.

In Argentina, YPF received the Fundación Proyecto Padres award *Hacia una empresa familiarmente responsable* (Towards family responsibility in business) for the second consecutive year, which in 2010 was declared of interest by the Honourable House of Deputies of the Nation.

Attracting the top professionals

Repsol was once again chosen as the best company to work for, according to the MercoPersonas survey and the Top Employer monitor.

In line with the activity carried out in previous years, the company continues to develop programmes to capture, motivate and commit the best professionals, offering them attractive working conditions and guaranteeing and promoting equal opportunities for their professional development.

Among the most important initiatives launched in 2010 is the improvement of the Welcome and Integration Programme, intended to optimise introductory processes for new employees coming from outside the company as well as those moving between different units within the company. The objective is to streamline their adaptation to the new work environment,

guaranteeing their integration into the company and its values, as well as retaining talent. A new corporate framework for welcoming and integration has been designed this year, as a value proposition Repsol offers its employees that sets it apart from other employers.

Of the new incorporations in 2010, it is important to mention the actions carried out to hire young talent through the master's courses in the Centro Superior de Formación Repsol (CSFR) for technical profiles and the New Professionals Plan for management profiles (71 new professionals were brought in to the company in Spain, Peru and Brazil).

The selection of candidates for the job banks of different profiles (chemical plant workers, bilingual sales representatives, etc.), the technification of profiles and the promotion of hiring people with disabilities for the industrial environment are other aspects worth mentioning.

Repsol has signed over 200 agreements with universities and other educational centres, through which almost 300 trainees have been brought into the company, thus continuing this line of collaboration. Noteworthy among these is the agreement signed with the Universidad de Elche to foster "the best training in the world", which has allowed a student with disabilities to do training at the Information Systems Managing Division. Furthermore, thanks to agreements with foundations and educational centres, students with disabilities have had access to various training programmes and grants offered by the company, some of them in the industrial environment.

Due to its success as a pilot programme, the "Impulsa" Scholarship Programme, which is based on providing training for the grant recipients, was continued in 2010: over 100 grant recipients with university degrees were provided with online training in languages, general skills courses, attending conferences, etc.

The Employment Channel on the repsol.com website consolidated its position among job seekers in 2010, incorporating the company's strategy of making it accessible to people with any disability.

Simultaneously, the company has continued to take part in forums, job fairs, seminars, etc., very often as a benchmark case for the employment of people with disabilities in a number of roundtables and lectures.

Repsol has also featured strongly in social organisation's awards, councils and seminars.

Talent management

One of the company's goals is to combine the need to have the adequate competencies and skills, acquire those that may be necessary in the future in a planned manner, while committing to offer people professional development opportunities by appropriately managing their talent.

With this aim in mind, 2010 saw the consolidation of the systems the organisation uses to assess and highlight its employees' talents: the People Review model and the professional development scheme for technical areas.

People Review is a development model to identify talent and to plan the main actions for the development of people, which was applied to 3,712 professionals in 2010.

Professional development in technical areas

Since technical knowledge is a key factor for business growth in Repsol, as well as for the development of people, technical skills charts and position types have been updated during 2010 by means of revision projects in different areas and units. They are a key element for the effective management of technical talent based on a platform of common knowledge shared by all employees.

In 2010 the company defined and approved its own technical career model as a means for professional advancement in critical technical areas, with the objective of attracting, retaining and developing the technical talent needed to reinforce its present activity and promote its future strategy. This mechanism has already been established in all the areas of the company where this type of profile is the base for development.

Training

Repsol is a company committed to people: it values, promotes and facilitates employee training as a key for their personal and professional development. The training should be focused on developing people's knowledge, skills and attitudes in order to reach the objec-

tives of each unit, while aligned with the company's strategy and oriented towards Repsol's culture and leadership style.

A new Virtual Learning Environment (EVA Repsol) was designed and launched in 2010, based on new information and web 2.0 technologies, with the purpose of improving policies, models and training and learning actions to guarantee the company's present and future competitiveness. This new environment enables and boosts access to quality online training, to both standard courses on offer and to courses and activities designed specifically for Repsol.

Furthermore, in 2010 new training management processes and systems have been revised and developed by and for employees and their bosses, bringing catalogue training and training plans to employees so that they can assess their need for learning, improvement or to acquire new knowledge and skills.

During 2010, more than 1,200,000 hours of training were provided to over 29,500 employees worldwide.

One of the highlights of this tendency was training on the "Repsol Style" addressed to over 700 bosses in 14 countries. The "Repsol Style" is the trademark of Repsol's people managers; it defines the behaviour and attitudes expected and needed by the company to make its strategic plans become a reality. It involved standardising, simplifying and integrating the various reference frameworks on abilities, generic skills and behaviours that existed in the company, and promoting a leadership and management culture.

To meet their different needs, each division has designed its own specific programme based on a common work scheme, which in turn is based in an assessment of the situation.

Mobility

The approach on internal mobility was consolidated during 2010. The objective is to promote professional growth and the development of people by taking on new roles and challenges, while guaranteeing the maximum added value to the business.

To this end, a number of teams made up by representatives of the company's different divisions and units, known as "Development and mobility desks", have been formed and are expected to generate cross-sectional development opportunities for employees.

In specific cases, when there is a need to present the opportunities that have arisen in a certain business, along with its projects for the future, and simultaneously, attract professionals interested in becoming part of these initiatives, internal job forums, known as "bridge projects" are formed.

In 2010 there were 5,892 employees changed position within the company.

International careers

In Repsol, 708 employees were working in other countries than the ones in which they were hired in 2010, and they form the group of employees on international assignment.

2010 has been marked by a need to quickly meet the needs that arose regarding the new projects that the company had started in various countries, which involved sending 175 people to other countries and hiring 64 professionals with an international profile, who bring with them specific experience in key areas in order to face these new challenges.

Once again, given its experience in managing expatriates, Repsol has been re-elected to the chairmanship of the Spanish Expatriation Forum (FEEX), for the 2011-2013 period. This forum, in which there are currently 25 Spanish multinationals, is a place to discuss the management of international assignments affecting their employees, as well as sharing experiences, good practices and initiatives.

Performance assessment

Four years after the introduction of the Repsol performance system, known as *Gestión por Compromisos* (Management by Commitments, GxC), the company has revised and improved the model to meet new needs. To this end, the information received through individual interviews with the top management, as well as the results of the annual audits, the working climate survey, etc have been taken into account.

The evolution of the GxC system reinforces the three pillars on which it is based –responsibility, recognition and development–, and maintains the key role given to manager/worker dialogue

within the process. It is also an evolution and flexibilisation of the assessment system.

These improvements went into force for the 2010 assessment, and they were preceded by an important communication campaign targeting all the parties involved.

The company also has an assessment system designed exclusively for employees covered by the collective bargaining agreement, which is used to appraise their skills and knowledge. It is, at the same time, a tool for identifying strong points and areas that need improvement in different skills areas.

This assessment is carried out through campaigns, according to the company's needs. It was applied during 2010 in Repsol YPF S.A., Repsol Butano and various Marketing areas, covering a total of 2,055 employees.

Innovation and improvement

Repsol fosters innovation as a key value of management, which is reflected in its quality policy.

During 2010, the company performed a reflection and repositioning process regarding the current quality and knowledge management functions. As a result, the company has made a strong commitment to foster innovation and improvement and incorporate them into management by creating specific areas in the company and the business divisions.

These new areas, based on collaboration and teamwork, and acting as a link between different areas and business divisions, will lead the promotion of a new innovation culture in Repsol, fostering the exchange of experience and good practices, as well as the identification of high-impact cross-sectional and multidisciplinary initiatives. They will also be in charge of driving their execution and of reporting on their results.

The first assessment of the innovation level was carried out in 2010, applying the innovation model as defined by the Club Excelencia en Gestión and the Fundación COTEC.

In addition, the company continued to implement key measures in the Strategic Quality Plan. Regarding self-assessments, it is important to stress that more than 50% of the organisation has performed at least three self-assessments.

In 2010, Repsol's self-assessment methodology was submitted to the European Foundation for Quality Management (EFQM) and the Ibero-American Foundation for Quality (FUNDIBEQ), after the review process started in 2007, for the purpose of ensuring that the self-assessment process is in line with the business strategy, the integration of improvement initiatives, the monitoring of action plans and to make quality a factor in the change management. This methodology has been formally acknowledged by the EFQM and by Fundibeq as "good management practice".

In 2010, Repsol continued to work on the roll-out of process-oriented management across the entire company and on the use of benchmarking as a tool for continuous improvement. The formalisation of processes and identification of indicators and performance measures support decision-making and help to identify and implement improvements to ensure that targets are met.

Knowledge management

The competitive market in which Repsol operates requires constant innovation in order to adapt to its needs. For this reason, the company has decided to contribute to this adaptation through the creation of value and innovative capabilities in the organisation through knowledge management techniques and tools.

The knowledge management initiatives in Repsol contribute to business results, to improving efficiency and to management through commitments by designing and rolling out a model for development and skill transfer between all the business units and cross-over areas in the company. This becomes the way towards a common framework for generating innovation capabilities, constantly in line with strategic objectives and with quantifiable results to ensure continuous improvement.

Repsol aspires for knowledge management to become an essential part of its employees' daily activity, work processes and assessment systems, thus contributing to the creation of both a continuous improvement and innovation framework and an environment that fosters the participation, involvement and development of the people who work for the company. Repsol would like its employees to feel professionally enriched and motivated through knowledge management, as well as inspired on a personal level to actively participate in the progress of the organisation.

Repsol employees, regardless of where they are located or which unit or area they work in, will have access to all the knowledge available (content, people and processes), so that they can, at any time, locate the relevant knowledge they require, and the good practice identification and transfer in all areas and key processes, contributing to the creation of an environment open to innovation.

Regarding knowledge management and within its strategic framework, new practice communities were created in 2010 which, together with those already in existence, include approximately 26,000 people throughout the company. In 2010 several projects for retaining employees' knowledge and transferring it to others were undertaken in order to ensure that critical knowledge is kept within the company when employees retire, are rotated, change office, or when new professionals or training materials are incorporated, etc. The methodology applied is mainly supported by compiling personal histories and experiences which are recorded and distributed with audiovisual media.

To bring company knowledge to all the employees, and based on the experience of the Moebius pilot project, the semantic search system is undergoing functional analysis for the purpose of making this knowledge that exists in Repsol regarding people, business processes and any other type of content, available to every employee. This analysis involves designing indicators to measure the employees' contribution to the company knowledge, as a key element for making the cultural change that this initiative requires a reality.

In 2010 a project was carried out to define the framework and reference architecture to support the roll-out of the chosen strategy for the management of knowledge in the entire company. In addition to this, the first two business innovation portals, which were designed in accordance with the open innovation paradigm to give employees a channel for their innovation and improvement proposals, have been introduced. Once this has been properly assessed, the company intends to expand the use of this type of portal to other businesses. One element that sets this system apart is the use of semantic technology, which optimises the entire process of collecting, selecting and appraising the ideas received and favours the creation of teams of people linked by the similarity of their innovation and improvement proposals.

Work relations

During 2010 in Spain there were negotiations regarding the collective labour agreements to temporarily adapt the workforce of those businesses whose activity has been affected by market conditions.

On 29 September the CC.OO. and UGT unions organised a general strike to protest against the labour market reforms passed by the Spanish government. In the Repsol Group companies, 9.79% followed the strike.

Regarding YPF, the company took part in the roundtables organised by the Argentinean government as part of the so-called "Social Agreement" between companies, unions and the government. At the same time the work guidelines were established for the renegotiation of the Collective Agreement signed with the United Oil and Hydrocarbons Workers Union (Sindicato Unido Petroleros e Hidrocarbúricos - SUPeH). An addendum to this Agreement was also signed with the aforementioned union, incorporating new benefits for the workers.

Health and safety

In the health area, the following initiatives were developed in 2010:

- Internal Health Regulation Compliance Audit: the process started in 2009 by the Refining Spain Managing Division came to an end with the audits carried out in the Puertollano and Petronor industrial complexes.
- Standards for the Assessment of the Social, Environmental and Health Impact were developed and, in collaboration with Safety and Environment Department and with the Corporate Responsibility Department, there were workshops for the employees in Madrid and Buenos Aires.
- Preparation of a "Health Management System", with the purpose of standardising the tasks and functions of medical services.
- Health Promotion Campaigns in different countries: such as the Early Detection of Colon Cancer and Detection and Control of Hypertension in Spain; Prevention of Malaria and Hepatitis A in Ecuador, Venezuela and Colombia; Prevention of contagious diseases in Ecuador, Colombia and Brazil, etc.

Innovation and technology

Repsol YPF considers its R&D investments to be one of the key factors for creating an efficient and sustainable energy system that will be capable of meeting the industry's two main challenges: security of supply and the reduction of CO₂, while maintaining the competitiveness of the energy system. Consequently, Repsol invests in R&D to find solutions to these major challenges, providing value both for the company and for society as a whole.

Uncertainty about what will be the dominant technologies of the future, prospective R&D results, business cycles and cost reduction stresses at low points in the cycle have led Repsol to develop a Strategic Technology Plan as part of its business strategy. The lines of work set out in the plan cover all the company's businesses: hydrocarbons exploration and production, the natural gas value chain, oil refining and related products and petrochemicals, and new energies for diversifying energy production and its use.

In 2010 Repsol invested €64 million in R&D activities carried out directly at its technology centres in Spain (Mostoles) and Argentina (La Plata) and a further €7 million in projects undertaken in the company's different business units. Repsol maintains an active policy of collaboration with both public and private technology institutes and universities in Spain and internationally. The investment earmarked for these types of agreements was in the region of €8 million in 2010. Repsol participates in R&D financing projects sponsored by different areas of government. In 2010 it took part in 29 projects promoted by the Spanish Government, 10 European Union projects, and 15 projects involving the Argentinean government.

R&D programmes

Upstream. Repsol applies the most advanced technologies in the exploration of new oil and gas fields. The major finds reported in 2008, 2009 and 2010 are a good example of the efficient application of these technologies, which include the geophysical technology developed in the Kaleidoscope project, placing Repsol at the cutting edge in the exploration of complex areas. The objective of raising the reliability of underground imaging and reducing the uncertainty inherent in the search for oil and gas can be applied at a depth of thousands of meters in difficult areas with significant reserves, such as U.S. waters in the Gulf of Mexico and Brazil, where thick layers of salt hide oil companies' targets.

Meanwhile, new advanced analytical and geo-chemical methodologies to describe oil-bearing systems in detail can be applied in both hydrocarbon exploration and in the development and operation of finds, and the company uses its own proprietary models and methods to assess and assure the flow of oil or gas under adverse conditions, especially in offshore production.

Another key R&D line at Repsol involves the use of improved recovery technologies for extracting more oil and gas from mature reservoirs. Also, the search for unconventional hydrocarbons, world reserves of which are expected to be significantly higher than have been exploited to date, represents a major challenge for the company, requiring the development and application of special technologies.

LNG. During 2010, with the start-up of Peru LNG, Repsol consolidates its position as a global leader in the LNG sector. Liquefaction technologies are being developed in this area for use in floating systems, which will make it possible to capitalise on gas reserves that cannot be exploited in an economically viable manner at present. Repsol also systematically monitors alternative technologies that would enable capitalisation of gas reserves, such as the conversion of natural gas into liquid fuels.

Downstream. In the area of oil refining and oil derivative products (gasoline, fuel oils, LPG, asphalts, lubricants, specialties, etc.), technological knowledge is applied to the operational optimisation of refineries and the enhancement of product quality with particular attention to advances in energy efficiency and environmental issues.

Developments allowing unconventional crude oils and biofuels to be processed may be cited as an example of progress in this field, as well as co-processing biomass in refineries, innovation for international expansion in lubricants, the development of more environmentally-friendly asphalt, LPG automotive applications and integrated systems providing enhanced energy efficiency.

Technological development lines in petrochemicals are oriented on a priority basis towards new differentiated products and specialties, as well as towards improving the overall efficiency and cost-saving of processes. Some of 2010 highlights are the industrial introduction of new catalysts for polyolefins and the development of piping, injection and fibre products with better properties, the manufacturing of hydrogenated rubber of various degrees of hardness of a higher added value and the development of technologies for the production of next-generation polyols for polyurethane foams, sulphured fertilisers and bioparaffins.

In April 2010, while the New Energies Business Unit was being created, the New Energies Technology Department was also set up to promote and boost new energy-related R&D and demonstration projects, among others, intensifying activity in the bioenergy field by developing projects on the renewable biological fuel production value chain.

In the area of CO₂ management, the activity is focused on developing projects for the geological CO₂ capture and storage and other alternative technologies such as CO₂ fixation by biomass. In addition to this, the investigation of emerging technologies in renewable electricity generation and electricity power supply, recharging and storage systems for hybrid and electric vehicles has begun.

Technology prospecting studies

In order to achieve a sustainable energy future, we must overcome ambitious technology barriers to arrive at new and better solutions, both in the oil and gas sector and with other energy sources. Repsol carries out systematic prospecting studies to identify opportunities arising from the long-term evolution of key technologies for the energy and petrochemical sectors.

These include studies on bio-energy, future combustion engines, electrification of transport, renewable energy, CO₂ capture and storage and biopolymers. These studies allow Repsol to develop new expertise and guide its future lines of work.

Corporate responsibility

Energy companies have taken on a great responsibility by facing the challenges of a sustainable energy model that can guarantee a safe supply, contributes to minimising the effects of climate change and respects human rights in every area.

Since 2003, Repsol has maintained an active commitment to the ten principles of the United Nations Global Compact. The company signed up to this initiative to make the world a fairer, more united place. During 2010 it took part in various Global Compact-related actions. Likewise, Repsol is aware that its oil and gas extraction activities are an important source of income for the governments in the countries that own these natural resources. These resources, if properly managed, can and should be a positive contribution to their economic growth. For this reason, the company signed up to the Extractive Industries Transparency Initiative (EITI) from its launch, and we believe that this global initiative is in the best position to achieve its goal of increasing financial transparency. In 2010, Repsol has provided financial support for the EITI and has been involved in several programmes to spread information and awareness about the initiative.

Likewise, its second 2012 Sustainability Plan was launched. This plan is part of the Corporate Responsibility model, in its phase of managing any necessary changes to maximise social and environmental opportunities, and it consists of actions aimed at reviewing the company's processes and the employees' specific training.

The plan's 61 actions are divided in nine strategic programmes:

1. Safety increased.
2. Ethical behaviour and fight against corruption.
3. Respect human rights.
4. *Compromiso con nuestra gente* (Commitment to our people).

5. Integration into the community.

6. Sustainable energy and climate change.

7. Controlling and minimising environmental impact.

8. Influencing our suppliers, contractors, subcontractors, distributors, partners and customers.

9. Being accountable for our social and environmental performance

Repsol will continue working to make safety a distinguishing feature of the company's culture, promoting initiatives such as updating its risk management system and improving safety in processes, transportation, emergency control and the safety management system.

Ethical behaviour and fight against corruption are the essential base for all other actions. The company will continue to reinforce ethical standards in its businesses, fostering initiatives to increase the ability to make ethical decisions when faced with any dilemma and to reinforce the commitment to the Group's Ethical and Conduct Regulation. Repsol will formally adopt a Policy for the Promotion of Transparency, Against Corruption and Bribery, and it will foster financial transparency in the extractive industry.

The programme for the respect of human rights will help reinforce the requirement to respect human rights that is already in force in the company's code of conduct, by providing a global policy for this purpose. It will also increase employees' capability to act and make decisions to favour human rights, even in unusual situations, supported by specific training programmes, which will become embedded in the training programmes for the company's professionals.

Another programme is the one called *Compromiso con nuestra gente*. This plan gave Repsol the chance to approach certain innovative ideas within the scope of protecting women's equal rights among the employees; the balance between work and personal life; the promotion of innovative ideas; and the promotion of a health culture.

The programme for the integration into the community includes some actions to get to know the expectations of the company's stakeholders; and social performance, with a view to improving it. Repsol will also work on improving our relations with local communities, because it believes that they can benefit from the employment and the purchases the company generates.

Regarding environmental initiatives, the company will continue to identify opportunities to increase its energy efficiency and to reduce its greenhouse gas emissions. It will likewise continue to invest in research and development of new biofuels and other alternative energies, and in technologies for CO₂ capture and storage; in addition to continuing to work to reduce its emissions, optimise water management, improve waste management, heighten spill control and gain a better understanding of the impact on biodiversity.

One of the new areas included in this plan concerns the company's actions to influence its partners and the value chain to take on higher standards in ethical, social and environmental management. Since reputation is largely linked to that of our partners, suppliers, contractors, subcontractors and distributors, Repsol will promote its ethical, social and environmental standards among them, as well as promoting responsible energy consumption among our clients.

The progress made on these issues and ethical, social and environmental performance are detailed in the Corporate Responsibility Report and the United Nations Global Compact Progress Report. Aware of the importance of the impact caused by the company's activities and operations, and therefore, the relevance of being accountable to the local stakeholders, for the second year running the company has published its Repsol YPF Ecuador Corporate Responsibility Report. A new aspect was that the 2009 Ecuador report, published in 2010, was assured by an independent expert. In Argentina, in 2010, YPF has published the first Corporate Responsibility Report.

Repsol's presence in the sustainability indexes is proof that the company has been able to gain the trust of analysts and institutional investors who understand that corporate responsibility is a good indicator of a company's quality of management and governance.

For the fifth year running, the company's performance in terms of corporate responsibility has been acknowledged by remaining in the prestigious FTSE4Good and Dow Jones Sustainability Indexes. In the latter, out of 112 oil firms analysed on an international level, Repsol was one of the 12 companies included in the world index (DJSI World), while it is one of only four European companies in the

oil and gas sector that have made it to the European index (DJSI Europe). Repsol is the second company in the sector on points in the environmental dimension, and the first in the social dimension. Furthermore, for the first time ever, it obtained the maximum overall points in environmental policy and management system, and it has been awarded the maximum qualifications in the sector regarding the following criteria: climate strategy, standards for suppliers, stakeholders engagement, social impact on communities, customer relationship management and transparency.

Also in 2010, Repsol confirmed its continued presence in the Global and European Ethibel Sustainability Indexes (ESI), which recognise the best companies in each sector in terms of their corporate responsibility and sustainability performance.

Repsol Foundation

The Repsol Foundation carried out a number of projects in 2010 as part of its commitment to the sustainable improvement of society.

One special area of interest for the Foundation is that of public responsibility. The Citizen R programme can be included in this area of action. This is an initiative to promote a culture of civic participation and commitment, and to promote values such as responsibility, solidarity and respect. During 2010, the Citizen R caravan, a mobile unit with exhibitions and interactive games and workshops, moved around various Spanish cities raising awareness among children about the importance of making a responsible, efficient use of energy, and the need to respect and care for the environment. During its travels, the caravan received over 37,700 visits.

As part of its Energy Observatory, the Foundation updated its Energy Efficiency Index, which provides comprehensive and itemised information on its evolution and its contribution to reducing electricity consumption. It has also developed a new index on Intensity of Greenhouse Gas Emissions. This index offers information, by sectors, on greenhouse gas emissions associated with energy production, distribution and use in Spain and in the European Union's 15 main countries.

In the education and training field, in addition to scholarship programmes and collaboration with universities and other academic institutions, the Foundation fosters scientific research and the generation and dissemination of knowledge. In this sense it is worth mentioning Movilab, a programme developed with the Spanish National Research Council (CSIC) to bring science to the general public and, in particular, to promote an interest in science among schoolchildren. During the academic year, a mobile laboratory installed in a truck's trailer went to the main provincial capitals and other cities in Spain bringing interactive workshops prepared with teaching techniques and scientific rigour.

Contributing to the social and workplace integration of people with disabilities is one of the tasks in which the Foundation is increasingly involved, by working in educational, cultural and sports projects. In the last quarter of the year, in collaboration with the Fundación ONCE, the educational awareness programme *Tu formación no tiene límites. Desarrolla tu futuro* (Training is unlimited. Develop your future) started, with the aim of promoting access to university for people with disabilities and normalise their workplace integration process. Another noteworthy programme is the one carried out in collaboration with the Fundación Bobath, through which young people suffering from cerebral palsy and brain damage can have access to formal education in Administration, which provides them with employment opportunities. In 2010, three students in this programme, which includes an internship in a company, finished their course successfully, obtaining their administrative technician degrees. Regarding sports, the Fundación supports programmes that make possible the practice of mountain sports and adapted cycling for sportsmen with various disabilities in a relaxed environment and in the company of family and friends. Simultaneously and in collaboration with other entities, it promotes creative writing and theatre workshops specifically designed for people with disabilities.

In this line of action is the *"Recapacita"* (Think it over) programme, aimed at raising awareness in society about the problems faced by people with various types of disabilities. *"Recapacita"* is an interactive space with a circuit involving different senses showing, by means of a series of activities in which participants have to put themselves in a disabled person's position, the difficulties they face in their daily lives.

In the area of international cooperation and development aid, the Repsol Foundation has become actively involved in the rebuilding of Haiti. In addition to the initial 100,000 euro donation and the collection of funds among our employees and the general public to help the victims of the earthquake, the Foundation has organised a global aid project to encourage

the development and rebuilding of the Caribbean country. One of its programmes, called *Árboles solidarios* (Tree solidarity), aims to plant 29,000 trees of local species as part of an agroforestry plan to generate resources in a sustainable manner and improve food resources and the social, economic and environmental conditions of the towns in the Pichon area, in the southeast of Haiti. Other projects are focused on fostering local initiatives to promote agricultural, fishing and livestock production, as well as the manufacture and sale of these products in local markets. These programmes are carried out in collaboration with *Solidaridad Internacional*.

In Senegal, collaborating with the Fundación Por Una Sonrisa en Africa, several educational and health centres have been provided with infrastructure. These centres are located in several communities south of Dakar, and 6,000 people have benefitted from this programme either directly or indirectly.

As part of the International Year of Biodiversity, the Foundation contributed to improving knowledge on biodiversity and its importance for life and economic development by organising several activities, such as the exhibitions in the Royal Botanical Gardens of Madrid: *Biodiversidad en España* (Biodiversity in Spain) and *Imágenes del paraíso. Las colecciones de Mutis y Sherwood* (Images from Paradise. The Mutis and Sherwood collections), and the First Seminar on Biodiversity and Social Responsibility. This forum, held in May 2010, considered the issue of biodiversity from economic, social, environmental and scientific points of view, stressing its importance in a sustainable development model.

Another factor that contributes to the development and progress of a community is the dissemination of art and culture. Consequently, the Foundation cooperates with museums, institutions and other cultural foundations to bring music, theatre, art and literature to the public.

The Foundation also promotes and develops social studies of general interest with the intention of gaining more in-depth knowledge about those social problems and needs that are most prevalent in our society, thus contributing to the generation and dissemination of knowledge, both at a popular and at an expert level. Its research lines include a number of areas: social observatory of energy, responsible mobility and science and society. In the area of responsible mobility, two complementary studies were presented in 2010: *La alimentación en los viajes por carretera. Hábitos y comportamientos* (Food during road trips. Habits and behaviours), which analyses drivers' and their companions' main food-related habits and behaviour while on the road; and *Recomendaciones nutricionales durante los viajes* (Nutritional recommendations for journeys), prepared in collaboration with the Spanish Nutrition Foundation to establish the most suitable food guidelines regarding different kinds of journeys, considering factors such as population groups, type of journey, transport used and season. As a complement to these studies, and in collaboration with the Dirección General de Tráfico (Spanish Department of Traffic), the Foundation prepared a set of good practices for good feeding habits on the road, contributing to safer driving.

The Repsol Foundation undertakes its activities in those countries where the company operates its business, with specific projects adapted to the local needs. In Ecuador, for instance, it fosters a microcredit programme in the Orellana and Sucumbios provinces, designed for low-income women who are excluded from the usual financial system, and enables them to become self-employed.

In Peru, the Foundation has opened the Centre for Education and Integrated Human Development (CEDHI) for young people at risk of social exclusion in Arequipa; the educational infrastructure of Pachacutec has been extended by building a secondary school and a basic training space at the Centre for Education and Community Development (CEDEC), making the integration of young people at risk of social exclusion into the education system possible. Construction on the Luisa Astrain School has also begun in order to provide access to education for children living in extreme poverty.

In Bolivia, in the area of health, the building of a paediatric and emergency section has been started to enlarge the capacity of the Hospital San José Obrero in Santa Cruz de la Sierra, an area with significant unmet needs in this field. Similarly, the Foundation continues to work on the healthy home programme to fight Chagas disease in some zones of the country.

These and other programmes and projects are but an example of the Repsol Foundation's commitment to improving society and the welfare of people.

YPF Foundation

Since its creation in 1996, the YPF Foundation has worked on initiatives relating to education, scientific research, heritage conservation, the dissemination of culture and environmental protection, in Argentina in particular.

A social development path was begun in 2009, in those areas where the company has operations. By 2010 two important milestones were reached: the opening of the Centro Cultural Las Heras, in Santa Cruz, and of the Oil and the Environment Museum, in La Plata.

In education, 33 technical schools in the provinces of Buenos Aires, Chubut, Mendoza, Neuquén and Santa Cruz benefitted from high-level teacher training, next-generation equipment and educational materials. The mobile interpretation centre *Ciencia y Tecnología en Movimiento* (Science and Technology in motion) was presented at the International Book Fair and travelled to schools and science fairs in different parts of the country. In addition to this, 200 students received support in their oil and gas industry-related university studies, as well as 69 professionals who were carrying out post-graduate scientific and technological work.

With the aim of improving people's social and work inclusion, the Foundation has continued to offer a job training programme in the towns where Repsol has operations. A new project was added in 2010, the Re-Conocer programme, which deals with disability related problems by raising awareness and implementing actions for educational and workplace inclusion.

In the area of sustainable development, the YPF Foundation has been working alongside various institutions such as Ecocentro, the NGO Aves Argentinas and Parques Nacionales, to coordinate research and awareness projects on environmental improvement and on the protection and conservation of the environment and biodiversity.

Regarding cultural activities, the First International Violin Competition Buenos Aires 2010 was organised, in collaboration with the Amijai community and as part of the patronage of the Buenos Aires city council: 25 young violin players from all over the world were judged by an internationally-renowned jury chaired by Shlomo Mintz.

For the second consecutive year, the YPF Foundation Cultural Season presented over 100 free plays and musicals for adults and young people in 13 towns. And with *Arte en la Torre* (Art in the Tower), a new contemporary art venue in its Buenos Aires headquarters, the YPF Foundation brought the work of many important Argentinean artists to the general public.

The *Muestras Itinerantes* (Travelling Exhibitions) programme also started, with Marcos López's photography exhibition *Vuelo de Cabotaje*. Another art-related programme, carried out in the provinces of Formosa and La Rioja, was called *Argentina Pinta Bien* 2010. A sculpture called *Los Caballos de San Martín*, made from industrial waste material, was presented by the artists taking part in the Metalwork Art Workshop.

During 2010 the Foundation has worked actively in the conservation of Argentinean heritage. Some of the projects were: the project to restore and conserve Candido Lopez's work; the restoration of the group of sculptures on the facade of the Museo Etnográfico Juan Ambrosetti; renovation of the Teatro Colón tearoom and the recovery of Museo Gauchesco and Parque Criollo Ricardo Güiraldes.

Two books, on the history of the Rosedal (rose garden) de Palermo and the Patio Andaluz, have been published; the book *Parques Nacionales Argentinos* (National Parks of Argentina), by artist Diego Ortiz Mugica, developed in collaboration with the Fundación Parques Nacionales and Telefónica, was presented; and the second volume of the lexical dictionaries *La Academia y La Lengua del Pueblo*, with the Argentinean Academy of Literature was launched.

Repsol YPF Ecuador Foundation

In line with its firm social commitment, Repsol decided voluntarily to create a foundation in Ecuador with the basic objective of working for the development of indigenous and mixed-race communities in the territories indirectly within the sphere of influence of Block 16. The Repsol YPF Ecuador Foundation was created on 11 May 2001.

Based on a study of socio-economic and cultural conditions in the area, three priorities were identified to improve the conditions of life for the population. The first is related to education and job market insertion; the second is oriented towards health and hygiene; and the third concerns efforts to strengthen production and commercial capability at the micro and local levels. Likewise, it should be mentioned that the Inclusive Business Model was introduced in

2010 which, in addition to generating business profit, creates social and economic value by integrating low-income people into the operations of several companies.

The Repsol YPF Ecuador Foundation took part in 22 social development projects in 2010. Of these, 11 were completed during the year, and the remaining 11 are ongoing projects basically involving monitoring and technical support work. The foundation is convinced that the sustainability of its initiatives requires not only the injection of funds, but also continuous monitoring and support for projects after the funding process is complete, to ensure full autonomy.

A total of 11,865 people benefited from the initiatives funded by the Repsol YPF Ecuador Foundation using its own resources and contributions from counterparty entities, strategic allies of the foundation and the communities themselves.

The foundation is making a consistent effort to generate proposals and seek additional funding with the aim of enlisting the support of multilateral cooperation organisations and other companies in its social and environmental development projects and initiatives.

The environment

Caring for the environment is an essential aspect in the management of Repsol's activities. This principle is part of the company's strategic vision and its commitment to "contribute to sustainable development and the improvement of the social environment, and to respect human rights, the environment and safety".

Repsol's principles in terms of safety and the environment are defined in its Safety, Health and Environment Policy, applicable to all the activities of the company. One of these principles is incorporating safety and environment criteria to the entire life cycle of the activities, with the purpose of preventing damage to people and assets and minimising the impact on the environment.

The basis for managing safety and the environment is the management system, formed by a large body of regulations, procedures, technical guides and management tools which are constantly updated to adapt them to the sector's best practices.

The ISO 14001 certificate has been promoted in the facilities as a way to foster continuous improvement and to obtain an external validation of the management systems. All the refineries, chemical plants and lubricant and specialties facilities are currently certified, as well as nearly all the exploration and production centres and a growing number of installations devoted to other activities. (See a list of the certified centres at www.repsol.com)

Significant environmental investments were made during 2010, with the aim of improving the environmental quality of oil products, minimising air emissions, increasing energy efficiency, optimising water consumption and reducing the pollutant load in water discharges, and of improving spill prevention systems by applying the best practices available and technological innovations. The company has also made a significant effort to identify, appraise and correct possible polluting situations that occurred in the past.

Details of the Group's environmental assets, provisions, expenses and future actions are detailed in Note 35 of the Consolidated Financial Statements. Furthermore, in Repsol's Corporate Responsibility Report 2010 there is a list of the most important actions carried out during the year for the protection and conservation of the environment, as well as the evolution of the most relevant indicators.

Sustainable energy and climate change

During 2009 and 2010 Repsol has developed the Carbon Strategy to meet the challenge of providing a responsible energy supply. After creating the New Energies business unit (see Downstream and Innovation and Technology sections) and the roll-out of positionings and action plans, a new stage has begun in Repsol's Carbon Strategy, with the purpose of:

- Promote a common carbon-reducing culture and guide the deployment of future projects, both in Upstream and Downstream as well as in the New Energies businesses.
- Identify synergies between all businesses, in order to reduce carbon.

Repsol's Carbon Strategy is geared towards six areas:

- Energy efficiency to curb CO₂ emissions and operating costs.
- Carbon markets, which focuses on covering the expected deficit under the EU emissions trading scheme (ETS), the development of Clean Development Mechanism (CDM) projects and obtaining Certified Emissions Reductions (CER).
- Prospection, development and implementation of technologies for CO₂ capture and storage.
- Biofuels strategy: research, development, production, blending and distribution.
- Development of new technologies for transport, contributing to guarantee the supply of cleaner fuels with less environmental impact.
- Search for business opportunities for renewable electricity generation, establishing synergies with the company's current operations.

In the area of climate change, the following events in 2010 are worth mentioning:

- The United Nations has approved the industrial project for the YPF refinery in La Plata (Argentina) as a Clean Development Mechanism (CDM), thus becoming the first project of this kind approved in the world. The CDM, an instrument included in the Kyoto Protocol, allows companies to develop Greenhouse Gas Emissions reduction projects, thus favouring sustainable development and the introduction of clean technologies in the countries where such investment is made. This project will considerably reduce the emission of greenhouse gases (about 200,000 CO₂ metric tons/year) by reusing waste gas which normally would have been burnt in the flare. The use of this gas in the refinery's equipment partly replaces the use of fuels such as natural gas or fuel oil.

Likewise, for the project to be approved, it was necessary to develop a new methodology which was also approved by the United Nations in 2007 under the name AM0055 "Baseline and Monitoring Methodology for the recovery and utilization of waste gas in refinery facilities". Four projects in the world are currently applying this methodology.

- Once again, the company has been included in the selective Climate Disclosure Leadership (CDLI) index, which groups the 51 best industrial companies in the world featured in the FTSE Global Equity Index Series (Global 500) regarding climate change communication and transparency. The company has also been qualified in the new Climate Performance Leadership Index (CDPI), which recognises the 48 companies with the most highly-developed strategy for the management of climate change-related risks and opportunities and which are adopting the best measures regarding its mitigation. Repsol is one of only two oil companies in the world, and one of two Spanish companies, that is featured in both indexes.
- Additionally, in March 2010, Repsol received the Emissions Tracking Carbon Verification Leaders Award 2010, acknowledging the information disclosed by the company on the verification and accounting of its greenhouse gases. According to the Environmental Investment Organization (EIO), the entity behind this award, Repsol is one of seven companies, among 1,000 analysed in this study, whose Emission Report was entirely verified and accepted and it was also the only energy company to obtain full recognition.

Communication

Transparency and close relations with the company's different stakeholders are the mainstay of Repsol's communications strategy. Nowadays, society demands accessible information, and Repsol does not hesitate to cater for this need in the smoothest and most reliable way possible with a number of tools.

Shareholders and investors

These groups have access to all sorts of resources that enable them to find out about the day-to-day business of the company. Since its stock market flotation in 1989, Repsol has had a Shareholder Information Office (OIA) and an Investor Relations Department, and through them it deals with the needs of its shareholders, institutional investors and stock market analysts. Over the last few years the company has been increasingly covered by analysts; currently there are 41 analysts monitoring the company's evolution.

Shareholders can ask for any information they need from the OIA by going to the office in person, calling the 900 100 100 freephone or by post or e-mail. The OIA received about 52,000

calls in 2010 (an average of 200 per day). Most of the enquiries concerned the share price, the Annual General Shareholders' Meeting, the policy on and payment dates of dividends, and the material facts on the company.

In addition, the corporate website (www.repsol.com) provides access to all the relevant information about the company, as well as specific contents in the section "Information for shareholders and investors", which in 2010 had more than 200,000 visits. The portal has also several e-mail addresses (the standard one being infoaccionistas@repsol.com) for asking questions or requesting publications. In 2010 over 5,000 e-mails were sent to these mailboxes, mainly asking for information about Repsol.

The Investor Relations Department provides smooth communication with institutional investors and stock market analysts. During this year the company organised a roadshow (meetings with institutional investors outside the Repsol offices) in Europe and the United States, with the participation of the top management, and another 20 meetings with the Investors Relations team. Furthermore, Repsol has been present in several conferences in the sector, both in Europe and in the United States, within which there were also meetings with institutional investors. Adding to the aforementioned the visits received in the company's offices, the total is about 500 institutional investors contacted during 2010. Finally, the Investor Relations Department organised a field trip (a visit for analysts and institutional investors focused on a certain representative asset of the company, with the presence of the top management and the local management) in Peru, attended by 23 analysts who follow the company's evolution.

Media relations

Repsol's policy for media relations is based on the principles of transparency, immediacy, accuracy and reliability of the information conveyed. The company at all times endeavours to ensure that requests for information from journalists are answered as quickly as possible, keeping up a free-flowing and ongoing contact with the media, which is regarded as vital for conveying developments in the business activity and management of a company that is present in more than 30 countries.

Repsol's Communication and Chairman's Office ED deals daily with general and specialist media at international, national, regional and local level, providing them with information about everything that professionals from this sector need to know. In addition, it works closely with the local media in the places where the company's industrial complexes are located.

All the media are informed of key activities and initiatives undertaken by Repsol by means of press releases. In Spain, Repsol distributed over 70 press releases during 2010, as well as those disseminated locally by the industrial complexes, the information released by the company in the countries where it operates and those related to sports sponsorship projects.

To strengthen the relationship with journalists, press conferences and specific informative meetings are arranged. In this sense, one of 2010 highlights was the press conference for the presentation of the 2009 results, which took place on 25 February 2010, and the one for the presentation of the main projects and investments included in the Horizon 2014 Plan (29 April 2010).

The company's website has a specific space, the press room, that provides immediate access to information about the Group. From this space, the press releases issued by Repsol, as well as publications, pictures, videos and all kinds of relevant information about the company are made available to the media and the general public. It also contains useful tools and a glossary of terms.

Repsol has a press mailbox (prensa@repsol.com), which aids relations with the different media. Over 4,000 enquiries and requests for information were handled through this channel in 2010. Likewise, every day dozens of queries are answered on the phone.

Repsol's commitment to transparency and truthful information was acknowledged in 2010 with two awards: in February, Repsol was chosen as the energy company with the best relationship with the Spanish press, according to the second wave of the KAR survey carried out by IPSOS. 46% of Spanish journalists polled chose Repsol as the company in the sector that had the best relationship with the press.

In mid-November, the Chamber of Commerce, Industry and Shipping of Barcelona informed Repsol that it had been awarded the 46th Premio Llotja, which acknowledges the company's effort to set up a truthful, complete and accessible information system for its shareholders and investors, and also for the general public.

Repsol online

For Repsol, transparency and openness with concern groups is a priority. The portal www.repsol.com is, in this sense, a key tool.

In 2010, the company reinforced its interest in digital media by focusing on three main lines of action. In the first place, the creation of new digitised contents to make Repsol, its brands and products better known to users, and to get closer to them via exclusive, interesting content. Secondly, enabling access through new platforms such as the iPad and iPhone, where applications related to the Repsol Guide are already available. And last but not least, fostering dialogue and interaction through its profiles in social networks.

In 2010, repsol.com had 70 million webpage viewings and 5 million visits per month and was once again distinguished by Spanish and European digital communication experts: the Spanish Association of Accountancy and Business Management, which gave the 8th Premio AECA to the Ibex 35 company with the best financial information on the Internet, and the international consultancy company Hallvarsson & Halvarsson who, for the seventh consecutive year, chose Repsol as the top Spanish company, thus retaining its position as one of the ten best European companies in terms of the efficiency and transparency of their corporate websites.

Regarding social networks, Repsol reinforced its presence, focusing mainly on the Repsol Guide and sports sponsorship. Its Facebook and Twitter profiles gather over 60,000 and 4,000 fans respectively. The company also has a gastronomy blog and another two with the Repsol riders Dani Pedrosa and Marc Márquez. In corporate terms, a monitoring and active listening system has been introduced to learn more about the perception of concern groups on the web.

These results and Repsol's constant interest in strengthening the relationship with its stakeholders, fostering interaction and providing direct access to communication via the multiple possibilities offered by digital media, have enabled the consolidation of repsol.com's leadership in online transparency and communication in Spain and Europe during 2010.

Intangible assets management

A large part of a company's value is in its intangible assets; brand and reputation being the two key strategic values for the differentiation and the generation of trust among stakeholders.

For this reason, the management of these intangible assets in Repsol is handled by the Department of Communication Strategy, Corporate Reputation and Branding.

Brand strategy

Repsol understands the concept of brand in its broader sense, from visual identity to different types of communication (internal communication, advertising, marketing, public relations, sponsorship and patronage). And Repsol is convinced of its increasing importance as a key element in product and service differentiation, the continuity of leadership in relation to customers and society in general, and the ability to attract and retain human capital.

A perfectly managed common identity allows the company to issue an unambiguous, differentiated message to its public, as well as building links with them.

Throughout its history, the Repsol brand has received awards and recognition, including high positions in the most prestigious brand rankings such as Interbrand and "Trusted Brands 2010".

Reputation

Corporate reputation, understood as the company's ability to generate trust, respect and admiration, is a key factor in business management. The aim of reputation management is to promote the constant improvement of the organisation and of its external recognition.

Repsol, a pioneer in this area, is one of the founding companies of the Corporate Reputation Forum and has adopted the Reprtrak model - an internationally recognized standard - as part of its reputation management and monitoring tools.

To reinforce this function, in 2010 Repsol created a department whose specific objective is to define corporate reputation policies, strategies and management models as well as the periodical monitoring of its status.

Repsol has retained its top ten position in local and international reputation indicators, such as MERCO (Spanish Business Reputation Monitor) and in Fortune's World's Most Admired Companies (Oil & Gas sector).

Sports sponsorship

During 2010, Repsol took part in the world's top motor sport competitions, like the World Motorcycle Championship, the best possible testing bench for its lubricants and fuels. Thanks specifically to the cumulative experience gained in the development of products for top-level competitions, Repsol is able to maintain its leading position in research and the development of products capable of living up to the expectations of its customers.

In line with our track record, 2010 was an outstanding season in terms of the world championship titles won by the Repsol drivers in international competitions. In MotoGP, Repsol came second with Dani Pedrosa. The Spanish motorcyclist won four grand prix, breaking his personal record, but bad luck and an injury when he was at his best meant he could not fight for the championship in the last few races. The Italian Dovizioso topped the podium seven times, but finished the season in fifth place.

But if there is something to remember about the 2010 season, it is that Marc Márquez won his first 125cc world championship. This motorcyclist, sponsored by Repsol, won ten grand prix, becoming the youngest Spanish rider to win a world title and the second in history. Marc's talent and charisma have made his races as popular as the top category.

Furthermore, the Repsol team won the Indoor and Outdoor Trial World Championship in the male competition and Outdoor Trial in the female competition. Toni Bou has won eight world championships. At 25, he is the rider with the second-highest number of prizes in history. On the female side, Laia Sanz, ten times world champion and winner of the Premio Nacional del deporte Reina Sofia, won the female competition in her first time at the Dakar rally. Similarly, Marc Coma, with Repsol's personal sponsorship, won his third Dakar rally in America in the motorcycle category.

Repsol team 2011

Repsol will continue to be the main sponsor for the Honda team. The agreement has in fact been renewed for two more years (2011 and 2012). The season beginning in Qatar on 20 March 2011 will see three out of the five best riders in the world as part of the Honda team. Cassey Stoner, 2007 champion and one of the favourites for the 2011 championship, will join Dani Pedrosa and Andrea Dovizioso. The presence of the Australian motorcyclist in the team will help the international projection of the Repsol brand.

In terms of logistics, the company will continue to provide its products so that the Repsol team enjoys the best fuels and lubricants.

Also, Marc Márquez will ascend to the Moto2 category with a great team, in technical and human terms, designed to help the 125cc champion compete in a few years' time with his role model Dani Pedrosa.

Other sponsorships

Repsol is also committed to Olympic sports and cooperates in the ADO plan, which helps young people fulfil their dream of taking part in the Olympic Games. In this way, with the objective of London 2012, Repsol is committed to consolidating this highly successful time in Spanish sports.

New Repsol headquarters

Construction on the new Repsol headquarters began in November 2008 and work continued apace in 2010.

The underground structure is finished, and 80% of the structure above ground has been built; the underground installations are about 70% finished. In 2010 Repsol submitted the project documentation to the US Green Building Council (certifying body for the LEED sustainability qualification system). This body accepted all the credits submitted; for this reason, the company expects a Gold certification in terms of sustainability.

The final project design for the approval of the interiors was also completed, including the design of the different types of spaces. For the design and functionality of the main services the company enlisted the help of the change agents team and the union representatives.

Lastly, each unit collaborated in assessing in detail their actual installation in the business park, and the work finished with a simulated installation, functionality check and a survey for any particular needs.

The future headquarters of Repsol will consist of a ground floor and four storeys of offices and service rooms. It will also have two basement floors containing facilities and a car park with capacity for 1,800 vehicles. The project includes over 5,000 m² providing services to employees. The closed ring layout of the buildings will provide a large tree-lined garden enclosure of almost 10,000 m². Also, a new green area will be created within the perimeter of the business park. Repsol has remained fully committed to sustainability from the design stage of the project. It is expected that the building work and most of the installation of the approved interior design will be finished in 2011 and the rest, in early 2012.

Supplementary content of the Management Report

(Pursuant to section 116.b of the Spanish Securities Market Act)

A. Capital structure, including securities not traded on a European Union regulated market, indicating, where appropriate, the different classes of shares and, for each class of shares, the rights and obligations that it confers and the percentage of capital that it represents.

The Share Capital of Repsol YPF, S.A. is currently €1,220,863,463, represented by 1,220,863,463 shares, each with a par value of €1, fully subscribed and paid up, belonging to the same class and, consequently, having the same rights and obligations.

The shares of Repsol YPF, S.A. are issued in book-entry form and have all been admitted to listing on the automated trading system of the Spanish securities markets (Madrid, Barcelona, Bilbao and Valencia) and the Buenos Aires exchange (Bolsa de Comercio de Buenos Aires). At the date of this Management Report, Repsol YPF, S.A. shares, in the form of American Depositary Shares (ADSs), are listed in the New York Stock Exchange (NYSE), although on February 22nd, 2011 the company has formally requested the delisting of its ADSs from said market. In this sense, it is estimated that the last day of trading of the ADSs in the NYSE will be March 4th, 2011.

B. Any restrictions on the transferability of shares.

As set out in the 11th Additional Provision of Act 34/1998 on the hydrocarbons sector, as per the wording of Royal Decree Law 4/2006, 24 February, administrative authorisation must be sought from the National Energy Commission for certain holding acquisitions involving companies that carry out regulated activities or activities that are subject to administrative intervention which entails a special binding relationship.

The Ruling of the Court of Justice of the European Communities (CJEC) of 28 July 2008 set out that, by enforcing this requirement, the Kingdom of Spain has breached the obligations incumbent upon it under articles 43 (freedom of establishment) and 56 (freedom of movement of capital) of the European Community Constitutional Treaty.

C. Significant direct or indirect holdings in the capital.

As of the last date available, the following were the most significant holdings in the share capital of Repsol YPF, S.A.:

Shareholder	Total % of the share capital
Sacyr Vallehermoso, s.A. (1)	20.01
Criteria Caixa Corp.	12.97
Petróleos Mexicanos (2)	4.81

(1) The shareholding of Sacyr Vallehermoso is held through Sacyr Vallehermoso Participaciones Mobiliarias, S.L.

(2) The shareholding of Petróleos Mexicanos (Pemex) is held through Pemex Internacional España, S.A. and through several equity swap instruments with certain financial institutions providing mechanisms furnishing Pemex with the financial rights and the exercise of voting rights up to 4.81% of the company's share capital.

D. Any restriction on voting rights.

Article 27 of the Corporate Articles of Association of Repsol YPF, S.A. lays down that the maximum number of votes than an individual shareholder, or companies belonging to the same Group, may cast at the General Meeting of Shareholders shall be 10% of the Share Capital with voting rights.

Furthermore, article 34 of Royal Decree-Law 6/2000 sets out certain restrictions on the exercise of voting rights in more than one principal operator in the same market or sector. Among others, it lists the markets for the production and distribution of fuels, the production and supply of liquid petroleum gases and the production and supply of natural gas, the principal operator being understood to be any of the entities that hold the five largest shares in the market in question.

Such constraints are specified as follows:

- Natural or legal persons who have a direct or indirect holding of over 3% in the Share Capital or the voting rights of two or more principal operators in the same market may not exercise the voting rights attached to the excess over and above such percentage in more than one of those companies.
- A principal operator may not exercise voting rights representing more than 3% of the Share Capital of another principal operator in the same market.

These prohibitions shall not apply to parent companies which have the status of principal operator with respect to their controlled companies that have the same status, provided that such a structure is imposed by the legal system or is the consequence of a mere redistribution of securities or assets among companies in the same Group.

The National Energy Commission, as the energy market regulatory body, may authorise the exercise of the voting rights attached to the excess, provided that this does not favour the exchange of strategic information or entail risks of coordination in their strategic activities.

E. Shareholders' Agreements.

Repsol YPF S.A. has not been informed of any shareholders' agreements that include regulating the exercising of voting rights at its general meetings or that restrict or place conditions on the free transfer of Repsol YPF S.A. shares.

F. Rules applicable to the appointment and replacement of members of the Board of Directors and amendment of the corporate Articles of Association.

• Appointment

The General Shareholders' Meeting is entrusted with appointing the members of the Board of Directors, notwithstanding the powers of the Board to appoint Directors from among the shareholders to fill vacancies that arise until the next General Meeting is held.

Persons to whom the prohibitions under section 213 of the Spanish Stock Companies Act apply, and those who are under disqualifying circumstances according to the law in force may not be appointed as directors.

Nor may persons and entities that are in a situation of permanent conflict of interest with the company, including rival entities, their directors, executives or employees and the persons linked with or proposed by them be directors of the company.

Nominees shall be persons who, in addition to fulfilling the requirements for the post stipulated in the law and Articles of Association, have acknowledged prestige and possess the appropriate professional knowledge and expertise for the performance of their duties.

The proposals for the appointment of Directors that the Board submits to the General Meeting, and appointments made by co-option, shall be approved by the Board (i) at the proposal of the

Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a prior report by that Committee in the case of other directors.

- **Re-election**

The Nomination and Compensation Committee is responsible for assessing the quality of work and dedication to the office during the preceding term of office of directors proposed for re-election.

The proposals for the re-election of Directors that the Board submits to the General Meeting, and appointments made by co-option, shall be approved by the Board (i) at the proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a prior report by that Committee in the case of other directors.

- **Withdrawal or resignation**

Directors shall cease to hold office when the term for which they were appointed expires (unless they are re-elected) and in the other circumstances provided for in the Law, the Corporate Articles of Association and the Regulations of the Board of Directors.

Furthermore, directors must submit their resignation to the Board of Directors in any of the following circumstances:

- When they are under any disqualifying circumstance or prohibition provided for by law, the company's Articles of Association or the regulations that apply to them.
- When they have been seriously cautioned by the Nomination and Compensation Committee or the Audit and Control Committee for having breached their obligations as Directors.
- When, in the opinion of the Board, subject to a prior report by the Nomination and Compensation Committee:
 - Their continued presence on the Board may jeopardise the interests of the company or impair the functioning of the board itself or the standing and reputation of the company; or
 - When the reasons for which they were appointed no longer concur. This includes, in particular:
 - Institutional Outside Directors when the shareholder that they represent or that had proposed their appointment transfers the whole of their shareholding. They must also surrender their post to the Board and, if the Board deems it fit, tender the respective formal resignation, in the corresponding proportion, when such shareholder reduces its shareholding to a level that requires the reduction in the number of its Institutional Outside Directors.
 - The Executive Directors, when they cease to hold the executive posts outside the Board to which their appointment as Director was linked.

The Board of Directors shall not propose the withdrawal from office of any Independent Outside Director before the statutory period for which he/she had been appointed comes to an end, except where there are proper grounds for doing so, in the opinion of the Board subject to a prior report by the Nomination and Compensation Committee. In particular, proper grounds shall be deemed to exist if the Director (i) had breached the duties inherent in his/her office; (ii) were in any of the situations described in the previous paragraphs; or (iii) were in any of the circumstances described in the Regulations of the Board as a result of which he/she cannot be classified as an Independent Outside Director.

Proposals for the withdrawal from office of Independent Outside Directors may also be made as a result of takeover bids, mergers or other similar corporate operations that entail a change in the company's capital structure, to the extent necessary to establish a reasonable balance between Institutional Outside Directors and Independent Outside Directors according to the relationship between the capital represented by the former and the remainder of the capital.

- **Amendment of the Articles of Association**

The Articles of Association of Repsol YPF, S.A., which are available on its website (www.repsol.com), do not lay down different conditions from those contained in the Spanish Stock Companies Act for their amendment, with the exception of the amendment of the last paragraph of section 27, regarding the maximum number of votes that a shareholder or companies belonging to the same Group may cast at the General Meeting. This resolution, as well as the resolution to amend this special rule contained in the last paragraph of section 22 of the Articles of Association, requires, both in the first and in the second call, the favourable vote of 75% of the share capital with voting rights attending or represented at the General Meeting.

G. Faculties of the members of the Board of Directors and, in particular, those concerning the possibility of issuing or repurchasing shares.

The Annual General Meeting of Shareholders of the company, held on 30 April 2010 agreed to authorise the Board of Directors to increase the Share Capital, once or several times, during a period of 5 years, by the maximum amount of €610,431,731 (approximately half the current Share Capital), by issuing new shares the counter value of which shall consist of cash contributions.

Likewise, the Annual General Meeting of Shareholders of the company, held on 30 April 2010, authorised the Board of Directors to engage in the derivative acquisition of own shares, under the terms indicated above in the "Financial situation" section of this Management Report.

Finally, in addition to the powers recognised in the company's Articles of Association and the Board Regulations as being conferred upon the Chairman and Vice-Chairmen of the Board, the Executive Directors have each been granted general powers of attorney to represent the company, conferred by the Board of Directors, and which are duly recorded in the Commercial Register of Madrid.

H. Significant agreements to which the company is party and that take effect, alter or terminate upon a change of control at the company as a result of a takeover bid, and their effects, except when disclosure thereof would be seriously detrimental to the company. This exception shall not apply when the company is under the legal obligation to make this information public.

The company participates in exploring for and exploiting hydrocarbons through consortiums or joint ventures with other oil companies, both public and private. In the contracts governing the relations between the members of the consortium the other partners are usually granted a right of first refusal over the holding of the partner on which a change of control takes place when the value of said holding is significant in relation to the overall assets of the transaction or when other conditions set out in the contracts occur.

Likewise, according to the rules regulating the oil and gas industry in the different countries in which the company operates, the transfer, total or partial, of research permits and exploitation concessions as well as, on occasions, the change of control in the concessionaire entity or entities and in particular in the entity that has the status of acreage operator, are subject to prior authorisation from the competent administrative authority.

In addition, the agreements entered into by and between Repsol YPF and Caja de Ahorros y Pensiones de Barcelona ("la Caixa") relating to Gas Natural Fenosa S.A., reported as relevant events through the Securities Market Commission, as well as the Industrial Agreement Activity between Repsol YPF and Gas Natural Fenosa S.A. set forth in the abovementioned agreements and disclosed as a relevant event on 29 April 2005 and the Partnership Agreement between Repsol YPF and Gas Natural Fenosa relating to Repsol-Gas Natural LNG S.L. consider the change in the control structure of either of the parties to be grounds for termination.

I. Agreements between the company and its directors and executives or employees providing for compensation when they resign or are unfairly dismissed or if the employment relationship comes to an end because of a takeover bid.

- **Executive Directors**

The Chairman and the Secretary and General Counsel are entitled to a Deferred Financial Compensation in the event of the termination of their relationship with the company, provided that said termination does not take place as a result of a breach of their obligations or of their own free will, without there being grounds for it, among those provided for in the contract itself. The amount of the compensation for termination of the relationship shall be three years of their aggregate cash remuneration.

- **Executives**

The Repsol YPF Group has established a sole legal rule for executive staff, which is specified in the Executive Contract, in which the compensation system applicable in circumstances involving termination of the employment relationship is regulated and in which the grounds for compensation are the ones laid down in the current Spanish legislation.

In the case of members of the Executive Committee, they include the resignation of the executive in the event of transfer of undertakings or a major change in its ownership, resulting in a replacement of its governing bodies or of the content and guidelines of its core business activity. The amount of compensation for current members of the Executive Committee is calculated according to the Executive's age, years in the company and salary.

Further information about this matter can be found in Note 33 to the Repsol YPF Consolidated Financial Statements.

TOTAL % OF VOTING RIGHTS HELD BY THE BOARD OF DIRECTORS 0.032

Complete the following tables on directors with stock options in the company:

Name of Director	Number of direct option rights	Number of indirect option rights	Number of share equivalents	% total voting rights

A.4

Indicate family, commercial, contractual or corporate relationships among significant shareholders known to the company, if any, except any that are insignificant and those deriving from ordinary commercial business:

Names of related persons or companies	Type of relationship	Brief description

A.5

Indicate commercial, contractual or corporate relationships between significant shareholders and the company and/or its group, if any, except any that are insignificant and those deriving from ordinary commercial business:

Names of related persons or companies	Type of relationship	Brief description
Caja de Ahorros y Pensiones de Barcelona	Corporate	Repsol YPF and Caja de Ahorros y Pensiones de Barcelona (controlling shareholders of Criteria CaixaCorp, S.A.) participate in Gas Natural SDG, S.A., which has as business purpose, among other activities, supply, production, piping and distribution of any type of combustible gas. Repsol YPF and Caja de Ahorros y Pensiones de Barcelona have also signed an agreement relative to Gas Natural SDG, S.A., describe by both entities as a concerted situation of which the Comisión Nacional del Mercado de Valores (CNMV) has been duly notified.

A.6

Indicate any shareholders' agreements of which the company has been notified in pursuance of Art. 112 of the Securities Market Act. Describe briefly, if any, indicating the shareholders bound by the agreement:

NO

Involved in the shareholder agreement	% of capital affected	Brief description of the agreement

Indicate any concerted actions among company shareholders of which the company is aware:

NO

Involved in the concerted action	% of capital affected	Brief description of the agreement

Expressly indicate any change or break-up of those agreements or concerted actions, if any, that has taken place during the year:

A.7

Indicate any individuals or entities that exercise or may exercise control over the company in pursuance of Article 4 of the Securities Market Act:

NO

Individual or corporate name

Comments

A.8

Complete the following tables on the company's treasury stock:

At year-end:

Number of direct shares	Number of indirect shares ^(*)	Treasury stock/capital (%)
0	0	0

(*) Through

Individual or corporate name of direct shareholder	Number of direct shares

Total	0
--------------	----------

Give details on any significant variations during the year, according to the provisions of Royal Decree 1362/2007:

Date of notice	Total direct shares acquired	Total indirect shares acquired	% of share capital

Gain/(loss) obtained during the year on trading in own shares (thousand euro)	0
--	----------

A.9

Indicate the terms and conditions of the authorisation granted by the General Meeting to the Board to buy or sell own shares.

The Annual General Meeting of Shareholders of Repsol YPF, S.A. held on second call on April 30, 2010, adopted the following resolution under item six on the Agenda:

"First. To authorize the Board of Directors for the derivative acquisition of shares of Repsol YPF, S.A., by sale, purchase, exchange or any other onerous legal business modality, directly or through controlled companies, up to a maximum number of shares, that added to those already own by Repsol YPF, S.A. and its subsidiaries, not exceeding 10% of the share capital and for a price or equivalent value that may not be lower than the nominal value of the shares nor exceed the quoted price on the stock market.

The shares so acquired may be disbursed among the employees and directors of the Company and its Group or, if appropriate, used to satisfy the exercise of option rights that such persons may hold.

This authorization, which is subject to the compliance of all other applicable legal requirements, shall be valid for 18 months, counted as from the date of the present General Shareholders Meeting, and leaves without effect the authorization granted by the last Ordinary General Shareholders Meeting held on the 14th May 2009.

Second. To authorize the Board of Directors to delegate, pursuant to the provisions of article 141.1 of Joint Stock Companies Act, the delegated powers contemplated in section first of these resolutions."

A.10

Indicate any constraints established in law or the Articles of Association on the exercise of voting rights and legal restrictions on the acquisition and disposal of shares in the capital.

Indicate whether there are any legal constraints on the exercise of voting rights:

YES

Maximum percentage of voting rights that may be exercised by one shareholder by legal constraint	3%
---	----

Indicate whether the Articles of Association establish any constraints on the exercise of voting rights:

YES

Maximum percentage of voting rights that may be exercised by one shareholder by a constraint under the Articles of Association	10%
---	-----

Description of the constraints established in law or the Articles of Association on the exercise of voting rights

Article 34 of Royal Decree-Law 6/2000 establishes certain constraints on the exercising of voting rights in more than one principal operator in any one market or sector. Among others, it lists the fuel production and distribution, liquefied petroleum gas production and supply and natural gas production and supply markets. The principal operators are the entities holding the five largest shares of the market in question.

These constraints are as follows:

- Individuals or entities directly or indirectly holding more than 3% of the capital or voting rights of two or more principal operators on the same market may not exercise the voting rights corresponding to the excess over that percentage in more than one of such operators.
- No principal operator may exercise the voting rights corresponding to an interest of more than 3% in the capital of another principal operator on the same market.

These constraints shall not be applicable to parent companies that are principal operators in respect of their subsidiaries that are in the same position, provided this structure is imposed by law or the result of a mere redistribution of securities or assets among group companies.

The Comisión Nacional de Energía (CNE), regulator of the energy market, may authorise exercise of the voting rights corresponding to the excess provided this does not favour the exchanging of strategic information or imply any risks of coordination of their strategic actions.

Furthermore, Article 27 of the Repsol YPF, S.A. Articles of Association stipulates that no one shareholder, or companies belonging to the same Group, may cast votes at general meetings in excess of the number corresponding to 10% of the voting capital.

Indicate whether there are any legal restrictions on the acquisition and disposal of shares in the capital:

NO

Description of the legal restrictions on the acquisition or transfer of interests in the share capital

A.11

Indicate whether the General Shareholders' Meeting has resolved to take measures to neutralise a takeover bid under Act 6/2007.

NO

If so, explain the measures approved and the terms on which the constraints would become ineffective:

B Management structure of the Company

B.1 Board of Directors

B.1.1 State the maximum and minimum numbers of Directors stipulated in the Articles of Association:

Maximum number of directors:	16
Minimum number of directors:	9

B.1.2 Complete the following table with details of the members of the Board:

Name of Director	Representative	Position	Date first appointment	Date last appointment	Election procedure
Antonio Brufau Niubó		Chairman	07/23/1996	05/09/2007	Cooptation
Luis Fernando del Rivero Asensio		First Vice-Chairman	11/29/2006	05/09/2007	Cooptation
Isidro Fainé Casas		Second Vice-Chairman	12/19/2007	05/14/2008	Cooptation
Juan Abelló Gallo		Director	11/29/2006	05/09/2007	Cooptation
Paulina Beato Blanco		Director	12/29/2005	04/30/2010	Cooptation
Artur Carulla Font		Director	06/16/2006	04/30/2010	General Meeting
Luis Carlos Croissier Batista		Director	05/09/2007	05/09/2007	General Meeting
Carmelo de las Morenas López		Director	07/23/2003	05/09/2007	Cooptation
Ángel Durández Adeva		Director	05/09/2007	05/09/2007	General Meeting
Javier Echenique Landiríbar		Director	06/16/2006	04/30/2010	General Meeting

TOTAL NUMBER OF INDEPENDENT DIRECTORS		8
INDEPENDENT DIRECTORS / TOTAL DIRECTORS (%)		50

OTHER OUTSIDE DIRECTORS

Name of director	Committee proposing appointment
TOTAL NUMBER OF OUTSIDE DIRECTORS	
OUTSIDE DIRECTORS / TOTAL DIRECTORS (%)	

State reasons why they cannot be considered institutional outside or independent outside directors:

Indicate any variations during the year in the type of each director:

B.1.4 Explain why institutional directors have been appointed at the proposal of shareholders with less than a 5% interest in the company, if appropriate:

Name of shareholder	Justification
Pemex Internacional España, S.A.	Pemex Internacional España, S.A. was appointed director of Repsol YPF, S.A., as an Institutional Outside Director, at the proposal of the significant shareholder Petróleos Mexicanos, which currently holds 4.8% of total voting rights of the Company. Petróleos Mexicanos has held a stable interest in the company since 1990, when it proposed the appointment of its subsidiary PMI Holdings, B.V. as director of Repsol YPF, S.A..

Indicate whether any formal requests for presence on the Board have not been met from shareholders with an interest equal to or greater than that of others at whose request institutional directors have been appointed. If so, explain why such requests have not been met:

NO

Name of shareholder	Explanation
---------------------	-------------

B.1.5 Indicate whether any director has retired from office before the end of his/her term, whether he/she explained the reasons for such retirement to the Board, and how, and if done in a letter addressed to the entire Board, explain at least the reasons stated therein:

NO

Name of Director	Retirement reasons
------------------	--------------------

B.1.6 Indicate the powers delegated to the Managing Director(s), if any:

Name of director	Brief description
------------------	-------------------

B.1.7 Name the Board members, if any, who are also directors or executives of other companies in the same group as the listed company:

Name of director	Name of group company	Position
Antonio Brufau Niubó	YPF. S.A.	Chairman
Luis Suárez de Lezo Mantilla	YPF. S.A.	Director

B.1.8 Name the company directors, if any, who are on the Boards of non-group companies listed on Spanish stock exchanges, insofar as the company has been notified:

Name of Director	Listed Company	Position
Antonio Brufau Niubó	Gas Natural SDG, S.A.	Vice-Chairman
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso, S.A.	Chairman
Luis Fernando del Rivero Asensio	Testa Inmuebles en Renta, S.A.	Director
Isidro Fainé Casas	Abertis Infraestructuras, S.A.	Vice-Chairman
Isidro Fainé Casas	Telefónica, S.A.	Vice-Chairman
Isidro Fainé Casas	Criteria CaixaCorp, S.A.	Chairman
Luis Carlos Croissier Batista	Adolfo Domínguez, S.A.	Director
Luis Carlos Croissier Batista	Testa Inmuebles en Renta, S.A.	Director
Carmelo de las Morenas López	Faes Farma, S.A.	Director
Carmelo de las Morenas López	Casa del Alguacil Inversiones SICAV, S.A.	Chairman
Ángel Durández Adeva	Gestevisión Telecinco, S.A.	Director
Javier Echenique Landiribar	Banco Sabadell, S.A.	Vice-Chairman
Javier Echenique Landiribar	Actividades de Construcción y Servicios (ACS), S.A.	Director
Javier Echenique Landiribar	Grupo Empresarial ENCE, S.A.	Director
José Manuel Loureda Mantiñán	Testa Inmuebles en Renta, S.A.	Director
Juan María Nin Génova	Criteria CaixaCorp, S.A.	Vice-Chairman
Juan María Nin Génova	Gas Natural SDG, S.A.	Director
Luis Suárez de Lezo Mantilla	Gas Natural SDG, S.A.	Director

B.1.9 Indicate and, if appropriate, explain whether the company has established rules on the number of boards on which its directors may sit:

NO

Description of rules

B.1.10 With regard to recommendation number 8 of the Unified Code, indicate the general policies and strategies of the company reserved for approval by the full board:

	SÍ	NO
Investment and financing policy	X	
Definition of the structure of the group of companies		X
Corporate governance policy	X	
Corporate social responsibility policy	X	
Strategic or business plan, management objectives and annual budget	X	
Pay policy and senior executive performance assessment	X	
Risk management and control policy and regular monitoring of the internal information and control systems		X
Dividend policy, treasury stock policy, especially limits	X	

B.1.11 Complete the following tables on the aggregate directors' remuneration accrued during the year:

a. In the reporting company:

Remuneration	Thousand euro
Fixed remuneration	8,179
Variable remuneration	2,232
Attendance fees	0
Statutory payments	0
Stock options and/or other financial instruments	0
Others	53

Other Benefits	Thousand euro
Advances	0
Loans granted	0
Pension Plans and Funds: Contributions	2,487
Pension Plans and Funds: Obligations contracted	0
Life assurance premiums	298
Guarantees furnished by the company for directors	0

b. For company directors who are on other Boards and/or in the top management of group companies:

Remuneration	Thousand euro
Fixed remuneration	536
Variable remuneration	0
Attendance fees	0
Statutory payments	0
Stock options and/or other financial instruments	0
Others	0
TOTAL	536

Other Benefits	Thousand euro
Advances	0
Loans granted	0
Pension Plans and Funds: Contributions	0
Pension Plans and Funds: Obligations contracted	0
Life assurance premiums	0
Guarantees furnished by the company for directors	0

c. Total remuneration by type of director:

Types of directors	By company (thousand euro)	By group (thousand euro)
Executive	6,243	536
Institutional outside directors	1,809	0
Independent outside directors	2,412	0
Other outside directors	0	0
TOTAL	10,464	536

d. Regarding profit attributed to the controlling company:

Total directors' remuneration (thousand euro)	11,000
Total directors' remuneration / profit attributed to parent company (%)	0.2

B.1.12 Name the members of top management who are not executive directors and indicate the aggregate remuneration accrued in their favour during the year:

Name	Position
Pedro Fernández Frial	Executive Managing Director Downstream
Nemesio Fernández-Cuesta Luca de Tena	Executive Managing Director Upstream
Miguel Martínez San Martín	Chief Operating Officer (C.O.O.)
Fernando Ramírez Mazarredo	Chief Financial Officer (C.F.O.)
Cristina Sanz Mendiola	Group Managing Director of Human Resources and Organization
Antonio Gomis Sáez	Executive Managing Director Operating YPF (COO)
Isidoro Mansilla Barreiro	Audit and Control Director
Miguel Ángel Devesa del Barrio	Corporate Director of Strategy and Corporate Development
Begoña Elices García	Corporate Director of Communications and Chairman's Office
TOTAL REMUNERATION TOP MANAGEMENT (thousand euro)	12,551

B.1.13 Indicate globally whether any golden handshake clauses have been established for the top management, including Executive Directors, of the company or its group in the event of dismissal or change of ownership. State whether these contracts have to be notified to and/or approved by the governing bodies of the company/group companies:

Number of beneficiaries	11	
	Board of Directors	General Meeting
Body authorising the clauses	YES	NO
Is the General Meeting informed on the clauses?	NO	

B.1.14 Explain the process for establishing the remuneration of the Board members and the relevant articles of the Articles of Association:

Processes for establishing the remuneration of the Board members and articles of the Articles of Association

Article 45 of the Repsol YPF, S.A. Articles of Association provides as follows:

"Directors, in their position as members of the Board of Directors and due to their carrying out the function of supervision and group decision as befits this body, shall be entitled to receive from the Company an amount equivalent to 1.5% of the clear profit, which may only be allocated after attending to the requirements of the legal reserve and others that may be compulsory, and of providing the shareholders with a dividend of at least 4%. The Board of Directors is responsible for fixing the exact amount to be paid within this limit, as well as its distribution among the various Directors, taking into account the positions held by each Director on the Board and its committees. The Company is authorised to make advance payments on account of future participation in profits.

Directors may be additionally remunerated by means of granting company shares, share options or other securities giving the right to obtain shares, or through remunerative systems linked to the stock market value of the shares. The application of these systems must be approved by the General Shareholders' Meeting, which shall determine the value of the shares to be taken as a reference, the number of shares to be given to each Director, the exercise price of any option rights, the period the agreed system should last and as many conditions as deemed appropriate.

The payments established by this article shall be compatible with and independent of the salary, remuneration, termination compensation, pension or compensation of any kind established for those members of the Board of Directors who carry out executive functions, whatever the nature of their relationship with the Company, be it employment (common or special of top management), commercial or for the provision of services. Information regarding these remunerations shall be disclosed in the Annual Report and in the Annual Report on Corporate Governance.

The Company may take out an insurance policy covering civil liability for the Directors and members of the management team."

With regard to the Directors' compensation, Article 5.3.c of the Regulations of the Board of Directors reserves to the full Board of Directors the decision to approve Directors' compensation and, in the case of Executive Directors, any additional consideration for their management duties and other contract conditions.

Article 24 of the Regulations of the Board of Directors of Repsol YPF, S.A. provides as follows:

"Article 24. Directors' Compensation

1. The position of Director of Repsol YPF, S.A. shall be compensated as provided for in the Articles of Association.

The Nomination and Compensation Committee shall propose the criteria it considers appropriate to achieve the purposes of this article to the Board of Directors, and it is the Board's responsibility to approve said proposal and determine the final distribution of the overall sum, within the limits stipulated in the Articles of Association to that end. Within each term of office the Board may order payments, at the intervals it sees fit, to be credited to the amounts owed to each Director for the work done in said period.

2. Directors' compensation shall be transparent. The Annual Report shall provide an individual breakdown of the compensation received by each Director for the performance of his functions as such during the period, showing the different categories of compensation.
3. Outside Directors shall in all cases be excluded from the Company-funded benefit systems providing assistance in the event of termination of employment, death, or any other circumstances, as well as from long-term incentive programs such as stock purchase options."

Finally, Article 33 of the Regulations of the Board of Directors provides that the Nomination and Compensation Committee shall propose to the Board its compensation policy, assessing the responsibility, dedication, and incompatibilities demanded of the Directors; and, in the case of the Executive Directors, propose to the Board the additional consideration for their management duties and other contract conditions.

Indicate whether approvals of the following decisions are reserved to the full Board:

Upon recommendation by the chief executive, the appointment and possible removal of senior executives and their compensation clauses.	NO
Directors' compensation and, in the case of executive directors, the additional consideration for their management duties and other contract conditions.	YES

B.1.15 Indicate whether the Board of Directors approves a detailed compensation policy and specify the aspects it regulates:

YES

Amount of fixed remuneration, indicating the details of attendance fees for Board and Committee meetings and an estimate of the fixed annual remuneration	YES
Variable compensation	YES
Principal features of the welfare systems, estimating the annual cost or equivalent amount	YES
Conditions to be respected in the contracts of those performing top management duties and executive directors	YES

B.1.16 Indicate whether the Board submits to voting at the General Meeting, as a separate item on the agenda and with advisory nature, a report on the director compensation policy. If so, explain the aspects of the report on the compensation policy approved by the Board for future years, the most significant changes in those policies in respect of the policy applied during the year and an overall summary of how the compensation policy was applied during the period. Describe the role played by the Compensation Committee and whether external counselling has been used, and if so, the identity of the external advisers:

NO

Issues that the compensation policy report passes upon

Role of the Compensation Committee

	YES	NO
Has external counselling been used?		
	YES	NO
Identity of the external counsels		

B.1.17 Name any Board members who are also directors or executives of companies holding significant interests in the listed company and/or companies in its group:

Name of director	Name of significant shareholder	Position
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso, s.A.	Chairman
Luis Fernando del Rivero Asensio	Testa Inmuebles en Renta, s.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Vallehermoso División Promoción, s.A. (Sacyr Vallehermoso Group)	Chairman
Luis Fernando del Rivero Asensio	Valoriza Gestión, s.A. (Sacyr Vallehermoso Group)	Director
Isidro Fainé Casas	Caja de Ahorros y Pensiones de Barcelona	Chairman
Isidro Fainé Casas	Criteria CaixaCorp, s.A.	Chairman
José Manuel Loureda Mantiñán	Valoriza Gestión, s.A. (Sacyr Vallehermoso Group)	Chairman
José Manuel Loureda Mantiñán	Vallehermoso División Promoción, s.A. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Sacyr, s.A.U. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Testa Inmuebles en Renta, s.A. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Somague s.c.p.s., s.A. (Sacyr Vallehermoso Group)	Director
Juan María Nin Génova	Caja de Ahorros y Pensiones de Barcelona	General Manager
Juan María Nin Génova	Criteria CaixaCorp, s.A.	Vice-Chairman

Describe any significant relationships other than those contemplated in the previous section between board members and significant shareholders and/or companies in their group:

Name of director	Name of significant shareholder	Description of relationship
Luis Fernando del Rivero Asensio	Sacyr vallehermoso, s.A.	Indirect holder of 13.098% of the capital of Sacyr Vallehermoso, s.A.
José Manuel Loureda Mantiñán	Sacyr vallehermoso, s.A.	Indirect holder of 13.26% of the capital of Sacyr Vallehermoso, s.A. through Prilou, s.L. and Prilomi, s.L.
José Manuel Loureda Mantiñán	Sacyr vallehermoso, s.A.	Representative of Prilou, s.L. in the position of Director of Sacyr Vallehermoso, s.A.
Juan Abelló Gallo	Sacyr vallehermoso, s.A.	Indirect holder of 10.014% of the capital of Sacyr Vallehermoso, s.A.
Juan Abelló Gallo	Sacyr vallehermoso, s.A.	Representative of Nueva Compañía de Inversiones, S.A. in the position of Vice-Chairman of Sacyr Vallehermoso, s.A.
Luis Carlos Croissier Batista	Sacyr vallehermoso, s.A.	Director of Testa Inmuebles en Renta, s.A.

B.1.18 Indicate whether any modifications have been made during the year to the Regulations of the Board of Directors:

NO

Description of amendments

B.1.19 Describe the procedures for appointment, re-election, assessment and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

Appointment

Board members are appointed by the General Meeting, without prejudice to the right of the Board to nominate shareholders to fill any vacancies that arise, up to the next succeeding General Meeting.

No-one who is affected by the prohibitions established in section 213 of the Stock Company Act or who is incompatible under prevailing legislation, particularly under the Senior Central Government Positions (Incompatibilities) Act 5/2006 of April 10 and the Senior Positions in the Madrid Regional Government (Incompatibilities) Act 14/1995 of April 21, may be a director or hold any senior position in the company.

Directors shall be persons who, apart from meeting the requirements stipulated for the position in the law and the Articles of Association, have recognised prestige and sufficient professional experience and expertise to perform their duties as such.

Within its powers of proposal to the General Meeting or appointment by cooptation, the Board may not propose as candidates or appoint as Directors any persons affected by any of the incompatibilities or prohibitions established in law, the Articles of Association or regulations or any persons, companies or entities in a situation of permanent conflict of interest with the company, including competitors of the company or their directors, executives or employees, or any persons related to or proposed by them.

Furthermore, persons may not be nominated or appointed as Independent outside directors if they:

- Have been employees or Executive Directors of Group companies, unless 3 or 5 years, respectively, have passed since the end of that relationship.
- Receive from the company, or its Group, any sum of money or benefit whatsoever other than Directors' compensation, unless such sum or benefit is insignificant.

Dividends and pension supplements received by Directors by virtue of a former professional or employment relationship shall not be counted for the purpose of this section, provided such supplements are unconditional and, therefore, the company paying them cannot suspend, modify or revoke them at its own discretion, unless the director in question has defaulted his obligations.
- Be or have been in the past 3 years a partner of the External Auditor or person responsible for the auditors' report during that time, of the Company or any other company in its Group.
- Be Executive Directors or Senior Executive of any other company in which any Executive Director or Senior Executive of the Company is an Outside Director.
- Have or have had in the past year any significant business relationship with the Company or with any company in its Group, directly or as a significant shareholder, Director or Senior Executive of an entity having or that has had such a relationship.

Business relationships shall be those of suppliers of goods or services, including financial services, or of advisers or consultants.
- Be significant shareholders, Executive Directors or Senior Executives of a company that receives, or has received in the past 3 years, significant donations from the Company or its Group.

Those who are mere sponsors or trustees of a Foundation receiving donations shall not be considered included in this group.

- g. Be the spouse, persons having equivalent emotional ties or relatives up to the second degree of an Executive Director or Senior Executive of the Company.
- h. Not have been proposed for appointment or re-election by the Nomination and Compensation Committee.
- i. Be in any of the cases contemplated in paragraphs a), e), f) or g) above in respect of any significant shareholder or shareholder represented on the Board. For the blood relationship contemplated in g), the limitation shall be applicable not only to the shareholder, but also to its Institutional Outside Directors in the Company.

Institutional Outside Directors who lose this status when the shareholder they represent sells its shares in the Company may only be re-elected as Independent Outside Directors when the shareholder they represented up to that time has sold all of its shares in the Company.

A Director who holds a shareholding interest in the Company may be appointed Independent Outside Director, provided he meets all the conditions established in this article and does not hold a significant interest.

The Nomination and Compensation Committee, consisting exclusively of Outside Directors, shall assess candidates' adequate knowledge, experience and expertise to sit on the Board; define, in consequence, the duties and qualifications required of candidates to fill any vacancy and assess the time and dedication required to adequately perform their duties

This Committee shall also ensure that whenever new vacancies are foreseen or on appointing new directors, the selection procedures are not affected by implicit bias that could entail some kind of discrimination and that women who meet the professional profile sought are deliberately sought and included among the potential candidates, informing the board on the initiatives taken in this respect and the results thereof.

Nominations for the appointment of directors submitted by the Board to the General Meeting and appointments made by cooptation must be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

Any Director affected by proposals for appointment, re-election or retirement shall abstain from participating in the discussions and voting of such matters. Voting on proposals for appointment, re-election or retirement shall be by secret ballot.

Re-election

Directors shall hold office for a maximum of four years, after which they shall be eligible for re-election for one or several periods with an equal maximum duration. Directors appointed by cooptation shall hold office up to the first General Meeting following their appointment, at which their appointment shall be subject to ratification.

The Nomination and Compensation Committee shall be responsible for assessing the quality of their work and dedication of the directors proposed during their previous term in office.

Proposals to the General Meeting for the re-election of Directors shall be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

Assessment

At least once a year, the Board of Directors shall assess its functioning and the quality and efficiency of its work. It shall also annually assess the work of its Committees, based on the reports they submit to it.

The Chairman shall organise and coordinate this regular assessment of the Board with the Chairmen of the Committees.

Cessation

Directors shall retire from office upon expiry of the term for which they were appointed and in all other cases stipulated in law, the Articles of Association and the Regulations of the Board of Directors.

The Board shall not propose the removal of any Independent Outside Director before the end of the period for which he was appointed, unless it has justified reasons for doing so, based on a report by the Nomination and Compensation Committee. In particular, such a proposal shall be justified if the Director (i) has defaulted the duties corresponding to his position; (ii) is in any of the situations described in section B.1.20 below; or (iii) falls into any of the circumstances described above, by virtue of which he may no longer be considered an Independent Outside Director.

The removal of Independent Outside Directors may also be proposed following takeover bids, mergers or other similar corporate operations causing a change in the capital structure of the Company, insofar as may be necessary to establish a reasonable balance between Institutional Outside Directors and Independent Outside Directors, according to the ratio of capital represented by the former to the rest of the capital.

Directors shall also tender their resignations in any of the circumstances defined in the following section.

B.1.20 Indicate the events in which directors are obliged to retire.

Directors shall tender their resignations and step down from the Board, should the latter consider this appropriate, in the following events:

- a. If they fall into circumstances of incompatibility or prohibition contemplated in law, the Articles of Association or applicable regulations.
- b. If they receive a serious warning from the Nomination and Compensation Committee or the Audit and Control Committee for defaulting their obligations as directors.
- c. If, in the opinion of the board, in view of a report by the Nomination and Compensation Committee:
 - I. Their remaining on the Board could jeopardise the interests of the company or adversely affect the functioning of the Board or the standing and reputation of the Company; or
 - II. If the reasons why they were appointed disappear. Directors shall find themselves in this position, particularly in the following cases:
 - Institutional Outside Directors, when the shareholder they represent or that nominated them directors transfers its entire shareholding interest. They shall also offer their resignation and, should the Board deem fit, step down from the Board, in the corresponding proportion, if the shareholder reduces its shareholding interest to a level requiring a reduction in the number of its Institutional Outside Directors.
 - Executive directors, when they cease to hold the executive positions outside the board to which their appointment as director was linked.

B.1.21 Explain whether the Chairman of the Board is the Chief Executive Officer of the company. If so, state what measures have been adopted to limit the risks of one single person accumulating powers:

YES

Measures for limiting risks

According to Article 25 of the Regulations of the Board of Directors of Repsol YPF, S.A., the Chairman of the Board shall be the Chief Executive Officer of the Company.

This article also stipulates that the Chairman of the Board shall act at all times in accordance with the decisions and criteria established by the General Shareholders' Meeting and the Board of Directors.

Article 4 of the Regulations of the Board of Directors reserves the following duties and powers to this corporate body:

“The Board shall approve the company strategy and the organisation needed to put it into practice, and oversee and ensure that Management meets the targets set and respects the company's objects and social interest; approve acquisitions and disposals of assets which are, for whatsoever reason, considered especially important for the company or its subsidiaries; establish its own organisation and procedures and those of the Top Management and, in particular, amend these Regulations;

exercise any powers that the General Meeting has granted to the Board -which the Board may delegate solely if expressly so indicated in the resolution adopted by the General Meeting- and any other powers granted to it in these regulations."

Similarly, Article 5 of the Regulations of the Board reserves to the Board in full the following issues:

1. Submission of the Annual Accounts and Management Report of Repsol YPF, S.A. and consolidated companies, as well as any other proposals which must legally originate with the Company's administrators, to the Ordinary Shareholders Meeting.
2. The general strategies and policies of the Company, such as:
 - a) The Strategic Plan of the Group, management objectives and Annual Budgets;
 - b) The investment and financing policy;
 - c) The corporate governance policy;
 - d) The corporate social responsibility policy;
 - e) Top Management pay policy;
 - f) Risk management and control policy; and
 - g) Dividend policy, treasury stock policy and, especially, the limits thereon.
3. The following decisions:
 - a. Appointment of Directors in the event of vacancies, up to the next succeeding General Meeting, and acceptance of resignations tendered by Directors;
 - b. Appointment and removal of the Chairman, Vice-Chairmen, Secretary and Vice-Secretary of the Board and the Directors who are to sit on the different Committees contemplated in the Regulations of the Board, and the delegation of powers to any of the Board members, on the terms stipulated in the law and Articles of Association, and revocation of such powers;
 - c. Directors' compensation and, in the case of executive directors, additional consideration for their management duties and other contract conditions.
4. The annual and half-year financial reports, which Repsol YPF, being a listed company, is obliged to publish.
5. The following investments and transactions, save when approval corresponds to the General Meeting:
 - a. Incorporation of new companies and entities or initial acquisition of stakes in existing companies and entities whenever they entail a long-standing investment of more than six million euro for the Repsol YPF Group or are unrelated to the main activity of the company.

In other cases, the first paragraph of e) below will be applicable. By exception, decisions on investments in the incorporation of new companies and entities or initial acquisition of stakes in existing companies or entities provided for in sufficient detail in the Group's annual budgets and strategic plan shall be left up to the Chairman.
 - b. Creation or acquisition of shares in special purpose vehicles whenever they go beyond the ordinary administration of the company.
 - c. Mergers, takeovers, spin-offs or concentrations of strategic importance of interest for any of the major subsidiaries or investees in which any of the companies in the Repsol YPF group has a direct interest.
 - d. Sale of shares in companies or other fixed assets with a value of over thirty million euro; the Delegate Committee shall approve such sales valued at between fifteen and thirty million euro, informing the board at the next meeting of all sales authorised.
 - e. Approval of investment projects with a value of over thirty million euro; the Delegate Committee shall approve projects valued at between fifteen and thirty million euro, informing the Board at the next meeting of all investments approved.

By exception, the Chairman shall decide, after discussion by the Management Committee if necessary, whether to approve the following investment projects:

 - Those involving the prospecting or working of oil fields in fulfilment of commitments deriving from the corresponding contracts, concessions or licences.

- Those performed in fulfilment of legal provisions binding on the company concerned, concerning environmental protection, safety of installations, product specifications or similar.
- Those provided for in sufficient detail in the group's annual budgets and strategic plan.

In these cases, the Chairman shall report on the approval of these investments to the Board or Delegate Committee, depending on their values and as established in the first paragraph of this point e), wherever possible before commencement of the respective projects.

- f. Notes, debentures or other issues made by Repsol YPF, S.A. or its majority-owned or controlled subsidiaries.
 - g. Granting of guarantees to secure the obligations of entities not controlled by the group.
 - h. Assignment of rights over the trade name and trade marks, and over any other patents, technology and any form of industrial or intellectual property of economic importance belonging to Repsol YPF, S.A. or group companies.
 - i. Creation, investment and supervision of the management of employee pension schemes and any other commitments to employees involving long-term financial responsibilities for the Company.
 - j. Signing of long-term commercial, industrial or financial agreements of strategic importance for the Repsol YPF Group.
6. Any other business or matter reserved in these Regulations for approval by the full Board.

The Chairman, or otherwise the Vice-Chairmen, shall implement the resolutions adopted by the Board in accordance with this article, report on any authorisation or approval given where appropriate or issue instructions to carry out the actions required by the resolutions adopted.

Should circumstances so require, the powers of the Board contemplated in 3c), 4 and 5 above may be exercised by the Delegate Committee and subsequently ratified by the full Board.

Apart from all this, the Chairman of the Board of Directors shall receive reports and proposals from the Audit and Control Committee, the Nomination and Compensation Committee and the Strategy, Investment and Corporate Social Responsibility Committee, on matters within their respective competence. For greater guarantee, all the members of these Committees shall be outside Directors.

Indicate and, if appropriate, explain whether rules have been established to enable one of the independent directors to request the calling of the Board or the inclusion of new items on the agenda, to coordinate and echo the concerns of outside directors and to direct the assessment by the Board of Directors:

YES

Explain the rules

The Board of Directors of Repsol YPF, in its meeting held on February 23, 2011, agreed to amend its regulations to, among other matters, incorporate into Company's system of corporate governance the figure of Lead Independent Director. According to current Article 25,5 of the Regulations of the Board of Directors:

"When the Chairman of the Board of Directors holds the role of CEO, the Board shall appoint, upon proposal by the Nomination and Compensation Committee, an independent director who, under the name of Lead Independent Director, may perform the following tasks:

- a) Request to the Chairman of the Board, when he deems appropriate, the calling of the Board.
- b) Request the inclusion of items on the Board's meetings agenda according to Article 9.3 of these Regulations.
- c) Coordinate and give voice to the concerns of external directors.
- d) Lead the Board's evaluation of the Chairman.
- e) Call and chair meetings of independent directors as he deems necessary or desirable."

Additionally, Article 9 of the Regulations of the Board of Directors provides that *“The Chairman may call additional Board meetings whenever he deems appropriate. The call shall be mandatory when requested by the Lead Independent Director or by at least one-quarter of the directors, without prejudice to the provision of Article 17.2.e) of these Regulations. The Chairman shall draw up the agenda for meetings, although any of the directors may, prior to call, request the inclusion of any business they consider ought to be transacted at the meeting. Such inclusion is mandatory when the request has been made 48 hours prior to the date specified for the meeting.”*

B.1.22 Are special majorities differing from those stipulated in law required for any type of decision?:

NO

Explain how resolutions are adopted on the Board, indicating at least the quorum and the majorities required for adopting resolutions:

Description of resolution	Adopting resolutions	
	Quorum	Type of majority

B.1.23 Are there any specific requirements, other than those established for directors, to be appointed Chairman?

NO

Description of requirements

B.1.24 Indicate whether the Chairman has casting vote:

YES

Matters in which there is a casting vote

According to Article 36 of the Articles of Association, save where greater majorities have been specifically established, resolutions of the Board shall be approved by the absolute majority of directors attending, and in the event of a tie, the Chairman or acting chairman shall have the casting vote.

B.1.25 Indicate whether the Articles of Association or the board regulations establish any age limit for directors:

NO

Age limit Chairman

Age limit managing director

Age limit director

B.1.26 Indicate whether the Articles of Association or the board regulations establish any limit on the term of office for independent directors:

NO

Maximum term of office

B.1.27 If there are few or no female directors, explain why and what actions have been taken to remedy this situation.

Explanation of reasons and actions

The appointment of all the Board members has been made objectively, taking account the prestige, expertise and professional experience required to perform their duties, and without any kind of discrimination.

On 19 December 2007, the Board of Directors of Repsol YPF, S.A. approved a new consolidated text of its Regulations, which, among other matters, assigned to the Nomination and Compensation Committee the duty of assessing the necessary knowledge, expertise and experience of the Board, defining in consequence the duties and qualifications required of the candidates for filling each vacancy and assessing the time and dedication required to adequately perform their duties.

Furthermore, Article 33 of the Regulations of the Board of Directors expressly provides that the Nomination and Compensation Committee ensure that whenever new vacancies are foreseen or on appointing new directors, the selection procedures are not affected by implicit bias that could entail some kind of discrimination and that women who meet the professional profile sought are deliberately sought and included among the potential candidates, informing the board on the initiatives taken in this respect and the results thereof.

In particular, state whether the Nomination and Compensation Committee has established procedures to ensure that the selection procedures are not affected by implicit bias that could hamper the selection of female directors and that women with the required profile are deliberately included among the candidates:

NO

Describe the main procedures

B.1.28 Indicate whether there are any formal processes for proxy voting in the board of directors. If so, briefly describe these.

Without prejudice to the directors' duty to attend the meetings of the bodies they belong to or, if they are unable for justified reasons to attend the meetings to which they have been called, to issue the appropriate instructions to the director who is to represent them, if any, each Board member may grant a proxy to another member, with no limit on the number of proxies that may be held by any director for attendance of Board meetings.

Absent directors may grant proxies by any written means, including telegram, telex or telefax addressed to the Chairman or Secretary of the Board.

B.1.29 State the number of meetings held by the Board of Directors during the year, indicating, if appropriate, how many times the Board has met without the Chairman:

Number of Board meetings	13
Number of Board meetings held without the Chairman	0

Number of meetings held by the different Committees of the Board:

Number of meetings of the Delegate Committee	5
Number of meetings of the Audit Committee	9
Number of meetings of the Nomination and Compensation Committee	3
Number of meetings of the Nomination Committee	0
Number of meetings of the Compensation Committee	0

B.1.30 Indicate the number of meetings held by the Board of Directors during the year without the attendance of all its members, counting as non-attendance any proxies made without specific instructions:

Number of non-attendances by directors during the year	7
Non-attendances / total votes during the year (%)	3.365

B.1.31 Indicate whether the individual and consolidated annual accounts presented for Board for approval are previously certified:

YES

If appropriate, name the person(s) who certify the individual or consolidated annual accounts of the company before they are approved by the Board:

Name	Position
Antonio Brufau Niubó	Chairman
Miguel Ángel Devesa del Barrio	Chief Financial Officer

B.1.32 Explain the mechanisms, if any, established by the Board to avoid a qualified auditors' report on the individual and consolidated accounts laid before the General Meeting.

The Audit and Control Committee, set up on 27 February 1995, is intended to support the Board in its supervisory duties, through regular checking of the preparation of economic and financial reporting, executive controls and the independence of the external auditors, as well as supervising the internal audit department, and checking compliance with all the legal provisions and internal regulations applicable to the company.

This Committee has the following duties, among others:

- Supervise the integrity and process of preparing the financial information on the company and its group, ensuring compliance with all requirements, adequate definition of the consolidated group and correct application of the accounting principles.
- Regularly check the internal control and risk management systems, ensuring that the principal risks are identified, handled and reported on adequately.
- Prior to their submission to the board, analyse the financial statements of the company and its consolidated group included in the annual, half-year and quarterly reports and any other financial information that the company is obliged to publish regularly by virtue of being a listed company, with the necessary requirements to ensure that they are correct, reliable, adequate and clear. For this purpose it shall have all the necessary information and such degree of aggregation as it may deem fit, assisted as necessary by the top management of the group, particularly its financial management and the company's auditor. It shall, in particular, see that the annual accounts that are to be submitted to the board are certified by the Chairman, the Managing Director(s), if any, and the Chief Finance Officer (CFO) pursuant to the internal or external regulations applicable from time to time.
- Regularly receive information from the external auditors on the audit plan and results of their work, and check that the executives heed their recommendations.

- Regularly require the auditors, at least one a year, to assess the quality of the group's internal control procedures.
- Be informed of any situations requiring adjustments that may be detected during the work of the external auditors whenever they are significant, considering this to mean any situations which, per se or in combination with others, may cause a material impact or damage to the net worth, results or reputation of the group. This consideration shall be left to the discretion of the external auditors, who shall, in case of doubt, opt for notification. The Chairman of the Committee shall be notified accordingly as soon as the auditors become aware of the situation in question.
- Oversee the degree of fulfilment by the audited units of the corrective measures recommended by the internal audit department in previous audits.
The committee shall be informed of any significant irregularities, anomalies or defaults detected by the internal audit department in the course of its work.

For this purpose, the members of this Committee shall have the necessary experience, capacity and dedication to perform their duties. Moreover, the Chairman shall have experience in business management and a working knowledge of accounting procedures, and at least one of the members shall have the financial experience that may be required by the regulatory bodies of the stock markets on which the stocks or shares of the company are listed.

B.1.33 Is the Secretary of the Board a Director?

YES

B.1.34 Explain the procedures for appointment and removal of the Secretary of the Board, indicating whether a report is issued by the Nomination Committee and whether they are approved by the full Board.

Procedure for appointment and removal

As established in Article 42 of the Articles of Association, the Board chooses its Secretary and Vice-Secretary, if any, who may or may not be Directors.

Moreover, pursuant to Articles 5 and 33 of the Regulations of the Board of Directors, the Board shall appoint or remove its Secretary and Vice-Secretary, subject to a report by the Nomination and Compensation Committee.

Does the Nomination Committee issue a report on the appointment?	YES
Does the Nomination Committee issue a report on the removal?	YES
Does the full Board approve the appointment?	YES
Does the full Board approve the removal?	YES

Is the Secretary of the Board commissioned especially to see that the good governance recommendations are heeded?

YES

Remarks	Article 42 of the Articles of Association establishes that the Secretary will ensure that the Board actions comply in form and substance with the law and that the company's procedures and rules of governance are respected.
	Furthermore, in pursuance of Article 27 of the Regulations of the Board of Directors, the Secretary of the Board is commissioned to ensure compliance with any provisions issued by regulatory bodies and heeding of their recommendations, if any, and to ensure that the corporate governance principles of the company are observed.

B.1.35 Describe any mechanisms established by the company to preserve the independence of the auditor, financial analysts, investment banks and rating agencies.

One of the powers of the Audit and Control Committee contemplated in Article 39 of the Articles of Association is that of receiving information on any issues that may jeopardise the independence of the external auditors.

In development of this provision of the Articles of Association, the Regulations of the Audit and Control Committee establish, as one of its duties, ensuring the independence of the External Auditors, in two ways:

- Avoiding any factors that may compromise the warnings, opinions and recommendations of the Auditors, and
- Establishing and overseeing any incompatibilities between auditing and consultancy services and any others, the limits on concentration of the auditor's business and, in general, all other rules established to guarantee the independence of the auditor.

According to these duties, in 2003 the Audit and Control Committee agreed on a procedure to approve previously all the services, auditing or otherwise, provided by the External Auditor, whatever their extent, scope and nature. This procedure is regulated in an Internal Rule mandatory for the whole of the Repsol YPF Group.

Furthermore, Repsol YPF Group has the Investor Relations Division whose responsibilities include ensuring that the information supplied by the Company to the market (financial analysts and investment banks, amount other) is transmitted fairly, commensurate and in useful time and, according with the Repsol YPF Group Internal Conduct Regulations Regarding the Securities Market, that such information is accurate, clear, complete and, when required by the nature of the information, quantified, and shall by no means be misleading or confusing.

B.1.36 State whether the Company has changed its external auditor during the year. If so, name the outgoing and incoming auditors:

NO

Outgoing auditor

Incoming auditor

Did the Company have any disagreements with the outgoing auditor? If so, explain what they consisted of:

NO

Description of the disagreement

B.1.37 State whether the firm of auditors does any work for the Company and/ or its Group other than standard audit work and if so, declare the amount of the fees received for such work and the percentage it represents of the fees invoiced to the company and/or its group:

YES

	Company	Group	Total
Cost of work other than auditing (thousands of euro)	228	597	825
Cost of work other than auditing / Total amount invoiced by the auditors (%)	8.61	9.55	9.27

B.1.38 State whether the auditors' report on the Annual Accounts of the previous year contains any qualifications. If so, indicate the reasons given by the Chairman of the Audit Committee to explain the contents and scope of those qualifications.

NO

Description of reasons

B.1.39 State the number of years in succession that the current firm of auditors has been auditing the annual accounts of the company and/or its group. Indicate the ratio of the number of years audited by the current auditors to the total number of years that the annual accounts have been audited:

	Company	Group
Number of years in succession	20	20

	Company	Group
Number of years audited by current auditors / No. years that the company has been audited (%)	100	100

B.1.40 Indicate the company board members' shareholdings, reported to the company, in companies engaging in the same or similar activities as those within the company's or group's scope of business. Indicate their positions or duties in these companies:

Name of director	Name of company	% stake	Position or duties
Antonio Brufau Niubó	Gas Natural SDG, S.A.	0.008	Vice-Chairman
Luis Fernando del Rivero Asensio	Valoriza Gestión, S.A.	0.000	Director
Luis Fernando del Rivero Asensio	Vallehermoso División Promoción, S.A.	0.000	Chairman
Isidro Fainé Casas	Gas Natural SDG, S.A.	0.011	-
Carmelo de las Morenas López	BP	0.000	-
José Manuel Loureda Mantiñán	Valoriza Gestión, S.A.	0.000	Chairman
José Manuel Loureda Mantiñán	Vallehermoso División Promoción, S.A.	0.000	Director
Juan María Nin Génova	Gas Natural SDG, S.A.	0.000	Director
Henri Philippe Reichstul	Ashmore Energy International	0.000	Director
Luis Suárez de Lezo Mantilla	Gas Natural SDG, S.A.	0.002	Director
Luis Suárez de Lezo Mantilla	Repsol - Gas Natural LNG, S.L.	0.000	Director

B.1.41 Indicate, with details if appropriate, whether there is an established procedure for directors to receive external advice:

YES

Details of procedure

The Regulations of the Board of Repsol YPF, S.A. expressly recognise the directors' right to advisory services. Article 23 provides as follows:

- The Directors shall likewise have the power to propose to the Board, by majority vote, the contracting at the Company's expense of legal advisers, accountants, technical, financial, and commercial experts, and experts of any other kind they consider necessary to the Company's interests, to provide assistance in the performance of the Directors' functions in regard to concrete problems of some magnitude and complexity relating to their positions.
- Said proposals must be submitted to the Chairman of the Company through the Secretary of the Board. The Board of Directors may veto their approval on the grounds that they are unnecessary to the performance of the assigned functions, or that the number is disproportionate to the importance of the problem and to the Company's assets and income, or that the technical assistance in question could be adequately provided by experts within the Company.

Furthermore, the Regulations of the Board of Directors establish that the Audit and Control Committee, the Nomination and Compensation Committee and the Strategy, Investment and Corporate Social Responsibility Committee may obtain counselling from lawyers or other independent professionals, in which case the Secretary of the Board shall, at the request of the Chairman of the Committee, take whatever action may be necessary to engage the services of such lawyers or other professionals, which shall be provided directly to the corresponding Committee.

B.1.42 Indicate, with details if appropriate, whether there is an established procedure for directors to obtain sufficiently in advance any information they may need to prepare the meetings of the governing bodies:

YES

Details of procedure

The Regulations of the Board of Directors of Repsol YPF, S.A. establish that the notice of call to Board meetings shall be sent to each director at least 48 hours prior to the date specified for the meeting, and shall include the agenda. The minutes of the previous meeting shall be enclosed, regardless of whether they have been approved, and any information considered necessary and that is available.

The Regulations of the Board of Directors of Repsol YPF, S.A. contemplate procedures to ensure that directors have the necessary information sufficiently in advance to prepare Board meetings. In this regard, Article 23 provides as follows:

- The Directors shall have access to all the Company's services and may obtain, with the broadest possible powers, the information and advising they need on any aspect of the Company provided they request it in connection with the performance of their functions. The right to information extends to the subsidiaries, whether national or foreign, and shall be channelled through the Chairman or the Secretary of the Board of Directors or of the appropriate Board Committee, who shall respond to Directors' requests and directly furnish them the information, offering them access to appropriate sources or taking all necessary measures to answer questions.

B.1.43 Indicate, with details if appropriate, whether the company has established rules obliging directors to report and, if necessary, resign in any cases that could be detrimental to the company's reputation:

YES

Explain the rules

According to Article 16 of the Regulations of the Board of Directors, Directors shall offer their resignation and, should the board deem fit, step down as directors if, in the opinion of the Board, in view of a report by the Nomination and Compensation Committee, their remaining on the board could jeopardise the interests of the company or adversely affect the functioning of the board or the standing and reputation of the company.

In this regard, Article 17 of the Regulations of the Board of Directors provides that Directors shall notify the board as soon as possible and keep it up to date on any situations in which they may be involved and that could be detrimental to the standing and reputation of the company, to enable the board to assess the circumstances, particularly in pursuance of the preceding paragraph.

B.1.44 Indicate whether the Company has been notified by any Board member that he has been sued or is being tried for any of the offences contemplated in Article 124 of the Joint Stock Companies Act:

NO

Name of Director	Criminal Case	Comments
------------------	---------------	----------

Indicate whether the Board has studied the case. If so, give a reasoned explanation of the decision made as to whether or not the director in question should remain in office.

NO

Decision made	Reasoned explanation
---------------	----------------------

Should or shouldn't remain in office

B.2

Board of Directors Committees

B.2.1 List all the committees of the Board of Directors and their members**DELEGATE COMMITTEE**

B.2.2 Indicate whether the following duties correspond to the Audit Committee:

Supervise the integrity and process of preparing the financial information on the company and its group, ensuring compliance with all requirements, adequate definition of the consolidated group and correct application of the accounting principles	YES
Regularly check the internal control and risk management systems, ensuring that the principal risks are identified, handled and reported on adequately	YES
Guarantee the independence and efficiency of the internal audit department; propose the selection, appointment, re-election and removal of the chief audit officer; propose the budget for this department; receive regular information on its activities; and check that the top management heeds the conclusions and recommendations of its reports	YES
Establish and oversee a mechanism whereby employees may report, confidentially and, if appropriate, anonymously, any potentially important irregularities, especially financial and accounting irregularities, that they may detect within the company	YES
Submit proposals to the Board for the selection, appointment, re-election and replacement of the external auditors and the terms and conditions of their engagement	YES
Regularly receive information from the external auditors on the audit plan and results of their work, and check that the executives heed their recommendations	YES
Guarantee the independence of the external auditors	YES
In the case of groups, encouraging the group auditors to audit the group companies.	YES

B.2.3 Describe the rules of organisation and procedure and the responsibilities attributed to each Committee.

DELEGATE COMMITTEE

The Delegate Committee consists of the Chairman of the Board and up to a maximum of seven directors from the three existing categories (executive, institutional and independent), endeavouring to maintain a similar proportion to that existing on the Board of Directors. Its members shall be appointed with a majority of at least two-thirds of the current Board members.

All the powers of the Board are permanently delegated to the Delegate Committee, except those that may not be lawfully delegated and those considered as such by the Regulations of the Board of Directors.

The Chairman of the Delegate Committee shall be the Chairman of the Board and the Secretary shall be the Secretary of the Board, who may be assisted by the Vice-Secretary.

Whenever the business is sufficiently important, in the opinion of the Chairman or three members of the Delegate Committee, the resolutions adopted by the Delegate Committee shall be submitted to the full Board for ratification. The same shall be applicable in any business referred by the Board to be studied by the Delegate Committee, while reserving the ultimate decision thereon. In all other cases, the resolutions adopted by the Delegate Committee shall be valid and binding with no need for subsequent ratification by the Board.

At the end of the meeting, the Secretary issues the minutes of the resolutions adopted, that will be reported to the Board at the following full Board meeting, and makes available to the Board members a copy of the minutes. Five meetings were held in 2010.

AUDIT AND CONTROL COMMITTEE

The Audit and Control Committee consists of at least three directors appointed by the Board for four years on the basis of their experience and expertise in accounting, auditing or risk management. Executive directors may not sit on this Committee.

This Committee, set up on 27 February 1995, supports the Board in its supervisory duties, through regular checking of the preparation of economic and financial reporting, executive controls, supervision of the systems for recording and controlling the company's hydrocarbon reserves, the internal audit department and the independence of the external auditors, as well as checking compliance with all the legal provisions and internal regulations applicable to the company. This Committee is competent to submit proposals to the Board regarding the appointment of external auditors, extension of their appointment, their removal and the terms of their engagement. It shall also inform the General Meeting, through its Chairman, on any issues raised by shareholders regarding matters within its competence.

Its duties shall also include knowing and guiding the company's environmental and safety policies and objectives and drawing up an Annual Report on its activities, on which it shall report to the Board.

The Committee shall appoint one of its members to be Chairman, who shall necessarily be an Independent Outside Director; the Secretary shall be the Secretary of the Board.

The Committee shall meet as often as necessary, in the opinion of the Chairman, to perform the duties commissioned to it, although an annual calendar of meetings shall be drawn up before the end of each year for the following year, as well as an Action Plan for each year, informing the Board accordingly. Meetings shall be called whenever so requested by any two of its members. Nine meetings were held in 2010.

The Chairman of the Committee shall regularly report to the Board on the actions taken by the Committee.

At least once a year, the Committee shall assess its functioning and the quality and efficiency of its work, reporting to the full Board.

The Secretary of the Committee shall issue minutes of the resolutions adopted at each meeting, which shall be made available to Board members.

NOMINATION AND COMPENSATION COMMITTEE

This Committee consists of no fewer than three directors appointed by the board for four years, taking account of the expertise, skills and experience of the directors and the duties of the committee.

This Committee, which was set up on 27 February 1995, has the duties of proposing and reporting to the Board on the selection, appointment, re-election and removal of Directors, Managing Director, Chairman, Vice-Chairman, Secretary, Vice-Secretary and the Directors who are to sit on the different Committees of the Board; proposing the Board compensation policy and, in the case of Executive Directors, the additional consideration for their management duties and other contract conditions; reporting on the appointment of Senior Executives of the Company and their general pay policy and incentives; reporting on the compliance by Directors of the corporate governance principles or the obligations established in the Articles of Association or the Regulations of the Board; and, in general, proposing and informing on any other business related with the above at the request of the Chairman or the Board of Directors.

The Chairman of this Committee shall be one of its members, who shall necessarily be an Independent Outside Director, and the Secretary shall be the Secretary of the Board.

The Committee shall meet whenever the Board or Chairman of the Board requests reports or proposals within the scope of its duties, and whenever called by the Chairman of the Committee, requested by two Committee members or when reports are required to be able to adopt the corresponding resolutions. Three meetings were held in 2010.

The Chairman of the Committee shall regularly report to the Board on the actions taken by the Committee.

At least once a year, the Committee shall assess its functioning and the quality and efficiency of its work, reporting to the full Board.

The Secretary of the Committee shall issue minutes of the resolutions adopted at each meeting, which shall be made available to Board members.

STRATEGY, INVESTMENT AND CORPORATE SOCIAL RESPONSIBILITY COMMITTEE

On December 2007, the Board of Directors of Repsol YPF, S.A. resolved, within the modification of its Regulations, to change the name of the Strategy, Investment and Competition Committee, set up on 25 September 2002, to Strategy, Investment and Corporate Social Responsibility Committee.

The strategy, investment and corporate social responsibility committee consists of no fewer than three directors appointed by the board, taking account of the expertise, skills and experience of the directors and the duties of the committee. The members of this Committee shall retire four years after their appointment.

This Committee has the duties of reporting on the principal highlights, landmarks and reviews of the group's strategic plan; major strategic decisions for the Repsol YPF Group; and investments or divestments in assets which, by virtue of their value or strategic nature, the Executive Chairman believes should be first considered by the Committee.

It must also be familiar with and steer the policy, objectives and guidelines of the Repsol YPF Group on Corporate Social Responsibility and inform the Board thereon; check and report on the Corporate Responsibility Report of the Repsol YPF Group before it is submitted to the Board; and, in general, perform any other duties related with the matters within its competence and requested by the Board or its Chairman.

One of the members of this Committee shall be appointed Chairman and the secretary shall be the Secretary of the Board.

The Committee shall meet with the established frequency or whenever called by its Chairman or requested by two of its members. Three meetings were held in 2010.

The Chairman of the Committee shall regularly report to the Board on the actions taken by the Committee.

At least once a year, the Committee shall assess its functioning and the quality and efficiency of its work, reporting to the full Board.

The Secretary of the Committee shall issue minutes of the resolutions adopted at each meeting, which shall be made available to Board members.

B.2.4 Indicate, where appropriate, the powers of advising, consultation and, where appropriate, delegations of each Committee:

Committee	Brief description
Delegate Committee	See B.2.3
Audit and Control Committee	See B.2.3
Nomination and Compensation Committee	See B.2.3
Strategy, Investment and Corporate Social Responsibility Committee	See B.2.3

B.2.5 Indicate the existence, if appropriate, of regulations of the board committees, where they are available for consultation and any modifications made during the year. State whether an annual report has been issued voluntarily on the activities of each Committee.

AUDIT AND CONTROL COMMITTEE

The internal regulation of the Audit and Control Committee is currently set out in the Articles of Association and the Regulations of the Board of Directors.

The Articles of Association and the Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

The Audit and Control Committee has drawn up a Report of its activities during 2010.

STRATEGY, INVESTMENT AND CORPORATE SOCIAL RESPONSIBILITY COMMITTEE

The internal regulation of the Strategy, Investment and Corporate Social Responsibility Committee is currently set out in the Regulations of the Board of Directors.

The Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

NOMINATION AND COMPENSATION COMMITTEE

The internal regulation of the Compensation Committee is currently set out in the Regulations of the Board of Directors.

The Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

DELEGATE COMMITTEE

The internal regulation of the Delegate Committee is currently set out in the Articles of Association and the Regulations of the Board of Directors.

The Articles of Association and the Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

B.2.6 Does the composition of the Delegate Committee reflect the participation on the Board of the different types of Director?

YES

If no, explain the composition of your Executive Committee

C Related party transactions

C.1 Indicate whether the full Board has reserved approval, subject to a favourable report by the Audit Committee or any other committee commissioned this task, of any transactions that the company may enter into with directors, significant shareholders or shareholders represented on the Board, or with persons related to them:

YES

C.2 List any significant transactions involving a transfer of resources or obligations between the company and/or companies in its group and significant shareholders of the company:

Name of significant shareholder	Name of company or group company	Nature of the relationship	Type of transaction	Amount (thousand euro)
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Commercial	Services received	8,044
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Commercial	Purchase of tangible assets, intangible or other assets	58,900
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Contractual	Leases	1,441
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Corporate	Dividends and other distributed profits	103,825
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Commercial	Services provided	171
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Commercial	Sales of goods (finished or outstanding)	20,011
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Commercial	Other incomes	208
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Contractual	Purchase of goods (finished or outstanding)	85
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Contractual	Commitments acquired	98,145
Sacyr Vallehermoso, s.A.	Repsol YPF Group	Contractual	Bonds and guarantees received	6,025
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Financial expenses	107,596
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Leases	1,338
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Services received	1,056
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Other expenses	10,291
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Financial incomes	20,985
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Sales of goods (finished or outstanding)	240
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Other incomes	666
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Redemption or cancellation of credits and leases (lessor)	1,111
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Sales of tangible assets, intangible or other assets	52,876

C.3 List any significant transactions involving a transfer of resources or obligations between the company and/or companies in its group and the directors or executives of the company:

Name of director or executive	Name of company or group company	Nature of the transaction	Type of transaction	Amount (thousand euro)
Company Executives	Repsol YPF Group	Contractual	Financing Agreements : credits and capital contributions (lender)	647

C.4 List any significant transactions with other companies in the group that are not eliminated in the consolidated financial statements and which do not, by virtue of their object or terms, correspond to the normal business of the Company:

Name of group company	Brief description of the transaction	Amount (thousand euro)

C.5 Indicate whether any company directors have been in any conflicts of interest during the year, pursuant to Article 127 ter of the Joint Stock Companies Act.

NO

Name of Director	Description of the conflict of interest situation

C.6 Explain the mechanisms established to detect and resolve possible conflicts of interests between the company and/or its group, and its directors, executives or significant shareholders.

The Regulations of the Board of Directors require directors to avoid any direct or indirect conflicts of interest with the Company's interests, notifying the Board whenever any such conflicts inevitably exist. In the event of a conflict, the director affected shall abstain in the discussion and decision dealing with the issues giving rise to the conflict.

Any directors affected by proposals for appointment, re-election or removal shall abstain in the discussions and votings dealing with those matters. Ballots shall be secret.

Directors shall inform the Nomination and Compensation Committee of any other professional obligations they may have and any material change in their professional situation, as well as any affecting the nature or condition by virtue of which they have been appointed Director.

Finally, directors shall tender their resignations and step down from the Board, should the latter deem fit, whenever they incur in any of the events of incompatibility or disqualification established in law, the Articles of Association or Regulations.

In this regard, Articles 19-22 of the Regulations of the Board of Directors set out the obligations to be met by Directors in respect of non-competition, use of corporate information and assets and taking advantage of business opportunities, and the requirements established in respect of related party transactions between the Company and the Directors, significant shareholders represented on the Board or persons related to them.

Similarly, the Repsol YPF Group Internal Conduct Regulations regarding the Securities Market, applicable to directors, top management and the executives of certain departments and divisions with access to privileged information of the company or its group and who carry out tasks related with the Securities Market, contemplate the preclusion and solving of conflicts of interest in Articles 8.3. and 8.4., as follows:

"To control potential conflicts of interest, the executives and employees of Repsol YPF Group must inform the person responsible for their respective Area, sufficiently in advance for timely decisions to be made and before conducting the transaction or concluding the business in question, of any situation which may potentially involve, and in each concrete circumstance that actually involves, the appearance of a conflict of interest with Repsol YPF, S.A. or any company of its Group.

If the person affected is a member of the Board of Directors, the conflict must be reported to the Board of Directors, which, if it considers fit, will apply for the opinion of the Audit and Control Committee.

In case of a doubt about the existence of a conflict of interest, the executives and employees of Repsol YPF Group must act prudently and inform the person responsible for their respective Area or the Board of Directors, as the case may be, about the specific circumstances of the case, for the appropriate consideration of the situation by the latter.

The general principle to be considered in the resolution of all kind of conflicts of interest is abstention. Therefore, persons subject to conflicts of interest must refrain from making decisions that could affect the individuals or legal entities with which said conflict is posed. They must likewise refrain from exerting any influence on said decision-making and must act with full loyalty to the Repsol YPF Group in all cases. In any situation of conflict of interest between the executives and employees of Repsol YPF Group and Repsol YPF or any company within the Group, the former must act in all moments with loyalty to the Repsol YPF Group, giving preference to the interest of the Repsol YPF Group over its own interests."

Finally, the Ethics and Conduct Regulation for Repsol YPF Employees stipulates in Article 6.4., with regard to executives, that *"Repsol YPF recognizes and respects the financial and business activities of its employees that are not directly related to the activities carried out for the Company provided that these are legal and do not represent a conflict of interests with their responsibilities as Repsol YPF employees.*

Repsol YPF employees should avoid any situation that could give rise to any conflict between their personal interests and those of the Company and will abstain from representing the Company, taking part in or influencing decisions in any situation in which, the employee or any close relative has a personal interest. Employees should always act in accordance with their responsibilities, loyally and defending the interests of Repsol YPF.

Furthermore, employees may not undertake any tasks, jobs, or render any services in the benefit of companies in the sector or those that engage in activities that may, directly or indirectly, compete, or could compete, with those of Repsol YPF.

Repsol YPF employees, who could be affected by a conflict of interests, will inform the head of their Area before undertaking any transaction or closing any business deal, in order to make the appropriate decisions in each specific case thereby avoiding compromising their impartial job performance."

C.7

Are more than one of the Group companies listed in Spain?

NO

Name the subsidiaries listed in Spain:

Listed subsidiaries

State whether they have publicly and accurately defined their respective areas of activity and any possible business relationships among them, as well as those between the listed dependent company and the other companies within the Group:

Describe the possible business relationships between the parent company and the listed subsidiary, and between the subsidiary and the other companies within the Group

Describe the mechanisms established to resolve possible conflicts of interest between the listed subsidiary and the other companies within the Group:

Mechanisms for the resolution of possible conflicts of interest

D

Risk control systems

D.1

General description of the risk policy of the company and/or its group, including details and assessment of the risks covered by the system, together with justification that those systems adapt to the profile of each type of risk.

Repsol YPF operates in numerous countries, under numerous regulatory frameworks and in all areas of the oil and gas business. Consequently, Repsol YPF is exposed to:

- market risks, deriving from the price volatility of oil, natural gas and by-products, exchange rates and interest rates,
- counterparty risks, deriving from financial arrangements and commercial commitments with suppliers and clients,
- liquidity and solvency risks,
- legal and regulatory risks (including risks of changes in the tax regimes, sectorial and environmental regulations, exchange legislation, production constraints, limits on exports, etc.),
- operating risks (including the risks of accidents and natural catastrophes, uncertainty regarding the geological characteristics of oil and gas fields, safety and environmental risks and reputation risks, such as those relating to corporate ethics and the social impact of Repsol YPF's business),
- economic environment risks (including those resulting from international and local business cycles, technological innovations in the industries in which Repsol YPF operates, etc.).

The company considers the most important risks to be those that could hamper it in achieving the goals established in its Strategic Plan, particularly the goal of maintaining its financial flexibility and long-term solvency. Repsol YPF manages its assets and businesses prudently.

Nevertheless, many of the risks mentioned above are inherent in the activities it performs, are beyond the control of the company and cannot be entirely eliminated.

Repsol YPF has an organisation, procedures and systems that enable it to identify measure, assess, prioritize and control the risks to which the group is exposed, and decide to what extent those risks are to be assumed, managed, reduced or avoided. Risk analysis is an integral element in the group's decision-making processes, both in the centralised governing bodies and in the management of the different businesses, paying special attention in all cases to the existence of several risks at the same time or the effects of diversification that may occur on an aggregate level.

The following independent analysis, supervision and control units specialise in different areas of risk management exist:

Internal Audit Unit, focusing on the permanent assessment and improvement of existing controls to ensure that potential risks of whatsoever nature (control, business, reputation, etc...) that could hamper achievement of the strategic goals of the Repsol YPF Group are identified, measured and controlled at all times.

Credit Risk Management Unit, responsible for:

- monitoring and controlling the Group's credit risk,
- coordinating the development of specific rules and regulations concerning market and credit risks of the different business units and corporate areas of the Group and establishing methods for measuring and assessing such risks according to the best practices,
- analysing and controlling the credit risk generated by the Group's activities, establishing individual third-party credit risk limits,
- defining the criteria regarding the funding and use of provisions for insolvency, refinancing and judicial claiming of debts.

Market Middle Office Unit, responsible for:

- calculating, monitoring, controlling and assessing at market the liquidity positions, foreign exchange and interest rate risk positions,
- measuring of the risk position and analysis of sensitivity of the result and the value of products and instruments traded for different risk factors,
- developing and validation of the methodology for measuring and assessing instruments and positions according to best market practices.

Risk Monitoring Unit, responsible for:

- coordinating the development of specific rules and regulations concerning commodities price risk of the different business units and corporate areas of the Group, and establishing methods for measuring and assessing these risks according to best practices,
- monitoring and controlling Group's commodities price risk.

Insurance Unit, responsible for:

- analysing and assessing any accidental risks that could affect the assets and activities of the Group,
- defining the most efficient financing policy for these risks, through an optimum combination of self-insurance and risk transfer measures,
- taking out such insurance cover as may be considered convenient in each case,
- negotiating the compensations deriving from insured accidents.

Safety and Environment Unit, responsible for:

- defining and monitoring the company's safety and environmental strategic policies and objectives,
- establishing the corporate rules and regulations (policy, rules, procedures, manuals and guidelines) on safety and environment throughout the company worldwide and the mechanisms required to publicise them,
- identifying and leading corporate safety and environment projects, counselling business units in their implementation and monitoring the progress,
- establishing key indicators of performance, monitoring the company's performance in safety and environmental matters and proposing actions for improvement,

- promoting the creation of working groups and exchanging of the best practices in safety and the environment,
- coordinating safety and environmental audits and following them up.

Corporate Responsibility Unit, within the Direction of Corporate Responsibility and Institutional Services, responsible for advising, promoting and coordinating the joint Company's Corporate Responsibility strategy:

- Proposing corporate government elements, such as corporate regulations, manuals or guides, goals, indicators and other management tools of CR, and issuing them in a complementary manner to that provided within the Company in a general level.
- Coordinating the dialogue with Company's stakeholders at corporate level and submitting their expectations to the Corporate Responsibility Committee. Coordinating the monitoring of the dialogue with stakeholders on ethical and social-environmental contingencies, that may have relevance at corporate level.
- Monitoring the Company's performance on CR, reporting to the Board of Director's Investment, Strategy and Corporate Responsibility Committee, the Executive Committee and the Corporate Responsibility Committee.
- Consolidating information on CR at corporate level and develop the Company's communication tools on CR at this level, such as the Annual Report on CR and its verification; the Repsol YPF's CR website; and the reports for quotation in selective sustainability indexes.
- Representing the Company on corporate external forums of CR, disclosing the corporate positions, compiling the relevant information about competition best practices and reporting this information to the Corporate Responsibility Committee.

Financial Reporting Internal Control Unit, responsible for monitoring and management of the internal economic and financial reporting control system, introduced to comply with the requirements of section 404 of the Sarbanes-Oxley Act.

The system applied by Repsol YPF is based on the conceptual framework defined in the COSO model.

Reserves Control Unit, which aims to make sure that the estimates of Repsol YPF proved reserves comply with prevailing legislation on the different Securities Markets on which the company is listed. It also makes internal audits of reserves, coordinates certification of reserves by external auditors and assesses the quality controls on reserve reporting, making the appropriate suggestions within a process of continuous improvement and application of best practices.

There are also several functional and business committees responsible for the oversight of the risk management activities performed within their respective areas of responsibility.

D.2

Indicate whether any of the risks (operating, technological, financial, legal, reputational, tax...) affecting the company and/or its group have actually materialised during the year:

YES

If so, indicate the underlying circumstances and whether the established control systems worked adequately.

Risks occurred during the year	Causes of risks	Operation of Control Systems
Risks inherent to the Company's business.	Circumstances of business development.	Control systems established by the Company have worked correctly, making possible to manage the risks appropriately.

D.3

Is there a Committee or other governing body responsible for establishing and supervising the control systems?

YES

If so, state its duties.

Name of Committee or governing body

AUDIT AND CONTROL COMMITTEE

Description of duties

The main duty of the Audit and Control Committee, as advisory body to the Board of Directors, is to support the Board in its oversight duties, among other actions by regularly checking the risk management and internal control systems, to ensure that the principal risks are identified, managed and adequately publicised.

With this aim, the Audit and Control Committee monitors the development of the Annual Corporate Audit Plan, drawn up to assess and oversee the correct functioning and adequacy of the established control systems, to ensure that they are sufficient to identify, manage and/or mitigate the operating, financial and reputation risks of the Repsol YPF Group. The Corporate Audit Department informs the Committee on any material irregularities, anomalies or defaults of the audited units reporting to the Board whenever they are considered to represent a significant risk for the Group.

Moreover, the Audit and Control Committee ensures that the procedures and systems for recording and internal control of the measuring, assessment, classification and entering in the accounts of the Group's hydrocarbon reserves are sufficient, adequate and efficient.

Finally, the Committee is informed by the corresponding divisions of the company and steers the environmental and safety policies, guidelines and objectives of the Repsol YPF Group.

D.4

Identification and description of processes for compliance with the different regulations affecting the company and/or its group.

The Audit and Control Committee supports the Board in its oversight duties, watching over the compliance with all legal and internal laws and regulations applicable to the company. It oversees compliance with applicable national and international rules and regulations on market conduct and data protection and ensures that the Internal Codes of Conduct and Professional Ethics and of Market Conduct applicable to Group employees meet all the legal requirements and are adequate for the company.

The Audit and Control Committee also supervises the preparation and integrity of the financial information on the Company and the Group, checking compliance with the applicable legal requirements and correct application of the accounting principles.

E General meeting

E.1 Indicate whether there are any differences between the quorums for General Meetings and the minimums stipulated in the Joint Stock Companies Act and, if appropriate, explain.

NO

	% quorum different from that established in Art. 102 Joint Stock Companies Act for general cases	% quorum different from that established in Art. 103 Joint Stock Companies Act for the special cases of Art. 103
Quorum required on first call		
Quorum required on second call		
Description of differences		

E.2 Explain whether there are any differences between the system used for adopting corporate resolutions and the system stipulated in the Joint Stock Companies Act, and if so give details:

YES

	Qualified majority other than that established in section 103.2 of the Joint Stock Companies Act for the cases set forth in section 103.1	Other instances in which a qualified majority is required
% established by the entity for the adoption of resolutions		75

Describe the differences

As an exception to the provisions of the Stock Company Act, the maximum number of votes that may be cast at a general meeting by any one shareholder, or by companies belonging to the same Group, is 10% of the subscribed voting capital. Any resolution to change that limit shall require a majority of 75% of the voting capital attending or represented at the general meeting, on first or second call, and the same majority will be required to modify the majority stipulated to amend that limit.

E.3 Describe any shareholders' rights in respect of General Meetings differing from those established in the Joint Stock Companies Act.

According to Article 23 of the Articles of Association, general meetings may be attended by shareholders holding any number of shares, provided they have been recorded in the corresponding accounting record five days prior to the date of the meeting and the shareholder has obtained the attendance card proving that the above requirements have been met. Attendance cards shall be issued by the institutions indicated in law and shall be non-transferable.

The Regulations of the Board of Directors of Repsol YPF S.A. provide as follows regarding shareholders' right to participate and information:

"6.3. The Board of Directors shall take all the measures it sees fit to ensure that the Shareholders Meeting performs its proper functions. To that end it shall place all the legally demandable information, as well as information which is not legally required but is of interest to the Shareholders and can reasonably be furnished, at the Shareholders' disposal prior to the Shareholders Meeting. It shall likewise respond with the greatest possible diligence to information requests and questions from shareholders prior to the Shareholders Meetings or while they are underway.

6.4. The information given to Shareholders and other financial market participants by the Company shall be complete, accurate, fair, symmetrical, and timely.

To achieve maximum transparency and immediacy in the dissemination of information, the Company shall make use of the generally available procedures and technologies to which companies and private citizens have access. To that end, the Board of Directors shall intensify the use of the Company's Web page and determine the contents to be transmitted through that medium, which shall include among other documents the Articles of Association, the Board of Directors' Regulations, the quarterly and annual reports, the notices of Shareholders Meetings, their regulations and the resolutions or decisions adopted at the previous meeting, and any other information considered of interest."

Furthermore, pursuant to Article 5 of the Regulations of the General Shareholders Meeting, concerning shareholders' right to information and participation, the notice of call to General Meetings shall state *"the place and times at which shareholders may consult the documents to be laid before the general meeting and such other reports as may be required by law or decided by the board, without prejudice to the right of shareholders to request and receive, free of charge, copies of all the above-mentioned documents"*

Article 5 of the Regulations of the General Shareholders Meeting also provides that *"in addition to the requirements stipulated in law or the Articles of Association, as from the date of publication of the notice of call to the general meeting, the company shall publish on its web site the text of all proposed resolutions submitted by the board in connection with the items on the agenda, including, with regard to proposals for the appointment of directors, the information contemplated in Article 47.13 of the Articles of Association ((i) professional and biographic profile, (ii) list of other boards they are on, (iii) indication of the type of director, indicating, in the case of institutional directors, the shareholder they represent or with which they have ties, (iv) date of first appointment as company directors, and subsequent appointments, and (v) company shares and options they hold).*

An exception may be made to this rule for proposals which the law and Articles of Association do not require to be made available to shareholders as from the notice of call, if the board considers there are just grounds for not doing so.

If a supplementary notice of call is published, the company shall thereafter publish on its web site the text of the proposals contained in that supplementary notice, provided they have been sent to the company."

Article 6.1. of the Regulations for the General Shareholders Meeting further provides that:

"Through the Shareholders' Information Office of the Company's web page, shareholders may at any time, upon entering proof of identification as such, raise any questions or make suggestions relating to the activities and interests of the Company and which they consider should be discussed at a General Shareholders' Meeting.

Once a General Shareholders' Meeting has been called and up to seven consecutive days before the date set for the meeting on first call, shareholders may utilize the same means to comment upon or make suggestions in writing regarding the proposals included on the Agenda thereof.

The Company's Departments will examine the shareholders' questions, suggestions and comments, and the responses will be disclosed, grouped together as pertinent, on the Company web page or, if the Board of Directors considers it appropriate, they will be considered at the General Shareholders' Meeting, even if they are not included on the Agenda."

Apart from the foregoing and with a view to facilitating access by shareholders to the information on the company, Repsol set up the Shareholders' Information Office mentioned above, offering shareholders a free call service and an e-mail address at which they may request whatever information they may require. Shareholders may also visit the Office, where they will receive personal attention.

E.4

Describe the measures adopted, if any, to encourage the participation of shareholders at General Meetings.

To encourage shareholders to participate in general meetings, Article 6 of the Regulations of the General Shareholders Meeting, establishes shareholders' right to information and participation, indicating that they may raise any questions or make any suggestions in connection with the company's activities or interests which they consider ought to be discussed by the General Meeting, through the Shareholders' Information Office or the company's web site (www.repsol.com).

Apart from these measures, which are expressly contemplated in the Repsol YPF, S.A. Rules of Corporate Governance, the company also encourages shareholders to participate in general meetings with the following measures:

- Publication of the notice of call sufficiently in advance in the media with the widest distribution, inserting a copy on the company's web site (www.repsol.com) and sending copies to the stock exchanges on which its shares are listed and to the depositaries of its shares, so that they can issue the necessary attendance cards.
- Warning in the notice of call that the general meeting will be held on second call.
- Practices to encourage attendance, by delivering gifts and even, if appropriate, paying attendance premiums.
- Holding general meetings at a large-capacity location with ideal conditions for the procedure and following of the meeting, providing transport.
- Possibility of exercising or delegating the vote through distance means (post or electronic means), providing for shareholders:

A form prepared for postal votes on the company's web site and at the Shareholders' Information Office.

An application on the web site to exercise or delegate the vote by electronic means, for all shareholders having a recognised or advanced electronic signature based on a recognised, valid electronic certificate issued by the Spanish Public Certification Entity (CERES).

- Possibility of fractioning votes through the voting platform and delegation by post and electronic means.
- Assistance and personalized guidance for all shareholders who wish to participate through staff of the Shareholders' Information Office.
- Possibility of connecting to a live broadcast of the meeting through the company's web site (www.repsol.com).
- Publication through the company's web site (www.repsol.com) of the proposed resolutions corresponding to the items on the Agenda and the Board's report on each of the proposed resolutions to be laid before the General Meeting.

E.5

Indicate if the Chairman of the Board chairs the General Meeting.
List any measures adopted to ensure the independence and correct operation of the General Meeting:

YES

Details of measures

The Board traditionally requests, on its own initiative, the presence of a Notary to attend the General Meeting and issue minutes thereof.

Consequently, neither the Chairman nor the Secretary of the General Meeting participate in the preparation of the minutes, for which a notary or other public attesting officer is engaged, with the consequent guarantee of neutrality for the shareholders.

E.6

Indicate any modifications made during the year to the Regulations of the General Shareholders Meeting.

The Annual Shareholders Meeting held on April 30, 2010, approved the amendment of paragraph 3.5 of Article 3 ("Powers of the shareholders' meeting") and paragraph 9.2 of Article 9 ("Shareholders' meeting quorum") of its Regulations.

The above amendments were made to adapt the text of the Regulations of the General Shareholders Meeting to the amendments in the regulation of Joint Stock Companies by Law 3/2009, April 3rd.

The CNMV was notified of the amendments in a letter dated 18 June, 2010 and they have been entered in the Madrid Trade Register.

The Regulations of the General Shareholders Meeting may be consulted on the company's web site (www.repsol.com).

E.7

Give details of attendance of General Meetings held during the year:

Date General Meeting	DETAILS OF ATTENDANCE				Total
	% attending in person	% attending by proxy	% Distance voting		
			Electronic vote	Others	
04-30-2010	0.058	63.358	0.006	0.446	63.868

E.8

Give a brief account of the resolutions adopted at the General Meetings held during the year and percentage of votes with which each resolution was approved.

Only one General Shareholders Meeting of Repsol YPF, S.A., the Annual General Meeting, was held during 2010, on 30 April 2010, at which the following resolutions were adopted with the majorities indicated below:

- 1.1 To approve the Annual Financial Statements and the Management Report of Repsol YPF, S.A., the Consolidated Annual Financial Statements and the Consolidated Management Report, for the fiscal year ended 31st December 2009, and the proposal of application of its earnings.
Votes for 604,291,620 shares, votes against 98,609 shares, abstentions 10,971,712 shares.
- 1.2 To approve the management by the Board of Directors during fiscal year 2009.
Votes for 596,098,123 shares, votes against 8,741,305 shares, abstentions 10,522,513 shares.
- 2.1 To amend the first paragraph of Article 9 ("Capital calls and default by the Shareholders").
Votes for 600,008,846 shares, votes against 98,358 shares, abstentions 15,254,737 shares.
- 2.2 To amend Article 12.bis ("Preferential subscription right").
Votes for 599,694,119 shares, votes against 413,679 shares, abstentions 15,254,143 shares.
- 2.3 To amend the first paragraph of Article 22 ("Special resolutions, constitution and majorities").
Votes for 599,960,369 shares, votes against 143,416 shares, abstentions 15,258,156 shares.
- 3.1. To amend paragraph 3.5 of Article 3 ("Powers of the shareholders' meeting").
Votes for 599,880,057 shares, votes against 176,115 shares, abstentions 15,305,769 shares.

- 3.2 To amend paragraph 9.2 of Article 9 (“Shareholders’ meeting quorum”).
Votes for 599,984,159 shares, votes against 131,195 shares, abstentions 15,246,587 shares.
- 4.1 To re-elect Mrs. Paulina Beato, as Director of the Company, for a new period of four years.
Votes for 602,026,416 shares, votes against 156,935 shares, abstentions 13,178,590 shares.
- 4.2 To re-elect Mr. Carulla Font, as Director of the Company, for a new period of four years.
Votes for 595,416,578 shares, votes against 7,240,441 shares, abstentions 12,704,922 shares.
- 4.3 To re-elect Mr. Javier Echenique Landiribar, as Director of the Company, for a new period of four years.
Votes for 601,633,095 shares, votes against 2,491,037 shares, abstentions 11,237,809 shares.
- 4.4 To re-elect Pemex International España, S.A., as Director of the Company, for a new period of four years.
Votes for 597,174,003 shares, votes against 6,246,245 shares, abstentions 11,941,693 shares.
- 4.5 To re-elect Mr. Henri Philippe Reichstul, as Director of the Company, for a new period of four years.
Votes for 604,012,048 shares, votes against 148,075 shares, abstentions 11,201,818 shares.
5. To re-elect as the Accounts Auditor of Repsol YPF, S.A. and of its Consolidated Group the company Deloitte, S.L. for the legally established period of one year. It is also entrusted with carrying out the other Audit services required by Law and needed by the Company until the next Ordinary General Shareholders’ Meeting is held.
Votes for 602,410,163 shares, votes against 2,507,334 shares, abstentions 10,444,444 shares.
6. To authorize the Board of Directors, with express power of delegation, for the derivative acquisition of shares of Repsol YPF, S.A., directly or through controlled companies, within a period of 5 years from the resolution of the Shareholders Meeting, leaving without effect the authorization granted by the Ordinary General Shareholders Meeting held on May 14, 2009.
Votes for 594,579,635 shares, votes against 9,602,838 shares, abstentions 11,179,468 shares.
7. To delegate to the Board of Directors of the power to resolve the increase of the capital stock, up to the maximum amount legally prescribed, with the possibility of excluding the preferential subscription right, leaving without effect the sixth resolution of the General Shareholders’ Meeting held on May 31, 2005.
Votes for 570,986,716 shares, votes against 27,382,419 shares, abstentions 16,992,806 shares.
8. To delegate the powers to supplement, develop, execute, rectify and formalize the resolutions adopted by the General Shareholders’ Meeting”.
Votes for 602,821,148 shares, votes against 2,637,137 shares, abstentions 9,903,656 shares.

E.9 State whether any restrictions are established in the Articles of Association requiring a minimum number of shares to attend General Meetings:

NO

Number of shares required to attend General Meetings

E.10 Describe and justify the company’s policies on proxy votes at General Meetings.

According to Article 8 of the Regulations of the General Shareholders Meeting, all shareholders entitled to attend may be represented at general meetings by another person, who need not be a shareholder. Proxies shall be granted in writing or by distance communication, especially for each general meeting.

For this purpose, apart from the possibility of sending proxies for attendance and voting at general meetings through the members of “Sociedad de Gestión de Sistemas de Registro, Compensación y Liquidación de Valores S.A.” (Iberclear), shareholders also have the Shareholders’ Information Office, where they may deliver proxies by post or by hand, and another office opened exclusively for this purpose at the registered office, Paseo de la Castellana no. 278, where attendance cards may be received and the corresponding gifts are handed out.

An application is made available on the web site for electronic proxies, available for shareholders who have a recognised or advanced electronic signature based on a recognised, valid electronic certificate issued by the Entidad Pública de Certificación Española (CERES).

E.11 Indicate whether the company is aware of the policies of institutional investors regarding their participation or otherwise in company decisions:

NO

Describe the policy

E.12 Indicate the address and access to the corporate governance contents on the company’s web site.

The information on corporate governance, regulated in Act 26/2003 of 17 July, Order ECO/3722/2003 of 26 December, and the *Comisión Nacional del Mercado de Valores* (CNMV) Circular 1/2004 of 17 March, is published in the section “Shareholders and investors” on the company’s web site (www.repsolypf.com).

F

Extent of compliance with the corporate governance recommendations

Indicate the degree of compliance by the company with the recommendations of the Unified Good Governance Code.

In the event of non-compliance with any recommendations, explain the recommendations, standards, practices or principles applied by the company.

1. The bylaws of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market.

See sections: A.9, B.1.22, B.1.23 y E.1, E.2.

Explain

Art. 27 of the Bylaws and Art. 13.6 of the Regulations of the General Shareholders Meeting of Company stipulate that the maximum number of votes that may be cast at a General Meeting by one shareholder or companies belonging to the same group shall be 10% of the total voting capital.

This limit was approved, according to the provision of article 105 of the Joint Stock Companies Act, at the Extraordinary General Meeting held in 1999 by 95% of the capital attending.

2. When a dominant and a subsidiary company are stock market listed, the two should provide detailed disclosure on:
 - a. The type of activity they engage in, and any business dealings between them, as well as between the subsidiary and other group companies;
 - b. The mechanisms in place to resolve possible conflicts of interest.

See sections: C.4 y C.7

Not applicable

3. Even when not expressly required under company law, any decisions involving a fundamental corporate change should be submitted to the General Shareholders' Meeting for approval or ratification. In particular:
 - a. The transformation of listed companies into holding companies through the process of subsidiarisation, i.e. reallocating core activities to subsidiaries that were previously carried out by the originating firm, even though the latter retains full control of the former;
 - b. Any acquisition or disposal of key operating assets that would effectively alter the company's corporate purpose;
 - c. Operations that effectively add up to the company's liquidation.

Comply

4. Detailed proposals of the resolutions to be adopted at the General Shareholders' Meeting, including the information stated in Recommendation 28, should be made available at the same time as the publication of the Meeting notice.

Comply

5. Separate votes should be taken at the General Shareholders' Meeting on materially separate items, so shareholders can express their preferences in each case. This rule shall apply in particular to:
 - a. The appointment or ratification of directors, with separate voting on each candidate;
 - b. Amendments to the bylaws, with votes taken on all articles or groups of articles that are materially independent.

See section: E.8

Comply

6. Companies should allow split votes, so financial intermediaries acting as nominees on behalf of different clients can issue their votes according to instructions.

See section: E.4

Comply

7. The Board of Directors should perform its duties with unity of purpose and independent judgement, according all shareholders the same treatment. It should be guided at all times by the company's best interest and, as such, strive to maximise its value over time.

It should likewise ensure that the company abides by the laws and regulations in its dealings with stakeholders; fulfils its obligations and contracts in good faith; respects the customs and good practices of the sectors and territories where it does business; and upholds any additional social responsibility principles it has subscribed to voluntarily.

Comply

8. The board should see the core components of its mission as to approve the company's strategy and authorise the organisational resources to carry it forward, and to ensure that management meets the objectives set while pursuing the company's interests and corporate purpose. As such, the board in full should reserve the right to approve:

a. The company's general policies and strategies, and in particular:

- I. The strategic or business plan, management targets and annual budgets;
- II. Investment and financing policy;
- III. Design of the structure of the corporate group;
- IV. Corporate governance policy;
- V. Corporate social responsibility policy;
- VI. Remuneration and evaluation of senior officers;
- VII. Risk control and management, and the periodic monitoring of internal information and control systems;
- VIII. Dividend policy, as well as the policies and limits applying to treasury stock.

See sections: B.1.10, B.1.13, B.1.14 y D.3

b. The following decisions:

- I. On the proposal of the company's chief executive, the appointment and removal of senior officers, and their compensation clauses.
See section: B.1.14
- II. Directors' remuneration and, in the case of executive directors, the additional consideration for their management duties and other contract conditions.
See section: B.1.14
- III. The financial information listed companies must periodically disclose.
- IV. Investments or operations considered strategic by virtue of their amount or special characteristics, unless their approval corresponds to the General Shareholders' Meeting;
- V. The creation or acquisition of shares in special purpose entities resident in jurisdictions considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.

c. Transactions which the company conducts with directors, significant shareholders, shareholders with board representation or other persons related thereto ("related-party transactions").

However, board authorisation need not be required for related-party transactions that simultaneously meet the following three conditions:

- 1^a. They are governed by standard form agreements applied on an across-the-board basis to a large number of clients;

- 2^a. They go through at market rates, generally set by the person supplying the goods or services;
- 3^a. Their amount is no more than 1% of the company's annual revenues.

It is advisable that related-party transactions should only be approved on the basis of a favourable report from the Audit Committee or committee handling the same function; and that the directors involved should neither exercise nor delegate their votes, and should withdraw from the meeting room while the board deliberates and votes.

Ideally the above powers should not be delegated with the exception of those mentioned in b) and c), which may be delegated to the Delegate Committee in urgent cases and later ratified by the full board.

See section: C.1 y C.6

Partial compliance

The company complies with this recommendation, except for the following sections:

- a.III. Owing to the complexity and large number of companies in the Repsol YPF Group at present, it has not been considered convenient to expressly include the contents of this recommendation in the company's internal regulations.
- a.VII. The Company complies with this recommendation, except regarding the periodic monitoring of internal information and control systems. In this regard, since recommendation 50.1 of the Unified Code assigns duties to the Audit and Control Committee involving supervision of the information, internal control and risk management systems, and Repsol YPF is subject to the US Sarbanes-Oxley Act (Section 404), according to which the Audit Committee must oversee and control the functioning of the Internal Financial Reporting Control system, the Company has considered it convenient to assign that Committee the duty of supervising the risk management, internal control and information systems of the company, without prejudice to reporting to the Board on these matters.
- b.I. The Regulations of the Board of Directors does not reserve to the Board the removal of senior officers. The Company considers that this power over the top management should be reserved for the chief executive, since these positions come under his trust and responsibility, without prejudice to reporting to the Board. Nevertheless, the Board of Directors reserves the power to approve any guarantee or golden parachute clauses for senior executives of the company in cases of dismissals or changes of ownership, when the conditions exceed those normally established on the market.
- b.V. The Company complies with this recommendation, except regarding the creation or acquisition of shares in companies domiciled in countries or territories considered tax havens. In this regard, the Company has opted for the Audit and Control Committee to receive information on these matters and ensure that these transactions correspond to appropriate purposes, and for the Top Management to take the appropriate measures to identify and adequately manage them, without prejudice to reporting to the Board on these matters.
- Furthermore, this recommendation includes a vague concept (transactions which might impair the transparency of the Group), which the company has not considered it convenient to include in its internal regulations, owing to the uncertainty that could arise in its application.
9. In the interests of maximum effectiveness and participation, the Board of Directors should ideally comprise no fewer than five and no more than fifteen members.

See section: B.1.1

Explain

The Board of Directors considered it convenient for the company, taking account of the structure of its capital and shareholders' representation on the Board, to incorporate persons with an outstanding professional prestige, from the auditing, financial/accounting, industrial and stock market sectors, who could increase the decision-making capacity of the Board and enhance its points of view.

For this purpose, the Board of Directors proposed to the General Shareholders Meeting in 2007, within the maximum and minimum limits established in the Articles of Association (9 - 16), to set the number of directors at 16. This proposal was approved at the aforesaid General Meeting.

10. External directors, proprietary and independent, should occupy an ample majority of board places, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.

See sections: A.2, A.3, B.1.3 y B.1.14

Comply

11. In the event that some external director can be deemed neither proprietary nor independent, the company should disclose this circumstance and the links that person maintains with the company or its senior officers, or its shareholders.

See section: B.1.3

Not applicable

12. That among external directors, the relation between proprietary members and independents should match the proportion between the capital represented on the board by proprietary directors and the remainder of the company's capital.

This proportional criterion can be relaxed so the weight of proprietary directors is greater than would strictly correspond to the total percentage of capital they represent:

- 1^o. In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings, despite the considerable sums actually invested.
- 2^o. In companies with a plurality of shareholders represented on the board but not otherwise related.

See sections: B.1.3, A.2 y A.3

Comply

13. The number of independent directors should represent at least one third of all board members.

See section: B.1.3

Comply

14. The nature of each director should be explained to the General Meeting of Shareholders, which will make or ratify his or her appointment. Such determination should subsequently be confirmed or reviewed in each year's Annual Corporate Governance Report, after verification by the Nomination Committee. The said Report should also disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 5% of capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.

See sections: B.1.3 y B.1.4

Comply

15. When women directors are few or non existent, the board should state the reasons for this situation and the measures taken to correct it; in particular, the Nomination Committee should take steps to ensure that:

- a. The process of filling board vacancies has no implicit bias against women candidates;
- b. The company makes a conscious effort to include women with the target profile among the candidates for board places.

See sections: B.1.2, B.1.27 y B.2.3

Comply

16. The Chairman, as the person responsible for the proper operation of the Board of Directors, should ensure that directors are supplied with sufficient information in advance of board meetings, and work to procure a good level of debate and the active involvement of all members, safeguarding their rights to freely express and adopt positions; he or she should organise and coordinate regular evaluations of the board and, where appropriate, the company's chief executive, along with the chairmen of the relevant board committees.

See section: B.1.42

Comply

17. When a company's Chairman is also its chief executive, an independent director should be empowered to request the calling of board meetings or the inclusion of new business on the agenda; to coordinate and give voice to the concerns of external directors; and to lead the board's evaluation of the Chairman.

See section: B.1.21

Comply

18. The Secretary should take care to ensure that the Board's actions:
- Adhere to the spirit and letter of laws and their implementing regulations, including those issued by regulatory agencies;
 - Comply with the company bylaws and the regulations of the General Shareholders' Meeting, the Board of Directors and others;
 - Are informed by those good governance recommendations of the Unified Code that the company has subscribed to.

In order to safeguard the independence, impartiality and professionalism of the Secretary, his or her appointment and removal should be proposed by the Nomination Committee and approved by a full board meeting, the relevant appointment and removal procedures being spelled out in the board's regulations.

See section: B.1.34

Comply

19. The Board should meet with the necessary frequency to properly perform its functions, in accordance with a calendar and agendas set at the beginning of the year, to which each director may propose the addition of other items.

See section: B.1.29

Comply

20. Director absences should be kept to the bare minimum and quantified in the Annual Corporate Governance Report. When directors have no choice but to delegate their vote, they should do so with instructions.

See sections: B.1.28 y B.1.30

Comply

21. When directors or the Secretary express concerns about some proposal or, in the case of directors, about the company's performance, and such concerns are not resolved at the meeting, the person expressing them can request that they be recorded in the minute book.

Not applicable

22. The board in full should evaluate the following points on a yearly basis:
- The quality and efficiency of the board's operation;
 - Starting from a report submitted by the Nomination Committee, how well the Chairman and chief executive have carried out their duties;
 - The performance of its committees on the basis of the reports furnished by the same.

See section: B.1.19

Comply

23. All directors should be able to exercise their right to receive any additional information they require on matters within the board's competence. Unless the bylaws or board regulations indicate otherwise, such requests should be addressed to the Chairman or Secretary.

See section: B.1.42

Comply

24. All directors should be entitled to call on the company for the advice and guidance they need to carry out their duties. The company should provide suitable channels for the exercise of this right, extending in special circumstances to external assistance at the company's expense.

See section: B.1.41

Comply

25. Companies should organise induction programmes for new directors to acquaint them rapidly with the workings of the company and its corporate governance rules. Directors should also be offered refresher programmes when circumstances so advise.

Comply

26. Companies should require their directors to devote sufficient time and effort to perform their duties effectively, and, as such::

- Directors should apprise the Nomination Committee of any other professional obligations, in case they might detract from the necessary dedication;
- Companies should lay down rules about the number of directorships their board members can hold.

See sections: B.1.8, B.1.9 y B.1.17

Partial compliance

The Company complies with this recommendation, except regarding the rules on the number of directorships its directors may hold. It considers the obligations that Directors are to meet by virtue of their office, as stipulated in Article 17 of the Regulations of the Board of Directors, sufficient to guarantee the efficient performance by directors of their duties:

- Constantly devote such time and efforts as may be necessary to regularly oversee the issues concerning administration of the company.
 - Be informed and adequately prepare meetings of the board and any other delegated and advisory committees to which they belong, obtaining sufficient information and such collaboration or assistance as they may deem fit.
 - Attend meetings of all committees they are on and participate actively in the debates, such that their opinions may contribute effectively to the decision-making process. If they are justifiably unable to attend any meetings to which they have been called, they shall duly instruct another director to represent them.
 - Carry out any specific task commissioned by the board that is reasonably within his dedication commitment.
 - Inform the Nomination and Compensation Committee of any other professional obligations they may have and any material changes in their professional situation, as well as any that may affect the nature or condition by virtue of which they have been appointed director.
- The Nomination and Compensation Committee shall inform the Board on directors' performance of these obligations.

27. The proposal for the appointment or renewal of directors which the board submits to the General Shareholders' Meeting, as well as provisional appointments by the method of co-option, should be approved by the board:

- On the proposal of the Nomination Committee, in the case of independent directors.
- Subject to a report from the Nomination Committee in all other cases.

See section: B.1.2

Comply

28. Companies should post the following director particulars on their websites and keep them permanently updated:

- Professional experience and background;
- Directorships held in other companies, listed or otherwise;
- An indication of the director's classification as executive, proprietary or independent; in the case of proprietary directors, stating the shareholder they represent or have links with.
- The date of their first and subsequent appointments as a company director, and;
- Shares held in the company and any options on the same.

Comply

29. Independent directors should not stay on as such for a continuous period of more than 12 years.

See section: B.1.2

Comply

30. Proprietary directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary directors, the latter's number should be reduced accordingly.

See sections: A.2, A.3 y B.1.2

Comply

31. The Board of Directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the bylaws, except where just cause is found by the board, based on a proposal from the Nomination Committee. In particular, just cause will be presumed when a director is in breach of his or her fiduciary duties or comes under one of the disqualifying grounds enumerated in section III.5 (Definitions) of this Code.

The removal of independents may also be proposed when a takeover bid, merger or similar corporate operation produces changes in the company's capital structure, in order to meet the proportionality criterion set out in Recommendation 12.

Comply

32. Companies should establish rules obliging directors to inform the board of any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, with particular mention of any criminal charges brought against them and the progress of any subsequent trial.

The moment a director is indicted or tried for any of the crimes stated in article 124 of the Public Limited Companies Law, the board should examine the matter and, in view of the particular circumstances and potential harm to the company's name and reputation, decide whether or not he or she should be called on to resign. The board should also disclose all such determinations in the Annual Corporate Governance Report.

See sections: B.1.43 y B.1.44

Comply

33. All directors should express clear opposition when they feel a proposal submitted for the board's approval might damage the corporate interest. In particular, independents and other directors unaffected by the conflict of interest should challenge any decision that could go against the interests of shareholders lacking board representation.

When the board makes material or reiterated decisions about which a director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next Recommendation.

The terms of this Recommendation should also apply to the Secretary of the board; director or otherwise.

Not applicable

34. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the board. Irrespective of whether such resignation is filed as a significant event, the motive for the same must be explained in the Annual Corporate Governance Report.

See section: B.1.5

Not applicable

35. The company's remuneration policy, as approved by its Board of Directors, should specify at least the following points:

- a. The amount of the fixed components, itemised where necessary, of board and board committee attendance fees, with an estimate of the fixed annual payment they give rise to;
- b. Variable components, in particular:

- I. The types of directors they apply to, with an explanation of the relative weight of variable to fixed remuneration items;
 - II. Performance evaluation criteria used to calculate entitlement to the award of shares or share options or any performance-related remuneration;
 - III. The main parameters and grounds for any system of annual bonuses or other, non cash benefits; and
 - IV. An estimate of the sum total of variable payments arising from the remuneration policy proposed, as a function of degree of compliance with pre-set targets or benchmarks.
- c. The main characteristics of pension systems (for example, supplementary pensions, life insurance and similar arrangements), with an estimate of their amount or annual equivalent cost.
- d. The conditions to apply to the contracts of executive directors exercising senior management functions. Among them:
- I. Duration;
 - II. Notice periods; and
 - III. Any other clauses covering hiring bonuses, as well as indemnities or 'golden parachutes' in the event of early termination of the contractual relation between company and executive director.

See section: B.1.15

Comply

36. Remuneration comprising the delivery of shares in the company or other companies in the group, share options or other share-based instruments, payments linked to the company's performance or membership of pension schemes should be confined to executive directors.

The delivery of shares is excluded from this limitation when directors are obliged to retain them until the end of their tenure.

See sections: A.3 y B.1.3

Comply

37. External directors' remuneration should sufficiently compensate them for the dedication, abilities and responsibilities that the post entails, but should not be so high as to compromise their independence.

Comply

38. In the case of remuneration linked to company earnings, deductions should be computed for any qualifications stated in the external auditor's report.

Comply

39. In the case of variable awards, remuneration policies should include technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, atypical or exceptional transactions or circumstances of this kind.

Comply

40. The board should submit a report on the directors' remuneration policy to the advisory vote of the General Shareholders' Meeting, as a separate point on the agenda. This report can be supplied to shareholders separately or in the manner each company sees fit.

The report will focus on the remuneration policy the board has approved for the current year with reference, as the case may be, to the policy planned for future years. It will address all the points referred to in Recommendation 34, except those potentially entailing the disclosure of commercially sensitive information. It will also identify and explain the most significant changes in remuneration policy with respect to the previous year, with a global summary of how the policy was applied over the period in question.

The role of the Remuneration Committee in designing the policy should be reported to the Meeting, along with the identity of any external advisors engaged.

See section: B.1.16

Partial compliance

The company prepared the Report on the Directors' Remuneration Policy, which is made available to shareholders, for their information, at the Ordinary General Shareholders Meeting.

41. The notes to the annual accounts should list individual directors' remuneration in the year, including:
- a. A breakdown of the compensation obtained by each company director, to include where appropriate:
 - I. Participation and attendance fees and other fixed director payments;
 - II. Additional compensation for acting as chairman or member of a board committee;
 - III. Any payments made under profit-sharing or bonus schemes, and the reason for their accrual;
 - IV. Contributions on the director's behalf to defined-contribution pension plans, or any increase in the director's vested rights in the case of contributions to defined-benefit schemes;
 - V. Any severance packages agreed or paid;
 - VI. Any compensation they receive as directors of other companies in the group;
 - VII. The remuneration executive directors receive in respect of their senior management posts;
 - VIII. Any kind of compensation other than those listed above, of whatever nature and provenance within the group, especially when it may be accounted as a related-party transaction or when its omission would detract from a true and fair view of the total remuneration received by the director.
 - b. An individual breakdown of deliveries to directors of shares, share options or other share-based instruments, itemised by:
 - I. Number of shares or options awarded in the year, and the terms set for their execution;
 - II. Number of options exercised in the year, specifying the number of shares involved and the exercise price;
 - III. Number of options outstanding at the annual close, specifying their price, date and other exercise conditions;
 - IV. Any change in the year in the exercise terms of previously awarded options.
 - c. Information on the relation in the year between the remuneration obtained by executive directors and the company's profits, or some other measure of enterprise results.

Comply

42. When the company has a Delegate Committee, the breakdown of its members by director category should be similar to that of the board itself. The Secretary of the board should also act as secretary to the Delegate Committee.

See sections: B.2.1 y B.2.6

Comply

43. The board should be kept fully informed of the business transacted and decisions made by the Delegate Committee. To this end, all board members should receive a copy of the Committee's minutes.

Comply

44. In addition to the Audit Committee mandatory under the Securities Market Law, the Board of Directors should form a committee, or two separate committees, of Nomination and Remuneration.

The rules governing the make-up and operation of the Audit Committee and the committee or committees of Nomination and Remuneration should be set forth in the board regulations, and include the following:

- a. The Board of Directors should appoint the members of such committees with regard to the knowledge, aptitudes and experience of its directors and the terms of reference of each committee; discuss their proposals and reports; and be responsible for overseeing and evaluating their work, which should be reported to the first board plenary following each meeting;

- b. These committees should be formed exclusively of external directors and have a minimum of three members. Executive directors or senior officers may also attend meetings, for information purposes, at the Committees' invitation.
- c. Committees should be chaired by an independent director.
- d. They may engage external advisors, when they feel this is necessary for the discharge of their duties.
- e. Meeting proceedings should be minuted and a copy sent to all board members.

See sections: B.2.1 y B.2.3

Comply

45. The job of supervising compliance with internal codes of conduct and corporate governance rules should be entrusted to the Audit Committee, the Nomination Committee or, as the case may be, separate Compliance or Corporate Governance committees.

Comply

46. All members of the Audit Committee, particularly its chairman, should be appointed with regard to their knowledge and background in accounting, auditing and risk management matters.

Comply

47. Listed companies should have an internal audit function, under the supervision of the Audit Committee, to ensure the proper operation of internal reporting and control systems.

Comply

48. The head of internal audit should present an annual work programme to the Audit Committee; report to it directly on any incidents arising during its implementation; and submit an activities report at the end of each year.

Comply

49. Control and risk management policy should specify at least:

- a. The different types of risk (operational, technological, financial, legal, reputational...) the company is exposed to, with the inclusion under financial or economic risks of contingent liabilities and other off-balance -sheet risks;
- b. The determination of the risk level the company sees as acceptable;
- c. Measures in place to mitigate the impact of risk events should they occur;
- d. The internal reporting and control systems to be used to control and manage the above risks, including contingent liabilities and off-balance -sheet risks.

See section: D

Comply

50. The Audit Committee's role should be:

1° With respect to internal control and reporting systems:

- a. Monitor the preparation and the integrity of the financial information prepared on the company and, where appropriate, the group, checking for compliance with legal provisions, the accurate demarcation of the consolidation perimeter, and the correct application of accounting principles.
- b. Review internal control and risk management systems on a regular basis, so main risks are properly identified, managed and disclosed.
- c. Monitor the independence and efficacy of the internal audit function; propose the selection, appointment, reappointment and removal of the head of internal audit; propose the department's budget; receive regular report-backs on its activities; and verify that senior management are acting on the findings and recommendations of its reports.
- d. Establish and supervise a mechanism whereby staff can report confidentially and, if necessary, anonymously, any irregularities they detect in the course of their duties, in particular financial or accounting irregularities, with potentially serious implications for the firm.

2º With respect to the external auditor:

- a. Make recommendations to the board for the selection, appointment, reappointment and removal of the external auditor, and the terms and conditions of his engagement.
 - b. Receive regular information from the external auditor on the progress and findings of the audit programme, and check that senior management are acting on its recommendations.
 - c. Monitor the independence of the external auditor, to which end:
 - I. The company should notify any change of auditor to the CNMV as a significant event, accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.
 - II. The Committee should ensure that the company and the auditor adhere to current regulations on the provision of non-audit services, the limits on the concentration of the auditor's business and, in general, other requirements designed to safeguard auditors' independence;
 - III. The Committee should investigate the issues giving rise to the resignation of any external auditor.
 - d. In the case of groups, the Committee should urge the group auditor to take on the auditing of all component companies.
- See sections: B.1.35, B.2.2, B.2.3 y D.3

Comply

51. The Audit Committee should be empowered to meet with any company employee or manager, even ordering their appearance without the presence of another senior officer.

Comply

52. The Audit Committee should prepare information on the following points from Recommendation 8 for input to board decision-making:
- a. The financial information that all listed companies must periodically disclose. The Committee should ensure that interim statements are drawn up under the same accounting principles as the annual statements and, to this end, may ask the external auditor to conduct a limited review.
 - b. The creation or acquisition of shares in special purpose vehicles or entities resident in countries or territories considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.
 - c. Related-party transactions, except where their scrutiny has been entrusted to some other supervision and control committee.
- See sections: B.2.2 y B.2.3

Partial compliance

The Company complies with this recommendation, except for paragraph b on entities resident in tax havens and transactions that might impair the transparency of the group.

In this respect, Article 32 of the Regulations of the Board of Directors establishes that the Audit and Control Committee shall be informed on the creation or acquisition of shares in companies domiciled in countries or territories considered tax havens. The Committee shall also see that these transactions correspond to appropriate purposes and that top management takes the necessary measures to identify and adequately handle them.

Furthermore, this recommendation includes a vague concept (transactions which might impair the transparency of the Group), which the company has not considered it convenient to include in its internal regulations, owing to the uncertainty that could arise in its application.

53. The Board of Directors should seek to present the annual accounts to the General Shareholders' Meeting without reservations or qualifications in the audit report. Should such reservations or qualifications exist, both the Chairman of the Audit Committee and the auditors should give a clear account to shareholders of their scope and content.

See section: B.1.38

Comply

54. The majority of Nomination Committee members – or Nomination and Remuneration Committee members as the case may be – should be independent directors.

See section: B.2.1

Explain

The Nomination and Compensation Committee has proposed to the Board of Directors the appointment of Mr. Mario Fernández Pelaz as a third Independent member of the Nomination and Compensation Committee, with the purpose that the majority of the members of said Committee will hold the condition of Outside Independent Director.

The above appointment will be agreed, if appropriate, by the Company's Board of Directors scheduled for the day of the Annual Shareholders Meeting 2011, after it, which shall approve the appointment of Mr. Fernandez as Director of the Company.

55. The Nomination Committee should have the following functions in addition to those stated in earlier recommendations:
- a. Evaluate the balance of skills, knowledge and experience on the board, define the roles and capabilities required of the candidates to fill each vacancy, and decide the time and dedication necessary for them to properly perform their duties.
 - b. Examine or organise, in appropriate form the succession of the chairman and the chief executive, making recommendations to the board so the handover proceeds in a planned and orderly manner.
 - c. Report on the senior officer appointments and removals which the chief executive proposes to the board.
 - d. Report to the board on the gender diversity issues discussed in Recommendation 14 of this Code.

See section: B.2.3

Partial compliance

As mentioned in respect of Recommendation 8 above, the Company considers that the power to remove senior officers of the company should be reserved to the chief executive, since they are positions within his trust and responsibility.

56. The Nomination Committee should consult with the company's Chairman and chief executive, especially on matters relating to executive directors.

Any board member may suggest directorship candidates to the Nomination Committee for its consideration.

Comply

57. The Remuneration Committee should have the following functions in addition to those stated in earlier recommendations:
- a. Make proposals to the Board of Directors regarding:
 - I. The remuneration policy for directors and senior officers;
 - II. The individual remuneration and other contractual conditions of executive directors.
 - III. The standard conditions for senior officer employment contracts.
 - b. Oversee compliance with the remuneration policy set by the company.

See sections: B.1.14 y B.2.3

Comply

58. The Remuneration Committee should consult with the Chairman and chief executive, especially on matters relating to executive directors and senior officers.

Comply

G

Other information of interest

If you consider there to be an important principle or aspect regarding the corporate governance practices applied by your company that have not been mentioned in this report, indicate them below and explain the contents.

This section may be used to include any other information, clarification or qualification relating to the previous sections of the report.

In particular, state whether the company is subject to any laws other than the laws of Spain on corporate governance and, if this is the case, include whatever information the company may be obliged to supply that differs from the information included in this report.

1. Note on section A.2.

Due to the fact the company's shares are issued in book-entry form, the company does not have up-to-date information on the identity of its shareholders or details of their stakes. Therefore, the details set out in this section are obtained from the information supplied by *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, Sociedad Anónima Unipersonal* (IBERCLEAR) for the Annual Shareholders Meeting of April 30, 2010, and from the information sent by shareholders to *Comisión Nacional del Mercado de Valores* (CNMV) and to the Company.

Petróleos Mexicanos (Pemex) holds its stake through Pemex Internacional España, S.A. and through several swap instruments (equity swaps) with certain financial entities which enable Pemex to exercise the economic and political rights of a percentage of up to 4.8% of the share capital of the Company.

2. Note on section A.10

With regard to the legal restrictions on the purchase or sale of shares in the capital, under Supplementary Provision 11 to the Hydrocarbons Act 34/1998, as drafted in Royal Decree-Law 4/2006 of February 24, prior administrative authorisation by the *Comisión Nacional de Energía* must be sought for certain acquisitions or investments in companies that engage in regulated activities or activities subject to significant oversight by administrative bodies that implies special regulation.

On July 2008, the European Court of Justice determined that Spain had, through the imposition of this requirement of administrative authorisation by the *Comisión Nacional de Energía*, failed to fulfil its obligations under Articles 43 and 56 of the EC Treaty.

3. Note on section B.1.11.

Following the former practice of Repsol YPF, S.A. and to supplement the information supplied in section B.1.11., the sums accrued by members of the Board during 2010, individually and by types of remuneration, or other benefits, are set out in this Annual Report on Corporate Governance.

a. Due to membership of the Board

Under the system established and approved by the Nomination and Compensation Committee, the amounts of the annual remunerations earned in 2009 and 2010 by virtue of membership of each of the Group's managing bodies are as follows:

GOVERNING BODY	Euros	
	2009	2010
Board of Directors	172,287	172,287
Delegate Committee	172,287	172,287
Audit and Control Committee	86,144	86,144
Strategy, Investment and Corporate Social Responsibility Committee	43,072	43,072
Nomination and Compensation Committee	43,072	43,072

The amount of the remunerations earned by the members of the Board of Directors for belonging to same in 2010 and payable against the aforesaid assignment in the Articles of Association was EUR 4.910 million, itemised as follows:

	Board	Deleg. C.	Audit C.	Nominat C.	Strat C.	TOTAL
Antonio Brufau Niubó	172,287	172,287	-	-	-	344,574
Luis Suárez De Lezo Mantilla	172,287	172,287	-	-	-	344,574
Pemex Internacional España, S.A.	172,287	172,287	-	-	43,072	387,646
Carmelo De Las Morenas López	172,287	-	86,144	-	-	258,431
Henri Philippe Reichstul	172,287	172,287	-	-	-	344,574
Paulina Beato Blanco	172,287	-	86,144	-	-	258,431
Javier Echenique Landiribar	172,287	172,287	86,144	-	-	430,718
Artur Carulla Font	172,287	172,287	-	43,072	-	387,646
Luis del Rivero Asensio	172,287	172,287	-	-	-	344,574
Juan Abelló Gallo	172,287	-	-	-	43,072	215,359
José Manuel Loureda Mantiñán	172,287	-	-	43,072	43,072	258,431
Luis Carlos Croissier Batista	172,287	-	-	-	43,072	215,359
Isidro Fainé Casas	172,287	172,287	-	-	-	344,574
Juan María Nin Génova	172,287	-	-	43,072	43,072	258,431
Ángel Duráñez Adeva	172,287	-	86,144	-	-	258,431
M ^a Isabel Gabarro Miquel	172,287	-	-	43,072	43,072	258,431

It should also be noted that:

- The members of the Board of Directors of Repsol YPF, S.A. have not been granted any loans or advances by any Group company, jointly controlled entity or associate.
- No Group company, jointly controlled entity or associate has pension or life insurance obligations to any former or current member of the Board of Directors of Repsol YPF, S.A., except in the case of the Executive Chairman and the General Counsel whose remunerations, as Executive Directors, are governed by the obligations provided for in their contracts for services, which envisage a defined contribution system.

b. Due to the holding of executive posts and the discharge of executive duties

The fixed monetary remuneration earned in 2010 by the Board members who had an employment relationship with or discharged executive duties in the Group during the year totalled EUR 3.269 million, EUR 2.310 million corresponding to Antonio Brufau and EUR 0.959 million to Luis Suárez de Lezo. These remunerations are the same earned in 2009 for this concept.

Additionally, the remuneration in kind (housing, etc.), annual and multi-annual variable, multi-annual variable calculated on the basis of the degree to which targets of the Medium Term Incentives Program 2006-2009, earned by Antonio Brufau, totalled EUR 1.620 million. The remuneration in kind, annual and multi-annual variable, multi-annual as a participant of the above program, earned by Luis Suárez de Lezo, totalled EUR 0.666 million.

These amounts do not include those indicated in the section “Due to retirement and disability insurance policies and contributions to pension plans and permanency awards” below.

c. Due to membership of the Boards of Directors of subsidiaries

The remuneration earned in 2010 by the members of the Board of Directors of Repsol YPF, S.A. in their capacity as directors of other Group companies, jointly controlled entities and associates amounted to EUR 0.536 million, according to the following details:

	Euros			
	YPF	Gas Natural	CLH	TOTAL
Antonio Brufau	78,981	265,650	-	344,631
Luis Suárez de Lezo	77,553	103,500	9,921	190,975

d. Due to third-party liability insurance premiums

The Board members are covered by the same third-party liability insurance policy as that covering all the directors and executives of the Repsol YPF Group.

e. Due to retirement and disability insurance policies and contributions to pension plans and permanency awards

The cost of retirement, disability and death insurance policies, and contributions to pension plan and the permanency awards, including the corresponding on account payments, if any, incurred by the Company in relation to Board members who discharged executive duties at the Group during 2010 totalled EUR 2.784 million, of which EUR 2.496 million corresponded to Antonio Brufau and EUR 0.288 million to Luis Suárez de Lezo.

f. Indemnity payments to members of the Board of Directors

No director received any indemnity payment from Repsol YPF in 2010.

g. Transactions with Directors

Apart from the remuneration earned, the dividends corresponding to the shares they hold and, in the case of institutional outside directors, the transactions with significant shareholders, the directors of Repsol YPF did not perform any relevant transaction other than in the normal course of business or other than on an arm's-length basis with the Company or with Group companies.

h. Related with Company's profit

Remuneration received by Executive Board Members, as detailed under sections a, b and c of this note, amounted to EUR 6.780 million, 0.14% of period's profit.

4. Note on section B.1.12.

For the purposes of this Annual Report on Corporate Governance, Repsol YPF considers “senior management” to members of the Executive Committee of Repsol YPF Group, the other executives who report directly to the Executive Chairman and the Director of Audit and Control.

This description, for informational purposes only, does not replace or is configured as interpreting element of other “senior management” concepts establish in the rules applicable to the Company (as Royal Decree 1382/1985), and has not the effect of creating, recognition, modification or termination of rights or legal or contractual obligations.

The information about senior management supplied in paragraph B.1.12 does not include the managerial staff with condition of executive director.

The amount of EUR 12.551 million corresponds to the total remuneration of senior management includes the remuneration of senior management mentioned in paragraph B.1.12 .

The total remuneration indicated is not that accrued, but the sum actually received.

This amount does not include the cost of contributions to pension plans, life insurance, contingent plans and award for permanency, which totalled EUR 2.048 million, and the amounts paid to senior management as indemnities on termination contract and not competition agreements that amounts EUR 7.592 million.

5. Note on section C.2.

In the case of Sacyr Vallehermoso, S.A. and Petróleos Mexicanos commitments acquired correspond to volume of purchases commitments in force at 31 Decemenber, 2010 net of volume of sales commitments.

Additionally to the related party transactions mentioned above, at 31 December 2010 the Group has another transactions with “la Caixa” Group, totalled EUR 3,044 million, which include short term investments in a sum of EUR 739 million, exchange rate hedging tools in a sum of EUR 1,183 million and interest rate hedging tools in a sum of 711 million.

6. Good Tax Practice Code

Repsol YPF is adhered to the Good Tax Practice Code, sponsored by the Large Business Forum and the State Tax Agency, and complies with the provisions contained therein.

Binding definition of Independent Director:

Indicate whether any of the independent directors have or have had any relationship with the company, its significant shareholders or its executives, which, if sufficiently significant or important, would have meant that the director could no longer be considered independent, pursuant to the definition set out in section 5 of the Unified Good Governance Code:

NO

This annual report on corporate governance was approved by the Board of Directors of the Company on 23 February 2011.

Indicate whether any Directors have voted against or abstained in connection with the approval of this Report.

NO

Name of the director that did not vote in favor of the approval of this report	Reasons (opposed, abstained, absent)	Explain the reasons

Results of oil and gas production activities (2)	969	(1)	481	193	(21)	128	211	(22)

(1) Production costs include local taxes, production taxes and other similar payments, as well as withholdings on exports of crude oil from Argentina amounting, €1,477, €995 and €1,191 million in 2008, 2009 and 2010 respectively. It also includes transport and other costs in 2008, 2009 and 2010 totalling €223, €189 and €426 million, respectively.

(2) The results do not show the income and expenses associated with the impairment provisions accounted as a result of the comparison between market value (discounted cash flows) from proved and non-proved reserves (the latter of which are subject to a risk factor) of oil and gas from each field owned by the Company at year-end and the carrying amount of the assets associated therewith, which represented a net income of €51 and €134 million in 2008 and 2009 respectively and a net expense of €163 million in 2010.

(3) The results do not include gains recognised as consequence of the agreement reached in relation the exploration and production assets in Brazil which amounted to €2,847 million (See note 31 to the consolidated Financial Statements for the year ended December 31, 2010).

Estimated proved net developed and undeveloped oil and gas reserves

The tables below reflect the net developed and undeveloped proved reserves of crude oil, condensed oil and LPG and natural gas as of December 31, 2008, 2009 and 2010, and the variations therein. Proved reserves shown includes the reserves equivalent to the economic income obtained under certain production sharing contracts entered into as of December 31, 2008, 2009 and 2010.

In determining net reserves, we exclude from our reported reserves royalties due to others, whether payable in cash or in kind, where the royalty owner has a direct interest in the underlying production and is able to make lifting and sales arrangements independently. By contrast, to the extent that royalty payments required to be made to a third party, whether payable in cash or in kind, are a financial obligation, or are substantially equivalent to a production or severance tax, the related reserves are not excluded from our reported reserves despite the fact that such payments are referred to as “royalties” under local rules. We follow the same methodology in reporting our production amounts.

Proved reserves in each year were estimated in accordance with the rules and regulations established for the petroleum and gas industry by the U.S. Securities and Exchange Commission (SEC) and the accounting principles laid down by the “Financial Accounting Standards Board”. In accordance with these rules, proved oil and gas reserves are those quantities of oil and gas, which, by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible – from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulations – prior to the time at which contracts providing the right to operate expire, regardless of whether deterministic or probabilistic methods are used for the estimation. The project to extract the hydrocarbons must have commenced or the operator must be reasonable certain that it will commence the project within a reasonable time.

All of Repsol YPF’s oil and gas reserves have been estimated by the company’s petroleum engineers.

To control the quality of reserves booked, Repsol YPF has established a process that is integrated into Repsol YPF’s internal control system. The process to manage reserves booking is centrally controlled by the Reserve Control Direction which is independent from the upstream activities and it is overseen by the Audit and Control Committee. Furthermore, the volumes booked are submitted to third party engineers for a reserves audit on a periodic basis (100% of the reserves on a three years cycle).

For those areas submitted to third party audit, Repsol YPF’s proved reserves figures have to be within 7% of the third party reserves audit figures for Repsol YPF to declare that the reserves information meets the third party reserves audit standards. In the event that the difference is greater than 7% tolerance, Repsol YPF reestimates its proved reserves to achieve this tolerance level or discloses the third party reserves audit figures.

In 2010, Gaffney, Cline & Associates Inc., (CGA) audited certain areas in USA Gulf of Mexico and South America; DeGolyer and MacNaughton (D&M) audited certain areas in Argentina; Netherland, Sewell & Associates, Inc., (NSAI) audited certain areas in South America, and Ryder Scott Company (RSC) audited certain areas in South America. The third party engineers’ reports are available at www.repsol.com

At December 31, 2010	648,726	2,300	404,204	27,769	116,272	20,652	77,530

Note: The aggregated changes in reserves and total reserves at December 31, may differ from the individual values shown because the calculations use more precise figures than those shown in the table.

(1) Total proved developed and undeveloped net reserves at December 31, 2010, 2009, 2008, and 2007 include an estimated approximately 98,810, 94,016, 94,432 and 94,753 thousands of barrels of oil equivalent, respectively, in respect of royalty payments which, as described above, are a financial obligation, or are substantially equivalent to a production or similar tax. Net production in 2010, 2009 and 2008 includes an estimated approximately 16,420, 16,398 and 16,995 thousands of barrels of oil equivalent, respectively, in respect of such types of payments.

(2) Includes 107,421, 86,091 and 92,871 thousands of barrels of oil equivalent relating to the participation in the minority interest of YPF, as of December 31, 2010, 2009 and 2008, respectively.

Note: The aggregated changes in reserves and total reserves at December 31, may differ from the individual values shown because the calculations use more precise figures than those shown in the table.

(1) Total proved developed and undeveloped net reserves at December 31, 2010, 2009, 2008 and 2007 include an estimated approximately 269,624, 238,630, 219,039 and 225,103 thousands of barrels of oil equivalent, respectively, in respect of royalty payments which, as described above, are a financial obligation, or are substantially equivalent to a production or similar tax. Net production in 2010, 2009 and 2008 includes an estimated approximately 29,457, 30,609 and 32,160 thousands of barrels of oil equivalent, respectively, in respect of such types of payments.

(2) Includes 200,204, 163,439 and 182,319 thousands of barrels of oil equivalent relating to the participation in the minority interest of YPF, as of December 31, 2010, 2009 and 2008, respectively.

Standardized measure of discounted future net cash flows and changes therein relating to proved oil and gas reserves

The estimate of future net cash flows was performed in accordance with the rules and regulations established for the oil and gas industry by the U.S. Securities and Exchange Commission and the accounting principles laid down by the Financial Accounting Standards Board of the U.S. which govern stock market information practices in the U.S.A. The method applied is the impartiality or fairness method and is the result of applying the average oil and gas prices in 2010 (considering price changes only by contractual agreement) to estimated future production of proved reserves of oil and gas as of the date of the last balance sheet filed, less the estimated future costs (based on current costs) to be incurred in the development and production of proved reserves, assuming the continuation of current economic conditions.

Future production costs were estimated on the basis of actual costs borne in 2008, 2009 and 2010. Future development costs were calculated on the basis of technical studies conducted by Repsol YPF and by the operators holding joint title with Repsol YPF. The taxes projected for each of the future years were determined by applying the applicable nominal tax rate, reduced by the tax benefits available to the Company in each of the years. The rate used to discount the future net revenues was 10%.

The present value of the future net cash flows estimated on the basis of the aforementioned assumptions, applying the principle of impartiality, is not intended to be interpreted, and should not be interpreted, as the fair value of the Group's oil and gas reserves. An estimation of the fair value of these reserves should also include the future exploitation of reserves not yet classified as proved reserves, possible changes in future prices and costs and a discount rate which represents the time value of money at the calculation date and the uncertainties inherent to estimating the reserves.

The following table shows the present value of the future net revenues relating to proved oil and gas reserves, calculated on the basis of the aforementioned assumptions:

	Total	Europe	Argentina	Trinidad & Tobago	Rest of South America	North America	Africa
At December 31, 2008							
Million of euros							
Future cash inflows	39,382	2,921	18,902	5,856	5,314	1,498	4,891
Future production costs	(15,920)	(652)	(8,516)	(2,683)	(2,672)	(366)	(1,031)

Repsol YPF, S.A. Call For Ordinary General Shareholders' Meeting

By resolution of the Board of Directors of Repsol YPF, S.A., shareholders are called to the Ordinary General Shareholders' Meeting which will be held at the **Palacio Municipal de Congresos, Avenida de la Capital de España-Madrid, Campo de las Naciones, Madrid**, on 14th April 2011 at 12:00 noon on first call, and at the same time and place on 15th April 2011 on the second call, with respect to the following:

Agenda

Points regarding the Annual Accounts, the management by the board and the reelection of the accounts auditor

First. Review and approval, if appropriate, of the Annual Financial Statements and the Management Report of Repsol YPF, S.A., of the Consolidated Annual Financial Statements and the Consolidated Management Report, for the fiscal year ended 31st December 2010, of the proposal of application of its earnings.

Second. Revision and approval, if appropriate, of the management of the Board of Directors of Repsol YPF, S.A. corresponding to the fiscal year 2010.

Third. Appointment of the Accounts Auditor of Repsol YPF, S.A. and of its Consolidated Group for the fiscal year 2011.

Points regarding the amendments of the Articles of association and of the regulations of the General Shareholders Meeting

Forth. Modification of articles 9, 11, 19, 24, 27, 29, 44, 50 and 56 of the Bylaws; and of the articles 3, 5, 8, 13, 14 and 15 of the Regulations of the General Shareholders' Meeting.

Fifth. Modification of article 52 of the Bylaws, regarding the application of profit/loss of the fiscal year.

Sixth. Modification of articles 40 and 35 of the Bylaws, regarding the internal positions and meetings of the Board of Directors.

Points regarding the composition of the Board of Directors

Seventh. Re-election of Mr. Antonio Brufau Niubo as Director.

Eighth. Re-election of Mr. Luis Fernando del Rivero Asensio as Director.

Ninth. Re-election of Mr. Juan Abelló Gallo as Director.

Tenth. Re-election of Mr. Luis Carlos Croissier Batista as Director.

Eleventh. Re-election of Mr. Ángel Durández Adeva as Director.

Twelfth. Re-election of Mr. José Manuel Loureda Mantiñan as Director.

Thirteenth. Appointment of Mr. Mario Fernández Pelaz as Director.

Points regarding the programs of participation in the share capital of the company

Fourteenth. Delivery Plan Shares to the Beneficiaries of Multi-Annual Programs.

Fifteenth. Stock Acquisition Plan 2011-2012.

Point regarding the autorisation and express delegation required for the Board of Directors

Sixteenth. Delegation to the Board of Directors of the power to issue fixed rate, convertible and/or exchangeable securities for company shares or exchangeable for shares in other companies, as well as warrants (options) to subscribe new shares or to acquire shares in circulation of the company or other companies). Fixing the criteria to determine the bases and modes of conversion

and/or exchange and attribution to the Board of Directors of the powers to increase capital by the amount necessary, as well as to totally or partially exclude the pre-emptive subscription rights of the shareholders of said issues. Authorisation for the company to guarantee securities issued by its subsidiaries. To leave without effect, in the portion not used, the seventh resolution of the General Shareholders' Meeting held on 16 June 2006.

Point regarding general matters

Seventeenth. Delegation of powers to supplement, develop, execute, rectify and formalize the resolutions adopted by the General Shareholders' Meeting.

After the exposure of the matters included in the Agenda it will be reported to the General Shareholder's Meeting the amendments of the Regulations of the Board of Directors, according with article 516 of the Stock Companies Act.

Complement to the call

Shareholders representing at least five per cent of the capital may request the publication of a supplemental notice of call to the general meeting, including one or several items on the agenda. This request shall be sent through any certifying means, evidencing that they hold the required stake, to be received at the registered office within five days after publication of the original notice of call.

Rights of attendance

Shareholders whose shares have been registered in the appropriate stock ledger five days prior to the date set for the Shareholders' Meeting and who have the corresponding attendance card may attend.

The attendance cards shall be issued by the proper entity participating in the systems managed by *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.* (hereinafter IBERCLEAR) in each particular case. Said attendance cards may be exchanged on the date of the Shareholders' Meeting for other standardized documents of record attendance, issued by the Company with the purpose of facilitating the drawing up of the attendance list, the exercise of the shareholders' voting and other rights.

The registration of attendance cards shall begin two hours before the scheduled time of the General Shareholders' Meeting.

For purposes of verifying the identity of shareholders or those who validly represent them, attendees may be asked, at the place of the General Shareholders Meeting, for evidence of their identity by means of the presentation of a National Identity Document or any other official document generally accepted for these purposes.

Representation

Any shareholder entitled to attend may be represented by a proxy, who needs not to be a shareholder.

If the name of the proxy is left blank on the proxy form received by the Company, it will be presumed granted in favour of the Chairman of the Board.

The voting instructions will be set out in proxy forms. If no express instructions are issued, the proxy will vote for the proposals submitted by the Board.

Save otherwise indicated by the represented shareholder, the proxy will be deemed extended to any business which, although not included on the agenda, may be put to the vote at the General Shareholders Meeting. In this case, the proxy will vote however he may consider most favourable for the interests of the represented shareholder.

Save otherwise expressly indicated by the represented shareholder, in cases where the proxy incurs a conflict of interests for voting on any item, included or not in the Agenda, put to the General Shareholders Meeting, the proxy will be considered granted to the Vice-Secretary to the Board of Directors.

Shareholders who grant a proxy must notify the person designated as representative of the proxy granted thereto. When this is granted to a member of the Board of Directors, the notification shall be deemed to be effected upon receipt by the Company of the documentation setting forth such proxy.

Right of information

In addition to the provisions of Articles 197 and 527 of the Stock Companies Act, as of the date of publication of this notice, the following documents are at shareholders disposal on the Shareholder Information Office, from 10:00 to 18:00, working days, and on the Company's website at www.repsol.com: the Annual Financial Statements of Repsol YPF, S.A. and the Consolidated Annual Financial Statements of Repsol YPF Group, for the fiscal year ending on 31st December 2010; the Management Report of Repsol YPF, S.A. and the Consolidated Management Report for said year; the Report referred to Section 116.bis of the Securities Market Act; the Report of the Auditors on the Annual Financial Statements of Repsol YPF, S.A., and on the Consolidated Annual Financial Statements of Repsol YPF Group; the literal text of the proposals of resolutions already formulated corresponding to the points of the Agenda; the reports of the Board of Directors on each proposal of resolutions corresponding to the points of the Agenda; the Report on the remuneration policy for Directors; the Annual Report on Corporate Governance; and the Activity Report of the Audit and Control Committee.

Shareholders may request the delivery or the sending free of charge of all the mentioned documents.

Distance voting and proxies prior to the general meeting

1. Voting by distance communication prior to the General Shareholders Meeting

Pursuant to Article 23 of the Articles of Association and Article 7 of the Regulations of the General Shareholders Meeting, shareholders entitled to attend may vote through distance communication on the proposals regarding the items on the Agenda prior to the date of the General Shareholders Meeting, provided the identity of the voting shareholder is duly guaranteed.

1.1 Means for distance voting

The means of communication valid for distance voting are as follows:

I. Postal vote

To vote by post on the items on the Agenda, shareholders must complete and sign the "Distance Voting" section of the attendance, proxy and voting card issued by the IBERCLEAR participating entity with which they have deposited their shares.

Once the appropriate section of the card has been completed and signed - with hand-written signature-, the shareholder must send it to the Company to the attention of the Shareholder Information Office at Paseo de la Castellana nº 278, 28046 Madrid.

If the attendance card does not include the section "Distance Voting", the shareholder may use the **Distance Voting Form** provided on the company's web site (www.repsol.com) and also available at the Shareholders Information Office. This form, duly signed, must be sent to the Company together with the corresponding attendance card, also signed- both with hand-written signature-.

II. Electronic vote

Shareholders may vote on the items on the Agenda for the General Meeting through the company's web site (www.repsol.com), entering the AGM 2011 page and following the procedure established there, provided the shareholder has a recognised or advanced electronic signature, based on a recognised and valid electronic certificate issued by the Entidad Pública de Certificación Española (CERES), of the Fábrica Nacional de Moneda y Timbre, and uses it to identify himself.

1.2 Specific rules for distance voting

I. Voting indications

If the shareholder sending a distance vote fails to mark any of the boxes provided for any of the items on the Agenda, he will be presumed to vote for the Board's proposal.

II. Receipt by company

In order to be valid, postal or electronic votes must be received by the company no later than 09:00 on April 13th, 2011. After this time, the Company will only accept the votes cast at the General Shareholders Meeting.

2. Distance proxies

Pursuant to Article 24 of the Articles of Association and Article 8 of the Regulations of the General Shareholders Meeting, shareholders entitled to attend may grant a proxy by distance communication on the proposals regarding the items on the Agenda and prior to the date of the General Shareholders Meeting, provided the identity of the persons concerned is duly guaranteed.

2.1 Means for granting distance proxies

The means of communication valid for distance proxies are as follows:

I. Postal proxy

To grant proxies by post, shareholders must complete the corresponding section of the attendance, proxy and voting card issued by the IBERCLEAR participating entity with which they have deposited their shares.

This section must be signed - with hand-written signature-by the shareholder and sent to the Company to the attention of the Shareholder Information Office, Paseo de la Castellana nº 278, 28046 Madrid.

II. Electronic proxy

Shareholders may grant proxies through the company's web site (www.repsol.com), entering the page of the AGM 2011 and following the procedure established there, provided the shareholder has a recognised or advanced electronic signature, based on a recognised, valid electronic certificate issued by *Entidad Pública de Certificación Española* (CERES), of the *Fábrica Nacional de Moneda y Timbre*, and uses it to identify himself.

2.2 Specific rules for distance proxies

Distance proxies will also be subject to the general rules applicable to representation, related to (i) blank proxies received by the Company; (ii) absence of voting instructions (iii) extension of proxy to any business not included on the agenda that may be put to the vote at the General Shareholders Meeting; as well as voting instructions regarding points not included in the Agenda; (iv) designation of a representative's substitute when the representative is in a conflict of interests in relation with the vote of any business, included or not in the Agenda, that may be put to the vote of the General Shareholders Meeting; and (v) the necessary notification to the representative of the proxy granted.

In order to be valid, distance proxies must be received by the Company no later than 09:00 on April 13th, 2011. After this time, the company will only accept the proxies made in writing through the attendance, proxy and voting cards presented for registration of shareholders on entry at the place and date scheduled for the General Shareholders Meeting.

At the place and date of the General Shareholders Meeting, the proxies must prove their identity by showing their identity cards or any other official document generally accepted for these purposes, together with a print-out of the electronic proof of proxy, if necessary, so that the company can confirm the proxy granted.

3. Rules common to distance voting and distance proxies

I. Confirmation of distance vote or distance proxy

The validity of votes cast and proxies granted through distance communication is subject to checking of the particulars supplied by the shareholder against those contained in the file supplied by IBERCLEAR. In the event of any discrepancy between the number of shares indicated by the shareholder in the proxy form or distance voting form and those

indicated in the aforesaid file, the number of shares indicated by IBERCLEAR will prevail for the purposes of quorum and voting.

II. Rules of priority

Personal attendance of the General Shareholders Meeting by a shareholder who has previously granted a proxy or voted through distance communication, by whatsoever means used, will render that distance proxy or vote void.

If a shareholder validly issues both a distance vote and a proxy, the former will prevail. Similarly, electronic votes and proxies will prevail over those sent by post.

Electronic votes and proxies may be rendered void through express revocation by the shareholder through the same means.

III. Other provisions

The Company reserves the right to modify, suspend, cancel or restrict the electronic voting and proxy mechanisms for technical or security reasons. The Company further reserves the right to request additional identification from shareholders as and when it may so deem fit to guarantee the identity of those concerned, the authenticity of the vote or proxy and, in general, the legal certainty of the General Shareholders Meeting.

The Company will not be responsible for any damages caused to shareholders through unavailability or failure in the maintenance and effective functioning of its web site and the services and contents provided through such site, or for any faults, overrun, overload, fallen lines, connection faults or whatsoever other similar incidents beyond the Company's control, which prevent use of the electronic voting and proxy mechanisms.

The electronic mechanisms for distance voting and proxy will be operative as of March 7th 2011 and up to April 13th 2011 at 09:00.

In any aspects not expressly contemplated in these procedures, the General Conditions set out in the Legal Notice on the Company's web site will be applicable.

Presence of notary

The Board of Directors has requested the presence of a Notary to take the Minutes of the General Shareholders' Meeting.

Electronic shareholders forum

According with a article 528, 2 of the Stock Companies Act, Repsol YPF, S.A. has enable, with the occasion of the General Shareholders' Meeting, an Electronic Shareholders Forum in the web site of the Company (www.repsol.com), which will be accessible due to both individual shareholders and voluntary associations that could be established in accordance with current regulations, in order to facilitate communication prior to the General Shareholders' Meeting.

In the Forum may be published proposals claiming to be a complement to the agenda posted on the announcement, applications to support such proposals, initiatives to achieve the percentage sufficient to execute a right for minorities under the law, as well as offers or requests for voluntary representation.

The Forum does not constitute a communication channel between the Company and its shareholders and is enabled only for the purpose of facilitating communication between the shareholders of Repsol YPF, SA during the General Shareholders' Meeting.

To access the Forum, the shareholders must be obtained through the website (www.repsol.com) a specific password for it by following the instructions and conditions of use of the Forum, that are located in the space dedicated to the General Shareholders' Meeting 2011. Accreditation for the key may be, in general, either through the electronic ID card or through a recognized or advanced electronic signature, based on a recognized and valid electronic certificate issued by *Entidad Pública de Certificación Española* (CERES), of the *Fábrica Nacional de Moneda y Timbre*.

General information

All personal data submitted by the shareholders for the exercise or delegation of their rights of attendance and vote at the General Shareholders Meeting shall be used by the Company for the development, management and control of the shareholding relation, and therefore for inform them about the Company's business and activities.

Save otherwise indicated by the shareholders (using the free telephone number 900 100 100) between the date of the meeting and the following thirty days, the abovementioned data may also be used by the Company to send their shareholders information about the oil&gas sector. Once those thirty days have elapsed – without opposition – the consent for such use shall be considered granted by the shareholder.

The rights of access, rectification, deletion and opposition may be exercised in the terms prescribed by Law by written communication sent to the registered office of the Company, at Paseo de la Castellana 278, 28046 Madrid.

Forecast of holding the shareholders' meeting

It is expected to hold the General Shareholders' Meeting on SECOND CALL, that is, on April 15th 2011, at the place and time indicated above. Otherwise, an announcement shall be made in the daily press with sufficient advance notice, as well as in the company's web site.

Madrid, February 23rd, 2010

Luis Suárez de Lezo Mantilla

The Director Secretary of the Board of Directors

Ordinary Shareholders' Meeting 2011 Resolution proposals

Resolution proposal related to the first point of the Agenda (“Revision and approval, if appropriate, of the Annual Financial Statements and Management Report of Repsol YPF, S.A., of the Consolidated Annual Financial Statements and the Consolidated Management Report, corresponding to the fiscal year ended 31st December 2010, and of the proposal of application of its earnings”).

First. To approve the Annual Financial Statements (Balance Sheet, Profit and Loss Account, Statement of Changes on Equity, Cash Flow Statement and Notes to the Accounts) and the Management Report of Repsol YPF, S.A. corresponding to the fiscal year ending on the 31st of December 2010, as well as the Consolidated Financial Statements and the Consolidated Management Report corresponding to the same fiscal year.

Second. The amount of €1,281,906,636.16 will be assigned to the payment of dividends. Of this amount, €640,953,318.08 has already been paid as interim dividends prior to this General Meeting, while the remaining €640,953,318.08 will be assigned to the payment of a complementary dividend for the year 2010, to the amount of €0.525 per share, which will be paid to the shareholders as from the 7th of July 2011.

The amount of €394,818,429.83 will be allocated to the provisions for the Company's voluntary reserves.

Resolution proposal related to the second point of the Agenda (“Revision and approval, if appropriate, of the management of the Board of Directors of Repsol YPF, S.A. corresponding to the fiscal year 2010.”)

To approve the management of the Board of Directors of Repsol YPF, S.A. corresponding to the fiscal year 2010.

Resolution proposal related to the third point of the Agenda (“Appointment of the Accounts Auditor of Repsol YPF, S.A. and its Consolidated Group for the fiscal year 2011”)

To re-elect as Accounts Auditor of Repsol YPF, S.A. and of its Consolidated Group, for the fiscal year 2011, the company Deloitte, S.L., with registered office in Madrid, Plaza Pablo Ruiz Picasso, number 1 (Torre Picasso) and Tax ID number B-79104469, registered in the Official Registry of Auditors of Spain with number S-0692, and registered in the Mercantile Registry of Madrid, in volume 13.650, sheet 188, section 8, page M-54414. They are equally entrusted with carrying out other auditing services required by Law that may be specified by the Company until the next General Shareholders' Meeting.

Resolution proposal related to the fourth point of the Agenda (“Modification of articles 9, 11, 19, 24, 27, 29, 32, 39, 44, 50 and 56 of the Bylaws; and of articles 3, 5, 8, 13, 14 and 15 of the Regulations of the Shareholders' Meeting.”).

First. Modification of the title and the third and fourth paragraphs of article 9 of the Bylaws (Calls on capital and defaulting shareholders).

The title and third and fourth paragraphs of article 9 of the Bylaws are modified, without variation in the rest of the paragraphs of said precept, said title and third and fourth paragraphs will be drafted as follows:

“Article 9.- Pending payments and defaulting shareholders

[...]

“Shareholders in arrears with the payment of pending payments may not exercise their voting rights. The amount of such shares will be deducted from the capital when calculating the quorum for general meetings.

“Defaulting shareholders may not receive dividends or exercise their pre-emption right in the subscription of new shares or convertible debentures. Once the overdue calls on pending payments have been paid, together with any interest accrued thereon, the shareholder may claim payment of any dividends that have not lapsed, but may not claim any pre-emption subscription right if the time for exercising that right has expired. “

[...]

Second. Modification of article 11 of the Bylaws (Joint ownership and real rights over shares).

Article 11 of the Bylaws is modified, hereinafter it will be drafted as follows:

“Article 11. Joint ownership and real rights over the shares

Joint ownership, usufruct, pledging and attachment of shares in the company will be subject to the provisions of the Stock Companies Act and other applicable provisions. “

Third. Modification of Article 19 of the Bylaws (Calls to shareholders' meetings).

Article 19 of the Bylaws has been modified, it will be drafted as follows:

“Ordinary and extraordinary shareholders' meetings will be called by the board in a notice published in the Official Gazette of the Mercantile Registry and the company website (www.repsol.com) at least one month prior to the date of the meeting, other than if longer notice is required by law, in which case the legal provisions will be heeded. The notice of call published on the company website will be kept accessible on the same at least until the date of the meeting. The notice of call will contain the legally required information and, in any case, will express the name of the company, the date and time of the meeting on first call and the agenda of business to be transacted. It may also mention the date and time on which the shareholders' meeting is to be held on second call, if necessary. Additionally, the board of directors may publish notices in other media, if considered appropriate, to give greater publicity to the notice of call.

The General Meeting will be held in the place indicated in the notice of call, within the municipality in which the Company has its registered office. However, the Meeting may be held in any other place in the country if established by the board of directors in the notice of call.

There will be at least twenty-four hours between the first and second meetings.

If the shareholders' meeting, duly called, is not held on first call and no date has been specified in the notice of call for the second, this will be announced subject to the same requisites of publicising as the meeting on first call, within fifteen days after the inquorate meeting and at least eight days prior to the date of the second meeting.

Shareholders representing at least five per cent (5%) of the capital may request the publication of a supplementary notice of call to add one or several items to the agenda. This right will be exercised by sending attested notice, showing that the aforesaid percentage of the capital is held, to be received at the registered office within five days after publication of the original notice of call. The supplementary notice will be published in the Official Gazette of the Mercantile Registry and the company website at least fifteen days prior to the date scheduled for the meeting.”

Fourth. Modification of the second paragraph of Article 24 of the Bylaws (Proxies).

The second paragraph of article 24 of the Bylaws is modified, without variation in the rest of the paragraphs of the precept indicated, said second paragraph of will be drafted as follows:

“Proxies will be made in writing or by any form of distance communication, provided the identity of the parties is duly guaranteed. Proxies will be granted specially for each Shareholders' Meeting, other than those stated in article 187 of the Stock Companies Act. The legal procedures established and the Regulations of the Shareholders' Meeting will be followed in all cases.”

Fifth. Modification of the second paragraph of article 27 of the Bylaws (Discussion and adoption of resolutions).

The second paragraph of article 27 of the Bylaws is modified, without variation in the rest of the paragraphs of the precept indicated, that will be drafted as follows:

“Following the report by the chairman of the board and any persons he may have authorised to speak, the chairman will give the floor to any shareholders who so request, directing the debate and confining it to the agenda, apart from that which is provided in articles 223.1 and 238 of the Stock Companies Act. The chairman will close the debate when he considers the subject sufficiently discussed, and will then put the proposed resolutions to the vote.”

Sixth. Modification of the third paragraph of Article 29 of the Bylaws (Minutes).

The third paragraph of article 29 of the Bylaws is modified, without variation in the rest of the paragraphs of the precept indicated, said third paragraph will be drafted as follows:

“Whenever a general meeting has been held in the presence of a notary required by the board to issue a certificate, the notarial minute will have the consideration of minutes of the shareholders' meeting and will not require approval. “

Seventh. Modification of the last paragraph of article 32 of the Bylaws (Qualitative composition of the board).

The last paragraph of article 32 of the Bylaws is modified, without variation in the rest of the paragraphs of the precept indicated, said last paragraph will be drafted as follows:

“Notwithstanding the sovereignty of the general meeting and efficiency of the proportional system, which is compulsory in any cases of share-pooling contemplated in the Stock Companies Act, the shareholders' meeting, and the board when proposing appointments to the shareholders' meeting and exercising its powers of cooptation to fill vacancies, will ensure that the number of non-executive board members considerably outweighs the number of executive directors.

Eighth. Modification of article 39 of the Bylaws (Audit and Control Committee).

Article 39 of the Bylaws is modified, hereinafter it will be drafted as follows:

“The company will have an Audit and Control Committee, consisting of at least three directors appointed by the board, who will have sufficient capacity, experience and dedication to perform the corresponding duties. All the members of this committee will be outside or non-executive directors. At least one of its members will be an external, independent member and will be appointed taking into consideration their knowledge and experience in matters of accounting, auditing or both. One of such members will be appointed chairman of the committee, who will be replaced every four years, becoming eligible for re-election one year after retirement from the position.

The committee will support the board in its supervisory duties, regularly checking the economic and financial reporting process, the internal controls and independence of the external auditor.

The committee will have the following duties, among others:

- 1. Report to the shareholders' meeting on any issues raised by shareholders within its area of competence.*
- 2. Supervise the efficiency of the internal control of the company, internal auditing and the risk management systems, as well as debating with external auditors the significant weaknesses of internal control detected during the audit.*
- 3. Supervise the process of drafting and presenting the regulated financial information.*
- 4. Submit proposal to the board, to be put to the shareholders' meeting, for the appointment of external auditors pursuant to article 264 of the Stock Companies Act.*
- 5. Establish the appropriate liaisons with external auditors to receive information on any issues that may jeopardise their independence and any others related with the auditing of accounts, and any other communications contemplated in account auditing legislation and technical auditing regulations. In any case, they must receive annually from the external auditors written confirmation of their independence towards the company or entities related to the same directly or indirectly, as well as the information of the additional services of any type provided to these entities by said auditors or companies, or by the people or entities linked to the latter, in accordance with that established in the regulations governing the activity of auditors.*
- 6. To issue annually, before the Auditing report, a report which expresses an opinion on the independence of the auditors. In any case, this report must make a declaration on the additional services provided referred to in the previous section.*

7. Any other general or specific reporting and proposals entrusted to it by the board.

The Audit and Control Committee will meet regularly, with the frequency established, and whenever called by the chairman or requested by two of its members. Any member of the company management or employees so required will be obliged to attend committee meetings, collaborating and giving access to any information they may have. The committee will have such means as may be necessary to perform its duties with the required independence. All decisions or recommendations of the committee will be made by majority vote.

The board will develop the powers and rules of procedure of the Audit and Control Committee.”

Ninth. Modification of the first paragraph of article 44 of the Bylaws (General obligations of the directors).

The first paragraph of article 44 of the Bylaws is modified, without any variation in the rest of the paragraphs of the precept indicated, said first paragraph will be drafted as follows:

“Directors will perform the duties imposed by law and these Bylaws and those indicated in the internal regulations of the company. In particular, they will perform their duties with the diligence of a competent entrepreneur and loyal representative, in accordance with the interest of the company, complying with their duty of diligence, loyalty and secrecy marked by law.”

Tenth. Modification of the last paragraph of Article 50 of the Bylaws (Audits).

The last paragraph of article 50 of the Bylaws is modified, without variation in the rest of the paragraphs of the precept indicated, said last paragraph will be drafted as follows:

“Whenever there is just cause to do so, the company directors and persons authorised to request the appointment of an auditor may apply to the Mercantile Court corresponding to the registered office of the company to revoke the appointment made by the shareholders' meeting or mercantile registrar and appoint another.”

Eleventh. Modification of article 56 of the Bylaws (Liquidation of the Company).

Article 56 of the Bylaws is modified, hereinafter it will be drafted as follows:

“Once the company has been wound up, a period of liquidation will commence, apart from in cases of a merger or split up or whatsoever other global transfer of assets and liabilities.

Once the company has been declared to be in liquidation, the representation of the board of directors will cease, in the terms established in the Stock Companies Act, and at the same shareholders' meeting at which the resolution is adopted to wind up the company an uneven number of persons shall be appointed to make the liquidation, establishing the rules for liquidation in accordance with prevailing legal provisions. Should three or more liquidators be appointed, they must exercise their powers of representation collegially as a Liquidation Committee.

Twelfth. Modification of section six of article 3 of the Regulations of the Shareholders' Meeting (Powers of the General Meeting).

Section six of article 3 of the Regulations of the Shareholders' Meeting is modified, without variation in the rest of the sections of the precept indicated, said sixth section will be drafted as follows:

“3.6 Authorisation of the board to increase capital, in pursuance of article 297. 1.b of the Stock Companies Act.”

Thirteenth. Modification of the first and third sections of article 5 of the Regulations of the Shareholders' Meeting (Notice of Call).

The first and third sections article 5 of the Regulations of the Shareholders' Meeting are modified, without variation in the rest of the sections of the precept indicated, said first and third paragraphs will be drafted as follows:

“5.1 Ordinary and extraordinary shareholders' meetings will be called by the board in a notice published in the Official Gazette of the Mercantile Registry and the company website (www.repsol.com) at least one month prior to the date of the meeting, other than when longer notice is required by law, in which case the legal provisions will be heeded. The notice of call published on the company website will be maintained accessible on the same at least

until the date of the meeting. The board of directors may publish notices in other media, is considered appropriate, to give greater publicity to the notice of call.

The General Meeting will be held in the place indicated in the notice of call, within the municipality in which the Company has its registered office. However, the Meeting may be held in any other place in the country if established by the board of directors in the notice of call.

The notice will indicate the name of the Company, the date and time of the meeting on first call and all business to be dispatched shall be included in the agenda. The date and time will also be stated on which, if necessary, the shareholders' meeting is to be held on second call. There shall be at least twenty-four hours between the meetings on first and second call. The notice will also include indication of the place and times at which shareholders may consult the documents to be laid before the general meeting and such other reports as may be required by law or decided by the board, without prejudice to the right of shareholders to request and receive, free of charge, copies of all the above-mentioned documents.

If the shareholders' meeting, duly called, is not held on first call and no date has been specified in the notice of call for the second, this will be announced subject to the same requisites of publicising as the meeting on first call, within fifteen days after the inquorate meeting and at least eight days prior to the date of the second meeting.

The notice of call will be sent to the Spanish Securities Market Commission and a copy of the same will be sent to the stock exchanges on which the shares are listed and the entities at which the shares are deposited, so that they can issue the attendance cards.”

“5.3 Shareholders representing at least five per cent (5%) of the capital may request the publication of a supplementary notice of call to add one or several items to the agenda. This right will be exercised by sending attested notice, showing that the aforesaid percentage of the capital is held, to be received at the registered office within five days after publication of the original notice of call. The supplementary notice will be published in the Official Gazette of the Mercantile Registry and the company website at least fifteen days prior to the date scheduled for the meeting.”

Fourteenth. Modification of the first and second paragraphs of article 8 of the Regulations of the Shareholders' Meeting (Proxies).

Section one of article 8 of the Regulations of the Shareholders' Meeting is modified, without variation in the rest of the sections of the precept indicated, said first section will be drafted as follows:

“Any shareholder entitled to attend a shareholders' meeting may be represented by a proxy, who need not be a shareholder.

Proxies will be made in writing or by any form of distance communication, provided that the identity of the parties is duly guaranteed and subject to whatever procedure may be established in law for this purpose. Proxies will be granted specially for each shareholders' meeting, other than those provided in article 187 of the Stock Companies Act.

The board will establish the most adequate procedure for each shareholders' meeting for granting proxies through distance communication means, in view of the legal provisions in force at the time and the current state of technology. This procedure will be described in detail in the notice of call.

The documents containing the proxies or voting for the general meeting will also indicate the voting instructions. If no express instructions are issued, the proxy will vote in favour of the proposed resolutions submitted by the board on the items on the agenda. When the name of the proxy is left blank in the document delivered to the company, the chairman of the board will be deemed appointed to represent the shareholder in question. The shareholder's proxy may appoint a substitute to exercise the voting right in any conflict of interest.

When the voting instructions issued make no mention of business which, although not included on the agenda, are discussed at the shareholders' meeting, being so permitted by law, the proxy will vote on such matters in whatever way he may consider most favourable to the interests of his principal. “

Fifteenth. Modification of section five of article 13 of the Regulations of the Shareholders' Meeting (Debate and Adoption of Resolutions).

Section five of article 13 of the Regulations of the Shareholders' Meeting is modified, without variation in the rest of the sections of the precept indicated, said fifth section will be drafted as follows:

13.5 The chairman will then inform the general meeting of the highlights of the year and the proposals submitted by the board. His report may be supplemented by any persons he may authorise. The chairman of the Audit and Control Committee will be available at the shareholders' meeting, on behalf of the committee, to answer any questions that the shareholders may raise on matters within the committee's competence. After his report, the chairman will grant the floor to those shareholders who have so requested, directing the debate and seeing that it keeps within the confines of the agenda, apart from that provided in articles 223.1 and 238 of the Stock Companies Act. The chairman will end the debate when, in his opinion, the matter has been sufficiently discussed. The secretary will then read out the different proposed resolutions, which will be put to the vote. The reading of the proposals may be abridged at the decision of the chairman, provided that shareholders representing the majority of subscribed voting capital present at the shareholders' meeting do not object. "

Sixteenth. Modification of section (iv) of article 14 of the Regulations of the Shareholders' Meeting (Voting on Proposed Resolutions).

Section (iv) of article 14 of the Regulations of the Shareholders' Meeting is modified, without variation in the rest of the sections of the precept indicated, said section (iv) will be drafted as follows:

(iv) The shares of shareholders who have participated in the shareholders' meeting by distance voting prior to the date thereof will not be considered present or represented at the shareholders' meeting in question for voting on resolutions concerning business not included on the agenda. Moreover, shares in respect of which voting rights cannot be exercised pursuant to article 514 of the Stock Companies Act will not be considered represented or present for voting on any of the resolutions contemplated therein.

Seventeenth. Modification of section two of article 15 of the Regulations of the Shareholders' Meeting (Minutes of the Shareholders' Meeting).

Section two of article 15 of the Regulations of the Shareholders' Meeting is modified, without variation in the rest of the sections of the precept indicated, said second section will be drafted as follows:

"15.2 If the general meeting has been attended by a notary required by the board to issue minutes, the notarial minutes will be considered to be the minutes of the shareholders' meeting and, consequently, will not require approval."

Resolution proposal related to the fifth point of the Agenda ("Modification of article 52 of the Bylaws, related to the application of earnings for the year").

Article 52 of the Bylaws is modified, hereinafter it will be drafted as follows:

Article 52.- Application of earnings

The shareholders' meeting will resolve on the application of profits of the year, as stated in the approved balance sheet.

Dividends will be distributed among the ordinary shareholders as and when decided by the shareholders' meeting in proportion with their paid-up capital. Apart from when otherwise specified, dividends will be paid at the registered office as from the day following adoption of the corresponding resolution.

Dividends may only be distributed against the profit for the year or retained earnings, provided that the net worth is not, and will not become, as a result of the distribution, smaller than the capital.

Should the net worth of the company be pulled down below the capital as a result of losses from previous years, the profits will be used to offset such losses.

Neither may profits be distributed unless the amount of the reserves available is, at least, equal to the amount of the costs of research and development that appear in the balance sheet assets. In any case, there must be an unavailable reserve equivalent to the trading fund that appears in the balance sheet assets, assigning for this purpose an amount of the profit that represents, at

least, 5% of the amount of said trading fund. Should there be no profit, or should this be insufficient, unrestricted reserves will be used.

A sum equal to 10% of the year's profits will be transferred to the legal reserve until this is equivalent to at least 20% of the capital. Until this limit is exceeded the legal reserve may only be used to offset losses, provided that there are no other reserves available for this purpose, notwithstanding the provisions of article 303 of the Stock Companies Act.

Finally, the shareholders' meeting will decide on the sum to be applied to voluntary reserves and set aside to fund new investments, building and contingencies.

After the above provisions have been met and the necessary sums have been set aside to cover any other items stipulated in law or these Bylaws, dividends may be distributed against the profit for the year or retained earnings in such an amount as the shareholders' meeting may decide. The remainder, if any, will be carried forward to the following financial year.

The General Meeting may agree that the dividend be paid fully or partially in kind, as long as: (i) the goods or securities object of distribution are homogenous; (ii) they are admitted to listing on an official market -at the time the resolution is effective- or that obtaining liquidity is guaranteed by the company for a maximum period of one year; and (iii) that they are not distributed for a value less than they have in the company balance sheet. The same rules will apply in the case of a reduction of capital with refund of contributions when payment to shareholders is made, totally or partially, in kind."

Resolution proposal related to the sixth point of the Agenda ("Modification of articles 40 and 35 of the Bylaws, related to internal positions and meetings of the Board of Directors").

First. Modification of article 40 of the Bylaws (Chairman and Vice-Chairman)

Article 40 of the Bylaws is modified, hereinafter it will be drafted as follows:

"Article 40.- Chairman, Vice-Chairman and Lead Independent Director

The board will elect one of its members to be chairman, appointing also one or several vice-chairmen, who will stand in for the chairman in the order specified upon appointment. In the absence of the chairman and all vice-chairmen, the oldest director will act as chairman.

The chairman of the board will call and preside over meetings of the board and delegate committee, direct the debates of all the corporate bodies he chairs, ensure that the resolutions adopted by the corporate bodies are duly fulfilled, endorse the corresponding minutes and certificates and, in general, do whatsoever may be necessary or convenient to ensure adequate functioning of the board.

The chairman may also be the Chief Executive Officer of the company. The board shall decide whether or not the chairman is to also hold that position.

When the Chairman holds the position of Chief Executive of the company, the board of directors will appoint, at the proposal of the Nomination and Compensation Committee, an independent director who, under the name of Lead Independent Director, will perform the following tasks:

To request that the Chairman of the Board of Directors call this body when considered convenient.

(ii) To request the inclusion of business in the agenda of meetings of the Board of Directors.

(iii) To coordinate and give voice to the concerns of external directors.

(iv) To lead the board's evaluation of the chairman.

(v) To call and chair the meetings of independent directors considered necessary or convenient.

Second. Modification of article 35 of the Bylaws (Board Meetings)

Article 35 of the Bylaws is modified, hereinafter it will be drafted as follows:

"Article 35.- Board Meetings

The board will meet at least six times a year and whenever else it may be called by the chairman or acting chairman, or when requested by the majority, at least a quarter, of the directors or the lead independent director referred to in article 40. Meetings will normally be held at the

registered office, but may be held anywhere else as decided by the Chairman and indicated in the notice of call.

By exception, provided no directors object, the board may adopt written resolutions, without meeting. In this case, directors may send their votes and such comments as they may wish to be put on in the minutes by e-mail.

The board may meet simultaneously in several different venues, provided real-time inter-communication and interactivity and, consequently, unity of action is guaranteed through audiovisual means. In this case, the system of connection will be stated in the notice of call and, if appropriate, the places where the necessary technical means for attending and participating in the meeting will be made available. The resolutions will be deemed adopted at the location of the chairman."

Resolution proposal related to the seventh point of the Agenda ("Re-election as Director of Mr. Antonio Brufau Niubó.")

To re-elect as Director, for a new period of four years, Mr. Antonio Brufau Niubó.

Resolution proposal related to the eighth point of the Agenda ("Re-election as Director of Mr. Luis Fernando del Rivero Asensio")

To re-elect as Director, for a new period of four years, Mr. Luis Fernando del Rivero Asensio.

Resolution proposal related to the ninth point of the Agenda ("Re-election as Director of Mr. Juan Abelló Gallo").

To re-elect as Director, for a new period of four years, Mr. Juan Abelló Gallo.

Resolution proposal related to the tenth point of the Agenda ("Re-elections as Director of Mr. Luis Carlos Croissier Batista").

To re-elect as Director, for a new period of four years, Mr. Luis Carlos Croissier.

Resolution proposal related to the eleventh point of the Agenda ("Re-election as Director of Mr. Ángel Durández Adeva").

To re-elect as Director, for a new period of four years, Mr. Ángel Durández Adeva.

Resolution proposal related to the twelfth point of the Agenda ("Re-election as Director of Mr. José Manuel Loureda Mantiñán").

To re-elect as Director, for a new period of four years, Mr. José Manuel Loureda Mantiñán.

Resolution proposal related to the thirteenth point of the Agenda ("Appointment as Director of Mr. Mario Fernández Pelaz").

To appoint as Director, for the period of four years established in the bylaws, Mr. Mario Fernández Pelaz.

Resolution proposal related to the fourteenth point of the Agenda ("Delivery Share Plan for Beneficiaries of Pluriannual Remuneration Programmes").

To approve the first five cycles (the "First Cycle", the "Second Cycle", the "Third Cycle", the "Fourth Cycle" and the "Fifth Cycle", together the "Cycles") of the Delivery Share Plan to the Beneficiaries of the Pluriannual Remuneration Programmes, which are subject to the following rules:

(i) **Beneficiaries:** the following may be beneficiaries of the Cycles: executive directors, as well as the remaining executives and other employees of Repsol YPF Group who are beneficiaries of the pluriannual cash remuneration programmes called IMP 2007-2010 (which corresponds to the First Cycle), IMP 2008-2011 (which corresponds to the Second Cycle), IMP 2009-2012 (which corresponds to the Third Cycle), IMP 2010-2013 (which corresponds to the Fourth Cycle) and IMP 2011-2014 (which corresponds to the Fifth Cycle) and which is determined in each case by the Board of Directors or, by delegation, the Delegate Committee (currently there are 966 beneficiaries of the IMP 2007-2010 programme, 1,096 of the IMP 2008-2011 programme, 896 of the IMP 2009-2012 programme, 888 of the 2010-2013 programme and an estimated 928 of the 2011-2014 programme).

(ii) **Description of the Cycles:** the beneficiaries may voluntarily dedicate to the acquisition of company shares up to a maximum of 50% of the gross amount that they will receive in accordance with the pluriannual remuneration programme related to each of the Cycles (the "Initial Investment") and they may benefit through said investment from the conditions of the Cycles stipulated herein. The Initial Investment must be made no later than 31 May of each natural year, once the pluriannual remuneration programme corresponding to each case has been paid.

The beneficiaries of each of the Cycles will have the right to receive from the company or, where appropriate, from another Group company, shares in Repsol YPF, S.A. to the proportion of one share for every three shares acquired in the Initial Investment corresponding to each Cycle, as long as all the shares acquired in the Initial Investment are maintained in the beneficiaries' patrimony for a period of three years (the "Final Instalment of Shares"), calculated from the date of finalisation of the period set for their acquisition. In the case that, by applying the ratio of one to three indicated, this results in fractions of shares, the shares to be given will be rounded up/down to the nearest full number, the difference will be paid in cash.

In relation to each Cycle, the amount of each Final Instalment of Shares is conditioned, as well as to the continuance of the beneficiary in Repsol YPF Group (other than if the beneficiary leaves due to a circumstance that leads to advanced liquidation of the non-expired IMP programmes), to the non-concurrence, in the opinion of the Board of Directors, after a report by the Nominations and Compensation Committee, of any of the following circumstances during the period prior to each of the instalments:

- non-fulfilment of internal company regulations by the beneficiary;
- material reformulation of the financial state of the company when this affects the level of compliance with objectives of the pluriannual remuneration programme which causes the Cycle, except when it is legitimate according to a modification of the accounting regulations.

(iii) **Duration:** the Cycles have a duration of three years from the finalisation of the period to make the Initial Investment, in the following way:

- The First Cycle corresponds to the years 2011-2014.
- The Second Cycle corresponds to the years 2012-2015.
- The Third Cycle corresponds to the years 2013-2016.
- The Fourth Cycle corresponds to the years 2014-2017.
- The Fifth Cycle corresponds to the years 2015-2018.

In relation to each Cycle, the Final Instalment of Repsol YPF shares will take place once accomplished the maintenance period of three years, during the first half of the year in which said cycle ends, during the period or on the specific date determined by the Board of Directors or, by delegation, by the Delegate Committee.

(iv) Maximum number of shares to be given:

Taking into account that the estimate made by the Board of Directors of the maximum amount to be invested in Repsol YPF shares by the beneficiaries of the five Cycle amounts to €78,489,550 (the "Maximum Investment"), the maximum aggregate number of Repsol YPF shares that can be given in accordance with this these Cycles (the "Limit of Final Instalment of Shares") will be determined by applying the following formula:

*Limit of Final Instalment of Shares = 1/3 * (Maximum Investment / Repsol YPF Share Listing)*

Where "Repsol YPF Share Listing" will be the average weighted price at which beneficiaries have acquired the Repsol YPF shares referred to in the Initial Investment.

Thus, for informative purposes, taking as the listing price of the Repsol YPF share the average of the previous twelve months to the formulation of this proposal (23 February 2011), the maximum number of Repsol YPF shares that could be given without cost at the end of each Cycle will not exceed 1,377,010 shares, that represent 0.113% of Repsol YPF's current capital.

(v) Other rules: in case of variation of the maximum number of shares due to a decrease or increase in the par value of the shares or an operation with the equivalent effect, the number of shares to be given will be modified proportionally.

Likewise, if it were necessary or convenient for legal or regulatory reasons or reasons of another type, the instalment mechanisms foreseen could be adapted in specific cases, without altering the number of shares linked to the Cycle in question nor the conditions upon which the instalment depends. Said adaptations may include substituting the instalment of shares for equivalent amounts in cash.

The shares to be given may come from the direct or indirect treasury stock of Repsol YPF, be newly issued shares or they may come from third parties with whom agreements have been subscribed to ensure the attention to the commitments undertaken.

(vi) Delegation of powers: without this preventing that generally established in the seventeenth point of the agenda or in the sections from this resolution, the company Board of Directors is authorised to put the Cycles into practice. It may specify and interpret, in all that is necessary or convenient, the rules established herein and the content of the contracts and other documentation to be used. In particular and not limited to this, the Board of Directors will have the following powers:

- a. Develop and set the specific conditions of the Cycles in all that is not established in this resolution.
- b. Approve the content of the contracts and all documentation that is necessary or convenient.
- c. Approve as many communications and additional documents as are necessary or convenient to present to any public or private body, including, if necessary, the corresponding leaflets.
- d. Carry out any action, procedure or declaration before any public or private entity or body.
- e. Negotiate, agree and subscribe compensation and liquidity contracts with the financial entities that it freely appoints, in the appropriate terms and conditions.
- f. Define the percentages or minimum amounts applicable to the Initial Investment and any other condition related to the Initial Investment as established in the shareholders' meeting resolution, including, if necessary or convenient, the direct instalment by the company to the beneficiary of the shares of the Initial Investment in exchange for the percentage of the pluriannual remuneration that he dedicates to the Cycle in question.
- g. Draft and subscribe as many notices as are necessary or convenient.
- h. Determine whether the conditions to which receipt of the corresponding shares by the beneficiaries have been fulfilled or not, it may modulate the number of shares to be given according to the concurring circumstances.
- i. Interpret the above resolutions, being able to adapt them, without affecting their basic content, to the new circumstances that may arise, including but not limited to, the modification of the instalment mechanisms, without altering the maximum number of shares linked to each Cycle, which could include substituting the instalment of shares for the instalment of equivalent cash amounts.

j. In general, carry out any actions and subscribe any documents that may be necessary or convenient.

The Board of Directors may delegate in the Delegate Committee all the powers granted in this resolution.

All the provisions hereof are notwithstanding the company affiliates exercising the powers of their competence in each case to set up the Cycles which refer to their executives or employees.

Resolution proposal related to the fifteenth point of the Agenda ("Share Acquisition Plan 2011-2012").

To approve the Share Acquisition Plan 2011-2012, which is subjected to the following rules:

- (i) Beneficiaries:** the beneficiaries of the Plan will be those Repsol YPF Group executives and other employees in Spain who voluntarily decide to opt for the same.
- (ii) Description of the Plan:** beneficiaries may receive part of their remuneration corresponding to the years 2011 and 2012 in Repsol YPF shares, with a maximum annual limit of €12,000 per beneficiary. Said shares will be valued at the Repsol YPF share closing price in the Exchange Electronic Trading System (continuous market) of Spanish stock markets on the date of instalment to the beneficiary. Receipt of remuneration in shares is voluntary for beneficiaries.
- (iii) Duration:** this Plan corresponds to the period 2011-2012. Instalment of the shares may take place periodically or a single instalment at the end of the Plan.
- (iv) Maximum number of shares to be given:** Taking into account that the estimate made by the Board of Directors of the maximum amount to be invested in Repsol YPF shares by the beneficiaries of this plan amounts to €218 million (the "Maximum Share Payment") for each year, the maximum number of Repsol YPF shares that can be given in accordance with this Plan (the "Limit of Final Instalment of Shares") will be determined by applying the following formula:

$$\text{Limit of Final Instalment of Shares} = (\text{Maximum Amount of Payment in Shares} / \text{Repsol YPF Share Listing})$$
 Where "Repsol YPF Share Listing" will be the Repsol YPF share closing price in the Exchange Electronic Trading System (continuous market) of Spanish stock markets on the date of instalment to the beneficiary.
- (v) Other rules:** in the case of a decrease or an increase of the par value of the shares or an operation with the equivalent effect, or variation of the number of Repsol YPF Group employees in Spain, the maximum number of shares to be given will be modified proportionally.
 Likewise, if it were necessary or convenient for legal or regulatory reasons or reasons of another type, the instalment mechanisms foreseen could be adapted in specific cases, without altering the number of shares linked to the Plan in question nor the conditions upon which the instalment depends.
 The shares to be given may come from the direct or indirect treasury stock of Repsol YPF, be newly issued shares or they may come from third parties with whom agreements have been subscribed to ensure the attention to the commitments undertaken.
- (vi) Delegation of powers:** without this preventing that generally established in the seventeenth point of the agenda or in the sections from this resolution, the company Board of Directors is authorised to put the Share Acquisition Plan 2011 -2012 into practice. It may specify and interpret, in all that is necessary or convenient, the rules established herein and the content of the contracts and other documentation to be used. In particular and not limited to this, the Board of Directors will have the following powers:
 - a. Develop and set the specific conditions of the Plan in all that is not established in this resolution. It may establish for this purpose a minimum limit to be received in Repsol YPF shares for the employees that voluntarily join the Plan.
 - b. Approve the content of the contracts and all documentation that is necessary or convenient.

- c. Approve as many communications and additional documents as are necessary or convenient to present to any public or private body, including, if necessary, the corresponding brochures.
- d. Define the frequency to give shares to beneficiaries, whether this be monthly, annually or any other frequency.
- f. Carry out any action, procedure or declaration before any public or private entity or body.
- e. Negotiate, agree and subscribe compensation and liquidity contracts with the financial entities that it freely appoints, in the appropriate terms and conditions. .
- f. Draft and subscribe as many notices as are necessary or convenient.
- g. Interpret the above resolutions, being able to adapt them, without affecting their basic content, to the new circumstances that may arise.
- h. In general, carry out any actions and sign any documents that may be necessary or convenient.

The Board of Directors may delegate in the Delegate Committee all the powers granted in this resolution.

All the provisions hereof are notwithstanding the company affiliates exercising the powers of their competence in each case to set up the Plan which refers to their executives or employees.

Resolution proposal related to the sixteenth point of the Agenda ("Delegation to the Board of Directors of the power to issue fixed rate, convertible and/or exchangeable securities for company shares or exchangeable for shares in other companies, as well as warrants (options to subscribe new shares or to acquire shares in circulation of the company or other companies). Fixing the criteria to determine the bases and modes of conversion and/or exchange and attribution to the Board of Directors of the powers to increase capital by the amount necessary, as well as to totally or partially exclude the pre-emptive subscription rights of the shareholders of said issues. Authorisation for the company to guarantee securities issued by its subsidiaries. To leave without effect, in the portion not used, the seventh resolution of the General Shareholders' Meeting held on 16 June 2006."):

- A. To leave without effect, in the portion not used, the seventh resolution of the General Shareholders' Meeting held on 16 June 2006.
- B. To delegate to the Board of Directors, according to the general regime on issuing debentures and in accordance with that established in articles 511 of the Stock Companies Act and 319 of the Regulations of the Mercantile Registry, applying by similarity that established in article 297.1.b) of the Stock Companies Act, and in accordance with that established in articles 12, 12.bis and 13 of the Bylaws, the power to issue, on one or several occasions, negotiable securities according to the following conditions:
 - 1. **Securities object of issue.** The negotiable securities referred to in this delegation may be debentures, bonds and other fixed rate securities of a similar nature, exchangeable for company shares in circulation and/or convertible in newly issued company shares. Likewise, this delegation may also be used to issue warrants (options to subscribe new company shares or acquire company shares in circulation) and other securities exchangeable for shares of other companies in circulation.
 - 2. **Period.** The securities may be issued on one or several occasions, at any time, within the maximum period of five (5) years from the date of adopting this resolution.
 - 3. **Maximum amount.** The maximum amount of the issue/s of securities agreed according to this delegation will be seven billion Euros (€7,000,000,000) or its equivalent in another currency. For the purpose of calculating the previous limit, in the case of warrants, the sum of premiums and prices of the warrants of each issue approved according to this delegation will be taken into account.

In turn, the maximum limit indicated is subdivided into two additional limits:

(i) Issues of securities convertible and/or exchangeable for company shares or warrants on newly issued company shares in which, in accordance with section B) (7) of this resolution, that exclude the pre-emption subscription right and whose aggregate maximum amount will be three billion Euros (€3,000,000,000) or its equivalent in another currency, and

(ii) Issues of securities convertible and/or exchangeable for company shares or warrants in which the pre-emption subscription right is not excluded or securities (including warrants) exchangeable for shares in other companies and whose maximum aggregate amount may not exceed four billion Euros (€4,000,000,000) or its equivalent in another currency.

4. **Scope of the delegation.** Including, but not limited to, it is the responsibility of the Board of Directors to determine, for each issue, (i) its value (respecting at all times the applicable quantitative limits), (ii) the number of securities and their par value; (iii) applicable legislation; (iv) the place of issue -national or foreign- and (v) the currency, in the case of foreign currency, its equivalent in Euros; (vi) the form, whether bonds or debentures - including subordinates - or any other accepted by law; (vii) the date or dates of issue; (viii) the interest rate, (ix) the procedures and dates of payment of the coupon; (x) the amortisation period and the expiry date; (xi) the guarantees, form of payment and batches and premiums; (xii) the form of representation, whether by titles or account entries; (xiii) where appropriate, pre-emption subscription right and subscription regime; (xiv) where appropriate, request acceptance to negotiation in official or unofficial secondary markets, organised or not, national or foreign, of the securities issued with the requirements demanded in each case by current legislation, and (xv) in general, any other condition for issue, (xvi) as well as, when applicable, appointing the Commissary and approving the fundamental rules that must govern the legal relations between the company and the union of holders of the securities issued.

The Board of Directors is also authorised, when deemed convenient and when applicable, subject to obtaining the appropriate authorisations and the approval of the corresponding assemblies of the unions of holders of the securities, to modify the repayment conditions of the fixed rate securities issued and their respective periods and interest rates which, where appropriate, are accrued by those included in each of the issues made in accordance with this authorisation.

5. **Bases and forms of conversion and/or exchange.** For the case of issuing debentures or bonds convertible in new company shares and/or exchangeable for company shares in circulation, for the purpose of establishing the bases and forms of conversion and/or exchange, the following criteria are agreed:

(i) The securities will be convertible to new company shares and/or exchangeable for shares in circulation in accordance with a fixed (determined or undetermined) or variable conversion and/or exchange ratio. The Board of Directors is authorised to determine if they are convertible and/or exchangeable, as well as to establish whether this is voluntary or they must be convertible and/or exchangeable and; in voluntary cases, if they are converted and/or exchanged at the will of the holder or issuer; the frequency and period, which will be established in the issue resolution and no longer than fifteen (15) days from the date of issue.

(ii) In the case that the issue is convertible and exchangeable, the Board of Directors may agree that the issuer reserves the right to opt, at any time, between the conversion in new shares or their exchange for shares in circulation, specifying the nature of the shares to be given at the time of conversion or exchange. A combination of newly issued shares and pre-existing shares may be given. In any case, the issuer must respect the equal treatment of all fixed rate security holders that are converted and/or exchanged on the same date.

(iii) To the effects of conversion and/or exchange, the fixed rate securities will be evaluated for their par value, and the shares at the exchange rate established by the Board of Directors in the resolution in which it makes use of this delegation, or at the exchange rate to be determined on the date or dates indicated in said resolution, according to the listing value in the stock market of company shares on the date/s or in the period/s taken as a reference in the same resolution, with or without discount and, in any case, with a minimum of the highest of the following two: (a) the average exchange rate of the shares in the Continuous Market of Spanish Stock Markets, according to closing rates, during a period to be determined by the Board of Directors; no more than three (3) months nor less than fifteen (15) days before the date of adopting the resolution to issue fixed rate securities by the Board

of Directors, and (b) the exchange rate of the shares on the Continuous Market according to the closing rate on the day prior to adopting said issue resolution.

(iv) It may also be agreed to issue convertible and/or exchangeable fixed rate securities with a variable ratio of conversion and/or exchange. In this case, the price of the shares for the purpose of conversion and/or exchange will be the average of the closing prices of the company shares in the Continuous Market during a period to be determined by the Board of Directors; no more than three (3) months nor less than five (5) days before the date of conversion and/or exchange, with a premium or, where appropriate, a discount on said price per share. The premium or discount can be different for each date of conversion and/or exchange of each issue (or, when appropriate, each stage of an issue), although in the case of setting a discount on the price per share, this may not be greater than 30%.

(v) When effecting the conversion and/or exchange, the fraction of shares that may correspond to be given to the fixed rate security holder will be rounded down to the nearest full number, and each holder will receive the difference that may be produced in cash.

(vi) In accordance with that established in article 415 of the Stock Companies Act, the value of the share for the purpose of the conversion ratio of the debentures for shares may in no case be lower than its par value. Neither may convertible debentures be issued for an amount lower than their par value.

The above criteria will be applied, *mutatis mutandi* and insofar as they are applicable, in relation to the issue of fixed rate securities (or warrants) exchangeable for shares in other companies. If appropriate, the references to Spanish stock markets will be made to the markets where the shares specified are listed.

At the time of agreeing the issue of convertible and/or exchangeable debentures in accordance with the authorisation granted by the General Meeting, the Board of Directors will issue a report developing and specifying, in light of the criteria detailed above, the bases and forms of conversion specifically applicable to said issue. This report will be accompanied by the corresponding auditors' report established in article 414.2 of the Stock Companies Act.

6. Rights of holders of convertible securities. While it is possible to convert and/or exchange fixed rate securities in shares or to exercise warrants, their holders will enjoy as many rights as are conferred to them by current regulations.

7. Capital increase and exclusion of the pre-emption subscription right of convertible securities. The delegation of powers to the Board of Directors also includes, without limitation, the following powers:

(i) The power, by virtue of that established in articles 308 and 511 of the Stock Companies Act, that the Board of Directors may exclude, totally or partially, the pre-emption subscription right of shareholders when this is demanded by company interests, in the framework of a specific issue of convertible debentures that, in accordance with this authorisation, it may possibly decide to execute. In this case, the Board of Directors will issue, at the time of adopting the issue resolution, a report detailing the specific reasons of company interest that justify the said measure, which will be the object of the mandatory auditors' report, in accordance with that established in article 511.3 of the Stock Companies Act. Both reports will be made available to shareholders and will be communicated at the first General Meeting held after adopting the issue resolution.

(ii) The power to increase capital by the amount necessary to attend to the requests for conversion of the convertible debentures. Said power may only be exercised inasmuch as the Board of Directors, adding the capital increased to attend to the issue of convertible debentures and the remaining capital increases that may have been agreed in accordance with the authorisations granted by the General Meeting, does not exceed half of the capital amount stipulated in article 297.1.b) of the Stock Companies Act or the lower limit established in the General Meeting authorisation for the case of the issue excluding the pre-emption subscription right. This authorisation to increase capital includes the authorisation to issue and put into circulation, on one or several occasions, the shares necessary to carry out the conversion, as well as the authorisation to redraft the article of the Bylaws related to the amount of capital and to, if appropriate, annul the part of said capital increase that had not been necessary to attend the conversion.

(iii) In accordance with the criteria established in number 5 above, the power to develop and specify the bases and forms of conversion and/or exchange, including, among other

matters, setting the moment of the conversion and/or exchange and, in general and in the fullest terms, to determine as many extremes and conditions necessary or convenient for issue.

The Board of Directors, in the General Meetings held by the company from now on, will inform shareholders of the use, where appropriate and until the time of holding said meetings, that it has made of this delegation to issue convertible and/or exchangeable debentures.

8. Convertible warrants: The rules established in sections 5 and 7 above will be applied, *mutatis mutandi*, in the case of issuing warrants or other similar securities that may directly or indirectly give rise to the right to subscribe newly issued company shares. The delegation includes the widest powers, with the same scope as the above numbers, to decide all that is convenient in relation to said type of securities.

9. Admission to negotiation. When appropriate, the company will request the admission to negotiation in official or unofficial secondary markets, organised or not, national or foreign, of the debentures, bonds, warrants and any other securities issued by the company in accordance with this delegation, carrying out in such a case all the procedures and actions necessary for the admission to listing before the competent bodies of the different national or foreign securities markets, for which the widest powers are granted to the Board of Directors.

10. Guarantee of issues of fixed rate securities. The Board of Directors is equally authorised, during a period of five (5) years, to guarantee, in the name of the company, the issues of fixed rate securities referred to in this delegation resolution made by the companies that belong to its group of companies.

11. Substitution by the Delegate Committee. The Board of Directors is authorised to delegate in turn, in favour of the Delegate Committee, the delegated powers referred to in this resolution.

Resolution proposal related to the seventeenth point of the Agenda (“Delegation of powers to complement, develop, execute, correct and formalise the resolutions adopted by the General Meeting”)

First. To delegate in the Board of Directors with the widest range possible, including the power to delegate fully or in part the powers received in the Delegate Committee, as many powers necessary to complement, develop, execute and correct any of the resolutions adopted by the General Meeting. The power to correct will include the power to make as many modifications, amendments and additions necessary or convenient as a consequence of objections or observations raised by the securities markets regulating bodies, the Securities Markets, the Mercantile Registry and any other public authority with competence related to the resolutions adopted.

Second. To delegate jointly and indistinctly in the Chairman of the Board of Directors and the Secretary and Vice-Chairman of the board, the powers necessary to formalise the resolutions adopted by the General Meeting, and to register that subject to this requirement, in full or in part, including the powers related to formalising the deposit of annual accounts, being able for this purpose to sign all kinds of public or private documents, even to complement or correct said resolutions.

Ordinary Shareholders' Meeting 2011 Reports of the Board of Directors on the resolution proposals

Report of the Board of Directors on the resolution proposal related to the first point of the Agenda ("Revision and approval, if appropriate, of the Annual Accounts and Management Report of Repsol YPF, S.A., of the Consolidated Annual Accounts and the Consolidated Management Report, corresponding to the fiscal year ending on 31 December 2010, and of the proposal of application of earnings").

The Annual Accounts and the different documents which make up said accounts, in accordance with the Trading Code, the Consolidated Text of the Stock Companies Act and other applicable provisions, including current sectorial regulations, both the individual Repsol YPF, S.A. accounts and the consolidated accounts of its Group of Companies, together with the Management Report of Repsol YPF, S.A. and the Consolidated Management Report, have been formulated by the Board of Directors during their meeting of 23 February 2011, after their revision by the Audit and Control Committee and by the Internal Transparency Committee of Repsol YPF, S.A., and following their certification by the Chief Executive Officer and by the Chief Financial Officer.

The Management Reports, individual and consolidated, include as an Appendix a separate section, the Corporate Governance Annual Report for the fiscal year 2010.

These Annual Accounts and the Management Reports have been object of revision by the Auditors of Repsol YPF, S.A. and of its Consolidated Group.

All of these documents, together with the Auditors' Reports, the explicatory report in relation to the additional information included in the Management Report according to article 116 bis of the Securities Market Act, the Report on Directors' remuneration policy is available to shareholders at our registered office, Paseo de la Castellana, number 278, where they can request their issue or free delivery to the address indicated.

Likewise, said documents are available through the Company website (www.repsol.com).

Together with the approval of the Annual Accounts, we equally propose, as in previous years, the approval of the application of earnings, as indicated in the Individual report.

Report of the Board of Directors on the resolution proposal related to the second point of the Agenda ("Revision and approval, if appropriate, of the management of the Board of Directors of Repsol YPF, S.A. corresponding to the fiscal 2010").

In accordance with that stipulated in article 164 of the Consolidated Text of the Stock Companies Act, the management developed by the Board of Directors during the fiscal year 2010 is subjected to approval by shareholders, the remuneration of the directors is detailed in the Annual Accounts Report, in the Corporate Governance Annual Report and the Report on Directors' remuneration policy.

Report of the Board of Directors on the resolution proposal related to the third point of the Agenda ("Appointment of Auditor of Repsol YPF, S.A. and of its Consolidated Group for the fiscal year 2011.")

The proposal presented by the Board of Directors to the General Meeting for this point of the Agenda has been approved at the request of the Audit and Control Committee, whose responsibility it is, in accordance with the Regulations of the Board of Directors, to select the external Auditor of the Company and its Consolidated Group.

It must be highlighted, to this effect, that the Audit and Control Committee held, at the end of 2010 and the beginning of 2011, an open selection procedure of the most prestigious firms to select the firm that presented a greater balance between quality of the service offered –whose minimum qualities were set as demands before the selection- and the amount of their remuneration, all as established by article 32.4(b)(i) of the Regulations of the Board of Directors.

After analysing the offers received and considering the award criteria previously determined by the Audit and Control Committee, said Committee, in its meeting of 22 February 2011, agreed to propose to the Board of Directors, for its later submission to the General Shareholders' Meeting, the re-election of the entity Deloitte, S.L. as Auditor of Repsol YPF, S.A. and of its Consolidated Group for the fiscal year 2011.

Report of the Board of Directors on the resolution proposal related to the fourth point ("Modification of articles 9, 11, 19, 24, 27, 29, 32, 39, 44, 50 and 56 of the Bylaws; and of articles 3, 5, 8, 13, 14 and 15 of the Regulations of the Shareholders' Meeting"), fifth point ("Modification of article 52 of the Bylaws, related to the application of earnings for the year") and sixth point ("Modification of articles 40 and 35 of the Bylaws, related to internal positions and board of directors' meetings") of the Agenda.

1. Object of the report

In accordance with that established in article 286 of the Consolidated Text of the Stock Companies Act, as well as article 2 of the Regulations of the Shareholders' Meeting, the REPSOL YPF, S.A. Board of Directors (the "**Company**") formulates this report to justify the proposal of modification of certain articles of the Bylaws and the subsequent adaptation of the Regulations of the Shareholders' Meeting, which is submitted for approval by the General Meeting.

2. General justification of the proposal

The entry into force, during the year 2010, of both Legislative Royal Decree 1/2010, of 2 July, which approves the Consolidated Text of the Stock Companies Act ("**Stock Companies Act**"), which has substituted the Consolidated Text of the Joint Stock Companies Act approved by Legislative Royal Decree 1564/1989 ("**Joint Stock Companies Act**"), as well as Act 12/2010, of 30 June, which modifies Act 19/1988, on Financial Auditing, Act 24/1988, on the Securities Market and the Consolidated Text of the Joint Stock Companies Act for their adaptation to community regulations (the "**Bill of Reform of the Financial Audits Act**") has made it advisable to undergo a revision of bylaws in order to adapt those regulatory references which have become outdated for this reason, as well as qualifying the drafting of certain precepts so that they fully correspond with the legal texts.

As many of the regulatory references proposed to be substituted in the Bylaws can also be found reflected in the Regulations of the Shareholders' Meeting, and in order to maintain coordination between both texts, the adaptation of the text of said Regulation is also proposed. Both proposals are presented together to ease their analysis.

Finally, two bylaw modifications are proposed which do not entail the simple adaptation of the regulations, but the introduction of improvements in the Bylaws or of measures of flexibility. Given that these modifications have greater materiality, they will be subjected to differentiated treatment and separate voting at the General Meeting.

3. Detailed justification of the proposal

1. Modification, for their adaptation to current regulations, of articles 9, 11, 19, 24, 27, 29, 32, 39, 44, 50 and 56 of the Bylaws; and of articles 3, 5, 8, 13, 14 and 15 of the Regulations of the Shareholders' Meeting.

These proposals, as previously stated, are presented together as they aim either simply to update the regulatory reference (currently made to the Joint Stock Companies Act), substituting them for a reference to the corresponding precept of the Stock Companies Act, or to adapt their literal meaning to the exact drafting of the precepts of the Stock Companies Act, without in any case the modifications proposed entailing substantial alterations of the content of said articles, as can be seen below:

i) In article 9 ("Calls on capital and defaulting shareholders"), we propose substituting the expression "calls on capital", previously used in the Joint Stock Companies Act, for that of "payments pending", terminology adopted by the Stock Companies Act (Section Two of Chapter IV of Title III of the Act).

ii) In article 11 ("Joint ownership and real rights over shares"), the reference to articles 66 and 73 of the Joint Stock Companies Act would be substituted by a reference to that stipulated in the Stock Companies Act.

iii) In article 19 ("Calls to shareholders' meetings"), we propose adapting the bylaw provisions to the new legal regime. Thus, Royal Decree-Act 13/2010, of 3 December, on actions in the physical, labour and liberalisation field to promote investments and creating employment, has modified, with effect as of 3 December 2010, article 173.1 of the Stock Companies Act which, having initially included the provisions of the old article 97.1 of the Joint Stock Companies Act, foresaw that calls for the Shareholders' Meetings must be effected "in a notice published in the Official Gazette of the Mercantile Registry and one of the daily newspapers having the largest circulation in the province in which the company has its registered office". Since the new regulation has come into force, article 173.1 of the Stock Companies Act now demands that the call be notified in the Official Gazette of the Mercantile Register and the Company website. Additionally, we proposed clarifying, as was done in article 174.1 of the Stock Companies Act, that the call expresses not only the date, but also the time of the Shareholders' Meeting. Finally, and so that possible regulatory modifications in relation to the content of the notification do not require subsequent modifications to bylaws, we propose clarifying that the notice will contain "the legally demanded information and, in any case" the information currently established in the Stock Companies Act. Furthermore, the possibility is also foreseen that, on the occasion of the call of notice, the board of directors may agree to hold the meeting in a town of a national territory which is different from that in which the company has its registered office, in accordance with article 175 of the Stock Companies Act.

iv) In article 24 ("Proxies"), the reference to article 108 of the Joint Stock Companies Act would be substituted for a reference to article 187 of the Stock Companies Act.

v) In article 27 ("Discussion and adoption of resolutions"), the reference to articles 131 and 134 of the Joint Stock Companies Act would be substituted by a reference to articles 223.1 and 238 of the Stock Companies Act.

vi) In article 29 ("Minutes") we propose eliminating the regulatory reference to revoked article 114 of the Joint Stock Companies Act.

vii) In article 32 ("Qualitative composition of the Board") we propose substituting the reference to the Joint Stock Companies Act for the reference to the Stock Companies Act.

viii) The proposal of modification in article 39 ("Audit and Control Committee") is motivated by the fact that the Reform Bill of the Audit Act, in force since 2 July 2010, introduced a modification to sections 2 and 4 of the Eighteenth Additional Provision of the Securities Market Act, regulating the Audit Committee of security issuing entities admitted to negotiation on official secondary markets. By virtue of the modification operated on section 2 of said Additional Provision, the requirement has been established that at least one member of said Committee must be an independent external director, who will be appointed, taking into account their knowledge and experience in matters of accounting, auditing or in both. Therefore, we propose adding said legal requirement to the text of the first paragraph of article 39 of the Bylaws. Likewise, by virtue of the modification of section 4 of said Additional Provision, the duties that the law attributes to this Committee have

been qualified and extended. Therefore, we propose updating the list previously contained in the Bylaws to reflect the duties anticipated in the new regulation, which the Audit and Control Committee have been performing de facto.

ix) In article 44 ("General obligations of the Directors") we propose modifying slightly its drafting to adapt it to that which is established in articles 225, 226 and 232 of the Stock Companies Act.

x) The modification proposal of the last paragraph of article 50 ("Audits") aims to update the current reference to the Court of First Instance with the reference to the Mercantile Court, current competent entity to process the request to which said paragraph makes reference.

xi) Finally, in relation to article 56 ("Liquidation of the Company"), we propose establishing that should three or more liquidators be appointed, these must exercise their powers of joint representation as a Liquidation Committee. Likewise, and given that the Stock Companies Act has modified the regime applicable to joint stock companies (establishing the obligation to approve a full report on the liquidation operations and a division project among the partners of the resulting asset, previously only applicable to limited liability companies, and eliminating the requirement to publish the final liquidation balance), we propose eliminating the last two paragraphs of this article.

The previous adaptations make it recommendable, as explained, to undertake a similar adaptation of the Regulations of the Shareholders' Meeting, in order to avoid there being a lack of coordination between both texts. Specifically, we propose modifying the following precepts of said Regulation:

xii) In article 3 ("Powers of the General Meeting") we propose substituting in section 3.6 the reference to article 153.1.b of the Joint Stock Companies Act for the reference to article 297.1.b of the Stock Companies Act, the precept which has substituted this.

xiii) In article 5 ("Notice of Call") we propose modifying the drafting of sections 5.1 and 5.3 in line with the modification relating to article 19 of the Bylaws, to reflect the new legal regime on notice of calls.

xiv) In article 8 ("Proxies") the reference to article 108 of the Joint Stock Companies Act would be substituted for a reference to article 187 of the Stock Companies Act.

xv) In article 13 ("Debate and adoption of resolutions"), section 13.5 would be modified to substitute the reference to articles 131 and 134 of the Joint Stock Companies Act for a reference to the corresponding articles of the Stock Companies Act, in this case, articles 223.1 and 238 of said regulation.

xvi) In relation to article 14 ("Voting on proposed resolutions"), we propose substituting, in section (iv), the reference to article 114.1 of the Securities Market Act with the reference that is currently correct, that is, to article 514 of the Stock Companies Act.

xvii) In article 15 ("Minutes"), section two, we propose eliminating the reference to article 114 of the Joint Stock Companies Act.

To ease the comparison between the current drafting of the articles proposed to be modified and the resulting modification, we include below, in two columns, a literal transcription of both texts, merely for the purpose of information. Given that the only object of the proposal is to adapt the outdated regulatory references or to modify slightly the drafting for its total adaptation to current regulations, and given the large number of articles affected, we consider that it is more appropriate to reproduce only the original and modified text of those paragraphs that would be subject to variations in the case of approving the proposal.

A) Bylaws

Current drafting	Proposal of modification
<p>Article 9 Calls on capital and defaulting shareholders</p> <p><i>[First and second paragraphs without modification]</i></p> <p>Shareholders in arrears in the payment of capital may not exercise their voting rights. The amount of such shares shall be deducted from the capital when calculating the quorum for general meetings.</p> <p>Defaulting shareholders may not receive dividends or exercise their pre-emption right in the subscription of new shares or convertible debentures. Once the overdue calls on capital have been paid, together with any interest accrued thereon, the shareholder may claim payment of any dividends that have not lapsed, but may not claim any pre-emptive subscription right if the time for exercising that right has expired.</p> <p><i>[Párrafos quinto a octavo sin modificación]</i></p>	<p>Article 9 Capital Pending payments and defaulting shareholders</p> <p><i>[First and second paragraphs without modification]</i></p> <p>Shareholders in arrears in the payment of capital pending payments may not exercise their voting rights. Article 44**General obligations of the Directors**

Directors will perform the duties imposed by law and these Bylaws and those indicated in the internal regulations of the company. In particular, they will perform their duties with the diligence of a competent entrepreneur and loyal representative, complying with the legal duty of diligent administration. They will also comply with the duties of fidelity, loyalty, and secrecy ordered by law.

[Second paragraph without modification]

Article 44**General obligations of the Directors**

Directors will perform the duties imposed by law and these Bylaws and those indicated in the internal regulations of the company. In particular, they will perform their duties with the diligence of a competent entrepreneur and loyal representative, in accordance with the interest of the company, complying with their duty of diligence, loyalty in accordance with the legal duty of diligent administration. They will also comply with the duties of fidelity, loyalty, and secrecy marked by law.

[Second paragraph without modification]

Article 50
Audits

[First to fourth paragraph without modification]

Whenever there is just cause to do so, the company directors and persons authorised to request appointment of an auditor may apply to the Court of First Instance corresponding to the registered office of the company to revoke the appointment made by the shareholders' meeting or mercantile registrar and appoint another.

Article 56**Liquidation of the Company**

[First paragraph without modification]

Once the company has been declared to be in liquidation, the representation of the board of directors will cease, in the terms established in the Joint Stock Companies Act, and at the same shareholders' meeting at which the resolution is adopted to wind up the company an uneven number of persons will be appointed to carry out the liquidation, establishing the rules for liquidation in accordance with prevailing legal provisions.

On completion of the liquidation, the liquidators will draw up the final balance sheet, which will be checked by the auditors, if any. The amount of corporate assets to be distributed to each share will also be specified.

This balance will be presented before the shareholders' meeting and published in the Official Gazette of the Mercantile Registry and one of the most widely circulating newspapers in the province in which the registered office is situated.

Article 50
Audits

Article 5
Notice of Call

5.1. Ordinary and extraordinary shareholders' meeting shall be called by the board of directors in a notice published in the Official Gazette of the Mercantile Registry and one of the daily newspapers with the largest circulation in the province of the registered office at least one month prior to the date of the relevant meeting, unless otherwise stipulated in law.

The notice will indicate the date and place of the meeting on first call, and all the business to be dispatched will be included on the agenda. The date will also be stated on which, if necessary, the shareholders' meeting is to be held on second call. There will be at least twenty-four hours between the meetings on first and second call. The notice will also include indication of the place and times at which shareholders may consult the documents to be presented before the general meeting and such other reports as may be required by law or decided by the board, without prejudice to the right of shareholders to request and receive, free of charge, copies of all the above-mentioned documents.

[Third paragraph without modification]

Article 5
Notice of Call

5.1. Ordinary and extraordinary shareholders' meetings will be called by the board of directors in a notice published in the Official Gazette of the Mercantile Registry and on the Company website (www.repsol.com) one of the daily newspapers with the largest circulation in the province of the registered office at least one month prior to the date of the relevant meeting, unless otherwise stipulated in the law. The notice of call published on the company website shall be maintained accessible on the same at least until the date of the meeting. The board of directors may publish notices in other media, is considered appropriate, to give greater publicity to the notice of call.

The General Meeting will be held in the place indicated in the notice of call, within the municipality in which the Company has its registered office. However, the Meeting may be held in any other place in the country if established by the board of directors in the notice of call.

The notice shall indicate the name of the Company, the date and time place of the meeting on first call and all business to be dispatched will be included in the agenda. The date and time will also be stated on which, if necessary, the shareholders' meeting is to be held on second call. There will be at least twenty-four hours between the meetings on first and second call. The notice will also include indication of the place and times at which shareholders may consult the documents to be presented before the general meeting and such other reports as may be required by law or decided by the board, without prejudice to the right of shareholders to request and receive, free of charge, copies of all the above-mentioned documents.

[Third paragraph without modification]

A copy of the notice of call to the shareholders' meeting will be published on the company's web site and a copy will be sent to the stock exchanges on which the shares are listed and the entities at which the shares are deposited, so that they can issue the attendance cards.

[Section 5.2 without modification]

5.3. Shareholders representing at least five per cent (5%) of the capital may request the publication of a supplementary notice of call to add one or several items to the agenda. This right will be exercised by sending attested notice, showing that the aforesaid percentage of the capital is held, to be received at the registered office within five days after publication of the original notice of call. The supplementary notice will be published at least fifteen days prior to the date scheduled for the meeting.

[Section 5.4 without modification]

Article 8
Proxies

8.1 Any shareholder entitled to attend a shareholders' meeting may be represented by a proxy, who need not be a shareholder. Proxies will be made in writing or by any form of distance communication, provided that the identity of the parties is duly guaranteed and subject to whatever procedure may be established in law for this purpose. Proxies will be granted specially for each general meeting, apart from those provided in article 108 of the Joint Stock Companies Act.

[Rest without modification]

~~A copy of the notice of call to the shareholders' meeting will be published on the company's web site and~~ The notice of call will be sent to the Spanish Securities Market Commission and a copy of the same will be sent to the stock exchanges on which the shares are listed and the entities at which the shares are deposited, so that they can issue the attendance cards

[Section 5.2 without modification]

5.3. Shareholders representing at least five per cent (5%) of the capital may request the publication of a supplementary notice of call to add one or several items to the agenda. This right will be exercised by sending attested notice, showing that the aforesaid percentage of the capital is held, to be received at the registered office within five days after publication of the original notice of call. The supplementary notice will be published in the Official Gazette of the Mercantile Registry and the company website at least fifteen days prior to the date scheduled for the meeting.

[Section 5.4 without modification]

Article 8
Proxies

8.1 Any shareholder entitled to attend a shareholders' meeting may be represented by a proxy, who need not be a shareholder. Proxies will be made in writing or by any form of distance communication, provided that the identity of the parties is duly guaranteed and subject to whatever procedure may be established in law for this purpose. Proxies shall be granted specially for each general meeting, save as provided in article ~~108~~ 108 of the Stock Companies Act ~~Joint Stock Companies Act~~.

[Rest without modification]

Article 13**Debate and adoption of resolutions***[Sections 13.1 to 13.4 without modification]*

13.5 The chairman will then inform the general meeting of the highlights of the year and the proposals submitted by the board. His report may be supplemented by any persons he may authorise. The chairman of the Audit and Control Committee will be available at the shareholders' meeting, on behalf of the committee, to answer any questions that the shareholders may raise on matters within the committee's competence. After his report, the chairman will grant the floor to those shareholders who have so requested, directing the debate and seeing that it remains within the confines of the agenda, other than that provided in articles 131 and 134 of the current Joint Stock Companies Act. The chairman will end the debate when, in his opinion, the matter has been sufficiently discussed. The secretary will then read out the different proposed resolutions, which will be put to a vote. The reading of the proposals may be abridged at the decision of the chairman, provided that shareholders representing the majority of subscribed voting capital present at the shareholders' meeting do not object.

*[Rest without modification]***Article 14****Voting on proposed resolutions***[First paragraph and second paragraph, sections (i) to (iii), without modification]*

(iv) The shares of shareholders who have participated in the shareholders' meeting by distance voting prior to the date thereof will not be considered present or represented at the shareholders' meeting in question for voting on resolutions concerning business not included on the agenda. Furthermore, to adopt any of the agreements included in Article 114.1 of the Securities Market Law, the shares for which the right to vote cannot be exercised due to the provisions established in said precept will not be considered as shares present or represented.

Article 13**Debate and adoption of resolutions***[Sections 13.1 to 13.4 without modification]*

13.5 The chairman will then inform the general meeting on the highlights of the year and the proposals submitted by the board. His report may be supplemented by any persons he may authorise. The chairman of the Audit and Control Committee will be available at the shareholders' meeting, on behalf of the committee, to answer any questions that the shareholders may raise on matters within the committee's competence. After his report, the chairman will grant the floor to those shareholders who have so requested, directing the debate and seeing that it remains within the confines of the agenda, other than that provided in articles **223.1 and 238 of the Stock Companies Act 131 and 134 of the current Joint Stock Companies Act**. The chairman will end the debate when, in his opinion, the matter has been sufficiently discussed. The secretary will then read out the different proposed resolutions, which will be put to a vote. The reading of the proposals may be abridged at the decision of the chairman, provided that shareholders representing the majority of subscribed voting capital present at the shareholders' meeting do not object.

*[Rest without modification]***Article 14****Voting on proposed resolutions***[First paragraph and second paragraph, sections (i) to (iii), without modification]*

(iv) The shares of shareholders who have participated in the shareholders' meeting by distance voting prior to the date thereof will not be considered present or represented at the shareholders' meeting in question for voting on resolutions concerning business not included on the agenda. Moreover, shares in respect of which voting rights cannot be exercised pursuant to article **514 of the Stock Companies Act 114.1 of the Securities Market Act** shall not be considered represented or present for voting on any of the resolutions contemplated therein.

Article 15**Minutes of the Shareholders' Meeting***[Section 15.1 without modification]*

15.2. Whenever a general meeting has been held in the presence of notary required by the board to issue a certificate, pursuant to article 114 of the Joint Stock Companies Act, the notarial minute will have the consideration of minutes of the shareholders' meeting and will not require approval.

Article 15**Minutes of the Shareholders' Meeting***[Section 15.1 without modification]*

15.2. If the general meeting has been attended by a notary ~~required by the board to issue minutes, in pursuance of article 114 of the Joint Stock Companies Act~~, the notarial minute will be considered to be the minutes of the shareholders' meeting and, consequently, will not require approval.

2. Modification of article 52 ("Application of earnings").

In relation to article 52 ("Application of earnings"), we propose substituting the reference made to article 157 of the Joint Stock Companies Act for a reference to the corresponding precept of the Stock Companies Act, that is, article 303 of said legal text.

Furthermore, we propose modifying the fifth paragraph of the bylaw precept to incorporate the new drafting of article 273 of the Stock Companies Act, of sections 3 and 4.

We also propose including an express mention of the possibility of distributing dividends in kind, establishing as a requirement for the same that the assets or securities object of distribution are homogenous, are admitted to listing on an official market at the time the resolution is effective (or that obtaining liquidity is guaranteed by the company in a maximum period of one year) and that they are not distributed for a value lower than they have in the company balance sheet. The purpose of this entry is to make it possible in the future, should the General Meeting consider appropriate according to the circumstances of the company and the market, for this type of distributions to be made. The regulation is completed with the prevision that the same rules for distributing dividends in kind will be applied in the case of a reduction of capital with a refund of contributions in kind.

To ease the comparison between the current drafting of the article proposed to be modified and the resulting modification, below we include, in two columns, a literal transcription of both texts, merely for the purpose of information.

Article 52**Application of earnings**

The shareholders' meeting will resolve on the application of profits of the year, as stated in the approved balance sheet.

Dividends will be distributed among the ordinary shareholders as and when decided by the shareholders' meeting in proportion to their paid-up capital. Unless otherwise specified, dividends will be paid at the registered office as from the day following adoption of the corresponding resolution.

Dividends may only be distributed against the profit for the year or retained earnings, provided that the net worth is not, and will not become as a result of the distribution, smaller than the capital.

Article 52**Application of earnings**

The shareholders' meeting will resolve on the application of profits of the year, as stated in the approved balance sheet.

Dividends will be distributed among the ordinary shareholders as and when decided by the shareholders' meeting in proportion to their paid-up capital. Unless otherwise specified, dividends will be paid at the registered office as from the day following adoption of the corresponding resolution.

Dividends may only be distributed against the profit for the year or retained earnings, provided that the net worth is not, and will not become as a result of the distribution, smaller than the capital.

Should the net worth of the company be pulled down below the capital as a result of losses from previous years, the profits will be used to offset such losses.

Profits may not be distributed until the formation expenses, research and development expenses and goodwill entered under assets on the balance sheet have been written off, unless retained earnings are at least equal to the amount of expenses pending amortisation.

A sum equal to 10% of the year's profits will be transferred to the legal reserve until this is equivalent to at least 20% of the capital. Until this limit is exceeded the legal reserve may only be used to offset losses, provided that there are no other reserves available for this purpose, notwithstanding the provisions of article 157 of the Joint Stock Companies Act.

Finally, the shareholders' meeting will decide on the sum to be applied to voluntary reserves and set aside to fund new investments, building and contingencies.

After the above provisions have been met and the necessary sums have been set aside to cover any other items stipulated in law or these Bylaws, dividends may be distributed against the profit for the year or retained earnings in such sum as the shareholders' meeting may decide. The remainder, if any, will be carried forward to the following financial year.

Should the net worth of the company be pulled down below the capital as a result of losses from previous years, the profits will be used to offset such losses.

Nor may profits be distributed unless the amount of the reserves available is, at least, equal to the amount of the costs of research and development that appear in the balance sheet assets. In any case, there must be an unavailable reserve equivalent to the trading fund that appears in the balance sheet assets, assigning for this purpose an amount of the profit that represents, at least, 5% of the amount of said trading fund. Should there be no profit, or should this be insufficient, unrestricted reserves will be used.

A sum equal to 10% of the year's profits will be transferred to the legal reserve until this is equivalent to at least 20% of the capital. Until this limit is exceeded the legal reserve may only be used to offset losses, provided that there are no other reserves available for this purpose, ~~notwithstanding the provisions of article 157 of the Joint Stock Companies Act.~~ notwithstanding the provisions of article 303 of the Stock Companies Act.

Finally, the shareholders' meeting will decide on the sum to be applied to voluntary reserves and set aside to fund new investments, building and contingencies.

After the above provisions have been met and the necessary sums have been set aside to cover any other items stipulated in law or these Bylaws, dividends may be distributed against the profit for the year or retained earnings in such sum as the shareholders' meeting may decide. The remainder, if any, will be carried forward to the following financial year.

The General Meeting may agree that the dividend be paid fully or partially in kind, as long as: (i) the assets or securities object of distribution are homogenous; (ii) they are admitted to listing on an official market -at the time the resolution is effective- or that obtaining liquidity is guaranteed by the company in a maximum period of one year; and (iii) that they are not distributed for a value less than they have in the company balance sheet. The same rules will apply in the case of a reduction of capital with refund of contributions when payment to shareholders is made, totally or partially, in kind.

3. Modification of articles 40 ("Chairman and Vice-Chairman") and 35 ("Board Meeting") of the Bylaws.

We propose modifying the text of the Bylaws to introduce into the company, in line with the best national and international practices of corporate governance, the figure of the Lead Independent Director, who must exist when, as is the current case, the Chairman of the Board of Directors simultaneously holds the position of Chief Executive Officer of the company.

This measure is inspired by the Unified Good Governance Code of Listed Companies (the "Unified Code") which, in the interest of preserving the best conditions for the good development of the general supervision duties of the Board of Directors, advises listed companies to adopt counterweight measures to avoid the excessive concentration of powers in one person, the Chairman, when he also holds the position of Chief Executive Officer of the company.

In this sense, and in line with the Olivencia Report, the 17th Recommendation of the Unified Code establishes that *"When a company's Chairman is also its Chief Executive, an independent director should be empowered to request the calling of board meetings or the inclusion of new business on the agenda; to coordinate and give voice to the concerns of external directors; and to lead the board's evaluation of the Chairman."*

Likewise, the Regulations of the Board of Directors have been modified to adapt to the introduction of this figure.

The Board of Directors considers the introduction of this figure to be positive, emphasising equally that the Company Corporate Governance system establishes extensive counterweight measures to limit the risk of accumulating powers in the figure of the Chairman and Chief Executive Officer, such as, among others, that half of the members of the Board of Directors be independent and that all the members of the Audit and Control Committee be independent. Likewise, the Appointment and Remuneration Committee has proposed to the Board of Directors the appointment of a new Independent Director as member of the Nomination and Compensation Committee, which will in consequence be composed of a majority of independent directors.

Consequently, and on a bylaw level, we propose modifying articles 40 and 35 of the Bylaws as follows:

a) That in article 40 ("Chairman and Vice-Chairman") we propose foreseeing that, when the Chairman simultaneously holds the position of chief executive of the company, the Board of Directors should appoint (at the proposal of the Nomination and Compensation Committee) an independent member to perform the role of Lead Independent Director, with the following tasks: (i) to request that the Chairman of the Board of Directors call said body when considered convenient; (ii) to request the inclusion of business in the agenda of meetings of the Board of Directors; (iii) to coordinate and give voice to the concerns of external directors; (iv) to lead the board's evaluation of the Chairman; and (v) to call and chair the meetings of independent directors considered necessary or convenient.

b) In article 35 ("Board Meetings") the possibility that the Lead Independent Director could request the Chairman to call the Board would be expressly included.

In addition, and given that the Regulations of the Board of Directors of the company, in its current drafting, already foresees that the Board must be called when requested by members who represent, at least, a quarter of the total, we propose adapting article 35 of the Bylaws to said provision and company practice (given that the current bylaws text only foresees that said duty responds to the majority of the Directors).

To ease the comparison between the current drafting of the articles proposed to be modified and the resulting modification, below we include, in two columns, a literal transcription of both texts, merely for the purpose of information.

Article 40
Chairman and Vice-Chairman
[Current text without modification]

Article 40
Chairman, and Vice-Chairman and Lead Independent Director

[Current text without modification]

When the Chairman holds the position of Chief Executive of the company, the Board of Directors will appoint, at the proposal of the Nomination and Compensation Committee, an independent director who, under the name of Lead Independent Director, will perform the following tasks:

(i) To request that the Chairman of the Board of Directors call this body when considered convenient.

(ii) To request the inclusion of business in the agenda of meetings of the Board of Directors.

(iii) To coordinate and give voice to the concerns of external directors

(iv) To lead the board's evaluation of the chairman

(v) To call and chair the meetings of independent directors considered necessary or convenient.

Article 35
Board Meetings

The board will meet at least six times a year and whenever else it may be called to do so by the chairman or acting chairman, or when requested by the majority of directors. Meetings will normally be held at the registered office, but may be held anywhere else as decided by the Chairman and indicated in the notice of call.

[Rest without modification]

Article 35
Board Meetings

The board will meet at least six times a year and whenever else it may be called to do so by the chairman or acting chairman, or when requested by ~~the majority a quarter, at least,~~ of the directors or the lead independent director referred to in article 40. Meetings will normally be held at the registered office, but may be held anywhere else as decided by the Chairman and indicated in the notice of call.

[Rest without modification]

Report of the Board of Directors on the resolution proposal related to the seventh point of the Agenda: ("Re-election as Director of Mr. Antonio Brufau Niubó").

The seventh point of the Agenda is to re-elect as Director, for a further period of four years, the Chairman of the Board of Directors of Repsol YPF, S.A., Mr. Antonio Brufau Niubó.

The proposal of appointment as a Director of Mr. Antonio Brufau Niubó, which the Board of Directors presents to the General Meeting, has been agreed following a favourable report by the Nomination and Compensation Committee held on 16 February 2011, which equally ratified the concurrence and subsistence, at the time of re-election, of the conditions of full eligibility of Mr. Brufau to hold the position of Director.

Mr. Brufau was appointed Director of Repsol YPF, S.A. by resolution of the Board of Directors on 23 July 1996, later ratified by the General Shareholders' Meeting on 6 June 1997, and re-elected by the General Shareholders' Meeting on 24 March 1999, on 4 April 2003 and 9 May 2007.

According to that established in the Bylaws and the Regulations of the Board of Directors, Mr. Brufau is considered to be a "Executive Director".

Available to the shareholders, on the company website (www.repsol.com), is a brief professional history of Mr. Brufau, other Boards of Directors to which he belongs, and the number of shares in the company which he owns, as well as a more detailed explanation of this proposal.

Report of the Board of Directors on the resolution proposal related to the eighth point of the Agenda: ("Re-election as Director of Mr. Luis Fernando del Rivero Asensio").

The eighth point of the Agenda is to re-elect as Director, for a further period of four years, Mr. Luis Fernando del Rivero Asensio.

The proposal of appointment as a Director of Mr. Luis Fernando del Rivero Asensio, which the Board of Directors presents to the General Meeting, has been agreed following a favourable report by the Nomination and Compensation Committee held on 16 February 2011, which equally ratified the concurrence and subsistence, at the time of re-election, of the conditions of full eligibility of Mr. del Rivero to hold the position of Director.

Mr. del Rivero was appointed Director of Repsol YPF, S.A. by resolution of the board of directors on 29 November 2006 and later ratified and appointed by the General Shareholders' Meeting on 9 May 2007.

According to that established in the Bylaws and the Regulations of the Board of Directors, Mr. del Rivero is considered to be an "External Institutional Director".

Available to the shareholders, on the company website (www.repsol.com), is a brief professional history of Mr. del Rivero, other Boards of Directors to which he belongs, and the number of shares in the company of which he is owner.

Report of the Board of Directors on the resolution proposal related to the ninth point of the Agenda: ("Re-election as Director of Mr. Juan Abelló Gallo").

The ninth point of the Agenda is to re-elect as Director, for a new period of four years, Mr. Juan Abelló Gallo.

The proposal of appointment as a Director of Mr. Juan Abelló Gallo, which the Board of Directors presents to the General Meeting, has been agreed following a favourable report by the Nomination and Compensation Committee held on 16 February 2011, which equally ratified the concurrence and subsistence, at the time of re-election, of the conditions of full eligibility of Mr. Abelló to hold the position of Director.

Mr. Abelló was appointed Director of Repsol YPF, S.A. by resolution of the Board of Directors on 29 November 2006 and later ratified and appointed by the General Shareholders' Meeting on 9 May 2007.

According to that established in the Bylaws and the Regulations of the Board of Directors, Mr. Abelló is considered to be an *“External Institutional Director”*.

Available to the shareholders, on the company website (www.repsol.com), is a brief professional history of Mr. Abelló, other Boards of Directors to which he belongs, and the number of shares in the company which he owns.

Report of the Board of Directors on the resolution proposal related to the tenth point of the Agenda: (“Re-election as Director of Mr. Luis Carlos Croissier Batista”).

The tenth point of the Agenda is to re-elect as Director, for a new period of four years, Mr. Luis Carlos Croissier Batista.

The proposal of appointment as a Director of Mr. Luis Carlos Croissier Batista, which the Board of Directors presents to the General Meeting, has been agreed following a favourable report by the Nomination and Compensation Committee held on 16 February 2011, which equally ratified the concurrence and subsistence, at the time of re-election, of the conditions of full eligibility of Mr. Croissier to hold the position of Director. It is the responsibility of said Commission, in accordance with the company Bylaws and the Regulations of the Board of Directors, to propose the appointment of External Independent Directors.

Mr. Croissier was appointed Director of Repsol YPF, S.A. by resolution of the General Shareholders' Meeting on 9 May 2007.

According to that established in the Bylaws and the Regulations of the Board of Directors, Mr. Croissier is considered to be an *“External Independent Director”*.

Available to the shareholders, on the company website (www.repsol.com), is a brief professional history of Mr. Croissier, other Boards of Directors to which he belongs, and the number of shares in the company which he owns.

Report of the Board of Directors on the resolution proposal related to the eleventh point of the Agenda: (“Re-election as Director of Mr. Ángel Durández Adeva”).

The eleventh point of the Agenda is to re-elect as Director, for a new period of four years, Mr. Ángel Durández Adeva.

The proposal of appointment as a Director of Mr. Ángel Durández Adeva, which the Board of Directors presents to the General Meeting, has been agreed following a favourable report by the Nomination and Compensation Committee held on 16 February 2011, which equally ratified the concurrence and subsistence, at the time of re-election, of the conditions of full eligibility of Mr. Durández to hold the position of Director. It is the responsibility of said Commission, in accordance with the company Bylaws and the Regulations of the Board of Directors, to propose the appointment of External Independent Directors.

Mr. Durández was appointed Director of Repsol YPF, S.A. by resolution of the General Shareholders' Meeting on 9 May 2007.

According to that established in the Bylaws and the Regulations of the Board of Directors, Mr. Croissier is considered to be an *“External Independent Director”*.

Available to the shareholders, on the company website (www.repsol.com), is a brief professional history of Mr. Durández, other Boards of Directors to which he belongs, and the number of shares in the company which he owns.

Report of the Board of Directors on the resolution proposal related to the twelfth point of the Agenda: (“Re-election as Director of Mr. José Manuel Loureda Mantiñán”).

The twelfth point of the Agenda is to re-elect as Director, for a new period of four years, Mr. José Manuel Loureda Mantiñán.

The proposal of appointment as a Director of Mr. José Manuel Loureda Mantiñán, which the Board of Directors presents to the General Meeting, has been agreed following a favourable report by the Nomination and Compensation Committee held on 16 February 2011, which equally ratified the concurrence and subsistence, at the time of re-election, of the conditions of full eligibility of Mr. Loureda to hold the position of Director.

Mr. Loureda was appointed Director of Repsol YPF, S.A. by resolution of the Board of Directors on 31 January 2007 and later ratified and appointed by the General Shareholders' Meeting on 9 May 2007.

According to that established in the Bylaws and the Regulations of the Board of Directors, Mr. Loureda is considered to be an *“External Institutional Director”*.

Available to the shareholders, on the company website (www.repsol.com), is a brief professional history of Mr. Loureda, other Boards of Directors to which he belongs, and the number of shares in the company which he owns.

Report of the Board of Directors on the resolution proposal related to the thirteenth point of the Agenda: (“Appointment as Director of Mr. Mario Fernández Pelaz”).

The thirteenth point of the Agenda consists of appointing as Director, for a period of four years, Mr. Mario Fernández Pelaz, to cover the vacancy created by the resignation of Mr. Carmelo de las Morenas López.

Mr. de las Morenas López was appointed director of Repsol YPF, S.A. on 23 July 2003, and re-elected for the last time, by resolution by the General Meeting on 9 May 2007, which approved his re-election as director for the period of four years stipulated in the bylaws.

For this reason, as the period of his last re-election as director will soon expire (9 May 2011), in order to ease his replacement by subjecting this proposal to the General Shareholders' Meeting, he communicated his resignation of his position in the meetings of the Nomination and Compensation Committee and the Board of Directors on 16 and 23 February 2011 respectively. Said resignation will be effective as of 15 April 2011, in the meeting that the Board of Directors will hold before the start of the General Shareholders' Meeting.

The proposal of appointment as a Director of Mr. Mario Fernández Pelaz, that the Board of Directors presents to the General Shareholders' Meeting, has been agreed at the proposal of the Nomination and Compensation Committee. It is the responsibility of said Committee, in accordance with the company Bylaws and the Regulations of the Board of Directors, to propose the appointment of External Independent Directors.

Consequently, according to that established in the Bylaws and the Regulations of the Board of Directors, Mr. Fernández Pelaz would be considered to be an *“External Independent Director”*.

Below shareholders will find a brief history of Mr. Fernández Pelaz:

- Lawyer specialised in Financial Law (securities market and credit market), corporate law, acquisitions, etc.
- Professor of Mercantile Law in the Faculty of Law of Deusto University and in the Faculty of Business Science at the same University, from 1966 to 1997.
- Professor of different Masters at Deusto University.
- Minister and later Vice-president of the Basque Government (1980-1985). Chairman of the Central Administration-Basque Government Transfers Mixed Committee, Chairman of the Basque Financial Council, Chairman of the Economic Committee of the Basque Government.
- Member of the Arbitration Committee of the Basque Autonomous Community since its creation until the year 2009.
- Executive Director of Grupo BBVA and member of the Executive Committee from 1997 to 2002.
- Main Partner of Uría Menéndez from 2002 to June 2009.
- Since July 2009, Chairman of BBK.
- Author of different publications on mercantile and financial matters.

Mr. Fernández Pelaz owns, directly and indirectly, a total of 4,000 shares in Repsol YPF, S.A.

Report of the Board of Directors on the resolution proposal to the fourteenth point (“Delivery Share Plan for Beneficiaries of Pluriannual Remuneration Programmes”) and fifteenth point (“Share Acquisition Plan 2011-2012”) of the Agenda.

The company Board of Directors has approved, following a report from the Nomination and Compensation Committee, two remuneration plans linked or referenced to the value of company shares, aimed at employees and executives of Repsol YPF Group. To put these plans into practice, in accordance with the Stock Companies Act, they must be submitted to the General Shareholders' Meeting.

The first of the plans indicated (the “Delivery Share Plan for Beneficiaries of the Pluriannual Remuneration Programmes”) contemplates the payment of shares in favour of its beneficiaries (Executive Directors, Executives and other professionals of Repsol Group YPF who are beneficiaries of certain pluriannual remuneration programmes) and linked to certain investment and continuance requirements. The second of the plans, called “Share Acquisition Plan 2011-2012”, is aimed at executives and employees of Repsol YPF Group in Spain, and its purpose is to allow those who wish to do so to receive up to €12,000 of their annual remuneration in company shares. Both plans aim to favour employee and executive investment in company capital, increasing their motivation and loyalty, and contributing to the structuring of a common group culture in terms of compensation and benefits.

The plans indicated are explained in greater detail below.

a) Delivery Share Plan for Beneficiaries of Pluriannual Remuneration Programmes.

The company is running certain pluriannual remuneration programmes (IMP) in cash aimed at executive directors, executives and other professional groups. These plans last for four years and are linked to the fulfilment of certain objectives. Currently in force are IMP 2007-2010 (already finalised and pending payment), IMP 2008-2011, IMP 2009-2012, IMP 2010-2013 and IMP 2011-2014.

The purpose of the Delivery Share Plan for Beneficiaries of Pluriannual Remuneration Programmes is to allow Executive Directors, as well as the beneficiaries of said pluriannual remuneration programmes, to invest up to 50% of the gross amount received in the liquidation of each of the programmes in company shares, with the particularity that, if they keep the shares for three years and fulfil other conditions (continuance in the Group, fulfilment of internal regulations and lack of material reformulation of the financial state of the company that affects the level of compliance with the pluriannual remuneration programme objectives), at the end of the period indicated, they will receive one Repsol YPF share for every three shares of the initial investment that they have maintained.

The proposal submitted to the General Meeting contemplates the approval of five cycles of the Delivery Share Plan for Beneficiaries of Pluriannual Remuneration Programmes, aimed at regulating investment by beneficiaries up to a maximum of 50% of the gross amounts that correspond to them in accordance with the pluriannual remuneration programmes IMP 2007-2010 (liquidated in 2011), IMP 2008-2011 (liquidated in 2012), IMP 2009-2012 (liquidated in 2013), IMP 2010-2013 (liquidated in 2014) and IMP 2011-2014 (liquidated in 2015). In consequence, the shares object of the Plan given to its beneficiaries, in the proportion of one for every three invested and maintained, would be produced, if applicable, in the years 2014 (for the first cycle), 2015 (for the second cycle), 2016 (for the third cycle), 2017 (for the fourth cycle) and 2018 (for the fifth cycle).

The proposal contemplates the maximum amount for each of the cycles that can be dedicated to investment in shares, and the formula to determine the maximum number of shares to be given during each cycle, and it is completed with the usual powers of development of the regulations of the Plan and interpretation in favour of the Board of Directors and, by delegation, of the Delegate Committee.

b) Share Acquisition Plan 2011-2012

The Share Acquisition Plan 2011-2012 aims to allow executives and the rest of the employees of Repsol YPF Group in Spain who wish to do so, to receive up to €12,000 of the annual remuneration in company shares. It is therefore a plan that does not involve additional remuneration, but it simply allows its beneficiaries to structure their remuneration in a different payment form

–in shares–, at their own discretion. The plan is equally designed taking into consideration the treatment as income exempt of tax that giving company shares to employees of Repsol YPF Group in Spain has on Personal Income Tax, as long as it does not exceed an annual remuneration of €12,000, that the offer is made as part of the general compensation policy of the company or its groups –as is the case–, that employees, together with their partners and their immediate family do not own, directly or indirectly, more than 5 per cent of the shares in the company or in other companies of the Group and that these maintain the shares received for at least three years.

The proposal contemplates the maximum amount that can be dedicated to investment in shares, and the formula to determine the maximum number of shares to be given, and it is completed with the usual powers of development of the regulations of the Plan and interpretation in favour of the Board of Directors and, by delegation, of the Delegate Committee.

Report of the Board of Directors on the resolution proposal related to the sixteenth point of the Agenda (“Delegation to the Board of Directors of the power to issue fixed rate, convertible and/or exchangeable securities for company shares or exchangeable for shares in other companies, as well as warrants (options to subscribe new shares or to acquire shares in circulation of the company or other companies). Fixing the criteria to determine the bases and modes of conversion and/or exchange and attribution to the Board of Directors of the powers to increase capital by the amount necessary, as well as to totally or partially exclude the pre-emptive subscription rights of the shareholders of said issues. Authorisation for the company to guarantee securities issued by its subsidiaries. To leave without effect, in the portion not used, the seventh resolution of the General Shareholders' Meeting held on 16 June 2006.”):

The object of this report is to justify the proposal of the General Shareholders' Meeting that, under the sixteenth point of the Agenda, grants powers to the Board of Directors of Repsol YPF, S.A. (the “Company”), with the express power of delegation in favour of the Delegate Committee, to issue, on one or several occasions, debentures, bonds and other fixed rate securities of a similar nature, exchangeable and/or convertible in Company shares or exchangeable for shares of other companies, as well as warrants convertible and/or exchangeable for shares in the Company or other companies.

The Board of Directors considers that it highly recommendable to have the delegated powers allowed in current regulations to be, at all times, in conditions to capture in the primary securities markets those funds that are necessary to adequately manage the company interests. From this perspective, the delegation proposed aims to grant the company administration body the leeway and response capacity required by the competitive environment in which the company moves; in which the success of a strategic initiative or a financial operation often depends on the possibility of carrying it out quickly, without the hesitation and cost entailed in calling and holding a General Shareholder's Meeting.

With this purpose, according to that established in articles 511 of the Stock Companies Act and 319 of the Regulations of the Mercantile Registry, applying by analogy that stipulated in article 297.1.b) of the Stock Companies Act, we propose to the General Meeting adopting the resolution formulated under the sixteenth point of its Agenda.

The proposal establishes a maximum amount appointed to the issues under the delegation of €7 billion or its equivalent in another currency, distributed among issues of debentures that are convertible and/or exchangeable for company shares, or warrants on newly issued shares in which, under section B)7 of the proposal formulated, the pre-emptive subscription right is excluded (whose maximum amount will in turn be €3 billion), and the issues of debentures that are convertible and/or exchangeable or warrants, or debentures exchangeable for other companies shares, in which the pre-emptive subscription right is not excluded (whose maximum amount will in turn be €4 billion) .

The proposal also contemplates authorising the Board of Directors to issue convertible and/or exchangeable debentures or bonds or warrants and to agree, when appropriate, the necessary capital increase to attend the conversion or exercising of the subscription option, as long as this increase by delegation does not exceed half of the company capital, as stipulated in article 297.1.b) of the Stock Companies Act, or the lower limit established in the General Meeting authorisation for the case in which the issue excludes the pre-emptive subscription right.

Additionally, also in the case of issuing convertible and/or exchangeable securities, the resolution proposed includes the criteria to determine the bases and forms of the conversion and/or exchange, although it does allow the Board of Directors to specify some of these bases and forms for each issue, always within the limits and in accordance with the criteria set by the General Meeting. Consequentially, it will be the Board of Directors who determines the specific ratio of conversion and/or exchange for which it will issue, at the time of approving an issue of convertible and/or exchangeable securities, under this delegation, a report developing and specifying the specific bases and forms of conversion, exchange or exercising that will also be object of the corresponding auditors' report, as established in article 414.2 of the Stock Companies Act.

In particular, the resolution proposal submitted to approval by the General Meeting establishes that the securities issued will be evaluated by their par amount, and the shares at a fixed (determined or to be determined) or variable exchange rate, determined by the resolution of the Board of Directors.

Thus, to the effects of conversion and/or exchange, the fixed rate securities will be evaluated for their par amount, and the shares at the exchange rate established by the Board of Directors in the resolution in which it makes use of this delegation, or at the exchange rate to be determined on the date or dates indicated in said resolution, according to the listing value on the stock market of company shares on the date/s or in the period/s taken as a reference in the same resolution, with or without discount and, in any case, with a minimum of the highest of the following two: (a) the average exchange rate of the shares in the Continuous Market of Spanish Stock Markets, according to closing rates, during a period to be determined by the Board of Directors; no more than three (3) months nor less than fifteen (15) days before the date of adopting the resolution to issue fixed rate securities by the Board of Directors, and (b) the exchange rate of the shares on the Continuous Market according to the closing rate on the day prior to adopting said issue resolution. In this way, the board considers that it is granted sufficient margin of flexibility to set the value of shares for the purpose of conversion, exchange or exercising according to market conditions and other applicable considerations, although this must be, at least, substantially equivalent to its market value at the time that the board resolves the issue of fixed rate securities.

It may also be agreed to issue convertible and/or exchangeable fixed rate securities with a variable ratio of conversion and/or exchange. In this case, the price of the shares for the purpose of conversion and/or exchange, will be the arithmetical average of the closing prices of the company shares in the Continuous Market during a period to be determined by the Board of Directors; no more than three (3) months or less than five (5) days before the date of conversion and/or exchange, with a premium or, where appropriate, a discount on said price per share. The premium or discount can be different for each date of conversion and/or exchange of each issue (or, when appropriate, each stage of an issue), although in the case of setting a discount on the price per share, this may not be greater than 30%. Again, the board considers that this provides it with sufficient leeway to set the variable conversion and/or exchange ratio according to market circumstances and the remaining considerations that the board must attend to, by establishing a maximum discount in order to ensure that the type of issue of new shares in the case of conversion, should the discount be granted, does not deviate more than 30% in relation to the market value of the shares at the time of conversion.

Similar criteria will be used, *mutatis mutandi* and insofar as they are applicable, to issue debentures (or warrants) exchangeable for shares in other companies (in this case, the references to the Spanish stock markets will be made, if appropriate, to the markets where said shares are listed).

In the case of warrants on newly issued shares, inasmuch as they are compatible with their nature, the rules on convertible debentures assigned in the proposal shall be applied.

In addition, and in accordance with that stipulated in article 415.2 of the Stock Companies Act, convertible debentures may not be converted into shares when the par value of the shares is

less than the value of the debentures. Neither may convertible debentures be issued for an amount lower than their par value.

On the other hand, it is stated that the authorisation to issue fixed rate securities includes, in accordance with that established in article 511 of the Stock Companies Act and in the case that the object of the issue is convertible debentures, attributing the Board of Directors the power to exclude, totally or partially, the pre-emptive subscription right of shareholders when this is required to capture financial resources on the markets or in other ways justified by company interests. The Board of Directors considers that this additional possibility, that considerably extends the leeway and capacity of response offered by a simple delegation of the power to issue convertible debentures, is justified by the flexibility and agility with which it is necessary to act in current financial markets in which the market conditions are more propitious. This justification also exists when capturing financial resources is intended to be made on international markets or by techniques of demand prospecting or bookbuilding or when otherwise justified by company interests. Finally, the withdrawal of the pre-emptive subscription right allows a relative reduction of the financial cost of the loan and the costs associated to the operation -including, in particular, the commissions of the financial entities that participate in the issue- in comparison with an issue in which pre-emptive subscription right are given, and at the same time it has a lesser effect of distortion in the negotiation of company shares during the issue period.

With all this, note that the exclusion of the pre-emptive subscription right is a power that the General Meeting delegates in the Board of Directors and it corresponds to the latter, taking into account the specific circumstances and in relation to legal requirements, to decide in each case whether excluding such a right is appropriate or not. Additionally, in the case that in an issue the board resolves the exclusion of the pre-emptive subscription right, it must issue at the same time a report explaining the reasons of company interest that justify said exclusion, which will be object of the compulsory auditors' report established in articles 417.2 and 511.3 of the Stock Companies Act, and they will be available to shareholders and communicated in the first General Meeting held after adopting the issue resolution.

The proposal is completed with the request that, when appropriate, the securities issued under this authorisation are admitted to negotiation in any secondary market, organised or not, national or foreign, authorising the board to carry out the appropriate procedures for such purposes, with the express possibility that the powers of any kind granted to the Board of Directors may in turn be delegated by the board to the Delegate Committee.

Likewise, the proposal includes authorising the board to guarantee the issue of fixed rate securities referred to in this resolution that may be made by companies belonging to Repsol YPF Group.

Finally, it must be specified that the proposal includes leaving without effect, in the portion not used, the seventh resolution of the General Shareholders' Meeting of 16 June 2006, due to identity in the matter regulated.

Report of the Board of Directors on the resolution proposal related to the seventeenth point of the Agenda ("Delegation of powers to complement, develop, execute, correct and formalise the resolutions adopted by the General Meeting")

This is the usual resolution that grants the Board of Directors the ordinary powers for the appropriate execution of the resolutions of the General Meeting itself, including the powers to formalise the deposit of the Annual Accounts and to register the resolutions subject to the same.

Report explaining the additional information of the Management Report for the fiscal year ended on december 31st, 2010

In accordance with Section 116.bis of the Securities Market Act, the present report, regarding the additional information required by said provision to be included in the Management Report, is formulated for its presentation at the Ordinary General Shareholders' Meeting of the Company.

-
- A** Structure of the capital, including any securities not traded on a EU regulated market, indicating the different classes of shares, if any, the rights and obligations granted by each class and the percentage of capital it represents.
- Repsol YPF, S.A. currently has a capital of 1,220,863,463 euros, divided into 1,220,863,463 shares with a par value of 1 euro each, fully subscribed and paid up, all in the same class and, consequently, with the same rights and obligations.
- The Repsol YPF, S.A. shares are issued in book-entry form and were admitted in their entirety for listing in the electronic continuous trading system of the Spanish stock exchanges (Madrid, Barcelona, Bilbao and Valencia), New York (New York Stock Exchange) and Buenos Aires (Bolsa de Comercio de Buenos Aires). At the date of the present Management Report, Repsol YPF, S.A. ADSs, are listed in the New York Stock Exchange-NYSE but on February 22nd, 2011 the company has formally applied for the delisting of the ADSs in said market. In this sense, it is estimated that the last day of trading of the ADSs on the NYSE will be March 4th, 2011.
-
- B** Any restriction on the transferability of shares
- As set out in the 11th Additional Provision of Act 34/1998 on the hydrocarbons sector, as per the wording of Royal Decree Law 4/2006, 24 February, administrative authorization must be sought from the National Energy Commission for certain holding acquisitions that involve companies that carry out regulated activities or activities that are subject to administrative intervention which entails a special binding relationship.
- The Ruling of the Court of Justice of the European Communities (CJEC) of 28 July 2008 set out that, by enforcing this requirement, the Kingdom of Spain has breached the obligations incumbent upon it under articles 43 (freedom of establishment) and 56 (freedom of movement of capital) of the European Community Constitutional Treaty.
-
- C** Direct or indirect significant interest in the share capital.
- As of the last date available, the following were the most significant holdings in the share capital of Repsol YPF, S.A.:

Shareholder	Total % of the share capital
Sacyr Vallehermoso, S.A.(1)	20.01
Criteria Caixa Corp, S.A.	12.97
Petróleos Mexicanos (2)	4.81

(1) The shareholding of Sacyr Vallehermoso is held through Sacyr Vallehermoso Participaciones Mobiliarias, S.L.

(3) The shareholding of Petroleos Mexicanos (Pemex) is held through Pemex Internacional España, S.A. and through several equity swap instruments with certain financial institutions providing mechanisms furnishing Pemex with the financial rights and the exercise of voting rights up to 4.81% of the company's share capital.

D

Any restriction on voting rights

- Article 27 of the Corporate Articles of Association of Repsol YPF, S.A. lays down that the maximum number of votes than an individual shareholder, or companies belonging to the same Group, may cast at the General Meeting of Shareholders shall be 10% of the Share Capital with voting rights.
- Furthermore, article 34 of Royal Decree Law 6/2000 sets out certain restrictions on the exercise of voting rights in more than one principal operator in the same market or sector. Among others, it lists the markets for the production and distribution of fuels, the production and supply of liquid petroleum gases and the production and supply of natural gas, principal operator being understood to be any of the entities that hold the five largest shares in the market in question.

Such constraints are specified as follows:

- Natural or legal persons who have a direct or indirect holding of over 3% in the Share Capital or the voting rights of two or more principal operators in the same market may not exercise the voting rights attached to the excess over and above such percentage in more than one of those companies.
- A principal operator may not exercise voting rights representing more than 3% of the Share Capital of another principal operator in the same market.

These prohibitions shall not apply to parent companies which have the status of principal operator with respect to their controlled companies that have the same status, provided that such structure is imposed by the legal system or is the consequence of a mere redistribution of securities or assets among companies in the same Group.

The National Energy Commission, as the energy market regulatory body, may authorize the exercise of the voting rights attached to the excess, provided that this does not favour the exchange of strategic information or entail risks of coordination in their strategic activities.

E

Shareholders' agreements

Repsol YPF, S.A. has not been notified of any shareholders' agreement regulating the exercising of voting right at its general meetings or limiting or establishing condition for the free transferability of the Repsol YPF, S.A. shares.

F

Rules applicable to the appointment and replacement of directors and to the amendment of the Articles of Association.

• Appointment

Members of the board are appointed by the General Meeting of Shareholders, without prejudice to the power of the Board to appoint shareholders to fill any vacancies that may arise, up to the next general meeting.

No-one affected by the prohibitions established in article 213 of the Stock Companies Act or any other incompatibilities established in current laws may be appointed director of the company.

Nor may persons or entities that are in a permanent conflict of interest with the company be directors, including competing companies, their directors, executives or employees, or any persons related to or proposed by such companies.

Directors must be persons who, as well as meeting the requirements stipulated in law and the bylaws, have recognised prestige and adequate knowledge and professional experience and expertise to perform their duties.

Nominations for the appointment of directors submitted by the Board to the General Meeting and appointments made by cooptation must be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

• Re-election

The Nomination and Compensation Committee assesses the quality of work and dedication to office during the preceding term in office of any directors proposed for re-election.

The proposals for re-election of directors submitted by the Board to the General Meeting must be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

• Retirement

Directors shall retire from office upon expiry of the term for which they were appointed (unless they are re-elected) and in the other cases contemplated in law, the Articles of Association and the Regulations of the Board.

Directors must also tender their resignations to the board in any of the following circumstances:

- When they are affected by any of the cases of incompatibility or prohibition established in law, the Articles of Association or regulations.
- If they are seriously reprimanded by the Nomination and Compensation Committee or the Audit and Control Committee for defaulting their obligations as directors.
- When, in the opinion of the Board, subject to a previous report by the Nomination and Compensation Committee:
 - Their remaining on the Board could jeopardise the interests of the company or adversely affect the functioning of the board or the reputation of the company; or
 - The reasons for their appointment have disappeared. This includes, in particular:
 - Institutional Outside Directors, if the shareholder they represent or that proposed their appointment disposes of all their shares. They shall also tender their resignations and resign, should the board so deem fit, in the corresponding proportion, if the shareholder in question disposes of part of its shareholding interest, to an extent requiring a reduction in the number of its institutional outside directors.
 - Executive Directors, if they cease to hold the executive positions outside the Board to which their appointment as director was linked.

The Board will not propose the removal of any Independent Outside Director before the end of the statutory term for which he/she has been appointed, unless there are just grounds for doing so, in the opinion of the Board, subject to a previous report by the Nomination and Compensation Committee. In particular, there shall be deemed to be just grounds when the director (i) has defaulted the duties corresponding to his/her office; (ii) is in any of the situations described in the preceding paragraphs; or (iii) falls into any of the circumstances described in the Regulations of the Board, whereby he/she can no longer be classified as a Independent Outside Director.

The retirement of Independent Outside Directors may also be proposed as a result of takeover bids, mergers or other similar corporate operations entailing a change in the ownership structure of the company, insofar as this may make it necessary to establish a reasonable balance between Institutional and Independent Outside Directors, in accordance with the ratio of capital represented by the former and the rest of the capital.

• Amendment of the Articles of Association

The Articles of Association of Repsol YPF, S.A., available on its web site (www.repsol.com), do not establish any conditions differing from those set out in the Joint Stock Companies Act for their amendment, except for the amendment of the last paragraph of Article 27, concerning the maximum number of votes that may be cast at General Meetings by any one shareholder

or the companies belonging to the same group. This resolution, and the resolution to amend this special provision contained in the final paragraph of Article 22 of the Articles of Association, must be adopted with the favourable vote, on first and second call, of 75% of the voting capital attending or represented at the general meeting.

G

Powers of the Board, particularly those concerning the issuing or repurchasing of shares

The Annual General Meeting of Shareholders of the company, held on 31 May 2005 agreed to authorise the Board of Directors to increase the Share Capital, once or several times, during a period of 5 years, by the maximum amount of 610,431,731 (approximately half of the current Share Capital), by issuing new shares the counter value of which shall consist of cash contributions.

Likewise, the Annual General Meeting of Shareholders of the company, held on 14 May 2009, authorised the Board of Directors to engage in the derivative acquisition of own shares, under the terms indicated above in the "Financial situation" section of this Management Report.

Finally, in addition to the powers recognised in the company's Articles of Association and the Board Regulations as being conferred upon the Chairman and Vice-Chairmen of the Board, the Executive Directors have each been granted general powers of attorney to represent the company, conferred by the Board of Directors, and which are duly recorded in the Commercial Register of Madrid.

H

Significant agreements entered into by the company, which are to become effective, be amended or terminate upon a change in the control of the company following a takeover bid, and the effects thereof, unless disclosure may be seriously detrimental to the company. This exception will not be applicable when the company is legally obliged to disclose this information.

The company participates in exploring for and exploiting hydrocarbons through consortiums or joint ventures with other oil companies, both public and private. In the contracts that govern relations between the members of the consortium the other partners are usually granted a right of first refusal over the holding of the partner on which a change of control takes place when the value of said holding is significant in relation to the overall assets of the transaction or when other conditions set out in the contracts occur.

Likewise, according to the rules regulating the oil and gas industry in the different countries in which the company operates, the transfer, total or partial, of research permits and exploitation concessions as well as, on occasions, the change of control in the concessionaire entity or entities and in particular in the entity that has the status of mining area operator, are subject to prior authorisation by the competent administrative authority.

In addition, the agreements entered into by and between Repsol YPF and Caja de Ahorros y Pensiones de Barcelona ("la Caixa") relating to Gas Natural SDG S.A., reported as relevant events through the Securities Market Commission, as well as the Industrial Agreement Activity between Repsol YPF and Gas Natural SDG S.A. foreseen in the abovementioned agreements and disclosed as a relevant event on 29 April 2005 and the Partnership Agreement between Repsol YPF and Gas Natural SDG relating to Repsol-Gas Natural LNG S.L. consider the change in the control structure of either of the parties to be grounds for termination.

I

Agreements between the company and its directors, executives or employees contemplating compensations when the latter resign or are dismissed without cause, or if their employment relationship is terminated as a result of a takeover bid.

- **Executive Directors**

The Chairman and the Secretary and General Counsel are entitled to a Deferred Economic Compensation in the event of termination of their relation with the company, provided such termination is not due to any default of their obligations or at their own desire, without any of the justifying causes contemplated in the contract. The amount of the compensation for termination of the relation is three years' total monetary remuneration.

- **Executives**

The Repsol YPF Group has established a single legal statute for its executives, set out in the Executive Contract, which regulates the compensations applicable in cases of termination of the employment relationship, contemplating as grounds for compensation those stipulated in current legislation.

For members of the Executive Committee, these grounds include resignation by the executive following a business succession or major change in the ownership of the company, resulting in a material change in the members of the governing bodies or in the contents and approach of the principal activity of the company. The amount of the compensation of the current members of the Executive Committee is calculated according to the age, seniority and salary of the executive.

Additional information of these matters is detailed in note 33 to the Consolidated Annual Accounts.

Report on the Remuneration Policy for Directors of Repsol YPF, S.A.

I. Competences of the board of directors and the nomination and compensation committee

The competences of the Board of Directors and its Nomination and Compensation Committee on Directors' remuneration are established in the By-Laws and in the Regulations of the Board of Directors.

In accordance with article 5.3.c) of the Regulations of the Board of Directors, the Directors' emoluments and, in the case of Executive Directors, the additional remuneration for their executive duties and other conditions of their contracts, have to be approved by the Board.

The Nomination and Compensation Committee, in accordance with article 33.4.a) of the Regulations, will propose to the Board its remuneration policy, assessing the responsibility, dedication and incompatibilities required to the Directors. In the case of Executive Directors, the Committee proposes to the Board their additional remuneration for their executive duties and other conditions of their contracts.

II. Remuneration policy for directors

1. Corporate Governance framework

The Spanish National Securities Market Commission (Comisión Nacional del Mercado de Valores) approved on May 22nd, 2006 the Unified Good Governance Code as single text on corporate governance recommendations. The main purposes of this Code were to (i) unify the existing recommendations in Spain until 2003; (ii) harmonize them with those made after that date (OECD principles and European Union recommendations, among others); and (iii) take into account the views of experts from the private sector as well as those from the State Secretariat for the Economy, the Ministry of Justice and the Banco de España.

One of the main principles of the Code is its voluntariness, subject to the "comply or explain" internationally known principle expressly cited in Article 116 of the Securities Market Act.

With this report Repsol YPF follows the new recommendations and continues its transparency policy on remuneration, treating separately the remuneration of Executives and non-Executive Directors and including a description of the main principles of the remuneration policy inside the Group.

2. General principles of the remuneration policy for Directors

In respect of the exercise by Directors of their oversight and group decision duties, the purpose of the remuneration policy is to remunerate them in a suitable way for their dedication and responsibilities without jeopardizing their independence.

In respect of the exercise by the Executive Directors of their executive duties (apart from their oversight and group decision duties), their remuneration is adapted to the executives remuneration general policy inside Repsol YPF Group, explained hereinafter.

Repsol YPF desires to be placed as an admired and distinguished Company in the fields it operates for the high value added, the excellence in management, the organization culture and the quality of its executive team.

In this regard, Repsol YPF understands remuneration as a value generating element through which the Company is able to retain and attract the best professionals, assuming undertakings with its executives and making them feel part of the organization.

Following these criteria, the determination of the total remuneration takes into consideration comparative figures from the Spanish large corporate groups. The remuneration of the Chief Executive Officer also takes into consideration the trends evolution of the European energy market.

Therefore, the total remuneration must be understood in view of the whole of the remuneration package, harmonizing the balance among all of its elements (fixed, variable short term and medium term remuneration and social benefits):

- Fixed remuneration: is determined taking into consideration the market references mentioned before and the sustainable contribution of each executive.
- Annual variable remuneration: its purpose is to motivate the performance of the executive and assess annually his or her contribution to the achievement of the established goals and to the development of the organization Values. Its maximum amount is established as a percentage of the fixed remuneration.
- Multi-annual variable remuneration: the Company has implemented monetary medium term incentive programs, with a four years measurement period. These programs sought to strengthen the ties of the executives with the interests of the shareholders through the sustainable creation of value, remunerating the contribution to the achievement of the strategic goals of the Company, and, at the same time, furthering the continuation of the executives within the Group in an increasingly competitive employment market.
- Other benefits: the above described monetary remunerations are complemented with welfare systems and health and life insurances, aligned with the reference market practices.

3. Directors remuneration structure

A. Fixed remuneration

a. Due to membership on the Board of Directors of Repsol YPF

In accordance with Article 45 of the bylaws, the Company may pay remuneration equal to 1.5% of its net profit to its Board members each year for the exercise of their oversight and group decision duties, but this amount can only be paid after covering the legal reserve and any other compulsory reserves and declaring a dividend of at least 4%. The Board of Directors shall decide on the exact sum payable within this limit and on its distribution among the Directors, taking into account the positions held on the Board and its Committees by each Director.

The Nomination and Compensation Committee shall propose to the Board the criteria it considers appropriate to achieve the purposes of this Article of the By-Laws.

The remuneration of the Directors is calculated through the allocation of points for the membership to the Board and its Committees.

The Board of Directors held on February 24, 2010 agreed not to increase the value of the point for 2010, as decided for 2009, keeping the value of the point set for 2008 fiscal year (Euros 86,143.51 - annual gross).

The allocation of points is the following:

	POINTS
Board of Directors	2
Delegate Committee	2
Nomination and Compensation Committee	0.5
Strategy, Investment and Corporate Social Responsibility Committee	0.5
Audit and Control Committee	1

The amounts of the remuneration earned by each Director in 2010 by virtue of membership to the Board and its Committees are as follows:

	Board of Directors	Delegate Committee	Audit and Control Committee	Nomination and Compensation Committee	Strat., Invest. And CSR Committee	TOTAL
Brufau Niubó, Antonio	172,287	172,287	–	–	–	344,574
Del Rivero Asensio, Luis	172,287	172,287	–	–	–	344,574
Fainé Casas, Isidro	172,287	172,287	–	–	–	344,574

TOTALES	2,756,592	1,378,296	344,576	172,288	258,432	4,910,184

b. Due to membership on the Board of Directors of subsidiaries

The amount accrued by the CEO in 2010 for his membership in the Board of Directors of Group companies, jointly controlled companies or associates, totalled 344,631 euros (78,981 euros for his membership to the Board of Directors of YPF, S.A. and 265,650 euros for his membership to the Board of Directors of Gas Natural SDG, S.A.). The amount accrued in 2010 by the Director and General Counsel for the same concept totalled 190,975 euros (9,921 euros for his membership in the Board of Directors of Compañía Logística de Hidrocarburos, S.A., CLH, 103,500 euros for his membership to the Board of Directors of Gas Natural SDG, S.A. and 77,553 euros for his membership to the Board of Directors of YPF, S.A.).

The non-Executive Directors has not received remuneration of any other kind due to membership on the Board of Directors of Group companies, jointly controlled companies or associates.

c. Due to the discharge of executive duties

This Section contains information regarding fixed remuneration accrued by the Executive Directors due to the holding of executive positions and the discharge of executive duties.

Taking into consideration the aforementioned, the fixed remuneration earned by the CEO and by the Director and General Counsel in 2010 amounted to 2,310 thousand euros and 959 thousand euros, respectively.

B. Annual variable remuneration

Inside the Board, the short term variable remuneration is only applicable to Executive Directors.

The annual variable remuneration of the Executive Directors is calculated as a percentage of their fixed remuneration taking into consideration the global evaluation of their performance.

To calculate the annual variable remuneration of the CEO, the Board of Directors on the proposal of the Nomination and Compensation Committee, previously determined the objectives and the measurable criteria that are considered in order to estimate its amount. Among

the criteria considered for annual variable remuneration for the year 2010 are objectives related to the implementation of the Strategic Plan, implementation of financial standards, results and reputational policy matters, corporate governance, and corporate social responsibility and environmental, of the Company.

As regards for the calculation of the annual variable remuneration of the Director and General Counsel, it is also followed a predetermined and measurable criteria, which are set by the Chairman of the Board of Directors, following the same criteria as for the rest of the management of the Company, that amount is approved by the Board of Directors on the proposal of the Nomination and Compensation Committee.

The CEO and the Director and General Counsel have accrued in 2010 an annual variable remuneration of 362 thousand euros⁽¹⁾ and 384 thousand euros, respectively.

C. Multi-annual variable remuneration

Since 2000, the Nomination and Compensation Committee (formerly the Selection and Compensation Committee) of the Board of Directors of Repsol YPF has been implementing a loyalty-building program geared initially toward executives and extendable to other people with responsibilities within the Group. This program consists of setting a medium-/long-term incentive, as part of the remuneration system.

At the end of the 2010 fiscal year, the 2007-2010, 2008-2011, 2009-2012 and 2010-2013 incentive plans were in effect, although it is worth noting that the first of the above-mentioned programs (2007-2010) was closed, in accordance with its terms, on December 31, 2010, and its beneficiaries will receive their respective variable remuneration in the first quarter of 2011, after evaluation the degree of achievement of their objectives.

The said programs are separate from each other, but their primary characteristics are the same. In all cases, these are specific multiple year remuneration plans for the fiscal years included in each one of them. Each plan is tied to the achievement of a series of Group strategic objectives. The achievement of the respective objectives gives the beneficiaries of each plan the right to receive the medium-term variable remuneration in the first quarter following the fiscal year in which it ends. Nevertheless, in each case, the receipt of the incentive is tied to the beneficiary remaining in the service of the Group until December 31 of the last fiscal year in the program, with the exception of the special cases discussed in its specific terms.

In all the incentive plans, if obtained, would consist of an amount determined at the time of its granting, applying a first variable coefficient, in accordance with the degree of achievement of the objectives set out, additionally multiplied by a second variable coefficient, tied to the beneficiary's performance throughout the period covered by the program.

None of the four plans implies the delivery of shares or options to any of its beneficiaries, nor is it pegged to the value of Repsol YPF stock.

The CEO does not participate in any of the incentive programs in force at this time. Nevertheless, the degree of achievement of the program expiring each year will be taken as reference for the determination of the multi-annual variable remuneration of each year which will be paid in the following year.

The Director and General Counsel is a beneficiary of 2007-2010, 2008-2011, 2009-2012 and 2010-2013 programs.

During 2010, the CEO and the Director and General Counsel have accrued a gross value of 1,207 thousand euros and 280 thousand euros, respectively, for this concept.

Inside the Board, this remuneration concept is only applicable to Executive Directors.

D. Welfare systems

Repsol YPF considers that the remuneration package of the Executive Directors must have a composition in accordance with markets trends. In this regard, the remuneration previously detailed is complemented with a welfare system.

An insurance policy covers the retirement, disability and decease contingencies of the CEO, with Repsol YPF acting as policyholder.

(1) The statutory attentions for being member of the administrative bodies of the Repsol YPF Group and participated Companies are deducted from the CEO's annual variable remuneration.

In case of termination of his relationship with Repsol YPF, the CEO will acquire the ownerships of the funds. The CEO is the beneficiary in case of retirement and disability. In case of decease, the beneficiaries are those appointed by the CEO.

The Director and General Counsel is a beneficiary of the Loyalty Premium (Premio de Permanencia), a remuneration concept of deferred payment. The purpose of this concept, implemented through a Securities Investment Fund (Fondo de Inversión Mobiliaria – FIM) called Loyalty Fund (Fondo de Permanencia), is to reward his continuance in Repsol YPF Group.

Annually Repsol YPF contributes to FIM, under the form of participations, a 20% of the annual fixed remuneration of the Director and General Counsel. The Company is the owner of such participations until retirement of the Director and General Counsel. Upon his retirement, the Director and General Counsel will be the owner of the participations. In addition, in case of termination of his contract (when he is entitled to severance payments) and upon his 62 birthday, he will be entitled to receive the accumulated amount of the Loyalty Premium.

He is also participant of the Repsol YPF pensions' plan of defined contribution, which maximum annual contribution was collectively agreed on 7,212 euros.

In addition, he is the beneficiary of a decease and disability insurance policy, with Repsol YPF acting as policyholder.

The cost of the retirement, disability and death insurance policies and of the contributions to pension plans and to the prevision plans, including, as pertinent, those pertaining to entries on account, which the Company has incurred for Executives Directors, amounted to a total of 2,784 thousand euros in 2010. Of this amount, in the case of the CEO, 208 thousand euros correspond to his death insurance policy, 2,288 thousand euros correspond to the cost of the retirement insurance; in the case of the Director and General Counsel, 90 euros thousand correspond to his death insurance policy, 7 thousand euros to the contributions for the pension plan and to the cost of the retirement insurance, and 192 thousand euros for the contributions to the Loyalty Premium.

Non-Executive Directors are not beneficiaries of any other Repsol YPF welfare system instrument.

E. Other payments

In addition, in 2010 the expenses related to remuneration in kind of the Executive Directors amounted to 51 thousand euros, with respect to the CEO, and 2 thousand euros, with respect to the Director and General Counsel.

The Non-Executive Directors have not received any remuneration in kind.

F. Other contractual conditions

All the Board members are covered by the same third-party liability insurance policy as that covering all the directors and executives of Repsol YPF Group.

G. Other contractual conditions of the Executive Directors

The CEO and the Director and General Counsel are entitled to a Deferred Economic Compensation in the event of termination of their relation with the Company, equivalent to three years' total monetary remuneration, plus one year's total monetary remuneration in compensation for the non-competition agreement for the year following termination.

The Deferred Economic Compensation will be paid to the Executive Directors provided termination of the relation with the Company is due to causes attributable to the Company or by mutual agreement or, in the case of the Director and General Counsel, is due to objective circumstances such as an important change in the Company's share capital ownership.

This report was formulated by the Board of Directors of Repsol YPF in its meeting held on February 23, 2011.

APPENDIX: Calendar of meetings held in the 2010 fiscal year

1

Background

The Audit and Control Committee of the Board of Directors of Repsol YPF, S.A. was constituted by the Board at its meeting held on February 27, 1995.

Although recognised by a number of "Codes of Good Corporate Governance" published in Spain, such as the "Olivencia" Report (1998) and the "Aldama" Report (2003), the constitution of this type of Committees in the Board of Directors of listed companies, was not obligatory in this country until November 23 date in which the Financial System Reform Measures Act 44/2002, of 22 November, came into effect.

Article 32 of the Regulations of the Board of Directors of Repsol YPF, S.A. establishes the structure, the operation and the field of activity of the Audit and Control Committee.

In accordance with the provisions of these Regulations, the Committee is an internal body of the Board of Directors with duties of supervision, reporting, advice and proposal, as well as the other duties attributed to it by Law, the Articles of Association or the Regulations of the Board of Directors.

The essential function of the Committee is to act as support for the Board of Directors in its tasks of supervising, through the regular checking of the preparation of economic and financial information, of its executive controls, supervision of the Internal Audit and of the independence of the External Auditor, as well as reviewing compliance with all the legal provisions and internal regulations applicable to the company. Similarly, the Committee has the power to submit the agreement proposal for the Board of Directors, for its subsequent submission to the General Shareholders' Meeting, on the appointment of the External Accounts Auditors, the renewal or cessation of its appointment, and the terms under which it is to be retained.

Since its creation, and until 31 December 2010, the Board of Directors' Audit and Control Committee has met on one hundred and twenty one occasions (the last – in this period – was on 14 December 2010).

2

Composition

Both the Articles of Association and the Regulations of the Board of Directors establish that the Audit and Control Committee will comprise at least three members. Similarly, these rules stipulate that all the members of the Committee should be Outside or non-Executive Directors.

Likewise, and with the aim of ensuring the best fulfilment of its duties, the Regulations of the Board of Directors establish that the members of this Committee will be appointed by the Board, taking into account their knowledge and experience in terms of accountancy, auditing or risk management, and the Chairman must also have experience in business management and knowledge of accounting procedures and, in any event, some of its members must have the financial experience that may be required by the market regulatory bodies of the stock markets in which the shares or titles of the Company are listed, this last is a condition held by Mr. Carmelo de las Morenas López and Mr. Ángel Duráñez Adeva as regards the "financial expert" regulated by the U.S. Securities and Exchange Commission (SEC).

The Committee appoints its Chairman from among its members, who must, in any event, have the status of Independent Outside Director, while the Secretary of the Committee will be the Secretary of the Board of Directors.

The members of the Audit and Control Committee serve for a term of four years as of their appointment, and they may be re-elected after this term, with the exception of its Chairman, who may not be re-elected until one year has elapsed after their resigning from the post, without prejudice to their continuance or re-election as member of the Committee.

During the 2010 fiscal year, the composition of the Audit and Control Committee underwent the following changes:

- At 1 January 2010, the following members of the Board of Directors comprised this Committee:

Position	Members	Type
Chairwoman	Mrs. Paulina Beato Blanco	Independent Outside
Member	Mr. Carmelo de las Morenas López	Independent Outside
Member	Mr. Ángel Duráñez Adeva	Independent Outside
Member	Mr. Javier Echenique Landiribar	Independent Outside

- In November 2010, having reached the post of Mrs. Beato as Chairwoman of the Committee the maximum duration of four years provided in the Law and the bylaws, the Audit and Control Committee of 10 November 2010 agreed to appoint Mr. Duráñez as new Chairman of the Audit and Control Committee for a maximum period of 4 years.

As a result of the above changes, the current composition of the Audit and Control Committee is as follows:

Position	Members	Type
Chairman	Mr. Ángel Duráñez Adeva	Independent Outside
Member	Mrs. Paulina Beato Blanco	Independent Outside
Member	Mr. Carmelo de las Morenas López	Independent Outside
Member	Mr. Javier Echenique Landiribar	Independent Outside

Consequently, during the 2010 fiscal year all the members of the Audit and Control Committee have held the status of "Independent Outside Directors", in accordance with the requirements set out in Article 3.5 of the Regulations of the Board of Directors, having been appointed due to their recognised personal and professional prestige and to their experience and expertise for the exercise of their duties. Similarly, they are not connected with the executive team and the significant shareholders of the company and they incur none of the situations described in Article 13.2 of the Regulations of the Board of Directors.

The professional profiles of the members of the Committee are the following:

Mr. Ángel Duráñez Adeva: BA Economics, Profesor of Commerce, chartered accountant and founding member of the Registry of Economic Auditors. He joined Arthur Andersen in 1965 where he was Partner from 1976 to 2000. Up to March, 2004 he headed the Euroamerica Foundation, of which he was founder, entity dedicated to the development of business, political and cultural relationships between the European Union and the different Latin American Countries. Currently he is Director of Gestevisión Telecinco, S.A., Member of the Advisory Board of Exponencial-Agencia de Desarrollos Audiovisuales, S.L., Ambers & Co and FRIDE (Foundation for the international relations and the foreign development), Chairman of Arcadia Capital, S.L. and Información y Control de Publicaciones, S.A., Member of Foundation Germán Sánchez Ruipérez and Foundation Independiente and Vicepresident of Foundation Euroamérica.

Mrs. Paulina Beato Blanco: Phd Economics, University of Minnesota, Professor of Economic Analysis, Commercial Expert and Economist of the State. Former Executive Chairperson of Red Eléctrica de España, Director of CAMPSA and major financial institutions. Formerly Chief Economist in the Sustainable Development Department of Inter-American Development Bank and Consultant in the Banking Supervision and Regulation Division of the International Monetary Fund. Currently she is advisor to the Iberoamerican Secretary General (Secretaría General Iberoamericana), professor for Economic Analysis in various universities and member of a special Board for promoting Knowledge Society in Andalusia.

Mr. Carmelo de las Morenas López: Ba in Economics and Law. Started Career In Arthur Andersen & Co. Subsequently General Manager of the Spanish Subsidiary of the Deltec Banking Corporation and Chief Finance Officer of Madridoil and Transportes Marítimos Pesados. Joined Repsol Group in 1979 holding different Management Positions. In 1989 he was appointed Chief Financial Officer, up to the end of his career in the company. Up to 31 December 2005

was member of the Standard Advisory Council of IASB. Currently he is Chairman of Casa de Alguacil Inversiones SICAV, S.A., Director of the Britannia Steam Ship Insurance Association, Ltd., Orobaena S.A.T. and Faes Farma, S.A.

Mr. Javier Echenique Landiribar: Ba Economics and Actuarial Science. Former Director-General Manager of Allianz-Ercos and General Manager of BBVA Group. Currently Chairman of Banco Guipuzcoano, Director of Telefónica Móviles México, Actividades de Construcción y Servicios (ACS), S.A., Grupo Empresarial Ence, S.A. and Celistics, L.L.C., Delegate of the Board of Telefónica, S.A. in the Basque region, Member of the Advisory Board of Telefónica Spain, Member of Foundation Novia Salcedo and Member of the Círculo de Empresarios Vascos.

3

Regulation of the Audit and Control Committee

The internal regulation of the Audit and Control Committee is included in Article 39 ("Audit and Control Committee") of the Articles of Association and in Article 32 ("The Audit and Control Committee") of the Regulations of the Board of Directors.

The Articles of Association and the Regulations of the Board of Directors are registered in the Madrid Trade Registry and are accessible to the public on the Company's website (www.repsol.com).

4

Operation

In accordance with the provisions of the Regulations of the Board of Directors, the Audit and Control Committee meets as many times as is necessary in order to fulfil the duties with which it has been entrusted and whenever its Chairman calls it or when so requested by two of its members. The calls to meeting are communicated, with a minimum advance notice of 48 hours, by letter, telex, telegram, fax or e-mail, and will include the agenda of the meeting. The minutes of the previous meeting will be included with the call to meeting, whether they have been approved or not, as will the information that is deemed necessary and that is available.

The meetings are normally held at the registered office of the company, but they may also be held at any other address determined by the Chairman and stated in the call to meeting.

For the Committee to be validly constituted, it is required that more than half of its members attend the meeting, in person or represented, except in the event of a lack of call to meeting, which requires the attendance of all of them. Members of the Committee who do not attend the meeting in person may confer their representation on another member of the Committee.

Agreements must be adopted with the vote in favour of the majority of the members present in person or by representation. In the event of a tie, the Chairman or the person acting in their place at the meeting will have the casting vote.

The Secretary to the Committee draws up the minutes of the agreements adopted at each meeting, which will be available to the members of the Board.

The Chairman of the Committee regularly informs the Board of Directors of the progress of its actions.

The Committee drafts an annual calendar of meetings and an action plan for each fiscal year, including an Annual Report on its actions, informing the Board of this.

Similarly, at least once a year the Committee assesses its operation and the quality and efficiency of its work, informing the Board of this.

5

Resources of the Committee

For the best fulfilment of its duties, the Committee may use the advice of Lawyers or other external professionals, in which case the Secretary of the Board of Directors, on requirement by the Chairman of the Committee, will make available everything necessary for hiring these Lawyers and professionals, whose work will be directly referred to the Committee.

Similarly, it may use the collaboration of any member of the management team or the rest of the staff, and the attendance at its meetings of the Company's Accounts Auditors.

6

Main activities carried out in the 2010 Fiscal Year

In the 2010 fiscal year, the Audit and Control Committee met on nine occasions, as described in the Appendix.

In fulfilment of its essential duty of acting as support for the Board of Directors in its tasks of supervising, and among other activities, the Committee carried out the periodic review of the economic/financial information, the supervision of the internal control systems and the control of the independence of the External Accounts Auditor. This Report contains a summary grouped under the various basic duties of the Committee.

Attached, as an Appendix, is a calendar of the meetings held by the Audit and Control Committee during the 2010 fiscal year, with a description of the main issues discussed in them.

6.1

Economic/financial information

During the period covered by this Activity Report, the Audit and Control Committee has analysed, prior to its presentation to the Board, and with the support of the Economy/Finance General Department and the External Accounts Auditor of the Company, the annual financial statements for the 2009 fiscal year, and the quarterly and six-monthly statements for the first quarter, first six months and third quarter of the 2010 fiscal year.

Similarly, the Committee has verified that the Annual Financial Statements for the 2009 fiscal year, submitted to the Board of Directors for their approval, have been certified by the Chairman and the Group Managing Director of Finance and Corporate Services (CFO) on the terms required by the applicable internal and external rules.

Furthermore, in accordance with the provisions of US legislation on securities market, Repsol YPF has filed with the SEC the "Annual Report on Form 20-F", a report that contains the Group's annual financial statements and financial information according to the criteria set out by the above legislation. To this effect, the Committee has reviewed the content of this report prior to its filing.

Similarly, the Committee has checked the content of the Consolidated Financial Statements for the 2009 fiscal year which the Company, in its capacity as company listed in Argentina, has submitted to the Comisión Nacional de Valores (CNV) and the Bolsa de Comercio in Buenos Aires.

6.2

Internal control systems

In order to check the internal control and risk management systems periodically so that the main risks are identified, managed and adequately understood, the Committee has monitored the progress of the Annual Corporate Audit Plan, aimed at covering the Group's critical and significant risks.

Throughout the fiscal year, the Committee has been informed by the Corporate Audit Director of the most relevant facts and recommendations made evident in the tasks performed in the year and the status of the recommendations issued in previous years.

Similarly, the Committee has been informed regarding the systems to control reserves; the annual planning scheme of the Audit and Control Department, based on the coverage of critical risk universe and which objectives are, among others, to continue the process of identifying risks, developing and improving the methodology for this purpose, and to ensure the effectiveness and efficiency of control systems that the Group has established to mitigate the most critical risk; the analysis of the LNG marketing business in North America and managing their risks; the management of purchase and contracts department risks; the analysis of labour relationship risk in the Repsol Group; the control of risks related to IT security and contingency plans.

Additionally, the Audit and Control Committee has supervised the adaptation of the internal control system on financial information of the Repsol YPF Group to the requirements of the Sarbanes – Oxley Act (Section 404). To this effect, the Audit and Control Committee acts as the ultimate control and supervision body of the operation of the Internal Control over Financial Reporting of the Group Repsol.

6.3 Relations with the Internal Auditor

Besides what has been described in the above section, the Committee has, in accordance with the stipulations of the Regulations of the Board, ensured the independence and efficiency of the Internal Audit and that it has the adequate qualification and resources to fulfil its duties in the Group, both in terms of staff and material elements, systems, procedures and manuals of action.

Similarly, the Committee has been informed of the closing and evaluation of the Annual Plan of Corporate Audit 2009, and analysed, approved and monitored the Annual Corporate Audit Plan for the 2010 fiscal year.

6.4 Relations with the External Auditor

a. Selection of the external auditor for the 2010 fiscal year

In fulfilment of the duties assigned to it, the Audit and Control Committee proposed to the Board of Directors, for its subsequent submission to the General Shareholders' Meeting, the re-election of "Deloitte S.L." as the Accounts Auditor of Repsol YPF, S.A. and of its Consolidated Group, for the period of one year, for the review of the Annual Financial Statements and the Management Report of Repsol YPF, S.A. and of its Consolidated Group for the 2010 fiscal year.

The Board of Directors, for its part, agreed to submit this proposal to the Ordinary General Shareholders' Meeting held on 30 April 2010, which approved it.

b. Pre-approval of the services provided by the external auditors

In order to comply with the requirements of the Sarbanes Oxley Act and other regulations applicable to the Company, and as a measure of good corporate governance, the Audit and Control Committee, in its task of ensuring the independence of the External Auditor, agreed in the 2003 fiscal year on a procedure to approve previously all the services, be they auditing or not, provided by the External Auditor, whatever their extent, scope and nature. This procedure is regulated in an Internal Rule mandatory for the whole of the Repsol YPF Group.

By virtue of this, during the 2010 fiscal year, the Audit and Control Committee previously approved all the services provided by the External Auditor.

Similarly, a delegation of powers to the Chairman of the Audit and Control Committee was established so that she may authorise the services provided by the External Auditor. Making use of this delegation, the Chairman has approved the provision of a series of services for which the ratification of the Committee has after been requested.

c. Information received from the external auditors

In addition to the information provided by the external auditors in other meetings of the Committee, at the meeting of the Audit and Control Committee, held on 23 February 2010, and prior to the review of the annual financial statements, the external auditors of the Repsol YPF Group, Deloitte S.L., after their confirmation of independency in compliance with the rules of the SEC of the United States, informed the Committee of the main aspects noted in the audit of the Annual Financial Statements of Repsol YPF Group at 31 December 2009 and its review of the System of Internal Control over Financial Reporting (SICFR).

In this respect, the external auditors informed that the audit opinion on the Annual Financial Statements of Repsol YPF, S.A. and the Consolidated Annual Financial Statements of Repsol YPF Group was favourable and contained no exception whatsoever. They similarly reported that no "material weakness" had been detected in the SICFR to mention to the Committee.

Similarly, at the meeting of the Audit and Control Committee held on 24 June 2010 and in accordance with the professional audit rules in force in the United States (PCAOB Standards), Deloitte informed the Committee prior to the recording of its audit opinion in the SEC with regard to the "Annual report on form 20-F".

Likewise, at the meeting of the Audit and Control Committee held on 27 July 2010, Deloitte informed of the limited review report of the six-monthly summary statements for the first quarter 2010.

At the meeting of the Audit and Control Committee held on 14 December 2010, Deloitte also informed the Committee on its preliminary review of the consolidated financial statements of Repsol YPF, S.A. at 30 September 2010 in relation to the audit of the Annual Financial Statements for the 2010 fiscal year, and on the situation of their work checking the internal controls over the financial information of the Repsol YPF Group, established in accordance with the requirements of the Sarbanes - Oxley Act (Section 404), and the scope and scheduled plan of that review.

d. Selection process of the external auditor for the 2011 financial year

Article 32.4 of the Regulations of the Board of Directors set out that the term of the External Audit contracts should be for annual periods, unless otherwise provided by applicable legal rules. These contracts may be renewed year on year if the quality of the service is satisfactory and an agreement is reached on its remuneration. However, every five years an open selection process will take place for the leading most prestigious firms

of auditors to choose the one that offers the best balance between the quality of the service offered (the minimums of which will be set as a requirement prior to this process) and the sum of its remuneration, which will be communicated to the Board of Directors in a specific point in its Agenda.

Considering all of this, at its meeting of 10 November 2010, the Audit and Control Committee agreed to start the open selection process of the external auditor set out in Article 32.4 of its Regulations, approving the Conditions of it, which is currently in progress.

The resolution proposal related to the appointment of external auditor that the Board will submit to the Ordinary Shareholders' Meeting 2011 will be the result of this selection process.

6.5 Oil and gas reserves

In fulfilment of the duties assigned to it, in the 2010 fiscal year the Committee supervised the sufficiency and the effective operation of the registry and internal control systems and procedures in the measurement, valuation, classification and accounting of the oil and gas reserves of the Repsol YPF Group, such that their inclusion in the periodical information of the Group is in line at all times with sector standards and applicable regulations.

6.6 Environment and security

With the aim of knowing and guiding the policy, objectives and directives of the Repsol YPF Group in the areas of environment and security, throughout the fiscal year the Committee

has been informed by the Resources Department of the evolution of the main security data and environmental parameters and of the actions taken and the objectives of the Repsol YPF Group in these areas.

6.7	<p>Assessment of the operation of the Audit and Control Committee</p> <p>Based on the most important requisites and functions of the Audit and Control Committee contemplated in applicable legislation, in the Articles of Association and the internal regulations of the Board of Directors and the Committee, the Audit and Control Committee made an assessment in 2010 of its own operation and efficiency in line with the recommendations of the "Unified Code".</p> <p>In view of the results of that assessment, at its meeting of 6 October 2010 the Audit and Control Committee concluded that its operation was satisfactory and that it correctly performed the duties commissioned to it in the applicable laws and internal regulations.</p>
6.8	<p>Disclosure Committee ("Comité Interno de Transparencia") of Repsol YPF, S.A.</p> <p>The Audit and Control Committee has been informed regularly throughout the year on the activities of the Disclosure Committee, receiving and considering the information remitted to it by that Committee.</p>
6.9	<p>"Communications to the Audit Committee" Application</p> <p>In accordance with current regulations in the United States for all the companies that are listed on the Stock Exchanges in that country, and as a Corporate Best Governance measure, in the 2005 fiscal year the Audit and Control Committee set up a procedure for persons so wanting to be able to inform it of any incident or irregularity regarding matters related to accounting, internal accounting controls and auditing that affect the Repsol YPF Group.</p> <p>This application can be accessed by both employees of the Repsol YPF Group, through the intranet, and other interested parties, through the Company website (www.repsol.com). In both cases, the complete confidentiality and anonymity of the persons sending the information is guaranteed.</p> <p>The Audit and Control Committee has supervised the measures adopted with regard to the communications received over this system.</p>
6.10	<p>Criteria of independence of the New York Stock Exchange (NYSE) for foreign private issuers</p> <p>The US legislation require companies listed on the New York Stock Exchange – through ADSs, or American Depositary Shares – to comply with certain sections of "Section 303A of the NYSE's Listed Company Manual". In accordance with this, all the members of the Audit and Control Committee must comply with the requirements of independence set out by Rule 10A-3 of the SEC.</p> <p>Since this rule came into force, on 31 July 2005, the Audit and Control Committee of Repsol YPF, S.A. has complied at all times with it.</p>
