Production

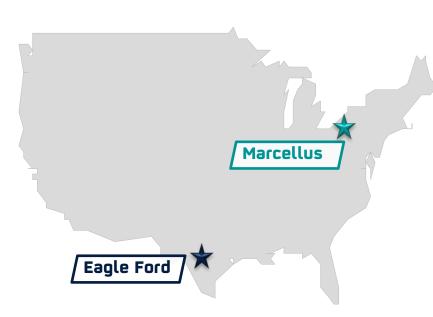

- Production from Talisman assets have been included since May 8th
- For the **full year 2015**, we expect to be **in line** with the goal stablished in the **Strategic Plan** (stripping out Libya from both periods)

#### Production

#### Marcellus

- Acreage held by production.
- Only one rig is operating now allowing us to maintain a plateau of above 400 mmcf per day net of royalties.
- Gas price will determine the pace of growth of this asset.
- During the first half of the year, 17 development wells were drilled in our play and production from the Friendsville area continued to ramp-up.

#### Eagle Ford

- Acreage held by production.
- In process of lowering costs and improving effciencies.
- Drilling focused on liquids-rich acreage.
- Activity is based on a three gross rig programme.
- Repsol participates in a third party non-operated program focused in the liquids rich part of the play
- During the first half of the year, 19 new development wells were drilled in our acreage (net to Repsol).

#### Production

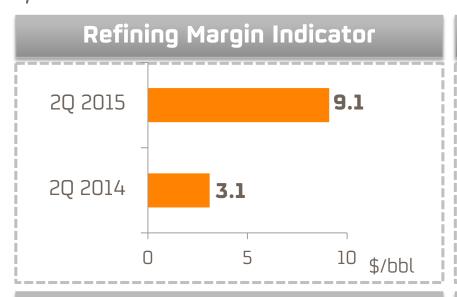

- Production of field Tartan has been restarted.
- Monarb and Claymore have performed well.
- Works on platform <u>Abroath</u> have been finalized
- Increase in production quarter-on-quarter.
- The "turnaround plan" is being implemented in a satisfactory manner.

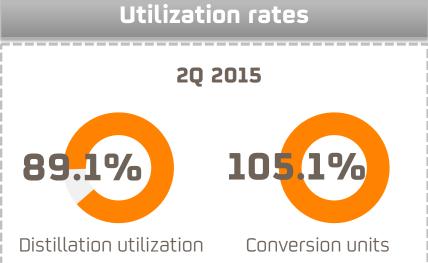

Downstream

#### Petrochemicals businesses

- Higher sales
- Better margins

#### Commercial businesses

- Higher sales in service stations and wholesales
- Lower in the LPG business

# Outlook for 2015 and Efficiency Measures

3

#### Outlook for 2015 and Efficiency Measures

(\*) <u>Assumptions</u>:

- Brent Price: 59\$/bbl

- Henry Hub: 3\$

Excluding the contribution of Talisman assets, the EBITDA will be similar to that of 2014, even in an oil price scenario 40 dollars lower and with no contribution from Libya

## Outlook for 2015 and Efficiency Measures Downstream

- Energy efficiency saving programs
- Optimizing oil purchases
- Maintenance and reliability programs

Refining Margin increase of 1.2\$/bbl compared with 2011

#### Main initiatives provided by synergies are:

G&A and other costs

- Delisting of Talisman
- Integrate space in Calgary and Houston offices and action plan for smaller offices
- IT systems optimization & scale effects
- Optimization of intragroup financing mechanism for TLM entities
- Integration of TLM's services and activities within Repsol current agreements reinsurance program and D&O insurance program
- Commercialization
- Offsetting positions without using external counterparties
- Marcellus supply opportunities for Northeast power market
- Incremental trading margin and volume on Talisman's volumes

**Supply Chain** 

Synergies derive from both greater scale and specific opportunities within the following expenditure categories:

- E&P: Drilling and Completions, Production Operations, Logistics and Vessels
- Global: Travel program, Airlines, Hotels, Consulting & Tax, Chemicals

Operational synergies

- Leverage Repsol's higher G&G processing capabilities
- Exploration portfolio opportunities: capital allocation, portfolio rationalization
