BASIS OF PREPARATION OF THE FINANCIAL INFORMATION

The definition of the Repsol Group's operating segments is based on the different activities performed and from where the Group earns revenue or incurs expenses, as well as on the organizational structure approved by the Board of Directors for business management purposes. Using these segments as a reference point, Repsol's management team (the Corporate Executive, E&P and Downstream Committees) analyzes the main operating and financial indicators in order to make decisions about segment resource allocation and to assess how Repsol ("the Company") is performing. In 2016, following the closing of the sale of 10% of *Gas Natural SDG, S.A* and termination of the shareholder agreement with *La Caixa* on September 21, 2016, *Gas Natural Fenosa* no longer qualifies as an operating segment. From that date on, the remaining interest in *Gas Natural Fenosa* is included under **Corporate and others**.

The Group's operating segments are:

- Upstream, corresponding to exploration and production of crude oil and natural gas reserves and;
- Downstream, corresponding, mainly, to the following activities: (i) refining and petrochemistry, (ii) trading and transportation of crude oil and oil products, (iii) commercialization of oil products, petrochemical and LPG, (iv) commercialization, transport and regasification of natural gas and liquefied natural gas (LNG).

Finally, **Corporate and others** includes activities not attributable to the aforementioned businesses, and specifically, corporate expenses, earnings and other metrics related to the remaining interest in *Gas Natural SDG*¹, net finance costs and inter-segment consolidation adjustments.

The Group did not aggregate any operating segments for presentation purposes.

Repsol presents its operating segments results by including those corresponding to its joint ventures² and other managed companies operated as such³, in accordance with the percentage interest held by the Group, considering their business and financial metrics in the same manner and with the same level of detail as for fully-consolidated companies. The Group believes that so doing adequately reflects the nature of its businesses and the way in which their performance is analyzed for decision-making purposes.

In addition, the Group, considering its business reality and in order to make its disclosures more comparable with those in the sector, utilizes as a measure of segment profit the so-called **Adjusted Net Income**, which corresponds to net income from continuing operations at current cost of supply or *CCS* after taxes and minority interests and not including certain items of income and expense (**Special Items**). Net finance cost is allocated to the **Corporate and others** segment's Adjusted Net Income/Loss.

Although this measure of profit (*CCS*), widely used in the industry to report the earnings generated in Downstream businesses which necessarily work with significant volumes of inventories that are subject to constant price fluctuations, is not accepted in *European accounting standards* but it does facilitate comparison with the earnings of sector peers and enables analysis of the underlying business performance by stripping out the impact of price fluctuations on reported inventory levels. In net income

¹ It includes the net income of the company according to the equity method. The other metrics (EBITDA, Free Cash Flow, etc.) only reflect the cash flows generated in the Group as shareholder of *Gas Natural SDG, S.A* (Dividends).

² In Repsol Group's operating segments model, joint ventures are consolidated proportionally in accordance with the Group's percent holding.

³ It corresponds to Petrocarabobo, S.A., (Venezuela), an associated entity of the Group.

from continuing operations *CCS*, the cost of volumes sold during the reporting period is calculated using the costs of procurement and production incurred during that same period. As a result, Adjusted Net Income does not include the so-called *Inventory Effect*. This *Inventory Effect* is presented separately, net of tax and minority interests, and corresponds to the difference between income at *CCS* and that arrived at using the Average Weighted Cost accounting method (*AWC*, which is an inventory valuation method used by the Company to determine its results in accordance with *European accounting regulations*).

Likewise, *Adjusted Net Income* does not include the so-called *Special Items*, i.e., certain significant items whose separate presentation is considered convenient to facilitate the monitoring of the ordinary business performance. It includes gains/losses on disposals, personnel restructuring costs, impairments and relevant provisions for risks and expenses. *Special Items* are presented separately, net of the tax effect and minority interests.

All of the information presented in this *Q2 2017 Results Earnings Release* has been prepared in accordance with the abovementioned criteria, with the exception of the information provided in Appendix II “*Consolidated Financial Statements*” which has been prepared according to the *International Financial Reporting Standards adopted by the European Union (IFRS-EU)*.

Appendix III provides a reconciliation of the segment reported metrics and those presented in the consolidated financial statements (IFRS-EU).

In October 2015, the European Securities Markets Authority (ESMA) published the Guidelines on Alternative Performance Measures (APM), of mandatory application for the regulated information to be published from 3 July 2016. Information and disclosures related to APM used on the present Q2 2017 Results Earnings Release are included in Appendix I “*Alternative Performance Measures*” of the Interim Consolidated Management Report for the 1H 2017 and Repsol’s website.

Repsol will publish today the Interim Condensed Consolidated Financial Statements and Management Report for the 1H 2017 and they will be available on Repsol’s and CNMV’s (Comisión Nacional del Mercado de Valores) websites.

KEY MILESTONES FOR THE SECOND QUARTER OF 2017

- **Adjusted net income** in the second quarter was €496 million, 44% higher year-on-year. **Net income** amounted to €367 million, 79% higher year-on-year.
- Quarterly results for the business units are summarized as follows:
 - In **Upstream**, adjusted net income was €115 million, €69 million higher than in the same period of 2016, mainly due to higher realized oil and gas prices, along with a more favorable production mix following the resumption of production in Libya and higher production in Brazil. This was partially offset by lower overall production volumes due to the sale of Tangguh and Ogan Komering in Indonesia, the cessation of production at Varg in Norway, higher exploration expenses and higher absolute taxes due to higher results and local currency depreciation.
 - In **Downstream**, adjusted net income was €429 million, 14% higher year-on-year. Better results in Trading and Gas & Power, growth in petrochemical margins, higher distillation in Refining in Spain and higher margins in Peru, as well as better performance of Marketing, were partially

compensated by a lower refining margin indicator and lower contribution from the LPG business, following disposals in 2016.

- In **Corporate and others**, adjusted net income was €-48 million, €31 million higher than in the same period in 2016, principally due to lower corporate expenses, lower financial interest expense and a reduction in expenses related to foreign exchange positions, partially offset by a lower contribution to results from **Gas Natural Fenosa** following reduction in the equity stake.
- Upstream **production** reached an average of 677 kboe/d in the second quarter of 2017, 3% lower year-on-year mainly due to the sale of TSP (Trinidad and Tobago) and Tangguh (Indonesia) in December 2016, Ogan Komering (Indonesia) in March 2017, the cessation of production in Varg (Norway) in June 2016 and the impact of fluctuating gas demand in Indonesia and Bolivia. This was partially compensated by the resumption of production in Libya, the ramp up of Lapa and Sapinhoa in Brazil and the startup of production in Flyndre, Shaw and Cayley in UK during Q2 2017.
- **EBITDA CCS** in the second quarter of 2017 was €1,463 million, 25% higher compared to that of the second quarter of 2016. **EBITDA CCS** in the first half of 2017 was €3,194 million, 33% higher than the same period in 2016.
- The Group's **net debt** at the end of the quarter stood at €7,477 million, €868 million lower than at the end of the first quarter of 2017, mainly due to cash flow generation from operating activities, including a reduction in working capital, which more than covered net investments and financial interest. At the end of the quarter **net debt to capital employed ratio** stood at 20%.
- Progress continues to be made towards our **Synergies and Efficiency** Targets, with the project expected to deliver €2.1 billion in cash savings in 2017 versus a 2015 benchmark. Year to date by the end of the second quarter 50% of the initial full year target has been posted in the financial statements.

Adjusted net income in the quarter was €115 million, €69 million higher than in the same period in 2016, mainly due to higher realized oil and gas prices, along with a more favorable production mix following the resumption of production in Libya, which had a positive impact of €52 million, and higher production in Brazil. This was partially offset by lower overall production volumes due to the sale of Tangguh and Ogan Komering in Indonesia, the cessation of production at Varg in Norway, higher exploration expenses and higher absolute taxes due to higher results and local currency depreciation.

The principle impacts on the year-on-year performance in the Upstream division excluding the contribution of Libya are as follows:

- Higher crude oil and gas realization prices, net of royalties, had a positive impact on the operating income of €141 million.

- **Lower volumes** contributed negatively to the operating income by €95 million.
- **Higher exploration activity**, excluding exchange rate effect, impacted the operating income negatively by €37 million, mainly as a result of increased activity resulting in higher amortization of dry wells.
- **Depreciation and amortization** charges were €16 million lower mainly due to lower production in Norway, Bolivia and Indonesia, partially offset by higher amortization principally in the UK and Brazil.
- **Income tax expense** has impacted the adjusted net income negatively by €43 million, mainly due to the higher income and local currency impacts principally in Brazil and Colombia.
- **Income of equity affiliates and non-controlling interests, exchange rate and others** explains the remaining differences.

Upstream **production** reached an average of 677 kboe/d in the second quarter of 2017, 3% lower year-on-year mainly due to the sale of TSP (Trinidad and Tobago) and Tangguh (Indonesia) in December 2016, Ogan Komering (Indonesia) in March 2017, the cessation of production in Varg (Norway) in June 2016 and the impact of fluctuating gas demand in Indonesia and Bolivia. This was partially compensated by the resumption of production in Libya, the ramp up of Lapa and Sapinhoa in Brazil and the startup of production in Flyndre, Shaw and Cayley in UK during Q2 2017.

During the second quarter of 2017, five exploratory and one appraisal wells were completed. Three wells were declared positive – two exploratory and the appraisal – while the remaining wells were considered unsuccessful. Two wells were in progress at the end of the quarter.

January – June 2017 results

The **adjusted net income** for the first half of 2017 amounted to €339 million, €276 million higher than in the same period of 2016, mainly due higher realized oil and gas prices and the resumption of production in Libya, partially offset by higher exploration expenses, lower production volumes and higher taxes.

Average production in the first half of 2017 reached 685 Kboe/d, 3% lower than the same period in 2016, mainly due to the sale of assets (TSP and Tangguh in December 2016 and Ogan Komering in March 2017), the cessation of production at Varg (Norway) in June 2016 and lower gas demand in Bolivia. This was partially offset by the restart of production in Libya, the ramp-up of Lapa and Sapinhoa in Brazil and higher production in Peru.

Net investment

Net investment in Upstream in the second quarter of 2017 amounted to €466 million; €177 million lower than the second quarter of 2016.

Excluding divestments, **Development investment** accounted for 76% of the total investment and was concentrated mainly in the U.S. (23%), Trinidad and Tobago (17%), UK (10%), Algeria (7%), Brazil (7%), Vietnam (6%), Canada (5%), Peru (5%) and Bolivia (5%); and **Exploration investment** represented 22% of the total and was allocated primarily in Colombia (26%), Trinidad and Tobago (17%), Vietnam (11%), Norway (11%), Guyana (7%), Bolivia (7%) and Algeria (6%).

Net investment in Upstream in the first half of 2017 amounted to €921 million; €360 million lower than the first half of 2016.

Excluding divestments, **Development investment** accounted for 82% of the total investment and was concentrated mainly in Trinidad and Tobago (22%), the U.S. (19%), UK (9%), Canada (9%), Algeria (8%), Brazil (7%), Bolivia (5%) and Peru (4%); and **Exploration investment** represented 17% of the total and was allocated primarily in Colombia (22%), Trinidad and Tobago (12%), Vietnam (9%), Bolivia (9%), Norway (8%), Algeria (6%), Guyana (5%), Russia (5%) and Peru (4%).

Algonquin	2.4	4.4	2.9	20.8	2.9	3.7	27.6

Adjusted net income in the second quarter of 2017 amounted to €429 million, 14% higher compared to the second quarter of 2016.

The principal impacts year-on-year in the Downstream business are:

- In **Refining** higher utilization rates in the conversion units, partially offset by a lower refining margin indicator, generated a positive effect on the operating income of €34 million. The refining margin indicator decreased compared to 2016 mainly due to narrower light-heavy crudes spreads and weaker gasoline spreads, partially compensated by stronger diesel spreads.
- In **Chemicals**, improving margins were partially offset by higher naphtha prices and lower sales, generating a positive effect on the operating income of €14 million.
- In the commercial businesses, **Marketing, Lubricants and LPG**, operating income was €7 million higher in the second quarter of 2017 mainly due to better results in the Marketing business thanks to higher sales in both the retail and wholesale segments, compensated partially by lower results in the LPG business, following disposals in 2016.

- In **Trading and Gas & Power**, the operating income was €37 million higher than the second quarter of 2016. Gas & Power delivered better results mainly due to the improvement of this business in North America supported by the increase in volumes sold and the reduction of costs.
- **Results in other activities, equity affiliates and non-controlling interests, exchange rate and taxes** cover the remaining difference.

January – June 2017 results

Adjusted net income for the first half of 2017 was €929 million and in line year-on-year. Higher results in Trading and Gas & Power, higher utilization and margin in Peru refining, better performance in the Marketing business were compensated by a lower contribution from LPG.

Net investment

Net investment in Downstream in the second quarter and the first half of 2017 amounted to €154 and €245 million respectively.

CORPORATE AND OTHERS

[Unaudited figures]

Results (€ Million)	Q2 2016	Q1 2017	Q2 2017	% Change Q2 17/Q2 16	January - June 2016	January - June 2017	% Change 2017/2016

CORPORATE AND ADJUSTMENTS

Corporate and adjustments accounted for €-68 million in the second quarter of 2017, compared to €-90 million in the same quarter of the previous year mainly thanks to lower corporate costs.

In the first half of 2017, **Corporate and others** accounted for a net expense of €124 million which compares to a net expense of €153 million in the same period of last year thanks to lower corporate costs.

FINANCIAL RESULTS

The financial result in the second quarter of 2017 amounted to €-74 million, better than the second quarter of 2016 mainly due to lower financial interest expense in 2017 and a reduction of expenses related to foreign exchange positions.

The net financial result in the first half of 2017 was €-229 million, €33 million better than in the same period of last year.

GAS NATURAL FENOSA

Adjusted net income attributable to Repsol, in the second quarter of 2017, amounted to €50 million, 48% lower year-on-year principally due to the lower equity stake in the company since September 2016, and lower electricity commercialization results, partially offset by higher gas distribution results in Latin America.

Adjusted net income for the first half of 2017 was €110 million, 44% lower year-on-year, mainly due to the lower equity stake in the company since September 2016, and lower electricity commercialization results, partially offset by higher gas distribution results in Latin America.

NET INCOME ANALYSIS: SPECIAL ITEMS
SPECIAL ITEMS

[Unaudited figures]

Results (€ Million)	Q2 2016	Q1 2017	Q2 2017	% Change Q2 17/Q2 16	January - June 2016	January - June 2017	% Change 2017/2016
Divestments	191	18	5	(97.4)	250	23	-
Indemnities and workforce restructuring	(316)	(4)	(34)	89.2	(346)	(36)	-
Impairment of assets	(9)	(28)	2	-	(10)	(26)	(160.0)
Provisions and others	(165)	(11)	42	-	(174)	29	-
SPECIAL ITEMS	(299)	(25)	15	-	(280)	(10)	270.0

Special items in the second quarter of 2017 resulted in a net gain of €15 million, mainly due to the reversal of environmental provisions partially compensated by workforce indemnities.

Special items in the first half of 2017 resulted in a net loss of €-10 million.

CASH FLOW ANALYSIS: ADJUSTED CASH FLOW STATEMENT

This section presents the Group's Adjusted Cash Flow Statement:

(Unaudited figures)

	JANUARY - JUNE	
	2016	2017
I. CASH FLOWS FROM OPERATING ACTIVITIES		
EBITDA CCS	2,409	3,194
Changes in working capital ¹	(723)	(473)
Dividends received	303	140
Income taxes received/ (paid)	119	(380)
Other proceeds from/ (payments for) operating activities	(336)	(306)
	1,772	2,175
II. CASH FLOWS USED IN INVESTMENT ACTIVITIES		
Payments for investment activities	(1,657)	(1,264)
Proceeds from divestments	660	32
	(997)	(1,232)
FREE CASH FLOW (I. + II.)	775	943
Payments for dividends and payments on other equity instruments	(271)	(143)
Net interest payments and leases	(398)	(345)
Treasury shares	(49)	(183)
CASH GENERATED IN THE PERIOD	57	272
Financing activities and others	(381)	(248)
NET INCREASE/(DECREASE) IN CASH AND CASH EQUIVALENTS	(324)	24
CASH AND CASH EQUIVALENTS AT THE BEGINNING OF THE PERIOD	2,769	4,918
CASH AND CASH EQUIVALENTS AT THE END OF THE PERIOD	2,445	4,942

(1) It includes an inventory effect pretax of €-86 million and €8 million for 2017 and 2016 respectively.

NET DEBT ANALYSIS: NET DEBT EVOLUTION

This section presents the changes in the Group's adjusted net debt:

(Unaudited figures)

NET DEBT EVOLUTION (€ Million)	Q2 2017	January - June 2017
NET DEBT AT THE START OF THE PERIOD	8,345	8,144
EBITDA CCS	(1,463)	(3,194)
CHANGE IN WORKING CAPITAL ⁽¹⁾	(289)	473
INCOME TAX RECEIVED /PAID	251	380
NET INVESTMENT	655	1,232
DIVIDENDS PAID AND OTHER EQUITY INSTRUMENTS PAYOUTS	5	143
FOREIGN EXCHANGE RATE EFFECT	(131)	(226)
INTEREST AND OTHER MOVEMENTS ⁽²⁾	104	525
NET DEBT AT THE END OF THE PERIOD	7,477	7,477

	2017
CAPITAL EMPLOYED CONTINUED OPERATIONS (€ Million)	37,660
NET DEBT / CAPITAL EMPLOYED (%)	19.9
ROACE (%)	6.5
NET DEBT / EBITDA CCS (x)	1.17

(1) It includes an inventory effect pretax of €-199 million and €-86 million for second quarter 2017 and first half of 2017 respectively.

(2) Principally includes interest expense on borrowings, dividends received, provisions used and companies' acquisition/sale effect.

The Group's net debt at the end of the quarter stood at €7,477 million, €868 million lower than at the end of the first quarter of 2017, mainly due to cash flow generation from operating activities, including a reduction in working capital, which more than covered net investments and financial interests. At quarter end **net debt to capital employed ratio** stood at 20%.

The Group's **liquidity** at the end of the first half of 2017 was approximately €7,8 billion (including undrawn committed credit lines); representing 1.9 times gross debt maturities in the short term.

RELEVANT EVENTS

Material company-related events since the first quarter 2017 results release were as follows:

In **Upstream**, on April 17, Repsol received the approval of the "Field Development Plan" (FDP) from the authorities of Vietnam of the offshore discovery Ca Rong Do (CRD) in block 07/03 in Vietnam. Subsequently, on 26 April, Repsol and the rest of the joint venture partners formalized the "Final Investment Decision" (FID) marking the start of the development phase of the project. First production is anticipated before the end of 2019.

On May 12, Repsol announced first production at the field Shaw in the MAR area (Montrose and Arbroath) in the North Sea of the United Kingdom. Repsol Sinopec Resources UK is the operator of the field which is part of the MAR area redevelopment plan. This project includes the development of two new fields (Shaw and Cayley), for which it has been installed a new production platform (BLP) connected to the Montrose Alpha platform. Cayley field production start-up took place in June 2017.

On June 6, Repsol announced a gas discovery offshore of Trinidad and Tobago. The Savannah and Macadamia wells are located in East Block, inside the Columbus basin, to the East of Trinidad, in water deep of about 150 meters. Repsol has a 30% share in this asset while the remaining 70% belongs to BP (operator). Resources are estimated at around 2 trillion cubic feet of gas.

On June 8, at Kinabalu in Malaysia a new crude oil extraction platform was installed, where Repsol is the operator with a 60% stake. First production is expected during the second half of 2017, following completion of connection and commissioning work along with the development drilling campaign.

On June 29, an agreement was reached with the Russian company Gazprom Neft whereby it acquired 25% of Repsol's stake in Eurotek Yugra Company. Repsol and Gazprom Neft will manage Eurotek Yugra jointly. Eurotek Yugra owns seven licenses in the West Siberian basin (license Karabashky 1, 2, 3, 9, 78, 79 and Kileyski). In the framework of this agreement was also signed a memorandum of understanding to strengthen the collaboration between the two companies in the region, as well as to explore joint investments in the area near the assets of Eurotek Yugra.

In the second quarter 2017, the authorities in Trinidad and Tobago authorized the development of the Angelin project, in which Repsol holds a 30% stake. This field is located in the West Block, 60 kilometers from the island of Trinidad. Production is estimated to start in the first quarter 2019.

In **Corporation**, on 9 May, Repsol International Finance, B.V. closed the issuance of a 500 million euros 5 year bond with a price of 99.568% and an annual fixed coupon of 0.50%, to be listed on the regulated market of the Luxembourg Stock Exchange. This has been the first green bond issued by the Repsol Group, as well as the first issuance of such a product by a company within the Oil & Gas sector. The proceeds will be used to refinance and finance projects aimed at reducing greenhouse gas emissions in refining and chemical activities in Spain and Portugal.

On 19 May 2017, Ordinary General Shareholders' Meeting of Repsol, S.A., held on second call, approved all of the proposals submitted by the Board of Directors, including the re-election of Mr. Rene Dahan, Mr. Manuel Manrique Cecilia and Mr. Luis Suárez de Lezo Mantilla as Directors, the ratification and re-election of Mr. Antonio Massanell Lavilla as Director and the appointment of Ms. María Teresa Ballester Fornés, Ms. Isabel Torremocha Ferrezuelo and Mr. Mariano Marzo Carpio as Directors. All of them for a statutory term of 4 years.

Additionally, on 19 May 2017, Repsol announced the expected timetable for the completion of its paid-up capital increase, approved in the framework of the “Repsol Flexible Dividend” program by the 2017 Annual Shareholders’ Meeting, under item six on the agenda, to be implemented in June and July 2017.

On June 1 2017, in accordance with the resolutions passed by the General Shareholders’ Meeting held on May 20th, 2016 under point 7 of the Agenda, Repsol S.A. informed it has started up the Seventh Cycle of the Share Acquisition Plan by Beneficiaries of Multiannual Remuneration Programs (the “Plan”), initially approved by the Annual General Shareholders’ Meeting of April 15th, 2011. This Plan allows the beneficiaries of those programs (including Executive Directors and members of the Corporate Executive Committee) to invest in Repsol, S.A. shares up to 50% of the gross amount of the incentive received each year, with the particularity that, if they keep the shares for three years from the initial investment (“Consolidation Period”) and fulfil the rest of the conditions of the Plan, the Company will deliver them one additional share (“Additional Shares”) for every three shares acquired initially.

On June 7 2017, Repsol disclosed the Informative Document of the paid-up capital increase approved by the 2017 Annual Shareholders’ Meeting, under item six on the Agenda, as part of the shareholder remuneration program “Repsol Flexible Dividend” (scrip dividend).

On July 4 2017, following the official notices sent to the Spanish Securities Market Commission (Comisión Nacional del Mercado de Valores - CNMV) on May 19 and June 7, 2017, Repsol, S.A. (“Repsol”) announces the end, on June 30, 2017, of the trading period of the free-of-charge allocation rights corresponding to the paid up capital increase implementing the “Repsol Flexible Dividend” shareholders’ remuneration program. Holders of 70.42% of free-of-charge allocation rights (a total of 1,053,700,868 rights) opted to receive new shares of Repsol. Therefore, the final number of shares of one (1) euro par value issued in the capital increase is 30,991,202, where the nominal amount of the increase is 30,991,202 euros; representing an increase of approximately 2.07% of Repsol’s share capital before the capital increase. Moreover, during the period established for that purpose, holders of 29.58% of free-of-charge allocation rights accepted the irrevocable commitment to purchase rights taken by Repsol. Consequently, Repsol acquired 442,703,938 rights for a total amount of 188,591,877.588 euros. Repsol waived the shares corresponding to the free-of-charge allocation rights acquired by virtue of the mentioned commitment.

On 10 July 2017, Repsol’s “Trading Statement” was published; it provided provisional information for the second quarter of 2017, including data on the economic environment as well as company performance during the period.

On 25 July 2017, Standard & Poor’s published a note in which Repsol’s rating outlook was revised from stable to positive, BBB-/A-3 ratings were affirmed.

Madrid, 27 July, 2017

A conference call has been scheduled for research analysts and institutional investors for today, 27 July 2017 at 13.00 (CET) to report on the Repsol Group’s second quarter 2017 results. Shareholders and other interested parties can follow the call live through Repsol’s corporate website (www.repsol.com). A full recording of the event will also be available to shareholders and investors and any other interested party at www.repsol.com for a period of no less than one month from the date of the live broadcast.

Prepared according to International Financial Reporting Standards (IFRS-EU)

	QUARTERLY DATA			JANUARY - JUNE	
	Q2 16	Q1 17	Q2 17	2016	2017
Operating income	336	844	413	678	1,257
Financial result	(138)	(120)	(65)	(196)	(185)
Income from equity affiliates	53	140	83	212	223
Net income before tax	251	864	431	694	1,295
Income tax	(32)	(166)	(60)	(34)	(226)
Net income from continuing operations	219	698	371	660	1,069
Net income from non-controlling interest	(14)	(9)	(4)	(21)	(13)
NET INCOME FROM CONTINUING OPERATIONS	205	689	367	639	1,056
Net income for the year from discontinuing operations	-	-	-	-	-
NET INCOME	205	689	367	639	1,056
Earning per share attributable to the parent company (*)					
Euros/share (*)	0.13	0.45	0.24	0.41	0.68
USD/ADR	0.15	0.48	0.27	0.46	0.78
Average number of shares (**)	1,506,185,630	1,520,668,882	1,519,471,462	1,507,687,345	1,520,066,864
Exchange rates USD/EUR at the end of each quarter	1.11	1.07	1.14	1.11	1.14

(*) To calculate EPS the interest expense from the perpetual obligations (€7 million after taxes in Q2 16, Q1 17 and Q2 17) has been adjusted.

(**) A capital increase for the shareholder's remuneration scheme known as "Repsol dividendo flexible" was carried out in January 2016, December 2016 and June 2017 accordingly, thus share capital is currently represented by 1,527,393,053 shares. The average weighted number of outstanding shares for the presented periods was recalculated in comparison with the previous periods to include the impact of this capital increase in accordance with IAS 33 "Earnings per share". The average number of shares held by the company during each period was also taken into account.

CASH FLOW STATEMENT

(€ millions)

Prepared according to International Financial Reporting Standards (IFRS-EU)

This document contains statements that Repsol believes constitute forward-looking statements which may include statements regarding the intent, belief, or current expectations of Repsol and its management, including statements with respect to trends affecting Repsol's financial condition, financial ratios, results of operations, business, strategy, geographic concentration, production volume and reserves, capital expenditures, costs savings, investments and dividend payout policies. These forward-looking statements may also include assumptions regarding future economic and other conditions, such as future crude oil and other prices, refining and marketing margins and exchange rates and are generally identified by the words "expects", "anticipates", "forecasts", "believes", "estimates", "notices" and similar expressions. These statements are not guarantees of future performance, prices, margins, exchange rates or other events and are subject to material risks, uncertainties, changes and other factors which may be beyond Repsol's control or may be difficult to predict. Within those risks are those factors described in the filings made by Repsol and its affiliates with the Comisión Nacional del Mercado de Valores in Spain and with any other supervisory authority of those markets where the securities issued by Repsol and/or its affiliates are listed.

Repsol does not undertake to publicly update or revise these forward-looking statements even if experience or future changes make it clear that the projected performance, conditions or events expressed or implied therein will not be realized.

This document mentions resources which do not constitute proved reserves and will be recognized as such when they comply with the formal conditions required by the system "SPE/WPC/AAPG/SPEE Petroleum Resources Management System" (SPE-PRMS) (SPE – Society of Petroleum Engineers).

This document does not constitute an offer or invitation to purchase or subscribe shares, pursuant to the provisions of the Royal Legislative Decree 4/2015 of the 23rd of October approving the recast text of the Spanish Securities Market Law and its implementing regulations. In addition, this document does not constitute an offer to purchase, sell, or exchange, neither a request for an offer of purchase, sale or exchange of securities in any other jurisdiction.

The information contained in the document has not been verified or revised by the External Auditors of Repsol.
