BASIS OF PREPARATION OF THE FINANCIAL INFORMATION

Repsol S.A. ("the Group") activities are carried out in three operating segments:

- **Upstream**, corresponding to the exploration and development of crude oil and natural gas reserves.
- **Downstream**, corresponding, mainly, to (i) the refining, trading and transportation of crude oil and oil products, as well as the commercialization of oil products, petrochemical products and LPG, (ii) the commercialization, transport and regasification of natural gas and liquefied natural gas (LNG), and (iii) renewable energy power projects; and
- **Gas Natural Fenosa**, corresponding to its shareholding in *Gas Natural SDG, S.A.*, whose main activities are the distribution and commercialization of natural gas, and the generation, distribution and commercialization of electricity.

Finally, **Corporation and adjustments** includes activities not attributable to the aforementioned businesses, and specifically, corporate expenses and financial results, as well as intersegment consolidation adjustments.

The results for each segment include those from joint ventures, or other managed companies operated as such, in accordance with the percentage of interest held by the Group, considering its operational and economic metrics in the same manner and with the same detail as for fully consolidated companies. Thus, the Group considers that the nature of its businesses and the way in which results are analyzed for decision-making purposes is adequately reflected.

In addition the Group, considering its business reality and in order to make its disclosures more comparable with those in the sector, uses as a measure of segment results the so-called Adjusted Net Income, corresponding to the recurring net operating income of continuing operations at current cost of supply ("Current Cost of Supply" or CCS) after taxes.

Inventory valuation method widely used in the industry, current cost of supply (CCS), differs from that accepted under prevailing European accounting standards ("Weighted average cost"). The use of CCS methodology facilitates users of financial information comparisons with other companies in the industry. Under CCS methodology, the cost of sales during the period is based on current prices of purchases during the period. Consequently, Adjusted Net Income does not include the so-called Inventory Effect. This Inventory Effect is presented separately net of the tax effect and excluding non-controlling interests and it is the difference between the net income using CCS and the net income using "Weighted average cost".

Likewise, Adjusted Net Income excludes the so-called Non-Recurring Income, that is, those originating from isolated events or transactions of an exceptional nature, or which are not ordinary or usual transactions of the Group. Non-Recurring Income is presented separately, net of the tax effect and excluding non-controlling interests.

However, the Adjusted Net Income of *Gas Natural Fenosa* segment includes the company's net income in accordance with the equity method.

All of the information presented in this *Q1 2016 Results Earnings Release* has been prepared in accordance with the abovementioned criteria, with the exception of the information provided in the Appendix II headed "Consolidated Financial Statements" which has been prepared according to International *Financial Reporting Standards* adopted by the *European Union (IFRS-EU)*.

Appendix III provides a reconciliation of the segment reported metrics and those presented in the consolidated financial statements (IFRS-EU).

In addition, the Group is consolidating the results of the acquired company *Talisman Energy Inc.*¹ ("*Talisman*"), since the date of closing of the transaction, 8 May.

This business combination's accounting treatment will be revised if any of the circumstances contemplated in IFRS 3 Business Combinations materialize since the prescribed 12-month period - starting on the acquisition date - has yet to elapse.

In accordance with IFRS 6 "Exploration for and evaluation of mineral resources", the Group have considered that the capitalization of geology and geophysics costs (G&G) during the exploratory phase provides a fairer presentation of the assets' economic reality and performance of its businesses. For more information about this change in the accounting policy please consult interim condensed consolidated financial statements as of 31 March, 2016.

Repsol will today publish interim condensed consolidated financial statements as of 31 March, 2016 and they will be available on Repsol and the *CNMV's (Comisión Nacional del Mercado de Valores)* websites.

¹ The registered name of *Talisman Energy Inc.* was changed to *Repsol Oil&Gas Canada Inc.* on 1 January, 2016.

(*) 1,000 Mcf/d = 28.32 Mm³/d = 0.178 Mboe/d. (**) Managing the refining business during the quarter improved the actual CCS refining margin approximately by 1 USD/Bbl above the indicator.

KEY MILESTONES FOR THE FIRST QUARTER OF 2016

- **Adjusted net income** in the first quarter was €572 million, 38% lower year-on-year mainly due to the profit, booked in the first quarter of 2015, from the exchange rate positions maintained as a result of the compensation received from Argentina. **Net income** amounted to €434 million, 43% lower year-on-year due to the same reason. Additionally, the first quarter results were influenced by low crude oil and gas prices and by high chemicals and healthy refining margins.

- Quarterly results for the business units are summarized as follows:
 - Adjusted net income from **Upstream** was €17 million positive, with an average Brent price of 34 \$/Bbl, and €207 million higher than in the same period in 2015, mainly due to lower exploration expenses, higher volumes - due to the contribution of acquired assets - and a positive tax effect of €161 million - due to the appreciation of local currencies - partially offset by lower realized oil and gas prices.
 - In **Downstream**, adjusted net income was 4% higher year-on-year as a result of improved Chemicals and a lower tax rate in Spain. However, these effects were partially offset by lower profits in Gas & Power - due to the mild winter in North America - and in refining. However, it is worth noting that in the refining business, operating metrics remained at a healthy level.
 - The adjusted net income of **Gas Natural Fenosa** stood at €99 million, 19% lower year-on-year mainly due to lower profits in the gas commercialization business - as a result of lower margins - and in the gas and electricity distribution business in Latin America.
 - In **Corporate and others**, adjusted net income amounted to €-100 million.
- Upstream **production** reached an average of 714 kboe/d in the first quarter of 2016, 101% higher year-on-year. The increase in production came mainly from acquired assets and the ramp-up of the Cardón IV project in Venezuela and the Sapinhoá project in Brazil.
- **EBITDA CCS** in the first quarter of 2016 reached €1.242 billion, 6% higher compared to that of the first quarter of 2015.
- **Cash flow from operations** of approximately €1 billion broadly covered net investments and dividend payments during the first quarter of 2016. **On page 13 of this document a new section regarding Adjusted Cash Flow Statement has been included to aid understanding.**
- The Group's **net debt** at the end of the quarter stood at €11.978 billion, in line with that of the end of the fourth quarter 2015, despite the challenging commodity price environment. The **net debt to capital employed ratio** stood at 29.7%.
- Material progress was made towards our **Synergies and Efficiency** Strategic Targets which are expected to be over €1.1 billion this year. In the first quarter projects have commenced that will secure 62% of the 2016 annual target and by quarter end 22% of the full year target had already been realized and booked.

GAS (\$/Thousand scf)	2.8	2.5	2.4	(17.2)
Production	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
LIQUIDS (Thousand bbl/d)	132	246	255	92.8
GAS (**) (Million scf/d)	1,249	2,533	2,579	106.5
TOTAL (Thousand boe/d)	355	697	714	101.4

(*) During the first quarter of 2016 the Group has capitalized G&G by an amount of €57 million. (**) 1,000 Mcf/d = 28.32 Mm³/d = 0.178 Mboe/d

Adjusted net income in the quarter was €17 million positive, €207 million higher than the same period in 2015, mainly due to the impact of lower exploration expenses, higher production volumes and a positive impact of taxes, partially offset by lower realized prices.

The principle impacts on the year-on-year performance in the Upstream division are as follows:

- **Higher production** contributed to an increase in operating income of €526 million thanks to the contribution of the acquired assets and the ramp-ups of the Cardón IV project in Venezuela and the Sapinhoá project in Brazil.
- **Exploration expenses**, excluding the exchange rate effect, impact the operating income positively by €196 million, mainly as a result of lower amortization of dry wells.

- **Income tax expense** has impacted the adjusted net income positively by €161 million, mainly due to the positive effect of the appreciation of certain local currencies, principally in Brazil.
- Lower **crude oil and gas realization prices**, net of royalties, had a negative impact on the operating income of €225 million.
- Higher **depreciation and amortization** charges reduced operating income by €201 million mainly due to the increase in production partially offset by lower amortization rate mainly in the U.S. and Trinidad and Tobago following the impairments taken in 2015.
- **Income of equity affiliates and non-controlling interests, exchange rate and others** explains the remaining differences compared to the first quarter of last year.

Upstream **production** reached an average of 714 kboe/d in the first quarter of 2016, 101% higher year-on-year.

During the first quarter of 2016, five wells - three exploratory and two appraisals - were concluded. One of the appraisal wells was deemed successful. Two exploratory wells were unsuccessful while one appraisal and one exploratory well are still under evaluation. The two unsuccessful wells did not impact the results as both wells were carried 100% by our partner.

On 18 April 2016, *Repsol Sinopec Brasil* announced that the Gavea A1 appraisal well (BM-C-33, Campos basin, Brazil) has found a hydrocarbon column of 175 meters, producing during the testing around 16 Mscf/d of gas and 4,000 barrels per day of oil.

Net capital expenditure

Net capital expenditure in Upstream in the first quarter of 2016 amounted to €638 million, a 15% decrease compared to the first quarter of 2015, period in which Talisman was not consolidated.

Excluding divestments, **Development capital expenditure** accounted for 75% of the total investment and was concentrated mainly in Trinidad and Tobago (22%), the U.S. (21%), Brazil (12%), Canada (11%), UK (8%), Algeria (7%) and Venezuela (6%); and **Exploration capital expenditure** represented 22% of the total and was allocated primarily in the U.S. (33%), Brazil (14%), Indonesia (9%), Australia (7%), Algeria (6%), Russia (5%) and Bulgaria (4%).

DOWNSTREAM
(Unaudited figures)

Results (€ Million)	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
ADJUSTED NET INCOME	534	495	556	4.1
Operating income	751	705	718	(4.4)
Income tax	(202)	(189)	(156)	22.8
Income from equity affiliates and non-controlling interests	(15)	(21)	(6)	60.0

LPG SALES (Thousand tons)	704	571	631	(10.4)
NORTH AMERICA NATURAL GAS SALES (TBtu)	106.9	72.3	115.5	8.0
International prices (\$/Mbtu)	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
Henry Hub	3.0	2.3	2.1	(29.9)
Algonquin	11.5	3.0	3.3	(71.3)

(*) Managing the refining business during the quarter improved the actual CCS refining margin approximately by 1 USD/Bbl above the indicator.

Adjusted net income in the first quarter of 2016 amounted to €556 million, 4% higher compared to the first quarter of 2015.

The principal impacts, from the Downstream business activities, on the quarterly earnings performance year-on-year are:

- In **Refining**, lower refining margins partially offset by higher utilization rates reducing operating income by €135 million. Refining margin declined in the period due to the narrower middle distillates and narrower light-heavy crudes spreads.
- In **Chemicals**, increased efficiency as a result of operational improvements in the past, higher sales volumes and improved margins, aided by a better international environment, generated a positive effect on operating income of €102 million.

- In the commercial businesses, **Marketing and LPG**, operating income was in line with the first quarter of 2015.
- In **Gas & Power and Trading**, the operating income was €35 million lower than the first quarter of 2015. The adjusted net income in Gas & Power was almost breakeven in the quarter.
- **Results in other activities, equity affiliates and non-controlling interests, exchange rate and taxes** cover the remaining difference.

Net capital expenditure

Capital expenditure in Downstream in the first quarter of 2016 amounted to €132 million. **Net capital expenditure** amounted to €86 million, including €46 million of divestments, mainly from the Piped LPG business. Repsol expects to close the outstanding Piped LPG transactions in 2016.

GAS NATURAL FENOSA

[Unaudited figures]

Results (€ Million)	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
ADJUSTED NET INCOME	122	123	99	(18.9)

Adjusted net income in the first quarter of 2016 amounted to €99 million, 19% lower year-on-year mainly due to lower profits in the gas commercialization business attributable to the current price environment and the adverse impact of exchange rates in local currencies in Latin American.

CORPORATE AND OTHERS
[Unaudited figures]

Results (€ Million)	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
ADJUSTED NET INCOME	462	119	(100)	-
Corporate and others operating income	(28)	(31)	(63)	(125.0)
Financial result	655	-	(77)	-
Income tax	(165)	150	40	-
EBITDA	(43)	(41)	(48)	(11.6)
NET CAPITAL EXPENDITURE	47	14	(15)	-
EFFECTIVE TAX RATE (%)	26	(496)	(29)	(55.0)

CORPORATE AND OTHERS

Corporate and others accounted for a net expense of €63 million in the first quarter of 2016, compared to a net expense of €28 million in the same quarter of the previous year due to the inclusion of *Talisman* Corporation costs since 8 May, 2015. This effect has been partially offset by lower costs in the Madrid Corporate Centre in the first quarter of 2016.

FINANCIAL RESULTS
[Unaudited figures]

Results (€ Million)	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
NET INTERESTS (includes preferred shares)	(68)	(126)	(115)	(69.1)
OTHER CAPTIONS	723	126	38	(94.7)
TOTAL	655	-	(77)	-

Net financial result in the first quarter of 2016 amounted to €-77 million, €732 million lower than the first quarter of 2015 principally due to the positive results obtained in the first quarter of 2015 from the appreciation of the dollar against the euro. The negative effect of the higher net interests in the first quarter of 2016 due to the acquisition of *Talisman* has been offset by the gain obtained from the second repurchase of *Talisman* bonds.

NET INCOME ANALYSIS: NON-RECURRING ITEMS
NON-RECURRING INCOME
[Unaudited figures]

Results (€ Million)	Q1 2015	Q4 2015	Q1 2016	% Change Q1 16/Q1 15
NON-RECURRING INCOME / (LOSSES)	(27)	(2,390)	19	-

Non-recurring items in the first quarter of 2016 resulted in a net gain of €19 million, mainly due to the net gain from the partial close of the sale of the Piped LPG business in the quarter, partly offset by provisions for indemnities.

NET DEBT ANALYSIS: NET DEBT EVOLUTION AND ADJUSTED CASH FLOW STATEMENT
NET DEBT EVOLUTION

This section presents the changes in the Group's adjusted net debt:

(Unaudited figures)

NET DEBT EVOLUTION (€ Million)	Q1 2016
NET DEBT AT THE START OF THE PERIOD	11,934
EBITDA CCS	(1,242)
CHANGE IN WORKING CAPITAL	572
INCOME TAX RECEIVED /PAID	(269)
NET CAPITAL EXPENDITURE ⁽¹⁾	709
DIVIDENDS PAID AND OTHER EQUITY INSTRUMENTS PAYOUTS	271
OWN SHARES TRANSACTIONS	7
FOREIGN EXCHANGE RATE EFFECT	(128)
COMPANIES' ACQUISITION / SALE EFFECT	-
EQUITY INSTRUMENTS	-
INTEREST AND OTHER MOVEMENTS ⁽²⁾	124
NET DEBT AT THE END OF THE PERIOD	11,978
	2016
CAPITAL EMPLOYED CONTINUED OPERATIONS (€ Million)	40,337
NET DEBT / CAPITAL EMPLOYED (%)	29.7
NET DEBT (x) / EBITDA CCS	2.41

(1) As of March 31, 2016, there were net financial investments amounting to €33 million.

(2) Mainly includes interest expense on borrowings, dividends received and provisions used.

The Group's **net debt** at the end of the first quarter of 2016 stood at €11.978 billion, in line with the end of the fourth quarter of 2015, despite the challenging commodity price environment.

Cash flow from operations of approximately €1 billion, in the first quarter 2016, broadly covered net investments and dividend payments during the period.

The Group's **liquidity** at the end of the first quarter of 2016 stood above €8.9 billion (including undrawn credit lines), and covered 2.3 times gross debt maturities in the short term.

ADJUSTED CASH FLOW STATEMENT

RELEVANT EVENTS

The most significant company-related events since the fourth quarter 2015 earnings release were as follows:

In **Upstream**, on 14 April 2016, Repsol announced that the offshore well Perla 9, located in the Perla field in Cardón IV block in Venezuela, came into production. Production at mega gas field Perla, one of the major offshore gas fields in Latin America, started in July 2015. Cardón IV block is shared by Repsol and ENI 50% each.

On 18 April 2016, *Repsol Sinopec Brasil* announced that the Gavea appraisal A1 well, drilled in the ultra-deep water of BM-C-33 concession (Campos basin, Brazil), found a hydrocarbon column of 175 meters. *Repsol Sinopec Brasil* has a 35% in BM-C-33 concession in partnership with *Statoil* (35%) and *Petrobras* (30%). The well reached a total depth of 6,230 meters and was successfully tested, producing around 16 Mscf/d of gas and 4,000 barrels per day of oil. This is the fourth appraisal well of the Evaluation Plan approved by the ANP (*Agência Nacional do Petróleo*) in November 2013 for this concession that comprises Seat, Gavea and Pão de Açúcar discoveries. The consortium had also drilled and tested Seat-2, PdA-A1 and PdA-A2 appraisal wells. The potential resources for the three discoveries are still under evaluation.

In **Downstream**, on 25 February 2016, Repsol sold its offshore wind power business in the United Kingdom for €238 million to China's *SDIC Power* and it included the sale of the *Inch Cape* project (100%) and the Repsol's share in the *Beatrice* project (25%). The sale is expected to be completed during the first half of 2016.

On 20 April 2016, Repsol announced the agreement with the Chilean company *Abastible* to sell its LPG businesses in Peru and Ecuador for approximately 335 million dollars, subject to the usual adjustments for this type of transaction, as part of the company's goal to sell non-strategic assets. Both transactions are expected to close in upcoming months, once the necessary administrative authorizations are granted. The richness and diversity of Repsol's asset portfolio, especially following the integration of *Talisman*, has allowed the company to find more portfolio management opportunities, including in the sale of assets considered non-strategic.

In **Corporation**, on 17 March 2016, Repsol approved a series of changes to its management team in order to continue advancing in light of the challenges and opportunities relating to the integration of *Talisman* and the challenges affecting the sector. This evolution includes the departure of 41 members of management, including the Executive Managing Directors Cristina Sanz Mendiola and Pedro Fernández Frial.

Throughout March 2016, and after their review, the three Rating Agencies, *Standard & Poor's*, *Moody's* and *Fitch*, confirmed and maintained Repsol's long term debt ratings at BBB-, Baa2 and BBB respectively. It is worth mentioning that *S&P* restored the "intermediate" equity content of Repsol's 2 Billion Euro hybrid bonds in accordance with a deed of undertaking, whereby Repsol waived the right to early redeem the Securities in certain circumstances.

On 30 March 2016, the Board of Directors of Repsol resolved to convene the Annual Shareholders' Meeting which will be held at the *Palacio Municipal de Congresos, Avenida de la Capital de España-*

Madrid, *Campo de las Naciones*, Madrid on May 19, 2016 at 12:00 noon on first call, and at the same time and place on May 20, 2016, on second call.

In the fifth and sixth points of the agenda, the Board of Directors submits for approval the proposals of execution of two capital increases in an amount determinable pursuant to the terms of the resolution of the Annual Shareholders' Meeting, by issuing new common shares having a par value of one (1) Euro each, of the same class and series as those currently in circulation, charged to voluntary reserves, offering the shareholders the possibility of selling the free-of-charge allocation rights to the Company itself or on the market.

On 31 March, Repsol announced that it tendered approximately US\$601 million the outstanding Repsol Oil Gas Canada Inc. (formerly *Talisman Energy Inc.*) bonds, reducing its financing cost. The aggregate principal amount tendered as of today stands at US\$2.3 billion, with a saving in interest payments of approximately €400 million throughout the Strategic Plan 2016-2020 period. The notional amount of Repsol Oil and Gas Canada Inc. bonds outstanding after the two tender offer transactions stands at US\$1.5 billion.

On 11 April 2016, Repsol's "Trading Statement" was published. This document provides provisional information for the first quarter of 2016, including data on the economic environment as well as company performance during the period.

Madrid, 5 May, 2016

A conference call has been scheduled for research analysts and institutional investors for today, 5 May, 2016 at 13.00 (CET) to report on the Repsol Group's first 2016 results. Shareholders and other interested parties can follow the call live through Repsol's corporate website (www.repsol.com). A full recording of the event will also be available to shareholders and investors and any other interested party at www.repsol.com for a period of no less than one month from the date of the live broadcast.

(1) Cash flows from continued operations

(2) These concepts are included in the Net Debt evolution chart within the caption "Interests and other movements"

This document does not constitute an offer or invitation to purchase or subscribe shares, pursuant to the provisions of the *Spanish Securities market Law (Law 24/1988 of the 28th of July, as amended and restated)* and its implementing regulations. In addition, this document does not constitute an offer to purchase, sell, or exchange, neither a request for an offer of purchase, sale or exchange of securities in any other jurisdiction.

This document contains statements that Repsol believes constitute forward-looking statements which may include statements regarding the intent, belief, or current expectations of Repsol and its management, including statements with respect to trends affecting Repsol's financial condition, financial ratios, results of operations, business, strategy, geographic concentration, production volume and reserves, capital expenditures, costs savings, investments and dividend payout policies. These forward-looking statements may also include assumptions regarding future economic and other conditions, such as future crude oil and other prices, refining and marketing margins and exchange rates and are generally identified by the words "expects", "anticipates", "forecasts", "believes", "estimates", "notices" and similar expressions. These statements are not guarantees of future performance, prices, margins, exchange rates or other events and are subject to material risks, uncertainties, changes and other factors which may be beyond Repsol's control or may be difficult to predict. Within those risks are those factors described in the filings made by Repsol and its affiliates with the *Comisión Nacional del Mercado de Valores* in Spain and with any other supervisory authority of those markets where the securities issued by Repsol and/or its affiliates are listed.

Repsol does not undertake to publicly update or revise these forward-looking statements even if experience or future changes make it clear that the projected performance, conditions or events expressed or implied therein will not be realized.

This document has not been audited by the External Auditors of Repsol.
